Daniel C. Eaton,
NEW HAVEN, CONNECTICUT.

Sept. 9. 1878.

My dear Mr. Davenport.

It is with great regret that I read of the death of one of your children. I have three - and how carefully + anxiously do I watch them! I hope Mr. Mohr will send me a good series of the Pteris - Possibly we can run it into P. Cretica.

P. Cretica - it is said - has appeared within a few years on the walls of the College in Charleston. I have written for specimens.

I send you the latest find - only sterile fronds as yet gathered. Guess what it is.

Yours very truly

D. C. Eaton.
