 July 9,
 1898,

My dear Mr. Davenport,
 I am working
 away as fast as
 I can to get our
 cryptogamic show
 cases ready before
 the meeting of the
 am. ass. The algae
 are nearly done and
 I am next going
 on to the fungi.
 I am troubled
 about the higher

cryptograms because
I have so little time
not expecting to have
to get things ready
in such a hurry.

To my regret, I
feel that I have
few duplicates of
ferns and lichens
and I may perhaps
be obliged to ask
you whether you
could help me
out at the last
minute.

at best my apren

sentation of the higher
crypts will be inade-
quate for it takes
a good while to
arrange things
properly. I should
regret however,
having to omit
that group until
we have a new
case for them. Even
crowded into our
present cases is
better than nothing,

Yours, truly,
W. G. Farlow
