

H Louisville Pg.

Sep 16- 1879

My Dear friend

I have started in earnest at 2<sup>d</sup> Ed., and now ready for suggestions. I am removing all the numbers entirely, will have the corrections made about crediting the two plants you speak of to Mr Pringle. I think very little, if Mr Horshardt, after what you said, I have always thought him strange, but have had little correspondence with him.

I had a very nice letter today from Mr Watt, "he is much pleased with the book" he says further, "I would like to have sent you *Woodisia hyperborea*, your form is not characteristic enough and also *Cystopteris montana* which you omitted what has become of *Ari. deltatium*"

*Sonchus V Scopulorum* do you grant credit?"

I have been congratulating myself  
on how hyperboreus turned out, I think  
it is pretty good, I only wish they were  
all as good, but I am glad to  
have Mr. Watt express himself  
about the C. montana I was in  
doubts about ~~saying it~~ concluding it  
I may do so in Dec also the  
Aolianum Capellis veneris,  
but I think I will not trouble the  
Adelatation.

I am anxious to see your notice  
in Transcript, I see the  
Boston Advt as often as I want it  
<sup>not</sup> but the Transcript,

You are at perfect liberty to  
say what you please, and if  
you mention the faults why  
all the better, I lose my  
dedicating the book to you will  
not influence you the least, the book  
you know must stand on its own

merits, and when you & I  
are both gone the book  
will still be there to speak  
for itself, if it is worthy of  
existence it will live, if not  
it will die as it ought to  
I have gained a correspondent in  
Florida and one in the Mountains  
of Penn, I think both will  
turn out to be valuable  
about Mrs Cooper I had a  
long letter from her that had  
been mis-carried, it reached me  
about a year after it was written,  
she said nothing about remarrying  
I don't know what & think  
about her, I will write her  
in a few days,

Yours sincerely  
John Williamson

Williamson, John. 1879. "Williamson, John Sep 16, 1879." *George Edward Davenport correspondence*
