

Wash my hand.

Jan 11<sup>th</sup> / 89

My dear Dean:

Thank you for Carex Canii.  
You know I never name an  
Unbelievable without faint still  
I think your plant is  
*Orychobius Peterophyllea* of DC Prodromus  
but according to B.T.H. it gets  
into Carex and the oldest  
name seems to be *C. Burinus* L. of  
S. Europe. How & why it get  
up in N.B. I don't know.

Find out what you can about it.  
I think we will have to make  
a wh- of it. Coulter will be  
here tomorrow & I will have  
him look at it. I feel like  
steal your plant.

Dr. Vasey's wife is very sick and  
he is not at the office now.

Have you Shortia? Then you  
thank the Doctor for naming  
your grasses tell him you  
would like one; he will gladly  
send it. He has some beauties.

His Grass tool is out. I suppose  
you have it.

The new Umbel is Araucaria Brom-  
degei CR.

Hastily  
J. N. Rose

Here are some fractrs.

Rose, J. N. 1890. "Rose, Joseph Nelson Jan. 11, 1890." *Joseph Nelson Rose letters to Walter Deane*
