

Washington D.C.  
Aug 21 1958

My dear Deane:

How I should like  
to be in Boston this week!  
Indeed it was quite a disappoint-  
ment to me to give up the trip.  
I know you had a grand time at  
the banquet Friday night. I am  
anxiously awaiting your account.

I had a half hour call from  
Mr. Greenman Saturday. I was  
sorry to see so little of him. We had  
planned to have some of the Washing-  
ton Botanists in for an evening  
to meet him.

I shall depend on you for news regard-  
ing the A.S. But I had as well as

Quite a number of the other  
Washington paper are to be in  
Boston but I should like <sup>to have</sup> your  
versions as well.

I am still uncertain what to do  
with that little Houstonia. Hope  
your material will throw some  
light upon the matter.

I am glad you enjoyed the  
pictures. They did not please  
us very well but I thought you  
would like to see them. The hope  
to get a better one. Our little

Walter Deane is indeed a great  
comfort ~~too~~. You never saw a  
better baby. He sleeps all the night  
not wakening until about six when  
he wants his bottle. His amusing  
to see him hold his bottle which  
he can do quite well.

I am still hard at work on my Mexican collection.  
It is certainly very rich and valuable collection. It will  
throw much light upon Deems's trip through  
the Sierra Madre as I have collected some of  
his types which have not been collected since his time.  
Look weep & described two new *Cephaea* one with  
short remarkable petals - long hairs with touched like  
tips! But more of this another time.

Yours friend  
J. M. R.

Rose, J. N. 1898. "Rose, Joseph Nelson Aug. 21, 1898." *Joseph Nelson Rose letters to Walter Deane*
