Dear Deane.

Pedicels have arrived (contrary to law about sending liquids in mail) in good condition and have been forwarded to our microscopist. Many thanks.

I have in my herbarium three (3729, 3763, 3775) of the ferns you want and shall send them to you shortly, tomorrow if I think to get them to night at my room. The first is common here; the other two will be of more value to you than to me as my collection is in a very incomplete one regarding ferns as I have given them no special attention. If you have succeeded in securing the

hundred and thirty-odd species and varieties of Mann's Catalogue with the exception of only ten you have done. I have a large number of gaps to be filled mostly from the West. Of course you have Eaton's Fern List which is now authority on their nomenclature.

By the way have you Oster's complete Phænogamous List of North America. (9750 species). If not I have several duplicates which I will send. I have noticed a number of typographical errors in a post-examination and I do not imagine the work

can be depended on for
correctness and yet without
