

[From H. L. J.]

Nashville Tennessee

Nov. 15th 1887

Walter Dean Esq.

Dear Sir.

I shall dispatch to you to day by Express one package, containing about 150 species from your selection in my Flora.

I hope the plants will be satisfactory in general; my duplicates are ebbing away gradually, for I have not collected very largely lately, and almost nothing this year.

I also return your copy of the Tennessee Flora, to which I intend to publish a sheet of additions and corrections. (The additions are about 30 species.)

Please let me know what good things you have for me. I have almost the whole northern Flora, but, a great many are bad specimens! My special desiderata are very few, such as *Cyparis Engelmorii*, *Thaspium spinulosum*, *Rhynchospora scirpoidea*, *Hemikera pubescens* Poir., *Sextualastellaria* *Spiraea argentea*, *Dayes integrifolia* Petalostem. Williams, *Napaea dioica* *Adenocaulon bicolor* *Heliotrope* *tormentosus*, *H. ciliaceus* *Astrantia borealis* &c

Yours truly

J. Gentry
