

Monday evening Dec 17.

Dear Mr Davenport,

Your letter of the 12th I
now ans. Yes it should be scales not hairs
which were ~~sent~~ - Emerton will be
in town in a day or two & will
try & see him about the original of
C. vis.; I see no harm - I did send

D.A.P. Watt a

circular, also Mrs Roy, Ryegton Park, Ocean Sound, Ontario, Donn Canada
British N.A. had one at least - but they have
failed of their duty - The Faxon's did
go it rather strong on Y. Old oph. is
rather suggestive of old liar is it not
& not the "Ancient Lyre" either exactly -

It would be a good thing to send Dr.
Harker all you suggest he is a
very polite man, you know I met
him this summer, & will very likely
respond ^{in a} satisfactory manner —

As to the sentiments expressed you
know I am too much of a goaheada-
tivist to worry over snubs of B. simplex
(which there has not yet been) or any risk —
even if I was inclined so to do the facts
do not warrant it —

I enclose a rough sketch & am

Very truly
Yours
J. H.

Robinson, John. 1872. "Robinson, John Dec 17 [no year]." *George Edward Davenport correspondence*
