

Salun Nov. 10 -

Dear Mr Darrough -

After much hard
brain work, I have evolved from
my inner consciousness the en-
closed - which I propose to issue
as a circular to the fortunate le-
nigs that may be considered worthy
of being permitted to obtain our
work on B. simply - I refer
to those who can be sure to return
me dollar - I wish you to
look it over & suggest any thing.
Now we must play shy on this
matter and not send out any ^{free}
until people have had a chance
to purchase, for instance the

Wart. Soc. Public Library. &c. &c.
we have 200 printed and
a few in reserve to fall
back upon for a rise —

200 is the number to be total of —
we must give to a few
people but the fewer the better,
I have only one or two which
I shall send to at all, &
you can do as you like
about your friends — How
about the Agency — ? I propose
to do our own brokering & shall
not pay Cassano or anyone else
10 % for selling —

I shall send to Eaton & ask him
to notice it in Lillimane Journal,
Goodall for the Natl, and
Lizzett for the Torrey Bulletin -
What other papers will be of
use to us i.e. to have a
notice in? — You must
not mind some cuts they will
sell it just as well as
puffs — particularly if one will
cut, & another of equal standing
puff — Now as to the profits?
I mean receipts — I must have
the first grab, say the actual
cash outlay, then will go
snags on all future receipts -
will that do? — I will write
a note & put it on a separate
page! That will make the book larger

the paper is very thick) about the extreme
care regarding the tracing, ~~accuracy~~
before artistic effect, &c. &c. — that
will bring in I.H.E. —

If the world was made of B.
simply & no one but you & I
could get it, we might send
out one specimen with each
copy, (chromo style you know)
would that not be fine

In haste as tea is
ready

Very Truly
J. R.

Robinson, John. 1872. "Robinson, John Nov 10 [no year]." *George Edward Davenport correspondence*
