Four new combinations were proposed in French & Nicolle (2019) for Eucalyptus taxa from the south-west region of Western Australia, but these did not meet the requirements for valid publication under Article 41.5 of the International Code of Nomenclature for algae, fungi, and plants (Turland et al. 2018), because a full and direct reference to the place of publication for each intended basionym was not provided. In the book, for each new combination, the intended basionym and a bibliographic citation of the work in which it was published was given, but the References list provided only the pagination of that whole publication, not the specific page on which the basionym was published. These new combinations, based on names published by Brooker (1986) and Brooker & Hopper (1991), are validated here.

Eucalyptus improcera (Brooker & Hopper) D.Nicolle & M.E.French, *comb. et stat. nov.*

Eucalyptus densa subsp. *improcera* Brooker & Hopper, *Nuytsia* 8(1): 154 (1991). — **Holotype:** 7.2 km W along Aerodrome Road from Lake King–Ravensthorpe road [Newdegate–Ravensthorpe Road], Western Australia, 19 May 1987, *M.I.H.Brooker 9646 & P.Grayling* (PERTH). **Isotypes:** AD, CANB, MEL, NSW.

Eucalyptus improcera D.Nicolle & M.E.French, Eucalypts W. Austral. S.W. Coast & Ranges 140, nom. inval.

Detailed description, notes and illustrations for this species are provided in French & Nicolle (2019: 140–141).

Eucalyptus redunca subsp. *pluricaulis* (Brooker & Hopper) D.Nicolle & M.E.French, *comb. et stat. nov.*

Eucalyptus pluricaulis Brooker & Hopper, *Nuytsia* 8(1): 155 (1991). — **Holotype:** Depression W of intersection of Mudge Rd and Coorow–Greenhead Road, Western Australia, 21 May 1982, *M.I.H.Brooker* 7522 (CANB). **Isotypes:** CANB, NSW.

Eucalyptus redunca subsp. pluricaulis M.E.French & D.Nicolle, Eucalypts W. Austral. S.W. Coast & Ranges 146, nom. inval.

Detailed description, notes and illustrations for this subspecies are provided in French & Nicolle (2019: 146–147).

Eucalyptus redunca subsp. *porphyrea* (Brooker & Hopper) D.Nicolle & M.E.French, *comb. nov.*

Eucalyptus pluricaulis subsp. *porphyrea* Brooker & Hopper, *Nuytsia* 8(1): 161 (1991). — **Holotype:** 57.8 km south of Jerramungup on Albany road [South Coast Highway], Western Australia, 10 Apr. 1983, *M.I.H.Brooker* 8082 (PERTH). **Isotypes:** CANB, NSW.

Eucalyptus redunca subsp. porphyrea M.E.French & D.Nicolle, Eucalypts W. Austral. S.W. Coast & Ranges 144, nom. inval.

Detailed description, notes and illustrations for this subspecies are provided in French & Nicolle (2019: 144–145).

Eucalyptus redunca Schauer subsp. redunca

The present publication also establishes the autonym *Eucalyptus redunca* Schauer subsp. *redunca*. Detailed description, notes and illustrations for this subspecies are provided in French & Nicolle (2019: 142–143).

Eucalyptus virella (Brooker) D.Nicolle & M.E.French, *comb. et stat. nov.*

Eucalyptus celastroides subsp. *virella* Brooker, *Nuytsia* 5(3): 359 (1986). — **Holotype:** 13.2 km north-east of Calingiri on Wongan Hills road, Western Australia, 28 Aug. 1983, *M.I.H.Brooker 8283* (holo: PERTH). **Isotypes:** AD, BRI, CANB, K, MEL, NSW.

Eucalyptus virella D.Nicolle & M.E.French, Eucalypts W. Austral. S.W. Coast & Ranges 224, nom. inval.

Detailed description, notes and illustrations for this species are provided in French & Nicolle (2019: 224–225).

Acknowledgements

We thank Anna Monro (CANB) for bringing to our attention the invalid publication of the intended new combinations in French & Nicolle (2019), and for reviewing this manuscript. We also thank Jürgen Kellermann (AD) for assisting in the rapid pubication of this short communication.
