History of Case 2360

An application for the designation of *Coeloides scolyticida* Wesmael, 1838 as the type species of *Coeloides* Wesmael, 1838 was received from Dr C. van Achterberg (*Rijksmuseum van Natuurlijke Historie, Leiden, Netherlands*) on 8 September 1980. *C. scolyticida* is the name provisionally proposed by Wesmael, when erecting *Coeloides*, for one of the two included species in case his identification of it as *Bracon initiator* Fabricius, 1793 was incorrect; subsequent work showed this to be so. After correspondence the case was published in BZN 44: 103–104 (June 1987). Notice of the case was sent to appropriate journals.

Decision of the Commission
