

A CLASSIFIED CATALOGUE OF AMERICAN LAND SHELLS, WITH
LOCALITIES.

BY HENRY A. PILSBRY.

Almost a decade has elapsed since the publication of the "Check List of American Land Shells" (Proc. Acad. N. S. Phila., 1889), and the frequent calls for copies of that list since the reprint edition was exhausted, as well as the progress of the science during that period, have induced the editors of THE NAUTILUS to offer a new list covering the same ground.

In the nomenclature of this list we have admitted changes shown to be necessary; and in the classification have frequently forsaken the old roads for paths lately "blazed out," and as yet not much travelled.

Additions and corrections of any kind will be gratefully received.
