SELECTED LITERATURE REFERENCES TO MOSQUITOES AND MOSQUITO-BORNE DISEASES

WILLIAM E. BICKLEY
6516 Forttich Avenue, University Park, MD 20782

The following list has been made possible through the cooperation of the Defense Pest Management Information Analysis Center (DPMiac), Forest Glen, Walter Reed Army Medical Center, Washington, DC 20307. Acknowledgment is made to Frederick J. Santana and the staff of DPMiac. The Review of Applied Entomology, Series B, has been the source of an appreciable number of titles. Selections have been made so that mosquito control workers and researchers may keep abreast of current developments. The work was supported in part by Grant AI 15645 from the National Institute of Allergy and Infectious Diseases, National Institutes of Health, U.S. DHHS.

ANATOMY, MORPHOLOGY, AND PHYSIOLOGY
