Dear Sir :

The Commissioners of Birds beg to call your attention to the following abstracts of the laws of the State of Rhode Island relating to birds:—

“Partridge, Quail and Woodcock shall not be taken, killed or had in possession, between the first day of January and the first day of November following. Penalty \$20 for each bird.”

“Partridge, Quail and Woodcock wherever taken, may not be sold, bought, offered for sale, or possessed with intent to sell, at any time. Penalty \$20 for each bird.”

Such laws are passed in the hope of preventing the extermination of our game birds, and the Commissioners desire your assistance and co-operation in the enforcement of this law.

A special appropriation has been made by the State for the protection of game, and a special officer has been hired as a game warden. Determined efforts will be made to apprehend offenders, who will be prosecuted to the full extent of the law.

Respectfully,

THE COMMISSIONERS OF BIRDS FOR RHODE ISLAND.

ing or killing birds for such bounty to go upon the land of another or to kill any of such above described birds upon land not owned by himself.

NON-RESIDENTS.

No person, not a bona fide resident of the State of Rhode Island, shall hunt, take, kill or pursue with intent to kill any wild bird or animal in the State of Rhode Island without first procuring a license therefor from the Secretary of State.

Penalty, fine not exceeding \$50, or imprisonment not exceeding 30 days, or both fine and imprisonment.

FEED THE BIRDS.

The Commissioners of Birds request persons who are kindly disposed towards birds, to place food for them in their usual haunts during the winter season. With their regular supply of food cut off, all birds—game, plume, song and insectivorous birds alike—are in great danger of extermination by cold and hunger. A small supply of grain, table scraps or the sweepings from hay mows will do much to relieve their distress. Pieces of meat or suet hung in the trees will be eaten by carnivorous species.

In the feeding of birds it is a great advantage to begin before the severe weather sets in, so that the birds may become accustomed to the places where food has been found and the more readily return there when in need.

Persons desiring food to distribute to birds during severe winters should make an application to the Commissioners, either directly or through the Deputy Commissioners.

DEER.

Deer shall not be killed at any time. Penalty \$100 to \$500. Exception. Owner or occupant of land, first procuring a license from the Secretary of State, may, on his own land, kill with shot gun, loaded with shot, deer actually found destroying crops, vegetables, or fruit trees.

Persons trespassing on land posted against hunting or shooting, for the purpose of hunting or shooting, shall be fined \$20. This applies to persons hunting or shooting wild Hawks, Owls or Crows for bounty.

U. S. LAWS RELATING TO SHIPPING GAME.
