LIST OF LANDS IN THE FOREST PRESERVE.

Report of the Superintendent of Forests.

ALBANY, N. Y., *June 1, 1905.*

Forest, Fish and Game Commission:

SIR.—I have the honor to submit herewith a list of lands constituting the Forest Preserve. Though of little or no interest to the general public, it is the most important and valuable publication issued by the Department. It is the basis of the entire landed business of the Commission. In this printed list will be found, convenient to hand, full information as to what land the State owns in the Forest Preserve counties, the acreage of each lot, and its location. The source of title is also stated,—whether acquired at tax sale, by purchase, foreclosure of mortgage, or sale of bonded lands. If acquired by tax sale, the year in which the sale was held is given; and, if by purchase, the year when the property was bought.

From these schedules the draughtsman obtains the information which enables him to show in colors the State lands on the Adirondack and Catskill maps, and to thus indicate definitely the location of each one of the 6,262 separate parcels of land which constitute the Forest Preserve. With this printed list of lots, each forester and fire warden knows which lands are in his care and custody, and the property that requires his supervision or watchcare.

In section 216, chapter 20, Laws of 1900, the Preserve is defined as follows:

The Forest Preserve shall include the lands owned or hereafter acquired by the State within the county of Clinton, except the towns of Altona and Dannemora, and the counties of Delaware,

Essex, Franklin, Fulton, Hamilton, Herkimer, Lewis, Oneida, Saratoga, St. Lawrence, Warren, Washington, Greene, Ulster and Sullivan, except

1. Lands within the limits of any village or city, and
2. Lands not wild lands acquired by the State on foreclosure of mortgages made to loan commissioners.

The second exception renders it difficult in some instances to determine whether a parcel of land belongs to the Preserve. A farm property, sold under foreclosure, may contain a large tract of woods or "wild land" as well as cleared or cultivated ground. The question then arises whether the portion containing the woodlands does not belong to the Preserve.

It is not always easy to draw the line between wild land and pasture. Then, again, some of the areas acquired by the State under foreclosure of mortgages made to loan commissioners are now abandoned farms that have grown up to brush or trees, and which in a few years will become second-growth forests. For these reasons several lots obtained through foreclosures are included in the list.

The list contains, also, some lands acquired through tax sales, the title to which may be doubtful, owing to errors on the part of the assessors or tax collectors. These errors had not been discovered at the time of the tax sale, and so the title to the lands passed nominally to the State. As these lots are entered upon the books of the comptroller as State land, it becomes necessary to include them here as part of the Forest Preserve. In fact, these lands with their disputed titles cannot be stricken off the schedule except by order of the courts or action of the Legislature.

The large tract in Franklin county, bought by the Forest Preserve Board for the use of the State College of Forestry, is included here as a part of the Forest Preserve in accordance with the law which provides that it "shall include the lands owned or *hereafter acquired*

by the State." The Commission, however, has excepted this tract in its administrative work, for the land was deeded in trust to Cornell University for thirty years, during which time the university, as provided by law, "shall have the title, possession, management, and control of such land," for the purpose of maintaining the State College of Forestry.

A list of the various parcels in the St. Lawrence Reservation or International park is appended for convenient reference, but it is not included in the schedules of the Preserve; for some of these reservation lots are situated in Jefferson county which is not one of the sixteen counties mentioned in the law constituting the Forest Preserve. These lots, which were purchased by the State in 1897 and 1898 through a special appropriation for that purpose, are situated on various points or islands in the St. Lawrence river in the vicinity of the Thousand Islands. They are under the care and control of the Commission, and though not wild or forest lands are properly a part of the Preserve.

For further reference and information there is appended also a list of the lands owned by the State in the towns of Altona and Dannemora, Clinton county. In the forestry law these lands are excluded from the Forest Preserve, it being understood at the time this law was framed, in 1885, that the timber on them would be needed for the use of the State prison at Dannemora.

It is doubtful whether some of the State lands in the adjoining towns are properly a part of the Forest Preserve, owing to a provision in section 67, chapter 208, Laws of 1894, which reads as follows:

"All uncultivated lands belonging to the State of New York, or which may hereafter become the property of said State, and which shall be situated within ten miles of the Clinton prison, shall be withdrawn from sale, and shall be retained by the State for the use of said prison."

But when the forestry law was codified and re-enacted in 1900 the section defining the Forest Preserve made no exception of lands within ten miles of the prison, and excluded only the State holdings in Altona and Dannemora.

The acreage of the Forest Preserve by counties is as follows:

ADIRONDACK PRESERVE.

COUNTIES.	Number of parcels.	Acquired at tax sales.	Acquired by purchase.

Catskills.....	559
	<hr/>
Total.....	6,262
	<hr/>

Acreage.

Adirondack counties:

*Within Adirondack Park..... 1,228,357

Outside Adirondack Park..... 118,923

1,347,280 acres

*Does not include entire area within the park, as the State has acquired at present only a part of the territory.

Catskill counties:

*Within Catskill Park.....	82,652	
Outside Catskill Park.....	10,056	
		<hr/> 92,708 acres
Total State ownership....		<hr/> 1,439,988 acres <hr/>

SOURCES OF TITLE.

Lands purchased prior to 1897.....	151,451.00	
Lands purchased since Jan. 1, 1897....	499,597.03	
		<hr/> 651,048.03
Mortgage foreclosures.....		10,459.46
Resale bonded land.....		9,970.97
Tax sales.....		768,509.54
		<hr/>
Total, Forest Preserve.....		<hr/> 1,439,988.00 <hr/>

This acreage is constantly increasing through the purchases of the Commission. In fact, it is considerably greater at this date than the above figures indicate, owing to lands that were purchased but not conveyed at the time these schedules were completed.

It will be noticed by referring to the pages containing the following land list that one column is set apart in order to show the source of title to each lot or parcel. From the data in this column it appears that of the 768,509 acres acquired through tax sales, the title to over three-fourths of the lands thus obtained came through the sales of 1871 and 1877. The lands acquired at these sales were for the most part covered with a virgin forest in which no lumbering had been done. The greater part of the lands acquired by the subsequent sales were what is known as lumbered lands, although on a large portion of them the cutting had not been very close. On this latter class of lots none of the hardwood had been taken, and the softwoods had not

* Does not include entire area within the park, as the State has acquired at present only a part of the territory.

been cut below 10 inches. By the tax sale of 1895 only 39,564 acres were acquired; and in the sale of 1900 the acquisition from this source was reduced to 7,202 acres, nearly all of which consisted of lands situated outside the Adirondack Park. The Comptroller expects to hold another tax sale this year (1905); but it is doubtful if any land will be acquired from this source that is situated within the Park boundaries. Any further extension of the Forest Preserve, aside from a few small, worthless lots, will have to be made through the medium of purchases by the State.

As previously stated here the Forest Preserve consists of 6,262 separate lots or parcels of land, mostly of 160-acre lots. Some tracts are surveyed out in parcels of 200 acres each, and some townships are subdivided into mile square lots. Some townships containing 30,000 acres are merely quartered. And so the lots vary from quarter-sections of 40 acres to quarter-townships of 7,500. But, whether small or large, each one of these 6,262 parcels of State land in the Forest Preserve has its own surveyed boundary, stands on its own title, and is a distinct, independent piece of real estate. Several of these lots, when purchased, may be conveyed to the State in the same deed; but one does not have to go back very far in the abstract of title before there is a divergence in the line of ownership. Your attention is thus called to the large number of separate properties in order to give a better idea of the work necessary in keeping a proper record of all this real estate and protecting the various titles.

ADIRONDACK PARK.

The area of the Adirondack Park, of which the State owns only a part, is 3,313,564 acres. So many persons are apt to think or speak of the Adirondack Park and the Forest Preserve as being the same, it may be well to state that, of the 1,347,280 acres in the Forest Preserve lands of Northern New York, 1,228,357 acres

are situated within the Park, and the remainder, 118,923 acres, are outside the boundary or "blue line" as shown on the last edition of the Adirondack map issued by your Commission.

The actual acreage of the Adirondack Park is greater than the area indicated by the figures given,—how much so it is difficult to say. The statement of area, as reported here is based on the assessed acreage of each lot, which as we have learned by experience is generally less than the real acreage when determined by a careful survey. Most of the lands in the Adirondacks are bought and sold by the assessed acreage, the old conveyances specifying the number of acres and always qualifying the statement with the words "more or less." Whenever we have found it necessary to make a careful survey and chaining of a lot, parcel or township, we have discovered almost invariably that there was a surplus, that the lot "overrun" the acreage called for in the various deeds, and on which the assessment is made.

This condition is largely due to the loose methods of work in use by the old surveyors who made the original allotments. They used a drag chain, and ran the lines as fast as they could, some of them being paid by the number of acres surveyed instead of by the days worked. Whenever, in their haste or carelessness, they failed to tally a chain there was a corresponding increase of unrecorded area; and, in some instances, as stated in their field notes the colonial surveyors "threw in a few chains for good measure."

It would be difficult to estimate, even approximately, how far such methods have contributed to the difference between the assessed and actual acreage; but a careful study of the facts, together with many years experience in these land statistics, leads me to believe that the lots will in the aggregate overrun the old surveys at least five per cent; and, that while the official assessed acreage of the Adirondack Park is placed here at 3,313,564 acres, the actual acreage is not far from 3,475,000 acres.

CATSKILL PARK.

The Catskill Park, as defined in the State law, contains 576,120 acres, and includes a part of each of the following named counties: Delaware, Greene, Sullivan and Ulster.

I desire to acknowledge here the valuable services rendered by Mr. A. B. Strough, of this office, in compiling and tabulating the following schedules. His faithful attention, combined with his previous experience in this particular class of work, insures its accuracy and reliability.

I would respectfully suggest that this land list be printed as a separate, or second volume of the annual report. As the work contains no reading matter, or little of interest to the general public, the edition can be limited to such number only as may be necessary for the use of the officials, fire wardens and foresters, with some additional copies for the Comptroller's office, and to supply, the demand made by people who own adjacent lands.

WILLIAM F. FOX,

Superintendent State Forests.
