MISS ELLA V. BAINES,
THE WOMAN FLORIST.

BEAUTIFY YOUR HOMES 1901.

THE 4 Ramlers FOR 35 C.

Springfield, OHIO.
MY GUARANTEE:

That all plants I ship shall reach their destination in growing condition at any season of the year. Send your remittance by Postoffice Order, Registered Letter, New York Draft or Express Money Order. When you send stamps let them be one-cent stamps if possible, but please do not send stamps except for fractions of a dollar. I pay the postage on all orders that go by mail.

I PAY THE EXPRESS CHARGES ON ALL ORDERS OF $3.00 OR OVER.

READ THIS OFFER: Patrons often complain of the heavy express charges. Now I propose to pay all expressage, when the order amounts to $3.00 or more, to any point in the United States where there is an express office. Of course it will cost me lots of money, but it will be to the advantage of my patrons. You will have your plants laid down FREE at your doors, the same as though the greenhouse was in your town or village. You will also observe my prices are low. No better stock offered in the country. Please call the attention of your neighbors and friends to my liberal offers, and get them to send their orders to me. My plants, etc., are sure to please.

CLUBBING RATES.

Do not include Collections or Special Offers in making up your discounts, as it only applies to price per single plant or bulb.

Any person sending $2.00 may select plants to the value of ........................................ 40c extra

No two alike in the above sets. Any three Sets for $1.25. Any five Sets for $2.00. Do not include these Sets in your order when you select clubbing rates. They are net.

Remember, I pay postage on all orders, and express charges when the order amounts to $3.00 or over, when you do not take collections of plants, to any express office in the United States. All collections are net. Get your friends to join with you and make your order $5.00.
The above is a photograph of a plant of the Ponderosa Lemon taken Oct. 1st. 1900. On April 15th this plant was entirely leafless and shows what a remarkable free growing and free fruiting lemon Ponderosa is. Read what the lady says about this plant who grew it and from whom we purchased it.

THE GOOD & REESE COMPANY.  
No. 30 Antietam St. Hagerstown Maryland.  
I received your letter yesterday and was very glad to hear that the Lemon Tree gave such perfect satisfaction. I assure you we still miss the tree as every one thought it a beauty. I cannot say where the Lemon Tree came from, I have had it for several years and the friend who gave it to me could not tell how it originated. It was very easy to keep, for after it ripened its fruit in the fall I placed it in my cellar which is very bright, having two windows in it. The spring before you bought the tree from me it had a few buds on when I brought it out of the cellar, I set it in the yard in the open air and in June it was a beautiful sight in full bloom, and it was in full bloom from that time until you bought it. All those large lemons grew on it after I brought it from the cellar. I can say of this Lemon that it is grand and no one ever saw anything like it and any one may be proud to have it.

ELIZABETH HAGERMAN.
The Wonderful New Lemon, **PONDEROSA.**

**O**THING that has ever been brought to our notice in the plant line has caused half the commotion that this wonderful Lemon has. Our sales of it last year was Fifty Thousand Plants and every body is delighted with it. We have 250,000 plants to offer this year.

**Ponderosa**

The Ever-Bearing Lemon.

It is a true ever-bearing variety. On a plant six feet high or less than eighty-nine of these ponderous Lemons were growing at one time. It was a beautiful sight to see. The tree was blooming and at the same time had fruit in all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. It blooms and bears fruit when quite small and you do not have to wait 4 or 5 years to get fruit.

**PONDEROSA**

**Its Ponderous Size.** Fruit has been taken from this tree weighing over four pounds. The lemons will average two and one-half to three pounds. Now this may seem to you like a fairy tale but it is a fact that this is the largest lemon known. There is a lemon sold by nurserymen that goes under the name of Large Lemon, but **Ponderosa** is distinct from that variety.

The fruit of Ponderosa is twice the size of the so called Large Lemon. The Large Lemon is not to be compared to Ponderosa in prolific fruitage. Ponderosa will produce 5 lemons or more to its one.

**Ponderosa**

**Its Flavor Unsurpassed.**

The Lemons have very thin rind for such large fruit. It is the juiciest of all Lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. It is not uncommon to make twelve lemon pies from one lemon. Everybody who has tasted this Lemon unite in saying that for delicious flavor no other lemon could approach it. It is not a Lime Fruit and does not resemble a Lime in any particular. Ponderosa is the largest, juiciest, richest flavored lemon ever produced.

**Ponderosa Lemon**

**On its Own Roots.**

We have the entire stock of this ponderous Lemon, and guarantee the trees to produce the same large fruit. No budding or grafting necessary as every plant we send out is on its own roots and will produce fruit as freely and large as shown in the photograph.

**PONDEROSA**

**As a House Plant.**

If Ponderosa Lemon did not produce a single bloom or fruit it still would eclipse many of the plants used now for decorative purposes. We say this to let you know that it is one of the most desirable of house plants. It will stand all kind of rough usage and neglect and still look well. The foliage is deliciously fragrant, is very large, thick and leathery, of the deepest green. You can prune it into any size or shape desired without affecting its blooming or fruiting. We think it a far more decorative plant as to foliage alone than the famous Rubber Tree, but when in full bloom with fruit in all stages of development, from wee tiny things, to the ponderous golden-yellow fruit, then it is "a thing of beauty and a joy forever."

**Ponderosa--Its Fragrant Flowers.**

In size and fragrance far excelling the orange blossom. Coming as they do in immense clusters of pure snow white, the center of each flower being filled with yellow stamens, remaining quite a while before falling. A plant of this lemon in bloom will scent your house through and through with the fragrance of the delicious orange blossom.

**PONDEROSA as a Fruit of Commerce**

This Lemon will be introduced to commerce just as soon as the trees can be grown. We have sold many thousand of it for outdoor planting. The south is particularly adapted to its culture. It is a much harder tree than the orange, it having stood in a shed when the temperature was below zero without any damage to the tree. Plant it in your yard or garden.

**Ponderosa Speaks for Itself.**

See the photograph on the other side of this circular. Ponderosa Lemon is sure to become popular when it is known. Everybody can grow their own lemons as it will fruit freely the second year. **Thrifty young plants 20 cts. each, 3 for 50 cts. Large two year old plants to bloom and fruit at once, 60 cents each.**

Our Stock of Ponderosa Lemon was Purchased from the Good & Reese Co who introduced this wonderful plant.

**Miss Ella V. Baines, THE WOMAN FLORIST, Springfield, Ohio.**
NEW JAPANESE RAMBLER ROSES

Rose growers everywhere will hail with delight the announcement that I have to offer them as companions to the famous Crimson Rambler three other distinct colors of Rambler roses. They are all hardy, and are free from any of the faults that will come with Crimson Rambler for beauty in any respect. It is a gem.

THE FOUR RAMBLER ROSES, ALL DIFFERENT COLORS, SENT FOR ONLY 35 CENTS, LARGE TWO-YEAR-OLD PLANTS, THE FOUR FOR $1.35.

SEE FRONT OF COVER FOR RAMBLER ROSES IN COLORS.

New Yellow Rambler, Aglalita.—Rosarians have been for years looking longingly to obtain a hardy yellow climbing rose, but the combination of climbing habit and yellow coloring with hardiness was so far beyond the reach of human skill that it seemed impossible to obtain, and was almost despised of. The Yellow Rambler has been found to successfully withstand the extreme temperatures of June and July, and in two degrees below, which proves it to be far harder than any other yellow climbing Rose yet introduced, and I believe that the layout of plants down in the Winter it can be successfully grown in nearly all the northern parts of the United States; in fact, anywhere that other Roses succeed at all. Did I say nothing more about the Rose, I think that this would be sufficient to establish its value, for that lover of Roses in the North has not beheld the severity of climate which nearly deprives his garden of the most attractive color of all—yellow. The flowers are borne in immense clusters, after the same manner as the so-called white-rambler, in early autumn in form, and fifty blossoms in a bunch, and the trusses have the same handsome pyramidal shape as those of Crimson Rambler. The color is a true yellow, 35 cents each; large two-year-old plants, 40 cents each.

CAUTION.—There are other so-called Yellow Rambler that do not possess these characteristics. It is absolutely essential that the new yellow Rambler should be so marked to the order to prevent the ‘Rambler family, lacking hardness, vigor of growth, and the habit of blooming in trusses like Crimson Rambler. It is thus impossible to accept any unless it is Lambert’s Yellow Rambler.

Do not miss getting this beautiful new Rose. It is one of the greatest novelties of the season.

New Pink Rambler, Empressz.—The Pink Rambler completely the entire range of cardinal colors that can be embraced in the beautiful Climbing roses. Now have the Crimson Rambler, the Yellow Rambler, the White Rambler, and the Pink Rambler. This Rose is as charming as any of its rivals, enchanting all with its lovely, remarkable, vigorous growth, profuse blooming and delightful fragrance. Be sure and have a trial of the Pink Rambler Rose, 10 cents each; large two-year-old plants, 40 cents each.

New Crimson Rambler.—The plant is of very vigorous growth, making shoots from eight to ten feet in length during the season, rendering it a charming polka Rose. It is also magnificent in both form, and for retaining its beauty. The blooms will be excelled. The flowers are produced in great pyramidal bunches, each carrying from thirty to forty blooms, the individual flowers measuring about one to one and a half inches in diameter. It is covered with flowers from the ground to its very top. It is hardly in every latitude yet tried as far north as the lakes. As a decorative pot plant it cannot be excelled. I can recommend this novelty in the strongest manner as being a new Rose of great importance and value. A correspondent of the London Garden writes in the issue of July 14, 1891: ‘With me at this date (July 6) this Rose is grand. I have a dozen large plants on prepared ground and one new one, I have a continuous shortening back and placing stakes to support the long growths. I have a liberal supply of Rambler and early rose hips, but that the growths are very strong, and the clusters of bright crimson flowers at this date are beautiful. On one shoot alone I counted over three hundred flowers, 10 cents each; large two-year-old plants, 40 cents each.

New White Rambler, Thalia.—This charming new Rose of the Rambler variety is a wonder. It climbs rapidly, is entirely hardy, produces immense clusters of pure white Roses, perfectly double, of delightful fragrance, and of an immaculate whiteness. It is without question the best climbing Rose extant. 10 cents each; large two-year-old plants, 40 cents each.

The MAGNIFICENT SURPRISE COLLECTION.

SEE BACK OF COVER FOR SURPRISE COLLECTION IN COLORS.

This is a grand collection of plants suitable to plant outdoors or for pot culture. The entire set of ten plants mailed to any address for 75 cents. Buy a Surprise Collection, and get a handsome collection of plants.

Pink Rose, Bridesmaid.—All know that Bridesmaid takes precedence as a pink Rose. More plants of it are cultivated by the grower than every other that is known. It is as sold by the flower dealer of it than any pink Rose. Why? Because the variety is of exquisite shape and contour, so solid and firm, the stems and leaves are perfect. It is now time that we American rose growers will compare with it in keeping qualities after being cut.

White Rose, The Bride, or White Merton.—The purest white of all the white Roses, in bloom it is never equaled by any other. The buds will be large enough to put with long sprays of foliage, would grace any bride in her wedding dress. It is unsurpassed for purity of whiteness and form and size. It "pinks" in the bright, hot weather of mid-Summer when plant ed out of doors.

Red Rose, Meteor.—A velvety-red over-bloomer of the deepest glowing crimson, as fine as a Hybrid. Flowers of medium size, very double and slightly recurving. This is unquestionably the best dark, velvety red Rose yet produced. Grand, both in bud and in flower.

Pink Chrysanthemum, Indiana.—This variety produces the largest blooms to be found in the family, with one or two exceptions. The size of the blooms is equalled only by the Multiflora. The variety has a circumference of twenty-two inches, nicely incurved, and of a deep, bright pink, outside of petals a little lighter.

Yellow Chrysanthemum.—The second best yellow ever offered. This fine variety swept everything before it at the New York and Philadelphia shows. In color it is deep, bright yellow, a little finer in size, the petals are both long and broad, and channelled lengthwise.

Fuchsia, Black Prince.—I have seen a plant of this Fuchsia six feet high; it has been photographed, and well worth loading with over five thousand of its bright blooms. It was an object of beauty not soon forgotten. It is of the earliest culture, and is a very beautiful flower. No plant will attract more attention than a well-grown specimen of Fuchsia Black Prince. Its clusters of long, drooping, tube-like, brilliant flowers, and very large, green foliage, give it a most striking and beautiful appearance.

Otaheite Orange.—As a pot plant, this lovely dwarf Orange is one of the most popular of the flowering kinds. With a couple of plants of it you can have an abundance of the famed delicate and fragrant Orange blossoms. I have grown a large bed of Orange trees, with the growth of these flowers but two weeks old and with long sprays of foliage, would grace any garden in the world. These flowers have been produced at once, of this beautiful Orange, and commend it to my friends as a novelty of sterling worth and merit.

Sasanqua, Sir. H. S. Algonquin.—This is a decorative plant of great beauty and value. A beautiful plant, splendidly adapted for the decoration of drawing rooms or halls, as it stands drudgery and dust. The flowers are red, but not as dark as the crimson. They are fragrant, perfect in form, and grow to a length of three or four feet, and are beautifully striped crimson, or red, white, variegations on a dark green ground. A rare and beautiful plant which should be absolutely grown for positions out of the reach of sunlight, when planted with a little of the same, protection can be placed in any position in any room and do well, its great usefulness is at once apparent.

Pink Caravirus, Ascot. —Flowers very large and perfect in form. Color a bright, rosy pink, with salmon shading, when the flower is fully expanded. A very healthy grower and blooms freely for weeks. I have seen it fourteen feet high. This I consider one of the best pink varieties ever offered, and an excellent variety for pot culture.

New Climbing Moss Rose, "CUMBERLAND BELLE." This is the forerunner of a new race of Roses, a grand, true climbing Rose Moss. It is of American origin, having been found growing in a private garden in the historic Cumberland Valley by the Misses Moss. It is a strong, vigorous grower, quite a strong, vigorous grower, which is wonderfully developed in the offspring, the original sport the first season having attained a height of over fifteen feet and had one hundred and eighteen buds and flowers on it at one time. The past season, planted side by side with Crimson Rambler and other rampant growers, it equally equaled them in vigor of growth. In color it is identical with the parent, a bright silvery rose, very double, the buds nicely mossed and exquisitely fragrant. 25 cents each.
WHY NOT BUY YOUR FLOWERS OF A WOMAN

The cultivation of flowers is an occupation pre-eminently suited to a woman. All flower growers realize that if it were not for the ladies patronizing them, but few of them would be in the business; for out of every hundred customers for plants, fully ninety-five are women. I knew this before I embarked in the business six years ago, and I also knew that a woman would help one of her sex that was struggling to make a living. While my venture was made with fear and trembling, I am glad to say that I have prospered far beyond my expectations.

Each year has shown a notable increase in my sales. To do this I have paid strict attention to business and it is self-evident that I have pleased my patrons. I would esteem it a great favor if each customer of mine would speak a good word for me to her neighbors and friends who cultivate flowers. This would be a great help to me and a favor that I would appreciate greatly. Each one of you knows some one who buys flowers. Speak to them about my goods, send me their names, and I will be glad to mail them my catalogue.

If you have been dissatisfied for any cause with any order placed with me, please let me know what the trouble is and I will endeavor to rectify the same. I started out to sell the very best plants that could be grown and at a reasonable price. Please notice my remarkably low prices.

Compare my prices with other dealers; it will be a revelation to you. These cheap prices do not mean poor plants, but I can assure you they are much better plants than others offer at much higher prices.

---

**ASPARAGUS SPRENGERI**—The Emerald Feather.

A most desirable new species, especially useful to grow as a pot plant for decorative purposes, or for planting in suspended baskets. The fronds are frequently four feet long, of a rich shade of green, and most useful for cutting, retaining their freshness for weeks after being cut. It will make an excellent house plant, as it withstands dry atmosphere, and will succeed in almost any situation. 8 cents each.

**ASPARAGUS FLUMOSUS NANUS**, The Climbing Lace Fern.

This graceful climber has, to a great extent, taken the place of the once popular Smilax in all line decorations. It possesses the advantage of being much more graceful—its foliage being finer than that of the most delicate Fern—and will last for weeks after being cut, the whole plant being of a bright, cheerful green. It is an excellent house plant succeeding under almost any condition. 10 cents each for fine plants.

**AGERATUM PRINCESS PAULINE**.

A novel new variety of dwarf, compact habit rarely exceeding eight inches in height. Its peculiarity consists of both blue and white being combined in the same flower, the body of the flower being white while the stamens forming an outer ring are sky blue, giving the flower a pretty variegated appearance. 5 cents each.

New Ageratum, STELLA GURNEY.

It is a decided improvement in color, being the deepest blue yet introduced, and is exceptionally free flowering, not only in Summer, but the year round. Ageratumus are useful for borders also for baskets and vases. These two varieties are grand. 10 cents each.

**ACALYPHA SANDERII**.

Acalypha Sanderii.—This plant goes under various names, such as “Chenille Plant,” “Philippine Medusa,” “Comet Plant,” “Dewey’s Favorite Flower,” “Bloody Cat Tail,” etc. Without doubt the most sensational new plant introduced for many years, and one of the most striking flowering ornamental plants we have ever seen. It is of strong, fine growth, with large, dark green leaves, from each axil of which rope-like spikes, from one to two feet long and nearly one inch thick, are gracefully suspended, as shown in my illustrations, which conveys but a faint idea of the beauty and distinct warm coloring of this splendid acquisition. But the remarkable fertility and the great size of the spikes of flowers (compared to the plant) are fairly well shown. The plant is in flower the year round, and is as easily grown as a Colocasia simply requiring a warm temperature to develop its full beauty. Fine plants, 12 cents each.

Acalypha Triumphans.—This is a very ornamental bedding plant, the foliage being bronze, crimson and green. Very beautiful. Grows rapidly. 8 cents each.

Acalypha Marginata.—A charming variety. Deep green foliage with a distinct margin on the edge of each leaf of bright pink. Lovely. 8 cents each.

**ALTERNANTHERAS**.

These are the little dwarf red and yellow plants that only grow a few inches high and are used to make letters, designs or borders for beds. I offer two kinds, red and yellow. 5 cents each; 30 cents per dozen; by express, $3.50 per hundred.

**ALOYSIA CITRIODORA**.—Lemon Verbena.

This plant has the most fragrant foliage of any plant grown. The fragrance is that of the Lemon. One plant will scent up a whole yard. Grows rapidly. Exquisite 5 cents each.
ALYSSUM—DOUBLE SWEET.
A very great advance on the single Alyssum. It is indispensable as a cut flower, being a beautiful white, and very fragrant. A very useful edging plant. Continues to bloom till November, as light frosts do not injure it. Also fine for Winter blooming in the house. Elegant for baskets, vases or window boxes. 5 cents each.

AMARYLLIS.

AMARYLLIS.

AMARYLLIS, Aulica,—(Lily of the Palace) Vivid scarlet, ships well in the sunlight as if sprinkled with gold dust. By moonlight it is indescribably grand. A very handsome variety. Fine blooming bulbs, 50 cents. **Cheap at this price.**

AMARYLLIS, Belladonna Major.—One of the most lovely flowers imaginable. It throws up strong stalks, which support immense panicles of lovely shell pink flowers with a clear, white throat. It has the largest bulbs of any of the Amaryllis. **50 cents each for fine extra large bulbs to bloom at once.**

AMARYLLIS, Formosissima.—(Jacobean Lily). This grand bulb will flower either Summer or Winter. Keep dry during summer for Winter blooming, and reverse the order for Summer bedding. The flowers are of the darkest scarlet, very rich and pure, and produced freely. **Strong, blooming bulbs, 25 cents each.**

AMARYLLIS, Johnstonii.—One of the most gorgeous bulbous plants grown. We have seen specimens of a few years’ growth that completely filled a window. Nothing is more showy than this grand plant during late Winter or early Spring, bearing large flowers of intense crimson, with a delicate white feather in each petal. It is most spectacular. **Strong bulbs to bloom at once, 50 cents.**

AMARYLLIS, Equestrée.—(The Eagle Lily). This is entirely different from the other varieties of Amaryllis. The flower in shape and size resembles the Lily Candidum. The color is a brick red, quite distinct and novel. **Fine bulbs to bloom at once, 25 cents.**

ABUTILON, CHINESE BELL FLOWER.

Price, 5 cents each, except where noted.

Souvenir de Bonne.—Now, one of the most valuable novelties of recent years. Totally distinct. It is a very strong grower. The leaves, a beautiful green, are regularly banded with gold, the flower stem is eight to nine inches long, the bloom very large and bright orange red in color. A beautiful decorative plant, being of fine tree shape. **10 cents each.**

Shower of Gold.—A beautiful dwarf growing variety, the whole plant being covered with a profusion of beautiful golden yellow blossoms.

Robert George.—A free and continuous bloomer. Flowers are broad, their large, overlapping petals bordered in color orange, veined with crimson.

Eclipse.—This is an elegant foliage plant, and one of the prettiest we know. It is new, and the flowers, which are produced in profusion, set the plant off to good adantage.

THOMPSONI PLAEN.—New. Perfectly double flowers that resemble in form a dotted Hollyhock. Color a rich, deep orange, shaded and streaked with crimson. The foliage is delightfully variegated.

Enfanta Eulalia.—Flowers large and cup-shaped. Color a delicate sunny pink.

Scarlet Gem.—A rich bright scarlet.

Golden Bells.—Large, well shaped flowers of deep yellow.

AZALEA INDICA.

One of the most gorgeously blooming families, together with the showiest of all greenhouse plants. The colors of the flowers vary from the purest white to the deepest crimson in untold variations. The soil should always be packed hard when transplanted. Their success depends, however, on the degree of moisture in the atmosphere in which they live. I have a number of the best flowering sorts that will flower finely this coming Winter, both double and single flowered, in any color desired. The plants I offer are magnificent specimens, the finest you have ever seen, and will bloom this year. **60 cents each fine large plants, three years old, 75 cents each.**

N.B.—Be sure and try my Azaleas, they will not disappoint you. In ordering name the color you wish. I can furnish them in the following colors: White, pink, crimson, salmon, rosy lilac, and white striped with crimson.
ANTHERICUM PICTURATUM.

A lovely plant for vases and baskets or as a pot plant it will enrich any collection. Deep green foliage with broad white stripes. Long stalks of white flowers. It is very beautiful and scarce. 15 cents each.

AGAPANThUS UMBELLATUs.

Blue African Lily,
or Lily of the Nile.

A splendid ornamental plant bearing clusters of bright blue flowers on long flower stalks and lasting a long time in bloom. There is no finer plant for outdoor decoration. Planted in large tubs on the lawn 10 cents each.

Araucaria EXCELSA.

Norfolk Island Pine.

Various names have been suggested for this grand plant to properly convey to the mind the appearance of it. Some have called it the 'Christmas Tree Palm,' from its resemblance to a Christmas tree. Others have called it the 'Mar Palm,' because the leaves are arranged to form a perfect star, but no descriptive name can give an adequate idea of its beauty. It has deep green feathery foliage, arranged in whorls, rising one above the other at regular distances. Its symmetry of form grace and beauty of foliage are unequaled in the vegetable kingdom. It is easily grown in the house and is highly ornamental. It requires the same culture as the Palm. Indeed, as a decorative plant for the house this is one of the handsomest and most serviceable plants in our collection. Extra fine plants, twelve to fifteen inches high, $1.50; nice young plants that will grow fast, $1.00 each.

The Loveliest of Climbing Vines,

THE MOUNTAIN BEAUTY, ANTIGONON LEPTOpUS.

Rosa de Montane. — This beautiful climbing vine might well be called the carmine Wistaria, so similar are the lovely clusters of flowers to those of Wistaria. Apart from the similarity of flowers, it differs from the Wistaria in many ways. It is a native of Mexico. We believe it to be one of the most beautiful, as well as one of the rarest, climbers in existence. Mountain Beauty is hardy in the South, and, once planted, is practically everlasting. It produces immense clusters of the most exquisite flowers imaginable. The flowers are borne in profuse profusion and a well-established plant, loaded with its gorgeous carmine flowers, is one of the grandest sights we have ever seen. Imagine a plant of Ampelopsis Veitchii with its magnificent, large, deep green foliage covering the entire veranda, loaded down with large clusters of carmine flowers, and you can form an idea of the splendor of Mountain Beauty. This is really a wonderful vine, which will excite the admiration of the amateur planter. It is one of our grandest introductions sure to become immensely popular because of its handsome foliage and its superb, brilliant flowers. Price is low for strong plants. This is one of the plants you will be sorry to have missed getting when you see it growing and blooming. By all means take my advice and include several plants at least in your order. It is a bountiful plant dying down each year. The plants I will send you are dormant, that is, without foliage like a Dahlia. 8 cents each.

BASKET PLANTS.

I have a great many calls for plants suitable for baskets and vases. I grow these plants in large quantities and can furnish them at 5 cents each, or twelve distinct plants for 50 cents. These will make a nice basket.

BOUGAINVILLeA SANdERIANA.

(The Chinese Paper Plant.)

This beautiful free flowering plant was introduced recently and on account of its free blooming qualities has become very popular, especially as a plant for Easter decoration. It is of a strong rapid growth. And the brilliant, rosy crimson blossoms in large racemes are produced from early March until mid-Summer. In fact, a well grown specimen will frequently flower the greater part of the year. Altogether a most desirable subject for the conservatory or window garden. 30 cents each.
FLOWERING BEGONIAS.

PRICE, 10 Cents Each.

The Ever-Blooming Begonia, Dewdrop.—A grand variety with white flowers.

Alba Picta.—Long, pointed, slender leaves thickly spotted with silvery white, foliage small and elegant, lovely pink flowers.

Borba de Chatenoucrcher.—This is the freest flowering Begonia I have. It blooms the year round, makes a handsome window plant, with its beautiful foliage and bright currant red flowers.

Decorus.—This is the white flowering Rubra. Very similar to it, but with white flowers.

Foliosa.—This is one of the most graceful of all the Begonias. The foliage is small and fleecy. Has the smallest leaves of all the Begonias. Bright pink flowers.

Fuchsoides Coccineum.—Elegant free flowering variety. It resembles Hybrida Multiflora in growth. Flowers a bright scarlet.

Hybrida Multiflora.—This beautiful plant makes handsome specimens with its graceful branches and pendulous flowers of bright rosy pink. Very handsome.

Marguerita.—Leaves bronze green with purplish cast. It grows in round, bushy form. Very fine flowering; large trusses of delicate creamy and rose colored flowers.

McBethii.—Shrubby in growth with very deeply indented leaves, which are fine and small. Very fine flowering, being constant the year round. A fine summer bedding plant if given light soil and perfect shade. Put it among your Ferns. White flowers, waxy in texture. Carried in bunches.

President Carnot.—The leaves are smooth, long pointed and prettily blotched. The body of the leaf is a dark green, studded with bright, silvery spots. Covered with handsome rosy white flowers. A splendid house Begonia, being of quick growth, and having both handsome flowers and foliage makes it a very desirable.

Rubra.—If you can have only one Begonia, let it be a Rubra. It is so fast growing that it will in a year or two reach the top of your window, sending up heavy, stiff caules an inch in diameter, and rising beside it, will grow strong, slender branches, gracefully drooping under heavy waxy leaves and pendent panicles of coral colored flowers as large as a hand. Medium sized plants are frequently seen with more than twenty such panicles at a time. Among the individual flowers you will find three distinct forms growing side by side.

Robusta.—Bright rose and pure white. Coral red buds. This is a very desirable variety.

Sanderson.—(The Coral Begonia.) One of the best flowering Begonias. The flowers are of a scarlet shade of crimson, borne in profusion for months at a time. Resembles coral.

Washingtoni.—This is a vigorous growing variety with tropical foliage. Elegant panicles of pure white flowers thrown well above the foliage.

Zebra.—(The Zebra Begonia.) Leaves bronze green with darker stripes and blotches. Undersea deep crimson.

BEGONIA REX, or KING OF BEGONIAS.

For outshining all others. It seems to feed on the rich metals of the soil, and spreads its lustrous tints over its leaves.

CAMELLIA JAPONICA.

This is the Famous "Japonica" of the South.

Leaves glossy green, flowers of exquisite bloom and waxy texture. From pure white to crimson, in almost endless variation, the pure white ones generally priced above the colored varieties. Culture nearly related to that of the Azaleas, but their success is more certain. Requires shade and moisture throughout the hot season. Time of blooming is in winter and in early spring. Requires a moderate and uniform temperature with a little artificial heat as possible. When in flower, the buds great care must be taken in watering — when left too dry the buds are sure to drop. I have a fine assortment of those named below. Price for large, strong plants, two to two-and-a-half feet high, having 75 blossoms each. The set of eight distinct kinds for $5.00; any four for $2.50.

Alba Plena.—Double white, very fine, the best white.

Lady Hume's Blush.— Flesh color. Extra fine.

Sarah Frost.—Bright crimson Fine.

Queen of Denmark.—Salmon rose, fine form.

Americana.—Blush mottled with rose.

Catcher's Clear.—Blush rose. One of the best.

Fimbriata.—Very white, with the petals finely fimbriated.

Jennie Lind.—White with pink stripes.

TUBEROUS ROOTED BEGONIAS.

These are among the very handsomest of all summer blooming plants, flowering throughout the season, and as fine and varied in their colors as the Geranium really. They are splendid bedding plants, delighting in a light soil of woods earth, very old cow manure and sharp sand. See that the bed is in partial shade, and you will be delighted with the results. In the South, or where they cannot be planted in the shade of a house, a covering of hulup or canvas, some six or eight feet above them, merely to throw off the sun's rays, will allow them to come to absolute perfection, but they must have plenty of light and air. Do not allow them to become dry. During hot weather they will take two waterings a day. When through flowering they can be dried off, shaken free of earth, wrapped in cotton until February or March, when they may be planted again.

Single.—Yellow, crimson, rose, scarlet 15 cents each; two for 25 cents.

Double.—In the same colors. 30 cents each; two for 50 cents.

CAMELLIA JAPONICA.

Leaves glossy green, flowers of exquisite bloom and waxy texture. From pure white to crimson, in almost endless variation, the pure white ones generally priced above the colored varieties. Culture nearly related to that of the Azaleas, but their success is more certain. Requires shade and moisture throughout the hot season. Time of blooming is in winter and in early spring. Requires a moderate and uniform temperature with a little artificial heat as possible. When in flower, the buds great care must be taken in watering — when left too dry the buds are sure to drop. I have a fine assortment of those named below. Price for large, strong plants, two to two-and-a-half feet high, having 75 blossoms each. The set of eight distinct kinds for $5.00; any four for $2.50.

Alba Plena.—Double white, very fine, the best white.

Lady Hume's Blush.—Flesh color. Extra fine.

Sarah Frost.—Bright crimson Fine.

Queen of Denmark.—Salmon rose, fine form.

Americana.—Blush mottled with rose.

Catcher's Clear.—Blush rose. One of the best.

Fimbriata.—Very white, with the petals finely fimbriated.

Jennie Lind.—White with pink stripes.
NO PLANT excels the everblooming Carnation Pink—rivaling the Rose in beauty of colors and shades, equaling it in lasting perfume and even excelling it in profusion of flowers. Easily grown, and blooms freely, either as a bedding plant in the Summer or in the greenhouse or window garden in Winter. The collection I here offer is all of the very best new varieties; indeed, they are the very best that money can buy, and have a wide range in color. When you own this collection of Carnations you can rest assured that no person has any that are finer. Price, 8c each; any eight for 50c; or the entire list of eighteen for $1.00.

BON TON.—This is by far the darkest Carnation ever seen, and at the same time the most abundant bloomer. Brilliant dark red shaded with the richest maroon, fringed petals nearly every flower being on a long stem. This variety surpasses in richness of color the most perfect Jacqueminot Rose.

Abundance.—Flowers very large and perfect in form. Color a bright, rich pink, with salmon shading when the flowers are fully expanded. A very healthy grower and remarkably free bloomer. Plant dwarf, growing about fourteen inches high. This I consider one of the best pink varieties ever offered and an excellent variety for pot culture.

Alaska.—This beautiful white Carnation is remarkable for its extremely vigorous growth, very large flowers perfect shape purest white. Indeed, for size and freedom of bloom, purity of color, which is unimpaired, sweet least of perfume that is delicious, and vigorous growth this variety has no equal. The best white by far of a dozen varieties I have of that color.

Armatinda.—The Pink of Perfection. Probably the most beautiful Carnation yet introduced, and must become very popular. Flowers are a pure sunny white, marked and shaded with rosy pink, good size perfect form, never bursts. It is the strongest and sweetest scented Carnation I know. A perfect beauty.

Della Fox.—Its color is almost indescribable. A rosy orange shade, striped and flaked with carmine, never bursts its petals; it is very free and early flowering, and can always be cut with a long stem, a most desirable feature in a colored Carnation nowaday.

Ethel Crocker.—A perfect pink shade of the largest size. No Carnation is finer than this one. Delightful clove fragrance.

Field of Gold.—This is a pure yellow Carnation of strong growth and very profuse flowering. There is no stripe at all in it, being a straight out and out deep, rich, golden yellow without any other color whatever, under any circumstances. The flowers are large and double, as in Buttercup, and taken all in all, it is the very best yellow Carnation out.

Fairy Princess.—This is the most beautiful Carnation I know of. The flowers are very large and perfect in shape. The color is a pure snow white, delicately penciled with bright crimson. Elegantly fringed. A charming variety.

Flora Hill.—The largest, finest and most profitable white variety to date. The fragrance is simply delicious.

Genevieve Lord.—A large as the largest light pink ever offered. A few blooms last season measured nearly four inches. It has taken first prizes wherever offered.

Juliette.—Very dwarf, and of a nicely bushy growth, forcing very long flower stems, each individual flower possessing a stem varying from three to eight inches in length. It has perfectly formed flowers. Color a rich, bright dazzling scarlet. I unhesitatingly recommend this sort.

Jack Frost.—This variety is the largest white Carnation in cultivation. Often measures four inches in diameter. The flowers are of the purest white, with petals of great substance, making it one of the very best.

Mrs. Thomas Lawson.—No plant of whatever kind has ever received so much description and free advertising by the newspapers of the whole country as this sensational Carnation. It was sold for $30,000. The size is enormous of a true pink color. Altogether a twentieth century Carnation. Everyone has been claimed for it, and my own opinion is that it will justify the claim.

Painted Lady.—Another grand Carnation with enormous sized flowers, often measuring three and a half inches in diameter at the same time being one of the freest blooming Carnations we have ever seen. Ground color of flower the purest white, very handsomely penciled with crimson.

Rose Queen.—One of the most fragrant Carnations we have seen. Color a pure, soft rose a most continuous bloomer and distinct in color from any other sort offered. Greatly admired by all who have seen it growing here.

Triumph.—This variety has been greatly admired for its desirable color, wherever it has been seen, being a beautiful, pure, rich pink, flowers large size and very freely produced. Plant of grand habit and vigorous growth. It is a superb variety.

Whitcomb Riley.—The ground color is the faintest blush, lightly penciled in soft pink. The bloom is finely in appearance, exceptionally beautiful in form. One of the grandest of all Carnations.

Yellow Jacket.—The color of the flower is orange, flaked, and is broadly striped with dense carmine. Very fragrant. It has proved one of the finest blooms within my knowledge, single plants often carrying forty to sixty buds and blossoms at one time. One of the very best varieties.
"GOLD MEDAL" CHRYSANTHEMUMS.

This is the Best Collection of Chrysanthemums Ever Offered by Any Firm in this Country.

Every Chrysanthemum on this page has won a gold medal. Indeed, some have won several. You can order from this list with the assurance that every one will be a beauty. The price I offer them at is very low, as you will see by comparing them with any flower catalogue published. Price, 6 cents each; any six, your selection, for 25 cents; any thirteen, your selection, for 50 cents; any thirty for $1.00.

Abraham Lincoln.—Rich cream color. The petals are trumpet shape, and are arranged to form a perfect ball. A sensational variety.

Admiration.—A soft, pure cream white, each petal tipped with shell pink, petals of irregular lengths, like satin ribbons.

Autumn Glory.—A lovely pink variety of bright shade.

Belles of Castlewood.—Soft lemon yellow, suffused with pink.

Beau Ideal.—Bright rose pink, without touch of lavender shading. The form is somewhat flat, incurved shape, the outer petals horizontal, showing the bright pink, the incurving center showing a lighter shade.

Challenge.—A perfect globe of deep golden yellow, of immense size. Has won gold medal and over fifty first prizes.

Defender.—This is the richest deep crimson variety I have ever seen. Richest velvety crimson.

Edward Hatch.—Bloom of immense size, almost spherical, quite double. The color is a soft lemon, suffused with pink.

Eugene Daillenouve.—This beautiful variety captivated all who saw it at the World’s Fair. Cleanest and largest of yellows.

Golden Trophy.—The largest yellow in existence. This magnificent new Chrysanthemum was exhibited last fall, measuring over fifteen inches in diameter, and without exception, the largest yellow ‘Mum ever introduced.

George W. Childs.—No Chrysanthemum has created such a sensation on this of immense size, and of the richest deep velvety crimson. Winner of four gold medals.

Flower Festival.—The petal of the richest hue of immense size. The petals are feathery, incurved and whorled. One of the finest, and no collection is complete without it. It is indeed gorgeous in its color and bearing.

Golden Wedding.—A deep, bright, golden yellow, of shining texture, very large in size. A fine exhibition sort.

Good Gracious.—The color is unique, being a delicate shade of peach and pink throughout.

Her Majesty.—The sensational variety of the year. It is an enormous globular Japanese, with broad, incurving petals. White, shading to lemon.

Intercontinental.—Pure white, very massive in build. This variety is in every prize winning collection. None better.

John A. Shrimpton.—This variety with deepest crimson. Nearest approach to black.

King’s Daughter.—Pure, quite snowy white, center petals irregularly drooping. Somewhat very, very snowy, loose, pure Japanese style, flowers very large.

Latest Fad.—A mammoth bloom with cord like petals eight inches in length. Color a rich yellow, at times mottled and splashed with bronze and crimson.

Lorna Doone.—This variety is of immense size, purest snow white in color. Very broad, heavy, deep flower, measuring fourteen inches in diameter.

Maud Deacon.—The largest immense pink variety, finely incurred petals, broadly shell shaped. One of the largest flowers exhibited in the Fall shows. Almost a pure shell pink.

Mrs. E. G. Hill.—The bloom are two to ten inches in diameter. The color is a delicate lavender pink, petals incurved. The flower of this variety formed a World’s Fair attraction all passersby, and was admired greatly.

Mrs. Langtry.—A perfectly formed flat flower, of immense size and perfectly incurved. Snowy white in color, without any ribs or ribbon petals. Altogether one of the very finest varieties.

Miss Gladys Spaulding.—One of the very best whites ever produced. A large, round, exceedingly well formed flower.

Marie Louise.—Beautifully recurved, white, with interlocking petals, often one reflexed closely so that the stem inner ones building up full to the center, forming a plumpy globe.

Mrs. W. K. Vanderbuilt.—One of the finest in the Chrysanthemum family. A grand, large flower of the purest white. Seen in splendid shape in the Fall show, and petals incurved nearly as deep.

Mermaid.—Very delicate pink, perfectly incurving, broad petals, extremely delicate in color and tissues. Extra good.

Mrs. Craig Lipschott.—The largest yellow in existence. Was exhibited last Fall measuring over nine inches in diameter.

Mutual Friend.—Very nearly spherical in form, all vary white in color, only showing a touch of pearl pink at base of petals.

Major Bonafon.—Soft, clear, primrose yellow, full in center, yellow in diameter and nearly as deep.

Pitcher & Manda.—Who ever heard of Chrysanthemums having two distinct colors in one flower? But that is just what Pitcher & Manda have. The outer five or six rows of petals are pure white, while the center is a bright, deep yellow, the two colors sharply defined. Very good sort.

Sundae.—An exhibition bronze The flower is of immense size, crowded with petals which are soft and of great substance. Color Indian red, faced with bronze.

Sunstone.—Petals hook up at the ends, showing the light straw reverse upper surface bright yellow, shading to red at base. A beautiful combination of colors.

Sugar Loaf.—Everybody’s Chrysanthemum, being a fine grower and perfecting numerous extra large flowers, bright yellow or bronze yellow, inner petals incurving, outer petals reflexed.

Silver Wedding.—The purest white, very broad petals, reflexed. Probably the most distinct variety of the season.

The Queen.—A grand double white, of fine size and great substance, very rounded in form, incurving and full. By far the best of its style, and a prizewinner wherever shown.

Vivand Morel.—This grand variety has literally leaped into popularity. Flowers so large as to startle you. The color shades from a few rows of lavender pear to the richest pink.

W. H. Lincoln.—A rich golden yellow, of finest form and beautiful color, of large flowers, and a magnificent bush plant. A number of goats for all seasons.

Western King.—In the entire Chrysanthemum family there is no grander white variety, no matter when it blooms. A perfect ball of snow.
CROTONS.

NOTHING can excel the beauty and richness of coloring that is found in this class of plants. They are beautiful pot plants for the conservatory, making very handsome specimens for decorative and exhibition purposes, and are now used extensively as bedding plants, for which purpose they are exceptionally well adapted. They should be planted in full sun in a position where they can be liberally supplied with water, which develops the most wonderful coloring in the foliage. Undoubtedly the most interesting and showiest bedding in my Springfield yards the past few years was made with this plant.

Price. 7 cts. each; four for 25 cts.; any ten for 50 cts.

Acubifolium.—Broad green leaves with yellow spots.

Aurea Maculata.—Small narrow leaves, bright green, profusely spotted with deep yellow.

Chrysophyllum.—A lovely Croton with many shades.

Dermaniana.—Chocolate with bright orange red spots.

Discraetilis.—Irregular shaped leaves yellow and crimson mid-rib.

Eugonacra.—Narrow, irregular green leaves, bright yellow stripes.

Interruptum.—Long narrow leaves, center yellow and red.

Inimitabilis.—Golden yellow and fiery crimson. Very bright.

Lowii.—Crimson green and yellow. Lovely.

Macoyanum.—Chocolate and carmine markings.

Pictum.—Lovely markings with green and orange.

Splendens.—Green with bright yellow markings.

Spiralis.—S nearly leaves twisted like a corkscrew.

Veitchii.—Yellow, green and crimson. One of the best.

Volutum.—The ram's horn Croton. Leaves dark green, bright yellow center. Shape of ram's horn.

Weismanii.—Narrow leaves with beautiful yellow mid-rib.

Black Bird.—Very dark, with reddish cast.

Butterfly.—A crimson bronze, old gold and green.

Bizarre.—Crimson center, edged with green and gold.

Beauty.—A crimson bronze, with three colors.

Chicago Bedder.—Green and gold. An excellent bedder.

Dora Clapp.—Crimson center, with bronze and green edge.

Empress of India.—Crimson, with golden edge.

Fire Brand.—A fine bedder. Dark crimson, shaded scarlet.

Fire Crest.—The foliage is a bright carmine crimson shade, the edge is slightly marked with golden yellow.

Golden Verschaffeltii.—This ranks first in yellow varieties.

Here.—A deep, jet black.

Hawaii.—Bronze and yellow spotted.

Progress.—A beautifully motled red, green and bronze.

Reta Kirkpatrick.—Bright green, large, deep yellow center.

Setting Sun.—Crimson, with brightest golden edge.

Verschaffeltii.—A rich, velvety crimson. The best bedder.

Golden Verschaffeltii.—This ranks first in yellow varieties.

Price, $1.00; any ten for 50 cents. You have never seen anything so grand in the Croton line. Try them, and see what a beautiful bed you can have, and with but little care.

QUEEN OF NIGHT CACTUS.

Cereus Grandiflora, or Night Blooming Cereus.

Decidedly the grandest flowering plant in cultivation. Imagine a dozen flowers unfolding with the setting sun their hundreds of wax-like petals, encircled by a wreath of gold, in continual motion. Imagine such a flower three feet in circumference, perfuming the surrounding air with the most delicious fragrance known. Does it not deserve its royal title? It grows and blooms with the greatest ease, requires absolutely no care, living for months without water, increasing in value yearly. I have the genuine variety, the only one with fragrant flowers twelve to twenty inches across and can furnish nice plants at 6 cents each.

CURUS.

ALTERNIFOLIUS.

(Umbrella Plant.)

This plant is of the easiest culture, and a large specimen is as handsome as a palm for decoration. It makes a handsome pot plant or can be used in baskets or vases, making a charming effect. It will grow luxuriantly in water, and is, therefore, indispensable for aquariums or fountains. 5 cents each.

COLEUS.

I have a collection of one hundred kinds of the most distinct sorts out. Leave the selection of varieties to me, as it is hard to describe the various tints.

Price. 5 cents each; any ten for 50 cents; twenty distinct varieties for $1.00; by express, thirty for $1.00. I will send the below twenty choice named Coleus by mail, prepaid, for $1.00. These are all good bedders, standing the hot sun without losing their colors.

Price of Coleus by the hundred, when sent by express, $3.00.

Autumn Glow.—Has all the beautiful tints of Autumn leaves.

Bronze Queen.—A deep bronze with fine yellow edge.

QUEEN OF NIGHT CACTUS.
Nothing has grown so much in favor with the average flower lover as the French Ever-Blooming Cannas. They succeed well anywhere, and the list given below is at such prices as will give every one a chance to have a few, if not a whole collection, of these popular flowers.

CULTURE.—The soil can hardly be too rich and porous. Equal parts manure, loam and sand, with a little peat, form the best mixture. Liberal supplies of manure water are of great benefit. Always when growing keep well watered.

PRICE, 10 CTS. EACH, ANY SIX FOR 50 CTS., THE SET OF TWELVE FOR $1.00.
Clerodendron Balfouri. 

A plant of great beauty. Makes a grand bedding plant where both foliage and bloom are desired. The flowers, which are of a bright scarlet, are enclosed by a bag-like calyx of pure white, the trusses or panicles of flowers are upwards of six inches in length, and when trained upon trellises and hanging down have a rich and elegant appearance. Price, 3 cents each.

Crape Myrtle. 

Handsome shrubs when in bloom. The flowers cover the entire plant. Hardy in the South. We have three kinds in the following colors—pink, crimson and purple 3 cents each.

Caladium Esculentum. 

One of the most beautiful and striking ornamental foliage plants in cultivation. Either for culture in large pots or tubs or for planting out on the lawn. Will grow in any garden soil and is of the easiest culture. When of full size it stands about five feet high, with immense leaves, often measuring four feet in length by two and one-half feet in breadth. Smooth, of bright green color, beautifully veined and variegated with dark green. The roots should be preserved in dry sand in the cellar during winter, out of danger from frost. Price, good bulbs 10 cents each; large bulbs 25 cents each; extra large bulbs 50 cents each.
Miss Ella V. Baines, The Woman Florist, Springfield, Ohio.

11

CYCLAMEN PERSICUM GIGANTEUM, OR PERSIAN VIOLET.

CYCLAMEN, OR PERSIAN VIOLET.

This is a decided improvement over the old variety, being of a more robust habit and stronger grower. Produces flowers on short, stout stems, and of immense size, often measuring, on well grown bulbs, two inches in diameter. The foliage is also beautiful, and it is a charming Winter bloomer. 10 cents each.

DAHLIAS.

WITHIN the last year or two a wonderful revival of interest in the Dahlia has resulted, in their now being important rivals of those standard bedding plants, the Camas and Geranium.

This to a great extent, is due to the introduction of the dwarf profuse blooming varieties that a few years ago were unheard of. We offer a collection of the best Cacti, show and decorative Dahlias, in red, white, yellow, pink, variegated, and all intermediate shades. They are the "cream" of over five hundred varieties, selected after critical examination, and combining in a superlative degree purity of color, perfection of form, free and continuous flow, of all that is rare and unique under the most ordinary garden culture. Strong roots, to bloom this Summer, 15 cents each; six for 75 cents; or the entire set of twelve for $1.30.

Maid of Kent.—Crimson, shaded to cherry red, tipped white, very inconstant in color, many shades on the same bush. A lovely variety.

Blumenfalter.—Rosy lavender, shaded plum, densely quilled. A novel color for a flower.

Snowball.—A ball of snow white, heavy and profuse bloomer. Always attracts attention, height, three feet. Fine for funeral work.

Spring.—Yellow, shaded a delicate orange scarlet. Very desirable.

Bird of Paradise.—Light pink, very symmetrical flower, on long stems. An attractive variety.

Dawn of Day.—A beautiful yellow, shaded rose, very large flower. A charming variety.

Jewel.—Flowers of many colors, from deep maroon to bluish white, including beautiful spotted and variegated flowers. All these colors are borne in profusion on the same plant at the same time.

Pearl.—Pearly white, petals long and symmetrical, flowers very large. One of the prettiest white Dahlias.

Marguerite.—Rosy line, flowers quilled and very sharply, a free and constant bloomer, stems very long. Fine for cutting.

Queen Victoria.—Brightest yellow, deeply quilled, large, perfectly formed flower. One of the best.

Fern-leafed Beauty.—A most beautiful variety, entirely different from all others. The flowers are of medium size, with quilled or shell like petals of creamy white color, each petal being heavily bordered with dark crimson. Its foliage is very finely cut, like that of a strong growing Fern.

NOVELTIES IN DAHLIAS.

Price, 20 cents each. The set of four for 65 cents.

Clifford W. Bruton.—This superb new variety is acknowledged by all who have seen it to be the finest yellow Cactus Dahlia ever produced. The flowers are large, five to six inches in diameter, perfectly full to center, while the outer petals reflect to the stem. The color is a solid, pure yellow, the clearest, richest shade ever seen. Invaluable for cutting and exhibition purposes.

Storms King. — (Blizzard) This is without question the finest of all pure white Dahlias. It is extremely early, a profuse and constant bloomer, a strong, vigorous grower, of dwarf, branching habit. Will produce double the quantity of flowers of any other white variety, very double and perfect shape. It is far ahead of any other white Dahlia.

William Agnew.—The grandest red Cactus Dahlia ever produced, and one that will eventually find its way into every collection. The flowers are of the largest size, sometimes measuring more than seven inches in diameter. Always full to the center, of perfect form, and of exquisite quality and finish, while the color is the richest shade of intense, dazzling red. The petals are very long, the outer rows being beautifully twisted. Certainly 9 a grand variety.

Nymphaea, the Pink Water Lily Dahlia.—By far the most delicately beautiful Dahlia ever introduced. The color is a soft, delicate, light scarlet pink, shading slightly darker toward the outer petals, while the flowers are of large, perfect form and most exquisite, being soft, waxy, delicate and graceful. Has a delicate, refined Water Lily fragrance. This color, together with its striking resemblance to the ideal pink Water Lily, suggested the name of Nymphaea. This variety, all things considered, is the finest in the entire list.

DRACANÉAS.

Dracena Indivisa.—This variety is used very extensively as a center plant for vases, urns, etc. It stands full exposure to the sun. Its long, narrow, graceful foliage contrasts beautifully with other foliage and flowering plants. 8 cents each.

Dracena Terminalis.—A superb species, with rich crimson foliage, so marked with carmine pink and creamy white that words cannot describe the exquisite coloring. This is one of the most admired of the species, its elegant habit and extreme beauty, loving coloring giving it marked value. For room adornment, or a vase plant for outdoor use, it is indispensable. 25 cents each.

BOSTON FERN. For description, see page 12.
Beautiful Ferns.

The popularity of Ferns has increased wonderfully in the past few years, and they are now indispensable in all choice floral decorations, and are especially valuable for ferneries for room and table decorations. No collection of plants is complete without Ferns.

**Nephrolepis Exaltata Bostonicus.**—In the vicinity of Boston it is so extensively the graceful Nephrolepis, which differs from the ordinary Sword Fern by its arching fronds, which frequently attain a length of six feet. These arch and droop gracefully, making a very graceful circle. To account for its being so called is a little plant to grow as a specimen on a table or pedestal. Good plants, 15 cents each; strong plants, 35 cents each.

Lygodium Scandens.—(The Japanese Climbing Fern.) This makes a growth of from eight to fifteen feet and is a very graceful, dainty and desirable variety. 15 cents each.

Adiantum Cucuntum.—(Maidenhair Fern.) This is the beautiful Maidenhair Fern which the florists employ in so many ways, either as pot plants or cut fronds. It is very light, airy and graceful. Don’t confound it with the old common Maidenhair Fern, 20 cents each.

**Nephrolepis Compacta Cordata.**—(New Sword Fern.) It is of a free, strong growing, compact habit, attaining, when full grown, a height of about two feet. The fronds are of a dark green color, very rich, of upright growth, with just sufficient arch in them to make them graceful. For house culture or for window gardening. I don’t know of any other variety that would give the same satisfaction and which I could recommend so highly. 15 cents each.

Davallia Stricta.—One of the finest Ferns in cultivation, whether for growing as a decorative plant in the room or planting out. The fronds are of strong texture, very fine and delicate. 20 cents each.

Pteris Tremula.—(Shaking Fern.) The slightest movement of the air shakes the leaves of this Fern, which we recommend as being very desirable for house culture. It grows readily and very fast. 20 cents each.

Pteris Argyreus.—(The Silver Fern.) A very showy Fern, with bright green fronds with a broad band of silver white down the center of each. Very distinct and beautiful. 20 cents each.

THE WONDERFUL JAPANESE FERN BALLS.

FUCHSIAS.

Price, 7c each. Any four for 25c. Any nine for 50c. The set of twelve for 60c. . . . .

**Fuchsia, Storm King.**

This grand plant is of the most beautiful habit. The branches drooping as they do, lend the plant a charming grace which is rarely found. The buds, for two weeks before they expand, are balls of glowing scarlet crimson. The flowers continue to grow larger and larger after they expand. The sepals are of the same glowing scarlet crimson as the buds, while the large double corolla is of a delicate waxy whiteness, elegantly penciled with a deep and bright crimson.

**Phenomenal.**—The largest Fuchsia that I have ever seen. The tube and sepals are bright coral red, beautifully formed. The corolla is nearly two and a half inches across.

**Monarch.**—This new Fuchsia is by far the largest of all the single flowering varieties. It is an exceptionally strong grower, bearing immense blooms of a very dark purple. It ranks among the singles the same as Phenomenal does among the doubles.

**Champion of the World.**—Color of sepals a bright coral red, corolla violet and dark purple. One of the most beautiful and distinct of the Fuchsias.

**Black Prince.**—This is, without question, the very finest Fuchsia grown for the amateur to cultivate. It makes a shapely bush, is robust in growth, free from disease and insects, and is probably the freest in blooming. I have seen specimen plants six feet in height and four feet across loaded with thousands of its bright buds and blossoms of a beautiful waxy carmine or pink color.

**Speciosa.**—Corolla scarlet, sepals blush. One of the very best blooming varieties for either Winter or Summer.

**White Giant.**—One of the largest and best white Fuchsias grown. Fine form, very double, color a pure white, and superior to most of the white Fuchsias. I find it to be an excellent Winter bloomer. It gives me pleasure to offer this grand Fuchsia.

**Enfant Prodigious.**—Rich crimson sepals, corolla deep purple. The earliest and finest flowering Fuchsia out.

**Clara Belle.**—A splendid variety, with large, handsome foliage of a delightful green tint. The flowers are single, of unusual size, sepals dark red, corolla rose vermilion, lined violet.

**Jupiter.**—New. One of the prettiest of all Fuchsias. Large, double flowers of a clear magenta, with dark crimson veins. Don’t fail to try it.

**Rosarin’s Patrie.**—A splendid white variety in the style of that fine variety, Colonel Dominie. A wonderfully free bloomer and quite early. Tube and sepals rose carmine, corolla of the purest white.

**General Roberts.**—A remarkable beautiful variety of drooping habit. The blooms are from four to five inches in length, borne in large clusters, single corolla, of a rich plum color, tube and sepals crimson.

Double Fuchsia, Storm King.

**FUCHSIA, STORM KING.**

This novelty from Japan we take great pleasure in introducing as one of the most satisfactory house Ferns ever offered. One was started last January, and its beautiful leaves and color attracted the attention of all who saw it until August when it was placed in the cellar to rest. The center is moss covered with rhizomes in a very ingenious manner, looking like a ball of small roots twisted together. After being put in the cellar, it grew, and in a short time are covered with a mass of beautiful green foliage. It has been allowed to dry up, which is very convenient when a person goes on a Summer vacation. They may be started again by simply watering as before. When growing they should be watered two or three times each week. If desired they may be cut in halves and placed in a Fern dish. The bulb, before it is started, is six to ten inches in diameter. We only handle the "Nagale" long leaved variety, the common variety only produces short fronds. 75 cents each. Can only be sent by express.
GLADIOLI.

The Gladiolus is the most satisfactory, the most desirable and the most popular of all garden bulbs. Nothing else in the flower line can so fill, or make the color grow and bloom so readily for anybody and everybody, in any soil or climate. It makes the dullest white or the most brilliant and beauty of coloring, few bulbs can equal and none surpass.

CULTURE.—Gladiolus are of the simplest culture. Plant at any time from mid-June to early July, in any good soil well spaded. Set in rows three inches apart, or in masses six inches apart each way. Plant in full sun if possible, and keep down weeds. They bloom from July to October. After Fall frost lift the bulbs, and after removing the tops let them dry for two or three weeks in any airy position under cover. Then after removing the roots, store them in a cellar, or any cool, dry place, away from frost, for planting again the following spring.

NAMED GLADIOLI.

Price, 5 cents each; or the set of twelve for 50 cents.

Madame Monet.—A really superior variety. Flowers large and well formed. Blossoms large and of a delicate rose color. Exceedingly pretty, and always attractive.

Reine Blanche.—A lovely pure white, with dark crimson blotch.

Brechleyana.—Intense fiery scarlet. Extra early bloomer, and one of the most popular and showy kinds.

Le Poussin.—Light red, with white blotches.

Napoleon III.—Rich, dark red, with pure white throat.

Conquerant.—Handsome spike of very large crimson flowers, with pure white blossoms and white band in each petal.

Lancé.—Lovely, large, lilac, shading to carmine. Distinct white bands in each petal and white blotch.

Ceres.—Pure white, with purple rose spots and marks. A very fine sort.

John Bull.—White slightly tinged yellow, and marked violet rose. A grand old favorite.

Eugene Scribe.—A superb sort. Flower large and white, throat rose, in a cellar, and showy and choice.

Golden Sceptre.—(Ina Buchanan.) Most beautiful, fine, clear yellow. Spikes large and perfect. A great favorite.

Coquette.—Large and fine flower, bright cherry red, with large, pure white blossoms and white band in each petal.

GLADIOLI—MIXED VARIETIES.

My mixed Gladioli are not the poor, dull colors, old discarded red sorts and worthless seedlings usually sent out as mixtures. On the contrary, they are made up from splendid named sorts, brightest and most varied colors, white, yellow, pink, rose, brim, intense scarlet, carmine, violet, striped, blotched, variegated, etc. All old common and poor sorts have been discarded, and this mixture is of the highest grade.

Mixed, All Colors.—First size extra large flowering bulbs. Per dozen, 30 cents; per hundred, $2.50, by mail.

Mixed, White and Light Varieties Only.—First size, 40 cents per dozen; $3.00 per hundred.

Mixed, Scarlet Varieties Only.—First size, finest scarlet sorts, 40 cents per dozen; $3.00 per hundred.

Mixed, Pink Varieties Only.—First size, finest pink colors 40 cents per dozen; $3.00 per hundred.

Mixed, Yellow Varieties Only.—First size, finest yellow and orange shades, 60 cents per dozen.

The above Gladioli are all first-class, and will, without doubt, give entire satisfaction.
The following wonderful new Geraniums were exhibited at the convention of the Society of American Florists, and attracted more attention and were more admired than any other novelties on exhibition there.

**DOUBLE AND SINGLE GERANIUMS.**

**Price, 8 cents each; any eight for 50 cents.**

**Centaure.**—The new mammoth Centaure Double Geranium is the best large flowering double pink Geranium in cultivation. Any one seeing a geranium true cannot fail to become enthusiastic over it, pronouncing it the largest and finest Geranium in cultivation.

**Clara Kisker.**—Large trusses of well expanded flowers of a bright scarlet, toned and named with a rosy salmon, and a flower of most expressive appearance, and one that will be much admired by all.

**Beauty Poltevinge.**—Very large semi-double flowers borne on immense trusses. Fine bloomer, either in the pot plant or as a border. It has no equal of the color, which is a brilliant salmon, very clear on the borders. This might well have been called "Salmon Centaure," as it is identical in every way but color.

**White Swan.**—In white Swan we have one of the finest double white Geraniums ever introduced, and unlike other double white Geraniums, it is suitable for bedding, and flowers as profusely as the best single varieties. They are borne in large trusses and are spotted, snowy white, retaining their pure whiteness even in the heat of summer.

**Brant.**—Color of the flower is a light vermillion red of a most pleasing shade. The flowers are absolutely perfect in shape, contour and make the trusses exceptionally large and borne in immense spherical balls, often measuring eight inches in diameter. It does finely in the flower garden and is perfectly reliable as a bedding Geranium of the highest merit.

**Tour Eiffel.**—Color bright orange scarlet, somewhat in the way of the variety Brant. It is a strong, vigorous grower, making a distinct place for itself in its class. Semi-double.

**Gertrude.**—Color of the flower a clear, bright salmon, with center and outer edge touched with white and with soft shading of carmine, velvety in texture, and of the most beautiful semi-double form. I have measured trusses of bloom on this variety ten inches in diameter. It is simply superb. A fine bedding plant.

**Crimson Velvet.**—This is the darkest and richest Geranium grown and is very bright, dark, deep, rich, velvety maroon, very dark and rich, and at the same time very bright. An excellent bedding and pot plant. One that must find its way into every collection. Simply superb.

**Rose Bud.**—As double as a Tuberosum, and the only Geranium in the world that makes beautiful buds. It is truly a wonder in the Geranium family.

**Sir Walter Scott.**—Color beautiful crimson rose, with distinct white center. Produces fine individual flowers.

**Fire Brand.**—Color dazzling flame scarlet, fine, prominent truss, flowers large and of great substance. An excellent bedding and pot plant.

**Emile de Girardin.**—Of a deep, soft rose, rather than pink, but fresh and bright. The blossoms are perfect in form, and borne well and clear above the foliage. The long beds of it seen in the Chicago parks, with edgings of "Golden Bedder" Coles, formed the most beautiful Geranium planting I have ever seen, and the combination is simply delightful.

**SPECIAL OFFER.**—The Premier Set of Double Geraniums for only 80 cents.

**The Premier Set of Single Geraniums.**

**Price, 8 cents each; any eight for 50 cents.**

**John Good.**—Truss of enormous size and quite globular in form, stem long and rigid. A grand improvement on Lady Roseberry, color being a clear salmon, lightly edged with white.

**Beauty of Richmond.**—Intense orange scarlet, very dazzling, with large white eyes, flower perfectly circular and of immense size. Foliage lightly zoned. A seedling from Beauty of Kent. Extremely fine.

**Gettysburg.**—Bright crimson maroon, of beautiful shade, flower very large and of fine form. An extra beautiful dark variety.

**Monseur Ponsignon.**—The color is bright aurora rose, shaded salmon, with a white eye. Large trusses of splendid shaped flowers.

**Bill Nye.**—Color peach, shading to pale salmon, flower of fine size and form. A splendid grower, of fine, compact habit.

**Mrs. F. G. Hilt.**—A most distinct and pleasing shade of salmon, with light shading in center. The shading at the center is variable, however. Trusses are very large and composed of immense numbers of florets.

**Madame Alfred Mame.**—A magnificent bedding variety. The trusses are of extraordinary size, the florets by actual measurement being two and one-half inches long by two inches wide, of almost Fancy form. The color is a soft sub-scarlet, lower petals shading to salmon in the center, which is deeply veined crimson.

**Marguerite de Layres.**—A grand single white, plants a mass of lovely blooms, trusses of enormous size, plants extra large and of the purest white. The plant is robust. Grand for pots or bedding. It is by far the best single white.

**Lansdowne.**—A soft, deep scarlet, florets large and round and formed into large trusses, borne with the greatest freedom. An ideal bedding plant, producing a mass of soft, brilliant color, well above the foliage, which is light, bright green.

**Souvenir de Miranda.**—It has round florets, upper petals cream white, with a distinct rosy pink border, lower petals salmon rose, streaked pure white. A most novel color. It is extremely free flowering and produces fine trusses of magnificent blooms.

**Blanche Moulas.**—A grand bedding variety of much merit. The flowers are large, salmon, beautifully bordered with white. A Geranium of rare beauty.

**Protee.**—Flowers very large and freely produced in immense trusses. Color silvery line, white shading, changing to silvery pink. A splendid sort.

**SPECIAL OFFER.**—The Premier Set of Single Geraniums for only 80 cents.
SWEET-SCENTED GERANIUMS.
Price, 5 cents each, except where noted.

Apple-Scented.—Foliage small, leaves like ripe apples. 10c each.
Balm-Scented.—Delicious balm fragrance.
Nutmeg-Scented.—Small leaves, with nutmeg perfume.
Rose-Scented.—Two kinds, broad leaf and cut leaf.
Oak-Leaved.—Resembling oak leaves, thick center, green bordered.
Pepper-Scented.—Foliage is scented like pepper.

PELARGONIUMS, or LADY WASHINGTON GERANIUMS.

Here are five of the choicest new kinds of these, the most beautiful of all the Geraniums.

Price, 35 cents each, or the five varieties for $1.00.

Mrs. Robert Sandiford.—The flowers are three inches across, of the purest snow white, and perfectly double and very free in bloom. You cannot imagine anything prettier.

Madame Thibaut.—The flowers are three inches in diameter, perfectly double, of the brightest pure pink, beautifully ruffled edges. Very free in bloom.

Victor.—The flowers are a bright cherry red, with white at the base of each petal, the two upper petals are dark crimson maroon. The flowers are of immense size and very freely produced.

New Ever-blooming Pelargonium, Freddie Dorner.—It is a perpetual blooming variety, usually commencing to bloom in December or January, and continuing throughout the Spring and Summer. The throat and edges of the petals are pure white, each shaded toward the center with rich crimson with, with a glowing crimson blotch on each. I have always been unable to supply the demand, but now have a fine stock of plants to offer.

Captain Balkes.—A grand ruffled or fringed variety with very large flowers, borne in large, fine-shaped trusses. Color bright red, with lighter center, with large maroon blotches in upper petals.

IVY GERANIUMS.
Price, 8 cents each. The three varieties for 20 cents.

New Double Ivy Geranium, Comtesse Horace de Choiseul.—A bit in common of "Joan of Arc." The plants is vigorous, leaves without zones. Flowers very large, two inches across, double and interesting, in good trusses. Color a bright, golden salmon. I have no hesitancy in saying that this is the richest colored flower of any grown. All who see it say, "Is it possible that this is a Geranium flower?"

New Double White Ivy Geranium, Joan of Arc.—This is one of the most beautiful plants that it has ever been my privilege to offer. The flowers are perfectly double, white as snow, and literally cover the plant when in full bloom. The foliage is extremely handsome, the dense, glossy green leaves making a most effective background for the great cluster of white flowers. The foregoing was my description of last year, and another season's trial makes me heartyly endorse it.

New Double Ivory Geranium, Galilee.—Another grand sort. One of the most remarkable of recent introduction. The trusses are of immense size, flowers very large and double, and of a most charming shade of lovely rose pink, varied with lilac. A magnificent variety.

HOYA CARNOSA.—THE WAX PLANT.
This is a lovely house plant. Grows into a handsome plant, and bears large masses of white flowers that are covered with wax, hence its name. It is very desirable. 10 cents each.

CHINESE HIBISCUS. TEN FINE VARIETIES.
Price, 8 cents each; any four for 25 cents, or eight sorts, my selection, 50 cents. I have large plants of Hibiscus, ready to bloom, for 25 cents each. These are handsome plants.

SPECIAL OFFER.—I will send the entire set of ten distinct kinds of Hibiscus for 60 cents.

Sinensis Giganteus.—This is a plant for house culture during Winter or summer, or for planting outside during summer. It blooms at any time of the year. The plants branch freely and flower profusely, commencing to bloom when not more than a foot high. As a specimen plant for large pots it has an equal only in the Brugmansia. Its flowers are of enormous size, often eight to ten inches across, opening flat, and of such a vivid crimson scarlet color that they can be seen for a long distance, like a flaming torch. It is hard to find anything among flowers more strikingly showy. They can be watered in the cellar or in a flower room, and if one does not care to grow them all Winter, one should have one or two for summer display. No plant is sure to grow and thrive under any treatment but this, and few can ever be so satisfactory.

Aurantiaca.—Large and double, with orange colored flowers.
Grandidoros.—RICH—glossy cut-leaved foliage, literally covering the plant with scarlet crimson flowers.
Colerii.—Flowers buff yellow, with a crimson scarlet base. Peculiarly handsome and double.
Zebrinus.—Double, the outer petals scarlet, edged with yellow. The inner petals are very irregular, curiously variegated with creamy yellow and white.
Versicolor.—A variety combining in its flowers all colors of the whole family being hand-somely striped crimson, buff, rose and white. Flowers eight inches in diameter.
Magnum.—A very large flower and of perfect form. Color a deep magenta, edge of petals touched with brown, foliage finely toothed.

Carnivius Perfectus.—Full, round flowers of perfect shape, and of a rich, soft, carmine rose, with a deep crimson eye. Fully six inches in diameter.

Double Crimson.—This grand variety has immense flowers of the richest crimson. Combined with glossy foliage renders it best of all.

Sub-Violaceus.—Flowers of enormous size, a beautiful carmine, tinted with violet. Probably the largest flower of the Hibiscus family, and an unusually free bloomer. I take great pleasure in recommending this fine plant.

NEW PINK HIBISCUS, "PEACH BLOW."
This is a sport from the double red Hibiscus "Rosea Sinensis." The flowers are double and four to five inches in diameter, of a charming rich clear pink color, with small, deep crimson center. It is one of the finest flowering plants recently offered. The color is an entirely new and beautiful shade, and it blooms abundantly and continuously during the Summer and Fall months. Large plants two or three years old make a magnificent show. It will give general satisfaction to those who grow it, either in pots or planted out in the garden. It blooms well in the Winter in the greenhouse or in a sunny window. 20 cents each.
HELIOTROPE, THE QUEEN.

Florence Nightingale.—The best free flowering light lavender.

Kieldaln.—Color, deepest violet purple, large white eye, very fragrant. The plant is of vigorous habit, very floriferous.

Snow Wreath.—Superb large clusters of deliciously fragrant flowers of pure white.

Albert Delaux.—(Purple and Gold.) Foliage is a bright gold-yellow, very pronounced, and marked slightly with a delicate green. In bloom it is extremely beautiful, the deep lavender color of the flower contrasting admirably with the ever-varying foliage, very free flowering, trusses large.

The Queen.—For a neat, dwarf habit, profusion of bloom and richness of color, the Heliotrope has no equal; and its vibrant color of royal purple with a distinct white center gives us something entirely new in color, either for Summer decoration or Winter flowering. This is by far the best of all Heliotropes. Simply grand.

HYDRANGEAS.

New Hydrangea, Monstrosa.—This is by far the best of all Hydrangeas; the flowers being almost double in size of the older varieties, and its free blooming qualities are unequalled by any plant we know of. The color is at first a deep, rich pink, gradually changing to almost a snow white. Blooms have been measured fifteen inches in length by ten inches through. It is indeed an enormous and beautiful flower. 10 cents each.

New Hydrangea, Stella Fimbriata.—This is the only double Hydrangea in existence. The individual flowers are perfectly double, and resemble in shape small rosebuds, a beautiful peach pink in color, very floriferous, flowers of the largest size. It is certainly a charming plant. 10 cents each.

New Hydrangea, Red-Branch.—(Ramus Ficus.) A valuable addition to the list of Hydrangea, with dark red branches that branch to a clear crimson color as they near the flower trusses. The plant is of robust habit, and produces freely immense heads of deep, rose colored flowers. 10 cents each.

Japanese Hydrangea, Paniculata Grandiflora.—A very striking and elegant hardy flowering shrub, suitable for lawns; introduced from Japan. The flowers are pure white, afterwards changing to pink, and are borne in immense pyramidal trusses more than a foot long and nearly as much in diameter. It blooms in mid Summer, and remains in bloom two or three months. It creates a great sensation wherever seen. The plant is of bushy and compact growth, attains a height of three to four feet. Perfectly hardy in all parts of the country. Needs no protection. Fine young plants, 20 cents each; extra strong, two year old plants, for immediate effect, 50 cents each.

Hydrangea, Hortensia.—The old favorite variety. Pink flowers, changing to blue in soils containing iron. 8 cents each.

Thomas Voss.—A pure white variety, with trusses of flowers measuring fifteen inches in diameter. The plants, when full grown, attain a height and width of six feet. Perfectly hardy. One of the finest plants for cemeteries. 8 cents each.

Otoka.—Bright rosy pink, flowers always perfect and lasting when in bloom, three or four months. Try it. 8 cents each.

SPECIAL OFFER.—The seven Hydrangeas, good plants, for 60 cents each.

IMPATIENS SULTANI.

This makes a very shapely plant and is in bloom continuously the year round, outdoor or indoors, even in the small plants three or four inches high. The bloom is bright pink and comes so profusely as to almost cover the entire plant. Very desirable. 10 cents each.

FRAGRANT HELIOTROPE.

Price, 6 cents each.

FRAGRANT JASMINES.

Jasmine Gracilimum.—Exceedingly floriferous. A flowering shoot is produced from every joint, which terminates in a dense cluster of pure white, fragrant flowers. In bloom in the greenhouse from October to February. 10 cents each; fine, strong plants, 30 cents each.

Cape Jasmine.—Well known for its delicious fragrance and beauty of its flowers which are white and double. 10 cents each; fine, strong plants, 35 cents each.

Revolutum.—A yellow-flowered Jasmine, nearly hardy and exquisitely fragrant. Each; fine, strong plants, 35 cents each.

Poetica.—Similar to the Jasmine Grand. Flower small, but borne on larger spikes, each; strong plants, 25 cents each.

Grandiflorum.—(California Jasmine.) It is from Italy. The flowers are pure white, star-shaped, and of exquisite fragrance. 8 cents each; fine strong plants, 25 cents each.

Maid of Orleans.—In this beautiful Jasmine, there are combined some striking qualities that place it a peer over existing sorts. Easy culture, fine grower, good bloom, delicate fragrance, and double flowers of chaste and waxy white appearance. Fine plants, 10 cents each; strong plants, 30 cents each. If you have only one Jasmine, let it be this one.

Grand Duke of Tuscany.—This Jasmine is very easily grown, even small plants bearing a profusion of very double, cream white flowers, having a delicious perfume. It is a magnificent plant, and will become one of the most valuable and popular pot plants when it becomes better known. It can be stored in a dry cellar in Winter. 20 cents each; strong plants, 50 cents each.

Confederate Jasmine, Rhynchospermum Jasminoides.—This makes an elegant hard-wooded climber, or can be trained in bush form. It bears large bunches of pure white flowers, with the most delicate Jasmine perfume. It is known in the South, where it is hardy, as the Confederate Jasmine. It will delight all. 10 cents each; strong plants, 35 cents each.
JUSTICIA CARNEA.  
Brazilian Plume Plant.
Perhpas no plants have attracted so much attention in the last two years as the Justice, or Brazilian Plume Plant. The plant is strong, rapid grower, and throws up long stems, on which are produced fine plumo like pink flowers, the end of each petal drooping in a most charming manner. When plants are but a few months old they are literally covered with their beautiful blossoms. It does equally well either for house or outdoor culture, 8 cents each.

WEPPING LANTANA.—A New Weeping Plant of Great Beauty.
One of the grandest basket plants grown. The plant has a most graceful drooping habit, grows very rapidly and blooms continually Summer and Winter, producing large clusters of the most delicate lilac or rose pink, foliage a beautiful dark green. A single plant usually bears three hundred and fifty clusters of flowers on it. The plant December 1st had three hundred and fifty clusters of flowers on it, which proves it one of the most persistent bloomers, and does equally well Winter and Summer. I know of nothing of recent introduction that is so easily grown. It gives so much pleasure and satisfaction as this beautiful Lantana. Strong plants 8 cents each.

LANTANAS, OR SHRUBBY VERBENAS.
The brilliant colors, robust growth and profuse blooming habit of the Lantana render it one of the finest bedding plants I grow. The flowers embrace all of the most delicate shades of orange, sulphur, creamy white, etc., changing from one distinct color to another as they increase in age and development. The varieties I have given a wide range of color, and include the most distinct and profuse kinds. 6 cents each; five lovely colors for 25 cents.

LINUM TRIGYNUM.
A plant of great beauty producing in the greatest profusion very large and showy blossoms of a bright yellow color. It is probably the finest Winter blooming plant I have. 8 cents each.

The Wonderful New Lemon,  
PONDEROSA.
Nothing that has ever been brought to my notice in the plant line has caused one half the commotion that this wonderful Lemon has. It is a true ever-bearing variety. On a plant six feet high, no less than eighty-nine of these p ponderous Lemons were growing at one time. It was a beautiful sight to see. The tree was blooming and at the same time had fruit in all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. Fruit has been taken from this tree weighing over four pounds. The Lemons have very thin rind for such large fruit. In the juice of all Lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. It is not uncommon to make twelve lemon pies from one Lemon. I have secured true stock of this ponderous Lemon, and guarantee the trees to produce the same large fruit. This is a Hardy Lemon. It has stood 25 degrees of frost without hurting it. No budding or grafting necessary. Ponderosa Lemon, is sure to become popular when it is known. It fruits when quite small, and makes a lovely house plant. Everybody can grow their own Lemons, it will fruit freely the second year. Thrifty young plants, 20c each; three for 50c. Large two-year old plants to bloom and fruit at once, 60c each.

Lemon of Sicily.—(Dwarf). This is as much of a wonder as the Dwarf Orange. It bears Lemons the freest of any variety in cultivation. A handsome companion for the Dwarf Orange, as it bears fruit when quite small. Fruit is edible. Flowers are as fragrant as the Orange blossoms. 10c each; large strong plants, 30c each.

NEW LEMON PONDEROSA. One-fifth the natural size.
MANETTIA Bicolor.  

The most wonderful new vine or plant that has yet been produced. It blooms in Winter as well as Summer. It is both a rapid and beautiful climber. The flowers are from an inch to an inch and a half in length of a most intense scarlet, shading into flame, tipped with the deepest golden yellow, and covered with a thick scarlet moss. The blossoms remain on the plants for weeks before falling. Has my highest commendation. Send to me and get the genuine. Fine plants, 10 cents each.

MADEIRA VINE.  

This is one of the most beautiful of climbers. Grows rapidly, bearing small, white blossoms that are exquisitely fragrant. Fine tubers. Five cents each.

MAHERNIA, or HONEY BELLS.  

This is a fast-growing plant that bears bell-shaped yellow flowers freely, which are as sweet as any flower I grow. 6 cents each.

BEAUTIFUL MARGUERITE DAISIES.  

Marguerite Daisy, Madame Gallibert.—This is one of the finest new plants that has ever been introduced. Nothing can be imagined that is finer. All know the old varieties of Paris Daisies, how beautiful and much sought after for decorations of all kinds. This new variety blooms constantly, and will produce ten blooms to the old variety's one. Nothing is so airy and graceful as these blossoms of large, white petals showing a yellow disc. 7 cents each.

Marguerite Daisy, Etoile de Or.—The new yellow Paris Daisy, similar to the above, but a rich, golden color. The two varieties go handomely together. 7 cents each.

Agatha Celestis, or Celestial Daisy.—The flowers are a delicate sky blue, with a yellow disc. It is certainly a charming plant. Dwarf-growing, not over a foot to eighteen inches in height, and the bushes fairly swarm with its lovely blue blossoms. The cind-flower stems in the fall. Blooms from November to June. Very desirable. 8 cents each. The three

MAGNOLIA FUSCATA, THE GREAT BANANA SHRUB.  

It is always scarce and difficult to procure. I have succeeded in securing a fine, large stock, and offer it reasonable. April and May is when it gladdens the heart with its profusion of small flowers of brownish yellow color, exhaling a most exquisite fragrance, similar to a ripe banana. This is decidedly a great favorite, and with Olea Fragrans makes the two very finest and most elegant of all shrubs for the South. This Shrub is hardy in the South. Fine plants, 50 cents each.

MYRTUS COMMUNIS.  

This is the sweet German Myrtle. It grows into a handsome bush, and is evergreen, therefore is a fine plant for house culture. The foliage is deliciously fragrant. Every one should grow it. 10 cents each.

MOON FLOWERS.  

The True Ever-blooming Moon Flower, Ipomoea Grandiflora.—I have the true variety that blooms constantly, if planted out in rich ground. In a situation where it has full exposure to the sun, it will attain a height of fifteen to twenty feet. The blossoms are rich, and the flowers in abundance the entire season. It is called "Moon Flower" from its rare peculiarity of blooming best at night, although it also expands its flowers in dull days. The flowers are pure white, from five to six inches in diameter, emitting a rich, Jasmine-like odor at night. The "Moon Flower" is a tender plant, but it can easily be kept in the house over Winter. It roots in the same manner as other annuals, to bunches eight inches long. Nothing is more beautiful. 8 cents each.

New Moon Flower, Heavenly Blue.—This makes a splendid companion plant to the white Moon Flower. It is equally rapid in growth and a much freer blooming variety than the white one. The flowers rise in clusters of five to twelve, and at times almost hide the vine. The flowers are the most heavenly blue, with reddish purple rays, and are six inches across. Nothing is more beautiful. 8 cents each.

MILK AND WINE LILY, or Crinum Fluminatulum.  

"I must tell you that Milk and Wine Lily has done famous work. It has developed nine fine blooms, and there are two unopened buds. We therefore gave it a free ride last Wednesday to our chapel services. It was admired by everybody. There were Bostonians and people from various towns to admire and enjoy it."—Mrs. E. Adams, Man. A grand sort, the most beautiful of the Crinums. Its bulbs grow large, and its flowering is erect and sword-shaped. Flowers in umbels very large and showy, three to four inches in diameter, striped with white and crimson and very fragrant. Hardy in the South. See cut page 13. Extra large bulbs, 60 cents each; fine blooming bulbs, 35 cents each.

OLEA FRAGRANS, or TEA OLIVE.  

One of the most desirable flowering shrubs of Southern gardens, and also a favorite house plant in the North. Has deep green foliage similar to the Camellia. The white flowers, although small, are produced in great profusion, and emit the most pleasing fragrance. It has been well said that each individual bloom has more sweetness than the most fragrant Lily. The blooming period begins in the Fall and lasts for several months. It is of easy culture, and especially desirable as a window plant. 35 cents each.

MARGUERITE DAISIES.
OXALIS, ORCHISI.E.

Upright Oxalis, or Star of Bethliseth.—Few new plants will give better satisfaction than this, as it is a perpetual bloomer in every sense of the word. It is full of bloom every day of the year, when grown in a pot of good soil and with ordinary care. It grows as freely as a Geranium in any situation. It is a shrubby plant, like a Geranium or Fuchsia without buds, in which respect it differs from other Oxalis. It grows twelve to eighteen inches in height, branching freely, and loaded at all times with clusters of bright golden, star-shaped flowers, which do not close at night like other Oxalis. Beautiful as the flowers are, it is still a splendid plant without them, on account of its highly ornamental foliage. The leaves are three lobed, dark olive green above, and a beautiful, shining metallic crimson purple underneath, and wine-colored stems. This makes a truly novel plant, as well as a very beautiful one, and is surprising to see what attention it will attract. 8 cents each.

NEW OXALIS, PRINCESS.

This new Oxalis comes from San Diego, California, where it has been introduced from the islands of the Pacific. It goes under the name of Duchess, Pink Beauty, etc., in various catalogues. It is a bright pink, the flowers the size of a quarter of a dollar, and makes a perfect carpet of its bright pink flowers. The best Oxalis extant. 6 cents each.

DOUBLE FRINGED PETUNIAS.

The double Petunia is one of the finest bedding plants for massing, mixed borders, or for vases. The brilliancy and variety of its colors, combined with the duration of its blooming period, renders it invaluable for garden decoration. My collection is unsurpassed for brilliancy of color and size of flowers. It includes all the brightest shades of pink, purple, rose, white, etc. Name the color you want. 15 cents each; two for 25 cents.

PRIMULA OBOCONICA.

Always in Bloom.

This is a charming plant for winter. In fact, I know of none that is better adapted to home culture than this one. It is not susceptible to changes of temperature that most plants are subject to. It bears its elegant pencils and sprays of bloom of delicate pink and white in the greatest profusion. It is certainly elegant. 8 cents each.

New Everblooming

BABY PRIMROSE.

This is the finest blooming plant I know of, blooming continuously throughout the entire season. Plants in very small pots have from fifteen to twenty sprays of lovely light pink flowers, on stems ten to twelve inches high, at one time, and plants in four-inch pots often have from twenty-five to fifty at one time, lasting in bloom fully four weeks without fading, and continually sending new sprays all over the plant, making it one of the most desirable plants for the house ever introduced. It is a very rapid grower and the easiest grown of all the Primrose family. Very desirable. 8 cents each.

CHINESE PRIMROSE.

In White, Pink, and Crimson....

Few house plants afford better satisfaction than this. It requires to be kept cool, a northern window suitiing it best. Care should be taken in watering it that no water gets on the buds, as it causes them to decay. In the Summer it can be turned out into a shady border. The plants I offer are fine, and the colors are sure to please. I have them in white, pink and crimson. 10 cents each.

MEXICAN PRIMROSE.

This plant is strictly a perpetual bloomer. In flower at all seasons of the year, a good specimen showing always from ten to thirty large saucer-shaped blossoms, about three inches across.

NEW BABY PRIMROSE.

A splendid variety, with handsome flowers shade of apple blossoms. Entirely hardy. 8 cents each.
**PALMS.**

Plants are now indispensable for all decorations, whether in or outdoors, and for tropical bedding. They are easily grown, and increase their value two to fourfold every year.

**NOTICE.—**It may be well to state here that young Palms do not resemble the illustrations given, as they do not show their character leaves until the second year, so that when you get your small Palm plants and see long, narrow leaves instead of the character leaves as shown in the illustrations, do not think the wrong kind has been sent you.

The following is a select list of rare and handsome varieties that can be recommended for apartments, conservatories, decorations or vase plants during the summer. They are all grand plants, and of the easiest culture.

**SPECIAL OFFER—**I Mail Four Distinct Palms, Small Plants, Our Selection, for 50 Cts.

<tr>
<td><strong>ARUECA LUTESCENS.</strong></td>
<td>This majestic Palm is without a peer for strength and elegance combined. Its dark, glossy, green leaves are gracefully curved on slender stems, and the entire foliage is gracefully disposed. The trunk and stems are a golden yellow, irregularly spotted with bronzy green, giving it a peculiar charm. The built up plants of this Palm, that is, three plants in a pot, are very handsome and deservedly popular.</td>

| CYCAS REVOLUTA.—Sago Palm. | These are magnificent plants of noble, majestic habit and most impressive. They are probably the most valuable decorative plants grown, both for lawn and house decorations. Their heavy, glossy, deep green fronds resist alike the gas, dust, dry heat and cold to which decorative plants are frequently exposed. My plants are an exceptionally fine lot of popular sizes for home decoration. | 5 to 6 ft. | 25 cents each |

| CHAMEROPS EXCELSA. | A handsome fan leaf Palm of rapid, easy culture. Very valuable and useful for outdoors during the summer. | 4 inch pots, fine plants... | 5 to 6 leaves... 75 cents each |

| COCOS WEDDELLIANA. | The most elegant and graceful of all the smaller Palms, its slender, erect stem is freely furnished with its graceful, arching leaves of a rich, green color, admirable for fern dishes, as they are of slow growth and maintain their beauty for a long time. | 3 inch pots... 30 to 12 inches high... | 50 cents each |

| KENTIA BALMOREANA. | This is one of the finest pot plants imaginable, and the easiest to grow of any of the Palm family. Being almost hardy, it is not injured by slight changes in temperature, and its stiff, glossy leaves enable it to stand the dry, hot air of the living room without injury. The leaves are a deep, glossy green, fan shaped, split deeply into segments. This is, without exception, the most hardy of its class. Very graceful for table decoration. | 3 inch pots... | 50 cents each |

| WASHINGTONIA FILIFERA. | A beautiful Palm. It has elegant, dark green, fan shaped leaves, from which hang thread like filaments. It has only small sized plants of this Palm. | Nice young plants... | 10 cents each |
LATANIA BORBONICA.

The well-known Chinese Fan Palm. This is one of the most exquisitely graceful among Palms. Its wide-spreading, gracefully arching leaves are elegant and effective for apartment decoration. It is considered the handsomest and most valuable of all the Palms.

LIVISTONIA ROTUNDIFOLIA.

The Miniature Fan Palm.

One of the prettiest Palms. Especially suited for table decorations. The foliage is similar to that of Latania Reclinata, but smaller and gracefully recurved, forming an almost globular plant, always scarce. Admired by everybody.

PHENIX RECLINATA.

One of the hardiest of the Date Palms, with dark green, feathery foliage of strong growth, and is especially valuable for outdoor decoration, as it stands sun and wind without the least damage, even in most exposed positions.

PITTOSPORUM TOBIRA.

An elegant hard-wooded shrub. Hardy in the South. Makes handsome specimens, growing into a small tree in a few years. It bears small, white flowers in large bunches, or heads, which are so delicious in fragrance as to remind one of orange blossoms. Fine plants, 10 cents each.

POMEGRANATES.

These make shapely ornaments for the lawn, growing into large, shapely shrubs. They are used extensively in the South for hedges. The foliage is small, flowers double and very pretty. I have three varieties—Double White, Double Scarlet and Double Variegated. 3 cents each.

PANDANUS UTILIS. (Screw Pine.)

This is a charming plant and is one of our most useful of ornamental plants. The foliage is green, edged with red; when the plant is fully developed, the leaves describe a perfect screw on the stem, hence the name, Screw Pine. This will go nicely with your Palms and requires the same culture. Give very little water during the Winter season. Price, fine plants, 30 cents each.

EMPEROR PANSIES.

My Emperor Pansies are the best the world produces. They combine the choicest large flowered sorts, both of European and American growers. It has been my aim to make this the finest strain of this favorite flower in existence. Price, 35 cents per dozen; $2.50 per hundred. Seed of the Emperor Pansies, 10 cents per packet.

PHRYN1UM VARIEGATUM.

It is impossible to convey by description or cut anything like a correct idea of the great beauty of this new ornamental foliage plant. Its habit of growth is almost precisely like the Canna, and it grows from a tuber, which may be wintered dry—like a Gladiolus—unless, or it may be kept growing the year round as a pot plant. The Canna-like shoots grow from a foot or eighteen inches to three feet high, and the leaves, which are spreading blades of oblong lanceolate form, are from six to ten inches long and two to five inches broad. They are bright, pale green, beautifully variegated with pure white and rich cream, the variegations being extremely diversified. Indeed, in my beds of thousands of the plants it is almost impossible to find two leaves exactly alike. In some leaves the whole area is pure white or rich cream color, in others only one-third or one-half. In others again it is reduced to a few stripes or faint lines—and all of these variegations in one plant. It is very free-growing, and one of the most ornamental plants imaginable, either for pot culture or for bedding out. It is a grand plant to border Canna beds with, standing the full force of the sun's rays. Indeed, the fencer the sunshine the more perfect are the variegations of the leaves. The variegations grow constantly better and more varied as the plant grows older and larger. It is managed with the most perfect ease, and is absolutely sure to delight all who grow it. Fine plants, 15 cents each.
PLUMBAGOS.
Sanguinea.—The Plumbagos are very desirable plants for bedding or house culture, and are admired by all for their elegant trusses of bloom and the delicate colors of their flowers. The light blue and white varieties are well-known favorites, but with the new variety, Sanguinea, I have something that is entirely distinct and the prettiest of all Plumbagos. The trusses of bloom are larger than in the older varieties, often measuring ten inches in length, and of the loveliest bright pink or deep rose. Capensis.—A splendid novelty. The exact counterpart of Plumago Capensis except in color, which in

this beautiful novelty is a clear white. This is one of the leading new plants of the year. Do not confound this with the old worthless white. One of the most satisfactory bedding plants out. I recommend this highly. 10 cents each.

PEPEROMIA MACULOSA.
A lovely house plant. The leaves are distinctly variegated with white and green, and have the appearance of being powdered with frosted silver. Called Watermelon Geranium by some. 10 cents each.

RUSSELIA MULTIFLORA.
This is a grand new plant. The primary stems are strong and grassy. The flowers are extremely long and are covered with masses of flowers one over the other. Color a grand coral red. The flowers are tubular, and about an inch in length, and are produced so very freely as to cover the entire plant. It is a beautiful plant for hanging baskets. 10 cents each.

NEW ROSES OF SPECIAL MERIT.

The following new Roses are the most unique, valuable, distinct and beautiful varieties which have been offered for many years. Indeed, I have never had so many fine new Roses that were distinctly meritorious as the ones here offered. Each one is a new departure, and no lover of rare Roses can be without them.

Frances E. Willard,
President of the World’s W. C. T. U.

What the introducers say.
"It is with positive pride that we introduce this new white Rose to our friends. It is a strong, vigorous grower, making handsome bushes. The buds and flowers are of the very largest size, pure white in color, so full and double and perfect in shape as to resemble a Camellia flower. The fragrance is delicious. There is nothing among white Roses to compare to it. It is by far the grandest of all white Roses. This we say without any hesitation. It is a true ever-bloomer, belonging to the Tea Rose family. It was eminently fitting that we named this Rose in honor of the hallowed memory of the grandest of all women, Frances E. Willard, the great defender of Temperance and Purity, the white Rose being the emblem of the society (W. C. T. U.) for which she gave her life. We are the introducers of this Rose, and control the entire stock, having a certificate of registration from the Society of American Florists." I make the price low for such a grand Rose. Strong plants, 25 cents each; three for 50 cents. Extra strong two and three-year-old plants, to give an abundance of bloom this year, 60 cents each.

The Great Rose for House Culture, Sanguinea, or Opheliite Rose.—This old-fashioned Rose has been practically ignored in the past twenty years, except in certain localities where its worth and beauty have been known. It belongs to the Centifolia section of Roses, and is the one Rose that is eminently adapted to house culture, as it thrives under almost any conditions and surroundings. It is the only Rose in my whole list that will grow luxuriantly and bloom freely under adverse conditions. The foliage is small and of a reddish cast, when growing rapidly. The flowers are semi-double, of the most intense velvety crimson, very brigh and

brilliant and freely produced. Besides its adaptation to house culture, it is grand for bedding out for a mass of bloom. It is employed in the East by the hundreds of thousands for this purpose. Be sure and try this Rose, either indoors or out. You cannot help but succeed with it. I guarantee my stock true. 10 cents each; $1.00 per dozen; large two-year-old plants, 50 cents each.

THE GRANDEST WHITE ROSE IN THE WORLD, FRANCES E. WILLARD.

...
NEW ROSES OF SPECIAL MERIT—Continued.

Mouttly Cabbage, a Grand Hardy Rose.—I doubt if there is one person in a thousand that was raised in the rural districts of this state that has not seen or even picked a "Cabbage Rose." Remember the old Cabbage Rose of our mothers' and grandchildren's gardens. They could hardly keep house without one or two of them in their various stages of growth. As I moved, these plants were carefully dug up and transported with their other effects. They could not think of leaving behind their "Cabbage Rose." I have seen the old-fashioned Cabbage Rose bloom but once a year, in June. The bloom is a large, double, crimson-colored flower. The color is the bright pink, lovely both in bud and open flower, both large and double to the center. The fragrance is quite strong. A very good rose, quite attractive. 15 cents each; large two-year-old plants, 50 cents each.

Neptune.—This is a new French rose, and is, by all odds the very best new Rose that has been introduced in years. It resembles in color American Beauty. Buds and flowers of the largest size. It is a strong, vigorous grower producing its handsome buds and flowers on long stems. It forces equal to a Bridal or Bride'smaid. Never comes "off color" with the heat of summer. This is the nearest approach to the ideal forcing rose. Don't fail to try this grand variety. 20 cents each; large two-year-old plants, 50 cents each.

Psyche, the New Rambler Rose.—Received the award of merit of the Royal Horticultural Society of England. A cross between a Polyantha and a Rambler. In growth and habit it much resembles Crimson Rambler. The flowers are produced in clusters of eight to thirty-five and are double. The color is a rich, velvety crimson. Its fragrance is flattery. The color is a bright pink, sulfused with salmon rose and pink, with yellow base to the petals. A real companion to Crimson Rambler. The color gives it a comment as described at the various exhibitions. 20 cents each; large two-year-old plants, 50 cents each.

Queen Olga of Greece.—This rose comes to me very highly praised. So far I have failed to detect what these merits are. It may improve with a longer acquaintance. The color is light pink. 15 cents each; large two-year-old plants, 40 cents each.

Sunrise.—The most gorgeous Rose of its class yet introduced. The flowers shown and described as "Sunrise" wherever shown. In close bud form it shows the high, brilliant colors seen only in the Austrian copper, scarlet and yellow. As it expands it has the rich coppery bloom of the Austrian, which is its father. It is a graceful, tall, well-shaped plant and grows very strong. Its buds are slender and pointed, as they open showing a flesh pink, a variety surrounding the petals by a deep crimson curving its petals, which are of heavy texture, and its form is like a Cape Jasmine, hence its name. The open flower is the purper, while the bud is the copper rose. 15 cents each; large two-year-old plants, 50 cents each.

Lady Dorothy.—This rose was raised by Mr. John Dunlop, of Toronto, Canada, and introduced by him last year. A grand, high colored Rose, resembling Sunset, but twice the size of that grand variety, has the colors of a beautiful sunset. Will not disappoint you. 15 cents each; large two-year-old plants, 50 cents each.

Silver King.—This new Rose is a beauty indeed. In fact, I see a bed of it in bloom is absolutely startling, they are so grand and so beautiful. This rose is a most attractive variety or more satisfying color than that seen in the new Hybrid Tea Rose "Liberty," which today marks the limit of glorious deep, rich crimson color. These flowers are of magnificent rich hues of crimson red. Even as the ruby shades of generation, the flowers of these new roses will remain so fine and perfect. But we are now fired to enthusiasm when contemplating the rich, liquid ruby hue of "Liberty." Most nearly approached by Meteor in color, this new rose surpasses that standard variety in purity, being without the tendency to blacken that Meteor exhibits, and also the blue cast sometimes seen on fully expanded petals of Meteor has not been detected in any degree whatever upon a single one of many critically examined blooms of "Liberty." The flowers are larger, better, too, this new rose will surely appeal because of the greater ease of cultivation, in that it does not exact a temperature in excess of that generally so far recommended, and it has the advantage of not giving a little doubt but that "Liberty" is destined to rapidly become the one dark flowered rose for both commercial and private use. 15 cents each; large two-year-old plants, 60 cents each.

President Cleveland.—(Or Climbing Marie Guillot.) Originated in Houston, Texas, and I offered it the first time last year. The late Mr. George E. Pierpont, of Cleveland, Ohio, turned his attention to the rose. It is a grand, large flowered, hardy rose, which is known in Texas as President Cleveland, and to the public confusion of this name. It is a cross between Marie Guillot and Dorene, a obsolete. It is a cross between Marie Guillot and Devoniens. We place a high value upon its worth, because it is the offspring of one of the most valuable roses known to the present day. It is a state and in the best sentimental method of cultivation. The flowers are magnificently made, extra large, extra deep and double. The buds are particularly beautiful; fragrance delicious. The flowers are of beautiful crimson, tinged with pale yellow. In every way identical with Marie Guillot, except that it is hardier and of larger growth, shoots ten to fifteen feet high in a single season. It blooms continuously the first year. In fact, it commences blooming when buds are put out, and it flowers the entire season will be a glorious variety in the South, where it will undoubtedly equal Marechal Red. Hardy in the North with careful protection. 15 cents each; large two-year-old plants, 50 cents each.
NEW ROSES OF SPECIAL MERIT—Continued.

Maid of Honor.—This was named by the introducer Miss C. M. Karrer, in reference to the fact that if another Rose had been given that name. It is a sport from Bridesmaid, and is several shades deeper than that variety. Its connection with the Mermet family of Roses would indicate its worth. 15 cents each; large two-year-old plants, 40 cents each.

two-year-old plants.

The introducer says that this Rose attracted so much attention and proved of such remarkable beauty and value that he requested Miss Clara C. Eveling, president of the World's Red Cross Society, to give it her name in remembrance of the noble work she has done in the cause of humanity all over the world. It is a strong variety, and the bush is composed of large, full and double blossoms. It is a fast grower, with a good fragrance; a very uniform and constant bloomer, and is worthy of a place in every collection. 15 cents each; large two-year-old plants, 40 cents each.

Sweet Little Queen.—Named in honor of Queen William, of Holland, who ascended the throne last October, at the tender age of sixteen years. Plants strong and vigorous, with handsome sea green foliage. The buds are long and wide open, full and double. The flowers are large, while those of the center are pollinated like those of the Climbing Bridesmaid. A double bush, quite both a beauty and a delight to the eye. Very strong, and floriferous. Color, Daffodil yellow, center deeper, with bluish and orange shadings. A drinking-tea Rose, large flowers. 15 cents each; large two-year-old plants, 50 cents each.

Climbing Bridesmaid.—Best pink climbing Rose. 10 cents each.

Climbing Kaiscrin.—(Mrs. Robert Peary) Best white climbing Rose. Hardy. 10 cents each; large two-year-old plants, 50 cents each.

Climbing Malmaison.—This is a grand, flesh colored Rose; none better like Malmaison, except it blooms. 10 cents each; large two-year-old plants, 50 cents each.

Climbing Paul Neyron.—It is enough to say that this is a good Rose as Paul Neyron. 20 cents each; large two-year-old plants, 60 cents each.

Climbing Devoniensis.—White, flushed pink, magnolia fragrance. 15 cents each.

Climbing La France.—Hardy, Satiny pink. 10 cents each.

Climbing Marie Guillot.—(President Cleveland.) Pure snow white. 15 cents each.

Climbing Perle des Jardins.—New, Deep golden yellow. 10 cents each.

Bardou Job.—(The Sancer Rose.) This is not, strictly speaking, a new Rose, but its most beautiful discovery in the past year. It is scarce, and will be so for some time to come. It is of a semi-climbing habit, being quite vigorous and strong. The foliage is large and healthy. The flowers are very large, and resemble a saucer in shape, semi-double. The color is the deepest, richest velvety crimson of all Roses. We know of nothing equal to it, possibly so near. If you are not careful, this bunch of these Roses will start you. 10 cents each.

Climbing Pillow.—(The Butterfly Rose.) Hardy climber. The flowers are the size of a half dollar, and are a perfect reproduction of the brightest rose carmine, and produced very abundantly. Single. The plant is a strong one. 10 cents each; new Cotswold rising. 50 cents each.

Climbing Allemand.—Deep salmon yellow. 15 cents each.

Climbing Alouette.—Deep sulphur yellow. Large, full flowers, perfectly double; a fine bloomer and good grower. One of the best of its class. 15 cents each.

Claire Carnot.—Buff or orange yellow, peach-blossom center, medium size, full and compact flowers, delightful Tea scent. Very early. 10 cents each.

Cloth of Gold, or Chromatella.—A clear golden yellow, large, very full and double. Highly colored and much prized in the South. 10 cents each; new Cotswold rising. 50 cents each.

Gloire de Dijon.—Our Southern friends are unhobbled in their admiration of this fine Rose, which is seen there in its fullest perfection, being hardy in their sections, where it is used as a pillar Rose. It is noted for the great size of its flowers. Its delicate Tea scent, and its exquisite shade of color, being a blend- ing of amber, carmine and cream. One of the finest Roses on our list. 15 cents each.

NEW ROSES OF SPECIAL MERIT—Continued.

The first Pure White Everblooming Climbing Rose, Mrs. Robert Peary.—It is the first and only pure white everblooming climbing Rose, and as such meets a demand that has never before been supplied. Small plants bloom continually the first season, just as it does the large round Victoria, does. It is as hardy as any Hybrid Perpetual or Moss Rose, and will withstand, unprotected, the most severe Winters. It is a strong, rapid grower, with a very uniform and constant bloomer. It climbs on open ground, and throwing up numerous shoots ten to fifteen feet high in a single season. The flowers are something grand. They are white, with a center of a rich yellow substance. Of splendid substance. They are extra large, full and double, and are perfectly free from all faults, either for cutting or for flower arrangement. The buds are large and pointed, excellently modeled and gracefully finished. Both in bud and flower it is truly beautiful. It has a fragrance that is delicious, just like Cherry blossoms. If you want a quick growing absolutely hardy, climbing, sure-to-bloom Rose, one that will give you flowers this season, this is the only white variety that will. Do not let this get to wonderful variety. Its magnificent flowers, freedom of bloom and healthy growth will astonish you. This is the greatest of all Climbing Roses. I have thousands of plants of this grand Rose, and I guarantee them to be genuine. 15 cents each; large two-year-old plants, 30 cents each.

Climbing Bridesmaid.—The flowers are simply beautiful (identical with Bridesmaid). A clear, dark pink. In bud they are a dark red, and when they bloom a rich pink, and yellow, a good rose. The introducer has no plants of this Climbing Rose. Bridesmaid is considered the most beautiful of all everblooming Roses, and in Climbing Bridesmaid you have all this beauty coupled with a rapid grower. 15 cents each; large two-year-old plants, 50 cents each.

Climbine Tea, or Noisette Roses.

THIS CLASS INCLUDES SOME OF MY MOST BEAUTIFUL AND VALUABLE ROSES. THEY ARE UNUSUALLY FREE AND CONTINUOUS BLOOMERS, PRODUCING FLOWERS OF RARE AND STRIKING BEAUTY. AS THEY ARE ALL CLIMBERS, THEY SHOULD BE PLACED NEAR PORCHES, PILLARS OR TRELLISSES, WHERE THEY CAN HAVE SUPPORT.

Price of Large Two-Year-old Plants of Climbing Roses Named Below, 40 Cents Each.

Golden Chain, or Climbing Safrano.—(Rev. Dr. O.) A beautiful pillar Rose, handsome and warm. 10 cents each; two-year-old plants, $1.00; three-year-old, $2.00.

Mary Washington.—White. 10 cents each.

Mrs. Alfred Carrico.—Extra large full flowers, very double and sweet. Color a rich creamy white, faintly tinged with pale yellow; exceedingly beautiful. It is a strong, hardy climber and free bloomer. 8 cents each.

President Cleveland, or Climbing Marie Guillet.—A grand white Rose. 10 cents each.

Red Marechal Nié.—A cross between General Jacqueminot and Marechal Nié. Flowers very large, well shaped, full form of buds and flowers like the yellow Nié; color bright red shading to yellow, very a good Rose. 10 cents each; cost $1.00; three-year-old, $2.00.

Vilatte.—White. 10 cents each.

Waltham Queen.—New, Hardy. Rich red roses of magnificent size, a vigorous climber. 10 cents each.

William Allen Richardson.—Orange yellow with outer petals lighter, center coppery yellow. Very rapidly becomes a large Rose. 10 cents each; large two-year-old plants, 50 cents each.

Zelia Pradel.—Vigorous climber has lovely pure white buds. Flowers are full and sweet. 8 cents each.
GENERAL COLLECTION OF HARDY ROSES.

These Roses Are Hardy Everywhere.

PRICE, 10c EACH; OR I WILL SEND FIFTEEN KINDS FROM THIS LIST, YOUR SELECTION, FOR $1.00; ANY SEVEN KINDS FOR 50c; LARGE TWO-YEAR-OLD PLANTS, 35c EACH.

Alfred Colomb.—A bright carmine crimson, very large, full, and of fine globular form.

Anna de Diesbach.—(Glory of Paris.)—Brilliant crimson, shaded maroon, long pointed buds, full and sweet.

Ball of Snow.—(Boule de Neige)—A finely formed, pure white Rose, occasionally shows light flesh when first opening. Beautifully fragrant. Dr. Hogbin's petal, evenly arranged, flowers of good size.

Baron de Bonstetten.—One of the richest dark red Roses.

Baroness Rothschild.—Color a rich and lovely shade of pink, delightfully perfumed. An ideal Rose in every respect.

Baroness de Freycinet.—Flowers very full and flat in shape. The outside petals silvery white, the center pale buff pink.

Captain Christy.—The color is a lovely shade of pale peach, deepenig to pink. Extra fine. Perfectly free bloomer.

Chas. Lefebvre.—A grand old red Rose. One of the best.

Chlo.—Two first-class certificates, award of merit Royal Horticultural Society. The variety is of very vigorous growth, and has, shaded, large, handsome foliage. The flowers are flesh colored, shaded to the center with rose pink, they are very large, of fine form, and very freely produced. A grand addition to the style of Baroness, and unquestionably the finest of all Roses for flowering in pots and forcing.

Coquette des Alpes.—A lovely pure white Rose. Very full and free in flower. Delicious fragrance.

Countess of Roseberry.—The color is satiny pink in the center, and deeper to the outer petals. A very bright rose. A further shading gives it the appearance of two distinct colors. It has completely captivated us. Very free flowering and a good grower. Be sure and try it.

Dinsmore.—Dazzling scarlet crimson of the largest size. Very free and fragrant. A most magnificent Rose.

Duke of Edinburgh.—One of the old stand by dark red Roses for the garden. Perfectly free blooming.

Earl of Beaconsfield.—A magnificent Rose, Large, very full and fragrant, deep rose crimson, brightening with intense scarlet in age.

Earl of Dufferin.—A grand, deep, rich red Rose; large and fragrant.

Evelina Holmes.—Dark, rich scarlet, elegantly shaded with deep velvety crimson, beautiful, and extra large, full flowers, fragrant.

Fontaine.—A lovely hardy Rose of the largest size, deep scarlet in color.

Gloire de France.—A very beautiful Rose. Soft chin pink, delicately shaded carmine and blush, large, finely formed flowers, delightfully fragrant.

Gloire de l'Estre.—A very rich color, A most magnificent Rose. This is the best of all the hardy Roses, and is without a rival in fragrance and richness of color.

General Washington.—This magnificent Rose is one of the best for general planting. Colors brilliant, shining crimson, very rich and beautiful, large and perfectly double.

Giant of Battles.—This is still esteemed as the very best red rose. Very large, double, full and sweet. An excellent variety. Gloire de Paris.—Flowers of the largest size. Very free, and perfectly double. Color a bright crimson, of velvety texture. A Rose of unusual merit. I am pleased with it.

Gloire de Martinet.—A clear, dazzling red, the most brilliant of all hardy Roses. Very fragrant. superb.

Gloire de Monacos.—Pale shade of yellowish salmon yellow, sometimes tinged to crimson white, tinted orange and aven. A grand Rose.

Gloire de Piganeau.—Color a beautiful shade of bright red and brilliant crimson. This is a charming new Rose. Buds and flowers of the largest size.

Harr Major.—A Rose of immense size. Deep, glowing pink in color. By many claimed to be the largest Rose in cultivation.

Helen Stewart.—A bright scarlet crimson, flowered fully rounded out, petals large and thick, highly perfumed, very beautiful.

La Reine.—A beautiful, clear, bright rose, fine, full form, very fragrant. It is well named "The Queen."

Louis Vau Houte.—A rich crimson, heavily shaded with maroon and beautifully formed, double flowers.

Mabel Morrison.—This is a beautiful white Rose of the largest size. Very handsomely.

Madame Alfred de Rougemont.—A strong, vigorous grower, large, bears lots of blooms in season, and continues until stopped by severe freezing. Pure snow white flowers, finely tinted and clouded with pale rosy blush. Large, full and double, and borne in large clusters. Fragrant and good.

Madame Charles Wood.—A large Rose. Color deep red. Very free bloomer and very sweet. None better.

Madame Gabrielle.—A clear color, rose or deep pink. One of the prettiest of all Roses.

Madame Joseph Doucet.—Color a pure snow white, of the largest size. A most magnificent Rose.

Madame Masson.—The flowers are large, color a deep rose of the finest grade of pink. Very free bloomer.

Madame Plantier.—The ironclad white cemetery Rose. This is the old standby, and is unequaled where a hardy white Rose is needed. It bears thousands of beautiful snowy white, fragrant Roses. It is as hardy as an oak.

Mademoiselle de Lacy.—A bright red, finely pelted with rich maroon, very large, full flowers, fragrant and beautiful.

Miss Charta.—A bright, clear pink, flushed with crimson, very sweet, flowers extra large, with fine form and very double.

Margaret Dickson.—A new Rose of great merit. Pure white, of immense size. Has been awarded ten first prizes.

Marie Bauman.—Considered one of the very best dark red Roses of this medium size.

Marshall P. Wilder.—A beautiful Rose of a bright cherry red color. All praise it who have tried it.

Mrs. John Laing.—Color bright shell pink, exquisitely shaded, very free bloomer. Everybody admires this fine Rose.

Mrs. Seriman Crawford.—Deep, rosy pink, outer petals pale salmon, base of petals are usually the same color. Received a cold medal of the National Rose Society. Flower large and of perfect form. A new color in this section and one of the most promising of the new Roses.

Marchioness of Lorne.—A rich, fulgent rose color, shaded with red crimson, very double.

Merville de Lyon.—The flowers are extra large, of cupped form. Color a pure, untinged ivory white.

Miss H. King.—"What a lovely black Rose," is the exclamation of all beholders. This is by far the richest rose yet introduced.

Paul Neyron.—The old time favorite. Of immense size, often measuring five inches in diameter, lovely bright pink or deep rose. Very superb.

Perfection des Blanches.—A fine formed, pure white Rose. One of the finest and most beautiful of the white Roses.

President Lincoln.—One of the richest hues, large, full and fragrant. Excellent.

Prince Arthur.—A rich, brilliant crimson, very bright and striking, large, double and finely cupped flowers. One of the best Roses in our collection. In color, a rich, dark crimson. Very lovely.

Prince Camille de Rohan.—This variety is always a prime favorite with everybody. Richest crimson.

Roger Lambelin.—One of the most remarkable Roses yet offered. The petals are irregular on the edges like a double Petunia. The color is glowing crimson throughout, except the edges of the petals which are all distinctly marked with a white band, forming a sharp contrast and the most unique combination of colors known to Roses.

Salamanader.—Another rich red Rose of the largest size, Very fragrant.

S. Reynolds Hole.—Sold by many to be the best Rose of its color. Rich crimson.

Strophanthus de Beaux Arts.—A grand Rose garden, bearing its huge scarlet flowers in grand profusion.

Vicky's Caprice.—This is the only hardy Rose that has any vibration. It is a vigorous grower, and bears large and fragrant flowers of bright rose, distinctly striped a rich crimson. It is altogether a most unique and pretty variety. A Rose that is entirely attract attention. A very beautiful Rose, and one of the most Choice of all this Rose.

White Baroness.—Identical with Baroness Rothschild, except the color is a pure, untinted white.

White Poacory.—Flowers of the largest size. Pure white.

For House Culture or Outdoor Planting.

I have taken great pains to culm from this list Roses of no special value. My customers can rely on the Roses in this list to be the best of the old and new varieties of ever-bloomers.

Price, 10 cents each; any seven, of your own selection, for 50 cents; any sixteen for $1.00. Large two-year-old Roses, from this list, each 30, or four for $1.00.

Arch Duke Charles.—This is one of the very best red Roses; changes to bright pink. Very desirable.

Violetta.—(New.)—Bright red. Very sweet, large blooms. This is truly a rival of American Beauty.

American Beauty.—This is a Rose that charms everybody. Colors.—Very sweet. A most lovely and charming variety.

Bridesmaid.—(New.)—The loveliest of all pink Roses.

White Imperial.—(New.)—Rose that changes its color from yellow to crimson. Sometimes has blooms of five or six distinct colors at one time. Perfectly wonderful.

Beauty of Stapleford.—Bright pink, and rich, rose crimson.

Catherine Mermot.—One of the most fashionable shades for cut flowers. Color, a rose pink, large,

Comtesse de Friesins.—The buds are long and pointed, like Nipponos. The color is a deep golden yellow, large and full.

Champion.—(New.)—A rich, deep, rose pink, very sweet, and large blooms. A most lovely and charming variety.

Center of the World.—(New.)—A rich, deep, rose pink, very sweet, and large blooms.

Crown Princess Victoria.—White Malmaison, (New.)—Identical with Malmaison, except that the color is white. A Rose that can be without a doubt considered a charming variety.

Duchess de Brabant.—This is another old-time favorite. Color, a beautiful rose, tinged amber in the center. Everybody plants this variety.

Duchess of Albany.—Identical with La France, except the color is much deeper. A most charming Rose in every particular.

Duc de la Mauny.—Very sweet fragrant. Color, a rich heavy shade of yellow.

Dr. Pirie.—(New.)—A lovely yellow, with deep rose red. A charming variety.

Dr. Alberts.—(New.)—Beautiful, pink blooms, borne in clusters.

Henry M. Stanley.—A rare shade of amber rose, delicately tinged with apricot yellow and the center.

Golden Gate.—(New.)—Color, a rich, cream white, beautifully tinted with golden yellow. A choice Rose.

Heirloom.—Beautiful pink blooms, borne in clusters.

Huntington.—(New.)—Color, amber yellow, shaded white.

J. B. Van Fleet.—(New.)—Scarlet crimson and buff color.

Lavender Augustine Victoria.—(New.)—Pure white. A superb Rose in every respect. Hardy.

Lettie Coles.—(New.)—Color, a soft, rose pink, shaded with intense crimson and shaded white.

La France.—(New.)—A very rich and beautiful Rose.

Lavender Augustine Victoria.—(New.)—Pure white. A superb Rose in every respect. Hardy.

Madame de Fatville.—This is called the Tulip Rose. Color, a rosy blush, mildly bordered with bright crimson. Exquisitely beautiful.

Mademoiselle Francisca Kruger.—Probably the best all round bedder Rose I have. Its shadings of deep coppery yellow and stand unique and distinct.

Mamam Cochet.—(New.)—Don't fail to try this beautiful Rose. Color, deep rose pink, shaded and touched with yellow. Superbly grand.

Meteor.—This Rose ranks at the head of all dark, rich, red Roses. None better.

Madame Schwaller.—A deep, rich pink, blooms in clusters of from live to twenty Roses. A great garden Rose.

Mademoiselle Cecile Borthod.—A deep, rich, golden yellow. A superb variety.

Pierre Guillot.—This superb Rose has no superior. Always in bloom. Blooms and flowers of enormous size, of the richest red.

Princesse Francisca.—(New.)—Color, coppery or rosy yellow, distinctly tinged with bright crimson. This is indeed a princess.

Queen of the lovely of all red Roses.

Pink Souper.—(New.)—Like Clothilde Souper, except the color is a lovely shade of pink.

President Carnot.—(New.)—A superb new Rose, combining lovely shades of fawn and pink. Extra fine.

Queen's Scarlet.—A great holding Rose of richest scarlet. One of the finest known Roses.

Rhub Gold.—(New.)—Tawny yellow, shading to old gold, with crimson center and veins of rosy red and pink.

Rainbow.—A beautiful pink Rose, striped crimson.

Rosa Cynth.—This Rose has quite a large flower, striped crimson and rosy crimson color. One of the largest flowers.

Stripped La France.—Same as La France, except the color is pink, with light stripes through it.

Sunflower.—(New.)—Pure white. Most perfect bloomer of all Roses.

Souvenir of Wootton.—Rich crimson Rose in large clusters.

Star of Gold.—The best all round deep golden yellow Rose. Not equalled by any other Rose.

Three Gems, or Fair Unknown.—A straw yellow, shaded crimson.

Triumph de Perret Perle.—Magenta red, passing to a rich crimson.

The Queen.—Beautiful long buds. The color is pure snowy-white and exquisitely sweet.

The Briar.—This is a pure white Rose, of the largest size, buds and flowers of most perfect form. It has the fault of coming in pink in dry, hot weather.

Viscountess Folkestone.—This beautiful Rose is so large and fine as to resemble a Pouey. Pure white, faintly tinted fawn. Nothing can be more beautiful.

White Perle des Jardins.—Same as Perle des Jardins, except the color is pure white.

White La France.—Same as La France except the color, which is pure white, faintly tinted fawn. A charming Rose in every respect.

White Bon Silene.—Same as Bon Silene, except the color pure snow white.

Bower's Ammoniated Food for Flowers.

A New Odorless Fertilizer for Pot Plants, Makes Plants Grow and Bloom Luxuriantly, and Drives Insects from the Soil.

It starts the plants at once into a healthy and vigorous growth and abundant bloom. It drives worms and insects from the plants, and is free from all disagreeable odors, and is harmless to the flowers. It can be used without danger or injury to the plants. It takes the place of liquid manure, and is just the thing that has been wanted for a long time. I have sold tens of thousands of packages of it, and have yet to hear the most favorable report. If you plant are doing poorly, get a package and see how quickly they will be benefited. It acts like a charm. The Ammoniated Food is put up in wooden boxes, with attractive wrappers. One package, sufficient for twenty-five ordinary-sized plants for one year, for 50 cents.

Sent by mail, postage prepaid, on receipt of price.
I guarantee these Roses to be as good plants as any firm in this country sells for ten or twenty cents each.

**Princess Bonnie.**—This is the richest deep crimson of all the Roses. Handsome buds and flowers. Extra fine.

**Madame Welch.**—I doubt if there is a Rose in my entire list that is a better one than Madame Welch. Color amber yellow and crimson rose. It is charming.

**Kaiserin Augusta Victoria.**—Pure white, of the largest size, is hardy and a very suitable Rose for the garden. A grand variety.

**Champion of the World.**—This variety is hardly everywhere and a true ever-blooming. A large double Rose of the very brightest, deepest pink.

**Luciole.**—The color is a beautiful shade of soft, amber yellow, deepening towards the center to orange or coppery yellow. An excellent variety.

**Aline Sisley.**—The flowers are very large and double. The color is a rich shade of red, brightened with crimson maroon.

**Queen of Fragrance.**—The blooms are of the largest size. Color white, sometimes tinged and flushed with a delicate shell pink. The fragrance is simply delicious.

**Charles Legrand.**—Color a charming red, shading to deep, glowing crimson. For smoothness, richness and flavor this Rose is without a rival.

**La Princesse Vern.**—The color is a rich ivory white, shaded and veined with fine coppery yellow, and delicately penciled with pale bluish. A splendid variety.

**Etolie de Lyon.**—A grand, deep golden yellow Rose with buds and flowers of enormous size for a Rose. More of it is planted than any half dozen other yellow varieties.

**Madame Camille.**—Delicate rose flesh, changing to salmon rose. This makes a grand bedding Rose, as it is a strong, vigorous grower, and always in flower.

**La France.**—Everybody knows this charming Rose. It is a favorite with every one, its large pink blooms are so choice and beautiful.

---

**The Magnificent "Princess" Rose Collection.**

The "Princess" Rose Collection consists of twelve choice varieties of ever-blooming Roses, most of them new varieties. They are of every shade of color or that known in this most lovely of all flowers. They are all on their own roots.  

**The Beautiful "Duchess" Rose Collection.**

The Roses in this collection are in every respect the equal of the "Princess" collection.

---

**Making choice of either collection you make no mistake.**

**Burbank.**—A perfectly hardy new Rose of the brightest pink color. It is a very free blooming variety, therefore makes a superb bedder. Is becoming popular very fast.

**Coronet.**—This is without question one of the very finest varieties of Roses grown. The shape of the flower is all that could be desired in a Rose. Very large double and full, soft, clear pink, edged with white. Fragrance delicious.

**Helou Cambier.**—This is one of the really few good new Roses that have been introduced in recent years. The color is an amber yellow. Very fine and distinct. Will please you.

**L'innocence.**—Color pure snowy white. The color is really immaculate, so pure and refined. The shape is globular, deep and double. A No. 1.

**Lottie Bumgardner.**—Color a brilliant Carmine, shading to all very peach. Very delicate and beautiful.

**Maid of Honor.**—This is a sport from Bridesmaid, and is several shades deeper than that variety. Its connection with the Mermet family of Roses would indicate its worth.

**Princess Alice de Montaco.**—The flowers are produced in wonderful profusion, are deliciously fragrant, large size, double to the center. Color creamy white, with rosy blush on edge of petals. Grand.

**President Carrot.**—This Rose is above the average as a beautiful variety. The color is a lovely fawn, shading to pearl. Delightfully fragrant. A beauty.

**Sylph.**—Flowers ivory white, tinted with peach color. A very beautiful blending of colors. Much admired.

**Madame Lambard.**—Extra large, full flowers, very double and sweet. Color a beautiful shade of rosy bronze, passing to salmon and fawn. A good bedding Rose.

**Mosella.**—A grand variety of the greatest merit. A good bloomer, a good bedder, and one of the sweetest of all Roses. It is a combination of white and yellow that is extremely beautiful.

**Princess Sagan.**—This is without question the very best rich red Rose in existence. It fairly hides the bush when in full bloom. The color is deep crimson. Very rich and beautiful.
EYER-BLOOMING ROSES.

Your selection of ten sorts from the list below for only 50 cents, or twenty-four for $1.00.

My Roses are all grown on their own roots, and I guarantee them true to name. Large two-year-old plants from this list at 25 cents each. They cannot be duplicated elsewhere for this price. This list contains the old standard sorts of Ever-blooming Roses, many of which will never be superseded by new and expensive sorts. Price, 6 cents each. : : :

Adam.—Bright flesh, salmon rose, large and double.
Agrippina.—An old favorite, bronze, double, white and crimson.
Aline Sisley.—Deep Rose. A fruity, pleasant fragrance.
Antoine Schwartz.—A beautiful crimson, free-flowering variety.
Anna Oliber.—A lovely shade of bronze, very double.
Antoine Verdier.—Rich, dark carmine pink, very free.
Arcadia.—A very free bloomer, lovely bluish color.
Belle.—Pure snow white, long, pointed buds, tea scented.
Bougainville.—Deep carmine. Very free and deliciously fragrant.
Bougere.—Bronzed pink, tinged with lilac. Large and full.
Canary.—Light canary yellow, beautiful buds and flowers.
Charles Rivoli.—A lovely shade of brilliant carmine.
Chesnut Hybrid.—Bright red, illumined with crimson, large, full.
Countess de Breteuil.—Lovely shades of salmon and pink.
Comtesse Bidal et Parc.—Coppery rose, tinged with soft violet.
Coquette de Lyon.—A lovely light yellow, very free bloomer.
Cornelia Cook.—Very large bud and flower. Slightly scented.
Countess Evarts.—White, lined pink, very fine, full, fragrant.
Duchess de Thuringe.—Beautiful silvery rose, finely cupped.
Duckers.—Dark, cherry red, rich and velvety. Very fine.
Dr. Reymont.—Rich velvety red, very free bloomer.
Edouard de Neyra.—Pink and carmine, excellent, fine to bright rose.
Elie Beaulivill.—Lovely deep rose. Hardy.
Eugene de Beaurains.—Lovely deep red. Good garden Rose.
General Tartas.—Deep, mottled rose, sometimes tinged buff.
Gomer.—Sott, clear rose, with salmon shades. Splendid.
Joseph Metal.—Carnation red, pasting to carmine.
Jules Figer.—Bright rose scarlet and intense crimson.
La Phoenix.—Deep pink, changing to light pink. Free bloomer.
La Princesse Vera.—Pale flesh, changing to salmon.
Laville Blanche.—Lilac, large and double.
Louis Richard.—A coppery-rose, beautifully tinted with lilac.
Lucullus.—Beautiful, dark crimson maroon, full and fragrant.
Madame Besssonneau.—A delightful pale yellow. Free.
Madame Bravry.—Creamy white, large, full, very symmetrical.
Madame Cruany.—Delicate flesh, changing to salmon rose.
Madame Caroline Kuster.—Bright lemon yellow. Very large.
Madame Damaizel.—Salmon rose color, changing to amaranth.
Madame de St. John.—Carmine, changing to salmon or fawn.
Madame Jules Groliez.—A charming shade of satiny china rose.
Madame Isaac Pereire.—Deep, very fine, hardy.
Madame Jean Sisley.—Pure white, long buds. Handsome.
Madame Joseph Schwartz.—White, flushed pink, cupped.
Madame de Jure.—Lilac rose, good size and substance. Fragrant.
Madame Margottin.—A citron yellow, with coppery center.
Madame Martha Dubourg.—Deep rose, shaded yellow and red.
Madame Pauline Labont.—Salmon rose, large, full, sweet.
Marchal Roberts.—Lemon white, tinged and shaded rosy blush.
Marcus de Vienviens.—Bright carmine, center lighter.
Marie Ducher.—Rich, transparent salmon, with fawn center.
Mary Edith Gifford.—White, light pink and white center. Extra.
Monsieur Furtado.—Yellow, full, very fine and fragrant.
Pink Daily.—Light pink flowers, produced in clusters.
Pink Soupert.—A lovely pink hedging or pot Rose.
Princess Hohenzollern.—Deep, rich red, very handsome bud.
Princess de Radziwill.—Bright rose and carmine, double.
Princess Sagan.—The color is a rich, velvety crimson.
Queen’s Scarlet.—A grand hedging Rose of the richest scarlet.
Safrano.—A bright and red yellow, changing to orange and fawn.
Sombreuil.—Beautiful white, tinged with delicate rose.
Souvenir de David.—An excellent dark crimson variety.
Souvenir de Dr. Passot.—One of the best red Roses.
Souvenir de Us Ami.—Fine, delicate rose, shaded with salmon.
A fine variety.
Valle de Chamounix.—Glowing copper and rose. Lovely.
Vivaria.—Copper, large and double.
Virendella.—Flowers and buds pure green. A great curiosity.
Viscountess Wautier.—Light rose, with amber shadings.
White Bon Stiege.—Pure white. Very fragrant.
White Daily.—Pure white, beautiful long pointed buds.

HARDY CLIMBING PRAIRIE ROSES.

PRICE, 8 CENTS EACH; LARGE TWO-YEAR-OLD PLANTS, 25 CENTS EACH.

These are Climbing Roses that are perfectly hardy everywhere, and are consequently of the greatest value. They can be readily trained to the height of from ten to thirty feet, as they grow with great vigor. They bloom the second year, and last once in a season, but are then loaded with splendid Roses, and are among the most beautiful of flowering plants. At least one of these hardy climbers should be found in every Rose garden north of Pennsylvania. The flowers are produced in large clusters. When it is desired to cover walls, unsightly buildings, etc, with Roses, none will be found to do the work so efficiently as varieties of the Prairie Roses.

Baltimore Belle.—Pale blush, variegated carmine rose and white, very double. Flowers in beautiful clusters, the whole plant appearing a perfect mass of bloom. One of the very best Climbing Roses.
Bennett’s Seedling.—An Ayreshire or Scotch Rose, and a vigorous runner. Flowers are white, very double and fragrant, and borne in great profusion.
Caroline Goodrich, or Running General Jacqueminot.—This new hardy climbing Hybrid Tea Rose has finely formed, very double flowers, and its fragrance is most delicious. The color is the same as General Jacqueminot. It makes a growth of from twelve to fifteen feet in a season.
Dundee Rembolt.—The old-fashioned Scotch climbing Rose. Entirely hardy, hearts elegant, rich, red Roses of the largest size. This I think the best of the hardy climbers.

Greville, or Seven Sisters.—Flowers in large clusters, and varies in color from white to crimson.
Alllledgeville, or Pride of the South.—A splendid variety, color a rich salmon pink, very fresh and beautiful. Fine large globular flowers, full, regular form, very double and sweet. A profuse bloomer and quite hardy.
Queen of the Prairies.—Flowers very large and of peculiar globular form. A bright rose red, changing to lighter as the flower opens. Of very strong, rapid growth.
Russell’s Cottage.—Dark, velvety crimson, very double and full, a profuse bloomer and strong grower. A very desirable Climbing Rose.
Tennessee Belle.—Flowers a bright, beautiful pink. More slender and graceful in growth than either of the other varieties.

TWO BEAUTIFUL MOSS ROSES.

MOSS ROSES ARE SHY BloomERS, BUT VERY BEAUTIFUL.

Glory of Moses.—This is one of the most beautiful Roses imaginable. The flowers are very bright and of most delicious fragrance. Color, rich, glossy pink, tinged crimson, large and globular. The buds are almost hid with beautiful green moss. 3 cents each; large two-year-old plants, 50 cents each.

White Path.—This is unquestionably the Queen of all Moss Roses. Extra large, full, very double flowers of the pure snowy white, and comes in large clusters, delightfully perfumed, buds thickly covered with lovely deep green moss. A beautiful Rose. 15 cents each; large two-year-old plants, 50 cents each.
POLYANTHA, OR FAIRY ROSES.

Notice: I cordially recommend these exquisite Ever-blooming Fairy Roses. They are of a shabby, compact growth, bloom profusely all through the season, and are very desirable for bedding, as well as for edging, borders, etc. They are moderately hardy, but should have a covering of leaves or litter, just before Winter begins.

Price, 8 cents each; large, two-year-old plants, 25 cents each.

ELIZA CHATRAND.—One of the most lovely of all Roses, having lovely rose-colored flowers, elegantly penciled, and touched with ruddy salmon. Very free bloomer.

ETTOLE D'OR.—A new Polyantha resembling Perle d'Or, excepting in color, which is a deep chocolate yellow. A dainty beauty that will win its way wherever planted.

GEORGE PERRET.—It is annually in bloom, the flowers being quite large for this class, of a beautiful, flat form. The color is a very bright rose, with touches of yellow, and passes to peach now, with silvery white shadings. The prettiest of all Polyanthas.

GOLDEN FAIRY.—This is a lovely Rose. Very free flowering, color rich golden yellow. Entirely distinct.

MINIATURE.—This is the smallest of all roses but perfect in form, regular, compact, fairy like flowers, fully double and very fragrant. Flowers in wreathe and clusters almost covering the whole plant. The color is a cream rose, dursed with a peacny red.

SPECIAL OFFER.—The Set of Ten Fairy Roses, named, for 75 cents.

SANSEVERIA ZEYLANICA.
A New Decorative Plant of Great Beauty and Value.

A beautiful plant, splendidly adapted for the decoration of drawing-rooms or halls, as it stands dowright and dust with impunity, and requires scarcely any water. The leaves grow to a length of three or four feet and are beautifully striped cross-wise, with broad white variegations on a dark green ground. A rare and beautiful plant which should be abundantly grown for positions out of the reach of sunbeams, where other plants will not thrive. When you consider that it can be placed in any position in any room and do well, its great usefulness is at once apparent. It has a singular beauty for decorative purposes which other plants do not possess, and is useful both Winter and Summer. Though grown mainly for the beauty of its foliage, it is by no means an insignificant flowering plant. It blooms usually in June and for the longest time flowers white, bloom-like spikes of a foot or more in length. The flowers are numerous and composed of long, narrow petals, which recurve gracefully, and are of a creamy-white color. It is difficult to find a more unique or ornamental plant of this kind in bloom. Plants, 8 cents each; large, strong plants, 15 cents each.

STROBILANTHES DYERIANUS.
Royal Purple.

A new and very beautiful foliage plant from Singapore, which will become universally popular on account of the brilliant and exquisite coloring of the leaves, the beauty of its flowers and its extraordinarily easy growth and usefulness as a decorative plant. It surpasses the finest Coleus in exquisite coloring of the leaves, besides which the long racemes of violet blooms with which the plant is covered in mid-Winter greatly enhance its value and beauty. 8 cents each.

MIGNONETTE.—A lovely Fairy Rose. Full, regular flowers perfectly double, intensely perfumed. Color a clear pink, passing to white, tinged with pale rose.

MACDONALDIE CECELE BRUNER.—Larger flowers than any of the others, perfectly double, and delightfully fragrant. Color a rosy pink, on a rich, creamy white ground.

PARKER BLOOMER.—Flowers cover the bush this the best of all the Polyantha Roses. The flowers are pure white, about an inch in diameter, flowering in clusters of five to six blooms. Very full, cup-shaped, recalling the blossoms of the double flowering Cherry, and fully equals the double white Primrose in profuse blooming during the Winter. This is a beauty that everyone is pleased with.

PRINCESS MARIE ADELAIDE.—Large, double, deep pink flowers, better than Pink Bonnet. A gem in every way.

PERLE D'OR.—Charming and very distinct. Color a coppery gold, changing to fawn and salmon, flat rayed form, very double and elegantly perfumed.

SWAINSONIA ALBA.
Something New and Valuable. It Will Bloom Both Summer and Winter.

A beautiful continuous flowering new plant, with pure white sweet pea-like flowers, produced in sprays of from twelve to twenty blossoms each. It surpasses as a decorative plant for the window or conservatory. The pinnated, feathery, leaves look like foliages and a cheerful light green, and has always a neat and clear appearance. It is of easy culture, growing in almost any light position. Its great freedom of bloom, being seldom without flowers, and its grace and beauty of its flowers, and the neat habit and fine appearance of the whole plant will undoubtedly make it one of the most popular plants in cultivation. Expected to be invaluable for cutting. Owing to its ease of culture and beauty, it is one of the most valuable and desirable home plants that has yet appeared. 8 cents each.

New Swainsonia, Splendens.—Same as the above, with broader scarlet flowers. This is the only true scarlet variety. 8 cents each.

SALVIA.

New Dwarf Scarlet Salvia, Le President.—The grandest addition to our list of bedding plants. It forms a compact bush completely covered with rich, scarlet flowers. We have had plants that by actual measurement were only fifteen inches high and two inches across. A dwarf or vase plant it will be indispensable and as it will bloom abundantly in pots, it will be of the greatest value as a market plant for florists. 10 cents each.

Splendens.—The standard sort for bedding. Flower spikes of the most brilliant scarlet. 5 cents each.

Alba.—A white variety of Splendens. Identical in every respect except in color, which is pure white. 5 cents each.

Sensibus.—Two shades, white and red flowers. Very evenly striped, 5 cents each.

New Salvia, Yellow Bird.—Has beautiful yellow foliage, scarlet flowers. It will become a general favorite for bedding effects. 10 cents each.

STEPHANOTIS FLORIBUNDA.
This is the well-known vine for house culture that is always scarce, being difficult of propagation. We have been fortunate to grow a stock of several thousand fine plants. It is a hardy, woody vine, with thick, leathery leaves, bearing bunches of pure white flowers that are deliciously fragrant. Indeed, it is the most charming of all fragrant flowers. 10 cents each.
SAXAFRAGA SARMENTOSA. Handsome plant of low habit, leaves nearly round and striped green and white, flowers white, of a good size, and borne in spikes nearly twelve inches high. Fine for hanging baskets, vases, etc. 8 cents each.

SOLANUM HEMISONIUM GRANDIFLORUM. A beautiful plant which inclines to a trailing or climbing habit, but can be pinched back to a bush form. Flowers star shaped, borne freely, orange yellow, mixed colors, white, pink, and red, with a violet tinge on back of petals and on the buds. In pots it is a fine bloomer, both Winter and Summer. 8 cents each.

SOLANUM AZUREUM. (The Blue Solanum.) A pretty species of the same habit of growth as the above, but with large clusters of blue flowers which are succeeded by scarlet berries which remain perfect a long time. 15 cents each.

SHILLAX. For using as a green with cut flowers it has no equal, its hard texture enabling it to keep for several days without withering before being put in water. It is also used as a parlor or window plant. 5 cents each.

THE WHITE JAPANESE SPIDER LILY. Hyacinthella (Pancratium) Caribbicum. This magnificently produces immense umbels of often as many as twenty-five flowers, and nearly always two or more flower scapes at the same time. The flowers are airy and fragile appearing and of a pure white. The foliage remains green in rays, and resemble an immense spider, hence its name. In the center of each flower is a beautiful brown or scarlet, resembling tissue paper. Price for fine, large bulbs that will flower freely, 35 cents each.

EXCELSIOR PEARL TUBEROSE. Finest in Existence. All Blooming Bulbs. Cultivars. Tuberoses may be grown indoors preliminary to planting them in the open ground. Plant outdoors as soon as the ground becomes warm and all danger of frost is past. Plant two or three inches deep, and six or eight inches apart in the row. They like rich soil and plenty of sand. If there is danger of frost before the flowers are done blooming in the Fall, lift carefully with earth on the roots, plant in pots or boxes in a warm, light place, and they will continue to bloom for several weeks.

Dwarf Excelsior Pearl Tuberoses. Year after year its popularity is increased. The dwarf form has reached enormous proportions. Grows about eighteen inches high, blooms early and with the greatest freedom; matures perfectly. Flowers are in clusters, of a fine creamy white and very sweet. This is the sweetest of all Tuberoses. Fine, extra large, well formed. Sells in groups of six each; five for 25 cents; twelve for 50 cents each.

VERBENA.—Mammoth Flowering. In this grand new strain has been developed a beautiful Verbena that produces flowers of unusual size and of a wide range of colors. The individual blossoms are frequently larger than a silver quarter. In fact many of them are as big as a deep silver saucer. Take a silver quarter and try to cover any of the single flowers of the corymb, and you will realize how magnificent in size are these lovely flowers. They are well colored and embossed with some of the most remarkable markings. It is so grand that we want all our friends to see it, and hence offer the plants at a very moderate price. 5 cents each, six for 25 cents, or thirteen distinct varieties for 50 cents each.

Alyssum, Sweet—The old favorite, very fragrant. 36 cents each.
Antirrhinum, Tall, Mixed. Tall Snapdragon, all colors. 24 cents each.
Antirrhinum, Dwarf, Mixed. Dwarf Snapdragon, all colors. 18 cents each.
Achillea, Chrysanth Alba. Pure White Chrysanthemum. 12 cents each.
Achillea, Mixed. All colors of Chrysanthemum. 15 cents each.
Aster, Double, Mixed. All colors. 24 cents each.
Aster, Comet. New; resembles Chrysanthemum; in six colors. 24 cents each.
Aster, Washington. The largest of all Asters; in six colors. 24 cents each.
Aster, Queen of the Market. Earliest of all; five colors. 24 cents each.
Aster, China, or Common, Mixed. In twenty colors. 24 cents each.
Aster, Tall, Mixed. From best varieties. 24 cents each.
Balsam, or Touch-Me-Not, Lady Slippers. All colors. 18 cents each.
Campanula, Canterbury Bell. Double mixed. 12 cents each.
Campanula, Mixed. All varieties. 24 cents each.
Canna, Canna. 36 cents each.
Candytuft, Snow Queen. Pure white. 9 cents each.
Candytuft, Dwarf Hybrid. Mixed colors. 12 cents each.
Candytuft, Sweet-Scented. Mixed colors. The old favorite. 36 cents each.
Celosia, or Cossomb, Glasgow Pride. Pure red. 24 cents each.

BEAUTIFUL AND FRAGRANT VIOLETS. Of all delightful perfumes that of Violets is the most delicate and pleasant, and places the modest little blue flowers among our most favorite plants. As a rule, they grow without Winter with no trouble whatever, if given a cool situation, but will not succeed in a warm place. Violets are now grown by millions, and are quite as popular as any flowers. They are cut out of doors by the hundreds, and the ladies are planting them and furnishing the cut flower dealers with them for their show cases. I furnish the best cut flower varieties at $4.00 per hundred, cheaper. Imperial, or Parma Violets.—(New.) This is, without question, the largest, richest colored and most highly perfumed of all Cut Violets. It blooms early, and grows with the plant with its lovely blue flowers of the largest size. Its blooming season is longer than any other Violet. Size of a silver half dollar. 10 cents each.

Hardy Double English Violet.—This Violet is entirely hardy, perfectly double, a deep violet purple color, and most deliciously fragrant. It surpasses the well-known "Lady Louise" Violet in richness of color, being many shades darker, and far excels it in its delightful odor. This is one of its greatest merits. It will grow and bloom in any garden and in any situation. Nothing is more appropriate for cemetery plots than the Hardy Double English Violet. 15 cents each.

Fragralt.—A beautiful, new double Violet. Strong and healthy grower, perfectly hardy and free-flowering, producing in the greatest abundance lovely deep and double flowers of deep violet fragrance, and the largest, finest and most splendid size, as large as a silver twenty-five cent piece. 8 cents each.

Marie Louise.—(Baby Blue.) To contrast with white, we offer this delicate, double blue, suitable for pot houses, and desirable for pots or gardens. Plants hardy and bloom freely. This variety is planted more largely by florists than any other. 8 cents each.

Double White, Perforcutal Flowering Violet, Scarlet White, or Queen of Fragrance.—Of all the white Violets this is the best, and produces the largest flowers. In pots it grows luxuriously, and is loaded with flowers. It is not an uncommon sight to see as many as fifty flowers open at once, represented in all the exquisite colors of the double and single. Their delicious perfumes filling a whole room. 8 cents each.

Lady Hum Campbell.—A true ever-blooming. This is one of the most of all double blue Violets. It is so wonderfully the number of beautiful flowers it produces; in color it is a lovely shade of the richest intense blue. It is a charming contrast with the white variety. 8 cents each.

Hardy Russian.—This is the hardest of all Violets, deep rich blue in color. A strong grower. You will have no trouble to grow this variety, as it is hardy and very free flowering.

VINCIA, MAJOR VARIEGATA. This is a beautiful variegated trailing vine, admirably adapted for hanging baskets and vases. The leaves are a glossy green, broadly margined a creamy white, flowers blue. More Vincas are tried in vases and basket work than all other vines combined. 5 cents each.

Price, per pkt.

Celosia, or Cossomb, Tall, Mixed. All varieties. 36 cents each.
Celosia, or Cossomb, Mixed. All varieties. 36 cents each.
Centauria, or Candytuft, Mixed. All colors. 24 cents each.
Centauria, Centaurea, Mixed. Dusty Miller. 24 cents each.
Centauria, Centaurea, Mixed. Denny Miller. 24 cents each.
Celosia, or Cossomb, Mixed. Springfield. 24 cents each.
Cypress Vine.—Mixed seed; blue climber. 12 cents each.
Datura, or Horn of Plenty. Mixed varieties. 24 cents each.
Delpinia, or Lavender. All mixed colors. 24 cents each.
Dipladenia, or Star of David. All mixed colors. 24 cents each.
Digitales, or Fox Glove. All mixed colors. 24 cents each.
Double Daisy.—Handy; all colors mixed. 24 cents each.
Fuchsia.—Pure white. 36 cents each.
Gaillardia, or Blanket Flower, Mixed colors. 24 cents each.
Gazania, Mixed. 24 cents each.
Gazania, Mixed. Single, Mixed. 24 cents each.
Gazania, Mixed. Assorted. 36 cents each.
Gazania, Mixed. Double, Mixed. 36 cents each.
Godetia, or Satin Flower, Mixed. 24 cents each.
Gourds, Ornamental, Mixed. All kinds, mixed. 36 cents each.
Grevillea Robusta, Australian Silk Tree. 36 cents each.
Hallianthus, or Sunflower, Mammoth Russian. 36 cents each.
Helianthus, or Sunflower, Miniature. Very small. 36 cents each.
Heliotrope Vo. Fragrant. All mixed colors. 36 cents each.
Hibiscus, Hybrid. All mixed colors. 36 cents each.

**Hardy Shrubs, Vines, and Plants.**

**ACHILLEAS.**—New Achillea. The Pearl. (The Great Country Plant) It is a hardy perennial, the top dying down to the ground every Winter. A plant will produce hundreds, and even thousands of flowers the first summer, but when established the second year they frequently have more than five thousand swellling flowers on a plant at the same time. It commences to bloom early in July, and is a perfect mass of beautiful flowers all frost, the same bloom keeping perfect two or three weeks at a time. The flowers can be picked and produced in large sprays, making one of the finest cut flowers for bouquets, vases, baskets, etc., or for any kind of decorative work.

**New Rose-Colored Achillea. Millfolium Rubrum.** It produces rose-colored flowers, and is easily raised from seed. It is hardy in almost any soil, and is recommended by "Japan Ivy." It is adapted to all situations, and transforms the humdum cottage. It is entirely hardy in the most exposed places, attaining a height of twenty to thirty feet in two to three years, clinging to stones, brick or wood work with the greatest tenacity. For covering dead trees, gate posts, boundary walls, verandas, etc., it has no equal, while its rapid growth and tenacious clinging qualities make it a most desirable plant for balconies, or for the same use in any place. In the Summer the foliage is a rich shade of green, but in the Fall it assumes the most gorgeous tints of scarlet, crimson and orange, so dazzling as to be seen at a great distance. 10 cents each; extra strong plants, 25 cents each.

**AZALEA MOLLIS.**—This most brilliant and showy of all hardy shrubs—exceeding even the Rhododendron—and entirely hardy in the smallest garden. It flowered among my plants for the first time in August and September, when scarcely any other shrub is in bloom. Two kinds, double White and Rose, 15 cents each.

**AZALEA VENUS.**—Another fine form, without speck of coloring in center, as the old variety has, but is pure white. 10 cents each.

**AZALEA VOLCANICUS.**—A new form of the above, larger, more vigorous, and produces flowers of great size and beauty. 10 cents each.

**asyHUMUS CANDIDUS.**—Hardy white flowers. 50 cents per dozen; 1.00 per hundred; 1.50 per thousand.

**IPOMENA, Grandiflora Alba.**—The White Moonflower, 10 cents each.

**LANTANA, or Shrubby Verbena.**—All colors. 50 cents per dozen; 1.00 per hundred; 1.50 per thousand.

**Lemon Verbena.**—Very fragrant foliage. 25 cents per dozen; 50 cents per hundred.

**LOBELIA.**—The choicest mixed colors. 25 cents per dozen; 50 cents per hundred.

**MARIGOLD.**—40 cents per dozen; 75 cents per hundred; $1.50 per thousand.

**Marigold, Dwarf French.**—Mixed. All the good varieties. 75 cents per dozen; 1.50 per hundred;

**Maunderya B. Alba.**—Both colors. 25 cents per dozen; 50 cents per hundred.

**Phlox, Clematis.**—Lovely scarlet Phlox. 50 cents per dozen; 1.00 per hundred; 1.50 per thousand.

**Phlox, Capitata, or Star of Quedlinburg.**—Very odd and beautiful. 50 cents per dozen; 1.00 per hundred; 1.50 per thousand.

**Poppy, Shirley.**—Very hardy, 30 cents each.

**Poppy, Snowdrift.**—Double pure white. 30 cents each.

**Poppy, Fire Dragon.**—Deep scarlet. 30 cents each.

**Poppy, Mixed.**—All the best varieties. 30 cents each.

**Primula, or Chinese Primrose.**—Winter-blooming. 30 cents each.

**Primula, Flemish Beauty.**—Large flowers. 30 cents each.

**Rocket, Sweet.**—Purple and white; very sweet. 30 cents each.

**Rheum, Castor Oil.**—Mixed. 30 cents each.

**Saponaria, or Soapwort.**—50 cents per dozen; 1.00 per hundred; 1.50 per thousand.

**Seabloss, or Mourning Bride.**—All colors, mixed. 30 cents each.

**SMILAX.**—An elegant climber. 25 cents each.

**Spiraea, or Gillet.**—Mixed. 30 cents each.

**Stock, or Gilly Flower, Red Victoria.**—Pink, red, white. 30 cents each.

**Zinnia, or French Stock.**—Pink, purple, red, white. 30 cents each.
HARDY SHRUBS, VINES AND PLANTS—Continued.

CALYCANthus FLORiDUS.—The old-fashioned sweet-scented flowering shrubs, such as 'White Honeysuckle,' are still found in old gardens, but they have been superseded by the newer Cultivated varieties. The tags of the shrubs are not always in keeping with the flowers, but the older shrubs grow into beautiful specimens, often reaching heights of 20 to 25 feet. They are easily propagated by cuttings in early spring, and are hardy in all parts of the country.

DICENTRA SPECTABILIS. Bleeding Heart.—A hardy perennial, with heart-shaped leaves and bell-shaped flowers in clusters. It is often grown in rock gardens and is hardy in all parts of the country. It is propagated by division in spring or fall.

DEUZiA. LeoMORPI.—New. Flowers pure white, borne on stout branches which are of upright growth. Habit dwarf and bushy. Leaves dark green, ovate, toothed. Flowers purple. 100 each.

DEUZiA, Crenata.—A grand hardy shrub, flowers double white, and tinged with rose. 10 each.

HARDY ZEA. Purpurascens.—One of the most hardy double Daisies. Hardy everywhere. 8 each.

Eucalyptus. citriBlue Uvitra.—A beautiful Ornamental Grass, with narrow, graceful foliage. Very valuable. 10 each.

EuphorbiA. Deep green foliage, broadly striped lengthwise of the leaf. Pure white. Very handsome. 100 each.

HARDY LILIES, Hemerocallis Flava.—(The Lemon Lily.) This is entirely hardy, and bears flowers of a lemon yellow color. 100 each.

Lilium Auratum.—(Golden-Rayed Queen of Lilies.) This is the grandest Lily grown, and a never-failing delight. The petals are long and narrow, yet penetrating. Also known as "Gold-banded Lily from Japan." 20 each.

HIMALAYA. Pot and treat the same as for Hyacinths. Each bulb will give six to twelve flowers, in many cases more. The flowers are fully six inches in diameter, and the most delicious fragrance. Fine bulbs, 20 each.

Candidum.—(The Aconitum Lily.) The well-known hardy garden Lily, a favorite of all lovers of beautiful flowers. Each flower, 15 cents each; three for 35 cents.

Tithonia Flora Plena.—(The Double Tiger Lily.) Bright orange, spotted black, and very double. 15 each.

Speciosa Rubra.—A beautiful bright red, spotted with a dark, velvety crimson. 20 each.

 HELIANTHUS, HARDY SUNFLOWER.—Bears a profusion of perfectly double, golden-colored flowers, about the size and form of a nice Dahlia, for which it is sometimes mistaken. One of the really good things which should be in every garden.

THE BEAUTIFUL IRIS, KAMPFPEPER.—It is perfectly hardy. The newer varieties of this King of Iris, recently introduced from Japan, with purple, white, and yellow flowers, are a great addition to the garden. They are propagated by division in spring.

THE LILY OF THE VALLEY.—The Lily of the Valley is one of those delicate, sweet little flowers that not only easily win our love, but are so well adapted for a border or for a garden plot. It is a favorite with all gardeners, and is hardy in all parts of the country. It is propagated by division in spring.

HARDY MOON VINE.—Pure white flowers and entirely hardy. 10 each.

HAVANA or SWEET MAY PINKS.—These are the pinks of our mothers' gardens. They are dwarfer than the Carnation, growing about one foot in height, the color being of a clear rose, and the flowers bicolored and banded on white ground. The flowers are perfectly double. Each flower stands out on a stem for two years after being planted, and is valuable for its long bloom. 8 each.

PAONiE. The Pincies of Our Mothers' Gardens.—They are a hardy shrub, perfectly adapted to the climate of the Northern States, growing well in almost any situation, soil, although the flowers will be finer and colors brighter if planted in a deep, rich, loamy soil. I offer a splendid assortment in twelve distinct varieties. 25 cents each; five distinct kinds for $1.00.

UMBROSA.—This is a dwarf-growing variety bearing deep blue flowers, hardy everywhere. 8 each.
THE CARE AND CULTURE OF FLOWERS.

"Mistress Mary, quite contrary, how does your garden grow?"

How to make plants thrive well and bloom freely is a question that often puzzles those who love flowers. Our floral treasures are so beautiful and fragrant, that no matter how many we have, more are always wanted. Some persons seem to think it is a difficult thing to grow flowers successfully. Such is not the case, I am glad to say. Plants require fair treatment, it is true, but there is nothing mysterious about their culture. Their beauty and perfume is rich reward for the small amount of trouble required to grow them successfully. My love for the plants I grow does not cease when I sell them—it is so strong that I want to know that they are properly cared for afterwards. If this is done, I have the assurance that my customers will be pleased with their flowers, and that they will send me orders another season. Of course, with all my now immense business to look after, I cannot write special letters to all my patrons, telling them how to care for their plants—it would be impossible for me to do so. Success with flowers has been attained by so many people, however, that one can readily learn from the experience of others what it is necessary to do in order to make plants grow and bloom. I want to place in the hands of every one of my customers a monthly record of these experiences.

HOW TO GROW FLOWERS.

In order to do this, I am acting as agent for a splendid floral magazine, with the above name. It is the only journal of its kind published in America, and any person who grows or loves flowers ought to have it. How to Grow Flowers is prepared especially for amateur flower culturists, and is most plain and practical in the directions it gives. It is a work of art, printed on fine book paper and illustrated from photographs, showing flowers as they actually are. Each number contains from twenty-eight to thirty-six large pages. Its columns are absolutely independent, telling what is best for inexperienced flower growers, regardless of the effect on the sale of plants by me or by any other florist. The matter published is practical—the journal tells you what to do, when to do it, and how to do it. Every phase of home floriculture is covered in season. There is a department in which floral questions are answered, and every subscriber is welcome to make use of it. Several pages of brief letters from readers are published each month, and cash prizes awarded for the two best ones. There are also other liberal prize offers to subscribers in each number. I am not the publisher of this great magazine, please bear in mind, but act as general agent for it.

SPLENDID SPECIAL OFFERS—READ WITH CARE

The regular subscription price of How to Grow Flowers is fifty cents a year. If you will remit me this sum, I will send you the magazine twelve months and give you, absolutely free, a splendid collection of twelve plants and bulbs, as follows: Two everblooming Roses, two prize winning Chrysanthemums, one weeping Lantana, one Chinese Hibiscus, one Carnation, one Fuchsia, four selected Gladioli. These varieties are said to be best adapted to your section, and you could not buy the plants in the collection for less than one dollar. Remember, these twelve plants and bulbs and How to Grow Flowers one year for only fifty cents.

If you order plants or bulbs from me, at the prices quoted in this catalogue, to the amount of over fifty cents and less than one dollar, I will send you How to Grow Flowers one year for only thirty cents in addition to the sum of your order, paying the remainder of the subscription price myself.

If you order plants and bulbs at the prices quoted in this catalogue amounting to more than one dollar, I will send you How to Grow Flowers for only twenty-five cents additional, paying the remainder of the subscription price myself.

I make these special offers in order to induce you to have How to Grow Flowers visit you regularly this year. Please do not overlook the fact that I am not the publisher of the magazine, but only act as general agent for it. In order to get you to become a subscriber, I am willing to donate you a portion of the price, on the terms noted above, paying the same myself. Do not send me your subscription on any other terms than those noted above. Address,

Please write the addresses of a few of your friends who buy plants, that we may send them our catalogue.

DO NOT WRITE IN THIS SPACE.
MY DEAR FRIEND.

On referring to my books I find that you did not make any purchases of me the past year, and I have gotten up some very tempting offers on this circular, especially for your benefit. If there was anything unsatisfactory with any order you have ever received from me, write and tell me about it and I will make it right. I cannot afford to have a single dissatisfied customer.

"EMPERESS" ROSE OFFER.

I will send all the Roses on this page for the Small Sum of 25 cents.

Every one of these Roses are new varieties and everyone of them is a gem, nothing of their colors compare with them for beauty. They are the hardest of the everblooming roses and will live out anywhere, even in the very coldest climates with but slight protection. I have grown these choice new Roses by the thousand and have decided to give my patrons the benefit of a remarkable low price, so that all may plant them and see their exceeding great beauty; because they are cheap do not imagine for one minute that the plants will not be strong and well grown. I guarantee the safe arrival of all my plants anywhere in the U. S. Give me a trial. Find out the coupon below and enclose with the 25 cents and secure the "Empress" Collection of magnificent Roses.

New Hardy Ever-blooming Rose, ALICE ALDRICH—The most richly and sweetly scented Hardy Rose. The hardest of Hardy Roses. The most double and beautiful of Perpetual Roses. The most unique of all Roses. This new and distinct Rose is truly wonderful. It is a pioneer of a new and most valuable race, namely: absolutely hardy, perpetual blooming and sweetly scented Roses. The Alice Aldrich is a hybrid between Rosa Rugosa and that splendid old variety of the hybrid perpetual or remontant class, Caroline de Sangal. In habit of growth and foliage it strongly resembles the rugosa species, possessing the same abundant, rich, dark green, clean and healthy foliage and Moss Rose-like buds. In like manner it inherits the property of this species of blooming with great profusion in June, and continuing to flower throughout the summer and autumn. It also possesses all the ruggedness and iron-clad hardness of its Japanese parent. On the other hand, the flower in make-up, finish, color and fragrance of its flowers resembles to a greater degree the Caroline de Sangal. The Roses are medium to large in size, densely double, beautiful in bud, and of pure, bright peach-blow pink throughout. There is no other Rose we have ever grown that is so rich in delicious damask perfume. Unlike almost all other Roses, its foliage is exempt from mildew and the attacks of insects or slugs, remaining healthy, clean and bright, deep green until turned to a crimson color by frost. In this Rose are united iron-clad hardness and perpetual bloom that is richly and sweetly scented—not to mention the beauty of form, color and make-up and doubleness of Alice Aldrich.

MEDIA—Now Golden-Yellow Tea Rose—This is the grandest of all yellow Roses, and should be planted by everybody. Its flowers are of the largest size, perfectly double to the center and of the most perfect shape, both in bud and blossom, while its color is a degree of loveliness unapproached by any other Rose, being a rich deep golden-yellow, with decided sulphur tints. The brightness and richness of this Rose is the admiration of all beholders. We have grown in our establishment some fifty varieties of yellow Roses, and think Media the best.

The Gold Medal Rose, JUBILEE—Its wealth of color. A pure red in its deepest tone, shading to deep crimson-red and velvety maroon-red in the depths of the petals. "The coloring is alive," as one expressed it. "It fairly glows in its rich warmth of coloring," another said. It is admirable, unique, and as Mr. Schuyler Matthews, the celebrated artist, said, "This Rose contains the darkest color, combined with pure color, of which nature is capable." It will require centuries to produce its equal—if it ever is produced—for nature is not prolific in repetitions.

PRISCOILLA—The Charming New White Tea Rose—Another new American Rose, but as widely different from all other white Roses as one can well imagine. It belongs to the Tea class. Hardy here in Northern Ohio with slight protection in Winter. Its habit is exceedingly strong and upright, and it possesses large, beautiful foliage, and is a most profuse and constant bloomer. The flowers are of enormous size, remarkably round and full, pure, clear, snow-white throughout, and are delightfully Tea-scented. It is by far the finest and most reliable white bedding Rose yet produced. Without question the largest white Rose both in bud and flowe. No other Rose of its color approaches it in size.

SOUV. DE PRESIDENT CARNOT—This new Rose is a way above the average in many good qualities. It is a Rose of the largest size, beautiful both in bud and open flower. The buds come on long, stiff stems, in clusters of from six to twelve. Each individual flower stands out distinct on its stem. No crowding, as in the case of so many Roses that bloom in clusters. The color is distinct and novel, a lovely lown, shading to pearl. It often measures five to six inches in diameter. Delightfully fragrant. We know of no finer Rose than President Carnot. Try it. It will be sure to please you.

"Elite" Collection of
CHOICE NEW
Monthly Carnations.

The Divine Flower.

This Entire Collection of Monthly Ever-blooming Carnation Pinks for

$2.50 25 Cents.

No plant excels the ever-blooming Carnation Pink--rivaling the Rose in beauty of colors and shades, equaling it in lasting perfume and even excelling it in profusion of flowers. Easily grown, and blooms freely, either as a bedding plant in Summer or in the greenhouse or window garden in Winter. The collection I here offer are all of the very best new varieties indeed, they are the best that money can buy, and have a wide range in color. When you own this collection of Carnations you can rest assured that no person has any finer.

Triumph.--This variety has been greatly admired wherever it has been seen, for its desirable color, being a beautiful, pure, rich pink; flowers large size and very freely produced. Plant of grand habit and vigorous growth. It is a superb variety.

Rose Queen.--One of the most fragrant Carnations we have seen. Color a pure, soft rose, a most continuous bloomer and distinct in color from any other sort offered. Greatly admired by all who have seen it growing here.

Alaska.--This beautiful white Carnation is remarkable for its extremely vigorous growth, very large flowers, perfect shape, color, which is immaculate, sweetness of perfume that is delicious, and vigorous growth, this variety has no equal. The best white by far out of a dozen varieties we have of that color.

Painted Lady.--Another grand Carnation, with enormous sized flowers, often measuring three and a half inches in diameter, at the same time being one of the freest blooming Carnations we have ever seen. Ground color of flower the purest white, very handsomely pencilled with richest crimson.

Armazindy.--The "Pink of Perfection." Probably the most beautiful Carnation yet introduced, and must become very popular. Flowers are a pure satiny white, and marked and shaded with rosy pink, good size, perfect form, never bursts. It is the strongest and sweetest scented Carnation we know. A perfect beauty.

Mrs. Thomas Lawson.--No plant of whatever kind has ever received as much description and free advertising by the newspapers of the whole country as this sensational Carnation. It was sold for $50,000. The size is enormous, of a true pink color. Altogether, a true twentieth century Carnation. Everything has been claimed for it and my own opinion is that it will justify the claim.
MAGNIFICENT COLLECTION OF
FLOWERING PLANTS FOR 25 CTS.

The "Magnificent" Collection of Plants my patrons will find a very desirable one, and as I offer it at a very reasonable price, I trust that many of you will embrace this opportunity of purchasing this collection. It will be sure to please you.

**NEW EVER-BLOOMING BABY PRIMROSE.**

This is the finest blooming plant we know of, blooming continuously throughout the entire season. Plants in very small pots have from fifteen to twenty sprays of lovely light pink flowers on stems ten to twelve inches high at one time, and plants in four inch pots have from twenty-five to fifty at one time, lasting in bloom fully four weeks without fading, and continually sending out new sprays all over the plant, making it one of the most desirable plants for the house and garden. It is a very rapid grower and the easiest grown of all the Primrose family.

**FUCHSIA, BLACK PRINCE.**

The grandest of all Winter bloomers. It is really one of the most charming and desirable Fuchsias in cultivation, and should be better known. It is a genuine Winter-Bloomer, and all who know it value it very highly for this quality. The habit of the plant is erect and compact, presenting a neat and attractive appearance as a pot plant. The fine, star-shaped flowers are produced in profusion and begin when the plants are quite young. The tube and sepals are light sky blue. It blooms quite freely, plants in two-inch pots frequently producing flowers; but large plants will bloom more freely and produce larger clusters. We have seen a plant of this Fuchsia, six feet high and five feet through, and by actual count it was loaded with over five thousand of its bright blooms. It is of the easiest culture, requiring the same treatment as other Fuchsias. No plant will attract more attention than a well-grown specimen of Fuchsia, Black Prince. Its clusters of long, tube-like drooping brilliant flowers, and very large, green foliage give it a most striking appearance.

**HIBISCUS, DOUBLE CRIMSON.**

This plant is for house culture during Winter or Summer, or for planting outside during Summer. It blooms at all times of the year. The plants branch freely and flower profusely, commencing to bloom when not more than a foot high. As a specimen plant for large pots it has no equal only in the Brugmansia. Its flowers are very large, often 8 to 10 inches across, opening double, and of such crimson-scarlet color that it can be seen at a long distance. It has been wintered in a cellar or pot with perfect safety, and if one does not care to grow them all winter, one should have one or two for Summer display. No plant is safer to grow and thrive under any treatment than this, and few are so satisfactory.

**WEeping LANTANA.**

A new weeping plant of great beauty. One of the grandest basket plants grown. The plant has most graceful drooping habit, grows very rapidly and blooms continually Summer and Winter, producing large clusters of the most delicate lilac or rosy pink, foliage dark green. A single plant on August 1st, this past Summer had 900 clusters of flowers on it. The same plant, Dec. 1st, had 350 clusters of flowers on it, which proves it one of the most persistent bloomers and does equally well Winter and Summer. Nothing so easily grown or given as much satisfaction as Lantana.

**CYPERUS ALTERNAFEOLIUS—UMBRELLA PLANT.**

This is a plant of the easiest culture, and a large specimen is as handsome as a Palm for decoration. It makes a handsome plant or can be used in baskets or vases, making a charming effect. It will grow luxuriantly in water, and is, therefore indispensable for aquariums or fountains.

**HARDY RUSSIAN VIOLET.**

This violet is entirely hardy, a deep violet-purple color, and deliciously fragrant. It surpasses the well known "Marie Louise" Violet in richness of color, being many shades darker, and far excels it in its delightful color. It will grow and bloom in any garden and in any situation. Nothing better for cemetery planting than the Hardy Double Russian Violet.

**COUPON.**

A GREAT SEED OFFER.

I give you here the benefit of the very lowest price on a collection of popular flower seeds. These seeds are the very best that I can procure of the different kinds, and are guaranteed to be fresh and pure, while the packets will contain the full quantity of packets usually sold for from 5 to 10 cents.

Only 10 cents Will secure for you a choice flower garden that will bloom all Summer.

Sweet Peas—The very best mixture obtainable.
Pansy—Giant large flowering varieties, mixed.
Mignonette—All colors and kinds, very sweet.
Poppy—A choice mixture of this popular flower.
Lobelia—Choice mixed, always in flower.
Phlox—Mixed colors. A bed of this is always in bloom.
Colours or Coxeomeb—A very choice assortment.
Sweet Alyssum—The sweetest of all flowers.
Godetia or Satin Flower—Mixed colors, very handsome.
Dianthus or Chinese Pinks—In all colors, very bright.

"Exhibition Collection" of Chrysanthemums.

I here offer you a rare bargain in the very choicest varieties of Chrysanthemums. I assure my patrons that there are none better offered. They are all large flowering varieties, and embrace a wide range of color in this most lovely and popular flower.

Fill out the Coupon and enclose me only 25 cents for the entire set of Chrysanthemums.

Chrysanthemum, Golden Wedding—The grandest yellow ever offered. This fine variety swept everything before it at the New York and Philadelphia shows. In color it is a deep, bright golden, of shining texture, is very large in size, the petals are very long and broad, and channeled lengthwise. A perfect Japanese incurred of most beautiful form, very free in growth. A first-class exhibition variety. Has swept all the prizes for yellow.

Good Gracious—Another introduction from Japan, and so remarkable for its size as to suggest its name. The first sight of it usually brings forth an exclamation of admiration. The color also is unique, being a delicate shade of peach-pink throughout. The color is remarkable, the petals are incurred and twisted, overlapping each other in irregular fashion, and resembling talons. Of all the splendid varieties introduced from Japan this is perhaps the most remarkable for size, form and color, and stands alone in its unique beauty, there being nothing at all approaching it.

Major Bonaffon—A soft, clear primrose, or straw yellow; full in center, eight inches in diameter, and nearly as deep. In perfect form and finish, like ivory at its best. Habit dwarf, keeping qualities excellent. Foliage well up to the flower, stem stiff. An ideal variety. Bound to be one of the Chrysanthemums necessary to every collection. Was awarded a Columbia medal.

Mutual Friend—New—A splendid flower, very nearly spherical in form, petals very broad and heavy, and finely incuring. It is very nearly white in color, only showing a touch of pearl-pink at the base of the petals. Received first-class certificate at Philadelphia and Indianapolis. Strong grower carrying flowers on stiff stems. The blooms of this variety sold at nine dollars per dozen over the counter in Philadelphia last Fall.

Gettysburg—This is the richest deep crimson variety we have ever seen, and excels in its color as Golden Wedding does in yellow. The color is the richest velvety-crimson, which in the flower itself is soft and velvety-like. The outer petals are broad and drooping, and have a lustrous sheen in the sunlight. The form is flat, with drooping outer petals, which gives it a very graceful appearance. This is the popular form, and combined with the splendid color stamps Gettysburg as a Chrysanthemum of rare merit.
