CURRIE'S RUST-PROOF GOLDEN WAX BEAN.

CURRIE'S RUST-PROOF GOLDEN WAX.

A variety of very superior merit, and one that is unequaled by any other Wax Bean in its many excellent qualities. It is *positively proof* against rust, that most inveterate and destructive enemy of the Bean. For, while grown side by side, for several years, with other Wax Beans, all of them more or less affected by rust, many of them completely ruined by it, this Bean has remained *entirely free* from rust. Not only is it **Rust-proof**, but it possesses the most excellent and most desirable quality of being always *exceedingly crisp and tender, with no approach whatever to stringiness*, and of a most delicious flavor; whereas, as is well known among the few Beans which are said to be *nearly* rust-proof, there is *not one* that is not rendered almost unfit for use, owing to the tough, stringy texture of the pods, and their poor flavor. Not the least among the good qualities of this Bean is its enormous productiveness, and it possesses the further merit of being the earliest of all Wax Beans.
