FARQUHAR'S POT-GROWN STRAWBERRY PLANTS.

Strawberry
William Belt.

All the varieties offered are perfect-flowering (bi-sexual) except where marked P. The latter are pistillate and require a row of a perfect-flowering sort planted every 8 or 10 feet to pollinize their blossoms.

These, if planted in July and August, produce a large crop the next Summer. Being grown in pots they may be shipped to a distance and planted with almost no interruption to their growth. The plants may be set in beds of three rows, one foot apart and one foot distant in the rows, with a space of two and one-half feet between the outside rows of adjoining beds left for a pathway. They may also be planted in single rows three feet apart and one foot apart in the rows.

FARQUHAR'S "SELECT" VARIETIES.

POT-Grown Plants of the following "Select" Varieties, from 2½-in. pots, well rooted, delivery in July and August. \$7.00 per 100; \$60.00 per 1000 (except where otherwise priced). Not less than 250 at thousand rate.

EARLY.

Campbell's Early. One of the earliest berries, unusually productive; fruit large and of a beautiful rich red color.

Excelsior. This is decidedly the best early Strawberry and the earliest good Strawberry. The fruit is of round, conical form, glossy-dark-red color, and of mildly acid flavor.

Glen Mary. Large, conical, bright red berries; fine flavor.

EARLY VARIETIES.—Continued.

Premier. A wonderfully productive and very early new variety. The mammoth berries are of beautiful form, rich bright red throughout and very delicious. An excellent keeper and fine for shipping. **Pot-grown Plants, \$8.00 per 100.**

Senator Dunlap. The fruit is large, rich and dark red, clear to the centre, with a very rich flavor. It will keep in fair condition for several days on the vines after being ripe enough to pick.

MEDIUM.

Early Jersey Giant. A new, medium-early variety of great merit. The berries are of conical shape with pointed tips and are a bright crimson in color, with a delicious flavor and aroma.

Big Joe. A magnificent new Strawberry of robust growth and very prolific. The berries are light crimson in color, unusually large and of fine quality.

Marshall. The fruit of this remarkable sort is of enormous size, of handsome, glossy dark crimson color, and of delicious flavor. It is one of the best midseason berries, either for private use or market. It is a vigorous grower and requires good soil and high cultivation. As it does not thrive in all soils, it should not be planted extensively until its adaptability is ascertained.

New York. One of the best sorts for Private or Market Gardens. The berries are large, of conical form; dark red; fine texture and of remarkable sweet flavor.

LATE TO VERY LATE.

Chesapeake. The plants of the Chesapeake are large and vigorous with rich dark green foliage. The fruit is of large size, deep red in color and of a rich aromatic flavor.

Commonwealth. This is the latest of all Strawberries; bearing large, conical, deep crimson fruit, sweet and of quality equal to the well-known Bubach. Not only an extra large berry, but also very productive, of deep rich color, solid and quite juicy.

First Quality. A strong, healthy and vigorous grower producing a quantity of large pointed berries of delicious flavor. Excellent variety for New England and other northern locations. **Pot-grown Plants, \$8.00 per 100.**

William Belt. An exceptionally fine berry. In quality it heads the list. The large berries are glossy, deep red; late as Gandy.

Strawberry, Early Jersey Giant

SUPERIOR VARIETIES.

For full crop next Summer
plant early.

Strawberry, Marshall.

STANDARD VARIETIES.

EARLY.

Early Ozark. One of the most productive early varieties, producing large dark-red berries of rather acid flavor, but very delicious. *(Cannot supply.)*

Sample P. Excellent for either market or home use; prolific, large, firm and delicious.

MEDIUM.

Abington. A strong growing variety of recent introduction. The fruit is of large size, bright red in color, very solid and of excellent flavor.

McAlpin. Very productive, and is considered by many growers to be one of the best of the newer introductions. The berries are scarlet in color, large and of luscious flavor. *(Cannot supply.)*

POT-GROWN PLANTS of the above Standard varieties, from 2½-in pots, well-rooted, delivery in July and August. \$6.00 per 100; \$50.00 per 1000. Not less than 250 at thousand rate.

MEDIUM.—Continued.

Brandywine. A large heart-shaped berry, perfect in form, bright red in color, firm flesh, red to the center and of rich spicy flavor. A great cropper, especially on heavy soils, holds its fruit well up from the ground and generally succeeds everywhere.

LATE TO VERY LATE.

Gandy. This popular old variety is probably known by most berry growers. It is more largely grown than any other late variety. On sandy soils it is unproductive.

Rewastico. A very productive new variety. The plants are of vigorous growth with an abundance of dark green foliage. Color rich cardinal red, penetrating to centre. *(Cannot supply.)*

FALL-BEARING STRAWBERRIES

The Fall-bearing varieties produce fruit at the same season as the ordinary Strawberries, but keep bearing until frost. To get the best results for a late crop, the blossoms must be carefully kept off until July or the plants will completely exhaust themselves before Fall. If the runners are kept cut during the Summer, it will give additional vigor to the late crop.

Progressive. This variety is considered to be one of the best perpetual bearing Strawberries. The fruit is rich and sweet, a deep red inside and out; of good medium size and quite firm. **Pot-Grown Plants, \$3.00 per 100.**

Strawberry, Commonwealth.

Strawberry, Excelsior.

ROSES. (Pot-grown.)

THE FARQUHAR. Bright green, glossy foliage, retaining its lustre until cut down by severe frost, a feature which makes it most valuable for covering trellises pillars, Summer houses, fences and rocks. It is perfectly hardy, and bears magnificent clusters of clear pink, double flowers on long stems which are valuable for cutting. \$1.25 each; \$12.00 per doz.

Dorothy Perkins. A fine variety of the Rambler Rose with large clusters of shell-pink flowers. The plant is vigorous in growth and perfectly hardy. \$1.25 each; \$12.00 per doz.

Dr. W. Van Fleet. A charming semi-double climber of vigorous growth with dark glossy foliage. The long, pointed buds are of dainty flesh-pink, borne on stems 12 to 18 inches long; exquisite as cut flowers. \$1.50 each; \$15.00 per doz.

Excelsa. Rich crimson-red double flowers. This is unquestionably the finest crimson climbing rose yet introduced. \$1.25 each; \$12.00 per doz.

Lady Gay. The flowers are of a delicate cherry-pink color, which fades to a soft white. The foliage is very profuse and of a glossy deep green shade. \$1.25 each; \$12.00 per doz.

Lucille. A charming new, hardy Rambler, vigorous in growth, with large glossy green foliage. The double blooms are produced in large clusters and are of a delicate flesh-pink tinged with rosy-salmon. \$1.25 each; \$12.00 per doz.

Mrs. M. H. Walsh. Of vigorous growth with glossy dark green foliage; double pure white flowers. \$1.25 each; \$12.00 per doz.

White Dorothy. Pure white sport of Dorothy Perkins retaining the same vigor of growth and freedom of flowering. \$1.25 each; \$12.00 per doz.

The "Farquhar" Rose.

RHODODENDRONS. (August and September Delivery.)

BULBS FOR EARLY FORCING.

Prices Subject to Change Without Notice.

Freesia, Purity

CALLA LILIES.

White Calla. Mammoth Roots. \$4.00 per doz.; \$30.00 per 100.
White Calla. Extra Size Roots. \$2.50 per doz.; \$20.00 per 100.
The Godfrey. Large, pure white flowers; slightly fragrant. 35 cts. each; \$3.50 per doz.

FREESIAS.

The gracefully branched, fragrant flowers are of long duration, and being freely produced are profitable for commercial purposes, and satisfactory to amateurs. If planted early they may be had in bloom by Christmas. Plant eight or ten bulbs in a six-inch bulb pan, covering them one inch.

Purity, Mammoth Bulbs. 75 cts. per doz.; \$5.50 per 100; \$50.00 per 1,000.
Extra Large Bulbs. 50 cts. per doz.; \$3.75 per 100; \$35.00 per 1,000.
Fardel's Colored Freesias. In separate shades. **Lavender, Yellow, Pink, Orange.** \$1.25 per doz.; \$9.00 per 100.
Mixed Colors. \$1.00 per doz.; \$7.00 per 100.

LILIES FOR FORCING.

The bulbs may be potted from August onward in a compost of equal parts turfy loam, leaf mold, rotted cow manure, and sand. It is best to start them in pots not exceeding twice their own diameter, in which they may remain until started eight inches or more. They should be transferred then to larger pots in which to bloom, exercising great care not to disturb the roots or break the soil from about them, and setting them considerably deeper in the larger pots. This method prevents the soil from becoming sour, and enables the roots forming at the base of the stem to become feeders, greatly increasing the number and size of the blossoms.

LILIUM HARRISII. (*The Bermuda Easter Lily.*)

Very choice, thoroughly ripened bulbs from the finest stock in Bermuda.
Mammoth Size. 9 to 11 in. circ. \$10.00 per doz.; \$80.00 per 100.
Extra Large Bulbs. 7 to 9 in. circ. \$6.00 per doz.; \$48.00 per 100.

LILIUM LONGIFLORUM.—Japan Grown.

Giganteum. The flowers of this type are of a large size, perfect in form and of superior substance; stems marked black.

Formosum. An early flowering type blooming as early as the Harrisii. *On account of unsettled conditions we are unable to quote fixed prices on Japanese Lilies at the time of printing this catalogue. Prevailing prices will be charged at time of shipment.*

LILIUM CANDIDUM.

(*The Ascension or Old-Fashioned English Lent Lily.*)

These are grown for us in France, and are the large, thick petalled variety. Pure white bell-shaped flowers, borne in erect spikes, excellent both for forcing and open garden cultivation. **Mammoth Bulbs.** \$3.00 per doz.; \$22.00 per 100.

EARLY ROMAN HYACINTHS.

These beautiful Hyacinths are indispensable to the florist in his Autumn and Winter cut-flower work; while to the amateur they are among the most easily cultivated and most satisfactory of flowering bulbs. The white variety, if planted early in September and gently forced, will bloom in November; the others require from two to three weeks longer.

When grown in pots or pans they are most effective planted in groups of six or more bulbs in each.

White. Mammoth. \$1.35 per doz.; \$12.00 per 100.

POLYANTHUS NARCISSUS.

A very decorative class of bulbous plants for greenhouse and window cultivation, but not hardy out of doors in our climate. They may be easily and quickly forced; our florists frequently have them in bloom by Thanksgiving.

Early Large-Flowering Paper White. The earliest, largest and most vigorous form of the *Paper White*; the best of all for very early forcing; pure white.

Mammoth Bulbs. 75 cts. per doz.; \$5.00 per 100; \$48.00 per 1,000.

Extra Large Bulbs. 60 cts. per doz.; \$4.25 per 100; \$40.00 per 1,000.

Early Double Roman. White, with deep yellow cup; large flower trusses; excellent for early forcing. 45 cts. per doz.; \$3.25 per 100; \$30.00 per 1,000.

Soleil d'Or. Yellow, with orange cup, an excellent forcing variety. \$1.50 per doz.; \$12.00 per 100.

NARCISSUS JONQUILLA OR JONQUILS.

The delicately graceful forms, delicious fragrance and deep yellow color of their blossoms have made the Jonquils favorites. Plant six or eight bulbs in a six-inch bulb pan, covering the crowns half an inch.

Rugulosus. Rich yellow; very fragrant; the largest Jonquil; fine for cutting. \$4.50 per 100; \$42.00 per 1,000.

Campanelle. Large, deep yellow flowers, excellent for cutting. \$4.50 per 100; \$42.00 per 1,000.

Polyanthus Narcissus, Paper White.

NARCISSI.—Continued
