Fertilizers.....	36

Peter Henderson & Co.,

35 & 37 CORTLANDT ST.

NEW YORK.

TO OUR CUSTOMERS.

PARTICULARLY SUCH AS HAVE NOT BEFORE DEALT WITH US, WE
WOULD SUGGEST READING THE FOLLOWING BEFORE
MAKING OUT THEIR ORDERS:

First. That the advantage of purchasers being able to get anything wanted from one establishment has been well shown in the immense increase in our business since we began this system. We endeavor to supply every want of the Florist and Market Gardener; whether it be in Fruit, Flower, Vegetable Seeds or Plants, Implements or Fertilizers, a detail of which will be seen on first page of cover.

Our Seed Warehouse, which has long been the largest in the City of New York, we found the past season to be so much inadequate for our business, that this summer we have added to our area by securing the premises, No. 37 Cortlandt Street. Our two buildings now give us a space of thirteen floors, each 25 x 128 feet. With our increased facilities, we can still better systematize our business, so that the filling of orders will, if possible, be more prompt than ever.

Our Employees, for the most part, are trained florists and seedsmen, many of whom have been with us from ten to fifteen years. We employ an average of seventy throughout the entire season.

Plants, Seeds and Bulbs may be sent in the same package when desired, thereby saving additional express charges, but orders should be made on the separate order sheets (one of each, for seeds and plants, will be found in this list). The order sheets should always be used, as it is much easier to fill orders when the order is written on them, than when mixed through the body of a letter, which should never be done.

Our Plant Department last year embraced 120,000 square feet of glass. This season 1882, over 1,200 sashes have been added, so that to-day our Plant Department covers nearly *four acres solid in glass*, probably double in extent that of any other establishment on this Continent. Our Greenhouses being arranged so that they can be graded to any temperature, the most perfect health and vigor possible is given to the Plants, and with these unsurpassed advantages we are also able to compete with any in the matter of prices.

Conditions of sale of Plants. The plants named are offered at the rates quoted, **provided that not less than FIVE of each class or variety is taken.** *No order will be filled from plant list in less amounts than six dollars.*

The varieties must be our own selection of sorts; for example, if twelve different kinds of Roses or Geraniums are ordered, we send twelve distinct sorts, but cannot afford the time (at these low rates) to select special kinds named by the buyer. Any one wanting varieties of special kinds, can order from our Descriptive Catalogue, but at retail rates, from which we allow a discount of one-third. However, in ordering from this wholesale list, we give the buyer the privilege of naming sorts he *don't* want us to send.

Plants may be safely shipped to all parts of the country,

AT ALL SEASONS OF THE YEAR,

As our system of packing is so complete that, although we send out thousands of packages during the coldest days in winter, we rarely have a case injured when sent by express.

All goods are sent by express, unless specially ordered otherwise.

To places where there are no express offices, we will send all plants named in this list *by mail*, at an advance of one-third on the prices named; thus, if 100 plants, costing \$6, are wanted, we will send them for \$8, prepaid, by mail; but again advise, that whenever it is possible, to have plants sent by express, as it is the best mode, and our light system of packing makes the charges comparatively low.

No Charge for Boxes, Baskets, or Packing.

Fall Bulbs. Of these articles which will be found fully detailed elsewhere in the list, we can fill orders the first week in September, with a few exceptions. We catalogue here only well-known and approved sorts. Our Retail Bulb Catalogue for this season, will embrace many New and Scarce Bulbs, which we can supply when wanted, at a discount of one-third from our retail prices.

Requisites for Florists and Market Gardeners. Instead of issuing a special catalogue of these goods, as in previous years, we this year embody in this wholesale list, which we think a more convenient arrangement. Our list of everything in this line will be found complete, and the special attention of *Florists* is directed to our assortment of *Straw Baskets*, which comprises all the latest novelties used by New York Bouquet Makers, who unquestionably "make the fashions" in their department.

Premiums. On all orders from this list to the amount of \$5.00 and upwards, (in one order), we will send without charge a copy of Peter Henderson's "*Horticultural Essays*," value, 75 cents, or when the order is to the extent of \$20.00 and upwards, purchasers choice of any one of Peter Henderson's three books "*GARDENING FOR PROFIT*," "*PRACTICAL FLORICULTURE*" or "*GARDENING FOR PLEASURE*," retail price of which is \$1.50 each, and when the order amounts to \$40.00 and upwards, we will send the buyer his choice of any two of the above three books, or instead a copy of our latest work, "*HENDERSON'S HANDBOOK OF PLANTS*" the value of which is \$3.00, but it is understood that the book or books desired *must be selected at the time of ordering*. When books are not wanted, their value may be selected in goods at list rates.

Of the Books above referred to, *Horticultural Essays*, written last spring, details our latest experience on the following subjects :

Green-House Structures and Modes of Heating Hot-Beds. Manures, and their Modes of Application. Strawberry Culture. Celery Growing and Storing for Winter. Rose Growing, for Winter and Summer Flowers. Root Crops for Farm Stock. Market Gardens Around New York. Popular Errors and Scientific Dogmas in Horticulture. Use of the Feet in Sowing and Planting. Humbugs in Horticulture. Draining.

Gardening for Profit gives, in comprehensive detail, our twenty-five years experience in MARKET GARDENING.

Practical Floriculture (new edition) gives, up to date, our whole experience in the PROPAGATION AND GROWING OF PLANTS during the past thirty years.

Gardening for Pleasure is a concise compendium, giving plain details for the Culture of FRUITS, FLOWERS AND VEGETABLES, and GENERAL GARDENING, for the use of Amateur Cultivators.

Henderson's Handbook of Plants is a condensed encyclopedia of over 400 pages, giving Botanical Classification, Propagation and Culture of nearly every known Plant in cultivation, ornamental or useful, up to the present time.

Persons wishing to examine stock should call at our Seed Stores, 35 & 37 Cortlandt St., New York, where a card with directions will be given to reach the Green-houses at Jersey City Heights. Time from Seed Store, 30 minutes by steam cars, or 40 minutes by horse cars. I may here say, that parties wishing to see me personally, will find me at the Green-houses until 12 M., and at my office in New York, from 1.30 to 3 P. M.

How to Send Money.—Remittances should be made either by Draft, Post Office Order, or Registered Letter ; but in no case should bills be sent in a letter, unless registered. *Nearly* all loss of letters is in those unregistered containing bills.

PETER HENDERSON & Co.,

35 & 37 Cortlandt Street,

NEW YORK.

WINTER FLOWERING ROSES.

Large plants of winter flowering Roses are scarce this season and in great demand, so to prevent disappointment order early. All we offer, are in fine healthy condition and will, without doubt, produce enough flowers to more than pay for the cost of the plants before the holidays.

Perle des Jardins ,.....	2 inch, \$8.00; 4 inch, \$25 00; 5 inch, \$35 00; 6 inch, \$50 00 per 100
Catherine Mermet ,.....	3 inch, 16 00; " 25 00; " 50 00 "
Bon Silene ,.....	3 inch, 10 00; " 25 00; " 50 00 "
Isabella Sprunt ,.....	4 inch, \$25 00; 6 inch, 50 00 "
Niphetos ,.....	4 inch, 25 00 "
Marshall Niel ,.....	3 inch, \$16 00; 4 inch, 25 00 "
Safrano ,.....	3 inch, 16 00; 4 inch, 25 00 "
La Marque ,.....	4 inch, 25 00 "
Malmaison ,.....	4 inch, 35 00 "
La France , see below.	
Duchess of Edinburgh ,.....	4 inch, \$25 00; 6 inch, 50 00 "
Souvenir D' Un Ami	3 inch, 16 00; 5 inch, 50 00 "

LA FRANCE.

We offer a large stock of this superb variety at very low rates, quality of plants considered. 2½ inch, \$8 00; 3 inch, \$12 00; 4 inch, \$20 00 and 5 inch, \$35 00 per 100.

GEN. JACQUIMENOT.

In splendid shapo for early Spring and Winter forcing. 3 inch, \$10 00; 4 inch, \$16 00; 5 inch, \$25 00; 6 inch, \$50 00 and 7 inch, \$100. per 100.

DUKE OF EDINBURGH.

A grand variety, yet scarce; colors very dark velvety crimson. 3 in. \$12; 4 in. \$25; 5 in. \$35 and 6 in. \$50 per 100.

NEW TEA ROSE—"Etoile de Lyon."

A new Rose which is likely to prove of great value for winter forcing, color bright canary yellow, bud full and finely formed as that of Perle Des Jardins. A valuable acquisition. Price, 2½ inch pots, 50c each; \$1 50 per doz.

NEW TEA ROSE—"Red Safrano."

This is a "Sport" from the well-known buff colored variety Safrano, and very similar, except the color, which is a dark carmine. 2½ inch pots, 25c each; \$2 00 per dozen.

HYBRID TEA—"Duke of Connaught.

The most valuable of its class, color very dark crimson. Immense buds. 2½ inch pots, 50c each; \$4 50 per dozen.

HYBRID TEA—"Nancy Lee."

Another valuable sort. Color deep pink; long pointed buds. Exquisite fragrance. 30c each; \$3 00 per doz.

HYBRID PERPETUALS.

Suited for Winter or Spring forcing.

Gen. Jacquimenot , deep crimson.....	3 inch \$10 00; 4 inch, \$16 00; 5 inch, \$25 00 per 100
Paul Neron , rich carmine.....	3 inch, 16 00; 4 inch, 25 00 "
Princess C. de Rohan , dark crimson, almost black.....	3 inch, 16 00; 5 inch, 25 00 "
Duke of Edinburgh , rich carmine, crimson.	
Coquette de Blanches , pure white.....	3 inch, \$16 00; 4 inch, 25 00 "
Capt. Christy , flesh color.....	4 inch, 25 00 "
Md. Chas. Wood , bright crimson.....	3 inch, \$16 00; 5 inch, 25 00 "
Md. Plantier , pure white.....	3 inch, 8 00 "
Magna Charta , deep rose.....	4 inch, \$25 00; 5 inch, 40 00 "
Victor Verdier , rosy crimson.....	3 inch, \$16 00; 5 inch, 25 00 "

All of the above in extra size, two year old plants at \$3 00 each or \$30 00 per dozen. Specially prepared for forcing.

FOR GENERAL COLLECTION OF ROSES, SEE RETAIL CATALOGUE.

NEW OR SCARCE PLANTS

FOR 1882.

BOUVARDIA "ALFRED NEUNER."

New Double White Bouvardia, Alfred Neuner.

We now have on hand a fine stock of this valuable novelty. It originated by a "sport," from the well known single white variety, "Davidsoni," the flowers are pure white, and double, resembling in appearance a small Tuberose. It is far more valuable for cut flower work than the single variety, as its double flowers last much longer after being cut. Price,

2½ inch pots	\$6 00	per 100.
3 "	10 00	"
4 "	16 00	"
5 "	25 00	"

New Double Pink Bouvardia.

Identically the same as the preceding, except in color which is a beautiful pink or rose color. The great value of the double white for cut flower purposes is now established, and this sort giving a new color will be equally desirable.

From 2½ inch pots 25c. each; \$3 00 per dozen.

" 3	" 50c.	" 4 50	"
" 4	" \$1.00	" 9 00	"

NEW WHITE CHRYSANTHEMUM—"SPOTLESS."

This valuable variety, for Florists' use, belongs to the large flowering section, the flowers being of large size, perfect form and pure pearly white. Chrysanthemums with the protection of a cold frame, will flower until Christmas. 3 inch, \$8 00; 4 inch, \$12 00 per 100.

NEW YELLOW CHRYSANTHEMUM—"GOLDEN STAR."

Color dark golden yellow, similar to the above in every other respect.
3 inch, \$8 00, and 4 inch, \$12 00 per 100.

GENERAL COLLECTION CHRYSANTHEMUMS.

In 25 varieties, embracing all shades—crimson, maroon, pink, white, yellow, etc.
2½ inch, \$8.00; 3 inch, \$12.00 and 4 inch, \$16.00 per 100.

NEW DWARF STEVIA. (Stevia Nana Compacta.)

A very distinct variety of the well-known Stevia Compacta, which is now offered for the first time. It never grows over 18 inches high and its flowers are whiter and produced in far denser masses than the old variety, and it can be grown on low side benches where the old Stevia Compacta would be too tall. 2½ inch, 25c. each, \$2.25 per doz.; 3 inch, 50c each, \$4.50 per doz.; 5 inch, \$1.00 each, \$9.00 per doz.

DAVALLIA, or HARE'S FOOT FERN.

Something entirely new imported from Japan, in the form of Globes and Wreaths. Price, \$1 50 each.

ACHIMENES.

A beautiful class of plants that are largely grown in Europe. Flowers $1\frac{1}{2}$ inches in diameter, embracing the different shades of pink, carmine, purple and rose. Use one-half moss in the soil in which they are potted. (See cut.) \$2.00 per doz.

BONAPARTEA JUNCEA.

A very scarce genus of plants, with long, graceful rush-like leaves; very attractive when grown in a vase out-of-doors in the summer. Flowers borne on large spikes. It requires a warm temperature in the winter. \$2.00 per doz.

**NEW CORAL PLANT,
(Erythrina Hendersonii.)**

The great beauty of this plant cannot be told by a description. If set out in the open ground in spring, it blooms without intermission all summer. The flowers are large and brilliant, dark scarlet crimson in color, and fairly cover the plant when in full bloom. The old "Coral Plant," Erythrina C. Galli, only flowers well when two or three years old, but this acquisition is grand the first season. \$3.00 per doz.

COCOS WEDDELIANA.

This is without doubt the most elegant palm in cultivation for table decoration or for the conservatory. Its leaves are almost as finely cut as some varieties of ferns. \$1.50 each.

COCOS INSIGNIS.

A fine new variety stronger growing than the preceding. \$1.50 each.

CARNATION LYDIA.

CARNATION LYDIA.

The finest of the fancy yellow varieties; flowers 3 inches across; very double and intense; clove fragrance. Color rich orange yellow, flecked with carmine. The cut above gives a good idea of its appearance.

Large Plants, 50c. each; \$4 00 per doz.

(Ready September 15th.)

NEW CARNATION, "Firebrand."

This variety created a great sensation on its introduction two years ago. The flowers are immense in size and a rich dark scarlet color, a strong healthy grower. (Ready September 15th.) Large plants 50c. each, \$4 50 per doz.

**SCARLET CARNATION,
"Lady Emma."**

We have long needed a Carnation of intense scarlet color, good size, and at the same time free-flowering qualities. In this variety we have all these qualifications in a marked degree. "Lady Emma" has now become a standard sort, as it surpasses in brilliancy of color all the other varieties. It is a most profuse bloomer, and an unusually strong healthy grower. Strong plants from the ground \$25 00 per 100. (Ready September 15th.)

**NEW SINGLE DAHLIA,
"Scarlet Dwarf."**

The best of the new section; of very dwarf habit, $2\frac{1}{2}$ ft., free flowering, and well adapted for bedding, the flowerheads thrown well up, of a clear orange scarlet, extra fine, it can be used late in fall for cut flowers.

20c. each; \$2.00 per doz.

**NEW SINGLE DAHLIA,
"Yellow Dwarf."**

Of very dwarf habit, $2\frac{1}{2}$ ft., and a most abundant bloomer, the flowers of a bright pure yellow, extra fine, and a fit companion as to habit and flowering, for "Scarlet Dwarf."

20c each; \$2.00 per doz.

WINTER FLOWERING DAISIES.

Chrysanthemum Frutescens, true "Marguerite," white rays, yellow centre. 3 inch, \$8 00 per 100; 4 inch, \$12 00 per 100.

Chrysanthemum Etoile D'Or—Golden Yellow. 3 in. \$12 00 per 100; 6 inch, \$6 00 per dozen.

EUCHARIS AMAZONICA.

**EUCHARIS AMAZONICA, "Amazon
Lily."**

A lovely hot-house plant, which may be had in bloom almost the entire season, if a moderate supply of plants are had, small plants usually sending up stalks which bear five or six large pure white star-shaped flowers, four inches across, deliciously fragrant. It wants a warm atmosphere with plenty of moisture. The flowers bring very high prices. (See cut.)

1st size, \$1.00 each.

2d " 50c. "

3d " 25c. "

HELIOTROPE SNOW WREATH.

A newer variety, producing immense panicles of pure white flowers. \$1 00 per dozen.

HIBISCUS (Rosa Sinensis) FULGIDUS.

Flowers very large, averaging five inches in diameter, of an intense carmine scarlet, paler towards the centre, where, on each petal, is an oblong blotch of deep crimson. It is one of the finest yet introduced, and is remarkable alike for the size, color and markings of its beautiful flowers. All the Hibiscus are useful for winter blooming.

\$2.00 per doz.

HIBISCUS DENNISONII.

A most beautiful variety with the rose-colored flowers, which resemble those of *Amaryllis Atamasco* in shape and color. The flowers measuring four inches across, are borne freely on upright stalks perfectly erect instead of slightly drooping, as the other varieties of Hibiscus mostly are.

\$2.00 per doz.

**HIBISCUS (Rosa Sinensis) LUTEUS
Fl. Pl.**

The flowers of this variety are of good size, semi-double, and, as in all this family, produced abundantly. They are of a beautiful lemon color, marked with pink at the base, very distinct.

\$2.00 per doz.

LIBONIA PENROHIENSIS.

Flowers are cuphea-shaped, maroon, orange and yellow in color. In winter and spring it is one mass of bloom. Few plants are more attractive.

\$1.00 per doz.

SUN FLOWER. "Oscar Wilde."

This celebrated variety is the kind used in the formation of corsage bouquets at Newport and other fashionable summer resorts. Flowers bright yellow, rays and disc.

\$1 00 per dozen.

SALVIA TRICOLOR.

A distinct and valuable novelty. Flowers small and pure satiny white, lipped with cherry red, shaded rose. The plant is very dwarf in habit, never growing over 15 inches high.

\$2 00 per dozen.

MEYENIA ERECTA.

Is one of the most beautiful green-house shrubs. The flowers are Gloxinia shaped, dark blue, getting lighter towards the centre, with a golden yellow throat. It is in bloom all through the early spring and summer, and is then completely covered with flowers. Leaves dark green; habit of plant, robust and graceful.

\$1.00 per doz.

NEW DWARF SWEET CHESTNUT.

(*Costena Species.*)

A new ornamental shrub lately introduced from Japan. The fruit or nuts are edible, and are produced freely on plants three feet high. The nuts are as large as the common "Horse Chestnut," and are equal in quality to the common small chestnut. The enormous size and good quality of the fruit will undoubtedly make it a valuable article of commerce, while the ornamental character of the shrub will recommend it for lawns or hedges. Perfectly hardy around N. Y.

\$2.00 each.

NEW DOUBLE POINSETTIA.

Although introduced several years ago, this great acquisition is yet scarce. We have some fine plants which we can offer at the following low price.

5 inch pots \$1 00 each; \$9 00 per dozen.

PHYLLANTHUS ROSEA PICTUS.

This beautiful ornamental leaved plant always attracts attention. It grows erect and graceful to a height of eight feet, the variegation of its leaves being almost unequaled in the gorgeous coloring—a blending of the brightest shades of rose, bronze, green, white and pink.

\$3.00 per dozen.

PASSIFLORA PRINCEPS.

This, the "scarlet Passiflora" is always scarce, owing to the difficulty of propagation. Price, \$4 50 per dozen.

PANDANUS UTILIS.

PANDANUS UTILIS.

Our stock of this valuable plant in quantity, size and condition is unexcelled. In fine health.

Extra large specimens.

1st size, \$2 00 each; \$20 00 per doz.

2nd " 1 50 " 15 00 "

3rd " 1 25 " 12 00 "

NAMED SETS OF

Plants for Florists' Stock.

Named sets of some of the leading classes of plants, embracing the most distinct and desirable sorts. Specially selected as the best fitted for Florists' Stock.

	Per set.	Per 100.

Cabbage, Cauliflower and Lettuce Plants.

We will have ready on or about October 15th, the above, suitable for planting out in cold frames of the following sorts :

CABBAGE.—Early Wakefield, Early Summer, and Winningstadt, all at \$2 00 per 1000.

LETTUCE.—Boston Market, Curled Simpson, and Butter all at \$2 00 per 1000.

CAULIFLOWER.—Early Snowball and Early Paris, at \$4 00 per 1000.

BULBS FOR WINTER FORCING.

THOSE MENTIONED BELOW ARE NOW VERY GENERALLY GROWN
FOR WINTER FLOWERS ALL OVER THE COUNTRY.

EARLY WHITE ROMAN HYACINTHS.

(NOW READY.)

For the benefit of those who have never grown the Roman Hyacinth, we would state that the essential points of culture are identical with that of the ordinary Hyacinth, that is, it must be kept cool after being potted, and until the pots have become filled with roots it must not be forced. The Roman Hyacinth may be potted after October 1st, and succession lots should be potted every two or three weeks, if wanted during the winter months. Those potted by October 1st, will, by being plunged to the rim of the pot in a cool place, have formed roots by middle of November, and if then started and grown in a night temperature, in the greenhouse, 55° or 60°, will be in bloom about Christmas or New Year. As the Roman Hyacinth is small in size, a four or five inch pot will be large enough for each bulb. Each bulb will average about two flowers each.

Its pearly whiteness and delicious odor makes it indispensable in all fine floral work.

Extra large selected Bulbs, \$1.00 per doz.; \$6.00 per 100; \$55.00 per 1000.

Blue Roman Hyacinths, } From two to three weeks later than the White variety. Either sort 75c.
Rose " " " } per dozen; \$4.00 per 100.

Paper White Narcissus. (Ready in September.) Fine bulbs; each will produce from two to four spikes of bloom. \$3 50 per 100; \$30 00 per 1000.

Single Yellow Narcissus "Ajax Maximus." A most valuable forcing variety, flowers large deep yellow. \$6.50 per 100.

Lily-of-the-Valley. Large Pips. (Ready in November.) These should not be confounded with the "single eyes" usually sold. They are larger, stronger, and in every way more certain to flower, and the best for forcing. \$2 00 per 100; \$17 50 per 1000.

Lily-of-the-Valley, Large Clumps. \$4 00 per doz; \$25 00 per 100.

LILIUM LONGIFLORUM EXIMIUM.

This, the latest novelty in Lilies, has appeared under a variety of names, the author of each claiming some points of excellence not possessed by the others. First introduced under the name of *Lilium Harrisii*, then *Lilium Longiflorum Floribunda*, and finally "**The Lily**." It is certainly remarkable for the number and size of the flowers produced from very small bulbs. We know that flowers have been produced from single scales, within a year from time of planting. For forcing, it will no doubt prove superior to any other Lily grown.

\$4.50 per dozen; \$35.00 per 100.

LILIUM CANDIDUM. (Ready in September.)

First quality, Single. (Imported).....\$1 00 per doz.: \$5 00 per 100
" " " (Home Grown)..... 75 per doz.; \$4 00 per 100

LILIUM LONGIFLORUM. (Ready in October.)

Home Grown.....\$1 25 per doz.; \$7 00 per 100
Imported.....\$1 25 per doz.; \$7 00 per 100

EARLY TULIPS. (Ready October 1st.)

The best varieties for forcing.

Single Scarlet Duc Van Thol. This is the variety so largely grown for market purposes in England. More than half a million are grown annually for Covent Garden Market, London, alone. It is very dwarf and easily forced. \$1.75 per 100; \$16.00 per 1000.

Single White.....\$1 75 per 100; \$16 00 per 1000
" Yellow.....\$1 75 per 100; \$16 00 per 1000
" Rose.....\$1 75 per 100; \$16 00 per 1000
" Mixed.....\$1 75 per 100; \$16 00 per 1000

DUTCH BULBS.

We beg to state that the Dutch Bulbs sold by us are procured from the best sources in Holland, and we have invariably found them to average (particularly in Hyacinths of all classes) larger and firmer bulbs than are usually sent to this country. The quality of our importations will be understood when we mention that at the March, 1882, exhibition of the New York Horticultural Society, we received two First Prizes, for best displays of Hyacinths in bloom. The eighteen sorts we exhibited were selected as the best of an immense assortment, comprising nearly all existing sorts that we tested, with a view of arriving at the best varieties for forcing. Those most desirable for this purpose are here indicated by an * For list, see next page.

CHOICE NAMED HYACINTHS.**DOUBLE RED, various shades.**

	Each.		Each.
Acteur, rose shaded with deep pink, large bells	\$0 10	Lord Wellington, rose, large bells...	\$0 18

Special Vegetable Seeds

FOR FALL SOWING.

In consequence of the entire failure of the CABBAGE Seed Crop of 1882, GENUINE Seed cannot be obtained except of the crop of 1881; of this we have a quantity on hand of the same stock (of 1881), that gave such universal satisfaction the present season.

CABBAGE.—EARLY JERSEY WAKEFIELD.

This variety was originated over thirty years ago, by one of the New Jersey Market Gardeners, who held almost a monopoly of it until our work, "Gardening for Profit" was published in 1866. From that time it has been diffused over every part of the Union, and in nearly every section is classed as being the best Early Cabbage in cultivation. The stock we offer is grown under our personal supervision, by one of the original cultivators of it, and, as sent out by us, is undoubtedly one of the finest strains in cultivation. Sow from 10th to 20th of September.

Price, 10 cts. per pkt; 75 cts. per oz.; \$2.50 per $\frac{1}{4}$ lb.; \$8.50 per lb.

CABBAGE.—HENDERSON'S EARLY SUMMER.

The merits we claim for it are its being the **Largest Early Variety**, whole crops of it frequently *averaging* twelve pounds per head, its great uniformity in heading, together with its valuable quality of keeping, after being fit for market, a greater length of time than any other sort, before bursting or cracking open, while its short outer leaves enable it to be planted nearly as close as Jersey Wakefield.

We would caution, however, our customers who intend to grow it in cold frames (to winter over), *to sow it at least ten days later than the Wakefield*, or other early varieties, as it has some tendency to run to seed if sown at the dates suitable for these. In this latitude we sow Early Summer on the 25th of September.

To those who do not intend to keep it in cold frames, we would suggest to sow it in hot-bed or greenhouse about February 1st, in the usual manner, and when of suitable size, prick off or replant, at about two inches apart in hot-bed, or in shallow boxes in greenhouse. Treated in this manner, quite as good plants can be made of this or any other Cabbage as if wintered over in cold frames, and in this way they will not run to seed.

Price, 15 cts. per pkt.; 50 cts. per oz.; \$1.75 per $\frac{1}{4}$ lb.; \$6.50 per lb.

CAULIFLOWER.—HENDERSON'S EARLY SNOWBALL.

During the past three years we have received hundreds of the most satisfactory testimonials from all parts of the country, from those who tried the Early Snowball. It gave excellent results from spring sowing, and it is certain to do well when sown in fall and wintered over in cold frames. For this purpose the proper time for sowing in this section is from the 15th to the 25th of September. *It is the earliest* of all Cauliflower, and is without equal for forcing during winter and spring. Its dwarf habit of growth, and closeness of outside leaves especially recommend it for the purpose.

Price, 30 cts. per pkt.; \$1.50 per $\frac{1}{4}$ oz.; \$5.00 per oz.

SPINACH, VOY LEAVED.—AMERICAN GROWN.

CHOICE STOCK, VERY CURLY.

This is a comparatively new kind of Spinach, producing nearly *twice the weight of crop* as the ordinary sorts; by a comparative test in our trial grounds, the past two winters, we have proved it also to be the hardiest of all varieties of Spinach, a most important quality in cold districts. Many of our leading Market Gardeners in this vicinity, whom we induced to try it, are so thoroughly pleased with it, that they will now use no other variety.

Price, 25c. per lb.; \$20.00 per 100 lbs.; [25 lbs. sold at 100 lb. rates].

SPINACH.—NEW THICK LEAVED.

One of the best for market; thick leaved, somewhat crumpled, dark in color, and stands long without running to seed. This sort has recently become very popular in the neighborhood of New York.

Price, 30 cts. per lb.; \$25.00 per 100 lbs.; [25 lbs. at 100 lb. rates.]

General List of Vegetable Seeds.

It will be seen by this list that we give Market Gardeners the benefit of

WHOLESALE PRICES,

which are fully one-third lower than that of retail Seed Dealers.

For New and Scarce Vegetable Seeds, see previous edition of this list.

Varieties in *heavy type* are the leading kinds usually grown for market. Prices quoted are based on customers paying delivery charges when sent either by express or freight. Whenever desired, we will send by mail, but when this is to be done, postage must be added in every instance at the rate of 16c. per lb.

$\frac{1}{2}$ lbs. at lb. rates.

$\frac{1}{2}$ pecks at peck rates.

$\frac{1}{2}$ bushels at bushel rates.

At these low rates, no less quantity than half an ounce in Vegetable Seeds will be supplied. When packets are wanted they will be furnished at retail rates.

Basket Designs of Willow, Straw, Chip, etc.

For Filling with Cut Flowers.

We this season offer only the most salable baskets, etc., which will be found much reduced in price. The "Braided Straw" work is now very fashionable in New York, and is used mostly in gilt. When willow, straw and gilt work is wanted we must be allowed from 3 to 5 days to fill the order, as all Straw work is made up from new crop straw, and willow or gilt work is freshly painted. We allow no tarnished or shop worn goods to leave our house. We give the measurement in inches as nearly as possible, although some baskets, etc., will vary slightly. This will make it very convenient, we think, to make selections.

For Plain Willow or Wicker Baskets, see numbers 1 to 4 and 169 and 182. For Brown Willow Baskets, see numbers 5 to 9. For Chip Baskets, see numbers 152 to 156; 158 to 165 and 173. For Moss Baskets, see number 165. For For White and Gilt Baskets, New Design, see numbers 10 to 51 and 181. For Straw Baskets, New Designs, see numbers 76 to 124 and 179, 180 and 183. For Wheat Sheaves, see numbers 121, 125 and 126. For Angot Bags, see number 99. For New Braided Straw Baskets, see numbers 166 to 168; 170 to 172; 174 to 178 and 184.
