TOMATO

THE COLORADO AGRICULTURAL EXPERIMENT STATION
BOLGIANO & SON, BALTIMORE, MD. PORT COLLINS, COLORADO.
IT IS A DIFFICULT QUESTION FOR US TO GROW ANY BUT THE VERY EARLIEST TOMATO WITH ANY
DEGREE OF SUCCESS IN THIS LOCALITY. WE FIND YOUR I. X. L. TOMATO VERY SATISFACTORY, IT IS EX-
TREMELY EARLY, FRUIT LARGE, GOOD RED COLOR, FIRM AND OF GOOD QUALITY. I CONSIDER THE
QUALITY MUCH BETTER THAN ANY PINK TOMATO WHICH I HAVE SEEN. YOURS TRULY, W. PADDOCK

Bolgiano's Seed Store, Pratt, Light and Ellicott Sts., Baltimore, Md., U. S. A.

When You Buy Bolgiano's Seeds - You Know - What You Are Going To Get.

When you buy other seeds you are taking unnecessary chances with your crops and your year's profit. Bolgiano's Seeds are the result of years of most careful and painstaking selections, they are produced from the purest, truest, the highest bred seed stocks in the world, they are grown by the most careful, most experienced, and most conscientious seed growing Experts in the World, they are handled in such a systematic way, it is almost impossible for a mistake to occur.

We claim it is next to impossible to secure Seeds anywhere that are as uniformly Pure, True, Fresh and Reliable as Seeds from Bolgiano of Baltimore.

We are, each year, spending thousand of dollars, not only to keep, our seeds, up to this very high standard of Reliability and trueness, but to produce New and Improved seed stocks, therefore if our Seeds pleased you last season they will please you better this season. Our business is our greatest pride and pleasure and nothing pleases us better than letters like these - -

"I will always speak a good word for Bolgiano's Seed. I do not think I could possibly get as good seed from any other Seedman, E. J. CARTER, Essex Co., Va." and this one. "I am just back from a trip to Sanford, Fla. and several gentlemen there, gave me your name as being The Most Reliable Seedmen. B. C. LIGHTER, Ala."

We will either send you exactly what you order or we will send you money back. We want your trade. We will treat you right. Yours very truly, J. BOLGIANO & SON.

Simple Rules For Ordering Bolgiano's Reliable Seeds.

We fill orders of all values, from the smallest to the largest, and all receive the same careful and prompt attention.

FREE DELIVERY BY MAIL. We deliver free to any post-office in the United States all vegetable and flower seeds offered in this catalogue by the packet, ounce, quarter-pound and all varieties of Tomato Seed in any size package, including pounds. On all other seeds for half-pounds and upwards add 8 cents per pound.

When Best to Order.—We are fully equipped for filling orders, and supplied with New Crop Seeds. Order at once, so that you can have your seed on hand ready to start planting your crops at the proper time without delay.

Send by mail if you cannot get to see us. We will send you Seeds that have been saved with great care. You will be pleased with the crops, and satisfied with our prices.

Use our Order Blank if you have one. If you haven't one, use any plain paper.

Tell Us In Your Own Way What You Want, in any language, always giving the Catalogue Number of each article. Enclose in your letter the amount of money, either a post-office money order, which you can get at the post-office, an express money order, which you can get at the express office, or a draft, which you can get at any bank; or put the money in your letter, take it to the post-office and tell the postmaster you want it registered.

The Cost of Your post-office or express money order may, on all orders over \$1.00 be deducted from the amount sent.

Postage Stamps, we will accept postage stamps the same as cash.

If You Live on a Rural Mail Route, just give the letter and the money to the mail carrier and he will get the money order at the post-office and mail it in the letter for you.

GUARANTEE.—We Guarantee all Shipments of Seed, when remittance accompanies order, to reach the purchaser safely and in good condition.

Don't be Afraid You Will Make a Mistake. We receive many orders from young and old who never before sent away for seeds. We are accustomed to handling all kinds of orders. No matter whether your order is in good or bad writing we will promptly fill it and send it to you.

Don't be Afraid of the Express or Freight Charges. By our guaranteeing the expressage all the express lines in the United States and Canada, in the traffic agreement, are now carrying seeds at a reduced rate of 20% less than merchandise rates. Neither the freight or expressage will amount to much compared with what we save you in cost.

CHANGE OF ADDRESS.—If you have changed or intend to change your address, please let us know, and we will change it on our books, so that you will receive our Catalogue at your new Post-Office.

Be Sure to Sign Your Name and Address.—If by boat or railroad say distinctly which Boat or railroad to ship by, and if freight has to be prepaid add this amount to your order to prevent delay.

AS TO WARRANTY, We Believe Our Seeds, will produce for you the best crops you have ever grown, and to show you what confidence we have in our Seeds, if they prove otherwise than represented by us, we will refill your order free of charge; but it must be agreed that we do not warrant the crops grown therefrom, either express or implied, as to description, purity, productiveness or any other matter and we will not be, in any way responsible for them. If the purchaser does not accept our seeds, etc. on these terms they are at once to be returned and the money that has been paid for the same will be refunded.

We appreciate your orders and they will receive our prompt attention.

IF YOU ARE SATISFIED WITH US, with the goods you receive, the treatment we give you and your general business relations with us, will you do us the favor of mentioning the fact to some of your neighbors? If we can please you, we can please others, and we assure you that we will be careful to make your friends more than satisfied with the experiment.

Market Gardeners, Farmers' Clubs and Institutions wanting to purchase Seeds in unusually large quantities should write for special prices. We have made prices very low in this Catalogue, yet when a number of bushels or pounds are wanted we can frequently supply at lower price than by the single pound or bushel. In writing give us a list of quantities and varieties required and we will return list promptly with our lowest price for the lot.

Always remember that we can save you money, no matter where you live. Write us about any Seed you would like to know of, and your letter will be answered the same day it is received. If you wish to know exactly what the freight or express would be on any article to your station, write us and we will tell you.

Prices in this Catalogue are Subject to Market Changes, Special Quotations Promptly Given.

Onion Sets A Specialty.

We offer, Fancy Re-cleaned, Sound, Hand Picked Onion Sets, All Colors At Attractive Prices. Write to-day for Samples and Quotations. (See Page 44.)

Seed Buyers Everywhere Have Trusted

Bolgiano's Seeds

For Over

90

Years

Four Generations.

NO HALF GOOD SEEDS could have held their reputation through all those long years—let alone become more and more popular as the years rolled by.

As to good seeds, *our idea* has always been, there is—

Nothing Too Good

in the whole world, for our vast number of careful, critical customers. Their *all* often depends upon the success of the crops they grow from BOLGIANO'S SEEDS.

We keep *this fact* constantly in our mind and spare no expense in making BOLGIANO'S SEEDS the Best Seeds in the World.

This year, a great number of crops are again very, very short—this means a large amount of questionable seeds will find a ready sale—but to us, it means—A GOLDEN OPPORTUNITY to prove to you, when you buy BOLGIANO'S SEEDS, you will either get such seeds as Bolgiano is honored to put his name to—or (if the seeds of our own growing are all sold) you get your money back.

Order Early—While Our Stock is Complete.

Wonderful Reports From Twenty States And Two Foreign Countries All Praising Bolgiano's I. X. L. Tomato

New York.

J. Bolgiano & Son, Baltimore, Md. Mar. 21, 1908.
We had some of your I. X. L. Tomatoes last season, and they were very Early, in fact we had Tomatoes before any one else in our neighborhood.
EDWARD DENISON, Jefferson Co., N. Y.

Ohio.

J. Bolgiano & Son, Baltimore, Md. Jan. 20th, 1908.
Your I. X. L. Tomatoes are alright. Last year under adverse conditions of season, they were winners over all others for earliness and quality.
C. D. BROWN, Lawrence Co., Ohio.

Virginia.

J. Bolgiano & Son, Baltimore, Md. Feb. 4th, 1908.
"Honor to whom honor is due." I must tell you of my success with your I. X. L. Tomato last year. For twenty years, I have raised early tomatoes, for this market, and I think I have tried every new one of note, that has come out, in that time, but I never saw one that could compare with the I. X. L. I sold mine for forty cents per doz. long before any one else had them even grown, much less turning. I consider them ten days earlier than any I know of. My garden is on the main road leading into this town, and my tomatoes were a curiosity to the passers by.
MRS. R. I. SAUNDERS, Botetourt Co., Va.

Florida.

J. Bolgiano & Son, Baltimore, Md.
Gentlemen:—I think the I. X. L. Tomato is the best Tomato I have ever grown and I have been a Tomato grower for the past 20 years and have grown many kinds of tomatoes, but not any that comes up with the I. X. L. Tomato. Think they are the best tomatoes I ever saw and the most prolific.
Yours truly, C. F. INGRAHAM, Narauja, Fla.

Indiana.

J. Bolgiano & Son, Baltimore, Md. Oct. 9th, 1907.
Gentlemen:—On Nov. 1st ship us 15 lbs. of your I. X. L. Tomato Seed.
Yours truly, LOUDON PACKING CO., Vigo Co., Ind.

Kentucky.

J. Bolgiano & Son, Baltimore, Md. Jan. 24th, 1908.
I take pleasure in sending another order for Tomato seed. Those which I received last year were perfectly satisfactory, and I have recommended your seed to my neighbors. This order is mostly for others, who wish to try your I. X. L. Tomato.
HENRY T. WISER, Jefferson Co., Ky.

Louisiana.

J. Bolgiano & Son, Baltimore, Md. July 26th, 1907.
Your I. X. L. Tomatoes are all one could wish for. I gathered ripe fruit from plants 80 days from day I planted the seed. Your Prosperity Yellow Corn is the wonder of the neighborhood, such long ears, as long as your arm, on poor piney wood land.
Yours very truly, G. B. CALDWELL, Genesee, La.

Georgia.

J. Bolgiano & Son, Baltimore, Md. Jan. 28th, 1908.
I used your Greater Baltimore, and I. X. L. Tomatoes last year, and I liked both varieties so much I want them again.
S. M. ARD, Stewart Co., Ga.

Oklahoma.

J. Bolgiano & Son, Baltimore, Md. Feb. 18th, 1908.
Oklahoma has never had any reputation as a Tomato Country. Some people can hardly raise them at all. Some varieties do fairly well, while others blight, drop their bloom, and make nothing in time to escape frost, but the I. X. L. is certainly a success in Oklahoma.
My tomatoes came early I got a good price for them, and by the time others got to market, I was ready to step down, and out.
H. C. KENNEDY, Garfield Co., Oklahoma.

Delaware.

J. Bolgiano & Son, Baltimore, Md. Jan. 12th, 1907.
I have some of the very best reports from the I. X. L. Tomato plants which I sold last Spring from the seed I purchased from you and will need some more seed from you this Spring.
Yours respectfully, W. T. DAGETT, Kent Co., Del.

Tennessee.

J. Bolgiano & Son, Baltimore, Md.
You have the wrong name for your Bolgiano I. X. L. Tomato. It should be called the "FINEST" for they are the earliest, most prolific and the best Tomato I have ever seen. Call them the "FINEST."
Yours truly, EDWARD FAIDLEY, Sullivan Co., Tenn.

Texas.

J. Bolgiano & Son, Baltimore, Md. Oct. 14, 1907.
Will you please send me your catalogue? I want to grow your I. X. L. Tomato next year. I think if your I. X. L. Tomato proves as good another year as it did this, it will become the leading tomato of this section of the country.
Yours truly, W. R. HAWS, Smith Co., Texas.

Arkansas.

J. Bolgiano & Son, Baltimore, Md. July 5th, 1908.
I want to try some more of your I. X. L. Tomatoes; they certainly were beautiful in the Spring.
W. K. VANN, Miller Co., Ark.

Maryland.

J. Bolgiano & Son, Baltimore, Md. Dec. 28, 1907.
If your I. X. L. Tomato seed is the same stock you sold me Last Spring I want some more of it. They are the heaviest yielding Tomatoes that were ever known. If I had planted my whole crop in I. X. L. Tomatoes I would have been worth \$2000 more money to-day than I am.
GEO. LINK, Anne Arundel Co., Md.

New Jersey.

J. Bolgiano & Son, Baltimore, Md. March 12, 1908.
I set out about six hundred plants of your extremely early I. X. L. Tomatoes last year, and sold 314-1/2 half bushel baskets, from the pack, and didn't sell much over half that were on the vines. They are the best I ever saw for tomatoes.
U. S. GRANT REYNOLDS, Ocean Co., N. J.

Canada.

J. Bolgiano & Son, Baltimore, Md.
Please send me your new seed catalogue. I grew some I. X. L. and Greater Baltimore tomatoes from your seed last year, and was delighted with them.
W. W. PETTET, Postmaster, Pickton, Ont., Can.

Australia.

J. Bolgiano & Son, Baltimore Md. May 9th, 1907.
Gentlemen:—Kindly forward by mail, two pounds each of Greater Baltimore and Bolgiano's Famous I. X. L. Tomato Seed, for which enclosed find Postal money order for \$26.00.
Yours very truly, ROSELLA PRESERVING CO., Australia.

Mississippi.

J. Bolgiano & Son, Baltimore, Md.
I have never seen anything to compare with your I. X. L. Tomato. They are earlier, and stood the hot sun better than any other Tomato. I have some experience—been farming for 15 years.
I. F. DELMAS, Jackson Co., Miss.

North Carolina.

J. Bolgiano & Son, Baltimore, Md. July 7th, 1907.
I wish you could have seen the I. X. L. Tomatoes. The ground was covered with them. I never saw as many on bushes in my life.
Yours truly, D. P. GEORGE, Pender Co., N. C.

Best Crop On The Farm.

J. Bolgiano & Son, Baltimore, Md. Oct. 15th, 1907.
I had a fine crop of your Extremely Early I. X. L. Tomato this Spring. They were very early, large, smooth, nice shape. They held their size so well I was able to pick a long time. Made more money out of I. X. L. Tomatoes than any other crop on my farm. I find it the best of all the Early Tomatoes.
Yours truly, FRED. GILLESPIES, Baltimore Co., Md.

Bolgiano's

I. X. L. Tomato

Extremely Early-Wonderfully Prolific

A week earlier than the Earliana. More productive than the Chalk's Jewel. As large as the Great B. B. As solid as the New Century. In fact, the world's leading Extra Early Tomato.

Bolgiano's Extremely Early Prolific I. X. L. Tomato.

277. In Market Gardner's Field Tests, I. X. L. Tomato proved to be a week to ten days earlier than the Spark's Earliana, with an abundance of fruit larger and more prolific than Chalk's Jewel, in fact any number of specimens could be found as large as the Great B. B. Tomato. It has a little more vine and leaves than the Wealthy Tomato, thus protecting the blossoms from being easily knocked off, by heavy rains or winds; also protecting the fruit from being sunburned or scalded. The I. X. L. Tomato is without a single exception the Leading Extremely Early Tomato, and while many of the most Experienced Tomato growers tell us we cannot say too much in favor of this Excellent Early Tomato, there are many who have not grown it yet. To them, we say again, do not experiment with it but plant your entire early crop in I. X. L. Tomato, your crop will net you big returns. We stake our reputation on I. X. L. TOMATOES. Below we give in a concise form the most striking features of this Tomato.

1. **EARLIEST, LARGEST, ABSOLUTELY SMOOTH TOMATO ON EARTH.** A week earlier than the "Earliana," and as large as the "Great B. B."

2. A beautiful, brilliant red color.

3. Vines are a perfect mass of large, smooth fruit, a single plant yielding 1/2 bushel.

4. Fruit is extremely early, enormously abundant and ripens all at once.

5. Vines are very compact and can be placed two feet apart in three foot rows.

6. As an extremely early prolific stem setter it is a wonder.

7. The absence of unnecessary leaves permits all the fruit to ripen so remarkable early.

8. It is almost like finding money to grow the I. X. L. TOMATO.

9. The largest growers tell us we cannot say too much in favor of the I. X. L. Tomato.

Price, Pkt. 25c. 1/2 Oz. 75c. 1 Oz. \$1.25. 2 Ozs. \$2.25.
1/4 Lb. \$4.00. 1/2 Lb. \$7.50. 1 Lb. \$15.00.

The Colorado Agricultural Experiment Station.

J. BOLGIANO & SON, Baltimore, Md.

It is a difficult question for us to grow any but the very earliest Tomato with any degree of success in this locality. We find the I. X. L. very satisfactory, it is extremely early, fruit large, good (red) color, firm and of good quality. As far as my taste personally goes, this is one of the best Early Tomatoes that I have ever tested. I consider the quality much better than any pink Tomato which I have seen. Yours truly,

FORT COLLINS, COLORADO.

What Growers And Canners Say

—ABOUT—

Bolgian's "Greater Baltimore" Tomato

14 TONS PER ACRE AND NOT A MIXED SEED.

J. Bolgiano & Son, Baltimore, Md. Feb. 27th, 1908.
I used your Greater Baltimore Tomato last year, and raised 14 tons per acre, and if the seed you send this year, are as true to name as they were last year, I will be satisfied, for there was not a seed of another variety in the lot.
A. WILKINS, Sussex Co., Del.

NONE JUST AS GOOD.

J. Bolgiano & Son, Baltimore, Md. Jan. 17th, 1908.
Please quote us on eight pounds of Bolgiano's Greater Baltimore Tomato seed. We would rather do without the Tomato seed, than have anything else but your stock of this variety.
STEVENS BROS.,
Cumberland Co., N. J.

NO OTHER WILL DO.

J. Bolgiano & Son, Baltimore, Md. Oct. 2nd, 1907.
Kindly book us for 25 pounds of "Greater Baltimore" Tomato Seed for 1908 crop and be sure we get this seed as the "Greater Baltimore" Tomato can be easily told from any other. No other will do. Yours very truly
LAKEPORT PRESERVING CO., Mr. G. E. Mathews, Mgr. Lakeport, Ont., Canada

HERE TO STAY.

J. Bolgiano & Son, Baltimore, Md. Feb. 29th, 1908.
I believe the Bolgiano's Greater Baltimore Tomato is here to stay. They were tried here last year, by some of the Grovers, and done well.
EDMUND GEORGE, Kent Co., Del.

THEY'RE THE "STUFF."

J. Bolgiano & Son, Baltimore, Md. Jan. 3rd, 1907.
We used some of your Greater Baltimore Tomato Seed last year and found them the "Stuff" for canning purposes.
OREGON CANNING CO., Holt Co., Mo., Per L. I. Moore.

PLEASES EVERYWHERE.

J. Bolgiano & Son, Baltimore, Md. July 21, 1908.
I was well pleased with the seed obtained from you, especially the Greater Baltimore Tomatoes.
W. W. WILLIAMS, Berkeley Co., S. C.

WANTS MORE OF THEM.

J. Bolgiano & Son, Baltimore, Md. March 26th, 1908.
Please express me 8 pounds of your Greater Baltimore Tomato Seed. I used them last year, and they done well for me.
S. B. SILVER, Wyandotte Co., Kansas.

NONE TO EQUAL THEM.

J. Bolgiano & Son, Baltimore, Md.
Your Greater Baltimore Tomato is the best I have ever grown, I have been planting Tomatoes for many years but never had any to equal this one. Your Seed are so good I can never praise them too highly.
MILLARD F. WALKER, Frederick Co., Md.

USED EXCLUSIVELY.

J. Bolgiano & Son, Baltimore, Md. Jan. 14th, 1907.
Please send us at once by express, 30 lbs. of your "Greater Baltimore" Tomato Seed. Please see that you send us your very best seed, as we use "Greater Baltimore" Tomato Seed exclusively among our growers of Tomatoes.
Yours very truly, WM. LANNING & SON, Cumberland Co., N. J.

JUST READ THIS.

J. Bolgiano & Son, Baltimore, Md.
Your "Greater Baltimore" Tomato I planted last season, is the finest I have ever planted. I shipped about 800 crates from 1 1/4 acres, some sold in Boston by J. D. Mead & Co. for \$3.00 a crate. I recommend it unreservedly to the growers of this section. I planted five different varieties, and the "Greater Baltimore" led them all. You can put me down for "Greater Baltimore" next season.
Yours very truly,
THOMAS S. JOHNSON, Polk Co., Fla.

RESULTS COUNT.

J. Bolgiano & Son, Baltimore, Md.
We got better results out of "Greater Baltimore" Tomatoes than any other tomatoes. They grow large, smooth and solid and are very productive. I have already sent you my order for "Greater Baltimore" Tomato Seed for next Spring. Yours truly,
W. T. FRYER, Cecil Co., Md.

Arkansas Agricultural Experiment Station FAYETTEVILLE, ARKANSAS

In reply beg to state that no tomato upon our experimental grounds has given the satisfaction that we have gotten from "Greater Baltimore." It is early, prolific, hardy, of excellent quality and is fruiting longer and more satisfactory than anything else we have.

We thank you for calling our attention to this fine fruit. It should be largely planted by vegetable gardeners as well as for other commercial and family purposes. Yours truly,
W. C. VINCENHELLER, Director.

J. Bolgiano & Son, Baltimore, Md. Oct. 15, 1908.
I planted ten acres of your Greater Baltimore Tomatoes last Spring and raised a fine crop of very fine Tomatoes, up to the 1st of October we had sold about 10 tons per acre. On the night of October 1st we had a freeze so we took no more to the Canning factory but there were a great many fine Tomatoes yet in the fields.
J. W. COX, Grant Co., Ind.

CHEAPEST SEED THEY CAN BUY.

J. Bolgiano & Son, Baltimore, Md. Nov. 23rd, 1907.
Please enter our order for 10 pounds of Greater Baltimore Tomato Seed. We have used "Greater Baltimore" for the last two seasons, for part of our planting, and find that although high in price they are the cheapest seed we can buy. Best yielders and surest croppers.
Yours very truly,
OREGON CANNING CO., Holt Co., Mo.

PERFECT MASS OF FINEST TOMATOES.

J. Bolgiano & Son, Baltimore, Md. Nov. 20th, 1907.
My "Greater Baltimore" Tomato plants were a perfect mass of Tomatoes, the finest I have ever seen. I do not think you will get any tomato to surpass the "Greater Baltimore." Yours very truly,
B. Z. LLOYD, Nacogdoches, Co., Texas.

BEST EVERY TIME.

J. Bolgiano & Son, Baltimore, Md. Davis Co., Utah.
Dear Sirs:—In reply to your inquiry, will say I planted the "Greater Baltimore" in fifteen different fields separate from our Stone and that in every section and every field they ripened about ten days earlier than any other, they ripen even to the stem, are very solid, also prolific and of a beautiful deep red color. I consider them an IDEAL TOMATO for both grower and canner.
Yours truly,
KENISH CANNING CO Per CROSS, Supt.

THEY ARE A WEEK TO TEN DAYS EARLIER THAN THE STONE.

J. Bolgiano & Son, Baltimore, Md. June 5th, 1907.
We are partial to the "Greater Baltimore" Tomato as they mature about a week earlier than the Stone Tomato.
Yours very truly, WATSON BROS., Cumberland Co., N. J.

FREE FROM RUST AND BLIGHT—BEST IN 15.

J. Bolgiano & Son, Baltimore, Md.
The "Greater Baltimore" was something to marvel at, extra large, immense yielder, rust and blight free, beautiful color, and the best of all red tomatoes tried here among fifteen varieties. Same season as the Chalk's Jewel but decidedly better. Our Fall "Greater Baltimore" plants are standing the heat and drought fine.
Very truly yours,
MAGNOLIA FRUIT FARM,
S. WHERRY & SON, prop. Holmes Co., Miss.

THERE CAN'T BE ANYTHING BETTER.

Messrs. J. Bolgiano & Son, Baltimore, Md.
Gentlemen:—The "Greater Baltimore" Tomato that I used last season from your seed is entirely free from blight and the largest yielder by half that I have ever used. There can't be anything better; as you have my order I can say no more.
Very respectfully,
S. M. JOHNSON, Dorchester Co., Md.

AT LEAST TWO TONS MORE TO THE ACRE.

J. Bolgiano & Son, Baltimore, Md.
Gentlemen:—Mess. Wm. NUMSEN & SON, Baltimore, Md, contracted for my tomatoes this year. I have grown your "Greater Baltimore" Tomato for THREE Successive Years and am more than pleased with them. They grow at least two tons more to the acre than any other tomato that I have ever grown and I will plant them again next spring. My neighbors to whom I have recommended the "Greater Baltimore" Tomato are also well pleased with them.
Yours respectfully, WM. GEAVERTON, Kent Co., Md.

H. J. PATTERSON, DIRECTOR.

College Park, Prince George Co., Md., October 8th, 1907.
Mess. J. Bolgiano & Son, Baltimore, Md.
Gentlemen:—Replying to yours of recent date to Director Patterson will say that the Greater Baltimore again yielded better than any of the eleven varieties of its class tested. Two sowings were made. The first on March 1st, in hot-bed and the second outside in cold frames, the first of April.

The yields of the first sowing were:		Ton.	Lbs.
Greater Baltimore		12	360
Matchless		11	385
Paragon		9	1575
The yields of the second sowing were:		Ton.	Lbs.
Greater Baltimore		10	010
Paragon		8	530
Matchless		7	760

Yours very truly, THOS. H. WHITE.

Our conclusion then is that "Greater Baltimore" is a fine variety, large, solid, uniform in shape and size—and very productive—and worthy of dissemination. Very truly, J. P. PILLSBURY, Asst. Horticulturist.

Bolgiano's "Greater Baltimore" Tomato

Acknowledged by leading authorities to be the
Best Main Crop Tomato in the World.

Bolgiano's "Greater Baltimore" Tomato.

1. Greater Baltimore Tomato is the highest mountain top of success in tomato growing.
2. Just doubles yield of the best cropping tomato you have ever grown.
3. Smooth, well-formed and deep from stem to blossom.
4. Its extremely heavy weight is due to its firmness and great meatiness.
5. It ripens evenly to the stem and is entirely free from ridges, cracks and blight.

6. Unrivalled shipper, due to its solidity and firmness.
7. Fruits in large clusters at every second joint, joints are short and sturdy.
8. Brilliant red color, the handsomest tomato we have ever seen.
9. Vigorous, compact; healthy vines.
10. The grandest Second Early and Main Crop Tomato on Earth.

After another season has passed, and the "Greater Baltimore" Tomato has been grown in almost every state in the Union, and in many Foreign Countries it is almost impossible to give a description of its merits without seeming to claim for it Supernatural Powers; so in describing it, we will, as far as practical, confine ourselves to extracts from the experience of those who have grown the "Greater Baltimore" the past year.

A Florida man writes "It is the finest Shipping Tomato ever sold,—tested side by side, and shipped side by side with five leading varieties—it beat them all." Another writes "Out of 15 Red varieties it was the best of all." "Very prolific—it yielded from 300 to more than 500 bushels of 60 lbs. per acre." One man raised 17,000 plants from 1/4 lb. of "Greater Baltimore" Tomato Seed. "Vigorous grower," strong healthy plants. Fruit uniform in shape and size, solid, large, very regular, smooth, shapely, fleshy, very meaty, ripens well and evenly. Beautiful bright red color, fruit very handsome, dozens weighing 30 ounces, and several exceeding 32 ounces. Seed planted a month later than "Duke of York" produced shipping fruit two weeks before that variety was ready. "Fine crop in bad season." Excellent keeper—has kept until New Year's Day. Rust and blight proof. "Recommended unreservedly by a grower for 'the section around Lakeland, Fla.'" Had proved better than any variety tried at Pictou, Canada. "Stands the heat and drought of Mississippi." "Very valuable for South Carolina climate." In the canning districts of Delaware and Maryland "yielded a fine crop in a bad season." Texas says there is no better tomato in size and taste on the market; not an acid tomato—very fine flavored. As a home garden Tomato "the results have been far beyond expectations." On our own table we sliced the "Greater Baltimore" Tomato like we would slice a fine tender roast beef. We tried to grow enough seed to go around this year, but our crop is very, very short so to be on the safe side you had better order immediately.

Bolgiano's "Junior" Rocky Ford Cantaloupe.

See Painting On The Back Cover.

BOLGIANO'S "JUNIOR" ROCKY FORD CANTALOUPE

Without A Single Exception The Biggest Money Making Melon Ever Offered. Two Weeks Earlier, A Little Larger, Twice As Productive as Rocky Ford. More Thoroughly And Deeply Netted. Rust and Blight Proof. Packs in Crates Better And Carries Better Than Any Other Melon.

16. This Greatest of all Money Making Cantaloupes, had for its parents two exceptionally fine stocks of Rocky Ford Melon, it has been bred up by our expert growers to be entirely blight and rust proof. "Junior" is a wonderfully prolific yielder, single plants producing as high as 16 fine melons. It will develop shipping fruit ten days to two weeks before the Rocky Ford. In form it is ideal, being just the right shape to pack to best advantage into crates. In size it is a little larger than the regular Rocky Ford. Its netting is close and deep, thoroughly covering the melon, protecting its keeping and shipping qualities and lessening the loss of weight from evaporation. In quality it is most deliciously sweet and spicy creating a largely increased demand on account of these excellent points. The seed cavity is very small and is well filled with seed, the attractive green flesh is thick, smooth and firm, combining together to making it the best melon for carrying long distances that the grower has ever had. Pkt. 10c. Oz. 25c. 1/4 Lb. 75c. 1/2 Lb. \$1.25. Lb. \$2.50.

J. Bolgiano & Son, Baltimore, Md.

We wish to express our thanks for the seeds which we bought from you last year, as they have given us perfect satisfaction. In fact we have had better crops than ever before. We used your Bolgiano's Junior Rocky Ford, and New Eden Gem, and our cantaloupes were the best on the market. We have given you our seed order for this year, and trust that we will have the same success.

Yours truly,

Bolgiano's New Melting Gold Cantaloupe.

51. Did you ever eat anything so exceptionally delicious, the very pleasant memory of it often comes back to you. That's what will happen if you once eat one of Bolgiano's New "Melting Gold" Cantaloupes. The delicious tender golden flesh simply melts in your mouth. It is the sweetest and most delicious melon that has ever been grown. The flesh is thick, very tender and of a beautiful deep-golden color, it ripens close to the skin, the thin rind is of a rich dark green color contrasting attractively with the deep Golden flesh which is so deliciously sweet and tender. The melons are well ribbed and covered with a grayish netting, they are 6 to 7 inches long by four and half to five inches in diameter. "Melting Gold" Cantaloupe is an excellent shipper and it is so good the market eagerly takes every melon grown and begs for more. As a melon for home gardening it is the greatest addition in years. "Bolgiano's Florida Special Tomato."

The Greatest Blight Resisting Tomato on Earth.

311. Not a single grower of Tomatoes in Florida or in any locality where blight has injured the Tomato crops, should go through this season without trying this most excellent New Tomato. We call it "Florida Special" for it has been most carefully bred up to resist the ravages of blight which has been so discouraging to our Florida customers. It is Red in Color, large in size, fine flavored, firm and meaty, very prolific, and about as early as the Earliana. It is a most excellent shipper, in fact during our entire time of selecting and breeding up the Florida Special, we took the utmost pains in selecting such tomatoes as would stand the long shipment to the northern Markets from Florida. We are confident Bolgiano's Florida Special Tomato is going to make a record this year, that will put it head and shoulders above any Tomato that has ever been introduced, excepting the I. X. L. J. Bolgiano & Son, Baltimore, Md. Oct. 19, 1908.
Your letter received and in reply will say we bought last season 75 lbs. of your Bolgiano's Early Fortune Cucumber Seed and were so well pleased with the outturn that we did not care to buy from any other. A Large New York House has sold some parties here and has tried to get us to give him our order and we told him that you had given us such excellent results that we did not feel that we could change in justice to you or ourselves, and we therefore place our order with you for Jan. 1, 1909 shipment, 100 lbs. Bolgiano's Early Fortune Cucumber. And 100 lbs. of Arlington White Spine Cucumber.

BOLGIANO'S FAMOUS NEW EARLY FORTUNE CUCUMBER.

Actually Proven by Many EXPERT GROWERS to be The EARLIEST and The Best DARK GREEN WHITE SPINE CUCUMBER on Earth.

84. Full-blooded, as pretty as a picture, and extremely early, wonderfully productive, a model in shape, of the most inviting and attractive deep green color. Is there any wonder we name this money-maker "Early Fortune" Cucumber? From very expensive and thorough tests of every cucumber grown, we selected the parents of this excellent stock. The result went far beyond our greatest hope. We found we had a Cucumber that was without a doubt the finest in the world. Realizing a very heavy demand would come as soon as the Cucumber growers learned of our "Early Fortune" Cucumber, we let one year go by to insure our supply of seed, but even now the quantity of this seed is very limited. If you wish to secure any of it this coming year for hot-house, frames, or open field culture, you had better order immediately, or our short supply will be exhausted.

Bolgiano's Extra Early Wealthy Tomato.

**This Tomato has made many Truckers
and Market Gardeners rich.**

273. Thousands of dollars clear have been made by the men who have planted the Wealthy Tomato. From the day you sow the seed until the last large, shapely fruit is shipped to an anxious early market, Wealthy Tomato keeps the lead. One of the earliest of the earliest: smooth, firm, delicious flavor, beautiful red color, and an abundant yielder. In the Wealthy Tomato Mother Earth pays us a thousandfold for our efforts. In Springtime those who have the means are only too glad to spend it freely if in return they can get the first fruits of the season. Then the fancy prices are realized, and if you trust Wealthy Tomato it will put you in a position to get your share and also the share of the man who takes years to find out a money maker. **Pkts. 10c and 25c. 1/2 Oz. 50c. 1/4 Lb. \$1.25. 1/2 Lb. \$2.50. Bolgiano's New Century Tomato.

283. **Bolgiano's New Century Tomato.** Nine years ago, when we first introduced the NEW CENTURY Tomato, we felt as though the limit for improvement in Tomatoes had been reached, and judging from the letters we are receiving every season and from the great quantities of seed we annually sell, the New Century is still held in highest esteem by thousands of the market gardeners and shippers all over the country. If you hesitate to plant your entire crop in the newer varieties, you can always feel that **New Century is an Old Friend, Tried and True.** Read the recommendations on this page and you will see in what high esteem it is held. We have spared no pains or expense in keeping this stock as pure and true as it was at the beginning; in fact by most careful roguing eliminating and selecting, we believe New Century Tomato is better to-day than it ever was. New Century will outyield many other kinds; it will carry for two weeks without hurting its beauty; it will attract attention and pay you; it will not crack; it is of a beautiful red color, of large handsome size from first picking until last tomato is taken from the vine. **Pks. 10c. 1/2 Oz. 20c. NEW EXTREMELY EARLY

Long Podded Alaska Pea.

1087. An entirely new vigorous Extremely Early handsome long podded, delicious flavored Alaska Pea. Bound to become extremely popular, for it has all the good qualities of our Famous Extra Early Alaska Pea and in addition it has a well filled pod almost twice as long, which will fill the basket in $\frac{1}{2}$ the time, and while it is not a distinctly sugar pea yet it has a much sweeter flavor than the Alaska. It is an abundant yielder. Being an entirely new introduction our supply of seed is limited, so place your order early. **Pkts. 10c. Pt. 15c. Qt. 25c. 4 Qts. 85c. Pk. \$1.60. Bu. \$6.00.**

"Wonder Worker" BOLGIANO'S EARLIEST WRINKLED PEAS.

1083. The most delicious pea you have ever eaten. They fairly melt in your mouth. If you have never eaten a "Wonder Worker" Pea you don't know what a good Pea tastes like. Six weeks from planting, this wonderful large Wrinkled Pea can be marketed. In earliness, great size and excellent flavor, it is unequalled. The Peas fairly melt in your mouth. The vines grow 2 $\frac{1}{2}$ feet high, and are very hardy, resisting pests and cold weather. It bears an abundance of large even deep green pods. It is claimed the Wonder Worker Peas are superior in earliness, hardiness, and large size pods to the Gradus or Prosperity Pea. It is the finest early Pea yet introduced. **Pkts. 10c. Pt. 20c. 1. A wonderful yielder.
2. Vines 2 feet, 2 inches high.
3. Growth, hardy, robust and vigorous.
4. Extremely large pods, have a handsome dark green color and are borne even more abundantly than on the Dwarf Prolific Green Marrow Peas.
5. Ready for market, just as the Wonder Worker Peas are over.
6. If planted a little late will stand the warm weather excellently.

"DUKE OF YORK" TOMATO.

GENUINE OLD TYPE
BLUE STEM STOCK.

297. **DUKE OF YORK TOMATOES.**—The genuine old type—blue stem Dukes have given the utmost satisfaction to the Florida Tomato Growers. It has brought many a dollar rolling their way but it has been difficult for these growers to get absolutely the straight type of Dukes when they ordered it; this situation however, is a thing of the past for we are now prepared to supply all our friends and customers with the purest, truest, cleanest type of genuine old type—blue stem Duke of York they have ever seen or grown. Our supply for the last two years has not been enough to go around, this season we increased our acreage considerably, we are therefore prepared to fill many more orders than ever before but even now we fear the demand for this excellent strain will be more than we can supply, so order early. We honestly believe we will soon get the entire Florida trade on Duke of York Tomato Seed and we are going to get it because our Duke of York Tomato Seed is the Genuine Old-type Blue Stem Strain kept absolutely Pure and true. Send to us for your Duke of York Tomato Seed and you run no chances. We will either send you the finest Stock of Dukes you have ever had or return to you your money. Texas Tomato Growers should give this Tomato a thorough trial. It has proved such a money crop for Florida, it might prove equally profitable in Texas. Duke of York Tomato is one of the grandest Tomatoes recently introduced, color, rich, glossy scarlet, splendid cropper, round in shape, flesh very firm, large size, fine flavor. It ripens its fruit uniformly together, whilst in profusion of clusters, averaging 8 and 10 large evenly formed clusters each, makes it conspicuously handsome. Ripens evenly to the stem, is strong, healthy grower, not subject to rust or blight, is an enormous cropper and produces until the vines are killed by frost, holding its size well until the last picking. Quality the very best, solid and meaty. **Pkt. 10c. Oz. 25c. 1/4 Lb. 75c. 1/2 Lb. \$1.25. Lb. \$2.50.**

New Globe Tomato.

264. In shape it is distinct from all others, being a beautiful globe, with quite a good percentage of elongated (stem to blossom) fruits. It is among the first to ripen. Fruit of large size, and good marketable size is maintained throughout the season; always smooth, firm-fleshed, and has very few seeds. Ripens evenly through and through; a fine glossy rose in color, tinged with purple; very productive, the plant is always loaded with fruit, as it has joints at frequent intervals and each joint produces large clusters of from 3 to 7 fruits. Especially adopted for slicing or eating from the hand as the flavor is very delicate and agreeable. **Pkt. 10c. Oz. 35c. 2 Ozs. 60c. 1/4 Lb. \$1.00. 1/2 Lb. \$1.75. Lb. \$3.50.**

June Pink Tomato. Another Great Money Maker

268. **THE JUNE PINK TOMATO.**—In habit of growth is similar to the Earliana. The plant is neat and compact, branching freely, with fruit hanging in clusters of 6 to 10 fruits both in the crown and at the forks of the branches. Under exactly the same conditions as given Sparks' Earliana and Chalk's Jewel, the **June Pink** yielded as much fruit as either, and the vines after the crop had been harvested were greener and brighter, and showed no tendency to blight. It ripens fully as early as the Sparks' Earliana and quite 10 days to 2 weeks ahead of Chalk's Early Jewel. The fruit is of medium size, uniform, smooth, and attractively shaped, without cracks or any green core. The fruit will average 2 3/4 to 3 in. in diameter, and from 2 to 2 1/2 in. in depth. The skin is reasonably tough so that it is excellent for shipping purposes. In color, it is a bright pleasing pink, and in markets where a pink tomato is desired will bring 25 per cent. more in price than any red variety. It has the further quality, making it especially desirable for private use, continuing to bear and ripen fruit up until frost. **Pkt 10c. Oz. 35c. 2 Ozs. 60c. 1/4 Lb. \$1.00. 1/2 Lb. \$1.75. 138. **BURPEE'S EARLIEST PINK.**—One of the newest Tomatoes, exceptionally early, of the finest flavor, abundant and continuous bearer. This Tomato should be grown by every Tomato grower in the country. It is also splendid in the Home Garden. **Pkt. 10c. Oz. 35c. 2 Ozs. 60c. 1/4 Lb. \$1.00. 1/2 Lb. \$1.75. Lb. \$3.50.**

NEW GLOBE TOMATO.

Very Popular With Florida Shippers.
The SIZE and SHAPE Have Made It a WONDERFUL Seller.

Bolgiano's New Flat Wax Bean

"Trucker's Reward"

1183. We have been developing this wonderful New Flat Wax Bean for a number of years and believe we now have practically a perfect Market Gardeners, and Shippers Flat Wax Bean. It is bound to take first premium over all competitors wherever exhibited, on account of the great beauty of its pods and enormous productiveness of its healthy vigorous bushes. The type is so well fixed and so pure and true it is almost impossible to locate a wrong plant in an Acre of "Truckers Reward" White Wax Beans.

The beautiful long straight attractive flat golden pods range from $5\frac{1}{2}$ to $6\frac{1}{2}$ inches in length—in quality they are particularly fine remaining tender and crisp a longer time than any other variety.

As a money making crop, to sell either on the retail market stall or on the wholesale markets of the great cities—they will invariably catch the eye of the most critical buyers and on account of their superior attractiveness will sell themselves.

Do not delay if you want to secure some of our new "Truckers Reward" Wax Beans, our supply is limited so please order early. **Pkt. 10c. Pt. 20c. Qts. 30c. Gal. 85c. Pk. \$1.50. Bu. \$5.00.**

New Pearl Wax-Beans.

A Wonderful Long-Pod Wax Bean.

Enormous Plant. Enormous Pod. Enormous Yield.
Never Affected by Rust or Blight.

1031. If you had grown it in your field as we did, when for almost two solid months we had copious rains every day, and it showed no signs of blight or rust, you would agree with us when we say a bean that will yield a fine crop of beautiful long, flat, clean waxy pods, under such adverse circumstances, certainly cannot be praised too highly. It is a PEARL of Great Value. Although a flat bean, the seed looks somewhat like a Valentine Bean; the plant grows $2\frac{1}{2}$ ft. high by 2 ft. across. It is a remarkably sturdy, rank, vigorous grower, well loaded with pods. The luxuriant foliage shelters the pod from the hot Sun, and is free from blight or rust. The pods are long, slim, flat, plump, handsome and meaty; they somewhat resemble those of the Davis and Wardell's Wax Beans, but are plumper, longer, and straighter. They average from 7 to 8 inches long, and are of a clean light waxy yellow color. As to quality, the pods are exceptionally tender, brittle, and of fine texture, free from fibre, and if picked when ripe, they are entirely stringless. Both for Shippers, Market Gardeners and the Home Garden, the exceptionally good qualities of Bolgiano's New Pearl Wax Bean renders it of the greatest value. **Pkt. 10c. Pint 20c. "TRUCKERS REWARD" WAX BEANS.

Bolgiano's "Mighty-Nice" Bean.

1033. This wonderful new round, meaty, green podded bean had for its parents two separate and distinct stocks of Thoroughbred Hop-Kins Improved Earliest Red Valentine Beans and the inbreeding of their stocks has produced an Extremely Early and most prodigiously productive Stock of beautiful deep green, round podded Valentine Beans. The Flavor and Quality cooked and tested side by side with 50 other leading varieties proved the Bolgiano "Mighty-Nice" Bean to be by far the most delicious and tender.

We have been experimenting with "Mighty-Nice" Bean for years and we can unreservedly recommend it as the greatest new production in the way of Green Podded Beans in the last ten years. Being an extremely new stock it is free from the faults that accumulate around stocks that have been on the market for a few years. We have succeeded in getting the type thoroughly fixed and we are willing to say that you will hardly find one off vine in an acre of "Mighty-Nice." If you want the most productive, the most beautiful, the most salable and the best market or shipping crop of round green podded beans you have ever raised, by all means plant a patch of Bolgiano's "Mighty-Nice" Beans.—The Coming Leader Among Beans. **Pack 10c. "Lord Baltimore"

The Wonderful Dry Weather Cucumber.

BOLGIANO'S NEW CUCUMBER—"LORD BALTIMORE"

82. Think of producing a brag crop of the handsomest and most profitable long dark green cucumbers you have ever seen during one of the driest summers on record—that's what was done last summer by those who tried our "Lord Baltimore" cucumber. It just don't pay and attention to dry-weather but goes on growing and producing beautiful fruit. The "Lord Baltimore" Cucumber is of the true white spine type about 15 inches long, very dark green and of exceptionally fine flavor. The sturdy drought resisting vines produce enormous crops of beautiful, firm, crisp, and deliciously flavored cucumbers. The pure white attractive flesh composes most of the fruit, leaving an Extremely small space for the seed.

If you have failed to get a crop with other cucumbers, "Lord Baltimore" will not only produce a crop for you—but will produce a crop you will be proud of. As this is the first year we have offered "Lord Baltimore" cucumber seed for sale our supply of seed is very limited so if you want any please place your order early **Pkt. 10c. Bolgiano's Best

The Great B. B. Tomato.

284. This tomato is unequaled. It has every good quality pertaining to the Tomato and avoids all faults of other sorts. One of the smoothest, most solid, heaviest and most handsome Tomatoes grown. It suits gardeners, canners and shippers, who are delighted with its faultless fruit, which fills their wants in every particular. The B. B. is as solid as an apple, has no core and the flavor is excellent. It weighs more pounds per bushel than many other sorts which proves its solidity; has a beautiful red color, outside and inside, and the fruit is quite large. There is no need of a field of poor Tomatoes when one dollar will buy enough to supply plants for one acre. Used successfully for early and late crops; always sells at the highest prices. **Pkts. 10c. Oz. 35c. 2 Ozs. 60c. 1/4 Lb. \$1.00. 1/2 Lb. \$1.75. Lb. \$3.50.**

Chalk's Early Jewel Tomato.

287. This excellent new Tomato has attracted the attention of market gardeners and shippers on account of its fine quality, its wonderful productiveness, earliness and large size. Chalk's Jewel is not quite so early as the Earliana, or so large as the I. X. L., but size of the fruit continues very large almost to the last picking. The vines are fairly loaded with fruit during the entire season, 75 of which will fill a 3/4 bushel basket. The fruit is very solid and deep through, measuring 3 1/2 inches across by almost 3 inches in depth. Color is bright scarlet and it ripens up to the stem, without cracks or green core. It is an excellent shipper. The climate in which we grow our tomato seeds, makes them earlier, freer from disease and blight, and more productive than seed you can procure from any other source. Try them for yourself. **Price, Pkts. 10c. Oz. 35c. 2 Ozs. 60c. 1/4 Lb. \$1.00. 1/2 Lb. \$1.75. Lb. \$3.50.**

Bolgiano's "Millionaire" Lettuce.

The Earliest Fine
Large Solid Head
Lettuce On Earth
Very Hardy
Produces Handsome
Crops Either Out Of
Doors Or Under
Glass.

Bolgiano's "Millionaire" Lettuce.

150. This valuable new Lettuce is an extremely profitable variety for both Market Gardeners and Shippers to grow; as well as a decidedly delicious variety for the Home Garden. If we could meet every one of our customers face to face we would persuade each one of them to give the "Millionaire" Lettuce a thorough trial the very first thing this Spring. We recommend it unreservedly as one of the best lettuces, and one of the most profitable that has ever been grown anywhere. It is a very quick growing hardy Lettuce and will stand much damp, cold weather. "Millionaire" Lettuce can be planted out of doors or under glass and in either case will produce fine round compact heads 6 to 7 inches in diameter, which weigh from 12 to 16 ounces, much sooner than any other variety. It is an excellent market variety, the heads are a clear light green, the outer leaves slightly tinged with brown and closely folded around the head making it all head, the inner leaves are a clear, bright, rich golden yellow. In quality "Millionaire" Lettuce is unequalled, it is crisp, tender and has a delicious rich, buttery flavor. **Pkt. 10c. Oz. 35c; 2 Oz. 60c. 1/4 Lb. \$1.00. Lb. \$3.50.**

Bolgiano's New 1909 "Bully Good" Lettuce.

193. "Bully Good" Lettuce is a wonderful success from the very start, if you don't want to be completely won over to this grand new lettuce you better not try it; for once you try it, you won't be satisfied with any other lettuce for your 2nd early or main Spring crop. No matter whether the market price is up or down there is always a market for "Bully Good" Lettuce. Those fine large solid heads—A full bushel market box is barely large enough to hold 18 of them—of a bright rich exquisite green; with a full solid rich golden yellow heart closely folded; crisp as ice; with a mild delicious flavor, do you wonder we have named this grand lettuce "Bully Good." The market Gardener with his pocket full of money, the Southern Grower with a big check from the Northern Cities and the Amateur Gardener with his neighbors beat to a standstill. Every one who grows, for Market, or eats "Bully Good" Lettuce will cheerfully admit it is worthy of its name. **Pkt. 10c. Oz. 35c. 2 Oz. 60c. 1/4 Lb. \$1.00. 1/2 Lb. \$1.75. Lb. \$3.50.**

Bolgiano's "Best of All" Lettuce.

131. This grand new Lettuce truly deserves the name "Best Of All" for it has certainly proven to be "Best Of All" Lettuces in our trial grounds during the last three years. It matures just after "Millionaire" when planted early, but can be planted at any time and will give an excellent crop. It is especially desirable for a Late Spring or Early Summer crop as it will not shoot to seed as early varieties often do. We have tried it in Spring, Summer, Fall and have even Wintered it outdoors here at Baltimore and have always under all conditions had the very finest kind of a crop. It is a sure header, good seller, excellent shipper, hardy and always reliable. Color is light attractive green, never spotted nor tinged with brown, quality is excellent; in flavor it is delicate, sweet and buttery. It makes large, compact,

Bolgiano's "Bully Good" Lettuce.

firm heads. The leaves over-lap each other forming a beautiful, well blanchd head making it extremely attractive as a market lettuce. We strongly recommend "Best Of All" Lettuce to everyone of our customers. **Pkt. 10c. Oz. 35c. 2 Ozs. 60c. 1/4 Lb. \$1.00. 1/2 Lb. \$1.75. Lb. \$3.50.**

"Big Winner" Wakefield Cabbage.

J. Bolgiano & Son, Baltimore, Md.

The Big Winner Wakefield Cabbage is the Cabbage that all Truckers should plant for EARLY LARGE SOLID CABBAGE. I raised 300 Bbls. on $\frac{1}{4}$ acre, many of them only 15 Cabbages to the Bbl. They weighed 11 lbs. each and retailed for 44c a head. Don't forget to send me your next catalogue.

Bolgiano's "Big Winner" Wakefield.

25. Several years ago we introduced the **Big Winner Wakefield Cabbage** and it has become very popular with Cabbage growers, both large and small. It is as large as the Big Charleston Wakefield Cabbage and as Early as the Early Jersey Wakefield. Handsome in appearance, massive and graceful. The heads are solid and heavy, making a perfect shipping Cabbage. It is fine form and in flavor deliciously sweet. Among the pointed heading Cabbage it is *by far* "The Big Winner Wakefield." Don't let this season go by without a liberal planting of this Profit-producing Excellent Cabbage. **Price, Pkt. 10c. Oz. 35c. 1/4 Lb. \$1.00. Lb. \$3.50.**

Bolgiano's Extra Early Express.

Suitable for Market Gardeners for Very Early Crops. 10 Days Earlier than the Wakefield.

27. What pleasure there is in growing a uniform, attractive, solid crop of Extra Early Cabbage! Bolgiano's Extra Early Express is the **best** Extremely Early Cabbage on Earth. Praises of its merits come from the most experienced growers. They remember a good thing when it pays them. Earliest, uniform, solid, fine color; brings top prices. No soft heads, 10 days earlier than the Wakefield. **Pkts. 10c. Oz. 20c. 2 Ozs. 35c. 1/4 Lb. 50c. Lb. \$1.50.**

Bolgiano's New Leader.

26. As early as the Wakefield, yields 12,000 heads, one-third more per acre than any other extra early Cabbage. The outer leaves are so few and so small that they can be planted very close. The heads are compact and solid from the time a head is formed and keeps so until thoroughly matured, thus enabling extremely early cutting of small hard heads, or later, when the Wakefield's come in of large thoroughly matured solid, round, flat heads. In quality, it is "The Leader," the veins of the leaves are extremely fine; its rapidity of maturing, compact-growth gives it a flavor unequalled. The demand for such a Cabbage in Northern Markets is becoming greater and greater each year. The people want an extremely early new slow-head Cabbage and "The Leader" supplies their wants. **Pkt. 10c. Oz. 35c. 1/4 Lb. \$1.00. Lb. \$3.50.**

**Bolgiano's BIG WINNER
WAKEFIELD CABBAGE.**

Bolgiano's "Square Deal" Cabbage. The Best on Earth.

154. **Without a single exception, Bolgiano's New "Square Deal" Cabbage** is the Biggest Money Making Cabbage ever offered the American trucker. This is a strong assertion, at least 100,000 people will read it, so you can readily see we could not afford to make such a statement unless we were sure of our ground. The "Square Deal" Cabbage matures immediately after our New Leader Cabbage. It is absolutely a "Square Deal," as we have seen ten-acre fields without a single irregular head. The uniform heads are of excellent size for shipping, larger than the New Leader, and yet not so large as to be unwieldy. The color is a fine fresh green and is retained during long shipments. The heads are solid and compact with very few outer leaves. For a fine, Solid, Tender, Uniform, Early Flat Cabbage, Bolgiano's "New Square Deal" Cabbage challenges the world. The demand for a fine Cabbage of this character, led us by the most rigid and careful selection, during the past five years, to mature this Cabbage, which we are confident will give all our friends and customers a "Square Deal" every time. **Price, Pkt. 10c. Oz. 35c. 1/4 Lb. \$1.00. 1/2 Lb. \$1.75c. Lb. \$3.50.**

Bolgiano's French Grown New Victory Celery.

THE VERY BEST WINTER CELERY.

81. An excellent winter Celery. We have grown this seed in America for several years and find by careful experiments it loses some of its solidity; while seed we have grown in France remains as solid as the finest stock of French Golden Self-Blanching Celery. As a result we have grown our entire supply for this season in France and we can recommend it to you as a most solid and most profitable winter celery. Our French grower, carefully selects by hand each individual plant in transplanting and only the absolutely solid plants are retained, the rest are thrown away. Again when he puts the full grown plants in Kilns for Winter, each individual plant is gone over and only the absolutely solid are put in the Kilns. Again in the Spring before putting the plants in the bed where the celery is to go to seed only the absolutely solid plants are used. We are sure our stock of French Grown "New Victory" Celery is one of the Best Winter Celeries on Earth. It has a great amount of heart, is heavier, stouter, and thicker than many of its rivals. It is the most economical Celery yet introduced, every particle being solid, crisp, and of a delicious flavor. Its beautiful, large, golden heart and compact growth make an ornament hard to surpass. It is a remarkable keeper, maintaining its firmness as late as May. Critical market gardeners pronounce it to be of the finest quality, best keeper and most salable Celery they have ever raised. It is ready for market by December. **Pkt. 10c. 1/2 Oz. 20c. Oz. 35c. 1/4 Lb. \$1.00. 1/2 Lb. \$2.00. Lb. \$3.50.**

Bolgiano's New French Grown "Sweet-Nut" Celery.

76. For home gardens and nearby markets, Bolgiano's New Celery "SWEETNUT" is the most delicious, sweet, nutty, crisp celery that has ever been offered to the public. "Sweetnut" Celery has been developed by one of our most careful French Growers for many years. The most rigid selection had to be made to get this strain thoroughly fixed but this season we are delighted to say after two years of exhaustive testing in our Test Gardens we can offer our friends and customers a Celery that is surpassingly delicious. It is absolutely solid, a most excellent winter keeper, of vigorous, sturdy growth, making fine large, solid stalks, with a large, full creamy-yellow heart. It is necessary to blanch it by earthing up or storing it for the winter. It blanches to a beautiful creamy-yellow, when the stalks are extremely brittle, entirely stringless and exceptionally crisp. On account of its great brittleness it should not be shipped long distances but of course for home use and nearby markets its brittleness is one of its most desirable features. We recommend this Celery to our customers who enjoy the most delicious things the garden affords. Our supply is yet very limited but we want everyone to give it a trial this year. **Pkt. 10c. BOLGIANO'S NEW CENTURY CAULIFLOWER. The Best Cauliflower in the World.

Bolgiano's New Giant Dry Weather Cauliflower.

105. This splendid new Cauliflower will succeed and make fine crops in the driest kind of weather when other varieties fail. It produces large, solid, pure white heads weighing from 3 to 8 pounds. The soil should be made quite rich and thoroughly cultivated. It will succeed in such dry weather states as Arizona. Be sure to give it a trial as you are never sure of the weather conditions through which your crop will have to go.

Bolgiano's Green Mountain Triple Parsley.

A TABLE ADORNER OF RARE BEAUTY.

221. Never before have we been able to offer to the public a gift of Nature equal to our beautiful Green Mountain Parsley. Always alert, always ready to appreciate any seed of exceptional merit, we soon saw that everybody would want our New Green Mountain Parsley when they heard of its wonderful beauty. Hardy, immensely productive, deep velvet green. The leaves are densely curled and are borne in abundance. It is exceptionally easy to grow, and with very little care everybody can have for the whole year round a bed of the finest flavored Parsley in cultivation. If you have but a few square feet, you can raise sufficient Parsley to supply your table with decoration and your soups with fine fresh flavor. If you grow for your market stall, you cannot afford to have poor Parsley when your neighbor has the beautiful Green Mountain Triple Parsley. If you are a shipper to Northern markets grow Green Mountain Parsley and you will make more money than you ever did. Pkts. 5c & 10c. Oz. 15c. 1/4 Lb. 30c. 1/2 Lb. 50c. Lb. \$1.00.

Black Beauty Egg Plant.

Bolgiano's Black Beauty Egg Plant.

Two Weeks Earlier Than Any Other Egg Plant.

100. Bolgiano's Black Beauty Egg Plant.

1. An entirely new variety and a splendid shipper.
2. A novelty of remarkable merit.
3. As large as the New York Spineless Egg Plant.
4. Two weeks earlier than the New York Spineless Egg Plant.
5. Fine flavor.
6. Most attractive appearance.
7. Plants branch freely near the ground.
8. Skin a rich, lustrous purplish black,
9. Satin gloss and rich coloring add greatly to the beauty of the fruit.
10. The intense, brilliant coloring is uniform over the whole fruit and does not fade or change to a lighter color at the blossom end.
11. The heavy leaves which attach the fruit to the stem are bright green, making a beautiful contrast with the fine dark color of the fruit.
12. Thoroughly free from spines or thorns.
13. Fruit sets freely.
14. Coming two weeks earlier than the New York Purple Egg Plant they readily bring double the price. **Pkts. 5c and 10c. 1/2 Oz. 20c. Oz. 30c. 2 Ozs. 55c. 1/4 Lb. \$1.00. 1/2 Lb. \$1.75. Lb. \$3.50.**

Bolgiano's Florida High Bush Egg Plant.

99. The Florida High Bush Egg Plant has proved of the greatest value to the Southern truckers and shippers. It has been grown in Florida for the past three or four years. It is remarkable for its vigorous growth and productiveness, is very hardy, and will stand more cold weather than the New York improved. The hot Sun does not blight the blossoms. The plant has a characteristic leaf, unlike any other Egg Plant we know of. It grows from 3 to 4 feet high, erect and sturdy, free from thorns. Fruit is large, oblong in shape and purple, though not so deep a color as the New York Improved. It resists drought and wet weather to a wonderful degree, partly on account of its strong upright growth. It stands the cold better, and is the only Egg Plant that stands shipping from this section to the Northern markets under almost all circumstances. It is of a large size, first-class shape and superior flavor. Its shipping qualities are the very best. It brings the highest price in the Northern markets, keeping its freshness and condition much longer than any other variety. The growers realize good returns from this variety when all other varieties have been reported "arrived in bad condition," and many would not plant any other variety. **Pkts. 5c and 10c. 1/2 Oz. 20c. Bolgiano's Beautiful Deep Blood Beautiful Beet.

The Best Beet That Grows.

For Eight Years This Splendid Beet Has Led All Others.

18. Our long experience in the growing of Beets has shown this new strain of Beet to be the Extra Early Deep-Blood Turnip Beet, not only for market gardeners, but home gardens. Its small upright growing tops, extra early maturing, splendid shape and deep crimson color make it popular with everyone. The rows may be grown close together. In the leaf the stem and veins are dark red, the blade green. The roots are globular and peculiarly smooth; color of skin and flesh is deep blood red, very crisp, tender, fine-grained and sweet, remaining so for a long time. We believe this excellent new stock will produce a crop more uniform in shape, color and quality than any Beet ever placed in the hands of the trucker. **Pkt. 5c. Lucullus New Swiss Chard Or Spinach Beet.

165. This delicious and useful vegetable should be in every garden and on every Market Stall, it is really two distinct vegetables, first the leafy part of the foliage is cooked and served the same as Spinach; while the stalks are cooked and served with drawn butter like tender fresh Asparagus. It grows about 2½ feet high, the stalks are thick and broad like Rhubarb, the leaves are much larger than those of the regular Swiss Chard, they are very heavily crumpled like Savoy Spinach, exceptionally crisp and tender, and of a most pleasing flavor. If you once try it you will never be without Lucullus Swiss Chard. **Oz. 10c. 1/4 Lb. 30c. Lb. 90c.**

Bolgiano's White Cob 65-Day Corn.

The Handsomest Early Corn That's Brought TO Market.

J. Bolgiano & Son, Baltimore, Md.

I was more than pleased with the seeds I got from you last Spring, the 65-Day Corn was fine. It was ready to eat at the 64th DAY and the Country Gentleman Corn was also fine. Your Corn is the best I ever planted. I can never praise your seeds too highly.

Jan. 21, 1907.

Yours very truly,

WILLARD F. WALKER, Frederick Co., Md.

1049. You will be thoroughly persuaded after one trial of this Extra Early Large Roasting Ear Corn that you cannot afford to let a single season pass without planting generously of this excellent Corn. White Cob 65-day Corn is the result of carefully selecting the earliest and largest ears of Gillespies' Early Neck Corn, and crossing these with the earliest and best varieties of Sugar Corn. The result is a corn of fine quality, of 12 to 14 rows and reliable no matter what weather it has to stand. Being large, extremely attractive, early, tender and sweet, it quickly sells at money making figures. It has also proved very profitable as a Fall crop, when planted in mid-summer. **Ear 5c. "Cream and Honey" Bolgiano's New Extremely Early Sugar Corn.

1182. The name of this new luxury among table delicacies immediately carries the mind back to the "Promised Land" flowing with "Milk and Honey." Our efforts to bring to you a rare treat have never been so abundantly rewarded as they are in our successful production of this surpassingly delicious flavored Sugar Corn. Its good qualities are so apparent that we cannot do justice to them with pen and ink—if you appreciate and enjoy the best things the garden grows, then start the season with a patch of "Cream and Honey" Sugar Corn. Plant it the same time you do Extra Early Adams Corn; although it is a pure and true Sugar Corn it is so wonderfully hardy it will stand the hard knocks of Early Spring. Rich, delicious, sweet flavor, beyond comparison with any other Sugar Corn, earliest of all the Extra Early Table Corns and of wonderfully fine quality. Grows 4 feet high; has ears 5 to 7 inches long and 2 to 3 ears to the stalk, can be planted quite close in the row. If we could see you face to face, you would have some "Cream and Honey" in your garden this Spring certain; for when we are as successful in producing a thing as good as this we are not satisfied until every one of our friends and customers have enjoyed it with us. **Pkt. 10c. 1/2 Pt. 15c. Snow White Evergreen

Nine Facts About the Best Sugar Corn in the World.

1066. 1. White as snow and 5 days earlier than Stowell's Evergreen. 2. Two or three beautifully shaped ears to a stalk. 3. Deliciously flavored and as sweet as sugar. 4. Very tender. 5. Each ear has 16 or more rows of long, slender purest white grains. 6. Being Snow White it is extremely attractive when served on the table. When put up in cans it retains its whiteness and does not have the yellowish tinge of the regular Stowells Evergreen. 7. Stalks straight and vigorous; 6 to 8 ft. high. 8. Ears are uniform, very large and completely filled to the tip. 9. Market gardeners, canners and all who know Sugar Corn will pronounce "Bolgiano's Snow White Evergreen" the finest Corn on Earth. **Price, Pkt. 5c & 10c. Pt. 15c. Qt. 25c. 4 qts. 60c. Pk. \$1.00. Bolgiano's New Klondike Carrot.

Produces Money Crops For Truckers and Market Gardeners.

8. We take pleasure in introducing this New Carrot to our friends and customers. We have been developing "Klondike" Carrot for a number of years, and have succeeded in producing a remarkably handsome uniform, tender, medium long Carrot of a most attractive and beautiful deep rich orange red color. It is remarkably smooth and shapely, bred as carefully as a race horse; very tender, without core and of a delicate flavor. It is a model in shape and size; grows 6 to 7 inches long by 1½ inches in diameter, the healthy tops are small and the Carrot tapers gracefully to a single small tap root. No stock has ever been selected with greater care or received more expert attention than has this magnificent New Carrot "The Klondike." We believe you expect us to develop and produce for you the finest stock of seeds in the world, and it was with this idea constantly before us that we attempted and so wonderfully succeeded in producing this; the truest, purest, most attractive, most salable market Carrot that has ever been offered the Critical Market Garden Trade. Our supply of seed this year is very limited so please order early. **Pkt. 10c. Oz. 35c. 4 Ozs. \$1.25. Lb. \$4.00.**

Bolgiano's "King" Carrot.

91. We name this excellent new Long Orange Carrot "**KING**" Carrot because it is **BEST OF ALL** long Carrots. In Germany it has a wonderful reputation among truckers and market gardeners, and only by paying a very high price were we able to secure any for our customers. The flesh is deep in color, tender and delicate in flavor. It is so much better than the regular Long Orange Carrot that we are sure when "King" Carrot becomes thoroughly known it will drive Long Orange Carrot out entirely. Being an entirely new stock, the seed has been saved with the greatest care and the Carrots are uniform in shape, of fine texture, and almost entirely free from core usually found in Carrots. It produces the most attractive specimens in deep soils. **Pkts. 10c. Oz. 15c. 1/4 Lb. 30c. 1/2 Lb. 50c. Lb. \$1.00.**

Bolgiano's Carrot Pride of the Market.

This Beautiful, shapely half-long Carrot will come almost as early as the Ox-Heart. It is the most popular Carrot that grows.

64. It is the most perfect, finest colored, most tender and best flavored Carrot that was ever placed in your hands. Pride of the Market because it is the best. You must have the best of everything. In Carrots, to get the best we select roots that resemble our ideal, and from them grow seed for you. The Pride of the Market is half long, deep color, free from small side roots, small, tender core, uniform and graceful. As an early Carrot, it is all your heart could wish. In mid-summer, we have seen it outsell every other variety on account of its superior merits and quality; for Winter there is none like it. Its attractive tops remain a rich green, thus giving it a fresh and beautiful appearance, and enabling you to bunch it when your neighbor is compelled to sell his by the measure. This Carrot will make your stall attractive during Winter, when vegetables are scarce and uninviting. At all times of the year, and in every way you take it, the Pride of the Market Carrot will pay and will be your friend. **Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 25c. 1/2 Lb. 40c. Lb. 75c.**

Chinese Giant Pepper.

226. Double the size of Ruby King Pepper and equally as mild. By careful and numerous experiments we have found this enormous mild red Pepper to be a money maker of great value to the trucker. The monstrous fruits are of a thick, blocky form and of the most brilliant glossy scarlet. They grow four to five inches broad at the top, and about four to five inches in length and are divided into four or more large ridges and when ripe, they are indented at the bottom end. It is early, productive, and quickly sells on account of its enormous size. The plants are vigorous, stocky, and grow about two feet in height. They are well branched and thickly set with the largest Peppers, frequently half a dozen fruits will touch each other as if in a single bunch; the strong growth of the plants and abundant foliage enable them to mature the large number of fruits almost as early as the Famous Ruby King. COLD MOUNTAIN SPRING WATERMELON

J. Bolgiano & Son,
Baltimore, Md.

Gentlemen:—Will you be so kind as to enter my order for 50 lbs. of Selected Cold Mountain Spring Watermelon Seed. No other variety will be planted here another year, and your firm will be called upon for about 250 lbs. of seed of this variety at Clermont, and the neighboring points will likely order the same amount. This is by far the best Melon we ever planted; so be sure and keep the seed pure and up to the standard.

S. B. Brantly,
Lake Co., Fla.

171. Bolgiano's Cold Mountain Spring Watermelon. New Variety.—Last summer we were spending our vacation in the Mountains; during our absence, one of the leading Watermelon growers, living about 100 miles from beyond anything he had ever hoped to produce. Were we interested? He shipped us several samples, these came on boat to Baltimore 100 miles, then on railroad through the mountains for 250 miles. Reaching us in perfect condition after traveling 350 miles, through rough country and roughly handled. These melons attracted the attention of everyone by their beautiful deep green color, stately size and excellent shape. We had them on exhibition, then took them with us back into the mountains. We put the Melons in a Cold Mountain Spring, and in a few hours we cut them. The Melons were in a perfect condition, "Red to the Rind," and entirely free from stringiness. We immediately inspected the crop. The Cold Mountain Spring Watermelon is a winner as a shipper, as a table Melon and as a Money Maker. Our supply of seed is necessarily limited and only the seed produced by the originator, so order immediately. Pkt. 10c. Oz. 15c. 1/4 Lb. 35c. 1/2 Lb. 60c. Lb. \$1.00.

The Beautiful New Radish

9. We challenge the World on this Wonderful and Useful Distinct new stock of Radish—its beauty and attractiveness are almost beyond description. Results are now produced by hybridizers who patiently watch, wait and work hand in hand with Nature that seem almost miraculous. Natures wonderful artists have painted the tops of each one of these delicious crisp, tender, round little Radishes a brilliant carmine red and the bottom a beautiful Snowy White. The contrast is startling and yet delightfully pleasing. If you have ever hoped for an ideal stock of extremely Early Brilliant Scarlet Globe Radish with a beautiful White Tip you will find the "Tip Top" White Tip Radish in beauty goes far beyond your greatest expectations. "Tip Top" White Tip Radish.

Bolgiano's New Strawberry Radish.

258. A delicious, crisp, brilliant red radish. The very earliest, often ready for market less than three weeks. It is a perfect globe shape and so uniform that all the radishes look like they have been made in the same mold. If you have a home garden nothing will please you more, or give you quicker returns for your efforts than this beautiful Radish. If you grow for market no matter how many of these attractive Strawberry Radishes you bring to market, you can always sell every bunch of them, at prices that will both please and pay you. As a frame Radish it is the best of all because it grows short tops, its brilliant red color attracts and draws the customers, who pay high prices for the earliest vegetables. **Pkt. 5c. Bolgiano's Famous Ruby King Radish.

230. **Bolgiano's Extremely Early Ruby King Radish.**—KING OF ALL, Extra Early Scarlet Radishes would be an appropriate name for this most excellent Radish. We claim without fear of challenge. Bolgiano's Extremely Early Ruby King Radish is (without a single exception) by far the MOST BEAUTIFUL, Extremely Early Scarlet button Radish that has ever been brought to any market. The color is a bright, glossy, shining scarlet and when the dust or soil is washed from it, it fairly glows in its brilliant color. No Radish on earth will mature as quickly as the Ruby King, and have such small foliage. It will stand forcing without becoming in the least pethy. The flesh is delicious tender, juicy and mild. Equally good for open ground culture as for forcing. It is at its very best when permitted to grow quickly. We have offered this Money Making Radish for 6 years and each year our sales so marvelously increase we feel satisfied that the wide-awake Market Gardeners are leading the very earliest markets all over the country with Ruby King Radish. We again place Bolgiano's Extremely Early Ruby King Radish at the head of all Radishes. **Pkt. 5c. Oz. 10c. 2Ozs. 15c. 1/4 Lb. 20c. 1/2 Lb. 30c. Lb. 60c.**

Extra Early Long White Pearl Forcing Radish.

249. In our trial grounds, this most attractive, appetizing, cool crisp Radish, matured in the remarkable short time of 13 days. Its size and form it is a duplicate of our famous Glass Radish, but having a clear, pure white waxy appearance from top to bottom; is perfectly sound and will remain so longer than any other White Radish. The Early White Vienna, or Lady Finger Radish, does not compare with it. Any trucker once planting this Radish, will undoubtedly use it to the exclusion of all other early white varieties. **Pkt. 5c. Bolgiano's New Short White Chinese Celestial Radish.

The Most Popular Winter Radish On Earth.

256. **New Short White Chinese Celestial Radish.**—In 1897 we placed this very attractive Winter Radish in the hands of our largest truckers, and since then we have never had seed enough to supply the demand. *It is solid and juicy as an apple; pure white flesh and delicious flavor*—a very choice variety. We never sent out a Winter Radish that gained so much popularity in so short a time. Sown any time after July 1st to the middle of August, it will keep all Winter in prime condition; mild in flavor, brittle, never gets woody as do most Winter varieties. Market gardeners have found it to be a splendid seller and have always made money on it. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.**

 2. **Snowy White Potato** about the size and shape of the Houlton Early Rose.
 3. Yields from 250 to 350 bushels per acre of most attractive, marketable Potatoes.
 4. Always brings 50c more per barrel than the ancient stock of any other variety on the market.
 5. The quality is delicious, the entire supply is quickly taken up by the most critical hotel trade in New York and Boston.
 6. Young, full, pure blooded stock; not susceptible to disease.
 7. Seed grown in the most careful manner.
 8. If you are a Potato grower and you once saw the **Plucky Baltimore Potato**, you could not help but buy it. Its attractive shape, pure white color and in fact its general appearance speaks for itself, far better than we can write about it.
 9. We have the entire supply of this **Grand New Potato**, and that's not many barrels, so order right now, or our supply will be exhausted.
 10. We can recommend the **Plucky Baltimore** as the best Potato that has ever been sold the truckers. Extremely attractive, extraordinarily early, enormously productive, excellent quality, Pure White and a Big Money Maker.

I have found your "Plucky Baltimore" Potato to be a splendid Money Maker. I have used it for three years and again want 10 Barrels for my next crop. My customers don't want anything but the "Plucky Baltimore."

JOHN DEIHL,

Grange, Md.

Your "Plucky Baltimore" Potatoes ought to be named "Plucky Baltimore Ball of Flour." I am well pleased with it.

THOMAS WARD, Lackawanna Co., Pa.

The "Plucky Baltimore" Potatoes are the best Potatoes that were ever dug out of the ground. In earliness, size, color, and yield, they are perfect. When cooked, they are like a lump of flour.

MICHAEL DAUBER,

Gardener of the Md. Hospital for the Insane, Md.

Your "Plucky Baltimore" Potatoes are the earliest I have ever grown, it is a good yielder, of excellent quality, as well as a good keeper. I will grow no other variety.

CHAS. S. LEASON,

St. Mary's Co., Md.

J. Bolgiano & Son, Baltimore, Md.

I have given your "Gray's Mortgage Lifter" Potatoes a good trial and have found them to be one of the best yielding and selling Potatoes I have ever grown.

A. B. PREVATT, Volusia Co., Fla.

Gray's "Mortgage Lifter" Potato.

Mr. Gray grew another bumper crop of Gray's "Mortgage Lifter" Potatoes this year; he says they were so large they reminded him of young pigs and they were certainly splendid sellers at high prices.

We wish every one of our customers who grows Potatoes could talk with the Growers who have grown a crop of this Grand New Potato. It certainly is something to marvel at, and yet if all our customers realized its great value our limited supply would not be a drop in the bucket. It is an early variety maturing a little later than the Crown Jewel, it is pure white, large handsome size, distinctive in shape being long, well filled and tapering at both ends. Eyes are strong and well set, not too deeply however.

It certainly is a beauty and one grower says they grow so large it don't take many to fill a barrel, no culls, and by the car load they brought over \$20 a car more than the best Potato on the market. Mr. Prevatt, of Seville, Fla., after giving this Grand Potato a thorough trial orders eight barrels in the place of the one he planted last year. Mrs. Wm. G. Harvey, of Roslyn, Md., calls it The "Farmers Favorite" among other names it was called are "Maryland Beauty," "Money-Maker," "Virginia Wonder," The "Excelsior," "Gold Standard," "Silver King," etc. We finally selected Gray's "Mortgage Lifter" as suggested by Mr. Jas. T. Gray, of Grange, Md., because Mr. Gray actually paid off a good size mortgage on his farm with the proceeds from the Wonderful Crop of this Grand New Potato which he grew this year and we hope that the mission of Gray's "Mortgage Lifter" Potato will not be ended until it has helped to clear many more farms of their mortgages. **Price: Lb. 40c. 3 Lbs. \$1.00 by mail postpaid. Prosperity Potatoes.

The Best Second Early and Main Crop Potato on Earth.

This Magnificent Potato has become the most popular middle crop potato of the newer varieties, and certainly one of the most worthy. Yields great crops of even, fine, smooth, large Potatoes, even under the most unfavorable circumstances, and can be relied upon to bring in good money. It is undoubtedly the handsomest large potato ever produced, and will outyield any other Potato, and practically every Potato is of Marketable size. It is always ahead of all others in yield and smoothness, and is of excellent quality. Every farmer will, after giving this most wonderful Potato a trial, discard every other kind and plant nothing but Bolgiano's Famous Prosperity Potato for his main crop. It grows a very strong, upright top, with dark colored stalks and purple blossoms, and is very little affected by drought, blight or bugs. The flesh is as white as snow, and cooks dry and mealy. The eyes are even with the surface, the skin white, with rich yellowish-creamy cast, and considerably ruffled or netted. This Potato will astonish old Potato-Growers in its abundant yields and fine qualities, and every person who is ambitious to make the most money out of his crop cannot afford to let this year pass without obtaining seed of our crop of New Prosperity Potato. **Lb. 25c. 3 lbs. 75c. by mail postpaid. Pk. 60c. Bus. \$1.75. Bbl. \$4.00.**

J. Bolgiano & Son, Baltimore, Md.

Have just finished shipping my crop of Prosperity Potatoes. They beat anything I have ever seen for turning out fine large smooth potatoes. Planted 5 bbls. of the "Prosperity" and shipped 100, making an average of 20 to 1. Shall want more of them another year.

Yours very truly, W.L. NULL, Volusia Co., Fla.

March 10th, 1908.

J. Bolgiano & Son, Baltimore, Md.

Bolgiano's Famous Prosperity Potato I think is the best potato I ever grew; its cooking qualities cannot be beat. It is the best yielder, and does better on poor ground than any other variety I ever grew; it does better year after year than any other variety, wet or dry season, and you are sure to make a crop if you plant Bolgiano's Famous Prosperity Potatoes. The big stalky vines are a good thing in wet weather, to hold the weeds down, after they are layed by, and are a good thing in dry weather to hold the moisture in the ground.

Bolgiano's Mammoth Prizetaker Onion.

Mammoth Prize-Taker Onion.

Gentlemen.—The basket of Bolgiano's Mammoth Prizetaker Onions which I sent to you, is from the field which we grew from seed this season. It produced 800 bushels of these fine Onions to the acre. We planted them in rows 12 ins. apart and the onions three in. from each other in the row; we worked it entirely by hand, using no horse cultivator during the season. We placed 40 loads of horse manure and one ton of fertilizer to the acre. Bolgiano's Seeds certainly are the best seeds that can be secured by the most Critical Market Gardeners and shippers.

Your appreciative customers,
Hancock Bros., Solley, Anne Arundel Co., Md.

Its Mildness of Flavor and Tenderness are unequalled Even By the Bermuda Varieties. In Size, it is not Excelled by the Enormous Varieties From Spain.

205. Eight hundred to one thousand bushels to the acre, and a single specimen weighing as much as 6 lbs. 2 ozs., are some of the things this handsome Globe Onion will produce. It has a bright, clear, straw color, and grows a perfect globe shape. Is by far the handsomest, most productive, most profitable, and best of all Yellow Globe Onions. Large Onions can always be raised in a single season directly from seed. It has always brought much better prices than any other Onion; in market it never fails to attract attention on account of its beauty; on the city fruit stalls it has completely taken the place of the large Spanish Onions. The Prizetaker onion is gifted with strong drought-resisting ability, and we consider this one of its strong merits. People who wish to make money should plant the Prizetaker Onion; It is admitted by the most critical Onion growers to be the largest, finest flavored, and most superior Yellow Globe Onion under cultivation. **Pkt. 10c. Bolgiano's Hollow Hub Parsnip.

219. As we predicted several years ago, when we first introduced the Hollow Hub Parsnip, it has taken the leading place among Parsnips. Its merits alone have brought it so prominently to the front. No Parsnip seed ever offered is grown as carefully as Hollow Hub. Each individual root is **carefully selected by hand and critically examined**; if it does not come up to the highest standard it is discarded. "Hollow Hub" Parsnip is hollow crowned to a remarkable degree, it has firm tender flesh, a delicious delicate flavor, almost entirely without core. In growth it is small and uniform. In fact Hollow Hub Parsnip is as perfect as it is possible to produce by the most careful selection and breeding. Grow the best, it costs but little more, and it pays so much better. **Price: Pkt. 5c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 25c. 1/2 Lb. 40c. Lb. 75c.**

"Best of All" Kohl Rabi.

152. This exceptionally valuable New Kohl Rabi will please every one who tries it. As a matter of fact it has already won many friends. It combines the quality of the finest varieties known. It is round like an apple with fine smooth skin. The leaves which are very few, stand erect enabling the grower to plant closer and helps him in bunching. The flesh is unsurpassed in tenderness, purity and delicious flavor. "Best of All" Kohl Rabi will not run to seed in frosty weather and remains unchanged in delicacy of flavor. It is equally valuable for forcing for open ground culture. **Pkt. 10c. Oz. 35c. 2 Ozs. 60c. 1/4 Lb. \$1.00. Lb. \$3.50.**

9 O HAVE beautiful flowers growing and blooming both in winter and summer is one of the dearest desires of the model housekeeper. "But," you say, "they are so hard to raise." That is because they do not receive water regularly, or because they receive too much at once or not enough, or because the water poured on them, when evaporated leaves the earth baked hard and literally smothers the life out of the roots. Many housekeepers have an idea that gas lights in the house are detrimental to the growth of flowers. This idea is entirely erroneous as nearly all florists light their places with gas. We have the word of some of the most prominent florists that gas has no effect on flowers unless it escapes in large quantities and that the mere burning of gas lamps in the room where flowers are growing has no injurious effects on them whatever.

You can overcome all these obstacles and have flowers in your window or on your porch that are the envy of every one who sees them. The water is poured into the bottom of the box through a tube extending upward through the soil, thus avoiding the annoyance of the water running over and down on the window or porch below. The sponges, shown in cut through holes in false bottom, convey just enough water to the soil above to give the plants a thrifty and healthy growth. They will not take more than they need. The water compartment holds sufficient to supply the soil for from 15 to 30 days.

Think of it—You can leave home for a visit of two weeks and know that your favorite plants will not suffer for water during your absence. **Material.**—We make all of our boxes of the very best quality of Heavy Galvanized Iron which does not rust; we solder every box carefully and thoroughly inspect each one before it leaves the factory. We positively guarantee they will not leak. Wooden Boxes soon rot and leak badly and are not in any way one-half so satisfactory as are the "Illinois" Boxes although they cost nearly if not quite as much. Then too you must pour the water on top the soil which soon hardens it.

With our method and in the "Illinois" Box the water is taken up from below and the surface never becomes hardened or baked. Our Porch and Window Boxes are made of Extra Heavy Galvanized Iron and have strong brass eyelets on each side making it possible to suspend them from the ceiling of the porch clear of the railing.

This has been found to be the most satisfactory way of installing them. **Hanging Baskets.**—These are made of the same quality of Galvanized Iron as the Window Boxes and have our patented self watering feature in connection. This will be found of great convenience as water is required only about once in every ten days or two weeks. They are furnished when desired in beautiful enamel which is very hard and durable. These baskets are also very ornamental when placed on a pedestal.

Jardiniere Pan.—This is a pan having our self watering feature which is to be placed in the bottom of a Jardiniere with the soil thrown in on top of it. The water is supplied through an adjustable tube which extends to the top of the dirt. Lovers of Ferns, Palms, &c., will find this the most satisfactory investment ever made as the plants require attention only about every 15 days.

Easy to Put Up.—They are easily and quickly attached to any window without tools of any kind. Two screw eyes inserted in wood sill back of box holds it securely in position. The porch boxes are provided with strong brass eyelets by which they can be hung from ceiling of porch. Now is the time to start flowers for next summer.

Order a sample of either the porch or window box and as soon as you see it you will quickly want more of them. Show it to your neighbors and within a few weeks your entire neighborhood will be blooming with flowers grown in the "Illinois Self-Watering Flower Boxes."

PLANT-BLOOD

TRADE-MARK.
REG. U. S. PATENT OFFICE

Clean
Safe
Odorless
Effective

"Plant-Blood" Is Clean.—No Animal Refuse, Decayed Animal Matter or By-Products of the Abattoir are used in "Plant-Blood."

"Plant-Blood" is composed of clean, pure stimulants entirely free from the objectionable features that make so-called "commercial fertilizers" so offensive to handle.

"Plant-Blood" Is Odorless.—This desirable quality will be appreciated by every householder to whom the ill-smelling article of commerce is decidedly obnoxious.

"Plant-Blood" Is Safe.—There are some plant stimulants that force the plant at the expense of its permanent health, and there are others that literally burn the plant up if even a trifle too much is used.

No Such Danger can occur with the use of "Plant-Blood," which furnishes just the right amount of nourishment to the sensitive rootlets each time the plants are watered.

"Plant-Blood" is the only plant food that possesses this extremely valuable quality.

"Plant-Blood" can be used on the most delicate plants without injury.

"Plant-Blood" Is Easily Applied.—Its application is simple, but no injury attends the plants if directions are not strictly followed. The self-regulating feature of "Plant-Blood" by which it gives up its tonic and vitalizing properties in the precise amount required each time the plant is watered is unique with "Plant-Blood."

"Plant-Blood" Is Economical.—For the reason that "Plant-Blood" is a store-house of energy that imparts its life-giving principles to the plant in accordance with its needs. "Plant-Blood" is not safe but is highly Economical. In fact 1 lb. of "Plant-Blood" goes as far as 4 lbs. of ordinary plant food.

These novel features of "Plant-Blood" are heavily protected by patents, both issued and pending.

"Plant-Blood" Is The Ideal Food And Tonic.—"Plant-Blood" is a Food that makes strong, healthy plants with an abundance of blossoms and foliage. Plants fed on it exhibit an unusual resistance to the attacks of insects and fungi. But it is more than a mere plant food.

"Plant-Blood" is a tonic which vitalizes by enriching the life giving sap as Iron does the human blood.

Gentlemen:—My
Lawn, Seeded this
Spring with your
Druid Hill Park
Velvet Green Lawn
Grass Seed is the
prettiest I have ever
seen, my neighbors
say it looks like it
has been seeded 5
years. I cheerfully
recommend your
seeds to all my
friends.

Gentlemen:—
There is no Lawn
Grass like Bol-
giano's Druid Hill
Park Velvet Green
Lawn Grass, and
my neighbors
'round about here
agree with me. I
run short of lawn
seed last year, and
sent to Boston for
some, but it was
nothing like as fine
as Bolgiano's; in
fact, I am going to
some of yours in
place of that next
year.
Yours very Res-
pectfully,
Mrs. C. Green,

Druid Hill Park Velvet Green Lawn Grass Seed.

It is Better Than Any Other Lawn Grass Seed in the World.

It is Used By the Leading Landscape Gardeners in the United States.

Celebrated from Florida to Maine for its quick growth, deep velvet green color and wonderful endurance, through hot, dry spells. Having made the selection for fine lawn grasses our pride for many years, we are able to offer lawn seed superior in every respect and acknowledged by all who have used it to be the best.

This choice mixture is the best for making beautiful and permanent lawns. It is composed of grasses which are especially adapted for the purpose of producing lawns which retain their rich color and soft, velvet green appearance throughout the entire spring, summer and fall. It is valuable for the formation of lawns in places exposed to the sun, also to partially shaded places where it is difficult to produce good sod. See that the shaded places and bare spots are thoroughly worked and enriched with sheep manure before sowing seed. In making up this mixture we are extremely careful to use only the very best quality seed, which has been re-cleaned, the light seed and chaff having been blown out, thus securing the highest grade mixture it is possible to obtain, and seed that will quickly grow. One pound will sow 20 x 20 feet. 10 pounds will sow 50 x 150 feet. 60 pounds will sow an acre. 30 pounds measures 1 bushel. **1/4 Lb. 5c. 1/2 Lb. 10c. J. Bolgiano & Son, Baltimore, Md.

The Druid Hill Park Velvet Green Lawn Grass Seed which I got of you last Spring did splendid.

Yours very truly,

W. H. BELL, Rockingham, Co., Va.

J. Bolgiano & Son, Baltimore, Md.

I have found your Lawn Grass Seed to be the purest, cleanest and best in the market. It withstands severe droughts and retains its verdure throughout the entire season. I have used it for thirty-five years, and our large and beautiful lawns here at "Ingleside" have always been greatly admired.
HENRY FAUTH, Catonsville, Md.

Shady Nook Lawn Grass Mixture.

A popular mixture of grasses best adapted for sowing in shady places where ordinary grasses will not thrive. In nearly all lawns where there are trees, there will be found bare spots which can be made green and bright by using this mixture, if the shaded places and bare spots are thoroughly worked and enriched before sowing seed. **1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.00. Add 8c per Lb., if to go by mail.**

Cloverless Lawn Grass Mixture.

This excellent mixture contains all the valuable grasses composing our Druid Hill Park Velvet Green Lawn Grass Seed, but it contains absolutely no White Clover Seed. **1/4 Lb. 5c. 1/2 Lb. 10c. Lb. 20c. 5 Lb. 90c.**

White Dutch Clover.

This is the best Clover for lawns, as it forms a close herbage and remains green throughout the season. Is also a valuable mixture with grass seed for pasture. Sown in the spring at the rate of six pounds per acre when sown alone; one-half the quantity when sown with other grass. **1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lb. \$1.00.**

Permanent Pastures.

We prepare ten special grass and clover seed mixtures for hay and permanent pasture, suitable to every variety of soil. For full particulars see page fifty-three.

"Wizard Brand" Pure Pulverized Sheep Manure.

This is without exception the very best dressing for lawns. The effect is immediate and lasting. It is the only manure that is absolutely free from weed seeds. It contains no dirt, straw, leaves or bedding of any kind, being secured from the cemented floors of the Chicago stock-yards. It is three times stronger than cow manure. Contains nitrogen, phosphoric acid, ammonia and potash in liberal proportions. It is also unequalled as a fertilizer for the vegetable garden, flower garden, house plants, trees and hot houses, etc. It is also dissolved in water and used as a liquid to nourish all kinds of growing plants. Be sure to give it a trial. **2 Lbs. 15c. 5 Lbs. 25c. 10 Lbs. 40c. 25 Lb. 75c. 50 Lbs. \$1.25. 100 Lbs. \$2.00. 200 Lbs. \$3.50. 2000 Lbs., (in 100 Lb. bags,) ton, \$30.00. Full large barrel, \$4.00.**

Bolgiano's Bone Lawn Fertilizer.

Stable manure should never be used as the top-dressing on lawns, for it always contains large quantities of weeds. We have therefore had prepared for us a special lawn fertilizer which is clean and high grade in every respect, and free from disagreeable odors. It produces a rapid and rich green growth of grass, and should be sown broadcast in the spring or fall. 10 pounds for 300 square feet; 50 to 1,500 pounds per acre. **Pkt. 10c. by mail, 20c. 5 Lbs. 25c. 10 Lbs. 45c. 25 Lbs. \$1.00. 50 Lbs. \$1.50. 100 Lbs. \$2.50. 200 Lbs. \$4.50. 500 Lbs. \$11.00.**

The Roland Park Special 18-inch Lawn Mower I bought of you this year is far superior to any Lawn Mower ever seen. It can't be beat. It runs and cuts so easily a child can use it. E. J. Starr, Cockeysville, Md.

Bolgianos's "Square-Deal" Poultry Foods

**Bolgianos's
"Square-Deal"**

Are being used exclusively by many of the largest and most successful Poultry and Squab Raisers throughout the Country. Accept no substitute.

Chick-Starter

**A Primary Food
for Baby Chicks
up to 3 Weeks Old.**

This is a primary food for Baby Chicks, and contains only the best selected re-cleaned, sound, sweet cracked grains and seeds, in proper proportions essential for quick and healthy growth.

10 lbs. 35c. 25 lbs. 75c. 50 lbs. 1.25. 100 lbs. @ 2.25.

How to Feed Baby Chicks

They should be fed nothing until they are 24 hours old. Keep them good and warm is all that is necessary. Baby Chicks are hungry all the time, and have to be fed every few hours. Scatter about a pint of the Chick Starter on the floor among an inch or two of Bolgianos's Square-Deal Alfalfa Meal, for 50 Chicks. Only feed as much at a time as they will eat up clean and do not over-feed. Keep clean fresh water before them all the time. After they are three weeks old then feed with Bolgianos's Square-Deal Chick Food.

Bolgianos's "Square Deal" Chick, Poultry and Pigeon Foods are the Purest, Cleanest, Most Healthful, Most Nutritious Foods on the Market. We Manufacture Them Ourselves in our Immense New Poultry Food Plant and use only Carefully Selected, Re-cleaned, Sound, Sweet Grains and Seed. One trial will Prove to you the great value of These Foods.

Bolgianos's "Square-Deal" Poultry Food.

This is a combination of carefully selected, re-cleaned, sound, sweet grains and seeds, the food that keeps the fowls vigorous and healthy, and produces eggs. **10 lbs. 25c. 25 lbs. 60c. 50 lbs. 1.00. 100 lbs. @ 1.85.**

DIRECTIONS FOR FEEDING.

Feed in the pen with about one inch of Bolgianos's "Square-Deal" Alfalfa Meal, scattering a quart of Poultry Food for every dozen hens, in thin, so that the hens will have to work for it. This will keep their blood in circulation, and egg production will follow.

Asparagus Roots.

No effort put forth in the garden will bring more pleasure and satisfaction than an established Asparagus bed, if this is thoroughly prepared according to the following directions. A bed 20 by 50 feet, set with 1000 two-year-old roots, will last for years and furnish an abundance.

DIRECTIONS.—Select a good sandy loam, plow the ground as deep as possible, dig out 12 inches deep, put in a layer of 4 inches of good, strong stable manure, and press down; then fill in with good, rich, black loam to the top of the bed. Sow on top of bed 100 pounds kainit to 1000 square feet of bed; incorporate this thoroughly to depth of 3 inches. After leveling bed off even, stretch a line the length of bed 9 inches from the edge, and with a spade cut a furrow 8 inches deep, set a row of plants along the trench 9 inches apart, with the crowns of the roots 2 inches below the surface; then cover up make even and plant other rows 9 inches apart.

Green Podded Bush Beans.

—We supply Packets of all Beans at 5c and 10c each, Postpaid. Add 8c per pint, 15c per quart extra by mail. One quart to 100 Feet of Drill. Two Bushels to the Acre.

To afford a regular succession of crops, plant every two weeks, from the middle of Spring to the end of Summer but not until the soil becomes warm, as they are very sensitive to both heat and cold. Plant in rows 18 inches apart, 2 inches deep; cultivate frequently, but only when dry, as the scattering of earth on the foliage or pods when moist, will cause them to become damaged with rust. This crop will flourish between the ridges of celery, rows of corn or cabbage, when they are first planted, as the Beans would be ready for the table before the other crops attain any size.

Bolgiano's New Flat Wax Bean

One of the most valuable and important Bean introductions in many years. It is unequalled as a great beautiful crop producer and money maker (Specialty, see Page 11). Pkt. 10c. Pt. 20c. Qt. 30c. 4 Qts. 85c. Pk. \$1.50. Bus. \$5.00.

1031. **New Pearl Wax Beans.**—A distinct enormously prolific and a prodigious growing Bush Wax Bean. Every grower should try it. It will soon become a very popular and lucrative variety to grow. Will not rust in the wettest kind of weather. (Specialty, see Page 11). Pkt. 10c. Pt. 20c. Qt. 30c. 4 Qts. 85c. Pk. \$1.50. Bus. \$5.00.

1022. **New Davis Kidney Wax.**—The King of Flat Wax Beans. Surely time, energy and brains have culminated in this, one of the grandest Flat Wax Beans. A beautiful form, handsome long pods, attractive color, luscious flavor, prolific yield, rust proof, excellent shipper, make this grand Bean the perfect success that it is. It is demanded by market gardeners, truckers and shippers everywhere. It is a universal favorite. Pkt. 5c and 10c. Pt. 15c. Qt. 25c. Gal. 65c. Pk. \$1.10. Bu. \$4.00.

1021. **Round Podded Kidney Wax Beans.**—This handsome wax-podded Bean is an improved Wardell's Kidney Wax, besides having that popular variety's luxuriant growth, it is entirely stringless. The pods are long, straight and extremely handsome. It is an exceedingly heavy bearer, and is fully as early in maturing as the Wardell's Kidney Wax, and is of excellent quality. Pkt. 10c. Pt. 15c. Qt. 25c. 4 Qts. 75c. Pk. \$1.35. Bus. \$5.00.

1079. **New Hodson Wax Beans.**—A very sturdy grower, prolific; free from rust and blight. Vigorous plants are loaded with long, handsome straight pods, averaging 7 inches in length; color of a clean light yellow. When picked young they are stringless. Pkt. 10c. Pt. 15c. Qt. 25c. 4 Qts. 60c. Pk. \$1.10. Bus. \$4.00.

1018. **Sunshine Wax Beans.**—The beautiful, clear, bright golden color of this most delicious Wax Bean gave it the name of Sunshine Wax. The vines are so heavily laden with an abundance of long, round shapely pods, it seems hardly possible that they can hold them all. You think of the Sunshine again when you are marketing a large crop of fine Beans a week or two before your neighbors have begun to pick. Now is your chance; order quick. Our supply is very limited this season. Pkt. 10c. Pt. 20c. Qt. 35c. 4 Qts. \$1.10. Pk. \$2.00. Bus. \$8.00.

1024. **New California Rust-Proof Dwarf Wax.**—One of the handsomest and most productive flat podded Wax Bean ever grown. The pods are longer, broader and of a brighter yellow color than many other sorts, very superior quality, tender and stringless. The vines are of vigorous growth, leaves dark green, hardy and yield enormous quantities of large, handsome, flat meaty pods, borne well up from the ground and has not shown any disposition to rust, no matter where grown. It is from eight to ten days earlier than the Valentine. The seeds should not be planted closer than 4 inches apart in the row. We particularly recommend this valuable sort to market gardeners. Pkts. 10c. Pint 10c. Qt. 20c. 4 Qts. 50c. Pk. 90c. Bus. \$3.50.

1197. **Prolific Dwarf Black Wax.**—A vigorous grower with ample foliage sheltering the creamy-yellow pods. Early, productive, and of fine quality. Pt. 15c. Qt. 25c. 4 Qts. 65c. Pk. \$1.10. Bu. \$4.00.

1031. Bolgiano's New Pearl Wax Beans

1019. **Currie's Rust-Proof Wax Beans.**—Is the earliest to mature of either the Green or Wax Beans. It is ready for market in 25 days from date of planting. Its beautiful, pure golden, long flat pods of extra fine quality are borne in abundance and attract the admiration of both the planter and consumer. It being the first bean in market, always commands most profitable prices. It is entirely free from rust and blight. Pkt. 5c and 10c. Pt. 10c. Qt. 20c. 4 Qts. 50c. Pk. 90c. Bus. \$3.50.

1020. **Wardwell's Kidney Wax.**—Early, long flat pure wax pods. It is hardy, both pods and plants are robust and healthy and it is a heavy yielder. It is a remarkable shipper. Pt. 15c. Qt. 25c. 4 Qts. 75c. Pk. \$1.35. Bu. \$5.00.

1026. **Keeney's Rustless Golden Wax.**—Early, vigorous and a bountiful yielder of beautiful tender pods. The vine grows 1½ feet high, holding the pods well off the ground. The pods are shapely, flat and large. Pt. 15c. Qt. 25c. 4 Qts. 75c. Pk. \$1.35. Bus. \$5.00.

Burpee's Bush Lima Beans.

He's been planting Bolgiano's Seeds for 20 years—Says they are the best—He ought to know.

J. Bolgiano & Son, Baltimore, Md. June 26th, 1907.
Enclosed find my order for 26 bus. of Peas and 20 bus. of Beans. We have been planting your seed for 20 years, I find they are the best seed I have ever planted. I always find them true to name and always yield a large crop and have no spots in them. I make on your Beans per acre from 250 to 300 bush. and on the Peas from 200 to 250 bus. per acre. All the growers here plant J. Bolgiano & Son Seeds, and always have a large yielding.

Culture of Pole Beans and Pole Lima Beans.—These are usually planted in hills and trained to poles, which should be 8 to 10 feet long, and firmly set in the ground from 3½ to 4 feet apart each way. Draw around them a hill of earth and plant 4 to 5 Beans to each hill, 1 inch deep, always observing to plant the eye of the Bean down. The Lima Bean is very delicate, and often fails to sprout from slight causes; they should not be planted until the ground is warm. Do not allow more than three to climb a pole, but remove extra plants to hills where less than three have sprouted.

1040. **Early Leviathan Pole Lima Bean.**—Every grower, either private or for market should try this wonderful early and enormously productive large Lima Bean. The best variety of Pole Lima for general use. This delicious vegetable is denied many would-be growers on account of the length of season required to mature it, the early frost coming on just as the crop is ready to pick. This sort is at least one week earlier than any large Pole Lima yet offered and fully two weeks earlier than most consequently it will prove a boon to thousands of growers. Earliness is often obtained at a sacrifice of other features, but in this variety we claim superiority, notably in this respect, but in size of bean and pod and enormous productiveness. **Pt. 18c. Qt. 30c. 4 Qts. \$1.00. PK. \$1.85. Bus. \$7.**

Pt. Qt. 4 Qts. Pk. Bus.

1041. **Dreer's Improved Pole Lima.**—Outyield any Lima Bean ever offered. Each pod contains from 2 to 6 delicious Beans, so compactly placed that they make indentations in each other. Pods are produced on the vines in great clusters. The yield is continuous and abundant. **15c 25c 85c \$1.60 \$6.00**

1042. **Siebert's Early Lima.**—Pods long, thin, and easily opened. The green Beans are very large, handsome and delicious quality. **15c 25c 80c 1.50 5.50**

1043. **Jersey Extra Early Lima.**—Is 10 days to 2 weeks earlier than any other Pole Lima. Except the Leviathan. The beans are exceptionally tender and delicious. **15c 25c 80c 1.50 5.50**

1044. **Carolina or Sieva Beans.**—Very early and productive. **15c 25c 85c 1.55 6.00**

1045. **Extra Large Lima.**—Large white Bean; very tender; equally good in Winter if soaked 10 hours before cooking. **15c 25c 85c 1.55 6.00**

1046. **Ford's Mammoth Extra Large Lima Bean.**—Its pods are large in size, containing from 3 to 8 Beans. They are unsurpassed in quality and productiveness. **15c 25c 85c 1.55 6.00**

1047. **King of Garden Lima Beans.**—Outyields all other Pole Limas. Its vine has a luxuriant growth, which abounds with enormous pods, often from 5 to 8 inches long, and filled frequently with 5 or 6 perfect Beans to a pod. These Beans in their green state are large and luscious, but when dry shrink to the ordinary size. It is large, early and prolific and unequalled in quality. **Pt. 15c. Qt. 25c. 4 Qts. 85c. Please send me one of your New Catalogues. I want to order some Peas and Beans from you. Your seeds beat all I have ever tried. Dec. 7, 1907. W. C. KUNETKA, Austin Co., Texas.

Table Beets

1 Ounce to 50 Feet Drill. 5 to 6 Lbs. to Acre. Pkts. Ozs. and ¼ Lbs. Delivered Free, but add 8c to Lbs.

Our Beet is carefully grown from the very best stock seeds in the world. In addition to this, we take out of the ground each Beet and examine it carefully; if the color is not a fine dark red, and it is not perfect in shape, and if it is late in maturing, we will destroy it, as we only save our seed from as near perfect roots as it is possible to grow.

Culture.—Sow as early in the Spring as the ground can be worked (5 to 6 lbs. to the acre), and every two weeks after for a succession, up to the first week of July. For general crop, sow about the middle of May. Soil should be light, sandy loam, well enriched with stable manure and plowed and harrowed until very fine. Sow in drills 1 foot to 15 inches apart, and when well up thin from 4 to 6 inches. The young Beets, with their tops, pulled out of the row, are excellent used as Spinach.

12. **American Beauty Beet.**—The skin and flesh of "The American Beauty" Beet are both a deep rich blood crimson color. It matures just after the Eclipse, has a most beautiful form being a little deeper than round, medium in size, generally about three inches in diameter, has a remarkably smooth surface and a small tap-root. It is exceedingly tender and deliciously sweet. The very dark, attractive leaves are small. It is particularly delicious on account of its tenderness and it is entirely free from flesh of a stringy or woody character. In our extensive trials last spring and summer we found "The American Beauty" Beet surpassed every leading variety in color, shape, form, size of leaves and root, tenderness and sweetness of flesh and was only a few days behind the Eclipse in maturing. As a Market, Shipping or Home Garden Beet "American Beauty" stands supreme. We unreservedly recommend it to every one of our customers. **Pkt. 10c. Oz. 15c. ¼ Lb. 30c. Lb. \$1.00.**

19. **New Royal Red.**—This grand Beet is really worth its weight in gold on account of the very satisfactory crops it grows and its great selling qualities. It is handsome in shape, a little deeper than round. The flesh is rich, deep crimson and exceedingly tender. It grows medium in size, not large and coarse. Equally good both for early and second early crops. The small dark colored tops add to its value and attractiveness. The Royal Red has a very dark red skin, is smooth, shapely, and has but one small tap root. On light soil it is extremely early and of fine form. It is an excellent keeper and is deliciously sweet. We unhesitatingly recommend the Royal Red Beet to every one of our friends and customers. It is worthy of the most extensive use. **Pkt. 5c. Oz. 10c. 2 Qts. 15c. ¼ Lb. 20c. ½ Lb. 30c. Lb. 50c.**

3. **Early Ox-Blood.**—7 Reasons why we introduce this new Beet. 1st. It is extra dark blood color, from end of its tap root to top of its short graceful leaves. 2nd. Early as the Crosby Egyptian. 3rd. Almost globe shape. 4th. Small amount of even foliage of deep ox-blood color. 5th. Beets are very smooth and free from side rootlets. 6th. Flesh, fine grained, sweet and of an ox-blood color. 7th. You are the loser if you don't grow Early Dark Ox-Blood Beet this year. **Pkt. 5c. Oz. 10c. ¼ Lb. 20c. ½ Lb. 30c. 1 Lb. 50c.**

4. **Extra Early Eclipse.**—It is remarkable for its very rapid growth, the perfection of its form—which is globular—of its beautiful crimson flesh, and for its dwarf foliage. The roots are of a bright glossy red. **Pkt. 5c. Oz. 10c. ¼ Lb. 15c. Lb. 40c. 5 Lbs. @ 35c.**

11. **Extra Early Flat Egyptian Beet.**—(Improved.)—Does not crack open at the tops, is a deep blood-red; uniform in type, has a few tap roots and presents a handsome appearance when presented for sale. **Pkt. 5c. Oz. 10c. ¼ Lb. 15c. Lb. 35c. 5 Lbs. @ 30c. 10 Lbs. @ 25c.**

20. **New Improved Early Blood Turnip Beet.**—It is early, smooth; does not grow overlarge, has few roots. It does not become stringy, matures a medium size Beet of decided uniform type. **Pkt. 5c. Oz. 10c. ¼ Lb. 12c. Lb. 35c. 5 Lbs. @ 30c. 10 Lbs. @ 25c.**

21. **Edman's Blood Turnip Beet.**—The flesh is deep blood-red in color, sweet and tender; smooth, and of a good marketable size. It does not grow over large. It grows a small and but a single tap root. **Pkt. 5c. Oz. 10c. ¼ Lb. 15c. ½ Lb. 20c. Lb. 40c. 5 Lbs. @ 35c.**

Culture.—One Ounce will produce about 2500 plants. 1/4 lb. to transplant for one acre. For very early use sow in January or February in hot-beds; put out when plants are strong enough to other hot-beds; or sow in cold frames in March; transplant when danger of killing frosts is past to the open ground, in rows 2 ft. apart, and 18 in. in the row. For a succession, sow in the open ground the last of March or early in April. Autumn or Winter varieties sow in April or early in May, in shallow drills, 3 or 4 in. apart, transplant early in July, in rows 2 1/2 feet apart and 2 feet in the row.

534. **Eureka.**—Extremely Early Round Head. 5c @ 10c 15c 40c 1.50
29. **Extra Early Pilot Cabbage.**—3 weeks earlier than Jersey Wakefield. 5c @ 10c 15c 40c 1.50
30. **Early Jersey Wakefield Cabbage.**—Bolgioano's Selected Stock. While this sort is not so early as Bolgioano's Extra Early Express Cabbage, it will be found to be the very best conical headed sor. to come in immediately after it. It heads up remarkably hard and solid, with but few outside leaves, which are unusually thick and heavy enabling it to stand cold weather without injury when carried through the winter, in the open ground in the South, or cold frames in the North. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.
32. **The Charleston, or Large Wakefield.**—The Best Large Early Cabbage.—This is the largest Early Cabbage, bred from the Early "Jersey" Wakefield, to meet a demand for a larger heading sort. It possesses all the valuable characteristics of the parent, with the advantage of the heads being 50 per cent. larger, though a few days later. Our strain of seed is very superior. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.
33. **Early Large York.**—Follows Jersey Wakefield in heading. The heads are round heart-shaped and very firm. Its dwarf growth will permit them being planted closely together. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.25.

35. **Bolgiano's "New Early" Cabbage.**—It forms solid, compact, round, flat heads, the leaves growing close to the head, thus allowing more cabbage to be grown to the acre than any other sort. Its earliness (a week before other early flat varieties) is one of its best marketable features. It heads so hard and so quick it becomes waterproof. Pkts. 5c and 10c. Oz. 20c. ¼ Lb. 50c. 36. **Florida Header Cabbage.**—In color, shape and size the heads are most uniform. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. \$1.50.

37. **All Head Early Cabbage.**—For uniformity, reliability of heading, size, earliness and quality it is very superior. Its heads grow compact and free from spreading leaves. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. \$1.50.

38. **Henderson's Early Summer Cabbage Seed.**—In size, form, solidity and earliness, this is truly a model Cabbage. It heads just after our Jersey Wakefield. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. \$1.50.

39. **Long Island Early Flat Dutch Cabbage.**—The heads are large and solid, and matures very early—just after the Select Jersey Wakefield, and may be marketed at the same time with the Wakefield. In every respect it is a Cabbage worthy of cultivation. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. \$1.50.

40. **Early Drumhead Cabbage Seed.**—It is ready for marketing 2 or 3 weeks earlier than the late Drumheads, forms large, solid, rounded heads, weighing from 15 to 25 pounds. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. \$1.50.

41. **Henderson's Early Succession Cabbage.**—A wonderful Cabbage for solidity, productiveness, and fine large heads. Matures early, has handsome color and fine quality. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. \$1.50.

42. **Sure Head Cabbage.**—(Pedigree Stock.) True American Grown.—Produces large, round, flattened heads that are all head, with fewer outer leaves, very uniform, firm, and weighs from 10 to 15 pounds each. Splendid shipper and of an excellent quality. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. \$1.50.

542. **Solid South.**—This is one of the purest and truest Cabbages ever bred. Produces very large, shapely solid heads. It is crisp, fine grained and of delicious flavor. An excellent shipper. Pkt. 5c and 10c. Oz. 15c. ¼ Lb. 40c. ½ Lb. 75c. Lb. \$1.50.

Bolgiano's Extra Flat Dutch Cabbage.

Late or Winter Varieties.

43. **Bolgiano's Extra Flat Dutch Market Gardener's Choicest Stock.**—Can be planted later than the old time varieties and matures more quickly into a handsome, EXTRA LARGE, solid, uniform Cabbage of perfect keeping qualities. It has of its own superior merits become a great favorite everywhere. If you want the best Flat Dutch that grows, try Bolgiano's Extra Flat Dutch. Pkts. 5c & 10c. Oz. 20c. ¼ Lb. 40c. Lb. \$1.50.

50. **Louisville Drumhead.** (Best of all Drumhead Cabbage.)—There is no Cabbage of the Drumhead type which can be compared with this beautiful representative, in shape, color, firmness and excellent table qualities. While not as large as some of the coarse, inferior kinds, it is of fine size, very solid and uniform. Heat and moderate drought have little effect upon it on account of the peculiarly short stem and low habit of growth, so we recommend it for sections where late Cabbage is apt to be exposed to such conditions. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. \$1.50.

45. **The Lupton Cabbage.**—Is a splendid late sort, heading after the second early sorts and sooner than the Late Flat Dutch. It is particularly uniform in shape and size, holds its dark green color better than the late sorts. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. \$1.50.

46. **Premium Flat Dutch.**—It has long been the favorite sort for cold slaw and sauerkraut. It matures just before severe frosts, and keeps perfectly over winter. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 35c. Lb. \$1.25.

47. **Large Late Drumhead Cabbage.**—This splendid Cabbage produces enormous heads. Its good keeping quality make it a first-class sort to carry over winter or for long distance shipping. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 35c. Lb. \$1.25.

44. **Boss Flat Dutch Cabbage.**—The heads are large, hard, thick and flat, the leaves lapping across the center. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. \$1.25.

52. **Henderson's Autumn King Cabbage.**—(True American Grown.)—It is often from 3 to 3½ feet in circumference, and weighs from 25 to 30 lbs. each. Interior crisp, close, fine grained, tender and white. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. \$1.50.

48. **Armager or Danish Bald Head.**—This is the most excellent Cabbage, is very solid and out-weighs any other Cabbage of equal size. The head is round with flattened top, a good keeper, first-class shipper, and sells everywhere. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. \$1.50.

Brussels Sprouts.

Culture.—Sow in May, in the same manner as Cauliflower, and transplant in July 1 foot apart in rows 1½ feet apart. Brussels Sprouts is the very best winter vegetable that can be grown. It is as hardy as the common Curled Greens. When cooked through, such sprouts melt in the mouth like the tenderest Cauliflower, and are equally as good. If more widely known, Brussels Sprouts would be as popular as it is valuable.

22. **Bolgiano's Matchless Brussels Sprouts.**—Pkt. 5 & 10c. Oz. 20c. ¼ Lb. 75c. Lb. \$2.50.

Collards.

23. **Georgia Southern, or Creole.**—Forms a large, loose, open head, or a mass of leaves on a tall stem. Freezing does not injure, but rather improves their quality. Sow thick in drills, in rich ground, transplanting when 4 inches high, or sow in drills where the plants are to remain, and thin to 2 or 3 feet apart in the row, when of proper size. In the South sow from January to May, and August to October. Pkt. 5c. Oz. 10c. 2 Ozs. 15c. ¼ Lb. 20c. Lb. 60c.

Bolgiano's Perfection Improved Drumhead Savoy Cabbage.

Bolgiano's Perfection Improved Drumhead Savoy Cabbage.

53. There are many varieties of Savoy Cabbage, but "Bolgiano's Perfection" surpasses them all for uniformity of heads, beauty of curl and superior keeping qualities. When truckers have failed with other stocks from severe drought and worms, Bolgiano's Perfection has pulled through all right and come out supreme, making the grower happy by bringing him good returns when Cabbages were scarce. If you try it you will say more than we have. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. \$1.50.

49. **Mammoth Rock Red Dutch.**—Is the largest red Cabbage, and heads very solid, and is deep red color to the very center. No Cabbage is better for boiling or slaw, and its beautiful red color specially fits it for pickling. Pkts. 5c and 10c. Oz. 20c. ¼ Lb. 60c. Lb. \$2.00.

Cauliflower

An ounce will produce about 1500 plants, and sow about 40 square feet. One-half ounce furnished at ounce rates and one-half pound furnished at pound rates.

Culture of Cauliflower.—For Spring or Early Summer crops sow in March or early in April in hotbeds and transplant to cold frame when sufficiently large, and to open ground as soon as danger of hard freezing is over. The plants will endure a light frost. The soil should be made richer than is ordinarily used. Give the plants thorough culture and keep free from worms with Slug Shot Insect Powder. For late crops sow at same time as for late Cabbage; treat in the same manner. It should be borne in mind that Cauliflower WILL NOT head up well in hot, dry weather, and hence sowing should be so regulated as to bring it to maturity before the hot Summer sets in or not until cooler Fall. Water liberally; the size and quality of the head will be greatly improved. After the heads begin to form, draw leaves over and pin or tie them together to protect the head from the sun.

55. **Earliest Snow Ball Cauliflower.**—Our Snow Ball Cauliflower is the earliest, most hardy, and, in fact, the Cauliflower that you can plant, and expect a crop, of true, firm, snow white heads. You cannot get better Snow Ball Cauliflower Seed no matter what price you pay. There is but one stock of Cauliflower that is better and that is Bolgiano's New Century Cauliflower. Many of the beautiful, shapely heads measure from 10 to 12 inches in diameter. Our Cauliflower seed is saved only from absolutely perfect plants and is grown by the most experienced and critical growers in localities best suited for its perfect development. Best for forcing; best for wintering over early crop. Every plant will produce a fine head. **Pkts. 5c, 10c and 25c. 1/2 Oz. 75c. Oz. \$1.50. 1/4 Lb. \$5.00. Lb. \$18.00.**

J. Bolgiano & Son, Baltimore, Md. Feb. 1st, 1908.
Let me compliment you on your New Century Cauliflower. I am now crating half an acre, heads large white and firm as a potato; taking them as they run from 24 to 28 fills a crate.
I need some seed next fall, and hope they won't be higher than \$60.00 per pound; however, they would be by far the cheapest at several times that price.

73. **Giant Pascal Celery.**—This is a large, solid, excellent sort. It blanches very quickly to a beautiful yellowish-white color, is very solid and crisp, and of a fine nutty flavor. Stalks grow broad and thick, a single branch making a large bunch. **Pkts. 5c. and 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.**

79. **The Pearl Le Grand Celery.**—Keeps in perfect condition over winter and after other sorts are gone. Its large golden heart has a rich nutty flavor. **Pkts. 5c. and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.**

77. **Boston Market Celery.**—Is solid, crisp and desirable. **Pkts. 5c. and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.**

558. **Evan's New Triumph.**—This variety has a very strong vigorous plant; is crisp, brittle, tender and fine flavor. **Pkts. 5c. and 10c. Oz. 10c. 1/4 Lb. 40c. Lb. \$1.40.**

74. **Golden Heart Celery.**—Is crisp, solid, handsome and most excellent flavor, with a beautiful golden heart. **Pkts. 5c. and 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.**

Cress

Culture.—Sow curled or pepper grass thickly, in shallow drills, every two or three weeks. It should be cut often, and it will continue to grow. It is useful not only for salad, but for the breakfast table and for garnishing.

520. **True Water Cress.**—Should be sown in damp soil; or if a stream of water can be utilized, they would be much finer. They will thrive well in damp hot-beds. Rightly managed, their culture is very profitable. To obtain early salad it is a good plan to sow with Water Cress Seed a strip 4 inches wide on the upper margin of the hot-bed, inside the frame, where it is always cool. **Pkts. 5c. and 10c. Oz. 25c. 1/4 Lb. 75c. Lb. \$2.50.**

521. **Fine Curled or Pepper Grass.**—**Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 30c.**

Corn Salad

LARGE GERMAN CORN SALAD.

1 Ounce will sow 20 square feet, 6 Pounds will sow an acre.

Culture.—Sow during August or early in September, in drills 1/4 inch deep and 6 inches apart. If the weather is dry when the seed is sown, tread it lightly to insure germination. Keep down weeds with hoe. Just before the winter, cover thinly with straw or leaves.

24. **Large German Corn Salad.**—Used to a considerable extent as a salad. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. 1/2 Lb. 20c. Lb. 40c. 10 Lbs. @ 35c.**

Messrs. J. Bolgiano & Son, Baltimore, Md.

Gentlemen:—Your Bolgiano's New Victory French Grown Celery Seed is the best I have ever used, and I have been a Celery grower for 20 years. I shall order most of my seed from you this year. Hoping to hear from you, soon, I remain,

Yours truly, M. E. DUDLEY, Erie County, Pa.

Celery

Pkts. Ozs. and 1/4 Lbs. Delivered Free, but add 8c. to Lbs.

Culture.—One ounce will produce about twenty-five hundred plants and sow about two hundred feet of row. Sow the last of March or early in April, in an open border, in rich mellow ground in shallow drills, watering freely in dry weather. By rolling or pressing in the seed, the result will be more satisfactory than when only covered. Cut the tops off once or twice before planting out, to make them stocky. When the plants are 5 or 6 inches high, transplant the dwarf varieties 3 feet and the taller sort 4 feet between the rows; plant 6 inches apart in the rows. Cultivate well and when large enough, blanch by earthing up. The first operation is that of "handing," generally done by the beginning of September. After the soil has been drawn up with the hoe, it is drawn around each plant by the hand to keep the leaves firm in an upright position and prevent spreading. When the plants have become "set" in an upright position and the Celery is wanted for early use, they should be "banked." This is done by throwing the soil up as close to the plants as possible with a plow and finishing it with a spade, bringing the earth up nearly to the tops of the plants. The method, employed now for protecting is by covering the tops of the banks with water-proof felt paper.

71. **Bolgiano's French Golden Self-Blanching Celery.**—Perfect, solid, crisp, vigorous stalks; thrifty, compact growth, handsome, fresh, clean yellowish color, with a heart that is large and solid, of a beautiful rich golden-yellow color. You cannot buy better stock of Self Blanching Celery than this even if you pay \$5 or \$6 per lb.; for it and you may not get as good. Our stock has proven over and over again to be without an equal. (Specialty, see page 15.) **Pkt. 5c. and 10c. Oz. 35c. 1/4 Lb. \$1.00. 1/4 Lb. \$2.00. Lb. \$3.50.**

72. **Perfect White Plume Celery.**—It is most extensively used on account of its extreme earliness. Its stalks and portions of its inner leaves and heart are white naturally. By simply tying the plant together, or by drawing the soil firm against the plant with the hand and repeating the operation to hold the soil already against the plant in position, the work of blanching is completed. **Pkts. 5c. and 10c. Oz. 20c. 1/4 Lb. 60c. Lb. \$2.00.**

75. **New Winter Queen Celery. (Pedigree Stock.)**—Is beautiful in appearance. Ribs perfectly solid, crisp and of a delicious nutty flavor. **Pkts. 5c. and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.**

78. **Giant Golden Heart Celery.**—A gardener found in his Dwarf Golden Heart a few plants of larger growth. A careful selection made for several years, resulting in the Giant Golden Heart, which excels for larger size, solidity and keeping quality. **Pkts. 5c. and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.**

335. **Perfection Heartwell.**—Large, golden yellow heart; superior quality. **Pkts. 5c. and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.**

515. **Kalamazo.**—Very popular, hardy winter variety. **Pkts. 5c. and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.**

342. **Sweet Heart Celery.**—A perfect Winter Celery, each stalk has three or more deliciously sweet hearts. **Pkts. 5c. and 10c. Oz. 25c. 1/4 Lb. 75c. Lb. \$2.50.**

Celeriac

Or Turnip Rooted Celery

Culture for Root Celery.—Sow the Seed at the same season and give the same treatment as Celery. Transplant the young plants to moist, rich soil, in rows 2 feet apart and 6 inches apart in the rows.

Bolgiano's New Giant French Celeriac

139. There is not a single item of interest in the growing and developing of seeds that we pass by without most thoroughly investigating and testing to see if there is something of value to our customers. To prove our watchfulness, we are here introducing the Giant French Celeriac. Many thought the Celeriac which the Market Gardeners have had for years was good enough, but we are always on the alert for something better and are rewarded for our pains by being able to offer the splendid Celeriac. **Pkts. 5c and 10c. Oz. 25c. 2 Oz. 40c. 1/4 Lb. 75c. 1/2 Lb. \$1.25. Lb. \$2.50.**

83. **Large, Smooth Prague Celeriac.**—A large Celery flavored root used extensively for flavoring soups, pickles, etc., also relished sliced as a salad with pepper and vinegar. It is also used to flavor chicken and potato salad. **Pkts. 5c. and 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.**

Corn,

Sweet or Sugar

We supply Packets of Sweet Corn at 5c and 10c each, post-
paid, on Pints and Quarts, add 12c Quart Postage.

Culture of Corn.—The Sweet or Sugar varieties, being liable to rot in cold or wet ground should not be planted before May, or until the ground has become warm. For a succession, continued planting every two weeks until the middle of July, in rich, well-manured ground in hills 3 feet apart each way, covering about half an inch, and thin out to three plants to a hill. Hoe often and draw soil up to the stem, break off side shoots. The extra early varieties can be planted 18 inches in the row and 2½ feet between the rows.

EXTRA EARLY.

1051. **Double XX Extra Early Adams' Sweet Corn.**—Two weeks earlier than Extra Early Adams', large ears completely filled with 10 to 14 straight rows of snowy white deep grains. **Per ear 5c. Doz. 40c. 100 \$2.50. Pt. 10c. Qt. 15c. Gal. 45c. Pk. 75c. Bus. \$2.50.**

1052. **Adams' Extra Early.**—A splendid early variety, largely grown for early market. **Per ear 5c. Doz. 40c. 100 \$2.50. Pt. 10c. Qt. 15c. Gal. 45c. Pk. 75c. Bus. \$2.50.**

1053. **Second Early Adams'.**—Ears are larger an later than Adams' Extra Early. **Per Ear 5c. Doz. 40c. 100 \$2.50. Pt. 10c. Qt. 15c. Gal. 45c. Pk. 75c. Bus. \$2.50.**

1050. **Gillespies First Early Neck Corn.**—THE VERY FIRST GOOR SIZE CORN that can be brought to market. It is so hardy that it can readily be planted as soon as the ground is in good working order, and will, from the day of its germination, hurry forward to meet the early demand for fresh Corn, which is always very keen and causes this delicious, attractive and superior Corn to bring profitable prices. **Per Ear 5c. Doz. 40c. 100 \$2.50. Pt. 10c. Qt. 15c. Gal. 45c. Pk. 75c. Bus. \$2.50.**

1182. **Bolgliano's "New Cream and Honey" Early Sweet Corn.**—(Specialty, see Page 18.) Extremely early, most delicious flavor, exceptionally fine quality. Should be tried by every wide-awake market gardener and in every home garden, where the "best" of everything is enjoyed. **Pks. 10c. Pt. 25c. Qt. 40c. Gal. \$1.25. Pk. \$2.50.**

1049. **White-Cob 65-Day Corn.**—(Specialty, see Page 17.) **Per Ear 5c. Doz. 40c. 100 Ears \$2.50. Pkt. 5c. Pt. 10c. Qt. 20c. Gal. 40c. Pk. 75c. Bus. \$2.50.**

1115. **Premo 60-Day Corn.**—(Specialty, see Page 18.) Experts pronounce this Corn to be from 5 to 7 days earlier than any other Sugar Corn in existence. It is superior to many leading early varieties in quality, size and yield. Can be planted as early as the Anams' for the young plant withstands slight frosts. **Pt. 15c. Qt. 25c. Gal. 60c. Pk. \$1.00. Bus. \$3.50.**

1054. **Red-Cob 90-Day Corn.**—This Corn meets a long-felt want, because it suits the retail market sales; makes a first-class Crop Corn for feeding stock. The ear is large, handsome, suits for early or late crop, because it matures in 90 days. This makes it always a safe and profitable crop. **Per Ear 5c. Doz. 40c. Pt. 10c. Qt. 15c. Gal. 30c. Pk. \$1.00. Bus. \$1.50.**

1055. **Early Minnesota.**—Ears larger than the CORV and matures between that variety and the CROSBY. Eight rows of quite large sweet grains. **Per Ear 6c. Doz. 50c. Pt. 15c. Qt. 25c. Gal. 60c. Pk. \$1.00. Bus. \$3.50.**

1058½. **Metropolitan.**—Large, handsome ears of fine quality; very early. **Per Ear 6c. Dozen 50c. Pt. 15c. Qt. 25c. Gal. 60c. Pk. \$1.00. Bus. \$3.50.**

1057. **Mammoth White Cory Sweet Corn.**—Produces ears 7 to 8 inches long; 12-rowed; whitened-cobbed and covered with very large white grains of extra quality. **Per Ear 6c. Dozen 50c. Pt. 15c. Qt. 25c. Gal. 60c. Pk. \$1.00. Bus. \$3.50.**

SECOND EARLY OR INTERMEDIATE.

1068. **Peep-o-Day.**—The two points to this remarkable Corn are its extraordinary earliness and unparalleled sweetness; so marked is its sweetness and delicacy of flavor, that many of our customers now plant PEEP-O-DAY exclusively, arranging the plantings a few days apart so as to have this delicious Corn throughout the season. It is wonderfully productive. Our crops for three years almost double the yield per acre of any other variety we have grown early or late. Incredible as this may seem, it is readily accounted for by the fact that the stalks bears from 2 to 5 ears each and the growth being dwarf—about 4 feet—admits of a very close planting. **Prices: Pkt. 10c. Pt. 15c. Qt. 25. 2 Qts. 45c. Gal. 75c. Pk. \$1.35. Bus. \$5.00.**

1058. **Champion.**—Very large ears considering its earliness. **Per Ear 6c. Doz. 50c. Pt. 15c. Qt. 25c. Gal. 60c. Pk. \$1.00. Bus. \$3.50.**

1056. **Crosby.**—Matures after Minnesota; fair-sized ears of good quality. **Per Ear 6c. Doz. 50c. Pt. 15c. Qt. 15c. Gal. 60c. Pk. \$1.00. Bus. \$3.50.**

1059. **Earliest Sheffield Sugar Corn.**—Planted early as Adams', it will stand slight frosts, makes a strong vigorous growth with abundant foliage, growing about 5 feet, bearing usually 2 ears of handsome appearance, entirely free from smoot; exceptionally fine flavored and juicy. **Per Ear 6c. Doz. 50c. Pt. 15c. Qt. 25c. Gal. 65c. Pk. \$1.10. Bus. \$4.00.**

1060. **Extra Early Evergreen.**—Ears are like evergreen, very large, with about 18 irregular rows and a very long grain of the very best quality; remains in condition for use longer than other sorts, exceeding the Stowell's in this respect. **Per Ear 6c. Dozen 50c. 100 \$3.50. Pt. 15c. Qt. 25c. Gal. 65c. Pk. \$1.10. Bus. \$4.00.**

1061. **Early Mammoth Sugar.**—Market Gardener's favorite. Two weeks earlier than the late Mammoth. **Per Ear 6c. Doz. 50c. 100 Ears \$3.50. Pt. 15c. Qt. 25c. Gal. 65c. Pk. \$1.00. Bus. \$3.50.**

GENERAL CROP.

1066. **Snow White Evergreen.**—(Specialty, see page 18.) **Per Ear 5c. Doz. 50c. 100 Ears \$3.50. Pt. 15c. Qt. 25c. Gal. 65c. Pk. \$1.10. Bus. \$4.00.**

1067. **Stowell Evergreen.**—The truest strain of this leader of all Corns is in our possession. It remains longer in a first-class marketable condition than any other variety. **Per Ear 6c. Doz. 50c. 100 Ears \$3.50. Pt. 15c. Qt. 25c. Gal. 65c. Pk. \$1.10. Bus. \$4.00.**

1062. **Large Late Mammoth Sugar.**—Largest of all sugar varieties. Producing perfect ears of immense size, having from 12 to 16 rows. A fine market variety. Sweet and delicious. **Per Ear 6c. Doz. 50c. Pt. 15c. Qt. 25c. Gal. 65c. Pk. \$1.10. Bus. \$4.00.**

1064. **Rice Pop Corn, for Popping or Seed.**—No variety of Pop Corn is superior to this for popping. 10c. per Lb. shelled. By mail, 15c. per Lb. 3 Lbs. shelled Pop Corn and Popper, 25c.

Endive.

1 Oz. to 150 feet of row.

106. **Bolgiano's New Self-Blanching Endive.**—A perfect, self blanching curled Endive, beautiful and graceful in shape, most attractive, perfect in color, shading from a large, rich golden heart to the outer leaf of emerald green. In flavor it is mild, nutty and sweet. A market stall without this most beautiful of vegetables can never expect to merit those customers who strive to make their home table most attractive and complete. **Pkts. 5c and 10c. Oz. 20c. 20zs. 35c. 1/4 Lb. 50c. 1/2 Lb. 75c. Lb. \$1.50.**

107. **Green Curled Endive.**—Much better than the common varieties. An attractive and ornamental vegetable. **Pkt. 5c and 10c. Oz. 15c. 2 Ozs. 35c. 1/4 Lb. 40c. 1/2 Lb. 65c. Lb. \$1.25.**

Kale.

Pkts. Ozs. and 1/4 Lbs. delivered free, but add 8c to Lbs.

Bore Cole, Or Kale. Spargel kohl.

113. The most salable, delicious and tender of all Winter Kales. About Baltimore, it is sown in May, and transplanted like cabbage to stand over Winter. It is taller than the extra dwarf varieties and when the leaves are stripped, or fall off, new tender leaves quickly grow out. Then they are again stripped off and used for marketing. It will stand the coldest Winter. Besides being a delicious vegetable, it has always been an exceptionally profitable crop, bringing in money during the Winter months when mostly all vegetables are scarce. Pkts. 5c and 10c. Oz. 15c. 2 Ozs. 25c. 1/4 Lb. 40c. 1/2 Lb. 65c. Lb. \$1.25.

112. Extra Dwarf Green Curled Scotch, or Norfolk Kale.—One of the best Kales for Spring sowing in the North; the principal sort grown South for Northern markets; hardy, and will remain over Winter where temperature does not go below zero. Very dwarf and spreading, rarely exceeding 18 inches in height. Leaves are a bright green color, beautifully curled and produced in great abundance. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

Lettuce

(Continued.)

Pkts., Ozs. & 1/4 Lbs. delivered free, but add 8c to Lbs.

124. **Bolgiano's Celebrated Big Head Lettuce.**—Its beautiful form and color attracts the attention of expert growers. It forms a compact head, has no core, but a tender golden heart. As a shipper it is unexcelled, commands the very best prices, demand always exceeds the supply. It resists the cold, withstands the summer heat, always crisp, has a mild flavor; when open it becomes a table ornament; in fact, in this sort the trucker has found a perfect Lettuce. **Pkts. 5c & 10c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.50.**

119. **Bolgiano's Farmer's Pride Lettuce.**—MASSIVE, yet graceful as a rose and solid as a rock. Farmer's Pride Lettuce is an absolute necessity to any wide-awake up-to-date grower of vegetables. Sow the seed any time in the year you wish; your crop will be the finest you ever grew. Order at once. **Pkts. 5c & 10c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.50.**

127. **Bolgiano's New Golden Heart Lettuce.**—Early, large, handsome, most attractive, light color. It matures at any season. **Pkts. 5c & 10c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.50.**

121. **Bolgiano's Baltimore Oak Leaf.**—This Lettuce will resist the heat of summer and stand longer before running to seed than any variety. It makes a large head, and is very popular with those who know it. **Pkts. 5c. and 10c. Oz. 20c. 1/4 Lb. 50c. Lb. \$1.50.**

133. **California Cream Butter Lettuce.**—Outside leaves are a medium green color, inside is folded a solid head of rich, creamy, yellow color. The largest growers consider it one of the best in cultivation. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 25c. Lb. 90c.**

132. **Grand Rapids.**—Finely curled or fringed edges. Its delicious quality and handsome appearance makes it most popular. **Pkts. 5c & 10c. Oz. 10c. 1/4 Lb. 30c. Lb. \$1.00.**

51. **Melting Gold Cantaloupe.**—Simply the most delicious Cantaloupe that was ever eaten, the sweet luscious flesh is as yellow as melting gold, it is the best eating cantaloupe in the world and a splendid profitable shipper. (Specialty, see page 6.) **Pkt. 10c. Oz. 25c. 1/4 Lb. 75c. Lb. \$2.50.**

207. **Long Island Beauty Cantaloupe.**—A new introduction of exceptional merit. (Specialty, see page 24.) **Pkts. 5c & 10c. Oz. 15c. 1/4 Lb. 30c. Lb. \$1.**

167. **Eden Gem Cantaloupe.**—This magnificent new Muskmelon is a selection of the old Rocky Ford, which it completely surpasses in lusciousness, yield, carrying, and good selling qualities. In shape it is somewhat longer and a trifle larger and closer and deeper netted. **Pkt. 10c. Oz. 15c. 1/4 Lb. 30c. 1/2 Lb. 50c. Lb. \$1.00.**

334. **Pollock Cantaloupe.**—A rust resisting melon, with netting over the blossom end; not a long melon, but rather inclined to be short, with the finest shipping and eating qualities. The selections from time to time have reduced the size, now they crate nicely. **Pkt. 10c. Oz. 15c. 1/4 Lb. 30c. 1/2 Lb. 50c. Lb. \$1.00.**

157. **Rocky Ford Cantaloupe.**—1. Size about 4 1/2 inches high by 5 inches long. 2. Netting well-defined and deep. 3. Blossom-end well protected with a small button. 3. Ten distinct ribs. 5. No netting across the space between the ribs. 6. The space between the ribs well defined from stem to blossom button, but not so wide as to weaken the melon. 7. When cut, flesh is green, changing very slightly toward yellow at center. 8. Flesh very deep, so as to leave a small seed cavity. 9. Flesh fine grained. 10. Our seed is saved from the finest melons of the first picking. 11. Each individual melon is cut open by hand, and carefully inspected both inside and out. 12. Last, but not least, it is an excellent shipper, having deep flesh at the blossom end. The blossom end in many other strains is a very weak point. **Pkts. 5c. Oz. 10c. 1/4 Lb. 15c. 1/2 Lb. 25c. Lb. 50c.**

549. **Hoodo Cantaloupe.**—One of the newest and most popular varieties. About the size of "Junior" Rocky Ford, filled with delicious flesh. A splendid shipper. **Pkt. 5c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.50.**

548. **Burrels Gem.**—The fruit is of good size, handsome appearance and fine flavor. The skin is a rich, dark green, contrasting finely with the deep orange-salmon colored flesh; sweet, tender. **Pkt. 5c. Oz. 10c. 1/4 Lb. 30c. Lb. \$1.00.**

547. **New Ford Hook.**—A great addition to the Cantaloupe family—it was produced by crossing the Emerald Gem with the Jenny Lind; possesses the best qualities of both parents. **Pkt. 10c. Oz. 25c. 1/4 Lb. 75c. Lb. \$2.50.**

528. **Banana Cantaloupe.**—**Pkt. 10c. Oz. 50c.**

159. **Sweet Home Cantaloupe.**—This most remarkable, large, oblong, beautifully ribbed and netted melon possesses the **Quality of Rapid Growth**, maturing its large handsome fruit almost as early as the Jenny Lind. Flesh very thick, light green, and flavor sweet and luscious beyond description. **Pkts. 5c & 10c. Oz. 15c. 1/4 Lb. 30c. Lb. \$1.00.**

111. **Norfolk Button.**—Having obtained seed from the originators of this valued, popular melon, we are prepared to offer you an article that is true to the name and of superior quality. It resembles the Jenny Lind, but is much earlier, with very thick flesh exceptionally delicious quality. **Pkt. 5c & 10c. Oz. 10c. 1/4 Lb. 30c. Lb. \$1.00.**

158. **Free Lunch Cantaloupe.**—Large, yellow-fleshed, thick, firm and juicy. Melon dark green and gold in color. Should be in every home garden. Shippers should try it. **Pkts. 5c & 10c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.50.**

Onion Sets

If to go by mail, add 10c per quart.

Plant in drills about 12 inches apart and 4 inches in the rows. They must have high culture.

These are the prices ruling in January; later on they will be higher.

Prices of sets subject to market changes. Write for special prices in quantity. We annually grow thousands of bushels of the Choice Onion Sets. The enormous increased demand which we have had from year to year has permitted us to greatly increase our facilities for growing and handling **Re-cleaned Onion Sets.** This demand is sufficient proof that our Choice Re-cleaned Onion Sets are pleasing our customers and attracting the attention of their neighbors and other growers. We grow and sell more choice re-cleaned Onion Sets than any other house in the Southern States, and each year for five consecutive years we have doubled our acreage. We prefer to sell by weight, because we have found by long experience that it is by far the most satisfactory, and the customer knows just exactly what he buys. Whereas if he buys by measure he will find every person has a different idea of what a bushel really is. Therefore, to always have a satisfactory understanding with our customers, we give a weighed bushels of 32 pounds.

I purchased Onion Sets from you last spring, and was well pleased with them, and sold them all, and did not have enough. J. H. Snyder, Dauphin Co., Pa.

Okra, or Gumbo.

Pkts., Ozs. and 1/4 Lbs. delivered free. Add 8c to Lbs.

Culture. Sow late in the Spring, after the ground has become warm, in drills 3 feet apart, where the plants are to remain. Thin out from 9 to 12 inches. They should be well manured. They may also be raised in pots or a hot bed, and transplanted. 1 oz. to 40 ft. of drill; 10 lbs. to the acre.

198. **Perkin's Mammoth Long-Podded Okra.**—Pods shoot out from the stalk within three inches of the ground and the whole plant is covered with them to its extreme height. Pods are an intense green color, 9 to 10 inches long, very slim and do not get hard. It is much sought by canners.

201. **Bolgiano's Imperial Dwarf Short Podded Okra.**—It has a dwarf shapely, dense pod of an attractive pea-green color. The flavor is exceptionally rich. Our home canners willingly pay 20 to 25 cents per box more than any other sorts would bring.

202. **Lady Finger Okra.**—The plants are uniform in growth, and with their Hibiscus-like flowers make a pretty sight. The plants produce long, tender pods of fine round form, white and smooth.

199. **Dwarf Green Prolific Density Okra or Gumbo.**—Its green pods impart fine flavor and consistency to soups and stews, beside being palatable when stewed and served as a dish of Asparagus.

200. **White Velvet Okra.**—The pods of this distinct and beautiful new Okra are much longer; perfectly smooth, never prickly.

Mustard.

Pkts., Ozs. and 1/4 Lbs. delivered free, but add 8c to Lbs.

Culture. Sow thickly during early Spring, in shallow drills, and press the earth well down. For Fall Salad, sow in September or in frames or boxes during winter.

203. **Southern Giant Curled.**—An improved variety, sweet flavor, pungent and succulent. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

204. **Ostrich Plume Mustard or Fordhook Fancy.**—Desirable and ornamental. It is distinct from any other variety now in cultivation. The plants are of vigorous growth, and the beautiful dark green leaves curve outwardly like a fine ostrich plume. The edges are as thoroughly curled and lacinated as the best double curled parsley making the leaves equally desirable for garnishing. So attractive is the habit of growth and the feathery effect of the finely fringed leaves that this plant is quite worthy of a place in the garden as an ornamental border plant, aside from its utility as a Salad or boiling green. It is more productive than any other variety from early spring sowings, and also more stubborn in running to seed. It stands well, even during the hot summer months, while the young leaves can be cut quite as early as those of other sorts. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

Mushroom Spawn

Mushrooms.

Culture.—Mushrooms may be grown in cellars, under benches of green houses, or in sheds wherever the temperature of 50 degrees can be kept up through the winter. The beds should be made from November to February, according to the time the Mushrooms are wanted, and it requires about two months for them to begin bearing. Secure fresh horse-dung, free from straw and litter, and mix an equal bulk of loam from an old pasture with it. Keep this under cover, taking care to turn it every day to prevent heating, until the pile is large enough to make a bed of the required size. Three or four feet wide, eight inches deep and any length desired are the proper proportions for a bed; but these may be varied. Prepare the mixture of loam and manure, making the bed in layers and pounding down each with the back of the spade. Leave this to heat through for a few days, and as soon as the heat subsides to 90 degrees, make holes in the bed about a foot apart each way, into which put pieces of the spawn 2 or 3 inches in diameter; fill up the holes with compost, and at the expiration of a week or ten days the spawn will have thoroughly diffused itself through the bed. Spread layer of soil over the heap to a depth of 2 inches, and cover with 3 or 4 inches hay, straw or litter. Examine bed often to see that it does not get dry. Take special care, however, when water is given that it be at a temperature of 100.

Yellow Globe Danvers Onion.

Pkts., Ozs. & 1/4 Lbs. Delivered Free, but Add 8c to Lbs.

Culture of Onion Seed.—Oz. to 100 ft. of Drill; 6 Lbs. to the Acre.—Use any good soil, preferably a rich sandy loam, previously cultivated. Fertilize liberally with rotted manure or with artificial manures. Drill in seed to depth of 1/2 inch, at the rate of 4 or 5 pounds to the acre for large Onions; 60 to 80 pounds per acre for Sets, or use Sets at the rate of 6 to 10 bushels to the acre, or start Onion Seeds in frame, under glass, and transplant to open ground 3 inches apart in the row. This excellent plan is often referred to as the "new Onion culture." Onions are quite hardy and may be planted early. The soil may be used year after year, without rotation of crops, if well fertilized annually. Winter storage demands dryness, coolness, good ventilation and freedom from sudden changes. Spread 18 inches of straw on barn or garret floor, then 6 to 10 inches of Onions; then 2 feet of straw; or keep on shelves in a dry cool cellar. Set large Onions in open ground in September; protect with litter during Winter.

214. **White Silver Skin Onion.**—This superior stock is almost exclusively used for growing sets, which is the strongest proof that it is the best from which to grow the large white Onions. Its delicate, mild flavor, its stately form and large handsome size, its pure white color, make it a most desirable variety for the table, the most profitable for market and shipping. Plants are of an extremely thin neck and type, and sure to ripen early. Bulbs are perfect in form and quite thick through. They are fine-grained, crisp and mild. Bulbs should be harvested as soon as ripened and dried in the shade to preserve their silvery white skin, the attractiveness of which makes them command the highest market prices, and removes the necessity for peeling them. Pkt. 10c. Oz. 20c. 2 Ozs. 35c. 1/4 Lb. 60c. 1/2 Lb. \$1.00. Lb. \$2.00.

208. **Southport Large White Globe Onion.**—Produces from seed the first year. Flesh firm, fine grained, of mild flavor; an excellent keeper; has beautiful form and clear, white skin. Pkts. 5c and 10c. Oz. 20c. 1/4 Lb. 60c. Lb. \$2.00. 10 Lbs. @ \$1.85.

213. **Mammoth Silver King.**—The large bulbs are of attractive form, flattened but quite thick through; the average diameter is from 5 to 7 inches; single bulbs often attaining a weight of from 2 to 3 pounds each. The thin skin is a clear, silvery white; flesh snow white, sweet and tender. They grow quickly and mature quite early. Pkt. 5c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.40.

210. **Extra Early Pearl Onion, or White Queen.**—Finest American Seed.—Enormous size; grows full-sized roots from seed the first season; skin pure white waxy color, flesh snowy white, delicate and tender. Often grow 6 inches in diameter and weigh 3 lbs.; valued as a very early sort. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.40.

511. **Large White Portugal.**—The standard large flat variety. Pkts. 5c and 10c. Oz. 20c. 1/4 Lb. 60c. Lb. \$2.00. 10 Lbs. \$1.75. 25 Lbs. \$1.50.

536. **Bolgiano's Yellow Dutch or Strasburg.**—Grows round, plump sets. Skin a bright attractive straw color. Full-sized Onions are somewhat flattened; mild flavor, excellent keepers and shippers. It is very productive. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

212. **Red Watershed Onion.**—This is the most beautiful, large, handsome, globe-shaped red Onion. Earliness, productiveness and keeping qualities. It has perfect form, skin deep purplish-red; flesh purplish-white; fine grained; produces enormous crops of enormous Onions. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.40. 10 Lbs. @ \$1.35.

205. **Mammoth Prize-Taker Onion.**—(Specialty, see page 23.) Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 50c. 1/2 Lb. 90c. Lb. \$1.75. 5 Lbs. @ \$1.70.

206. **Bolgiano's Superior Yellow Globe Danvers Onion.**—Has handsome form, with very thick bulb and small neck; very early, enormous cropper; keeps perfectly, and is a market favorite of large size; remarkably solid and heavy; is one of the safest, surest keepers. Pkt. 5c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

209. **Southport Large Yellow Globe.**—Produces bulbs more perfectly globe-shaped and larger than Globe Danvers, but later in ripening; excellent keeper; easily grown from seed the first year, has a beautiful, pale, straw-colored skin; is a heavy cropper, handsome in appearance, large size. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 45c. Lb. \$1.65. 10 Lbs. @ \$1.50.

216. **Round Yellow Danvers.**—Is the same shape as the White Silver Skin. Brownish-yellow color; bulbs quite flat and of good size; largely grown for sets. They are harder than the white, and keep better through the Winter. In the Southern States they can be planted in Autumn and will continue growing during the entire Winter. Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 40c. Lb. \$1.40.

211. **Extra Early Long-Keeping Australian Brown Onion.**—Solid and most attractive. Produces good-sized Onions weeks earlier than the Red Watershed. Skin is a clear amber brown. Pkt. 5c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50. 10 Lbs. \$1.40.

Seed Peas.

**Finest Hand
Picked Samples.**

CULTURE.—A week may be gained by sowing a quantity in moist sand placed in a box in the cellar, and planting outside when well sprouted. Light, dry soil, not over rich, suits the Pea. Sow as early as the ground can be worked, and again every ten days for succession. Peas may be sown as late as the 20th of August. Medium and late Peas must be planted early; Extra Earlys may be planted again in August. Sow in single or double rows, from 4 to 6 feet apart according to the different heights, about an inch apart in the row, and 4 inches deep. Hoe often, and keep ground clean and fine. The tall sorts can be made to bear more freely by pinching in. The dwarf variety may be grown in beds like bush beans, with rows about the same distance apart.

Those marked with a star (*) are wrinkled marrows, and unless otherwise stated should be sown thicker than the round Peas, and not until the ground has become warm as they are more liable to rot. They are the finest flavored of all Peas.

We supply Packets of Peas at 5c and 10c postpaid. Add 8c to Pints and 15c to Quarts.

Mammoth Ruby King Pepper.

227. **Extra Selected Stock.**—This magnificent variety is now recognized as one of the best Red Peppers for market or family use. Every one who has seen our crops has been enthusiastic in praise of the beautiful plants crowded with the large handsome fruits of a bright ruby red color. The Peppers grow from 4 1/2 to 6 inches long by 3 1/2 to 4 1/2 inches through. Added to their beautiful color when ripe is the fact that they are remarkably mild and pleasant to the taste—in this respect unequalled by any other Red Pepper. We cannot too strongly recommend the Ruby King. So mild and pleasant in flavor they can be sliced and eaten with pepper and vinegar, like Tomatoes, and makes a very pleasant and appetizing salad, while for stuffing and pepper hash no other variety can equal them. Pkt. 5c & 10c. Oz. 20c. 1/4 Lb. 60c. 1/2 Lb. \$1.00. Lb. \$2.00.

J. Bolgiano & Son, Baltimore, Md.

Gentlemen:—The Seed I purchased from you grew very nicely, and proved very satisfactory; especially the Chinese Giant Pepper. Some measured 5 inches across, and about 4 or 5 inches long. Took first premium at our Fair, and were very perfect in shape.

Yours very truly,
MRS. J. E. PRICE, Frederick Co., Md.

Bolgiano's Scarlet Globe Radish

509. **Prussian Globe Radish.**—It is a GLOBE shape, of a crimson color, short top, and will stand forcing without becoming pethy. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

Radish.

Pks., Ozs. and 1/4 Lbs. Delivered Free, but Add 8c to Lbs.
6 Ozs. of Seed will plant 100-yard Row.

Culture.—Sow as soon as the ground is dry in the Spring, in rows 8 to 12 inches apart, every week or ten days for a succession, up to the middle of June, after which they are but little used, unless a cool northern spot can be had, where the ground is shaded during part of the day. They should be sown in light, rich soil, as a crisp Radish cannot be produced in heavy soils. Sow also in early Fall for late crops and Winter use. Sow 8 to 12 pounds to the acre. Radishes should be eaten when quite small; it is a mistake to let them grow too long and too large. This applies particularly to Ruby King and small turnip-shaped sorts.

Early Round Varieties.

9. **Tip Top White Tip.**—The beautiful New Extremely Early Radish for 1909. (Specialty, see page 21.) Pkt. 10c. Ozs. 15c. 1/4 Lb. 40c. 1/2 Lb. 65c. Lb. \$1.25.

258. **Strawberry Radish.**—(Specialty, see page 21.) This is the extremely early round. Radish that attracted so much attention last season when we first introduced it by sample packages to our Market Garden customers. Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. 1/2 Lb. 30c. Lb. 60c.

230. **Bolgiano's Extra Early Ruby King Radish.**—The best of all brilliant red radishes' (Specialty, see page 21.) Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. 1/2 Lb. 30c. Lb. 60c.

239. **Scarlet Turnip White Tip Radish.**—Round, bright scarlet, with attractive white tip; matures in 25 days. (Specialty, see page 21.) Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c. 5 pounds \$1.50c.

238. **Bolgiano's Scarlet Globe Radish.**—It has a rich scarlet color, faultless shape, and matures in twenty days. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

538. **Rosy Gem.**—Everybody wants this pretty, crisp, tasty, little French Radish, so showy with its brilliant cardinal red contrasted with its immaculate white. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c. 5 Lbs. \$1.50.

232. **Lexington Market Money Maker.**—The Best early round white Radish. Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 50c.

241. **Vick's Scarlet Globe Radish.**—A leader among bright round Red Radishes. Quick maturing, extremely attractive, short tops, solid and fine flavor. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

231. **Felton's Model or Philadelphia White Box Radish.**—Handsome and early with fewer short leaves, hence can be sown thickly in the row. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

248. **Bolgiano's Crimson King.**—Double the size of the ordinary early turnip-shaped Radishes, this one often measuring 6 to 7 inches in circumference, remaining solid, firm, tender; white and of mild flavor; the shape varies between round and oval; adapted for either open ground or forcing. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. 1/2 Lb. 25c. Lb. 50c.

246. **Tait's Favorite Forcing Extra Early Radish.**—The great value of this famous Radish lies in its availability for forcing under glass. It is also largely used for field culture. It is perfect in both shape and color, the skin being a bright, transparent red, and owing to as unusually small top many bunches may be put in a single package. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

Early Long Varieties.

249. **Bolgiano's Extra Early Long White Pearl Forcing Radish.**—(Specialty, see page 21.) Pkt. 50c. 2. 10c. 1/4 Lb. 25c. Lb. 75c.

253. **Lady Finger or White Vienna.**—Long, white, very early, attractive, excellent seller. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

251. **Bolgiano's New White Delicacy.**—This charming Radish has a beautiful form, an exceptionally clear, bright, waxy appearance, exceedingly smooth, delicate, crisp, and tender, makes it the most salable, half-long white Radish. It has short tops, does not become woody. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

557. **Half Long Deep Scarlet.**—Very popular in the New Orleans market. The radishes are of slightly larger diameter and most brilliant scarlet coloring. Flesh purest white, crisp, juicy. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

Summer and Autumn Varieties.

244. **Giant White Stuttgart.**—An immense white Summer Radish. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

237. **Golden Globe Summer Radish.**—Grows quickly to a fair size, and withstands heat and drought remarkably well. Of excellent flavor. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

247. **Chartier, or Shepherd.**—Long red Radish with a white tip. Beautiful for bunching. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

Winter Varieties.

One of the finest yet introduced. **Hoffman**—Medium size, firm and good quality and productive. **Johnson's Early**—One of the finest early berries grown. Do not let it get too thick. **Zeiter's Early**—For an extra early berry this is the best of all. Good shipper. Very productive for so early a berry. Ahead of Michel's in size and productiveness. **Lady Finger**—Best for preserving. **William Belt**—Early and delicious.

Horse Radish Roots. The best variety is produced from small pieces of roots 4 to 6 inches in length. These small roots will produce good radish fit for use in one season's growth. Plant the set small end down, where the slanting cut is, so that the top will be 2 inches under the soil, and in rows or furrows 2 to 8 feet apart and 15 to 18 inches apart in the rows. The soil should be very rich and well cultivated. It is hardy and may be left in the ground until Spring before digging. A part of the crop may be pitted late in the Fall if desired. A dozen roots will give all that will be needed for family use; as it constantly increases, it is best to plant it in some out-of-the-way corner of the garden. By mail postpaid, Each 5c. Doz. 25c. 50 for 60c. 100 for 90c. By express not paid, 100 for 75c. 300 for \$1.75. 500 for \$2.50. 1000 for \$4.50.

Turnip Seed.

Pkts., Ozs., and 1/4 Lbs. Delivered Free, but add 8c to Lbs.

Our Turnip and Ruta Baga Seeds are grown exclusively from perfect Turnips, every one of which is selected and then transplanted for the growth of our seed. Hence, Turnip crops from our seed must of necessity be very choice and most satisfactory in size, in truthness, in solidity and in beauty. Crops from our seed will prove infinitely better than much of the trashy seed sold for Turnip Seed, which for the careless manner in which it is grown and inferiority of stock so frequently produces little more than Turnip Tops. Send to us direct and secure your supply from our superior stock.

Culture.—For early Turnips, sow as soon as the ground opens in Spring. No. 327 should be sown from any time in July to first of August; but the other kinds, for Winter use, may be sown from the middle of July until the end of August. Turnips are generally sown broadcast, but much larger crops are obtained (particularly of the Ruta Bagas) by cultivating in drills 18 inches apart and thinning to 6 inches in the drill. Sow in drills, one pound to the acre; broadcast, two to three pounds to the acre.

313. **Red Top White Globe.**—The handsomest and most salable Turnip. As a profitable sort for home or market it is unsurpassed. It is a large rapid growing sort, with globular shaped roots. Flesh pure white. The skin is white and purple, the under portion being white and the top bright purple. (See Illustration.) On account of its shape, it will out-yield any other sort. Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.00.

314. **Red or Purple Top White Flat Turnip.**—This is one of the best table Turnips on the market, being finely grained and of mild flavor. It is white below, with a bright purple top; flesh white, leaves short, narrow and erect. Will mature in 8 or 9 weeks. A good cropper and an excellent keeper. Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.00.

327. **Ruta Baga Market Gardeners' Improved Purple Top.**—Our Ruta Baga is select; yields enormous crops of handsome, large, solid, yellow fleshed Turnips; is grown largely for cattle food; keeps over Winter 'till Spring in good condition. Get our splendid stock, and the crops will satisfy and remunerate you. It is also used as a table vegetable because of its sweetness. Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.00.

321. **Southern Seven Top.**—Hardest of all sorts; may be left standing in the open ground during Winter. In the Southern States it yields in the Spring abundant foliage for boiling with cured meats, and it is only desirable for this purpose. Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.00.

320. **White Egg.**—Oval or egg shape, handsome and sweet; flesh firm and sound-grained; thin and perfectly smooth skin of snowy whiteness. Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.00.

323. **White Flat Dutch.**—Pure white, flat strap-leaf Turnip. Early, medium size, excellent quality for early Spring sowing. Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.00.

322. **Large Amber Globe.**—Flesh yellow, fine grained and sweet; hardy, keeps well, a good cropper. Very popular in the south. Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.00.

319. **Sweet German.**—Should be sown a month earlier than flat Turnips. Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.00.

326. **Cow Horn.**—A white Turnip of peculiar long shape and quick maturity. It grows to a large size, standing half out of the ground. Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.00.

324. **Purple Top Yellow Aberdeen.**—Medium size, round, flesh pale yellow, tender and sugary, the plant is hardy and productive and keeps well. Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.00.

316. **Yellow Globe.**—Yellow Globe is a wonderful cropper, and keeps far into the following year. It begins to bulb at the very start and forms large-sized roots and small tops. Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.00.

530. **Southern Prize or Dixie.**—Makes large round white Turnips in addition to salad; hardy and needs no protection, the most popular Winter and Spring salad Turnip grown. Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.00.

317. **Golden Ball, Orange Jelly or Robertson's.**—Flesh sweet and firm. Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.00.

We have in the following mixtures combined grasses suitable for the various soils and uses for which they are recommended. Those for permanent pastures are composed of grasses which succeed each other in growth, and give a succession from the first of spring until late in winter, while for those desired more for cutting for hay, we have combined grasses which ripen together. The different mixtures are prepared both as to quantity and varieties as best adapted to the soils and situations for which they are recommended. In all of our grass mixtures we use the very best seeds only the quality and purity of the seeds being our first consideration. The quantity handled enables us to give our customers the benefit of a very low price, even lower than if they purchased the seed separately.

Mixtures For Permanent Pastures But Can Be Mown.

FARMOGERM (High Bred Nitrogen-Gathering Bacteria.)

"Makes Poor Soil Good Soil."

It is well known that Nitrogen is the most expensive of fertilizing elements. It is also known that it is the plant food in which most soils are deficient. We are pleased, therefore, to be able to offer our patrons an improved and most reliable method of inoculating soil with nitrogen-bacteria. By moistening the seed of any leguminous crop to be planted with Farmogerm, not only is the immediate crop benefitted by this pure culture of high bred nitrogen gathering bacteria, but the soil is enriched in nitrogen which will be available for future crops of any kind for two or three seasons. One of the important advantages which Farmogerm has over other and earlier preparations of this kind is the fact that it needs no treatment or development before using. It comes in bottles, ready for use with a little water, according to directions.

Soil inoculation is a big subject and the possibilities of it are only partly appreciated by many. We have no space for details here, but we hope our customers will write us for a free pamphlet on the subject which we will be pleased to send. It will pay you handsomely to investigate before planting any of the following crops:—Alfalfa, Alsike, Berseem, Crimson Clover, Red Clover, White Clover, Canadian Field Peas, Cow Peas, Soy Beans, Velvet Beans, Vetch, Lupins, Peanuts, Garden Beans, Garden Peas, Sweet Peas and other legumens.

When ordering be sure and state for what crop Farmogerm is wanted.

We are prepared to supply Farmogerm for any one or all of these crops at the laboratory price of \$2.00 per acre, 10% discount on 25 acres, 15% discount on 50 acres, 20% discount on 100 acre orders.

Garden size, mixed culture, good for Peas, Beans and Sweet Peas, at 50c a bottle. Also White Clover for lawns.

The U. S. Dept. of Agriculture says: "The pure culture method has come to stay."

HIGH GRADE GRASS SEED.

1123. TALL MEADOW OAT GRASS, Evergreen Grass.—Yielding twice as much hay as Timothy or Orchard Grass, early as Orchard Grass with more leaf and affording better grazing, it is not strange that this grass is becoming so popular. It will keep green all winter and all summer; the drought of mid summers or the cold of winter does not injure it. It starts growing very early in the Spring, can be cut twice for hay, will yield good grazing until late in the Fall. It contains more flesh and muscle-forming material than Timothy, but it is not so fattening. For hay, it should be cut while in bloom. Tall Meadow Oat Grass is best adapted for rather light and dry loamy uplands, but gives excellent results on nearly all soils and better results than any other grass on light, medium or sandy soils. Sown alone use 1 to 3 bus. to the acre, either Spring or Fall. Sown in mixture, use 1 bus. Tall Meadow Oat Grass, 1 bus. Orchard Grass and 6 lbs. Red Clover. It gives the very best results when sown with Clover. By adding 4 lbs. of Red Top or Herd's Grass to the mixture the grazing will be materially increased. "Gold" Fancy \$2.10 bus.

1114. Orchard Grass.—One of the best and most reliable grasses for the Middle and Southern States, either for hay or pasture. It succeeds well on nearly all soils, but does best on uplands, loamy or moderately stiff soils. It starts early in the spring and continues well into winter. It is of quick growth, and is relished by stock, especially when young, and bears close grazing. It makes excellent hay; and gives the very best results mixed and grown with Tall Meadow Oat Grass and Red Clover. It should be cut when in blossom, as the hay is injured if the seed is allowed to ripen. It can be sown in the spring or fall, either with grain or alone. Sow two bus. per acre if sown alone, or with Red Clover, one and a half bus. of Orchard Grass and seven pounds of Clover are the quantities usually sown. "Gold Fancy Bus. of 14 lbs. \$2.50. Silver Choice \$2.25 per bus.

1172. **Italian Rye Grass.**—"Gold" Brand 15c Lb. Bu. of 14 Lbs. \$1.40. 1124. **Red or Creeping Fesque.**—Forms a close, rich sod and is valuable in lawns and pastures. "Gold" Brand Lb. 20c. Bu. of 14 Lbs. \$1.75.

1116. **Bromus Inermis or Awnless Bloom Grass.**—Both for grazing and for hay it is of especial value in mixtures with other grasses. Cattle graze on it with relish. Sow Seed in the Spring or Fall, 25 to 30 lbs. per acre. Price, "Gold" Brand 15c Lb. Bu. 14 Lbs. \$1.75.

1186. **Sheep Fesque.**—A densely tufted perennial grass, roots deeply, and forms dense short turf, suitable for lawns and pleasure grounds. It furnishes excellent grazing, and is well adapted both for lawn and pasture mixtures. Sow 2 to 3 bushels per acre, if sown by itself. Sow about 25 pounds per acre. **Lb. 20c. Bu. of 14 Lbs. \$1.75.**

1149. **Hairy or Winter Vetch.** (*Vicia Villosa*).—VICIA VILLOSA succeeds and produces good crops on poor sandy soils as on good land; grows to a height of 4 or 5 feet. It is perfectly hardy throughout the United States, remaining green all winter, and should be sown in the spring, mixed with oats, spring rye or barley; or during August and September, with winter rye, which serves as a support for the plants. It is the earliest crop for cutting, being hardier and nearly a month earlier than Scarlet Clover, and a full crop can be taken off the land in time for planting spring crops. Every dairyman and stock-breeder in the United States should have a field of it, and if you try it once, you will never be a season without it. It is exceedingly nutritious, eaten with relish, and may be fed with safety to all kinds of stock. Sow 50 to 60 lbs. per acre with ½ bu. of rye, oats or barley. "Gold" Brand, lb. 10c. If by mail, add 8c per lb. Bu. of 60 lbs. \$4.00. 100 lbs. \$6.50.

1150. **Spring Vetches or Tares.**—Closely associated with Peas in character. Highly valuable for soiling or for green manuring. Sometimes grown with oats, for mowing and feeding to stock. Use 2 to 3 bus. to acre broadcast, or 1 to 2 bus. in drills. Sow in Spring, while the ground is cool and moist, or in early Autumn. "Gold" Brand, Lb. 10c. 10 Lbs. 50c. Bu. of 60 Lbs. \$2.75. 100 Lbs. \$4.50.

1127. **Dwarf Essex Rape.**—Valuable for Cattle, Sheep and Hogs.—Under favorable conditions Rape is ready for pasturing sheep or cattle within six weeks from the time of sowing, and on an average one acre will carry from 12 to 15 sheep six weeks to two months. When on the Rape they should at all times have access to salt; but water is not necessary. As it thrives best in cool weather, it should not be sown in the Southern States until September or October for winter pasture. Its fattening properties are probably twice as good as those of Clover, and for sheep the feeding value of Rape excels all other plants we know of. Sow 4 lbs. per acre broadcast, 2 to 3 lbs. per acre in drills. If by mail, add 8c per Lb. 10c Lb. 5 Lbs. 40c. 10 Lbs. 75c. 100 Lbs. \$5.00.

The Dwarf Essex Rape I bought of you has made fine pasture for my cattle and hogs through the winter.

1117 **Timothy** Of Hay Grasses Timothy is one of the most popular, nutritious and salable. On clay or heavy loams, lowlands or in mountainous districts provided there is an abundance of moisture, it produces the very best results. On sandy or light loamy ground, it does not do as well as Orchard, Tall Meadow Oat or Red Top Grass. If grazed or cut too close, the stand of Timothy will be seriously injured, besides it does not form as good grazing as many other grasses. From 1½ to 3 tons of fine hay to the acre. A splendid mixture is 6 lbs. Timothy, 4 lbs. Clover (either Mammoth Clover or Alsike Clover preferred as they mature at the same time as Timothy) 4 lbs. Fancy Red Top, ½ bu. Meadow Fesque. Together, these will produce most excellent hay, also nutritious and abundant pasture in good loamy, clay or low ground soils. 8 lb. Timothy and 6 lb. Clover when sown together. "Gold" Brand, 10c Lb. Bu. of 45 Lbs. \$2.25. Market fluctuates.

1118. **Kentucky Blue Grass.**—An excellent pasture and lawn grass, succeeding best on lime-stone land, but does well on stiff or clay medium soils. It is rather sensitive to heat, but not so to cold weather, and on this account does its best in the fall, winter and spring. It grows slowly at first, forms a compact turf, making a fine pasture when once established. It is best, however, to combine other grasses with it for either lawn or pasture. Sow in the fall or spring at the rate of two to three bushels per acre. "Gold" Brand Seed, Lb. 18c. Bu. of 14 Lbs. \$1.50. Special prices in quantity.

1120. **Native or Canada Blue Grass.**—At the Maryland Experiment Station this grass remained a luxuriant green during the hottest summer when other grasses were materially affected by the heat. Being a grass of Canadian growth it will stand the cold weather admirably. Canada Blue Grass should be tried by everyone not familiar with its excellent qualities. It is particularly well suited for mixtures. "Gold" Brand Seed, Lb. 15c. Bu. of 14 Lbs. \$1.50.

1171. **Creeping Bent Grass.**—This grass somewhat resembles Red Top or Herd's Grass in growth and appearance, and is considered by many practical men as equal, or even superior to that grass. It is certainly a splendid grass, and should be largely used in lawn and pasture mixtures. It has creeping or stoloniferous roots, spreads and holds to the soil in a very tenacious way; at same time is easily eradicated if desired. **Lb. 30c.** Special prices in quantity.

1111. **Red Top, or Herd's Grass.**—This grass makes excellent pasture and good crop of fine quality hay, and succeeds on a greater variety of soils than any other grass in general use, giving very good results on light soils, and the very best results on heavier, moist or low-ground soils. It is rather late in starting in the spring, and matures its crop at the same time as Timothy. Is excellently adapted for seeding with Timothy for hay, and furnishes excellent pasture afterward. When it gets well established it spreads, and will gradually supplant other grasses.

Our Gold Brand of the Fancy Clean Red Top is of extra fine quality, and carefully cleaned from impurities. We can also furnish the Choice and Prime Fancy Clean Red Top as usually sold. It requires about 8 to 10 pounds to seed an acre of the Fancy Clean seed. When sowing with Timothy, sow 5 pounds of the Fancy Clean seed and 8 pounds of Timothy per acre. It can be sown either in the spring or fall. "Gold" Brand Fancy Seed, Lb. 20c. 10 Lbs. or over @ 18c Lb. Silver Choice, 10 Lbs. or over @ 15c. Prices fluctuate; quoted upon application.

1122. **Meadow Fesque, Randall or English Blue Grass.**—It makes a most excellent hay and pasture grass, and is particularly valuable for fall and winter pasture, and it remains green throughout the winter. It is also a splendid spring and summer grass and usually makes more and thicker leafage than any other grass. It succeeds well in nearly all sections of the South, and should be very largely used in pasture and hay mixtures, being specially suitable for sowing with Red Top and Timothy for hay, or with these and Orchard and Tall Meadow Oat for permanent pasture. Sow either in the spring or fall at the rate of two bushels to the acre, if sown by itself. When sown with Red Top and Timothy, sow one bushel (14 lbs.) Meadow Fesque, 5 lbs. Fancy Clean Red Top and 6 lbs. Timothy per acre. Sown for a grazing mixture with Orchard and Tall Meadow Oat Grass, add half a bushel each of these two grasses. Price, "Gold" Brand, Lb. 25c. Bu. of 14 Lbs. about \$3.00.

1187. **Hard Fesque.**—Thrives well in dry situations, where many other grasses fail; 30 lbs. to the acre. **Lb. 20c. Bu. of 14 Lbs. \$1.75.**

1125. **German Millet, Choice Southern Grown.**—Makes a large yielding and most nutritious hay crop, quick growing and easily cured. It should be seeded thickly, one bushel per acre, and should be harvested while in bloom. If the seeds are allowed to form, the stalks get hard and it does not make near so good a hay. Should be sown any time between the middle of May until the end of June. It matures a crop in six to eight weeks after feeding. Our Southern grown Millet makes much better growth than western or northern grown seed. "Gold" Brand Southern Grown Millet, \$1.50 per Bu. of 50 Lbs.

1126. **Hungarian Millet Grass.**—For good low ground or rich soils, this makes even a more valuable crop than German Millet. It is considered equal in nutritive value to Timothy hay. On uplands or light soils, German Millet makes larger yields than Hungarian. Hungarian Millet should be sown from the first of May until the end of July, at the rate of one bushel per acre. "Gold" Brand, \$1.50 per Bu.

Alfalfa Seed.

Alfalfa Yields Splendidly Throughout the South, Yielding 3 or 4 Cuttings Per Year, Increasing in Yield Each Successive Year.

Alfalfa Seed.

1128. Alfalfa ranks higher than timothy hay in feeding value. In fact, it might be termed both corn and hay, as it is almost a complete food. Experiment stations place the feeding value of Alfalfa hay at \$20 per ton, as against timothy hay at \$12 per ton. This, with the fact that Alfalfa will, under favorable circumstances, after a good stand is secured, give 3 or 4 cuttings per year, and will easily yield, on good land, from 6 to 16 tons of splendid hay per year, shows what a valuable crop it is. Lands in the western states that are well set in Alfalfa sell readily at from \$100 to \$200 per acre; so that a crop of this kind pays for the little extra care and preparation given to secure good stands and good crops. It is better to have five acres well set in Alfalfa, by thorough preparation, than to attempt to put in ten acres without first class preparation. The acreage of Alfalfa is increasing very largely all over the Middle and Southern States, our farmers are fast beginning to realize what a valuable crop it is for this section. Alfalfa will succeed and do well on any good loamy, well-drained soil, but the land must be well and thoroughly prepared for the best results. The plant is rather slender when it first starts, and it must be grown under favorable conditions, in order to get ahead of the weeds and other grasses which would, under ordinary circumstances, spring up naturally and check it or smother it out. Alfalfa should always be cut when just commencing to bloom, whether the plants be large or small. If the seed is allowed to form, the growth of the plant ceases. It should never be used for pasture, it is too valuable as a hay producer to risk injury from stock. Alfalfa can be sown either in the Spring or Fall. The requirements to obtain good stands and good crops is to sow in good, rich soil and give thorough preparation. Alfalfa is usually sown broadcast, at the rate of 15 to 20 lbs. per acre, although some of our customers claim that thicker seedings give better crop results. March and April are the best months for seeding in the Spring, and the latter part of August and during September the best in the Fall. Our Alfalfa seed is the highest grade, strong-germinating seed, of the best and cleanest quality it is possible to procure. The quality and germination of the seed is a prime requisite for success with this crop. Land well set in Alfalfa is better than a bank account, producing continuously increasing crops for years and is worth a little trouble and expense to secure a first-class stand. Price of our "Gold" Brand Fancy Seed, Lb. 18c. Bus. of 60 lbs. @ 15c lb. Price of Silver Choice Alfalfa seed, Lb. 15c. Bus. of 60 lbs. @ 14c lb. Price fluctuates. Write for quotations.

1129. **Crimson Clover Seed.** and green manuring, Fall, Winter and Spring pasturing. Crimson Clover furnishes an abundance of nutritive forage at seasons when pastures are dead. It is of an unfailing supply of manure. It solves the problem of cheap manuring. It is the great nitrogen gatherer and economizer in the use of fertilizers. Valuable for planting in orchards, berry patches, and for sowing among cultivated crops, such as Cabbage; Corn, Tomatoes, Cotton, Tobacco. Improves poor land restores to fertility those that have been worn down by excessive cropping. May be planted in Spring, Summer or Fall. Splendid for re-seeding Red Clover that has been Winter killed. Sow 12 to 15 lbs. per acre. "Gold" Brand, Fancy \$3.60 Bus. Silver Choice, \$3.00 Bu. Write for prices.

1130. **Red Clover.** One of the most valuable farm crops, and is largely used for pasturage and hay, and is an improver of the soil. Red Clover is perennial, and will yield crops several years from one seeding, and on good land will yield two or three cuttings per year. The first crop makes rich feed, and is the most valuable for hay. The second crop does not make so good a quality feed. Red Clover should be cut for hay when in full bloom. For hay, it is particularly well adapted for sowing with Orchard and Tall Meadow Oat Grass, as it ripens at the same time, and sowing these three grasses together will give larger yields and of better quality hay than sowing either alone. It is also largely sown with other grasses, both for hay and pasturage. Information as to quantities required per acre, when sown in combination with other grasses will be found under the heading of Orchard Grass, Tall Meadow Oat Grass and Timothy. When sown by itself, sow 10 to 12 lbs. to acre, either in the Fall or Spring, or at the last working of corn. Price of our "Gold" Brand Fancy Red Clover Seed, choicest and cleanest quality, Bu. of 60 Lbs. @ 11c lb. Silver Brand Choice seed, Bu. of 60 Lbs. @ 10c lb. Price fluctuates very much. We will quote prices at any time, or will fill any orders entrusted to us at as low prices as possible for first-class seed.

1131. **Mammoth or Sapling Clover.** Is similar to Red Clover in appearance of seeds and habits of growth; the difference being larger growth and later maturing. It is often used for hog pastures as a soil improver to plow under. It is considered superior on account of its extra growth. It is a good variety for thin soils, or to seed with Timothy, Meadow Fescue or Herd's Grass or Red Top, as it matures about the same time as these grasses. Sow 10 to 12 lbs. to the acre when sown alone. When sown with Timothy, use 6 lbs. clover and 8 lbs. Timothy to the acre. "Gold" Brand, Fancy Bu. of 60 Lbs. @ 11c lb. Silver Brand Choice Seed, Bu. of 60 Lbs. @ 10c lb.

1132. **Alsike Clover.** This is somewhat similar in growth and ap- cold weather better than Red Clover; and where conditions of soil and late- ness of seeding make any possibility of Winter-killing, it is advisable to sow Alsike Clover, or at least to sow it in mixture with other Clovers. It is more suited for mountainous sections than to the coast regions, and it succeeds better on stiff or clay soils than on lighter lands. It is well adapted for sowing with Timothy or Herd's Grass, as it matures with these crops, flowering a little later than the Red Clover. The blooms are not quite so large as the Red Clover, and are of light pink or flesh color. Price of our "Gold" Brand seed, Lb. 20c. Bus. of 60 Lbs. @ 17c lb.

1139. Mammoth Golden Beauty Corn.—Has the largest ears of any 100-day corn. It outyields many other corns. The increased yields repays the seeds many times over. Growers should make sure of getting the largest yield and most handsome grain to meet competition and secure the highest prices. Ears usually average from 9 to 12 in. long and from 20 to 30 rows on the cob, some of the stalks bearing from 3 to 5 ears. Then why use your poor stock any longer? It has produced 150 bushels shelled corn to the acre. **Pt. 10c. Qt. 15c. Gal. 30c. Pk. 50c. Bus. \$1.50c.**

1138. Long's Prolific.—Is the climax of 25 years of Corn breeding and selection by Mr. I. S. Long, one of the most successful and progressive farmers in the Pennsylvania corn belt. **Pkts. 10c. Pt. 10c. Qt. 15c. Gal. 30c. Pk. 50c. Bus. \$1.50.**

*J. Bolgiano & Son, Baltimore, Md. May 11, 1908.
I have been using your seed, and am proud to say, that they
have given me satisfaction.*

E. L. TAYLOR, Lancaster Co., Va.

1141. Bolgiano's Prosperity Corn.—If you really want to grow a bumper crop of beautiful yellow dent corn this year, just take our advice and plant Bolgiano's New "Prosperity" Corn. The fine, large, stately ears are 12 to 14 in. long, 8 to 11 in. in circumference and have from 20 to 24 uniform rows of long, large kernels, well developed over tip and butt. It is a luxuriant grower, growing from 12 to 15 ft. high and if planted during the first half of May will mature before the 20th of September. For more than a score of years "Prosperity" Corn has been under the most watchful and careful breeding and selection; the magnificent results more than pay for every effort put forth. The yield has been miraculous, 160 bus. or more of shelled corn per acre and it has even averaged on a number of acres planted the same year 133 bushels shelled corn per acre. During a continuous test of ten years on about 100 acres it has averaged 125 bushels shelled corn per acre. Is it any wonder we have called such a wonderful corn "Prosperity?"—it don't seem possible to call it by any other name. "Prosperity" is undoubtedly the most attractive, the largest, the finest, the greatest yielding Yellow Dent Corn ever produced. **Pkt. 10c. Lb. 15c. Qt. 25c. Gal. 65c. Pk. \$1.00. Bus. \$3.50.**

1143. Improved Leaming Corn.—Its extreme earliness, productiveness and fine quality has made it very popular with the farmers, and especially with those in the localities where the seasons are short. It produces from 65 to 90 bushels to the acre, in accordance with the quality of the soil. The ears and grains are of medium size. **Pt. 10c. Qt. 15c. Gal. 30c. Pk. 50c. Bus. \$1.50.**

1140. Reid's Yellow Dent.—This comparatively new variety of half dent yellow corn is rapidly gaining great favor as a general crop corn between latitudes 33 and 43, as an early general crop sort, and in the far northeast as an early ensilage corn. It is a heavy yielder in the cotton states. It has a red cob, and matures in 90 to 100 days. **Pt. 10c. Qt. 15c. Gal. 30c. Pk. 50c. Bus. \$1.50.**

White Varieties Of Seed Corn.

BOLGIANO'S CUBAN GIANT ENSILAGE CORN

1054. Red Cob 90 Day-Corn.—This Corn meets a long-felt want, because it can be used as a roasting ear corn and when fully matured makes a first-class Crop Corn for feeding stock. The ear is large, handsome, suits for an early crop or for a late crop, because it matures in 90 days. This makes it always a safe and profitable crop. **Doz. 25c. Pkt. 5c. Pt. 10c. Qt. 15c. Gal. 30c. Pk. 50c. Bus. \$1.50.**

1148. Bolgiano's Cuban Giant Ensilage Corn.—We have thoroughly tested the Cuban Giant beside all large white grain ensilage varieties. Grains are pure white, very large, broad and long. Of stronger vitality than any other variety. It is the best milk producer of all ensilage Corns, being as sweet as sugar Corn. Outyields the Red Cob Ensilage and is 10 to 12 days earlier. It is the most perfect corn we have found in our years of experience. **Pt. 10c. Qt. 15c. Gal. 30c. Pk. 50c. Bus. \$1.50.**

1142. Maryland White Corn.—This very handsome Corn is the favorite of old farmers who like a big grain or a small cob. The grain is pure white, with good-sized ear, having ten rows to the cob. Used for general crop. **Pkt. 5c. Pt. 10c. Qt. 15c. Gal. 30c. Pk. 50c. Bus. \$1.50.**

1145. "Hickory King" White Corn.—So large are the grains and so small the cob that on an ear broken in half, a single grain will almost cover the cob section. Of strong growth, the stalks take a firm hold in the ground and stand upright, resisting severe storms. It yields splendid crops on light soils, and is undoubtedly the best and most productive White Field Corn for the South. **Pkt. 5c. Pt. 10c. Qt. 15c. Gal. 30c. Pk. 50c. Bus. \$1.50.**

1179. Blount's Prolific.—One of the largest yielding varieties for the South, produces 3 to 6 ears white, flinty corn to the stalk. Makes excellent Meal. **Pkt. 10c. Qt. 15c. Gal. 30c. Pk. 50c. Bus. \$1.50.**

1176. Best Twin Ear.—The large fodder produced by this variety makes it a fine ensilage Corn. Produces 2 fully-developed ears to stalk. **Pt. 10c. Qt. 15c. Gal. 30c. Pk. 50c. Bus. \$1.50.**

1177. Iowa Silver Mine.—This very popular variety of white dent corn, originated in Northern Illinois. It matures in about 100 days, and is a good grain yielder throughout the corn belt and eastward, and is becoming quite popular in the southern states. **Pt. 10c. Qt. 15c. Pk. 50c. Bus. \$1.50.**

1180. Improved Southern Snowflake.—Matures in 100 days, grows 8 ft. in height. Produces 2 ears to the stalk. Makes Meal of the finest quality. **Pkt. 5c. Pt. 10c. Qt. 15c. Gal. 30c. Pk. 50c. Bus. \$1.50.**

1147. Kaffir Corn. Makes most nutritious feed for stock and poultry. Kaffir Corn in the last few years has been generally sown with Cow Peas, broadcast at the rate of a peck of

Kaffir Corn to a bus. of Cow Peas per acre. The Kaffir Corn helps to hold the Cow Peas up off the ground, and thus causes a larger growth of cow peas, and both can be cut together, making an enormous yielding crop of most nutritious feed. For a forage crop, when sown by itself, Kaffir Corn should be sown broadcast at the rate of from $\frac{3}{4}$ to 1 bushel per acre. When sown for a forage crop, either by itself or with cow peas, the crop should be cut before it is headed out. **Pkt. 5c. postpaid. Lb. 10c. Peck 30c. Bushel of 50 pounds, \$1.00. Special Price In Quantity.**

1146. Early Amber Sorghum. Furnishes a large yield of most nutritious forage, which can be fed either green or cured, and will yield 2 or 3 cuttings a year, stooling out thicker each time it is cut. It grows 10 to 12 ft. high. Sow broadcast for forage at the rate of 1 to $1\frac{1}{2}$ bus. per acre. When sown in drills sow at the rate of 1 peck per acre in drills $3\frac{1}{2}$ to 4 feet apart. **Pkt. 5c. Lb. 10c. Pk. 50c. Bushel of 50 Lbs., about \$1.50.**

1158. Early Orange Sorghum. This variety is rapidly growing in favor wherever it is grown. Similar in growth to the Early amber, but it is claimed that it produces a heavier crop. **Pkt. 5c. Lb. 10c. Pk. 50c. Bushel of 50 pounds, \$1.50. Price Fluctuates.**

1060. CONNECTICUT FIELD, OR LARGE YELLOW PUMPKIN.—Excellent for growing in corn. **Lb. 20c. 10 Lbs. \$1.50.**

Cow Peas.

The great soil improvers. Make poor land rich. Make good land more productive. Also make a splendid and nutritious green forage or hay crop, enriching the soil even when the crop is cut off.

Cow-pea

1175. Mixed Cow Peas.—We strongly recommend sowing the Mixed Cow Peas as a soil improving crop. The upright growing varieties holding up the vining varieties, they will make much better and give more satisfactory results, yielding better crops of vines and more forage. They are composed of the Blacks, Black Eye, Clays, Whip-poor-wills, Wonderfals, New Era and Soja Beans. If once tried you will sow no others where large crops are desired.

Please Write Us for Prices.
1162. Black Cow Peas.—Seed medium-sized and Black. Vines trailing. Seed matures early. Please Write Us for prices.

1163. Clay Peas.—Seed medium sized and cream colored. Vines grow tall and erect. Seed matures medium late. Write us for prices.

1164. Whip-Poor-Will.—Vines erect. Seed large and mottled red and white and matures early. Good to grow between corn. Please Write Us for Prices.

1166. Wonderful or Unknown Peas.—Seed medium-sized and buff. Vines erect if planted late, trailing if planted early. Seed matures late. Write us for prices.

1167. Soja Beans.—The great drought-resisting forage crop, unsurpassed in nutritive value for feeding; also makes a splendid soil improver. Write us for Prices.

1168. Black Eye.—Vines erect. Seeds medium-sized and white, matures medium late. Please write us for prices.

1190. Red Rippers.—Red seeded, resembles Black Cow Peas in growth of vines, but 10 days earlier and more prolific. Write for prices.

1165. Canada Field Peas.—Under favorable circumstances it will yield more good hay to the acre than any similar crop that can be seeded early in the spring, and it makes a complete food, feeding grain being unnecessary when horse and cattle are fed oat-pea hay. Sown in Jan., Feb. or early Mar., 1 to 1½ bu. per acre, and same quantity of Burt or Spring Oats. Bu. \$1.60. Write for prices.

Burt or 90-Day Oats.

New Era Cow Peas. 44 Days After Planting.

1159. New Era.—This new extra early Cow Pea is unquestionably one of the most valuable varieties in cultivation. It is quicker in growth than any other Cow Pea in cultivation; makes a very large growth of vine and very prolific yield of Peas. The vines stand upright, enabling the Peas to be easily gathered. The Peas are fully one-third smaller in size than the ordinary Cow Pea, so that it does not require nearly as many to seed an acre. Please write us for prices.

1156. Burt or 90-Day Oats.—The earliest, most prolific and surest cropping of Spring Oats; far superior to ordinary spring or rust-proof oats for spring seeding. Wherever this Oat is grown, it comes into great favor. For a spring Oat for seeding in March and April it is the best and surest of Spring Oats. It is earlier to mature, free from rust, healthy, clean and vigorous growth of straw, and makes a very good yield of clean, bright and heavy grain. On account of its earliness to mature, it escapes the hot dry weather which we frequently experience in June, and is on this account, one of the surest-cropping varieties of the South. Color and appearance of grain somewhat resemble the rust-proof Oat, but it is a little lighter in color. **\$1.00 Bu.** Write for prices on large lots.

1161. Virginia Gray Winter or Turf Oats.—When sown before the middle of March, these Oats will far outyield the ordinary spring Oats, making a larger crop and heavier grain. Further north than Virginia, remarkable results have been obtained from these Oats when sown even as late as the first of May, and from the reports we strongly recommend them to our northern farmers, as we believe that they will give very much larger and better yielding crops than the spring Oats usually sown in the northern and western states. Sow at the rate of 1½ to 2 bushels per acre. **85c bu.** Please write us for prices on large lots.

1157. White Spring Oats.—Sow at the rate of 2 bu. per acre in February, March or April, the earlier the better. Price of our **Gold Brand**, (heaviest and cleanest quality), about **80c per Bu.**, Choice quality. White Spring Oats, about **75c per Bu.** Please write us for prices on large lots.

1160. Japanese Buckwheat.—This variety of Buckwheat ripens a week earlier than the Silver Hull, and yields more largely than that variety. The kernels are longer than those of other sorts, but, owing to its branching qualities, it need not be sown quite so thickly. **PKt. 40c. Bus. about \$1.25.** Please write us for prices on large lots.

1178. Silver Hull Buckwheat.—A prolific and favorite sort, making a fine quality flour. Superior in every way to ordinary buckwheat, which it has almost entirely superseded. **About \$1.25 per Bu. Write for prices.**

1135. White Rye.—The straw is equally as valuable as that of the fall or winter rye, standing stiff, 7 to 8 ft. high. Produces 30 to 40 bushels of grain per acre. As it does not stool like winter rye, no less than 2 bu. to acre should be sown. **PKt. 10c. PK. 35c. Bus. \$1.00.** Write for prices.

Mangel-Wurzels.

4 Lbs. to the Acre.

1151. New Jumbo Mangel.—For milch cows and cattle generally, the New Jumbo Mangel has no equal. It is a milk producer of the highest quality and at the same time keeps cattle over winter in prime condition. It will outyield any other Mangel 2 to 1. It is easy to grow, producing immense roots in great quantities thus yielding a most profitable crop. **Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.10.**

1152. Gate Post Mangel.—The name indicates the immense size of this fine flavored Mangel. The milk it produces when fed to cows is of the richest character. As one experienced farmer puts it, "The Gate Post Mangel is a butter and milk producer of the first merit." If you want the best Yellow Mangel you ever grew, send for Bolgiano's Gate Post Mangel. **Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.10.**

1153. Giant Red Mangel-Wurzel.—This mammoth variety grows to immense size, 20 to 30 pounds each, of fine texture and of good quality; is remarkable for broad shoulder and massive shape of the root, by which a great weight is obtained without coarseness. In England it has produced from 60 to 75 tons of roots to the acre. **Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 22c. 5 Lbs. \$1.00.**

1154. Golden Tankard Yellow Fleshed Mangel.—Rich, deep yellow color of flesh, nutritious and milk-producing qualities. In England, large dairy farmers are not only able to obtain a higher price per gallon for milk from cows fed on this Mangel but also that the cows are in much better condition. **Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 22c. 5 Lbs. \$1.**

1155. Improved Sugar Beets for Making Sugar.—A very large growing sort; used also for feeding stock. Recommended as hardy and very productive, yielding from 35 to 40 tons to acre and containing a greater per cent. of sugar. **Oz. 5c. 1/4 Lb. 10c. Lb. 20c. 5 Lbs. 90c.**

CULTURE OF FLOWER SEEDS.

Provided the soil is in a proper state, flower seed may be sown in the open border in the months of April and May, or as soon as the soil becomes dry and easily crumbled, after the spring frost has disappeared. They may also be sown in prepared beds of light, rich soil, and transplanted into the garden. The former is the more simple method but not always as satisfactory. The better plan is to sow all fine seed under glass in the house, hot-bed or in a green-house. As to the depth to which seed should be covered, the best general rule is to cover fine seed very lightly, just enough to protect them from the sun; and in extremely dry weather a sprinkling of damp moss is very useful. With very fine seed it is best to sow on the surface, and press them lightly into the soil. We are convinced that one of the most frequent causes of failure is in sowing the seed too deep, and seedmen are unjustly censured, when fault lies with the cultivator.

Explicit cultural directions are printed on all our packets of flower and vegetable seeds. With that help you are sure of success.

Gladiolus. Rare and Beautiful Varieties.

The Gladiolus deserves to be grown in every garden. For cutting they are invaluable, the flowers lasting a week in water. There is nothing in the flower kingdom so easy of culture and so sure of success as the Gladiolus. They can be planted any time from April to June 15, and never fail to flower the same season. They commence blooming in July, and by successive plantings every two weeks may be had in flower until checked by frost. They should be planted 6 in. apart in rows 4 in. deep. We offer what we consider most appropriate for the home garden as well as for the florist trade, viz:

Groff's Hybrid.—A mixture together with all sorts of Hybrids, consisting of Grandavensis, Lemoinei, and Childsi, making in one bed the greatest collection and variation of color. 3c each. 20c per doz. \$1.50 per 100.

Caladium, Fancy-Leaved.

A fine decorative plant for open ground or pot culture. Foliage is beautifully variegated, being striped and mottled with crimson, yellow, pink, green, etc. The bulbs should be potted early in the spring, and after growth begins placed in a shady location. We have twenty distinct kinds. **Priced, 20c each; 6 for \$1.00.**

Peonies.

Peonies succeed best in deep, rich, sandy soil. They are hardy every where and, after once becoming established, take care of themselves year after year, producing gorgeous, beautiful flowers every spring. Peonies are exceedingly effective planted singly or in groups. The profusion and duration of bloom, combined with handsome, massive foliage, graceful appearance and easy culture place them among the most popular hardy plants. Our roots have from 2 to 5 eyes each and are the best that can be bought. **Achille.** Flesh-colored pink, **25c.** **Agida.** Fragrant, dark crimson, **35c.** **Andre Lauries.** Rosy red, **25c.** **Anemoneflora.** Deep pink, **25c.** **Baron James de Rothschild.** Rose and salmon, **25c.** **Berloitz.** Bright currant-red, **35c.** **Boadicea.** Creamy white, **30c.** **Delicatissima.** Bright pink, **25c.** **Edulis superba.** Brilliant pink, **25c.** **Excelsior.** Beautiful crimson, **25c.** **Felix Crousse.** Rich ruby-red, **75c.** **Grandiflora.** Light crimson, **35c.** **Humei carnea.** Cherry-pink, **25c.** **James Vick.** Brilliant crimson, **35c.** **L'Esperance.** Rose-pink, **35c.** **Madame Bollet.** Clear rose, **30c.** **Mars.** Purplish crimson, **35c.** **Meissonier.** Fine dark crimson, **35c.** **Monsieur Crousse.** Dark, rich red, **50c.** **Paganina.** Lively rose, **35c.** **President Roosevelt.** Bright scarlet, rare, **\$1.00.** **Princess.** Deep rose, pink center, **25c.** **Pottsi.** Dark crimson, **25c.** **Pulcherrima.** Violet-pink, **25c.** **Queen Victoria.** Pure white, **30c.** **Reevesiana.** Purplish rose, **25c.** **Rubra superba.** Brilliant crimson, **50c.** **Rubra triumphans.** Purplish crimson, **35c.**

Rose Bushes

All Our Roses Are Grown On Their Own Roots

All our Roses and Plants are Free by Mail unless otherwise noted.

All our Roses are grown on their own roots, thus insuring you the same variety you plant as long as any of the plant or root remains. Don't buy budded or grafted Roses. If you do you will be disappointed, unless you know how to keep the wild suckers down from smothering the plant. Many fail with their Roses on this account.

OUR ROSES WILL NEVER DISAPPOINT YOU.

Spray Pumps, Plows, Etc.

The New "Kant-Clog" Sprayer.

THE NEW "KANT-KLOG" SPRAYER. Kant-Clog Sprayer style "G" is operated by compressed air, with a patented Kant-Clog nozzle that throws nine different sizes of round or flat sprays and solid streams.

The sprayer body is made of heavy galvanized steel. Top and bottom are dome shaped; joined to body under heavy pressure, making a complete double seam.

The air pump is made of heavy brass two inches in diameter, hose couplings are solid brass, standard cut ends, heavily ribbed to prevent hose from slipping off.

A few seconds working of the air pump thoroughly agitates the solution and charges the sprayer with compressed air. This being a very powerful and elastic force, will, as soon as the thumb presses the "shut-off," force out the liquid in a form of a spray or a solid continuous stream, as desired. After sprayer is charged you need not stop for anything; just walk along from one row to another, the machine will supply sufficient spray to enable you to do the work as fast as you can walk. When properly charged, the tank contains 3 gallons of solution and 1 gallon of compressed air, and two workings of the air pump will discharge the entire contents. Used in greenhouses, poultry houses, the garden and for all plant life including trees. The "Kant-Clog" nozzle furnished with each machine without extra cost, and special attention is called to this nozzle, as it is the only one that can be cleaned without stopping the spray or removing the nozzle. The first and only nozzle ever made that gives both flat and round sprays, or solid sprays. By express or freight, not prepaid. Galvanized steel reservoir, with "Kant-Clog" nozzle, complete, **\$4.50**. With brass reservoir and "Kant-Clog" nozzle, complete, **\$6.00**.

JUNIOR NO. 5 SPRAY AND FORCE PUMP.—This pump does away entirely with the objectionable foot rest. The clamps, leather suction, packing, etc., require no fastenings, as they hold themselves down. Will pump from a pail, barrel, tank, spring or creek. Has automatic mixer to keep solution stirred. It is practically impossible for any part to get out of order, as everything except handle and hose is of solid brass. The extension pipe and brass elbow can be used on either of these sprayers. By express not prepaid, complete, **\$3.50**.

Throws three sizes of solid continuous streams and two sizes of fine round sprays. By express not prepaid, complete, **\$3.50**.

EXTENSION PIPE.—Made of solid brass. Three feet in length. Several lengths of pipe may be screwed together and the "Kant-Clog" nozzle elevated for spraying trees. By express, not prepaid, **35c** each.

BRASS ELBOW.—Used in connection with one length of extension pipe for spraying cucumbers or other low growing vines. Made of heavy brass. By express, not prepaid, **30c** each.

SLUG-SHOT PLANT DUSTER, 40c.

DUST BLOW.—The Dry Powder Sprayer.—Impossible to draw powder back into the cylinder pump, and if the powder is sifted through a screen and kept absolutely dry it will be impossible for the same to clog. Price, **65c**.

THE "AUTO-SPRAY."—The name "Auto-Spray" stands for a perfect compressed air sprayer. The "Auto-Spray" works automatically for from six to fifteen minutes and may be charged in fifteen seconds by a stroke of the plunger. The "Auto-Spray" is the result of valuable original ideas, ingenuity and mechanical ability. One boy with an "Auto-Spray" will easily do as much as three men with a hand atomizer or any other hand device.

THE "AUTO-SPRAY."—Diameter 7 in., height 2 ft., 4 gal. tank, with our patent inward lock seam, brass connections, stopcock and nozzle, are turned out of solid brass and are not stamped out of thin sheet metal.

NO. 1 BRASS TANK, with stopcock, **\$6.00**; with "Auto-Pop," **\$7.00**.

NO. 1 GALVANIZED TANK, with stopcock, **\$4.50**; with "Auto-Pop," **\$5.50**.

THE FOUNTAIN SPRAYER.—One of the best compressed air sprayers on the market. The tank has a capacity of 3 gallons and is tested to an air pressure of 50 lbs. to the square in., which obviates any danger of bursting. The machine is carried in one hand like a satchel, and the spray can be started, or stopped by a thumb lever operated by the same hand that carries the sprayer. Price, Galvanized Tank, **\$5.50**.

No. 1.—"Auto-Spray."

Insect Destroyers.

ARSENATE OF LEAD, in Paste Form. For Elm-leaf-beetle and caterpillars.

It is the best insecticide for potato bugs, codling moth, canker worm, rose bugs, grape worm, cucumbers and melon beetle; in short, the best for all biting insects.

As a poison rapidly taking the place of Paris green, the great advantages are that it adheres well to the foliage and spraying does not have to be repeated as it does not readily wash off by rain. It also remains well suspended in solution so that an even distribution can be obtained. It is white in color and shows just where it has been applied. Its principal advantage lies in the fact that it does not injure tender foliage. **Price, 1 lb. 25c. 5 lbs. \$1.20; 10 lbs. \$2.30; 20 lbs. \$4.50; 100 lbs. \$20.00; bulk 18c lb.**

LEMON OIL.

Perfectly safe and harmless to the tenderest foliage and roots. It effectually destroys mealy bugs by syringing or dipping. It also destroys scales, thrip, red spider, black and green fly, caterpillar, American blight, mildew, etc. Dilute with 50 parts water. **1/2 pint, 25c; pint, 40c; qt. 75c. 1/2 gal. \$1.25; Gal. \$2.00.**

TOBACCO DUST, FINE.

For green and black aphids, fleas, beetles, etc. Splendid fertilizer and preventive for insects in the ground and around roots. For insects on plants apply with powder duster or blowers. For worms or grubs in the soil apply liberally to the surface and rake in, or strew thickly in the drills before planting. **Price, 5 lbs. 25c. 20 lbs. 80c. 100 lbs. \$3.75.**

BORDEAUX MIXTURE. (Standard Formula 1 gallon makes 50 gallons spray.) Ready for use by simply adding water. An indispensable fungicide, curing and preventing black rot, mildew, blight, rust, scab, and all fungoid diseases on fruits and plants. **Price, 1 pint, 25c. 1 quart, 40c. 1 gal. \$1.00. 5 gallons, \$4.50.**

POWDERED WHITE HELLEBORE.—Less poisonous than Paris green and safer to use when fruit or vegetables are nearly ripe. **Price, 1 lb. 25c. By mail, 36c.**

SLUG SHOT (Hammonds).—Guaranteed to destroy potato bugs, and those on tomato and egg plants, currant worms, cabbage lice and worms, fleas, beetles, and striped bugs on melons, turnips, beets, onions, etc.; canker-worms and caterpillars on fruit and ornamental trees. **1 lb. 10c. By mail, 26c. 5 lbs. 25c. 10 lbs. 50c. 100 lbs. @ 4 1/2c. 235 lb. Bbl. @ 3 3/4c.**

KILL-O-SCALE.—The supreme remedy against San Jose scale. When diluted with water makes a perfect solution, which can be applied with the finest nozzle. Testimonials from leading experimental stations prove Kill-O-Scale the best remedy against the scale. Full directions with each package. Apply while trees or shrubs are in a dormant state. **Send for special circular. Qt. 50c. 1/2 Gal. 75c. Gal. \$1.50. Special prices in Barrel lots.**

TOBACCO STEMS.—Indispensable for fumigating green houses and conservatories for the destruction of green and black aphids and other insects.

Dampen thoroughly a few hours before using, place about a half-pound over a handful of shavings in a fumigator and light.

Also for covering lawns during winter. It not only acts as a protector, but imparts large quantities of ammonia and drives away insects and moles. **5c a pound. Large quantities, 50 pounds, 3c a pound.**

WHALE OIL SOAP.—Makes an excellent wash for trees and plants where insects and eggs affect the bark. **5c, 10c and 15c cakes. 1 lb. by mail 30c.**

PARIS GREEN.—1/2 lb. 20c. 1 lb. 35c. 14 lb. Buckets @ 30c b.

TARGET BRAND WEED KILLER.

Destroys Weeds, Grass, Poison Ivy, Sumac, and all kinds of undesirable Vegetation. An application of this will keep drives, walks and tennis courts absolutely free from vegetable growths of any kind, thus doing away with repeated labor and expense of hoeing and weeding. Target Brand Weed Killer is a liquid which is to be diluted in water. It can be applied with an ordinary sprinkler or watering pot. The results of same will be seen within ten hours after an application. Two treatments is all that is necessary for an entire season; and frequently only one, mix 1 part to 49 parts of water. **Price, 1 Qt. 45c. 1/2 Gal. 65c. 1 Gal. \$1.00. 5 Gals. \$4.50.**

KEROSENE EMULSION.—(LIQUID) Ready for use by simply adding water, 25 to 50 parts to one. This is strictly an insecticide for plant lice of all kinds, rose bugs, melon insects, fowl, human and animal lice, caterpillars, tobacco flies, peach lice, red spiders, green fly and all sucking insects. **Qt. 40c. Gallon \$1.00. Five Gallons, \$4.50.**

DRY BORDEAUX MIXTURE AND PARIS GREEN COMPOUND.—This Compound has proved very successful; while cheaper than Paris Green, it kills the bugs equally well, insures a vigorous growth, and prevents blight. Defends plants against flea beetles. **1 lb. Box, 25c. By mail, 40c.**

(LIQUID INSECTICIDES CANNOT BE SENT BY MAIL.)

Target Brand Scale Destroyer

REGISTERED U. S. PATENT OFFICE.

This preparation is the most effective and practical means of controlling the San Jose scale, which has yet been found. It destroys insect life by contact—that means it kills scales, larvae, insect eggs, and all kinds of insects, either by absorption of the oil, or the formation of the fatal film, which destroys life by suffocation. This preparation contains a combination of mineral and vegetable oils, and is easily mixed with water. When diluted with 19 parts of water, it represents a 5 per cent. solution of mineral oil sufficiently strong to be fatal to insect life, and yet remain perfectly harmless to buds, bark, and the growth of the tree. It can be diluted with either warm or cold water, and represents the cheapest, easiest to prepare, and the most reliable spray for fruit-growing either on a large or small scale.

DIRECTIONS.—Dilute 1 to 20 for fall, for winter and spring treatment, and 1 to 40 or 45 for summer treatment. **By mail, \$1.16.**

Target Brand, Potato Scab Destroyer

Since the Potato Scab is now known to be a fungus growth, it is important that seed potatoes should be free from disease when planted. In order to successfully control the Potato Scab, the seed potatoes must be treated previous to planting. Our Potato Scab Liquid represents the best material for this purpose. One pint of this liquid is sufficient for twenty bushels of seed potatoes. **Pint bottle 50c.**

APHIS PUNK (Nikoteen).—Especially designed for use in private places and in houses without convenient furnaces for heating irons necessary for vaporizing Nikoteen, or Tobacco extract. It is very effective as an insecticide. The Punk is lighted with a match and allowed to burn, which it does without flaming, at the same time giving off dense white fumes of nikoteen that kill aphids and thrip very effectively. **Per box 60c. By mail 75c. Per 12 boxes, \$6.50.**

KIL-WORM.—Destroys worms, ants and grubs infesting golf, cricket grounds, parks, private lawns and cemeteries, and snails in greenhouses. Kil-Worm does not injure grass, but acts rather as a fertilizer and causes the insects to come to the surface to die. One gallon makes 50 gallons of liquid. **1 qt. 65c, 1/2 Gal. \$1.25. 1 Gal. \$2.00. 5 Gals. \$9.00.**

Sulpho-Tobacco Soap.

A WONDERFUL INSECT PEST EXTERMINATOR.

Unsurpassed for quickly exterminating all insect life on plants and flowers in and out of doors. Excellent for rose bushes, shrubs, etc. The popular insecticide never fails to give satisfaction, and is cheap, effective, clean, harmless, and non-injurious to the tenderest growth. It also acts as a valuable fertilizer, reviving plant life. For domestic purposes it rids the house of cockroaches, and is a superior wash for dogs and all animals. Prevents poultry lice. You cannot afford to be without Sulpho-Tobacco Soap if you desire to be successful in plant culture. A trial will give highly gratifying results. Boligiano's Lawn Fertilizer.

Stable manure should never be used as the top dressing on lawns, for it always contains large quantities of weeds. We have, therefore, had prepared for us a special lawn fertilizer, which is clean and high grade in every respect, and free from disagreeable odors. It produces a rapid and rich green growth of grass and should be sown broadcast in the Spring or Fall. 10 pounds for 300 square feet, \$2.50 to 1500 pounds per acre.
