BOLGIANO'S SEEDS. BALTIMORE, MD

WE WANT YOUR TRADE.

WE WILL TREAT YOU RIGHT.

We Believe J. Bolgiano & Son's Seeds, Plants and Bulbs will produce for you the best crops you have ever grown, and to show you what confidence we have in our Seeds, if they prove otherwise than represented by us, we will refill your order free of charge; but it must be agreed that we do not warrant the crops grown therefrom, either express or implied, as to description, purity, productiveness or any other matter and we will not be, in any way responsible for them. If the purchaser does not accept our seeds, etc. on these terms they are at once to be returned and the money that has been paid for the same will be refunded.

The Seed Farmers whom we employ to grow our Seeds we believe are the most careful, the most experienced and the most honorable in the world. We appreciate your orders and they will receive our prompt attention.

Yours for a Prosperous Year,

J. Bolgiano & Son.

J. BOLGIANO & SON, Baltimore, Md.

September 5th, 1907.

Gentlemen:—It is with pleasure that I send you this order for the reason that I get what I order, and when I get it, it is good. Yours very truly, MILTON W. MOST, Prince George Co., Md.

FREE DELIVERY BY MAIL. We deliver free to any post-office in the United States all vegetable and flower seeds offered in this catalogue by the packet, ounce, quarter-pound and all varieties of Tomato Seed in any size package, including pounds. On all other seeds for half-pounds and upwards add 8 cents per pound.

SIMPLE RULES FOR ORDERING

When Best to Order.—We are fully equipped for filling orders, and supplied with New Crop Seeds. Order at once, so that you can have your seed on hand ready to start planting your crops at the proper time without delay.

Send by mail if you cannot get to see us. We will send you Seeds that have been saved with great care. You will be pleased with the crops, and satisfied with our prices.

Use our Order Blank if you have one. If you haven't one, use any plain paper.

Tell Us in Your Own Way What You Want, in any language, always giving the Catalogue Number of each article. Enclose in your letter the amount of money, either a post-office money order, which you can get at the post-office, an express money order, which you can get at the express office, or a draft, which you can get at any bank; or put the money in your letter, take it to the post-office and tell the postmaster you want it registered.

The Cost of Your post-office or express money order may, on all orders over \$1.00 be deducted from the amount sent.

Postage Stamps, we will accept postage stamps the same as cash.

If You Live on a Rural Mail Route, just give the letter and the money to the mail carrier and he will get the money order at the post-office and mail it in the letter for you.

GUARANTEE.—We Guarantee all Shipments of Seeds, when remittance accompanies order, to reach the purchaser safely and in good condition.

Don't be Afraid You Will Make a Mistake. We receive many orders from young and old who never before sent away for seeds. We are accustomed to handling all kinds of orders. No matter whether your order is in good or bad writing we will promptly fill it and send it to you.

Don't be Afraid of the Freight or Express Charges. By our guaranteeing the expressage all the express lines in the United States and Canada, in the traffic agreement, are now carrying seeds at a reduced rate of 20% less than merchandise rates. Neither the freight or expressage will amount to much compared with what we save you in cost.

CHANGE OF ADDRESS.—If you have changed or intend to change your address, please let us know, and we will change it on our books, so that you will receive our Catalogues at your new Post-Office.

Be Sure to Sign Your Name and Address.—If by boat or railroad say distinctly which Boat or railroad to ship by, and if freight has to be prepaid add this amount to your order to prevent delay.

IF YOU ARE SATISFIED WITH US, with the goods you receive, the treatment we give you and your general business relations with us, will you do us the favor of mentioning the fact to some of your neighbors? If we can please you, we can please others, and we assure you that we will be careful to make your friends more than satisfied with the experiment.

BOLGIANO'S RELIABLE SEEDS.

Market Gardeners, Farmers' Clubs and Institutions wanting to purchase Seeds in unusually large quantities should write for special prices. We have made prices very low in this Catalogue, yet when a number of bushels or pounds are wanted we can frequently supply at lower price than by the single pound or bushel. In writing give us a list of quantities and varieties required and we will return list promptly with our lowest price for the lot.

Always remember that we can save you money, no matter where you live. Write us about any seed you would like to know of, and your letter will be answered the same day it is received. If you wish to know exactly what the freight or express would be on any article to your station, write us and we will tell you.

Prices in this Catalogue are Subject to Market Changes, Special Quotations Promptly Given.

SPECIAL FOR SMALL GARDENS—\$2.00 worth of Bolgiano's Reliable Garden Seed will produce from \$100 to \$200 worth of vegetables in any good Kitchen Garden. When vegetables come fresh, each meal, from your own garden, they are very delicious.

U. S. Dept. Agriculture Bulletin entitled "The Vegetable Garden"

"The Small Garden probably pays better than any other land on the place. The average value of Garden Stuff to the acre was found to be \$147.17 while for Wheat the average was only \$11.65. In addition to this the GARDEN may be a bountiful source of quiet pleasure."

ENCOURAGE GOOD HEALTH BY THE FREE USE OF VEGETABLES.

Nearly every vegetable furnishes some constituent required by the system, that is otherwise not easily obtained except as a medicine.

Asparagus assists in the cure of kidney disorders. Beets and potatoes will add fat to the body. Carrots are excellent for indigestion. Garlic and leeks stimulate the circulation. Lettuce is a remedy for insomnia. Lettuce, onions and celery are tonics for the nerves. Onions are a germicide and also prevent malarial fever. Parsley assists good digestion. It is a boon to the dyspeptic. Parsnips are two to one ahead of Hood's or any other sarsaparilla. Peas and beans are most nutritious and are flesh-formers. Spinach has the same effect on the system as "blue pills." It is a kidney cure. Tomatoes will stimulate the torpid liver. Water cress braces up the system.

The liberal use of seasonable vegetables as they come in throughout the year will save doctors' bills and do more to keep the family in good health and good spirits than a well-filled medicine chest.

Bolgiano's "Greater Baltimore" Tomato

ACKNOWLEDGED BY LEADING AUTHORITIES TO BE THE
BEST MAIN CROP TOMATO IN THE WORLD

There is no Tomato EQUAL to it. There are other GOOD Tomatoes, but "GREATER BALTIMORE" Tomato is BEST OF ALL.

We Again Stake Our 90 Years of Honorable Reputation Back of this Wonderful Tomato. It's as Good as gold.

279

Bolgiano's "Greater Baltimore" Tomato.

Prof. W. W. Tracy of the United States Agricultural Department, at Washington, D. C., told us personally, last summer that with him the "GREATER BALTIMORE" Tomato held its fine large size, to the last Tomatoes on the vines. J. B. & S.

1. GREATER BALTIMORE TOMATO IS THE HIGHEST MOUNTAIN TOP OF SUCCESS IN TOMATO GROWING.
2. JUST DOUBLES YIELD OF THE BEST CROPPING TOMATO YOU HAVE EVER GROWN.
3. Smooth, well-formed and deep from stem to blossom.
4. Its extremely heavy weight is due to its firmness and great meatiness.
5. It ripens evenly to the stem and is entirely free from ridges, cracks and blight.

6. Unrivalled shipper, due to its solidity and firmness.
7. Fruits in large clusters at every second joint, joints are short and sturdy.
8. Brilliant red color, the handsomest tomato we have ever seen.
9. Vigorous, compact; healthy vines.
10. The grandest Second Early and Main Crop Tomato on Earth.

PRICES.—Pkt. 10c and 25c. 1/2 Oz. 35c. 1 Oz. 60c. 2 Oz. \$1.00
1/4 Lb. \$1.75. Lb. \$6.00.

After another season has passed, and the "Greater Baltimore Tomato has been grown in almost every state in the Union, and in many Foreign Countries it is almost impossible to give a description of its merits without seeming to claim for it Supernatural Powers; so in describing it, we will, as far as practical, confine ourselves to extracts from the experience of those who have grown the "Greater Baltimore" the past year. A Florida man writes "It is the finest Shipping Tomato ever sold,—tested side by side, and shipped side by side with five leading varieties—it beat them all." Another writes "Out of 15 Red varieties it was the best of all." "Very prolific—it yielded from 300 to more than 500 bushels of 60 lbs. per acre." One man raised 17,000 plants from 1/4 lb. of "Greater Baltimore" tomato seed. "Vigorous grower," strong healthy plants. Fruit uniform in shape and size, solid, large, very regular, smooth, shapely, fleshy, very meaty, ripens well and evenly. Beautiful bright red color, fruit very handsome, dozens weighing 30 ounces, and several exceeding 32 ounces. Seed planted a month later than "Duke of York" produced shipping fruit two weeks before that variety was ready. "Fine crop in bad season." Excellent keeper—has kept until New Year's Day, Rust and blight proof. Recommended unreservedly by a grower for "the section around Lakeland, Fla." Had proved better than any variety tried at Picton, Canada. "Stands the heat and drought of Mississippi." "Very valuable for South Carolina climate." In the canning districts of Delaware and Maryland "yielded a fine crop in a bad season." Texas says there is no better tomato in size and taste on the market; not an acid tomato—very fine flavored. As a home garden Tomato "the results have been far beyond expectations." On our own table we sliced the "Greater Baltimore" Tomato like we would slice a fine tender roast beef. We have tried to grow enough seed to go around this year, but to be on the safe side, you had better order immediately.

Your "Greater Baltimore" Tomato I planted last season, is the finest I have ever planted. I shipped about 800 crates from 1 1/2 acres, some sold in Boston by J. D. Mead & Co. for \$3.00 a crate. I recommend it unreservedly to the growers of this section. I planted five different varieties and the "Greater Baltimore" led them all. You can put me down for "Greater Baltimore" next season. Yours very truly,
Sept. 29, 1906. THOMAS S. JOHNSON, Polk Co., Fla.

J. Bolgiano & Son, Baltimore, Md.

Oct. 2nd, 1907.
Kindly book us for 25 pounds of "Greater Baltimore" Tomato Seed for 1908 crop and be sure we get this seed as the "Greater Baltimore" Tomato can be easily told from any other. No other will do. Yours very truly
LAKEPORT PRESERVING CO., Mr. G. E. Mathews, Mgr., Lakeport, Ont., Canada.

J. Bolgiano & Son, Baltimore, Md.

Jan. 14th, 1907.
Please send us at once by express, 30 lbs. of your "Greater Baltimore" Tomato Seed. Please see that you send us your very best seed, as we use "Greater Baltimore" Tomato Seed exclusively among our growers of Tomatoes. Yours very truly,
WM. LANNING & SON, Cumberland Co., N. J.

OFFICIAL REPORTS

—ON—

Bolignano's "Greater Baltimore" Tomato

Maryland Agricultural Experiment Station

H. J. PATTERSON, DIRECTOR.

College Park, Prince George Co., Md., Oct. 8th, 1907.

Mess. J. Bolignano & Son, Baltimore, Md.

Gentlemen:—Replying to yours of recent date to Director Patterson will say that the Greater Baltimore again yielded better than any of the eleven varieties of its class tested. Two sowings were made. The first on March 1st, in hot-bed and the second outside in cold frames, the first of April.

The yields of the first sowing were:	Ton.	Lbs.
Greater Baltimore	12	360
Matchless	11	185
Paragon	9	1575

The yields of the second sowing were:	Ton.	Lbs.
Greater Baltimore	10	010
Paragon	8	530
Matchless	7	760

Yours very truly, THOS. H. WHITE.

GEORGIA EXPERIMENT STATION EXPERIMENT, GA.

Aug. 22, 1906.

I am glad to be able to state that the "Greater Baltimore" Tomato has proved extremely promising the present season. "Greater Baltimore" along side of Crimson cushion and Ponderosa has proved as large as the latter and as solid and symmetrical as the former. That is saying a great deal for it. We have picked this season dozens of specimens of "Greater Baltimore" weighing over 30 ounces and several exceeding two pounds. I enclose a print of one of the latter, which tells its own story on the scale. I believe that you have a good thing in this variety.

Very truly yours, H. N. STARNES,
Biologist and Horticulturist.

Arkansas Agricultural Experiment Station Fayetteville, Arkansas

In reply beg to state that no tomato upon our experimental grounds has given the satisfaction that we have gotten from "Greater Baltimore." It is early, prolific, hardy, of excellent quality and is fruiting longer and more satisfactory than anything else we have.

We thank you for calling our attention to this fine fruit. It should be largely planted by vegetable gardeners as well as for other commercial and family purposes.

Yours truly,
W. C. VINCENHELLER, Director.

Kaysville, Utah, Nov. 26th, 1906.

J. Bolignano & Son, Baltimore, Md.

Dear Sirs:—In reply to your inquiry, will say I planted the "Greater Baltimore" in fifteen different fields separate from our Stone and that in every section and every field they ripened about ten days earlier than any others, they ripen even to the stem, are very solid, also prolific and of a beautiful deep red color. I consider them an IDEAL TOMATO for both grower and canner.

Yours truly,
KENISH CANNING CO. Per CROSS, Supt.

December 5, 1906.

Messrs. J. Bolignano & Son, Baltimore, Md.

Gentlemen:—The "Greater Baltimore" Tomato that I used last season from your seed is entirely free from blight and the largest yielder by half that I have ever used. There can't be anything better; as you have my order I can say no more.

Very respectfully,
S. M. JOHNSON, Hurlock, Md.

The "Greater Baltimore" was something to marvel at, extra large, immense yielder, rust and blight free, beautiful color, and the best of all red tomatoes tried here among fifteen varieties. Same season as the Chalk's Jewel but decidedly better. Our Fall "Greater Baltimore" plants are standing the heat and draught fine.

Very truly yours,
MAGNOLIA FRUIT FARM,
S. WHERRY & SON, prop. Holmes Co., Miss.

Aug. 21st, 1906.

J. Bolignano & Son, Baltimore, Md.

Nov. 20th, 1907.

My "Greater Baltimore" Tomato plants were a perfect mass of Tomatoes, the finest I have ever seen. I do not think you will get any tomato to surpass the "Greater Baltimore."

Yours very truly,
B. Z. LLOYD,

Nacogdoches Co., Texas.

J. Bolignano & Son, Baltimore, Md.

Nov. 8th, 1906.

We got better results out of "Greater Baltimore" Tomatoes than any other tomatoes. They grow large, smooth and solid and are very productive. I have already sent you my order for "Greater Baltimore" Tomato Seed for next Spring.

Yours truly,
W. T. FRYER, Cecil Co., Md.

Vermont Agricultural Experiment Station

JOSEPH L. HILL, DIRECTOR

Burlington, Vt., Sept. 12, 1907.

J. Bolignano & Son, Baltimore, Md.

We have the "Greater Baltimore" Tomato on trial and find it a very satisfactory medium to late tomato. The fruits are large and heavy.

Yours truly, WILLIAM STUART, Horticulturist.

The Pennsylvania State College. AGRICULTURAL EXPERIMENT STATION

State College, Centre Co., Pa., Aug. 27, 1906.

The following is the report upon the "Greater Baltimore" Tomato Seed, which we promised a few days ago. Fruit large, oblate, slightly chameled about the stem and not deeply however—fruit very regular in form, smooth and shapely, fleshy and solid and ripens well and evenly; color bright—altogether being very handsome in appearance. Our MOST CONSERVATIVE ESTIMATE of the rate of yield per acre of this variety is 300 or more bushels of 60 pounds.

Our conclusion then, is that "Greater Baltimore" is a fine variety, large, solid, uniform in shape and size—and very productive—and worthy of dissemination.

Very truly, J. P. PILLSBURY,

Asst. Horticulturist.

Clemson Agricultural College of South Carolina

Department of Agriculture and Experiment Station

I am pleased to state that the tomato seed you sent me of the "Greater Baltimore" has proven itself to be a very valuable vegetable for our climate. They were quite prolific, and the fruit was very handsome.

Thanking you, I remain, Yours very truly,
J. N. HARPER, Director.

Sugar Experiment Station

OF

THE LOUISIANA STATE UNIVERSITY

Audubon Park, New Orleans, La.

We found the "Greater Baltimore" Tomato to germinate well, and to be a vigorous grower, prolific bearer and altogether quite satisfactory.

Yours truly,
Per H. P. C. R. E. BLOUIN, Assistant Director.

J. Bolignano & Son, Baltimore, Md.

We used some of your "Greater Baltimore" last year and found them the "stuff" for canning purposes.

Yours very truly,
Per L. I. Moore. OREGON CANNING CO., Hot Co., Mo.

J. Bolignano & Son, Baltimore, Md.

June 5th, 1907.

We are partial to the "Greater Baltimore" as they mature about a week earlier here with us than the Stone variety.

Yours very truly, WATSON BROS., Cumberland Co., N. J.

J. Bolignano & Son, Baltimore, Md.

Gentlemen:—Mess. Wm. NUMSEN & SON, Baltimore, Md. contracted for my tomatoes this year. I have grown your "Greater Baltimore" Tomato for THREE Successive Years and am more than pleased with them. They grow at least two tons more to the acre than any other tomato that I have ever grown and I will plant them again next spring. My neighbors to whom I have recommended the "Greater Baltimore" Tomato are also well pleased with them.

Yours respectfully, WM. GEAVERTON, Kent Co., Md.

The "Greater Baltimore" is O. K.

PARKIN SCOTT, Hanover Co., Va.

Arkansas Agricultural Experiment Station

Fayetteville, Arkansas, October 17, 1907.

J. Bolignano & Son, Balto., Md.

Your "Greater Baltimore" Tomato is not so early (as I.X.L.) but is very fine in quality, showy, prolific fruiter and continues to bear late in the season.

Yours very truly,
W. G. VINCENHELLER, Director.

Bolgiano's Extremely Early Prolific I. X. L. TOMATO

THE EARLIEST—THE MOST PROLIFIC—THE BEST TOMATO YOU HAVE EVER SEEN.

277. A WEEK EARLIER THAN THE EARLIANA. AS LARGE AS THE GREAT B. B. IN FACT THE WORLD'S LEADING EXTRA EARLY TOMATO. MORE PRODUCTIVE THAN THE CHALK'S JEWEL. AS SOLID AS THE NEW CENTURY.

READ THESE LETTERS

J. Bolgiano & Son, Baltimore, Md.

You have the wrong name for your Bolgiano I. X. L. Tomato. It should be called the "FINEST," for they are the earliest, most prolific and the best Tomato I have ever seen. Call them the "FINEST." Yours truly,
Edward Faidley, Sullivan Co., Tenn.

J. Bolgiano & Son, Baltimore, Md.

July 7th, 1907.

I wish you could have seen the I. X. L. Tomatoes. The ground was covered with them. I never saw as many on bushes in my life. Yours truly,

THE BEST IN
20 YEARS
EXPERIENCE

Oct. 31, 1906.
J. Bolgiano & Son,
Baltimore, Md.
Gentlemen:—I think the I. X. L. Tomato is the best Tomato I have ever grown and I have been a Tomato grower for the past 20 years and have grown many kinds of tomatoes, but no any that comes up with the I. X. L. Tomato. I think they are the best tomatoes I ever saw and the most prolific.

Yours truly,
C. F. Ingraham,
Naranja, Fla.

THE BEST IN
12 YEARS
EXPERIENCE

Jan. 18, 1907.
J. Bolgiano & Son,
Baltimore, Md.
I have been buying seeds from you for a number of years and will say right here that I have been trucking for 12 years and your I. X. L. Tomato is by far the best I have ever seen.

Yours very truly,
J. B. Taylor,
Botetourt Co., Va.

BOLGIANO'S EXTREMELY EARLY PROLIFIC I. X. L. TOMATO.

277. In Market Gardener's Field Tests, I. X. L. Tomato proved to be a week to ten days earlier than the Spark's Earliana, with an abundance of fruit larger and more prolific than Chalk's Jewel, in fact any number of specimens could be found as large as the Great B. B. Tomato. It has a little more vine and leaves than the Wealthy Tomato, thus protecting the blossoms from being easily knocked off, by heavy rains or winds; also protecting the fruit from being sunburned or scalded. The I. X. L. Tomato is without a single exception the Leading Extremely Early Tomato, and while many of the most Experienced Tomato growers tell us we cannot say too much in favor of this Excellent Early Tomato, there are many who have not grown it yet. To them, we say again, do not experiment with it but plant your entire early crop in I. X. L. Tomato, your crop will net you big returns. We stake our reputation on I. X. L. TOMATOES. Below we give in a concise form the most striking features of this Tomato.

1. EARLIEST, LARGEST, ABSOLUTELY SMOOTH TOMATO ON EARTH. A week earlier than the "Earliana," and as large as the "Great B. B."
2. A beautiful, brilliant red color.
3. Vines are a perfect mass of large, smooth fruit, a single plant yielding 1/2 bushel.
4. Fruit is extremely early, enormously abundant and ripens all at once.
5. Vines are very compact and can be placed two feet apart in three foot rows.

6. As an extremely early prolific stem setter it is a wonder.
7. The absence of unnecessary leaves permits all the fruit to ripen so remarkably early.
8. It is almost like finding money to grow the I. X. L. TOMATO.
9. The Largest growers tell us we cannot say too much in favor of the I. X. L. Tomato.

Price, Pkt, 10c and 25c. 1/2 Oz. 50c. 1 Oz. 75c. 2 Ozs. \$1.25. 1/4 Lb. \$2.25. 1 Lb. \$8.00.

J. Colgiano & Son, Baltimore, Md.
I have never seen anything to compare with your I. X. L. Tomato. They are earlier, and stood the hot sun better than any other Tomato. I have some experience—been farming for 15 years.

IN

BOLGIANO'S EXTREMELY EARLY PROLIFIC

I. X. L. TOMATO

THE EARLIEST AND BEST TOMATO ON EARTH.

The Colorado Agricultural Experiment Station.

J. BOLGIANO & SON, Baltimore, Md.

FORT COLLINS, COLORADO.

It is a difficult question for us to grow any but the very earliest Tomato with any degree of success in this locality. We find the I. X. L. very satisfactory, it is extremely early, fruit large, good (red) color, firm and of good quality. As far as my taste personally goes, this is one of the best Early Tomatoes that I have ever tasted. I consider the quality much better than any pink Tomato which I have seen.

Yours truly,

W. PADDOCK.

CLEMSON, S. C., Oct. 17, 1907.

While this was a very dry season and the yield of Tomatoes was considerably cut off by lack of rain, yet your Extremely Early I. X. L. Tomato produced an abundance of Tomatoes for me, and they were of fine quality.

Very truly yours,

J. M. HARPER, Director.

Will you please send me your catalogue? I want to grow your I. X. L. Tomato next year. I think if your I. X. L. Tomato proves as good another year as it did this, it will become the leading tomato of this section of the country.

Yours truly, W. R. HAWS, Smith Co., Texas.

GATHERED FRUIT IN 80 DAYS.

J. Bolgiano & Son, Baltimore, Md.

July 26th, 1907.

Your I. X. L. Tomatoes are all one could wish for. I gathered ripe fruit from plants 80 days from day I planted the seed. Your Prosperity Yellow Corn is the wonder of the neighborhood, such long ears as long as your arm on poor piney wood land.

Yours very truly,

G. B. CALDWELL, Genesee, La.

GROW FINE IN VIRGINIA.

J. Bolgiano & Son, Baltimore, Md.

Aug. 1st, 1907.

I bought of you last February one pound of Bolgiano's Famous I. X. L. Tomato Seed. The Tomatoes are fine.

Yours very truly,

M. B. WRIGHT, Essex Co., Va.

HOW IS THIS FOR A HOME GARDEN.

J. Bolgiano & Son, Baltimore, Md.

From 300 plants of your I. X. L. Tomatoes, I took 60 bushels to market, used 30 baskets in my own home and there are from 30 to 40 baskets yet on the vines. Each plant yielded 1½ pecks or more. The tomatoes are so solid it is like cutting a piece of meat and many weigh from 1½ to 2 lbs. each.

WM. CLAUSS, Anne Arundel Co. Md.,

HE CAN RECOMMEND IT.

J. Bolgiano & Son, Baltimore, Md.

Yalaha, Fla., Oct. 28, 1906.

Dear Sirs:—Yes, indeed, I can recommend the I. X. L. Tomato. It has proven perfectly satisfactory in every shape. It is the finest tomato I have ever grown.

Messrs. J. Bolgiano & Son, Baltimore, Md.

Dear Sirs:—In regard to I. X. L. Tomato Seed, can conscientiously say so far as I know, it has no equal for earliness, productiveness, and solidity. I got mine started in the field when my neighbors were large and blooming, but the I. X. L. came a few days ahead of his in maturing shipping fruit and held out the longest. "It is surprising" a neighbor said, "such little vines, and such large and early fruit."

Yours respectfully, CHRISTIAN PETER.

Early Fortune Cucumber

J. Bolgiano & Son, Baltimore, Md. June 5th, 1907.
Last Spring I planted your Early Fortune Cucumber Seed and from 1 1/4 acres picked 1200 crates, which netted me nearly \$2,000.00. This Spring I planted 3 acres and though the crop was cut half by the cold and draught, I guess I made the best crop in this section, getting about 1,500 crates, which netted me about \$2,400.00. I shall plant same seed next Spring and think I can sell several hundred lbs. for you.

J. Bolgiano & Son, Baltimore, Md. Nov. 15, 1906.
Had the Early Fortune Cucumber last spring and never saw finer Cucumbers. I have been growing for market for twenty years. Bolgiano's Early Fortune Cucumber beats them all.

Yours very truly,
W. C. CLYATT, Manatee Co., Fla.

The 60 lbs. of Early Fortune Cucumber Seed I bought of you last season gave me the finest crop of the finest and earliest Cukes I have ever raised. They are rightly named. I shall surely never plant any other kind of seed now on the market. I have been buying all of my seeds of you for my truck farm, market and home gardens for the past 15 years and allow me to say my dealings with you have always been of the happiest.

July 30, 1906.
W. H. NIVER, Beaufort Co., S. C.

Gentlemen:—I have grown your Early Fortune Cucumber Seed and without hesitation, pronounce it the finest I have ever seen or grown. Its fine shape and color surpasses all others. I have seen the Cucumbers when thrown out in packing, stay perfectly green for three or four weeks, or until decay sets in. I will plant no other as long as the Early Fortune can be had.

BOLGIANO'S FAMOUS NEW EARLY FORTUNE CUCUMBER.

Actually Proven by Many EXPERT GROWERS to be The EARLIEST and The Best DARK GREEN WHITE SPINE CUCUMBER on Earth.

84. Full-blooded, as pretty as a picture, and extremely early, wonderfully productive, a model in shape, of the most inviting and attractive deep green color. Is there any wonder we name this money-maker "Early Fortune" Cucumber? From very expensive and thorough tests of every cucumber grown, we selected the parents of this excellent stock. The result went far beyond our greatest hope. We found we had a Cucumber that was without a doubt the finest in the world. Realizing a very heavy demand would come as soon as the Cucumber growers learned of our "Early Fortune" Cucumber, we let one year go by to insure our supply of seed, but even now the quantity of this seed is very limited. If you wish to secure any of it this coming year for hot-house, frames, or open field culture, you had better order immediately, or our short supply will be exhausted. Pkts. 5c and 10c. 283. **Bolgiano's New Century Tomato.** Nine years ago, when we first introduced the NEW CENTURY Tomato, we felt as though the limit for improvement in Tomatoes had been reached, and judging from the letters we are receiving every season and from the great quantities of seed we annually sell, the New Century is still held in highest esteem by thousands of market gardeners and shippers all over the country. If you hesitate to plant your entire crop in the newer varieties, you can always feel that **New Century is an Old Friend, Tried and True.** Read the recommendations on this page and you will see in what high esteem it is held. We have spared no pains or expense in keeping this stock as pure and true as it was at the beginning; in fact by most careful roguing, eliminating and selecting, we believe New Century Tomato is better to-day than it ever was. New Century will outyield many other kinds; it will carry for two weeks without hurting its beauty; it will attract attention and pay you; it will not crack; it is of a beautiful red color; of large handsome size from first picking until last tomato is taken from the vine. **Pkts. 10c. 1/2 Oz. 20c. Bolgiano's "Florida Special" Tomato.

The Greatest Blight Resisting Tomato on Earth.

311. Not a single grower of Tomatoes, in Florida or in any locality where blight has injured the Tomato crops, should go through this season without trying this most excellent New Tomato. We call it "Florida Special" for it has been most carefully bred up to resist the ravages of blight which has been so discouraging to our Florida customers. It is Red in Color, large in size, fine flavored, firm and meaty, very prolific, and about as Early as the Earliana. It is a most excellent shipper, in fact during our entire time of selecting and breeding up the Florida Special, we took the utmost pains in selecting such tomatoes as would stand the long shipment to the northern Markets from Florida. We are confident Bolgiano's Florida Special Tomato is going to make a record this year, that will put it head and shoulders above any Tomato that has ever been introduced, excepting the I. X. L. Tomato. **Price, Pkts. 5c @ 10c. 1/2 Oz. 25c. Oz. 40c. 1/4 Lb. \$1.35. 1/2 Lb. \$2.50. Lb. \$5.00.**

302. **KELLEY RED OR WADE TOMATO.**—This splendid Red Tomato originated in Anne Arundel County, Md., and through its superior qualities it has become the Tomato most largely used in that section. It is large, meaty, an abundant yielder, and withstands unfavorable conditions remarkably well. **Pkts. 5c @ 10c. 1/2 oz. 25c. Oz. 40c. 1/4 Lb. \$1.35. 1/2 Lb. \$2.50. Lb. \$5.00.**

"Wonder Worker"

BOLGIANO'S EARLIEST WRINKLED PEA.

1083. The most delicious pea you have ever eaten. They fairly melt in your mouth. If you have never eaten a "Wonder Worker" Pea you don't know what a good Pea tastes like. Six weeks from planting, this wonderful large Wrinkled Pea can be marketed. In earliness, great size and excellent flavor, it is unequalled. The Peas fairly melt in your mouth. The vines grow $2\frac{1}{2}$ feet high, and are very hardy, resisting pests and cold weather. It bears an abundance

of large, even, deep green pods. It is claimed the Wonder Worker Peas are superior in earliness, hardness, and large size pods, to the Gradus or Prosperity Pea. It is the finest early Pea yet introduced. **Pkts. 5c & 10c. Pt. 25c. Qt. 40c. 4 Qts. \$1.25. PK. \$2.25. 1/2 Bus. \$4.50. Bus. \$9.00.**

Gentlemen:—I want two sacks of "Cracker Jack" Peas for Spring planting. Set them aside; I will send for them with my order for Spring crop Beans. I am sending a basket of the Peas to the State Fair at Tampa, Fla. Look out for orders for "Cracker Jacks."
Very truly yours, E. F. CLYATT.

Lackawanna Co., Pa., July 18, 1906.

I am well pleased with your "Cracker Jack" Peas. They matured all together, and I now have beans 4 in. tall on the same ground. It's nice when one can take all the vines up at one time and take the pods off and till the ground and plant it again.

I am also pleased with the potatoes. I have taken a few roots of each of the ten kinds I got from you and are all good; the Plucky Baltimore ought to be named "Plucky Baltimore Bull of Flour."

"DUKE OF YORK" TOMATO.

**GENUINE OLD TYPE
BLUE STEM STOCK.**

297. **DUKE OF YORK TOMATOES.**—The genuine old type—blue stem Dukes have given the utmost satisfaction to the Florida Tomato Growers, it has brought many a dollar rolling their way but it has been difficult for these growers to get absolutely the straight type of Dukes when they ordered it, this situation however is a thing of the past for we are now prepared to supply all our friends and customers with the purest, truest, cleanest type of genuine old type—blue stem Duke of York they have ever seen or grown. Our supply for the last two years has not been enough to go around, this season we increased our acreage considerably, we are therefore prepared to fill many more orders than ever before but even now we fear the demand for this excellent strain will be more than we can supply, so order early. We honestly believe we will soon get the entire Florida trade on Duke of York Tomato Seed and we are going to get it because our Duke of York Tomato Seed is the Genuine Old-type Blue Stem Strain kept absolutely Pure and True. Send to us for your Duke of York Tomato Seed and you run no chances, we will either send you the Finest Stock of Dukes you have ever had or return to you your money. Texas Tomato Growers should give this Tomato a thorough trial, it has proved such a money crop for Florida, it might prove equally profitable in Texas. Duke of York Tomato is one of the grandest Tomatoes recently introduced, color, rich, glossy scarlet, splendid cropper, round in shape, flesh very firm, large size, fine flavor. It ripens its fruit uniformly together, whilst in profusion of clusters, averaging 8 and 10 large evenly formed clusters each, makes it conspicuously handsome. Ripens evenly to the stem, is strong, healthy grower, not subject to rust or blight, is an enormous cropper and produces until the vines are killed by frost, holding its size well until the last picking. Quality the very best, solid and meaty.

NEW GLOBE TOMATO.

Becoming Very Popular With Florida Shippers.

The SIZE and SHAPE Have Made it A WONDERFUL Seller.

264. In shape it is distinct from all others, being a beautiful globe, with quite a good percentage of elongated (stem to blossom) fruits. It is among the first to ripen. Fruit of large size, and good marketable size is maintained throughout the season; always smooth, firm-fleshed, and has very few seeds. Ripens evenly through and through; a fine glossy rose in color, tinged with purple; very productive, the plant is always loaded with fruit, as it has joints at frequent intervals and each joint produces large clusters of from 3 to 7 fruits. Especially adapted for slicing or eating from the hand as the flavor is very delicate and agreeable.

June Pink Tomato

ANOTHER GREAT MONEY-MAKER.

268. **THE JUNE PINK TOMATO.**—In habit of growth is similar to the Earliana. The plant is neat and compact, branching freely, with fruit hanging in clusters of 6 to 10 fruits both in the crown and at the forks of the branches. Under exactly the same conditions as given Sparks' Earliana and Chalk's Jewel, the June Pink yielded as much fruit as either, and the vines after the crop had been harvested were greener and brighter, and showed no tendency to blight. It ripens fully as early as the Sparks' Earliana and quite 10 days to 2 weeks ahead of Chalks' Early Jewel. The fruit is of medium size, uniform, smooth, and attractively shaped, without cracks or any green core. The fruit will average 2 3/4 to 3 in. in diameter, and from 2 to 2 1/2 in. in depth. The skin is reasonably tough so that it is excellent for shipping purposes. In color, it is a bright pleasing pink, and in markets where a pink tomato is desired will bring 25 per cent. more in price than any red variety. It has the further quality, making it especially desirable for private use, continuing to bear and ripen fruit up until frost.

NEW GLOBE TOMATO.

WEALTHY TOMATO.

J. Bolgiano & Son, Balto., Md.
Gentlemen:—Your Wealthy Tomato is the earliest and finest we have had in this part of the country. We had ripe tomatoes the 26th of June. They yield in great abundance. Yours truly,
CHAS. O.D. LEE, Fred'k Co., Md.

J. Bolgiano & Son, Baltimore.
I planted your Wealthy Tomato last year, and grew 1 crate from every 2 plants. I do not want any better. MARK ZILL, Fla.

BOLGIANO'S EXTRA EARLY WEALTHY TOMATO

THIS TOMATO HAS MADE MANY TRUCKERS AND MARKET GARDENERS RICH.

278. Thousands of dollars clear have been made by the men who have planted the Wealthy Tomato. From the day you sow the seed until the last large, shapely fruit is shipped to an anxious early market, Wealthy Tomato keeps the lead. One of the earliest of the earlies; smooth, firm, delicious flavor, beautiful red color, and an abundant yielder. In the Wealthy Tomato Mother Earth pays us a thousandfold for our efforts. In Spring-time those who have the means are only too glad to spend it freely if in return they can get the first fruits of the season. Then the fancy prices are realized, and if you trust the Wealthy Tomato it will put you in a position to get your share and also the share of the man who takes years to find out a money-maker. **Pkts. 10c and 25c. Ounce 50c. 1/4 Lb. \$1.25. 1/2 Lb. \$2.50. Lb. \$5.00.**

BOLGIANO'S BEST THE GREAT B. B. TOMATO.

284. This tomato is unequaled. It has every good quality pertaining to the Tomato and avoids all faults of other sorts. One of the smoothest, most solid, heaviest and most handsome Tomatoes grown. It suits gardeners, canners and shippers, who are delighted with its faultless fruit, which fills their wants in every particular. The B. B. is as solid as an apple, has no core and the flavor is excellent. It weighs more pounds per bushel than many other sorts which proves its solidity; has a beautiful red color, outside and inside, and the fruit is quite large. There is no need of a field of poor Tomatoes when one dollar will buy enough to supply plants for one acre. Used successfully for early and late crops; always sells at the highest prices. **Pkts. 5c and 10c. Oz. 25c. 2 ozs. 40c. 1/4 Lb. 75c. 1/2 Lb. \$1.25. Lb. \$2.50.**

Messrs. J. Bolgiano & Son, Baltimore, Md.

Dear Sirs:—I had the Bolgiano's Great B. B. Tomato last year and found them an excellent Tomato in every respect, better than I have ever grown before. Yours truly,

R. M. COOPER.

CHALK'S EARLY JEWEL TOMATO.

287. This excellent new Tomato has attracted the attention of market gardeners and shippers on account of its fine quality, its wonderful productiveness, earliness and large size. Chalk's Jewel is not quite so early as the Earliana, or so large as the I. X. L., but size of the fruit continues very large almost to the last picking. The vines are fairly loaded with fruit during the entire season, 75 of which will fill a 5/8 bushel basket. The fruit is very solid and deep through, measuring 3 1/2 inches across by almost 3 inches in depth. Color is bright scarlet and it ripens up to the stem, without cracks or green core. It is an excellent shipper. The climate in which we grow our tomato seeds, makes them earlier, freer from disease and blight, and more productive than seed you can procure from any other source. Try them for yourself. We stand by our claims. If you want the best stock of any Tomato that grows, get it from Bolgiano of Baltimore. **Price. Pkts. 5 and 10c. BOLGIANO'S BEST TOMATO, THE GREAT B. B.

Bolgiano's "Mighty-Nice" Bean.

INTRODUCED LAST SEASON UNDER TEST GARDEN No. 18.

June 26th, 1907.
J. Bolgiano & Son,
Baltimore, Md.

Enclosed find my order for 26 bus. of Peas, and 20 bus. of Beans. We have been planting your seed for 20 years. I find that they are the best seed I have ever planted. I always find them true to the name and always yields a large crop and have no spots in them. I make on your Beans per acre from 250 to 300 bushels, and on the Peas from 200 to 250 bus. per acre. All the growers here plant J. Bolgiano & Son Seeds, and always have a large yielding.

PETER MIDDLEBROOK,
Tenn.

Messrs. J. Bolgiano & Son,
Baltimore, Md.

Gentlemen:—Your BEAN SEED received a few days ago, and THEY ARE THE FINEST I EVER SAW. I planted the same variety last year; NOT A FLAT HILL IN NINE BUSHELS, something uncommon in our settlement. You are my seed man ALWAYS.

Yours very truly,
L. E. PARTIN,
Osceola Co., Fla.

J. Bolgiano & Son,
Baltimore, Md.

I wish to put in an order for you to grow for me 25 bus. of your Peas and 10 bus. of Beans. Your peas and beans are the best used in this vicinity. Others we find inferior to your seeds.

Gentlemen:—I was more than pleased with the Bean Seeds shipped me last November. While others were getting low prices, I was receiving the top of the market. I was one of the few that Beans did not rust on. Thanks for dealing with a first class house.

Yours truly,

1033. This wonderful new round, meaty, green podded bean had for its parents two separate and distinct stocks of Thoroughbred Hopkias Improved Earliest Red Valentine Beans and the inbreeding of their stocks has produced an Extremely Early and most prodigiously productive Stock of beautiful deep green, round podded Valentine Beans. The Flavor and Quality cooked and tested side by side with 50 other leading varieties proved the Bolgiano "Mighty-Nice" Bean to be by far the most delicious and tender.

We have been experimenting with "Mighty-Nice" Bean for years and we can unreservedly recommend it as the greatest new production in the way of Green Podded Beans in the last ten years. Being an extremely new stock it is free from the faults that accumulate around stocks that have been on the market for a few years. We have succeeded in getting the type thoroughly fixed and we are willing to say that you will hardly find one off vine in an acre of "Mighty-Nice." If you want the most productive, the most beautiful, the most salable and the best market or shipping crop of round green podded beans you have ever raised; by all means plant a patch of Bolgiano's "Mighty-Nice" Beans.—The Coming Leader Among Beans. Packet 10c. Pint 15c. Quart 25c. 2 Qts. 45c. 4 Qts. 85c. Peck \$1.60. 1/2 Bushel \$3.00. Bushel \$6.00.

BOLGIANO'S EXTREMELY EARLY HARDY "MAY QUEEN" BEANS.

SEE PAINTING ON BACK COVER.

1001 Three years having passed since we introduced this prolific Early bean. It has already become an indispensable variety with many of our customers. It is remarkably early, exceedingly prolific and its extra large finely shaped straight dark green pods are always solid, tender and of a delicious flavor and borne in great abundance. It is a most excellent shipping bean, carrying in fine shape for many days after it is picked. Some of our customers have also tried it as a late bean with astonishing results; they were so well pleased with it as an Early bean they wanted more of them and therefore experimented successfully with them in the Fall. The stock is perfect; the plants are of a strong, robust habit and mature the crop very regularly. If you do not already grow "The May Queen" you should certainly give it a trial this season. Early Leviathan Pole Lima Beans

ONE WEEK EARLIER THAN ANY OTHER POLE LIMA, AND
TWO WEEKS EARLIER THAN MOST. OF SUPERIOR
QUALITY. IMMENSE SIZE. WONDERFULLY PRODUCTIVE.

1040. The best variety of Pole Lima for general use. This delicious vegetable is denied many would-be growers on account of the length of season required to mature it, the early frost coming on just as the crop is ready to pick. This sort is at least one week earlier than any large Pole Lima yet offered and fully two weeks earlier than most, consequently it will prove a boon to thousands of growers. Earliness is often obtained at a sacrifice of other valuable features, but in this variety we claim superiority, not only in this respect, but in size of bean and pod and enormous productiveness. It is in fact about perfect and incalculable value. Price, Pkt. 10c. Pt. 20c. Qt. 35c. Pk. \$2.25. Bu. \$8.00.

BOLGIANO'S Emerald Beauty Beans.

1002 Although we introduced this splendid bean several years ago, its popularity increases from year to year and its excellent qualities are so much appreciated by many of our oldest customers, we have decided to list it here again amongst our specialties so that our newer customers may have it drawn more prominently to their attention and enjoy with the rest of us its unusually good qualities. The Emerald Beauty is a flat green podded bush bean, a prolific and continuous bearer, the first in Spring and the last in Fall. It is absolutely stringless, very tender and delicious flavor. The plant is of remarkably handsome and thrifty growth. The rich green pods are of immense size, thick, broad, extra long, very uniform in shape, solid, meaty and of high quality. Market that will accept a flat podded bean will soon appreciate the surpassing qualities of the Emerald Beauty and even if your market wants a round podded bean exclusively, plant some of the "May Queen" beans for your own home use and enjoyment. Pkt. 10c. Pt. 15c. Qt. 25c. 4 Qts. 75c. Peck \$1.35. Bushel \$5.00.

GIANT STRINGLESS GREEN POD BUSH BEAN.

1008 This is a great improvement on old time popular favorite Valentine Bean. The pods are fully one-third longer, averaging 5 to 6 inches in length; absolutely stringless, very crisp, round, full and fleshy. It is enormously productive, its handsome pods being ready for market a few days earlier than the old Valentine. We confidently recommend it either for the home garden or as a profitable variety to grow for market. Price, Pkt. 10c. Pint 15c. Qt. 25c. 4 Qts. 75c. Pk. \$1.25. Bu. \$4.50.

BOLGIANO'S-NEW PEARL WAX-BEAN.

A WONDERFUL LONG-POD WAX BEAN.

ENORMOUS PLANT. ENORMOUS POD.
ENORMOUS YIELD.

NEVER AFFECTED BY RUST OR BLIGHT.

1031. If you had grown it in your field as we did, when for almost two solid months we had copious rains every day, and it showed no signs of blight or rust, you would agree with us when we say a bean that will yield a fine crop of beautiful long, flat, clean waxy pods, under such adverse circumstances, certainly cannot be praised too highly. It is a PEARL of Great Value. Although a flat bean, the seed looks somewhat like a Valentine Bean; the plant grows about 2½ ft. high by 2 ft. across. It is a remarkably sturdy, rank, vigorous grower, well loaded with pods. The luxuriant foliage shelters the pod from the hot sun, and is free from blight or rust. The pods are long, slim, flat, plump, handsome and meaty; they somewhat resemble those of the Davis and Wardell's Wax Beans, but are plumper, longer, and straighter. They average from 7 to 8 inches long, and are of a clean light waxy yellow color. As to quality, the pods are exceptionally tender, brittle, and of fine texture, free from fibre, and if picked when ripe, they are entirely stringless. Both for shippers, market gardeners and the Home Garden, the exceptionally good qualities of Bolgiano's New Pearl Wax Bean renders it of the greatest value. **Pkt. 10c. Pint 15c. Quart 25c. 4 Qts. 85c. Peck \$1.60. Bushel \$6.00.**

ROUND-POD KIDNEY WAX BEAN.

1021. This handsome variety of wax-podded Bean is an improved type of the well-known Wardell's Kidney Wax, and, besides having that popular variety's luxuriant growth, it is also entirely stringless. The pods are long, straight and extremely handsome. It is an exceedingly heavy bearer, and is fully as early in maturing its pods as the Wardell's Kidney Wax, and is of excellent quality. **Pkt. 10c. Pt. 15c. Qt. 25c. 4 Qts. 75c. Peck \$1.35. Bushel \$5.00.**

J. Bolgiano & Son, Baltimore, Md.

I have told everybody in these 30 years that you have the best seeds.

Yours very truly,

J. O. MELZER, Putnam Co., Fla.

NEW CALIFORNIA RUST-PROOF Dwarf-Wax.

1024. One of the handsomest and most productive flat podded Wax Bean ever grown. In this new variety, we have one of the very best wax sorts for market gardeners and private families. It will sell twice as well and at a higher price than other sorts. The pods are longer, broader and of a brighter yellow color than many other sorts, very superior quality, tender and stringless. The vines are of vigorous growth, leaves dark green, hardy and yield enormous quantities of large, handsome, flat, meaty pods, borne well up from the ground and has not shown any disposition to rust, no matter where grown. It is from eight to ten days earlier than the Valentine. The seeds should not be planted closer than 4 inches apart in the row. We particularly recommend this valuable sort to market gardeners. **Pkts. 10c. Pint 15c. Qt. 25c. 1/2 Pk. 60c. Pk. \$1.00. Bushel \$4.00.**

1031 BOLGIANO'S NEW PEARL WAX BEAN.

Sunshine Wax Bean.

1018. The beautiful, clear, attractive, bright golden color of this most delicious Wax Bean gave it the name of the Sunshine Wax. In the market, side by side with many of the older and better known Wax Beans, the Sunshine Wax shone out and immediately attracted the attention of all.

The vines are so heavily laden with an abundance of long, round, shapely pods it seems hardly possible that they can hold them all. You think of the Sunshine again when you are marketing a large crop of fine Beans a week or two before your neighbors have begun to pick. Now is your chance; order quick. Our supply is very limited this season. **Pkt. 10c. Pint 15c. Quart 25c. Gal. 85c. Peck \$1.60. Bushel \$6.00.**

New Hodson Wax Pod.

1079. A very sturdy grower; productive; free from rust and blight. Plants are loaded with long, handsome, straight pods, averaging 7 inches in length; color of a clean light yellow. When picked young they are stringless, when fully matured they have a slight string. It is distinctly a market-gardener's Bean on account of its great vigor. **Packet 10c. Pt. 15c. Qt. 25c. 4 Qts. 75c. Peck \$1.35. Bushel \$5.00.**

Bolgiano's "COLD MOUNTAIN SPRING" WATERMELON.

*July 1st, 1905.
J. Bolgiano & Son,
Baltimore, Md.*

The packet of your melon, "Cold Mountain Spring" was planted and fulfilled every claim you made for them. In fact, they are the ideal melon for Southern markets, prolific, uniformly good size, tough rind, flesh firm and delicious. You may expect a good demand for this variety of seed at this point another season. Advise early, keep the stock pure and you will have a bonanza in this melon.

*Yours truly,

COLD MOUNTAIN SPRING WATERMELON

*July 23rd, 1906.
J. Bolgiano & Son,
Baltimore, Md.*

Gentlemen:—Will you be so kind as to enter my order for 50 lbs. of Selected Cold Mountain Spring Watermelon Seed. No other variety will be planted here another year, and your firm will be called upon for about 250 lbs. of seed of this variety at Clermont, and the neighboring points will likely order the same amount. This is by far the best Melon we ever planted; so be sure and keep the seed pure and up to the standard.

*S. B. Brantly,
Lake Co., Fla.*

171. Bolgiano's Cold Mountain Spring Watermelon.

New Variety.—Last summer we were spending our vacation in the Mountains; During our absence, one of the leading Watermelon growers, living about 100 miles from Baltimore, wrote us, he had for a number of years been developing an extra, selected strain of Watermelon, and the result of his efforts had gone far beyond anything he had ever hoped to produce. Were we interested? He shipped us several samples, these came on boat to Baltimore 100 miles, then on railroad through the mountains for 250 miles. Reaching us in perfect condition after traveling 350 miles, through rough country and roughly handled. These melons attracted the attention of everyone by their beautiful deep green color, stately size and excellent shape. We had them on exhibition, then took them with us back into the mountains. We put the Melons in a Cold Mountain Spring, and in a few hours we cut them. The Melons were in a perfect condition, "Red to the Rind," and entirely free from stringiness. We immediately inspected the crop. The Cold Mountain Spring Watermelon is a winner as a shipper, as a table Melon and as a Money Maker. Our supply of seed is necessarily limited and only the seed produced by the originator, so order immediately. **Pkt. 10c. Oz. 15c. 1/4 Lb. 35c. 1/2 Lb. 60c. Lb. \$1.00.**

BOLGIANO'S "MILLIONAIRE" LETTUCE.

150. This valuable new Lettuce is an extremely profitable variety for both Market Gardeners and Shippers to grow; as well as a decidedly delicious variety for the Home Garden. If we could meet every one of our customers face to face we would persuade each one of them to give the "Millionaire" Lettuce a thorough trial the very first thing this Spring. We recommend it unreservedly as one of the best lettuces, and one of the most profitable that has ever been grown anywhere. It is a very quick growing hardy Lettuce and will stand much damp, cold weather. "Millionaire" Lettuce can be planted out of doors or under glass and in either case will produce fine round compact heads 6 to 7 inches in diameter, which weigh from 12 to 16 ounces, much sooner than any other variety. It is an excellent market variety, the heads are a clear light green, the outer leaves being slightly tinged with brown and closely folded around the head making it all head, the inner leaves are a clear, bright, rich golden yellow. In quality "Millionaire" Lettuce is unequalled, it is crisp, tender and has a delicious rich, buttery flavor. **Pkt. 10c. Oz. 35c. 1/4 Lb. \$1.00. Lb. \$3.50.**

Bolgiano's New 1908 Lettuce, "Best of All."

131. This grand new Lettuce truly deserves the name "Best Of All" for it has certainly proven to be "Best Of All" Lettuces in our trial grounds during the last three years. It matures just after "Millionaire" when planted early, but can be planted at any time and will give an excellent crop. We have tried it in Spring, Summer, Fall and have even Wintered it outdoors here at Baltimore and have always under all conditions had the very finest kind of a crop. It is a sure header, good seller, excellent shipper, hardy and always reliable. Color is light attractive green, never spotted nor tinged with brown, quality is excellent; in flavor it is delicate, sweet and buttery. It makes large, compact, firm heads. The leaves overlap each other forming a beautiful, well blanched head making it extremely attractive as a market lettuce. We strongly recommend "Best Of All" Lettuce to everyone of our customers. **Pkt. 10c. Oz. 35c. 2 Ozs. 60c. 1/4 Lb. \$1.00. 1/2 Lb. \$1.75. Lb. \$3.50.**

BOLGIANO'S "JUNIOR"

ROCKY FORD CANTALOUPE.

BOLGIANO'S "JUNIOR" ROCKY FORD CANTALOUPE

Without A Single Exception. The Biggest Money Making Melon Ever Offered. Two Weeks Earlier, A Little Larger, Twice As Productive as Rocky Ford. More Thoroughly And Deeply Netted. Rust and Blight Proof. Packs In Crates Better And Carries Better Than Any Other Melon.

16. This Greatest of all Money Making Cantaloupes, had for its parents two exceptionally fine stocks of Rocky Ford Melon, it has been bred up by our expert growers to be entirely blight and rust proof. "Junior" is a wonderfully prolific yielder, single plants producing as high as 16 fine melons. It will develop shipping fruit ten days to two weeks before the Rocky Ford. In form it is ideal, being just the right shape to pack to best advantage into crates. In size it is a little larger than the regular Rocky Ford. Its netting is close and deep thoroughly covering the melon, protecting its keeping and shipping qualities and lessening the loss of weight from evaporation. In quality it is most deliciously sweet and spicy creating a largely increased demand on account of these excellent points. The seed cavity is very small and is well filled with seed, the attractive green flesh is thick, smooth and firm, combining together to making it the best melon for carrying long distances that the grower has ever had. **Pkt. 10c. J. Bolgiano & Son, Baltimore, Md.

September 30th, 1907.

We wish to express our thanks for the seeds which we bought from you last year, as they have given us perfect satisfaction. In fact we have had better crops than ever before. We used your Bolgiano's Junior Rocky Ford, and New Eden Gem, and our cantaloupes were the best on the market. We have given you our seed order for this year, and trust that we will have the same success.

ROCKY FORD CANTALOUPE.

157 OUR'S IS THE FINEST STOCK IN THE WORLD, AS ONE OF OUR CUSTOMERS PUT IT "NOT A MIXED SEED IN THEM,"

A SWEET LUSCIOUS MELON, WORLD FAMOUS FOR ITS CAPTIVATING FLAVOR.

PUREST AND BEST STRAIN GROWN.

12 Strong Points for which our Stock is Famous.

1. Size about 4 1/2 inches high by 5 inches long.
2. Netting well defined and deep.
3. Blossom-end well protected with a small button.
4. Ten distinct ribs.
5. No netting across the space between the ribs.
6. The space between the ribs well defined from stem to blossom button, but not so wide as to weaken the melon.
7. When cut, flesh is green, changing VERY SLIGHTLY toward yellow at center.
8. Flesh very deep, so as to leave a small seed cavity.
9. Flesh fine grained.
10. Our seed is saved from the finest melons of the first picking.
11. Each individual melon is cut open by hand, and carefully inspected both inside and out.
12. Last, but not least, it is an excellent shipper, having deep flesh at the blossom end. The blossom end in many other strains is a very weak point.

J. Bolgiano & Son, Baltimore, Md.—The Rocky Ford Cantaloupe Seed that you supplied Mr. J. B. Huske last season were short and thick, packed in crates better than any other that were planted here and brought from 50 cents to \$1.00 more on the market; we assure you that they were of superior quality. I would like to get 25 pounds of this stock this coming season.

Yours truly,

GENUINE POLLOCK CANTALOUPE.

334. A rust resisting melon, with netting over the blossom end; not a long melon, but rather inclined to be short, with the finest shipping and eating qualities. The selections from time to time have reduced the size, now they crate nicely. **Pkt. 10c. Oz. 15c. 1/4 Lb. 30c. 1/2 Lb. 50c. Lb. \$1.00.**

BANANA MUSKMELON.

(Yellow flesh) This curious melon attains a length of 18 to 30 inches and a diameter of 2 to 4 inches. The flesh is deep, and of exquisite flavor. It looks and smells like a banana. It is not to be confounded with the less valuable melon known as Log of Wood. This sort is not a mere curiosity, but is in such favor as to command good prices in choice city markets, 50 cents to \$1.00 being sometimes demanded for a single specimen. **Packet 10c. Ounce 50c.**

Gentlemen:—I saw some of your "Junior" Rocky Ford Cantaloupes growing and they certainly were the finest things in the way of cantaloupes I have ever seen. I will want at least two pounds for my next crop.

"BIG WINNER" WAKEFIELD CABBAGE.

25. Two years ago we introduced the **Big Winner Wakefield Cabbage** and it has become very popular with Cabbage growers, both large and small. It is as large as the Big Charleston Wakefield Cabbage and as Early as the Early Jersey Wakefield. Handsome in appearance, massive and graceful. The heads are solid and heavy, making a perfect shipping Cabbage. It is fine form and in flavor deliciously sweet. Among the pointed heading Cabbage it is by far "The Big Winner Wakefield." Don't let this season go by without a liberal planting of this Profit-producing Excellent Cabbage.

For Complete List of Cabbage, see pages 36 and 37.

154. Without a single exception, **Bolgiano's New "Square Deal" Cabbage** is the Biggest Money Making Cabbage ever offered the American trucker. This is a strong assertion, at least 100,000 people will read it, so you can readily see we could not afford to make such a statement unless we were sure of our ground. The "Square Deal" Cabbage matures immediately after our New Leader Cabbage. It is absolutely a "Square Deal," as we have seen ten-acre fields without a single irregular head. The uniform heads are of excellent size for shipping, larger than the New Leader, and yet not so large as to be unwieldy. The color is a fine fresh green and is retained during long shipments. The heads are solid and compact with very few outer leaves. For a fine, Solid, Tender, Uniform, Early Flat Cabbage, Bolgiano's "New Square Deal" Cabbage challenges the world. The demand for a fine Cabbage of this character, led us by the most rigid and careful selection, during the past five years, to mature this Cabbage, which we are confident will give all our friends and customers a "Square Deal" every time. Price, Pkt. 10c, Oz. 35c, 1/4 Lb. \$1.00 1/2 Lb. \$1.75. Lb. \$3.50.

Bolgiano's New Leader Cabbage.

26. As early as the Wakefield, yields 12,000 heads, one-third more per acre than any other extra early Cabbage. The outer leaves are so few and so small that they can be planted very close. The heads are compact and solid from the time a head is formed and keeps so until thoroughly matured, thus enabling extremely early cutting of small hard heads, or later, when the Wakefield's come in of large thoroughly matured solid, round, flat heads. In quality, it is "The Leader," the veins of the leaves are extremely fine; its rapidity of maturing, compact growth gives it a flavor unequalled. The demand for such a Cabbage in Northern Markets is becoming greater and greater each year. The people want an extremely early new slow-head Cabbage and "The Leader" supplies their wants. Pkt. 10c, Oz. 25c, 1/4 Lb. \$1.00, Lb. \$3.50.

BOLGIANO'S Extra Early Express Cabbage

Suitable for Market Gardeners for Very Early Crops.
10 Days Earlier than the Wakefield.

27. What pleasure there is in growing a uniform, attractive, solid crop of Extra Early Cabbage! Bolgiano's Extra Early Express is the **best** Extremely Early Cabbage on Earth. Praises of its merits come from the most experienced growers. They remember a good thing when it pays them. Earliest, uniform, solid, fine color; brings top prices. No soft heads, 10 days earlier than the Wakefield. Pkts. 5c and 10c, Oz. 20c, 2 Ozs. 35c, 1/4 Lb. 50c, Lb. \$1.50

French Golden Self-Blanching Celery.

THE FINEST STOCK IN THE WORLD.
STANDS SHIPMENT BETTER THAN ANY OTHER.

71. While you can readily afford to put your whole crop in our stock of this **most valuable** Celery, you cannot afford to let this year go by without growing some of it. We have positively refused to sell all Self-Blanching Celery Seed except this stock. The Celery it produces will not only ship well but will bring the highest market prices. It will create a new price for you; your commission man can get outside figures for it, and he will sell quickly all you can ship. Try our stock; **YOUR PRAISES** will be louder than ours. Perfect, solid, crisp, vigorous stalks; thrifty, compact growth, self-blanching to a very remarkable degree; even the outer ribs become a handsome, fresh, clean yellowish color, with a heart that is large and solid, of a beautiful rich, golden-yellow color. It never becomes stringy or pethy. To fully appreciate its beauty and attractions, it must be seen. Many of customers place their orders with us six months before planting time in order to be sure of this stock of seed. **Pkts. 5c and 10c. Oz. 35c. 1/4 Lb. \$1.00. 1/2 Lb. \$2.00. Lb. \$3.50.**

Dear Sirs:—

I have just finished cutting my Celery crop of three acres, 3064 crates selling f. o. b. here, for the nice little sum of \$6,120.72. This has been an off year too for us, as well as other Florida points, and this was grown from your seed secured last summer. I had a quarter of an acre measured and the Celery on it sold for \$730.00. That was my heaviest yield.

Yours truly,

H. H. CHAPPEL, Florida.

Gentlemen:—

My Celery, grown from your French Golden Self-Blanching Celery Seed took the premium in South Florida last season. It was the finest I have ever grown, and some of it weighed 3 pounds to the bunch.

BOLGIANO'S FRENCH GROWN NEW VICTORY CELERY

THE VERY BEST WINTER CELERY.

81. An excellent winter Celery. We have grown this seed in America for several years and find by careful experiments it loses some of its solidity; while seed we have grown in France remains as solid as the finest stock of French Golden Self-Blanching Celery. As a result we have grown our entire supply for this season in France and we can recommend it to you as a most solid and most profitable winter celery. Our French grower, carefully selects by hand each individual plant in transplanting and only the absolutely solid plants are retained, the rest are thrown away. Again when he puts the full grown plants in Kilns for Winter, each individual plant is gone over and only the absolutely solid are put in the Kilns. Again in the Spring before putting the plants in the bed where the celery is to go to seed only the absolutely solid plants are used. We are sure our stock of French Grown "New Victory" Celery is one of the Best Winter Celeries on Earth. It has a great amount of heart, is heavier, stouter, and thicker than many of its rivals. It is the most economical Celery yet introduced, every particle being solid, crisp; and of a delicious flavor. Its beautiful, large, golden heart and compact growth make an ornament hard to surpass. It is a remarkable keeper, maintaining its firmness as late as May. Critical market gardeners pronounce it to be of the finest quality, best keeper and most salable Celery they have ever raised. It is ready for market by December. **Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. \$1.00. 1/2 Lb. \$1.75. Lb. \$3.50.**

Bolgiano's "SWEET-NUT" CELERY

NEW FRENCH GROWN

76. For home gardens and nearby markets, Bolgiano's New Celery "SWEETNUT" is the most delicious, sweet, nutty, crisp celery that has ever been offered to the public. "Sweetnut" Celery has been developed by one of our most careful French Growers for many years. The most rigid selection had to be made to get this strain thoroughly fixed but this season we are delighted to say after two years of exhaustive testing in our Test Gardens we can offer our friends and customers a Celery that is surpassingly delicious. It is absolutely solid, a most excellent winter keeper, of vigorous, sturdy growth, making fine large solid stalks, with a large, full creamy-yellow heart. It is necessary to blanch it by earthing up or storing it for the winter. It blanches to a beautiful creamy-yellow, when the stalks are extremely brittle, entirely stringless and exceptionally crisp. On account of its great brittleness it should not be shipped long distances but of course for home use and nearby markets its brittleness is one of its most desirable features. We recommend this Celery to our customers who enjoy the most delicious things the garden affords. Our supply is yet very limited but we want everyone to give it a trial this year. **Pkt. 10c.  2. A novelty of remarkable merit.
 3. As large as the New York Spineless Egg Plant.
 4. Two weeks earlier than the New York Spineless Egg Plant.
 5. Fine flavor.
 6. Most attractive appearance.
 7. Plants branch freely near the ground.
 8. Skin a rich, lustrous purplish black.
 9. Satin gloss and rich coloring add greatly to the beauty of the fruit.
 10. The intense, brilliant coloring is uniform over the whole fruit and does not fade or change to a lighter color at the blossom end.
 11. The heavy leaves which attach the fruit to the stem are bright green, making a beautiful contrast with the fine dark color of the fruit.
 12. Thoroughly free from spines or thorns.

Florida High Bush Egg Plant.

99. **The Florida High Bush Egg Plant** has proved of the greatest value to Southern truckers and shippers. It has been grown in Florida for the past three or four years. It is remarkable for its vigorous growth and productiveness, is very hardy, and will stand more cold weather than the New York improved. The hot Sun does not blight the blossoms. The plant has a characteristic leaf, unlike any other Egg Plant we know of. It grows from 3 to 4 feet high, erect and sturdy, free from thorns. Fruit is large, oblong in shape and purple, though not so deep a color as the New York Improved. It resists drought and wet weather to a wonderful degree, partly on account of its strong upright growth. It stands the cold better, and is the only Egg Plant that stands shipping from this section to the Northern markets under almost all circumstances. It is of a large size, first-class shape and superior flavor. Its shipping qualities are the very best. It brings the highest price in the Northern markets, keeping its freshness and condition much longer than any other variety. The growers realize good returns for this variety when all other varieties have been reported "arrived in bad condition," and many would not plant any other variety. **Pkts. 5c and 10c. SWISS CHARD.

341. The Swiss Chard, or Spinach Beet, is largely grown in Europe, and is usually prepared for the table in the same manner as Spinach; sometimes, however, the mid-rib is prepared like asparagus, with drawn butter, and in either manner it makes a delicious and healthy dish. This new variety produces an abundance of large leaves which are beautifully crinkled, and the mid-rib is large. It cooks very tender. A row of Swiss Chard will furnish greens the whole summer long. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.**

BLACK BEAUTY EGG PLANT.

Bolgiano's "American Beauty" Beet.

12. The skin and flesh of "The American Beauty" Beet are both a deep rich blood crimson color. It matures just after the Eclipse, has a most beautiful form being a little deeper than round, medium in size, generally about three inches in diameter, has a remarkably smooth surface and a small tap-root. It is exceedingly tender and deliciously sweet. The very dark, attractive leaves are small and are borne on slender stems which take up but little of the root. It is particularly delicious on account of its tenderness and it is entirely free from flesh of a stringy or woody character. In our extensive trials last spring and summer we found "The American Beauty" Beet surpassed every leading variety in color, shape, form, size of leaves and root, tenderness and sweetness of flesh and was only a few days behind the Eclipse in maturing. As a Market, Shipping or Home Garden Beet "American Beauty" stands supreme. We unreservedly recommend every one of our customers to give it a trial this spring and summer, for if planted in the summer it will keep in perfect condition during the entire winter, losing none of its tenderness, sweetness, or rich color during the entire winter. **Pkt. 10c. Messrs. J. Bolgiano & Son, Baltimore, Md.
Gentlemen:—Last Spring, I planted your "New Century Cauliflower" seed alongside of Henderson's Snow Ball Cauliflower. I have been growing Cauliflower and truck on a large scale for the past 47 years, and in all my experience I have never seen a Cauliflower to equal the New Century. It is as early as the Snow Ball but produces much larger and more attractive heads. Whenever I brought it home for our own use the folks always knew I had the New Century, and my helpers who have stood by me many years agree with me in this statement. On the market the New Century Cauliflower would sell at a much higher price than any others, and the person who hesitates about buying the New Century on account of the difference in price, is making a serious and great mistake because in one small sale he can more than make up the slight difference.

A TABLE ADORNER OF RARE BEAUTY.

221. Never before have we been able to offer to the public a gift of Nature equal to our beautiful Green Mountain Parsley. Always alert, always ready to appreciate any seed of exceptional merit, we soon saw that everybody would want our new Green Mountain Parsley when they heard of its wonderful beauty. Hardy, immensely productive, deep velvet green. The leaves are densely curled and are borne in abundance. It is exceptionally easy to grow, and with very little care everybody can have for the whole year round a bed of the finest flavored Parsley in cultivation. If you have but a few square feet, you can raise sufficient Parsley to supply your table with decoration and your soups with fine fresh flavor. If you grow for your market stall, you cannot afford to have poor Parsley when your neighbor has the beautiful Green Mountain Triple Parsley. If you are a shipper to Northern markets you grow Green Mountain Parsley and you will make more money than you ever did. P Kts. 5c & 10c. Oz. 15c. 1/4 Lb. 30c. 1/2 Lb. 50c. Lb. \$1.00.

GRAY'S "MORTGAGE LIFTER" POTATO.

Mr. Gray grew another bumper crop of Gray's "Mortgage Lifter" Potatoes this year; he says they were so large they reminded him of young pigs and they were certainly splendid sellers at high prices.

We wish every one of our customers who grow Potatoes could talk with the Growers who have grown a crop of this Grand New Potato. It certainly is something to marvel at, and yet if

all our customers realized its great value our limited supply would not be a drop in the bucket. It is an early variety maturing a little later than the Crown Jewel, it is pure white, large handsome size, distinctive in shape being long, well filled and tapering at both ends.

Eyes are strong and well set, not too deeply however. As a shipping and a market Potato it is unexcelled.

It certainly is a beauty and one grower says they grow so large it don't take many to fill a barrel, no culls, and by the car load they brought over \$20 a car more than the best Potato on the market. Mr. Prevatt, of Seville, Fla., after giving this Grand Potato a thorough trial orders eight barrels in the place of the one he planted last year. Mrs. Wm. G. Harvey, of Roslyn, Md., calls it The "Farmers Favorite" among other names it was called are "Maryland Beauty," "Money-Maker," "Virginia Wonder," The "Excelsior," "Gold Standard," "Silver King," etc. We finally selected Gray's "Mortgage Lifter" as suggested by Mr. Jas. T. Gray, of Grange, Md. because Mr. Gray actually paid off a good size mortgage on his farm with the proceeds from the Wonderful Crop of this Grand New Potato which he grew this year and we hope that the mission of Gray's "Mortgage Lifter" Potato will not be ended until it has helped to clear many more farms of their mortgages. **Price: Lb. 40c. 3 Lbs. \$1.00 by mail postpaid. BOLIGIANO'S WONDERFUL NEW PROLIFIC EXTREMELY EARLY SEED POTATOES.

1. Ten days earlier than the Red Bliss Triumph.
2. **Snowy White Potato** about the size and shape of the Houlton Early Rose.
3. Yields from 250 to 350 bushels per acre of most attractive, marketable Potatoes.
4. Always brings 50c more per barrel than the fanciest stock of any other variety on the market.
5. The quality is delicious, the entire supply is quickly taken up by the most critical hotel trade in New York and Boston.
6. Young, full, pure blooded stock; not susceptible to disease.
7. Seed grown in the most careful manner.
8. If you are a Potato grower and you once saw the **Plucky Baltimore Potato**, you could not help but buy it. Its attractive shape, pure white color and in fact, its general appearance speaks for itself, far better than we can write about it.
9. We have the entire supply of this **Grand New Potato**, and that's not many barrels, so order right now, or our supply will be exhausted.
10. We can recommend the **Plucky Baltimore** as the best Potato that has ever been sold the truckers. Extremely attractive, extraordinarily early, enormously productive, excellent quality, Pure White and a Big Money Maker.

1049. You will be thoroughly persuaded after one trial of this Extra Early Large Roasting Ear Corn that you cannot afford to let a single season pass without planting generously of this excellent Corn. White Cob 65-day Corn is the result of carefully selecting the earliest and largest ears of Gillespies's Early Neck Corn, and crossing these with the earliest and best varieties of Sugar Corn. The result is a corn of fine quality, of 12 to 14 rows and reliable no matter what weather it has to stand. Bolgiano's Snow White Evergreen Sugar Corn

1066.

NINE FACTS ABOUT THE BEST SUGAR CORN IN THE WORLD.

1. White as snow and 5 days earlier than Stowells Evergreen. 2. Two to three beautifully shaped ears to a stalk. 3. Deliciously flavored and as sweet as sugar. 4. Very tender. 5. Each ear has 16 or more rows of long, slender purest white grains. 6. Being Snow White it is extremely attractive when served on the table. When put up in cans it retains its whiteness and does not have the yellowish tinge of the regular Stowells Evergreen. 7. Stalks straight and vigorous; 6 to 8 ft. high. 8. Ears are uniform, very large and completely filled to the tip. 9. Market gardeners, canners and all who know Sugar Corn will pronounce "Bolgiano's Snow White Evergreen" the finest Corn on Earth. It is deliciously tender, even when a little old. 5. Ears average 8 or 9 in. long. 6. Cob small, plump, and filled zig-zag from end to end with pearly white kernels of great depth. Price: Ear 7c. Doz. 75c. 100 Ears \$5.00. Pkt. 5c. Pt. 15c. Qt. 25c. 2 Qts. 45c. Gal. 80c. Peck \$1.50. Bus. \$6.00.

Peepo'day Sweet Corn.

1068. The two points to this remarkable Corn to which we wish to call most particular attention, are its extraordinary earliness and unparalleled sweetness; so marked as its sweetness and delicacy of flavor, that many of our customers who have been in the habit of planting several varieties to secure a succession, now plant PEEPO'DAY exclusively, arranging the plantings a few days apart so as to have this delicious Corn throughout the season. Another point of great importance is the wonderful productiveness of PEEPO'DAY. In fact our crops of PEEPO'DAY have given us for three successive years almost double the yield per acre of any other variety we have grown, early or late. Incredible as this may seem, it is readily accounted for by the fact that the stalks bear from 2 to 5 ears each and the growth being dwarf—about 4 feet—admits of a very close planting. Prices: Pkt. 10c. Pt. 15c. Qt. 25c. 2 Qts. 45c. Gal. 80c. PK. \$1.50. Bushel \$6.00.

Gentlemen:—I want to tell you that I have been buying your seed 12 years, and they are the best I got anywhere and also the cheapest. Last Spring I bought numerous seed from you, and tho' the weather was distressingly dry, I don't believe a seed failed to germinate. I tell you this because I know a word of praise when deserved encourages one—not to "weary in well doing."

Sept. 26, 1906.

Mrs. Geo. Davidson, Annapolis, Md.

To have the finest sweet corn, it must be picked in just the right condition; that is, when the skin of the grain breaks at the slightest puncture, and plantings should be made frequently enough to have a supply at this stage.

Bolgiano's New "KING" CARROT

91. We name this excellent new Long Orange Carrot "KING" Carrot because it is **BEST OF ALL** long Carrots. In Germany it has a wonderful reputation among truckers and market gardeners, and only by paying a very high price were we able to secure any for our customers. The flesh is deep in color, tender and delicate in flavor. It is so much better than the regular Long Orange Carrot that we are sure when "King" Carrot becomes thoroughly known it will drive Long Orange Carrot out entirely. Being an entirely new stock, the seed has been saved with the greatest care and the Carrots are uniform in shape, of fine texture, and almost entirely free from core usually found in Carrots. It produces the most attractive specimens in deep soils. **Pkt. 5c and 10c. Oz. 15c. 1/4 Lb. 30c. 1/2 Lb. 50c. Lb. \$1.00.**

BOLGIANO'S BEAUTIFUL Deep Blood Beauty Beet

THE BEST BEET THAT GROWS.

FOR SEVEN YEARS THIS SPLENDID BEET HAS LED ALL OTHERS.

18. Our long experience in the growing of Beets has shown this new strain of Beet to be the best Extra Early Deep-Blood Turnip Beet, not only for market gardeners, but home gardens. Its small upright growing tops, extra early maturing, splendid shape and deep crimson color make it popular with everyone. The rows may be grown close together. In the leaf the stem and veins are dark red, the blade green. The roots are globular and peculiarly smooth; color of skin and flesh is deep blood red, very crisp, tender, fine-grained and sweet, remaining so for a long time. We believe this excellent new stock will produce a crop more uniform in shape, color and quality than any Beet ever placed in the hands of the trucker.

New Royal Red Beet

19. This grand Beet is really worth its weight in gold on account of the very satisfactory crops it grows and its great selling qualities. It is handsome in shape, a little deeper than round. The flesh is rich, deep crimson and exceedingly tender. It grows medium in size, not large and coarse. It is equally good both for early and second early crops. The small dark colored tops add to its value and also to its attractiveness. The Royal Red has a very dark red skin, is smooth, shapely, and has but one small tap root. On light soil it is extremely early and of fine form. It is an excellent keeper and is deliciously sweet. We unhesitatingly recommend the Royal Red Beet to every one of our friends and customers. It is worthy of the most extensive use. **Pkt. 5c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 20c. 1/2 Lb. 30c. Lb. 50c.**

3. EARLY Dark Ox-Blood Beet

Seven Reasons why you should grow this Beet.

- 1st. It is extra dark blood color, from end of its tap root to top of its short, graceful leaves.
- 2nd. Early as the Crosby Egyptian.
- 3rd. Almost globe-shaped.
- 4th. Small amount of even foliage of deep Ox-Blood color.
- 5th. Beets are very smooth and free from side rootlets.
- 6th. Flesh fine grained, sweet and of an Ox-Blood color.
- 7th. You are the loser if you don't grow Early Dark Ox-Blood Beet this year.

BOLGIANO'S CARROT Pride of The Market

This beautiful, shapely, half-long Carrot will come almost as early as the Ox-Heart. It is the most popular Carrot that grows.

64. It is the most perfect, finest colored, most tender and best flavored Carrot that was ever placed in your hands. Pride of the Market because it is the best. You must have the best of everything. In Carrots, to get the best we select roots that resemble our ideal, and from them grow seed for you. The Pride of the Market is half long, deep color, free from small side roots, small, tender core, uniform and graceful. As an early Carrot, it is all your heart could wish. In mid-summer, we have seen it outsell every other variety on account of its superior merits and quality; for Winter there is none like it. Its attractive tops remain a rich green, thus giving it a fresh and beautiful appearance, and enabling you to bunch it when your neighbor is compelled to sell his by the measure. This Carrot will make your stall attractive during Winter, when vegetables are scarce and uninviting. At all times of the year, and in every way you take it, the Pride of the Market Carrot will pay and will be your friend. **Pkt. 5c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 25c. 1/2 Lb. 40c. Lb. 75c.**

PROSPERITY POTATOES

THE BEST SECOND EARLY AND MAIN CROP POTATO ON EARTH.

This Magnificent Potato has become the most popular middle crop potato of the newer varieties, and certainly one of the most worthy. Yields great crops of even, fine, smooth, large Potatoes, even under the most unfavorable circumstances, and can be relied upon to bring in good money. It is undoubtedly the handsomest large Potato ever produced, and will outyield any other Potato, and practically every Potato is of marketable size. It is always ahead of all others in yield and smoothness, and is of excellent quality. Every farmer will, after giving this most wonderful Potato a trial, discard every other kind and plant nothing but Bolgiano's Famous Prosperity Potato for his main crop. It grows a very strong, upright top, with dark colored stalks and purple blossoms, and is very little effected with drought, blight or bugs. The flesh is as white as snow, and cooks dry and mealy. The eyes are even with the surface, the skin white, with rich yellowish-creamy cast, and considerably ruffled or netted. This Potato will astonish old Potato-Growers in its abundant yields and fine qualities, and every person who is ambitious to make the most money out of his crop cannot afford to let this year pass without obtaining seed of our crop of New Prosperity Potato. **Lb. 30c. 3 Lbs. 75c, by mail postpaid. ENVY OF THE "OULD SOD"

Baltimore County Man Raises Potato Weighing 22 Ounces.

Mr. P. M. Birkhead, of Catonsville, sent to THE SUN office yesterday two splendid specimens of what is known as the "prosperity" variety of potatoes. The aggregate weight of the potatoes was two pounds and a half, one of them weighing 22 ounces and the other 18 ounces. The larger of the potatoes measures about nine inches in length and about eight inches in circumference. The other is about six inches long and about nine inches in circumference.

Mr. Birkhead declared that half an acre yielded 100 bushels of that variety, all of the potatoes being unusually large.

Strawberry Radish.

(See Painting on Back Cover.)

258. A delicious, crisp, brilliant red radish. The very earliest, often ready for market in less than three weeks. It is a perfect globe shape and so uniform that all the radishes look like they have been made in the same mold. If you have a home garden nothing will please you more, or give you quicker returns for your efforts than this beautiful Radish. If you grow for market no matter how many of these attractive Strawberry Radishes you bring to market, you can always sell every bunch of them, at prices that will both please and pay you. As a frame Radish it is the best of all because it grows short tops, its brilliant red color attracts and draws the customers, who pay high prices for the earliest vegetables. **Pkt 5c. Ruby King Radish.

230. **Bolgiano's Extremely Early Ruby King Radish.**—KING OF ALL Extra Early Scarlet Radishes would be an appropriate name for this most excellent Radish. We claim without fear of challenge, Bolgiano's Extremely Early Ruby King Radish is (without a single exception) by far the MOST BEAUTIFUL, Extremely Early Scarlet button Radish that has ever been brought to any market. The color is a bright, glossy, shining scarlet and when the dust or soil is washed from it, it fairly glows in its brilliant color. No Radish on earth will mature as quickly as the Ruby King, and have such small foliage. It will stand forcing without becoming in the least pethy. The flesh is deliciously tender, juicy and mild. Equally good for open ground culture as for forcing. It is at its very best when permitted to grow quickly. We have offered this Money Making Radish for 6 years and each year our sales so marvelously increase we feel satisfied that the wide-awake Market Gardeners are leading the very earliest markets all over the country with Ruby King Radish. We again place Bolgiano's Extremely Early Ruby King Radish at the head of all Radishes. **Pkt. 5c. Oz. 10c. 2 ozs. 15c. 1/4 lb. 20c. 1/2 lb. 30c. Lb. 60c.**

Bolgiano's Extra Early Long White Pearl Forcing Radish.

249. In our trial grounds, this most attractive, appetizing, cool crisp Radish, matured in the remarkable short time of 13 days. In size and form it is a duplicate of our famous Glass Radish, but having a clear, pure white waxy appearance from top to bottom; is perfectly sound and will remain so longer than any other White Radish. The Early White Vienna, or Lady Finger Radish, does not compare with it. Any true-corer once planting this Radish, will undoubtedly use it to the exclusion of all other early white varieties. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. 1/2 Lb. 20c. Lb. 35c. 5 Lbs. \$1.50.**

Bolgiano's Mammoth Prizetaker Onion.

Gentlemen.—The basket of Bolgiano's Mammoth Prizetaker Onions which I sent to you, is from the field which we grew from seed this season. It produced 800 bushels of these fine Onions to the acre. We planted them in rows 12 in. apart and the onions three in. from each other in the row; we worked it entirely by hand, using no horse cultivator during the season. We placed 40 loads of horse manure and one ton of fertilizer to the acre. Bolgiano's Seeds certainly are the best seeds that can be secured by the most Critical Market Gardeners and Shippers.

Chinese Giant Pepper.

226. Double the size of Ruby King Pepper and equally as mild. By careful and numerous experiments we have found this enormous mild red Pepper to be a money maker of great value to the trucker. The monstrous fruits are of a thick, blocky form and of the most brilliant glossy scarlet. They grow four to five inches broad at the top, and about four to five inches in length and are divided into four or more large ridges and when ripe, they are indented at the bottom end. It is early; productive, and quickly sells on account of its enormous size. The plants are vigorous, stocky, and grow about two feet in height. They are well branched and thickly set with the largest Peppers, frequently half a dozen fruits will touch each other as if in a single bunch; the strong growth of the plants and abundant foliage enable them to mature the large number of fruits almost as early as the Famous Ruby King. Its Mildness of Flavor and Tenderness are unequalled Even by the Bermuda Varieties. In Size, it is not Excelled by the Enormous Varieties From Spain.

205. Eight hundred to one thousand bushels to the acre, and a single specimen weighing as much as 6 lbs. 2 ozs., are some of the things this handsome Globe Onion will produce. It has a bright, clear, straw color, and grows a perfect globe shape. Is by far the handsomest, most productive, most profitable, and best of all Yellow Globe Onions. Large Onions can always be raised in a single season directly from seed. It has always brought much better prices than any other Onion; in market it never fails to attract attention on account of its beauty; on the city fruit stalls it has completely taken the place of the large Spanish Onions. The Prizetaker Onion is gifted with strong drought-resisting ability, and we consider this one of its great merits. People who wish to make money should plant the Prizetaker Onion; it is admitted by the most critical Onion growers to be the largest, finest flavored, and most superior Yellow Globe Onion under cultivation. White Silver Skin Onion.

There is a Very Short Crop of All Onions Both in Europe and America. Order Early.

214. This superior stock is almost exclusively used for growing sets, which is the strongest proof that it is the best from which to grow the large white Onions. Its delicate, mild flavor, its stately form and large handsome size, its pure white color, make it a most desirable variety for the table, the most profitable for market and shipping. Plants are of an extremely thin neck and type, and sure to ripen early. Bulbs are perfect in form and quite thick through. They are fine-grained, crisp and mild. Bulbs should be harvested as soon as ripened and dried in the shade to preserve their silvery white skin, the attractiveness of which makes them command the highest market prices, and removes the necessity for peeling them. Spring Spinach

Improved

Curled Long - Standing

Bolgiano's Hollow Hub Parsnip.

1106. Of a perfect, rich, attractive green color, distinct from all other varieties, and easily recognized. Its growth is abundant, and it will retain a fresh, luxuriant appearance for three or four weeks after the most stubborn seeding varieties have become yellow and gone to seed. Your early Spring garden will be incomplete without a generous sowing of Improved Curled Long Standing Spinach. This Spinach combines the extremely curled leaf of our Bloomsdale Curled Savoy Spinach and its own unequalled long-standing qualities, with a beautiful green which will invariably draw customers your way and bring you the top prices. Our oldest and most experienced customers pronounce this Spinach the best they have ever grown for Spring, Summer, Fall, or the coldest Winter. From our careful tests we learned its merits, before we put it in the hands of the truckers; they immediately realized its value and have from year to year increased their orders until from 100 pounds five years ago, our annual sales now amount to many tons. **Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. No Parsnip seed ever offered is grown as carefully as Hollow Hub. Each individual root is **carefully selected by hand and critically examined**; if it does not come up to the highest standard it is discarded. "Hollow Hub" Parsnip is hollow crowned to a remarkable degree, it has firm tender flesh, a delicious delicate flavor, almost entirely without core. In growth it is small and uniform. In fact Hollow Hub Parsnip is as perfect as it is possible to produce by the most careful selection and breeding. Grow the best, it costs but little more, and it pays so much better.

The Ideal Food and Tonic for
Household Plants and Home
Flower and Vegetable
Gardens

Large Box 15c.

PRICE: 15c LARGE PACKAGE. 15 Lbs. \$1.00. 100 Lbs. for \$5.00.

"PLANT-BLOOD" IS CLEAN.—No Animal Refuse, Decayed Animal Matter or By-Products of the Abattoir are used in "PLANT-BLOOD."

"PLANT-BLOOD" IS COMPOSED OF CLEAN, PURE STIMULANTS entirely free from the objectionable features that make so-called "commercial fertilizers" so offensive to handle.

"PLANT-BLOOD" IS ODORLESS.—This desirable quality will be appreciated by every householder to whom the ill-smelling article of commerce is decidedly obnoxious.

"PLANT-BLOOD" IS SAFE.—There are some plant stimulants that force the plant at the expense of its permanent health, and there are others that literally burn the plant up if even a trifle too much is used.

No Such Danger can occur with the use of **"PLANT-BLOOD,"** which furnishes just the right amount of nourishment to the sensitive rootlets each time the plants are watered. **"PLANT-BLOOD" IS THE ONLY PLANT FOOD** that possesses this extremely valuable quality.

"PLANT-BLOOD" CAN BE USED ON THE MOST DELICATE PLANTS WITHOUT INJURY.

State and County of New York, ss.

This half tone engraving, reproduced from a photo taken by Gardner & Co., 276 Fulton Street, Brooklyn, N. Y., illustrates two geranium plants that were bought from Phillips, the florist, 272 Fulton Street, Brooklyn, in the spring of 1907. They were originally of as near the same size and strength as could be obtained. They were treated exactly alike, except the one on the right received an application of **PLANT-BLOOD.** The plant on the left retained its normal size. The engraving represents accurately the effect in vigor, size and beauty produced on vegetation by **PLANT-BLOOD.** [Signed] WM. I. WYMAN.

Personally appeared before me this 19th day of July, 1907, Wm. I Wyman, of 74 Willow Street, Brooklyn, and made oath to the truth of the above statement.

[Signed] KARL FENNING,
Notary Public.

"PLANT-BLOOD" IS EASILY APPLIED.—Its application is simple, but no injury attends the plants if directions are not strictly followed. The self-regulating feature of **"PLANT-BLOOD"** by which it gives up its tonic and vitalizing properties in the precise amount required each time the plant is watered is unique with **"PLANT-BLOOD."**

"PLANT-BLOOD" IS ECONOMICAL.—For the reason that **"PLANT-BLOOD"** is a store-house of energy that imparts its life-giving principles to the plant in accordance with its needs, **"PLANT-BLOOD"** is not only safe but is highly **ECONOMICAL.** In fact 1 lb. of **"PLANT-BLOOD"** goes as far as 4 lbs. of ordinary plant food.

These novel features of **"PLANT-BLOOD"** are heavily protected by patents, both issued and pending.

"PLANT-BLOOD" IS THE IDEAL FOOD AND TONIC.—**"PLANT-BLOOD"** is a **FOOD** that makes strong, healthy plants with an abundance of blossoms and foliage. Plants fed on it exhibit an unusual resistance to the attacks of insects and fungi. **But it is more than a mere plant food.**

"PLANT-BLOOD" IS A TONIC which vitalizes by enriching the life giving sap as Iron does the human blood.

343. New Royal Purple Kohl Rabi.—Very attractive and fine flavored. Similar to "Best of All" Kohl Rabi but purple in color. Pkt. 5c & 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

—DELICIOUS— PUMPKIN PIE SQUASH.

344. The name tells how good it is. This New Winter Squash is exceptionally fine. It is oval in form, thickest at the blossom end; skin dark grayish green, deepening to bronzy green when ripened. Large size, weighing from 5 to 10 pounds. In thickness of flesh it surpasses nearly every variety, the color of the flesh being a deep orange. For table use no Squash compares with it in its remarkable combination of fineness and compactness of grain, dryness, sweetness and exceeding richness of flavor. Pkt. 10c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 20c. 1/2 Lb. 40c. Lb. 75c.

Druid Hill Park Velvet Green Lawn Seed.

Celebrated from Florida to Maine for its Quick Growth, Deep Velvet Green Color and Wonderful Endurance through hot dry spells. Having made the selection of Fine Lawn Grasses our pride for many years, we are able to offer Lawn Seed Superior in every respect, and acknowledged by all who have used it, to be the best.

This choice mixture is the best for making beautiful and permanent lawns. It is composed of grasses which are especially adapted for the purpose of producing lawns which retain their rich color and soft, velvet green appearance throughout the entire Spring, Summer and Fall. It is valuable for the formation of lawns in places exposed to the Sun, also to partially shaded places where it is difficult to produce good sod. See that shaded places and bare spots are thoroughly worked and enriched before sowing seed. In making up this mixture we are extremely careful to use only the very best quality seed, which has been re-cleaned, the light seed and chaff having been blown out, thus securing the highest grade mixture it is possible to obtain, and seed that will quickly grow. **Price: 1/4 Lb. 5c. 1/2 Lb. 10c. Lb. (16 ozs.) 20c. 5 Lbs. 90c. 25 Lbs. and over at 18c per Lb. It requires 2 Lbs. to sow 800 square feet. 50 to 60 Lbs. to the acre. UNIVERSAL COUPON IN EVERY PACKAGE.**

J. Bolgiano & Son, Baltimore, Md.

Gentlemen:—My Lawn, Seeded this Spring with your Druid Hill Park Velvet Green Lawn Grass Seed is the prettiest I have ever seen, my neighbors say it looks like it has been seeded 5 years. I cheerfully recommend your seeds to all my friends.

MRS. J. M. ADAMS, 105 Roland Ave., Roland Park, Md.

Old Orchard, Me., Oct. 22nd, 1906.

J. Bolgiano & Son, Baltimore, Md.

Gentlemen:—There is no Lawn Grass like Bolgiano's Druid Hill Park Velvet Green Lawn Grass, and my neighbors 'round about here agree with me I run short of lawn seed last year and sent to Boston for some, but it was nothing like as fine as Bolgiano's; in fact, I am going to sow some of yours in place of that next year.

Yours very respectfully,

MRS. C. GREEN.

J. Bolgiano & Son, Baltimore, Md.

The Druid Hill Park Velvet Green Lawn Grass Seed which I got of you last Spring did splendid.

Yours very truly,

W. H. BELL, Rockingham Co., Va.

J. Bolgiano & Son, Baltimore, Md.

I have found your Lawn Grass Seed to be the purest, cleanest and best in the market. It withstands severe droughts and retains its verdure throughout the entire season. I have used it for thirty-five years, and our large and beautiful lawns here at "Ingleside" have always been greatly admired.

HARRY FAUTH, Catonsville, Md.

SHADY NOOK LAWN GRASS MIXTURE.

A popular mixture of grasses best adapted for sowing in shady places where ordinary grasses will not thrive. In nearly all lawns where there are trees there will be found bare spots, which can be made green and bright by using this mixture, if the shaded places and bare spots are thoroughly worked and enriched before sowing seed. **25c per Lb. 5 Lbs. \$1.00. Add 8c per Lb. if to go by mail.**

Sweet Vernal Grass Seed. 1/4 Lb. 15c. 1/2 Lb. 30c. Lb. 50c.

PULVERIZED SHEEP MANURE.

This is purely a natural and most nutritious plant food, clean to handle, and its effect is immediate and lasting. There is nothing better to mix with soil for potting plants. Florists who use it exclusively advise mixing about one-seventh manure and six sevenths soil. As a top dressing for lawns it is unequalled. **Pkt. 15c. 5 Lbs. 25c. 10 Lbs. 40c. 30 Lbs. \$1.00. 50 Lbs. \$1.25. 100 Lbs. \$2.00. Per Ton \$30.00.**

Permanent Pastures.

WE PREPARE 10 SPECIAL GRASS AND CLOVER SEED MIXTURES FOR HAY AND PERMANENT PASTURE SUITABLE TO EVERY VARIETY OF SOIL.—SEE PAGE 54.

WHITE DUTCH CLOVER.

This is the best clover for lawns, as it furnishes a close herbage and remains green throughout the season. It is also a valuable mixture with grass seed for pasture. Sown in the Spring at the rate of six pounds per acre when sown alone; one-half the quantity when sown with other seeds. **1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.00. Add 8c per Lb. if to go by mail.**

BOLGIANO'S LAWN FERTILIZER.

Stable manure should never be used as the top dressing on lawn, for it always contains large quantities of weeds. We have therefore had prepared for us a special lawn fertilizer which is clean and high grade in every respect, and free from disagreeable odors. It produces a rapid and rich green growth of grass, and should be sown broadcast in the Spring or Fall. 10 pounds for 300 square feet, 50 to 1500 pounds per acre. **Pkgs. 10c; by mail 20c. 5 Lbs. 25c. 10 Lbs. 45c. 25 Lbs. \$1.00. 100 Lbs. \$2.50. 500 Lbs. \$11.00.**

The Roland Park Special 18-inch Lawn Mower I bought of you this year is far superior to any Lawn Mower ever seen. It can't be beat. It runs and cuts so easily a child can use it. E. J. Starr,
Nov. 14, '06. Cockeysville, Md.

PERFECTION FLOWER GUARD.

Is just as easily applied to any form or size of flower bed. No posts are required, the picket ends are left projecting for insertion in the ground. Not expensive, and can be taken up from year to year. It is cut off to the length required and the ends hook together when set. This border not only protects but adds to the beauty of every flower bed.

Per running foot, 12 inch, 10c, 18 inch, 11c, 24 inch, 12c, 30 inch, 13c. Special prices in large quantities.

1818 BOLGIANO'S COMPLETE LIST OF 1908 Standard Vegetable Seeds.

FOR NINETY YEARS WE HAVE WON CONFIDENCE.—Not by chance, not by luck, but by honest, untiring efforts. Our undivided time and attention is given to growing the choicest and most reliable Seeds. We carefully select all the highest grade stocks, and eliminate those which our test gardens prove to be unprofitable for the trucker or gardener to grow. We never recommend any article unless we are certain, by actual test, it possesses merits superior to anything the trucker already has. We watch for improvement in character, shape, form, color, attractiveness and best selling qualities. These improvements we quickly note and encourage. Remember as you read through this catalogue what we say about each article has been gathered from our actual experience together with the experience of the most up-to-date and successful practical market gardeners and truckers in every part of the world.

BEST CROP ON THE FARM.

J. Bolgiano & Son, Baltimore, Md.

Oco. 15th, 1907.

I had a fine crop of your Extremely Early I. X. L. Tomato this Spring. They were very early, large, smooth, nice shape. They held their size so well I was able to pick a long time. Made more money out of I. X. L. Tomatoes than any other crop on my farm. I find it the best of all the Early Tomatoes.
Yours truly,
FRED GILLESPIES, Baltimore Co., Md.

ARTICHOKE. ARTICHAUT Alcachofa Artichoke

Jerusalem.—The tubers roasted, or boiled, served with butter, salt and pepper, makes a dish some think superior to Potatoes. They are most excellent feed for cows and will cause an increase in quantity and quality of milk. **Peck 75c. Bushel \$2.50.**

ASPARAGUS. ASPERGE Esparrago Spargel

1. **New Palmetto.**—Is very early, large yielder, and very regular and even in growth. Average bunches contain 15 shoots, measuring $1\frac{3}{4}$ inches in circumference; weighs 2 pounds. It is equally well adapted for all sections. Its quality is unequalled. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.**

ASPARAGUS ROOTS.

No effort put forth in the garden will bring more pleasure and satisfaction than an established Asparagus bed, if this is thoroughly prepared according to the following directions. A bed 20 by 50 feet, set with 1000 two-year-old roots, will last for years and furnish an abundance.

DIRECTIONS.—Select a good sandy loam, plow the ground as deep as possible, dig out 12 inches deep, put in a layer of 4 inches of good, strong stable manure, and press down; then fill in with good, rich, black loam to the top of the bed. Sow on top of bed 100 pounds kainit to 1000 square feet of bed; incorporate this thoroughly to depth of 3 inches. After leveling bed off even, stretch a line the length of bed 9 inches from the edge, and with a spade cut a furrow 8 inches deep, set a row of plants along the trench 9 inches apart, with the crowns of the roots 2 inches below the surface; then cover up make even and plant other rows 9 inches apart.

Palmetto 2-Year Old Roots.—100, 60c. By mail 100, 85c. 1000, \$5.00.
Conover's Colossal 2-Year Old Roots.—100, 60c. By mail 100, 85c. 1000, \$5.00.

BEANS.

We supply Packets of all Beans at 5c and 10c each, Postpaid. Add 8c per Pint, 15c per Quart extra by mail. One Quart to 100 Feet of Drill. Two Bushels to the Acre.

To afford a regular succession of crops, plant every two weeks, from the middle of Spring to the end of Summer but not until the soil becomes warm, as they are very sensitive to both heat and cold. Plant in rows 18 inches apart, 2 inches deep; cultivate frequently, but only when dry, as the scattering of earth on the foliage or pods when moist, will cause them to become damaged with rust. This crop will flourish between the ridges of celery, rows of corn or cabbage, when they are first planted, as the Beans would be ready for the table before the other crops attain any size.

J. BOLGIANO & SON, Baltimore, Md.

March 9th, 1907.

Having moved to Florida, I desire as far as it is in my power to aid the people in procuring good seed, also to tell them of "Bolgiano" the seed man who has given my husband and I father every satisfaction for the last 25 years.

MRS. E. H. NEWBURN, Dade Co., Fla.

BOLGIANO & SON, Baltimore, Md.

October 30th, 1907.

I have ordered seeds from many houses, but those ordered of you last Spring, gave better satisfaction than any I ever planted before or since.

Yours very truly,

H. A. WILSON, Panola Co., Texas.

CULTURE of Pole Beans and Pole Lima Beans.—These are usually planted in hills and trained to poles, which should be 8 to 10 feet long, and firmly set in the ground from 3½ to 4 feet apart each way. Draw around them a hill of earth and plant 4 to 5 Beans to each hill, 1 inch deep, always observing to plant the eye of the Bean down. The Lima Bean is very delicate, and often fails to sprout from slight causes; they should not be planted until the ground is warm. Do not allow more than three to climb a pole, but remove extra plants to hills where less than three have sprouted.

Extra Early Felices

Extra Early Eclipse Beet.

Culture.—Sow as early in the Spring as the ground can be worked (5 to 6 lbs. to the acre), and every two weeks after for a succession, up to the first week of July. For general crop, sow about the middle of May. Soil should be light, sandy loam, well enriched with stable manure and plowed and harrowed until very fine. Sow in drills 1 foot to 15 inches apart, and when well up thin from 4 to 6 inches. The young Beets, with their tops, pulled out of the row, are excellent used as Spinach.

Brussels Sprouts.

CHOU DE BRUXELLES
Berza de Brusels
Kotentobl

Culture.—Sow in May, in the same manner as Cauliflower, and transplant in July 1 foot apart in rows 1½ feet apart. In gardens, large and small. Brussel Sprout is the very best winter vegetable that can be grown. It is as hardy as the common Curled Greens. The real Sprout is not much larger than a marble, and almost as firm and hard as the stalk itself. These, cooks prefer. They strip off the outer covering, cook them whole, and serve them up artistically. When cooked through and no more, such sprouts melt in the mouth, like the tenderest Cauliflower, and are equally as good. If more widely known, Brussels Sprouts would be as popular as it is valuable.

Culture.—One Ounce will produce about 2500 Plants. 1/4 lb. to transplant for one acre. For very early use sow in January or February in hot-beds; put out when plants are strong enough to other hot-beds; or sow in cold frames in March; transplant when danger of killing frosts is past to the open ground, in rows 2 ft. apart and 18 in. in the row. For a succession, sow in the open ground the last of March or early in April. Autumn or Winter varieties sow in April or early in May, in shallow drills, 3 or 4 in. apart; transplant early in July, in rows 2½ feet apart and 2 feet in the row.

Late or Winter Varieties.

Bolgio's Extra Flat Dutch Cabbage.

43. Bolgio's Extra Flat Dutch.

Market Gardener's Choicest.—Can be planted later than the old time varieties and matures more quickly into a handsome EXTRA LARGE, solid, uniform Cabbage of perfect keeping qualities. It has of its own superior merits become a great favorite everywhere. If you want the best Flat Dutch that grows, try Bolgio's Extra Flat Dutch. Pkts. 5c and 10c. Oz. 20c. 1/4 Lb. 40c. Lb. \$1.50.

50. **Louisville Drumhead. (Best of all Drumhead Cabbages.)**—There is no Cabbage of the Drumhead type which can be compared with this beautiful representative, in shape, color, firmness and excellent table qualities. While not as large as some of the coarse, inferior kinds, it is of fine size, very solid and uniform. Heat and moderate drought have little effect upon it on account of the peculiarly short stem and low habit of growth, so we recommend it for sections where late Cabbage is apt to be exposed to such conditions. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

45. **The Lupton Cabbage.**—Is a splendid late sort, heading after the second early sorts and sooner than the Late Flat Dutch. It is particularly uniform in size and shape, holds its dark green color better than the late sorts. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

51. **BOLGIANO'S NEW WHITE WONDER.**—The Greatest 20th Century Flat Dutch Cabbage.—Every plant makes a head, large, solid and attractive. CAULIFLOWER.

Blumen-Kohl.

An ounce will produce about 1500 plants, and sow about 40 square feet. One-half ounce furnished at ounce rates and one-half pound furnished at pound rates.

Culture of Cauliflower.—For Spring or Early Summer crops sow in March or early in April in hotbeds and transplant to cold frame when sufficiently large, and to open ground as soon as danger of hard freezing is over. The plants will endure a light frost. The soil should be made richer than is ordinarily used. Give the plants thorough culture and keep free from worms with Slug Shot Insect Powder. For late crops sow at same time as for late Cabbage; treat in the same manner. It should be borne in mind that Cauliflower WILL NOT head up well in hot, dry weather, and hence sowing should be so regulated as to bring it to maturity before the hot Summer sets in or not until cooler Fall. Water liberally; the size and quality of the head will be greatly improved. After the heads begin to form, draw leaves over and pin or tie them together to protect the head from the sun.

55. **Earliest Snow Ball Cauliflower.**—Our Snow Ball Cauliflower is the earliest, most hardy, and, in fact, the Cauliflower that you can plant, and expect a crop, of true, firm, snow-white heads. You can not get better Snow Ball Cauliflower Seed no matter what price you pay. There is but one stock of Cauliflower that is better and that is Bolgiano's New Century Cauliflower. Many of the beautiful, shapely heads measure from 10 to 12 inches in diameter. Our Cauliflower seed is saved only from absolutely perfect plants and is grown by the most experienced and critical growers in localities best suited for its perfect development. Best for forcing; best for wintering over early crop. Every plant will produce a fine head. Pkts. 5c, 10c and 25c. 1/2 Oz. 75c. Oz. \$1.50. 1/4 Lb. \$5.00. Lb. \$18.00.

Culture.—One ounce will produce about twenty-five hundred plants and sow about two hundred feet of row. Sow the last of March or early in April, in an open border, in rich mellow ground in shallow drills, watering freely in dry weather. By rolling or pressing in the seed, the result will be more satisfactory than when only covered. Cut the tops off once or twice before planting out, to make them stocky. When the plants are 5 or 6 inches high, transplant the dwarf varieties 3 feet and the taller sort 4 feet between the rows; plant 6 inches apart in the rows. Cultivate well and when large enough, blanch by earthing up. The first operation is that of "handling," generally done by the beginning of September. After the soil has been drawn up with the hoe, it is drawn around each plant by the hand to keep the leaves firm in an upright position and prevent spreading. When the plants have become "set" in an upright position and the Celery is wanted for early use, they should be "banked." This is done by throwing the soil up as close to the plants as possible with a plow and finishing it with a spade, bringing the earth up nearly to the tops of the plants. The method, employed now for protecting is by covering the tops of the banks with water-proof felt paper.

71. **French Golden Self-Blanching Bolgiano's Famous Stock.**—Grown by the Originator in France. (Specialty, see page 16.) Pkts. 5 and 10c. Oz. 35c. 1/4 Lb. \$1.00. Lb. \$3.50.

76. **Sweet Nut Celery.**—Most delicious Celery grown. We recommend it for near-by markets and home use. (Specialty, see page 16.) Pkt. 10c. Oz. 35c. 1/4 lb. \$1.

81. **New Victory, Solid French Grown.**—(Specialty, see page 16.) Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. \$1.00. Lb. \$3.50.

72. **Perfected White Plume Celery.**—It is most extensively used on account of its extreme earliness. Its stalks and portions of its inner leaves and heart are white naturally. By simply tying the plant together, or by drawing the soil firm against the plant with the hand and repeating the operation to hold the soil evenly against the plant in position, the work of blanching is completed. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.75.

75. **New Winter Queen Celery.** (Pedigree Stock.)—Is beautiful in appearance. Ribs perfectly solid, crisp and of a delicious nutty flavor. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

78. **Giant Golden Heart Celery.**—A gardener found in his Dwarf Golden Heart a few plants of larger growth. A careful selection made for several years, resulting in the Giant Golden Heart, which excels for large size, solidity and keeping quality. Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.

335. **Perfection Heartwell.**—Large, golden yellow heart; superior quality. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

515. **Kalamazo.**—Very popular, hardy winter variety. Pkts. 5 and 10c. Oz. 10c. 1/4 Lb. 40c. Lb. \$1.50.

342. **Sweet Heart Celery.**—A perfect Winter Celery, each stalk has three or more deliciously sweet hearts. Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. 75c. Lb. \$2.50.

French Grown Solid New Victory Celery.

73. **Giant Pascal Celery.**—This is a large, solid, excellent sort. It blanches very quickly to a beautiful yellowish-white color, is very solid and crisp, and of a fine nutty flavor. Stalks grow broad and thick, a single plant making a large bunch. Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.

79. **The Pearl Le Grand Celery.**—Keeps in perfect condition over winter and after other sorts are gone. Its large full golden heart has a rich nutty flavor. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.

77. **Boston Market Celery.**—Is solid, crisp and desirable. Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.

80. **Evans's New Triumph.**—This variety has a very strong vigorous plant; is crisp, brittle, tender and fine flavor. Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 40c. Lb. \$1.40.

74. **Golden Heart Celery.**—Is crisp, solid, handsome and most excellent flavor, with a beautiful golden heart. Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.

CRESS

CRESSON.
Berro o Mastuerzo.
Kressso.

Culture.—Sow curled or pepper grass thickly, in shallow drills, every two or three weeks. It should be cut often, and it will continue to grow. It is useful not only for salad, but for the breakfast table and for garnishing.

520. **True Water Cress.**—Should be sown in damp soil; or if a stream of water can be utilized, they would be much finer. They will also thrive well in damp hot-beds. Rightly managed, their culture is very profitable. To obtain early salad it is a good plan to sow with Water Cress seed a strip 4 inches wide on the upper margin of the hot-bed, inside the frame, where it is always cool. Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. 75c. Lb. \$2.50.

521. **Curled or Pepper Grass.**—Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 30c.

CORN SALAD OR FETTICUS

MACHE Macha o Valerianillia Stechsalat

1 Ounce will sow 20 square feet, 6 Pounds will sow an acre.

Culture.—Sow during August, or early in September, in drills 1/2 inch deep and 6 inches apart. If the weather is dry when the seed is sown, tread it lightly to insure germination. Keep down weeds with hoe. Just before the winter, cover thinly with straw or leaves.

24. **Large German Corn Salad.**—Used to a considerable extent as a salad. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. 1/2 Lb. 20c. Lb. 40c.

wanting to purchase seeds in unusually large quantities should write for special prices. Although we have made prices very low in this catalogue, yet where a number of pounds or bushels are wanted, we can frequently supply at a lower price than by the single pound or bushel. In writing, give us a list of quantities and varieties required, and we will return list promptly with our LOWEST COST PRICE FOR THE LOT. Address inquiries,

Corn,

Sweet or Sugar

We supply Packets of Sweet Corn at 5c and 10c each, post-paid on Pints and Quarts, add 12c Quart Postage.

Culture of Corn.—The Sweet or Sugar varieties, being liable to rot in cold or wet ground should not be planted before May, or until the ground has become warm. For a succession, continued planting every two weeks until the middle of July, in rich, well-manured ground, in hills 3 feet apart each way, covering about half an inch, and thin out to three plants to a hill. Hoe often and draw soil up to the stem; break off side shoots. The extra early varieties can be planted 18 inches in the row and 2½ feet between the rows.

EXTRA EARLY.

1051. **Double XX Extra Early Adams' Sweet Corn.**—Two weeks earlier than Extra Early Adams', large ears completely filled with 10 to 14 straight even rows of snowy white deep grains. **Per ear 5c. Doz. 40c. Pt. 10c. Qt. 20c. Gal. 50c. PK. 90c. Bus. \$3.50.**

1052. **Adams' Extra Early.**—A splendid early variety, largely grown for early market. **Per Ear 5c. Doz. 40c. Pt. 10c. Qt. 20c. Gal. 50c. PK. 90c. Bus. \$3.50.**

1053. **Second Early Adams' Corn.**—Ears are larger and later than Adams' Extra Early. **Per Ear 5c. Doz. 40c. Pt. 10c. Qt. 20c. Gal. 50c. PK. 90c. Bus. \$3.50.**

1050. **Gillespie's First Early Neck Corn.**—The VERY FIRST GOOD SIZE CORN that can be brought to market. It is so hardy that it can readily be planted as soon as the ground is in good working order, and will, from the day of its germination, hurry forward to meet the early demand for fresh Corn, which is always very keen and causes this delicious, attractive and superior Corn to bring profitable prices. **Per Ear 5c. Doz. 40c. Pt. 10c. Qt. 20c. Gal. 50c. PK. 90c. Bus. \$3.50.**

1049. **White Cob 65-Day Corn.**—(Specialty, see page 20.) **Per Ear 5c. Doz. 50c. 100 Ears \$3.50. PK. 5c. Pt. 10c. Qt. 20c. Gal. 50c. PK. 90c. Bus. \$3.50.**

1115. **Premo 60-Day Corn.**—(Specialty, see page 20.) Experts pronounce this Corn to be from 5 to 7 days earlier than any other Sugar Corn in existence. It is superior to many leading early varieties in quality, size and yield. Can be planted as early as the Adams' for the young plant withstands slight frosts. **Pt. 15c. Qt. 25c. Gal. 80c. PK. 1.50. Bus. \$6.**

1054. **Red Cob 90-Day Corn.**—This Corn meets a long-felt want, because it suits the retail market sales; makes a first class Crop Corn for feeding stock. The ear is large, handsome, suits for early or late crop, because it matures in 90 days. This makes it always a safe and profitable crop. **Per Ear 5c. Doz. 40c. Pt. 10c. Qt. 15c. Gal. 30c. PK. 50c. Bus. \$1.50.**

1055. **Early Minnesota.**—Ears larger than the Cob and matures between that variety and the Crosby. Eight rows of quite large, sweet grains. **Per Ear 7c. Doz. 75c. Pt. 15c. Qt. 25c. Gal. 75c. PK. \$1.35. Bus. \$5.00.**

1058½. **Metropolitan.**—Large, handsome ears of fine quality; very early. **Per Ear 7c. Dozen 75c. Pt. 15c. Qt. 25c. Gal. 75c. PK. \$1.35. Bus. \$5.00.**

1057. **Mammoth White Cory Sweet Corn.**—Produces ears 7 to 8 inches long; 12 rowed; white-cobbed and covered with very large white grains of extra quality. **Per Ear 7c. Dozen 75c. Pt. 15c. Qt. 25c. Gal. 75c. PK. \$1.35. Bus. \$5.00.**

SECOND EARLY OR INTERMEDIATE.

1068. **Peep-o-Day.**—(Specialty, see page 20.) **PKts. 5c and 10c. Pt. 15c. Qt. 25c. Gal. 80c. PK. \$1.50.**

1058. **Champion.**—Very large ears considering its earliness. **Per Ear 7c. Doz. 75c. Pt. 15c. Qt. 25c. Gal. 80c. PK. \$1.50. Bus. \$6.00.**

1056. **Crosby.**—Matures after Minnesota; fair-sized ears of good quality. **Per Ear 7c. Doz. 75c. Pt. 15c. Qt. 25c. Gal. 75c. PK. \$1.35. Bus. \$5.00.**

1059. **Earliest Sheffield Sugar Corn.**—Planted early as Adams', it will stand slight frosts, makes a strong vigorous growth with abundant foliage, growing about 5 feet, bearing usually 2 ears of handsome appearance, entirely free from smoot; exceptionally fine flavored and juicy. **Per ear 7c. Doz. 75c. Pt. 15c. Qt. 25c. Gal. 80c. PK. \$1.50. Bus. \$6.**

1060. **Extra Early Evergreen.**—Ears are like evergreen—very large, with about 18 irregular rows and a very long grain of the very best quality; remains in condition for use longer than other sorts, exceeding the Stowell's in this respect. **Per ear 7c. Dozen 75c. Pt. 15c. Qt. 25c. Gal. 80c. PK. \$1.50. Bus. \$6.00.**

1061. **Early Mammoth Sugar.**—Market Gardener's favorite. Two weeks earlier than the late Mammoth. **Per ear 7c. Doz. 75c. 100 ears \$5.00. Pt. 15c. Qt. 25c. Gal. 80c. PK. \$1.50. Bus. \$6.00.**

GENERAL CROP.

1066. **Snow White Evergreen.**—(Specialty, see page 20.) **Per ear 7c. Dozen 75c. 100 ears \$5.00. Pt. 15c. Qt. 25c. Gal. 80c. PK. \$1.50. Bus. \$6.00.**

1067. **Stowell Evergreen.**—The truest strain of this leader of all Corns is in our possession. It remains longer in a first-class marketable condition than any other variety. **Per ear 7c. Dozen 75c. 100 ears \$5.00. Pt. 15c. Qt. 25c. Gal. 80c. PK. \$1.50. Bus. \$6.00.**

522. **Hickox Improved.** Handsome ears, very white and of rich flavor. **Per ear 7c. Dozen 75c. Pt. 15c. Qt. 25c. Gal. 80c. PK. \$1.50. Bus. \$6.00.**

LATE CROP.

1062. **Large Late Mammoth Sugar.**—Largest of all sugar varieties. Producing perfect ears of immense size, having from 12 to 16 rows. A fine market variety. Sweet and delicious. **Per ear 7c. Dozen 75c. Pt. 10c. Qt. 15c. Gal. 40c. PK. \$1.50. Bus. \$6.00.**

1063. **Black Mexican.**—Very sweet and of superior flavor; seeds black. **Per ear 7c. Dozen 75c. Pt. 15c. Qt. 25c. Gal. 80c. PK. \$1.50.**

1065. **Country Gentleman Sugar Corn.**—(Specialty, see page 20.) **Per ear 7c. Doz. 75c. 100 ears \$5.00. Pt. 15c. Qt. 25c. Gal. 80c. PK. \$1.50. Bus. \$6.00.**

523. **Ne Plus Ultra, or Shoe Peg.** Small, but one of the sweetest sort. **Per ear 7c. Dozen 75c. Pt. 15c. Qt. 20c. Gal. 40c. PK. 75c. Bus. \$6.00.**

1064. **Rice Pop Corn, for Popping or Seed.**—No variety of Pop Corn is superior to this for popping. **10c per Lb. shelled. By mail, 15c per Lb. 3 Lbs. shelled Pop Corn and Popper, 25c.**

97. **Thorburn's Everbearing.**—The famous pickling Cucumber, Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.
92. **New Excelsior Long Green Cucumber.**—It is a model for size, form, and beauty. Deep green color, and an abundant cropper. For table use and pickles it is most suitable. This sort runs so uniform that the Cucumbers look as if they had all been selected. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.
96. **The Cumberland.**—One of the best pickling Cucumbers known. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.
88. **New Extra Long White Spine Cucumber, or Fordhook Famous.**—Skin very deep green; flesh greenish white, firm and unusually crisp. The plant is a strong grower; leaf large and of a deep green color. The fruit is long (12 to 17 inches), smooth, slim and uniform. Owing to its large, thick, heavy leaf, it withstands attack of insects. Its northern origin insures hardiness and vigor. Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 60c.
82. **Coy's Early Cyclone Cucumber.** Pkt. 5c. Oz. 10c. 1/4 Lb. 30c. Lb. \$1.00.

1 Oz. will produce 500 plants.

Pkts. Oz. and 1/4 Lbs. delivered free by mail, add 8c to Lbs.

CULTURE.—Sow in hot-beds very early in Spring and transplant when 2 in. high into second bed or into small pots. If this is not done, then to 4 in. apart. Do not plant out until weather has become perfectly settled and warm. Cool nights or wet weather will check them. Keep some back in frames for a second planting, in case of weather changing unexpectedly. Set out plants 3 ft. by 2 ft.

100. **Bolgioano's Black Beauty Eggplant.**—(Specialty, see page 17.) Pkts. 5c and 10c. Oz. 40c. 1/4 Lb. \$1.35. Lb. \$5.00.
99. **The Florida High Bush Eggplant.**—(Specialty, see page 17.) Pkts. 5c and 10c. Oz. 40c. 1/4 Lb. \$1.35. Lb. \$5.00.
103. **Bolgioano's Improved Large Purple Eggplant.**—Perfect stock of improved Large Purple Eggplant—purer, truer and better than has ever been offered before. It has a handsome shape, a fine dark purple color, beautiful form, large size and is uniform, making it most attractive for shipping and market use. Pkts. 5c and 10c. Oz. 40c. 1/4 Lb. \$1.35. Lb. \$5.00.
101. **New York Improved Eggplant (Spineless).**—A vigorous grower; fruit large, fine, free from thorns, and produce until frost; skin of a rich purple; flesh white and of a rich flavor. We can highly recommend our carefully selected strain of this Eggplant to market gardeners and amateurs. Pkts. 5c and 10c. Oz. 40c. 1/4 Lb. \$1.35. Lb. \$5.00.
104. **New Orleans Eggplant.**—Large, dark purple or New Orleans market. During droughts it fruits abundantly, and its strong, erect plants lift the fruit too high for injury during a rainy spell. In form, handsome; size, large; color, dark purple; and it out yields many other sorts surprisingly. They are good shippers, carry well and remain firm. Pkts. 5c and 10c. Oz. 40c. 1/4 Lb. \$1.35. Lb. \$5.00.
102. **New Jersey Improved Large Smooth Eggplant.**—Pkts. 5c and 10c. Oz. 40c. 1/4 Lb. \$1.35. Lb. \$5.00.

Endive. CHICOREE Escarola o Endivia Endivie

1 Oz. to 150 feet of Row.

Culture.—Sow in June, July and August; cover lightly; when up, thin out to 8 inches apart and water well afterward, if dry. When the leaves are 6 to 8 inches long, blanch by gathering in the hand and tying together near the top with yarn or bast. This must be done when quite dry, or they will rot. At the approach of Winter, take up carefully, with a ball of earth to each plant, and place close together in frame or cellar for use. They must be kept dry and have plenty of air or they will rot.

106. **Bolgioano's New Self-Blanching Endive.**—(Specialty, see page 25.) Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. \$1.50.
107. **Green Curled Winter.**—Pkts. 5c. and 10c. Oz. 10c. 1/4 Lb. 30c. Lb. \$1.00.

BORE COLE, OR KALE. Spargel Kobl

113. The most salable, delicious and tender of all Winter Kales. About Baltimore, it is sown in May, and transplanted like cabbage to stand over Winter. It is taller than the extra dwarf varieties and when the leaves are stripped, or fall off, new tender leaves quickly grow out. Then they are again stripped off and used for marketing. It will stand the coldest Winter. Besides being a delicious vegetable, it has always been an exceptionally profitable crop, bringing in money during the Winter months when most all vegetables are scarce. Pkts. 5c and 10c. Oz. 15c. 2 Ozs. 25c. 1/4 Lb. 40c. 1/2 Lb. 65c. Lb. \$1.25.

112. **Extra Dwarf Green Curled Scotch, or Norfolk Kale.**—One of the best Kales for Spring sowing in the North; the principal sort grown South for Northern markets; hardy, and will remain over Winter where temperature does not go below zero. Very dwarf and spreading, rarely exceeding 18 inches in height. Leaves are a bright green color, beautifully curled and produced in great abundance. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

156. **Big Boston Lettuce. Bolgiano's Famous Stock.**—Big Boston Lettuce is the most valuable Lettuce in cultivation, its excellent qualities have made it the most popular and most extensive used Lettuce in the world. It can be grown in the open ground for Summer or Fall, in frames for Spring or forced cool in green-houses for Winter use, producing under each condition, grand, large, buttery, yellow heads, filled with sweet, crisp, tender, beautifully blanched leaves. Stands long without going to seed; has few outer leaves and makes a large, attractive plant. **Big Boston Lettuce is specially adapted to cool open-ground culture.** Our stock of this famous Lettuce is the finest in the world. Pkt. 5c. Oz. 10c. 1/4 Lb. 30c. 1/2 Lb. 60c. Lb. \$1.00. 5 Lbs. @ 90c.

126. **Bolgiano's New Early Spring Lettuce.**—In the early Spring this splendid Lettuce does its best, producing large Cabbage-like heads, uniform in size, tender, crisp, and sells for highest prices. Pkts. 5c and 10c. Oz. 15c. 2 Ozs. 25c. 1/4 Lb. 40c. 1/2 Lb. 65c. Lb. \$1.25.

122. **Improved White Loaf Lettuce.**—This is a Lettuce the Agricultural Department at Washington says should be more largely used. After the most careful cultivation and roguing, we have established the truest and most uniform strain of Improved White Loaf Lettuce. In the earliest Spring it quickly forms most delicious, large, light-colored Lettuce Heads and can be brought to market long before other Lettuce. As a frame Lettuce it has no equal; often 18 heads have brought \$2.50 wholesale. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 35c. Lb. \$1.00.

119. **Bolgiano's Farmer's Pride Lettuce.**—MASSIVE, yet graceful as a rose and solid as a rock. Farmer's Pride Lettuce is an absolute necessity to any wide-awake up-to-date grower of vegetables. Sow the seed any time in the year you wish; your crop will be the finest you ever grew. Order at once. Pkts. 5c @ 10c. Oz. 10c. 1/4 Lb. 35c. Lb. \$1.25.

129. **Vaughan's "All Seasons."**—A handsome, very large, solid head; leaves a beautiful light green and the inner ones are very tender, crisp, and a beautiful golden color. It goes to seed very slowly. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 30c. Lb. \$1.00.**
130. **Philadelphia Early White Summer Cabbage.**—A large heading variety. **Pkts. 5c and 10c. Oz. 10c. 1/4 Lb. 25c. Lb. 75c.**
120. **Tait's Imperial Cabbage Lettuce.**—Some of the most successful growers in the vicinity of Norfolk prefer it to any other sort. The leaves are thick, crisp, and stiff, and carry well in shipment. Color bright green and holds well after cutting. As an open air Lettuce, it is unexcelled for endurance of extreme cold, and yield per acre. **Pkts. 5c @ 10c. Oz. 1c. 1/4 Lb. 50c. Lb. \$1.50.**

J. BOLGIANO & SON, Baltimore, Md.

I purchased your lettuce seed this fall from Mr. J. E. Pace, and they were as fine as silk. I can get lettuce seed from other Store-keepers, but I am a little shy on account of them not being fresh. I bought one pound of them, and only got up a few thousand plants and they will be late, and I don't care to take any more chances, and if I get them from you I can bank on them.

Yours very truly, Herman A. Meade, Orange Co., Fla.

Melon.==Cantaloupe.

Pkts., Ozs. and 1/4 Lbs. Delivered Free, but add 8c. to Lbs.

Culture.—Select a light, sandy, rich soil, and after all danger of frost is over, and the ground has become warm and dry, plant in hills 4 to 6 feet apart each way, 6 to 12 seeds to a hill. When up and all danger of insects has passed, pull out all but 3 plants. Cultivate until the vines cover the ground, and pinch the ends of the growing shoots to induce early fruiting. Ashes, lime, or even dry road dust, is excellent to sift over young plants when the dew is on, to prevent the attacks of insects. A few hills for early use may be had by sowing in hotbeds, on pieces of sod or in pots. The seed may also be started out of doors under hand frames or in glasses. It is quite important that the proper soil be selected for growing Cantaloupes.

16. **"Junior" Rocky Ford.**—A little larger, two weeks earlier, twice as prolific as Rocky Ford. (Specialty, see page 14.) **Pkt. 10c. Oz. 25c. 1/4 Lb. 65c. Lb. \$2.50.**

207. **Long Island Beauty Cantaloupe.**—A new introduction of exceptional merit. (Specialty, see page 25.) Be sure to try it. **Pkts. 5c @ 10c. Oz. 10c. 1/4 Lb. 25c. Lb. 80c.**

Gentlemen:—I was very much pleased with the Rocky Ford Cantaloupe that you sold Mr. J. B. Huske of this place. They were short and thick, packed in crates better than any other variety, and brought from 50c to \$1 more on the markets. Can you book my order for 25 lbs. of this same type for the coming season? C. D. AVERETTE, N. C. July 20, 1906.

Melon, Water

CULTURE OF WATERMELONS.—1 Oz. to 30 Hills, 4 or 5 Lbs. to the Acre.—Treat the same as Cantaloupes, except that they should be planted 8 to 10 feet apart, according to the variety. Light, sandy, loamy soil is the best.

171. **Bolgioano's Cold Mountain Spring Watermelon.**—Best shipper. (Specialty, see page 12.) **Pkt. 10c. Oz. 15c. 1/4 Lb. 35c. Lb. \$1.00.**

175. **Luscious Favorite Watermelon.**—It is vigorous and productive. The outer color is very bright, being a beautiful mottled light green. The rind is thin and tough, and stands shipping perfectly; it is an excellent keeper, and improves in quality after ripening. It has an attractive shape; flesh is a light, vivid red in color, and very solid, crisp, tender, melting and sweet. The flavor is exquisite, possessing not only the ordinary sweetness, but a luscious flavor not to be found in other sorts. Every grower who gives this Melon a trial will be thoroughly convinced of its superior merits. **Pkt. 5c. Oz. 10c. 1/4 Lb. 25c. Lb. 75c.**
172. **Cannon Ball Watermelon.**—It is enormously productive, with rich, dark green skin, remarkably uniform in size, and its shipping qualities are phenomenal. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.**

These are the prices ruling in January; later on they will be higher.

Prices of sets subject to market changes. Write us for special prices in quantity. We annually grow thousands of bushels of the Choicest Onion Sets. The enormous increased demand which we have had from year to year has permitted us to greatly increase our facilities for growing and handling **Re-cleaned Onion Sets**. This demand is sufficient proof that our choice Re-cleaned Onion Sets are pleasing our customers and attracting the attention of their neighbors and other growers. We grow and sell more choice re-cleaned Onion Sets than any other house in the Southern States, and each year for five consecutive years we have doubled our acreage. We prefer to sell by weight because we have found by long experience that it is by far the most satisfactory, and the customer knows just exactly what he buys. Whereas if he buys by measure he will find every person has a different idea of what a bushel really is. Therefore, to always have a satisfactory understanding with our customer, we give a weighed bushel of 32 pounds.

Large Red Weathersfield Choicest Re-cleaned.—Grown from seed of our celebrated strain of Red Weathersfield Onion. One of the best red onions. Pt. 10c. Qt. 20c. 1/2 Pk. 50c. Pk. 75c. Bus. \$2.50.

Market Gardeners, Farmers, Clubs and Institutions wanting to purchase seeds in large quantities should write for special prices. Where a number of pounds or bushels are wanted, we can frequently supply at a lower price. In writing, give us a list of quantities and varieties required, and we will return list promptly with our **Lowest Cash Price for the lot.**

Three bushels of Yellow Onion Sets I purchased from you last February, I sold \$60.00 worth of Bunch Onions from them. How is that? They are the best I ever planted in my 11 years of experience in trucking and in the future will plant nothing else.

Okra, or Gumbo

Culture. Sow late in the Spring after the ground has become warm, in drills 3 feet apart, where the plants are to remain. Thin out from 9 to 12 inches. They should be well manured. They may also be raised in pots or a hotbed, and transplanted. 1 oz. to 40 feet of drill; 10 lbs. to the acre.

198. **Perkin's Mammoth Long-Podded Okra.**—Pods shoot out from the stalk within three inches of the ground and the whole plant is covered with them to its extreme height. Pods are an intense green color, 9 to 10 inches long, very slim, and do not get hard. It is much sought by canners.

201. **Bolgiano's Imperial Dwarf Short Podded Okra.**—It has a dwarf, shapely, dense pod of an attractive pea-green color. The flavor is exceptionally rich. Our home canners willingly pay 20 to 25 cents per box more than any other sorts would bring.

202. **Lady Finger Okra.**—The plants are uniform in growth, and with their Hibiscus-like flowers make a pretty sight. The plants produce long, tender pods of fine round form, white and smooth.

199. **Dwarf Green Prolific Density Okra or Gumbo.**—Its green pods impart fine flavor and consistency to soups and stews, besides being palatable when stewed and served as a dish of Asparagus.

200. **White Velvet Okra.**—The pods of this distinct and beautiful new Okra are much longer; perfectly smooth, never prickly.

Culture.—Sow thickly during early Spring, in shallow drills, and press the earth well down. For Fall salad, sow in September, or in frames or boxes during winter.

203. **Southern Giant Curled.**—An improved variety, sweet flavor, pungent and succulent. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

204. **OSTRICH PLUME MUSTARD OR FORDHOOK FANCY.**—Desirable and ornamental.—It is distinct from any other variety now in cultivation. The plants are of vigorous growth, and the beautiful dark green leaves curve outwardly like a fine ostrich plume. The edges are as thoroughly curled and laciniated as the best double curled parsley making the leaves equally as desirable for garnishing. So attractive is the habit of growth and the feathery effect of the finely fringed leaves that this plant is quite worthy of a place in the garden as an ornamental border plant, aside from its utility as a salad or boiling green. It is more productive than any other variety from early Spring sowings, and also more stubborn in running to seed. It stands well, even during the hot summer months, while the young leaves can be cut quite as early as those of other sorts. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

Mushroom Spawn

Blanch de Champignon

Seta

Champignonbrut

Culture.—Mushrooms may be grown in cellars, under benches of green houses, or in sheds, wherever the temperature of 50 degrees can be kept up through the winter. The beds should be made from November to February, according to the time the Mushrooms are wanted, and it requires about two months for them to begin bearing. Secure fresh horse-dung, free from straw and litter, and mix an equal bulk of loam from an old pasture with it. Keep this under cover, taking care to turn it every day to prevent heating, until the pile is large enough to make a bed of the required size. Three or four feet wide, eight inches deep and any length desired, are the proper proportions for a bed; but these may be varied. Prepare the mixture of loam and manure, making the bed in layers and pounding down each with the back of the spade. Leave this to heat through for a few days, and as soon as the heat subsides to 90 degrees, make holes in the bed about a foot apart each way, into which put pieces of the spawn 2 or 3 inches in diameter; fill up the holes with compost, and at the expiration of a week or 10 days the spawn will have thoroughly diffused itself through the bed. Spread layer of soil over the heap to a depth of 2 inches, and cover with three or 4 inches hay, straw or litter. Examine bed often to see that it does not get dry. Take special care, however, when water is given that it be at a temperature of about 100 degrees.

Pure Culture Mushroom Spawn.—The superiority of Pure Culture Spawn results from the improved methods and expert judgment used in making our stock cultures, giving the following advantages: (1) All the advantages of a "Virgin Spawn." (2) Superior varieties, that is, varieties giving greater yields and better Mushrooms. (3) Complete elimination of any "chance" of having spent spawn or spawn from poor sorts.

CULTURE OF ONION SEED.—Ounce to 100 feet of Drill; 6 Lbs. to the Acre.—Use any good soil, preferably a rich sandy loam, previously cultivated. Fertilize liberally with rotted manure or with artificial manures. Drill in seed to depth of 1/2 inch, at the rate of 4 or 5 pounds to the acre for large Onions; 60 to 80 pounds per acre for Sets, or use Sets at the rate of 6 to 10 bushels to the acre, or start Onion Seeds in frame, under glass, and transplant to open ground 3 inches apart in the row. This excellent plan is often referred to as the "new Onion culture." Onions are quite hardy and may be planted early. The soil may be used year after year, without rotation of crops, if well fertilized annually. Winter storage demands dryness, coolness, good ventilation and freedom from sudden changes. Spread 18 inches of straw on barn or garret floor, then 6 to 10 inches of Onions; then 2 feet of straw; or keep on shelves in a dry, cool cellar. Set large Onions in open ground in September; protect with litter during Winter.

214. **White Silver Skin Onion.**—(Specialty, see page 24.) Pkts. 5c and 10c. Oz. 25c. 2 Ozs. 40c. 1/4 Lb. 65c. Lb. \$2.50.

206. **Bolgiano's Superior Yellow Globe Danvers Onion.**—Has handsome form, with very thick bulb and small neck; very early; enormous cropper; keeps perfectly, and is a market favorite of large size; remarkably solid and heavy; is one of the safest, surest keepers. Pkt. 5c. Oz. 20c. 1/4 Lb. 65c. Lb. \$2.25.

208. **Southport Large White Globe Onion.**—Produces from seed the first year. Flesh firm, fine grained, of mild flavor; an excellent keeper; has beautiful form and clear, white skin. Pkts. 5c and 10c. Oz. 35c. 1/4 Lb. \$1.00. Lb. \$3.50.

209. **Southport Large Yellow Globe.**—Produces bulbs more perfectly globe-shaped and larger than Globe Danvers, but later in ripening; excellent keeper; easily grown from seed the first year, has a beautiful, pale, straw-colored skin; is a heavy cropper, handsome in appearance, large size. Pkt. 5c and 10c. Oz. 20c. 1/4 Lb. 70c. Lb. \$2.25.

511. **Large White Portugal.**—The standard large flat variety. Pkts. 5c and 10c. Oz. 20c. 1/4 Lb. 60c. Lb. \$2.00.

213. **Mammoth Silver King.**—The large bulbs are of attractive form, flattened but quite thick through; the average diameter is from 5 to 7 inches; single bulbs often attaining a weight of from 2 to 3 pounds each. The thin skin is a clear, silvery white; flesh snow white, sweet and tender. They grow quickly and mature quite early. Pkts. 5c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.75.

210. **Extra Early Pearl Onion, or White Queen.**—Finest American Seed.—Enormous size; grows full-sized roots from seed the first season; skin pure white waxy color, flesh snowy white, delicate and tender. Often grow 6 inches in diameter and weigh 3 lbs.; valued as a very early sort. Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 50c. Lb. \$1.50.

216. **Round Yellow Danvers.**—Is the same shape as the White Silver Skin. Brownish-yellow color; bulbs quite flat and of good size; largely grown for sets. They are harder than the white, and keep better through the Winter. In the Southern States they can be planted in Autumn and will continue growing during the entire Winter. Packets 5c and 10c. Ounce 20c. 1/4 Lb. 60c. Lb. \$2.00.

CULTURE.—A week may be gained by sowing a quantity in moist sand placed in a box in the cellar, and planting outside when well sprouted. Light, dry soil, not over rich, suits the Pea. Sow as early as the ground can be worked, and again from 4 to 6 feet apart according to the different heights, about an inch apart in the row, and 4 inches deep. Hoe often, and keep the ground clean and fine. The tall sorts can be made to bear more freely by pinching in. The dwarf variety may be grown in beds like bush beans, with rows about the same distance apart. Those marked with a star (*) are wrinkled marrows, and unless otherwise stated should be sown thicker than the round Peas, and not until the ground has become warm as they are more liable to rot. They are the finest flavored of all Peas.

We supply Packets of Peas at 5c and 10c postpaid. Add 8c to Pints and 15c to Quarts.

RADISH.

RADIS ET RAVE
Rabanosy Rabanitos
Radiesund Retig.

Pkts., Ozs. and 1/4 Lbs. Delivered Free, but Add 8c to Lbs.
6 Ozs. of Seed will plant 100-yard Row.

Culture.—Sow as soon as the ground is dry in the Spring, in rows 8 to 12 inches apart, every week or ten days for a succession, up to the middle of June, after which they are but little used, unless a cool northern spot can be had, where the ground is shaded during part of the day. They should be sown in light, rich soil, as a crisp Radish cannot be produced in heavy soils. Sow also in early Fall for late crops and Winter use. Sow 8 to 12 pounds to the acre. Radishes should be eaten when quite small; it is a mistake to let them grow too long and too large. This applies particularly to Ruby King and small turnip-shaped sorts.

Early Round and Olive Shaped Varieties.

258. **Strawberry Radish.**—(Specialty, see page 23.) This is the extremely early round Radish that attracted so much attention last season when we first introduced it by sample packages to our Market Garden customers. Pkt. 5c. Oz. 10c. 1/4 Lb. 30c. 1/2 Lb. 50c. Lb. \$1.00.

230. **Bolgiano's Extra Early Ruby King Radish.**—The best of all. (Specialty, see page 23.) Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 60c.

239. **Scarlet Turnip White Tip Radish.**—Round, bright scarlet, with attractive white tip; matures in 25 days. (Specialty, see page 23.) Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c. 5 Lbs. \$1.50.

238. **Bolgiano's Scarlet Globe Radish.**—It has a rich scarlet color, faultless shape, and matures in twenty days. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

232. **Lexington Market Money Maker.**—The best early round white Radish. Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 50c.

241. **Vick's Scarlet Globe Radish.**—A leader among bright round Red Radishes. Quick maturing, extremely attractive, short tops, solid and fine flavor. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

231. **Felton's Model or Philadelphia White Box Radish.**—Handsome and early with fewer short leaves, hence can be sown thickly in the row. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

248. **BOLGIANO'S CRIMSON KING.**—Double the size of the ordinary early turnip-shaped Radishes, this one often measuring 6 to 7 inches in circumference, remaining solid, firm, tender; white and of mild flavor; the shape varies between round and oval; adapted for either open ground or forcing. Pkt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 75c.

509. **Prussian Globe Radish.**—It is a GLOBE shape, of a crimson color, short top, and will stand forcing without becoming pethy. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

240. **Crimson Giant Globe Radish.**—Originators Stock Seed. —This is an entirely new variety, suitable for forcing or early out door planting. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

234. **Bolgiano's New White Olive Radish.**—It has short tops, rapid growth, perfect olive shape, extra fine quality. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.

235. **French Breakfast Radish.**—Quick growth; mild; tender; good for forcing. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

236. **Snowball.**—Earliest, round, white, solid; attractive when planted with red Radish. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

246. **Tait's Favorite Forcing Extra Early Radish.**—The great value of this famous Radish lies in its availability for forcing under glass. It is also largely used for field culture. It is perfect in both shape and color, the skin being a bright, transparent red, and owing to an unusually small top many bunches may be put in a single package. Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c.

Gentlemen:—You can look for a large order from me for Spring planting; I do not plant much Fall truck. I have been using your seeds now for several years and can say I have always found them good and your prices lower than any of other houses I have dealt with. July 28, 1906. L. A. ANGER, Fla.

Gentlemen:—Your seeds have always given satisfaction, and will order from your house as long as I plant. J. M. CANTY, Fla. July 24, 1906.

Horse Radish Roots. The best variety is produced from small pieces of roots 4 to 6 inches in length. These small roots will produce good radish fit for use in one season's growth. Plant the set small end down, where the slanting cut is, so that the top will be 2 inches under the soil, and in rows or furrows 2 to 8 feet apart and 15 to 18 inches apart in the rows. The soil should be very rich and well cultivated. It is hardy and may be left in the ground until Spring before digging. A part of the crop may be pitted late in the Fall if desired. A dozen roots will give all that will be needed for family use; as it constantly increases, it is best to plant it in some out-of-the-way corner of the garden. By mail postpaid, Each 5c. Doz. 25c. 50 for 60c. 100 for 90c. By express not paid, 100 for 50c. 300 for \$1.50. 500 for \$2.25. 1000 for \$3.75.

SALSIFIS.

Ostion Vegetal.

Wasserwurzeln.

Culture.—Sow as early as the ground can be worked in the Spring, in drills 12 inches apart, 1 inch deep, and thin out to 6 inches in the row. Keep them free from weeds. Cultivate the same as for carrots and parsnips. A part of the crop may be left in the ground till spring, when it will be found fresh and plump. The roots are cut into pieces 1/2 inch long, boiled until tender, and then served with drawn butter, in which way it is a delicious vegetable. They are also mashed and baked like parsnips, and have a sweet agreeable flavor. Mashed and fried, the flavor is much like that of the oyster. Sow 8 to 10 pounds to the acre.

DUKE OF YORK TOMATO.

Of Special Value to Florida Growers. (Specialty, see page 9.)
297. One of the grandest Tomatoes recently introduced, color rich, glossy scarlet, splendid cropper, round in shape, flesh very firm, large size, fine flavor. It ripens its fruit uniformly together, whilst its profusion of tomatoes, averaging 8 and 10 large evenly formed clusters each, makes it conspicuously handsome. Ripens evenly to the stem, is strong, healthy grower, not subject to rust or blight, is an enormous cropper and produces until the vines are killed by frost, holding its size well until the last picking. Quality the very best, solid and meaty. **Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. 90c. Lb. \$3.50.**

J. BOLGIANO & SON, Baltimore, Md.,

Gentlemen:—As far as I am personally concerned, I am showing my faith in you by the purchase of 5 lbs. of your Duke of York Tomato Seed. I assure you that I, personally, have confidence in your seeds. Yours very truly, J. T. WOFFEL, Fla.

Bolgiano's Celebrated New Queen Tomats.

306. This very beautiful Tomato, introduced by us, is now used all over the country. It is large, smooth and handsome, red color. For canning, market purposes and shipping it leads wherever grown. **Pkts. 5c and 10c. Oz. 20c. 1/4 Lb. 60c. Lb. \$2.00.**
288 **King of the Earlies Tomato.**—(Specialty, see page 7.) It is a large extra early Tomato; an enormous yielder. The plant is a perfect mass of large, beautiful red fruit. It is the ideal "stem setter." The fruit ripens early and almost "all at once." Can be planted one-third closer than later sorts. **Pkt. 5c and 10c. Oz. 40c. 1/4 Lb. \$1.35. Lb. \$5.00.**
296. **DWARF STONE TOMATO.**—Double size of Dwarf Champion; the Largest Fruited Upright Growing Variety in existence. Color same as Stone Tomato. **Pkts. 5c and 10c. Oz. 30c. 1/4 Lb. \$1.00. Lb. \$3.50.**
289. **Dwarf Champion.**—Dwarf, stiff habit, dark green foliage, scarcely needing any support. It is very early and wonderfully prolific. Color same as Acme. It is perfectly round and smooth, of medium size. **Pkts. 5c and 10c. Oz. 25c. 1/4 Lb. 75c. Lb. \$2.50.**
298. **Brinton's Best.** As a second early and late cropper it is a favorite with canners and truckers. **Pkts. 5c and 10c. Oz. 20c. 1/4 Lb. 60c. Lb. \$2.00.**
285 1/2 **World's Fair.** One of the heavier, solid fruited large Tomatoes of good quality. **Pkts. 5c and 10c. Oz. 20c. 1/4 Lb. 60c. Lb. \$2.00.**
310. **Livingston's Magnus.**—A rather late-running Tomato of distinctly fine quality; the plants are of strong running growth with potato-leaf foliage. The rich, purple fruit is smooth and very even in size and set freely in clusters. **Pkts. 5c and 10c. Oz. 2 1/2 c. 1/4 Lb. 75c. Lb. \$2.50.**

Reliable Turnip Seed.

NAVET. NAVO. Kube.

1½ to 2 Lbs. to Acre.

Pkts., Ozs., and 1/4 Lbs. Delivered Free, but add 8c to Lbs.

Culture.—For early Turnips, sow as soon as the ground opens in Spring. No. 327 should be sown from any time in July to first of August; but the other kinds, for Winter use, may be sown from the middle of July to the end of August. Turnips are generally sown broadcast, but much larger crops are obtained (particularly of the Ruta Bagas) by cultivating in drills 18 inches apart and thinning to 6 inches in the drill. Sow in drills, one pound to the acre; broadcast, two to three pounds to the acre.

Our Turnip and Ruta Baga Seed are grown exclusively from perfect Turnips, every one of which is selected and then transplanted for the growth of our seed. Hence, Turnip crops from our seed must of necessity be very choice and most satisfactory in size, in trueness, in solidity and in beauty. Crops from our seed will prove infinitely better than much of the trashy seed sold for Turnip Seed, which for the careless manner in which it is grown and inferiority of stock so frequently produces little more than Turnip Tops. Send to us direct and secure your supply from our superior stock. **Pkts., Ozs. and 1/4 Lbs. delivered free, but add 8c to Lbs.**

313. **Red Top White Globe.**—The handsomest and most salable Turnip. As a profitable sort for home or market it is unsurpassed. It is a large rapid growing sort, with globular shaped roots. Flesh pure white. The skin is white and purple, the under portion being white and the top bright purple. (See Illustration.) On account of its shape, it will out-yield any other sort. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.**

314. **Red or Purple Top White Flat Turnip.**—This is one of the best table Turnips on the market, being fine grained and of mild flavor. It is white below, with a bright purple top; flesh white, leaves short, narrow and erect. Will mature in 8 or 9 weeks. A good cropper and an excellent keeper. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.**

327. **Market Gardeners' Improved Purple Top Ruta Baga.**—Our Ruta Baga is select; yields enormous crops of handsome, large, solid, yellow fleshed Turnips; is grown largely for cattle food; keeps over Winter 'till Spring in good condition. Get our splendid stock, and the crops will satisfy and remunerate you. It is also used as a table vegetable because of its sweetness. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.**

321. **Southern Seven Top.**—Hardest of all sorts; may be left standing in the open ground during Winter. In the Southern States it yields in the Spring abundant foliage for boiling with cured meats, and it is only desirable for this purpose. **Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.**

320. **White Egg.**—Oval or egg shape, handsome and sweet; flesh firm and sound-grained; thin and perfectly smooth skin of snowy whiteness. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. 1/2 Lb. 20c. Lb. 30c. 5 Lbs. \$1.25.**

323. **White Flat Dutch.**—Pure white, flat strap-leaf Turnip. Early, medium size, excellent quality for early Spring sowing. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.**

328. **Large White Norfolk.**—It is allowed to stand out during the Winter in the South. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.**

325. **Pomeranian White Globe.**—Good either for table or stock. Very productive. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.**

529. **Long White French.**—Flesh hard, crisp. **Pkt. 5c. Oz. 5c. 1/4 Lb. 10c. Lb. 30c. 5 Lbs. \$1.25.**

530. **SOUTHERN PRIZE OR DIXIE.**—Makes large round white Turnips in addition to salad; hardy and needs no protection; the most popular Winter and Spring salad Turnip grown. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.**

315. **Extra Early Purple Top Milan.**—Earliest Turnip in cultivation; a week sooner than any other. Flat, smooth, of medium size, with bright purple top and few leaves. Flesh white and choice. Adapted to Spring or Fall. A good keeper. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. 1/2 Lb. 25c. Lb. 40c. 5 Lbs. @ 35c.**

317. **Golden Ball, Orange Jelly or Robertson's.**—Flesh sweet and firm. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.**

318. **Yellow Stone.**—Flesh crisp, tender, of fine quality. **Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.**

313. Red or Purple Top White Globe Turnip—American Grown.

322. **Large Amber Globe.**—Flesh yellow, fine grained and sweet; hardy, keeps well, a good cropper. Very popular in the South. **Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.**

319. **Sweet German.**—Should be sown a month earlier than flat Turnips. **Oz. 5c. 2 Ozs. 10c. 1/4 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.**

326. **Cow Horn.**—A white Turnip of peculiar long shape and quick maturity. It grows to a large size, standing half out of the ground. **Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.**

324. **Purple Top Yellow Aberdeen.**—Medium size, round, flesh pale yellow, tender and sugary, the plant is hardy and productive and keeps well. **Oz. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.**

316. **Yellow Globe.**—Yellow Globe is a wonderful cropper, and keeps far into the following year. It begins to bulb at the very start and forms large-sized roots and small tops. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 30c. 5 Lbs. \$1.25.**

BOLGIANO'S SPECIAL Grass and Clover Seed Mixtures

FOR HAY AND PERMANENT PASTURES.

Our Grasses and Clover Seed Mixtures give the very best and most satisfactory results to our customers, and our trade in them is increasing rapidly. The advantage of sowing grasses and clover seed in mixtures has long been recognized and the practice is increasing to a very remarkable extent all through the South. We are the pioneer seedsmen in Baltimore in putting up special mixtures for different soils, and the results to our customers have been exceedingly satisfactory, resulting in largely increased crops both of hay and pasturage. We are always glad to give our customers the benefit of our knowledge and experience in these matters, and will take pleasure in advising them as to suitable grasses for their soils and purposes, if they will correspond with us in regard to the same.

We have in the following Mixtures combined grasses suitable for the various soils and uses for which they are recommended. Those for permanent pastures are composed of grasses which succeed each other in growth, and give a succession from the first of spring until late in winter, while for those desired more for cutting for hay, we have combined grasses which ripen together. The different mixtures are prepared both as to quantity and varieties as best adapted to the soils and situations for which they are recommended. In all of our grass mixtures we use the very best seeds, only the quality and purity of the seeds being our first consideration. The quantity handled enables us to give our customers the benefit of a very low price, even lower than if they purchased the seed separately.

MIXTURES FOR PERMANENT PASTURES BUT CAN BE MOWN.

25 Lbs. or over at 100-lb. rates.

BOLGIANO'S HIGH GRADE GRASS SEED

GRASS AND CLOVER SEEDS.—Are high grade, new crop seeds, carefully selected and tested, so as to be sure of supplying seeds only of first class germination and of the best qualities that it is possible to obtain. The satisfaction which our seeds have given has caused our business in these seeds to enormously increase. Handling grass and clover seeds in the large quantities we do, enables us to supply them at the lowest prices for best quality seeds.

Prices on Grass and Clover Seed Fluctuate.—The prices named here are those ruling at the time this catalogue is printed. We will quote prices at any time, or will fill all orders entrusted to us at ruling prices at the same time order is received.

The Best Time for Seeding Grass and Clover Seeds in the spring is from the middle of February to the middle of April. A good firm seed-bed is of prime importance, and, to secure this, the ground should be well and deeply plowed previous to seeding, if possible. It should then be harrowed and re-harrowed several times, so as to put it in first class condition. After the ground is in good tilth the seed should be carefully sown, either by hand or using a good Broadcast Seed Sower—and then cover by rolling; or, if a roller is not available, by a light or brush-drawn harrow. Rolling is, however, preferable, as it firms the soil and does not cover the seed too deep. Care should be taken not to cover the seed more than about an average of half an inch deep. Pure Animal Bone is the best fertilizer you can apply for grass and clover, it is immediate and also lasting in its effects.

1123. TALL MEADOW OAT GRASS. Also Called Evergreen Grass.—Our sales on this grass has rapidly increased in the last few years. Yielding twice as much hay as Timothy or Orchard Grass, early as Orchard

Grass with more leaf and affording better grazing, it is not strange that this grass is becoming so popular. It will keep green all winter and all summer; the drought of midsummers or the cold winters does not injure it. It starts growing very early in the Spring, can be cut twice for hay, will yield good grazing until late in the Fall. It contains more flesh and muscle-forming material than timothy, but it is not so fattening. For hay, it should be cut while in bloom. Tall Meadow Oat Grass is best adapted for rather light and dry loamy uplands, but gives excellent results on nearly all soils and better results than any other grass on light, medium or sandy soils. Sown alone use 1 to 3 bus. to the acre, either Spring or Fall. Sown in mixture, use 1 bus. Tall Meadow Oat Grass, 1 bus. Orchard Grass and 6 lbs. Red Clover. It gives the very best results when sown with Clover. By adding 4 lbs. of Red Top or Herd's Grass to the mixture the aftermath and grazing will be materially increased. **Price 18c lb. Choice Seed at \$2.00 bus. of 14 lbs. "Gold" Brand Seed at \$2.25 bus.**

1114. ORCHARD GRASS.—One of the best and most reliable grasses for the Middle and Southern States, either for hay or pasture. It succeeds well on nearly all soils, but does best on uplands, loamy or moderately stiff soils. It starts early in the spring and continues well into winter. It is of quick growth, and is relished by stock, especially when young, and bears close grazing. It makes excellent hay; and gives the very best results mixed and grown with Tall Meadow Oat Grass and Red Clover. It should be cut when in blossom, as the hay is injured if the seed is allowed to ripen. It can be sown in the spring or fall, either with grain or alone. Sow two bushels per acre if sown alone, or with Red Clover, one and a half bushels of Orchard Grass and seven pounds of Clover are the quantities usually sown. **Price, "Gold" Brand, 18c lb. Bus. of 14 lbs. \$1.90. Choice Seed \$1.75 per bus.**

Boigiano's "Gold" Brand Clover and Grass Seed.

Is The Standard of Purity.

1117 TIMOTHY Of Hay Grasses Timothy is one of the most popular, nutritious and salable. On clay or heavy loams, lowlands or in mountainous districts provided there is an abundance of moisture, it produces the very best results. On sandy or light loamy ground, it does not do as well as Orchard, Tall Meadow Oat or Red Top Grass. If grazed or cut too close, the stand of Timothy will be seriously injured, besides it does not form as good grazing as many other grasses. From 1½ to 3 tons of fine hay to the acre. A splendid mixture is 6 lbs. Timothy, 4 lbs. Clover (either Mammoth Clover or Alsike Clover preferred as they mature at the same time as Timothy) 4 lbs. Fancy Red Top, ½ bu. Meadow Fesque. Together, these will produce most excellent hay, also nutritious and abundant pasture in good loamy, clay or low ground soils. Use 8 lbs. of Timothy and 6 lbs. of Clover when only these two are used. "Gold" Brand, 10c Lb. Bu. of 45 Lbs. \$2.50. Market fluctuates.

1118. Kentucky Blue Grass.—An excellent pasture and lawn grass, succeeding best on limestone land, but does well on stiff or clay medium soils. It is rather sensitive to heat, but not so to cold weather, and on this account does its best in the fall, winter and spring. It grows slowly at first, forms a compact turf, making a fine pasture when once established. It is best, however, to combine other grasses with it for either lawn or pasture. Sow in the fall or spring at the rate of two to three bushels per acre. "Gold" Brand Seed, Lb. 25c. Bu. of 14 Lbs. \$2.50. Special prices in quantity.

1120. Native or Canada Blue Grass.—At the Maryland Experiment Station this grass remained a luxuriant green during the hottest summer when other grasses were materially affected by the heat. Being a grass of Canadian growth it will stand the cold weather admirably. Canada Blue Grass should be tried by everyone not familiar with its excellent qualities. It is particularly well suited for mixtures. "Gold" Brand Seed, Lb. 15c. Bu. of 14 Lbs. \$1.50.

1171. Creeping Bent Grass.—This grass somewhat resembles the Red Top or Herd's Grass in growth and appearance, and is considered by many practical men as fully equal, or even superior to that grass. It is certainly a splendid grass, and should be largely used in lawn and pasture mixtures. It has creeping or stoloniferous roots, and spreads and holds to the soil in a very tenacious way; at same time is easily eradicated if desired. Lb. 25c. 10 Lbs. and over 20c per Lb.

1111. Red Top, or Herd's Grass.—This grass makes excellent pasture and good crop of fine quality hay, and succeeds on a greater variety of soils than any other grass in general use, giving very good results on light soils, and the very best results on heavier, moist or low-ground soils. It is rather late in starting in the spring, and matures its crop at the same time as Timothy. Is excellently adapted for seeding with Timothy for hay, and furnishes excellent pasture afterward. When it gets well established it spreads, and will gradually supplant other grasses. Our Gold Brand of the Fancy Clean Red Top is of extra fine quality, and carefully cleaned from impurities. We can also furnish the Choice and Prime Fancy Clean Red Top as usually sold. It requires about 8 to 10 pounds to seed an acre of the Fancy Clean seed. When sowing with Timothy, sow 5 pounds of the Fancy Clean seed and 3 pounds of Timothy per acre. It can be sown either in the spring or fall. "Gold" Brand Fancy Seed, Lb. 15c. 100 Lbs. \$11.00. Choice grade, 100 Lbs. \$10.00. Prices fluctuate; quoted upon application.

1121. English or Perennial Rye Grass.—A nutritious, permanent grass for meadows, pastures and mixing with others for lawns. "Gold" Brand Lb. 15c. 10 Lbs. or over at 8c per Lb. Write for special prices in quantity.

1172. Italian Rye Grass.—"Gold" Brand. Lb. 12c. Bu. of 14 Lbs. \$1.00.

1150. Spring Vetches or Tares.—Closely associated with Peas in character. Highly valuable for soiling or for green manuring. Sometimes grown with oats, for mowing and feeding to stock. Use 2 or 3 bus. to acre broadcast, or 1 to 2 bus. in drills. Sow in Spring, while the ground is cool and moist, or in early Autumn. "Gold" Brand, Lb. 10c. Bu. of 60 Lbs. \$3.75. 100 Lbs. \$6.00.

1149. Sand or Winter Vetch. (Vicia Villosa.)—VICIA VILLOSA succeeds and produces good crops on poor sandy soils as on good land; grows to a height of 4 or 5 feet. It is perfectly hardy throughout the United States, remaining green all winter, and should be sown in the spring, mixed with oats, spring rye or barley; or during August and September, with winter rye, which serves as a support for the plants. It is the earliest crop for cutting, being hardier and nearly a month earlier than Scarlet Clover, and a full crop can be taken off the land in time for planting spring crops. Every dairyman and stock-breeder in the United States should have a field of it, and if you try it once, you will never be a season without it. It is exceedingly nutritious, eaten with relish, and may be fed with safety to all kinds of stock. Sow 50 to 60 lbs. per acre with ½ bu. of rye, oats or barley. "Gold" Brand, Lb. 15c. Bus. of 60 lbs. \$6.00. 100 lbs. \$9.00. If by mail, add 8c per lb.

1127 Dwarf Essex Rape.—Valuable For Cattle, Sheep and Hogs. Under favorable conditions Rape is ready for pasturing sheep or cattle within six weeks from the time of sowing, and on an average one acre will carry from 12 to 15 sheep six weeks to two months. When on the Rape they should at all times have access to salt; but water is not necessary. As it thrives best in cool weather, it should not be sown in the Southern States until September or October for winter pasture. Its fattening properties are probably twice as good as those of Clover, and for sheep the feeding value of Rape excels all other plants we know of. Sow 4 lbs. per acre broadcast, 2 to 3 lbs. per acre in drills. 10c lb. Bushel of 50 lbs. \$5.00. 100 lbs. \$9.00. If by mail, add 8c per lb.

1122. Meadow Fesque, Randall or English Blue Grass.—It makes a most excellent hay and pasture grass, and is particularly valuable for fall and winter pasture, as it remains green throughout the winter. It is also a splendid spring and summer grass, and usually makes more and thicker leafage than any other grass. It succeeds well in nearly all sections of the South, and should be very largely used in pasture and hay mixtures, being specially suitable for sowing with Red Top and Timothy for hay, or with these and Orchard and Tall Meadow Oat for permanent pasture. Sow either in the spring or fall at the rate of two bushels to the acre, if sown by itself. When sown with Red Top and Timothy, sow one bushel (14 lbs.) Meadow Fesque, 5 lbs. Fancy Clean Red Top and 6 lbs. Timothy per acre. Sown for a grazing mixture with Orchard and Tall Meadow Oat Grass, add half a bushel each of these two grasses. Price, "Gold" Brand Lb. 15c. Bu. of 14 Lbs. about \$1.40.

1125. GERMAN MILLET.

German Millet, Choice Southern Grown.—Makes a large yielding and most nutritious hay crop, quick growing and easily cured. It should be seeded thickly, one bushel per acre, and should be harvested while in bloom. If the seeds are allowed to form, the stalks get hard and it does not make near so good a hay. Should be sown any time between the middle of May until the end of June. It matures a crop in six to eight weeks after feeding. Our Southern grown Millet makes much better growth than western or northern grown seed. "Gold" Brand Southern Grown Millet. \$1.25 per Bus. of 50 Lbs.

1126. Hungarian Millet Grass.—For good low ground or rich soils, this makes even a more valuable crop than German Millet. It is considered equal in nutritive value to Timothy hay. On uplands or light soils, German Millet makes larger yields than Hungarian. Hungarian Millet should be sown from the first of May to the end of July, at the rate of one bushel per acre. "Gold" Brand, \$1.25 per Bus.

1124. Red or Creeping Fesque. (Festuca Rubra.)—Forms a close, rich sod and is valuable in lawns and pastures. "Gold" Brand, Lb. 15c. Bus. of 14 lbs. \$1.50.

1116. BROMUS INERMIS or Awnless Bloom Grass.—Both for grazing and for hay it is of especial value in mixtures with other grasses. Cattle graze on it with relish. Sow Seed in the Spring or Fall, 25 to 30 lbs. per acre. Price, "Gold" Brand, 15c Lb. Bus. 14 lbs. \$1.50.

1186. SHEEP FESQUE. A densely tufted perennial grass; roots deeply, and forms dense short turf, suitable for lawns and pleasure grounds. It furnishes excellent grazing, and is well adapted both for lawn and pasture mixtures. Sow 2 to 3 bushels per acre, if sown by itself. Sow about 25 pounds per acre. Lb. 20c. Bu. of 14 lbs. \$1.75.

1187. Hard Fesque. Thrives well in dry situations, where many other grasses fail; 30 lbs. to the acre. Lb. 25c. Bu. of 14 lbs. \$2.00.

IS THE STANDARD OF PURITY.

ALFALFA or LUCERNE.

Grow Alfalfa WHERE IT NEVER GREW BEFORE, BY MEANS OF INOCULATION WITH Nitro-Culture

1128 ALFALFA OR LUCERNE.

Alfalfa Yields Splendidly Throughout the South, Yielding 3 or 4 Cuttings Per Year, Increasing in Yield Each Successive Year.

Alfalfa ranks higher than timothy hay in feeding value. In fact, it might be termed both corn and hay, as it is almost a complete food. Experiment stations place the feeding value of Alfalfa hay at \$20 per ton, as against timothy hay at \$12 per ton. This, with the fact that Alfalfa will, under favorable circumstances, after a good stand is secured, give 3 or 4 cuttings per year, and will easily yield, on good land, from 6 to 16 tons of splendid hay per year, shows what a valuable crop it is. Lands in the western states that are well set in Alfalfa sell readily at from \$100 to \$200 per acre; so that a crop of this kind pays for the little extra care and preparation given to secure good stands and good crops. It is better to have five acres well set in Alfalfa, by thorough preparation, than to attempt to put in ten acres without first-class preparation.

The acreage of Alfalfa is increasing very largely all over the Middle and Southern States, our farmers are fast beginning to realize what a valuable crop it is for this section. Alfalfa will succeed and do well on any good loamy, well-drained soil, but the land must be well and thoroughly prepared for the best results. The plant is rather slender when it first starts, and it must be grown under favorable conditions, in order to get ahead of the weeds and other grasses which would, under ordinary circumstances, spring up naturally and check it or smother it out.

Alfalfa should always be cut when just commencing to bloom, whether the plants be large or small. If the seed is allowed to form, the growth of the plant ceases. It should never be used for pasture, it is too valuable as a hay producer to risk injury from stock.

Alfalfa can be sown either in the Spring or Fall. The principal requirement in order to obtain good stands and good crops of Alfalfa is to sow in good, rich soil and give thorough preparation. Alfalfa is usually sown broadcast, at the rate of 15 to 20 lbs. per acre, although some of our customers claim that thicker seedings give better crop results. March and April are the best months for seeding in the Spring, and the latter part of August and during September the best in the Fall.

Our Alfalfa seed is the highest grade, strong-germinating seed, of the best and cleanest quality it is possible to procure. The quality and germination of the seed is a prime requisite for success with this crop. Land well set in Alfalfa is better than a bank account, producing continuously increasing crops for years and is worth a little trouble and expense to secure a first-class stand. Price of choice Alfalfa seed, **Lb. 20c. Bus. of 60 lbs. @ 17c Lb.** Price of our "Gold" Brand Seed, **Lb. 22c. Bu. of 60 lbs. @ 18c Lb.** Price fluctuates. Will quote market prices at any time on request.

1129. Crimson Clover Seed. New Crop Extra Choice. The Great Nitrogen Gatherer.—The best crop for hay, soilage and green manuring, Fall, Winter and Spring pasturing. Crimson Clover furnishes an abundance of nutritive forage at seasons when pastures are dead. It is of an unfailing supply of manure. It solves the problem of cheap manuring. It is the great nitrogen gatherer and economizer in the use of fertilizers. Valuable for planting in orchards, berry patches, and for sowing among cultivated crops, such as Cabbage; Corn, Tomatoes, Tobacco. Improves poor land restores to fertility those that have been worn down by excessive cropping. May be planted in the Spring, Summer or Fall. Splendid for re-seeding Red Clover that has been Winter killed. Sow 12 to 15 lbs. per acre. "Gold" Brand, \$4.20 Bus. Write for prices.

1131 Mammoth or Sapling Clover.

Is similar to Red Clover in appearance of seeds and habits of growth; the difference being larger growth and later maturing. It is often used for hog pastures as a soil improver to plow under. It is considered superior on account of its extra growth. It is a good variety for thin soils, or to seed with Timothy, Meadow Fescue or Herd's Grass or Red Top, as it matures about the same time as these grasses. Sow 10 to 12 lbs. to the acre when sown alone. When sown with Timothy, use 6 lbs. clover and 8 lbs. Timothy to the acre. "Gold" Brand, Bu. of 60 lbs. @ 17 1/2c Lb. Choice Seed, Bu. of 60 lbs. @ 17 1/4c Lb.

1130 Red Clover.

One of the most valuable farm crops, and is largely used for pasturage and hay, and is an improver of the soil. Red Clover is perennial, and will yield crop several years from one seeding, and on good land will yield two or three cuttings per year. The first crop makes rich feed, and is the most valuable for hay. The second crop does not make so good a quality feed. Red Clover should be cut for hay when in full bloom. For hay, it is particularly well adapted for sowing with Orchard and Tall Meadow Oat Grass, as it ripens at the same time, and sowing these three grasses together will give larger yields and of better quality hay than sowing either alone. It is also largely sown with other grasses, both for hay and pasturage. Information as to quantities required per acre, when sown in combination with other grasses will be found under the heading of Orchard Grass, Tall Meadow Oat Grass and Timothy. When sown by itself, sow 10 to 12 lbs. to acre, either in the Fall or Spring, or at the last working of corn. Price of our "Gold" Brand Red Clover Seed, choicest and cleanest quality, Bu. of 60 lbs. @ 17 1/2c Lb. Choice quality seed, Bu. of 60 lbs. @ 16 1/4c Lb. Price fluctuates very much. We will quote prices at any time, or will fill any orders entrusted to us at as low prices as possible for first-class seed.

1133 White Clover.

This is very largely used in lawn and permanent pasture mixtures, and is indigenous to the soils throughout the Middle and Southern States. It makes a small, close, compact growth, covering the ground like a carpet. It affords excellent food for bees. Sow in either the Spring or Fall. When sown by itself, sow at the rate of 5 to 6 lbs. per acre. It is better, however, sown in mixture with other grasses. "Gold" Brand, 1/4 lb. 10c. Lb. 25c. 5 lbs. \$1.

1113 Japan Clover.

Experience with this forage plant confirms its value for the poorer soils of this and other southern states. In places where it was sown several years ago it is found spreading all over the neighborhood, along the roadsides, ditch-banks, and over neglected fields; at the same time it is easily subdued by cultivation, and does not in any way prove a pest to the cultivated crops. It is chiefly recommended for grazing purposes, although in the far South it yields good crops. It will succeed if sown broadcast on old pastures, broom-sedges, etc., without any preparation, and will soon spread and grow thickly all over the fields where put in, even taking the place of and driving out broom-sedge and wire grass. For sowing in woods that are used for grazing, or any where under the shade of trees where other grasses do not succeed well, Japan Clover is to be strongly recommended, as it succeeds and does better under dense shade than any other grass or Clover. All throughout the Summer it makes a dense green carpet which is very attractive and desirable. It is best not to graze it too early the first season, so as to give the seed time to mature and fall, which it is constantly doing all Summer from the axil of the leaves. After the first season it can be grazed at any time. We do not recommend this Clover for land that can be successfully grown in any other grasses or Clover, but on waste land or poor, worn-out soils it will furnish excellent, nutritious pasturage. Sow at the rate of 10 lbs. per acre, in March or April. It does not make much showing the first year seed is sown. **Lb. 25c. Bus. of 25 Lbs. \$4.25.**

1132 Alsike Clover.

This is somewhat similar in growth and appearance to Red Clover, but it is hardier and stands cold weather better than Red Clover; and where conditions of soil and lateness of seeding make any possibility of Winter-killing, it is advisable to sow Alsike Clover, or at least to sow it in mixture with other Clovers. It is more suited for mountainous sections than to the coast regions, and it succeeds better on stiff or clay soils than on lighter lands. It is well adapted for sowing with Timothy or Herd's Grass, as it matures with these crops, flowering a little later than the Red Clover. The blooms are not quite so large as the Red Clover, and are of light pink or flesh color. Price of our "Gold" Brand seed, Lb. 20c. Bus. of 60 lbs. @ 17c Lb.

WHAT NITRO-CULTURE IS.—NITRO-CULTURE consists of nitrogen collecting Bacteria which work in the soil and on the roots of leguminous plants, having the power to collect free nitrogen from the air and supply it to the plants. All plants need nitrogen, which is very costly when obtained by chemical process. The remarkable increase of crop frequently reported and caused by inoculation is due wholly to the large amount of nitrogen collected from the air by the Bacteria.

Method of Using.—The Bacteria are furnished dried on absorbent cotton and can be readily forwarded by mail to any section of the country. Full directions accompany each package, which no farmer can have any difficulty in following.

BOLGIANO'S WONDERFUL PROSPERITY ^{YELLOW} DENT CORN

HAS YIELDED, OF SHELLED CORN
160 BUSHELS PER ACRE.

AVERAGE YIELD 10 YEARS ON ABOUT
100 ACRES, 125 BUSHELS PER ACRE.

1141. If you really want to grow a bumper crop of beautiful yellow dent corn this year, just take our advice and plant Bolgiano's New "Prosperity" Corn. The fine, large, stately ears are 12 to 14 in. long, 8 to 11 in. in circumference and have from 20 to 24 uniform rows of long, large kernels, well developed over tip and but. It is a luxuriant grower, growing from 12 to 15 ft. high and if planted during the first half of May will mature before the 20th of September. For more than a score of years "Prosperity" Corn has been under the most watchful and careful breeding and selection; the magnificent results more than pay for every effort put forth. The yield has been miraculous, 160 bus. or more of shelled corn per acre and it has even averaged on a number of acres planted the same year 133 bushels shelled corn per acre. During a continuous test of ten years on about 100 acres it has averaged 125 bushels shelled corn per acre. Is it any wonder we have called such a wonderful corn "Prosperity"—it don't seem possible to call it by any other name. "Prosperity" is undoubtedly the most attractive, the largest, the finest, the greatest yielding Yellow Dent Corn ever produced. **Pkts. 10c. Lb. 15c. Qt. 25c. Gal. 65c. Pk. \$1. Bus. \$3.50.**

1139. **Mammoth Golden Beauty Corn.**—Has the largest ears of any 100-day corn. It outyields many other corns. The increased yield repays the cost of the seeds many times over. Growers should make sure of getting the largest yield and most handsome grain to meet competition and secure the highest prices. Ears usually average from 9 to 12 in. long and from 20 to 30 rows on the cob, some of the stalks bearing from 3 to 5 ears. Then why use your poor stock any longer. It has produced 150 bushels shelled corn to the acre. **Pt. 10c. Qt. 15c. Gal. 25c. Pk. 40c. Bus. \$1.25.**

WHITE VARIETIES OF SEED CORN.

1054. **Red Cob 90-Day Corn.**—This Corn meets a long-felt want, because it can be used as a roasting ear corn and when fully matured makes a first-class Crop Corn for feeding stock. The ear is large, handsome, suits for an early crop or for a late crop, because it matures in 90 days. This makes it always a safe and profitable crop. **Doz. 25c. Pkt. 5c. Pt. 10c. Qt. 15c. Gal. 30c. Pk. 50c. Bus. \$1.50.**

1143. **Bolgiano's Cuban Giant Ensilage Corn.**—We have thoroughly tested the Cuban Giant beside all large white grain ensilage varieties. Grains are pure white, very large, broad and long. Of stronger vitality than any other variety. It is the best milk producer of all ensilage Corns, being as sweet as sugar Corn. Outyields the Red Cob Ensilage and is 10 to 12 days earlier. It is the most perfect corn we have found in our years of experience. **Pt. 10c. Qt. 15c. Pk. 40c. Bus. \$1.50.**

BOLGIANO'S CUBAN GIANT ENSILAGE CORN

1141. BOLGIANO'S WONDERFUL "PROSPERITY CORN."

1143. **Improved Leaming Corn.**—Its extreme earliness, productiveness and fine quality has made it very popular with the farmers, and especially with those in the localities where the seasons are short. It produces from 65 to 90 bushels to the acre, in accordance with the quality of the soil. The ears and grains are of medium size. **Pt. 10c. Qt. 15c. Pk. 40c. Bus. \$1.25.**

1140. **Reid's Yellow Dent.**—This comparatively new variety of half dent yellow corn is rapidly gaining great favor as a general crop corn between latitudes 38 and 43, as an early general crop sort, and in the far northeast as an early ensilage corn. It is a heavy yielder in the cotton states. It has a red cob, and matures in 90 to 100 days. **Pt. 10c. Qt. 15c. Gal. 25c. Pk. 40c. Bus. \$1.25.**

1142. **Maryland White Corn.**—This very handsome Corn is the favorite of old farmers who like a big grain on a small cob. The grain is pure white, with good-sized ear, having ten rows to the cob. Used for general crop. **Pkt. 5c. Pt. 10c. Qt. 15c. Gal. 30c. Pk. 50c. Bus. \$1.25.**

1145. **"Hickory King" White Corn.**—So large are the grains and so small the cob that on an ear broken in half, a single grain will almost cover the cob section. Of strong growth, the stalks take a firm hold in the ground and stand upright, resisting severe storms. It yields splendid crops on light soils, and is undoubtedly the best and most productive White Field Corn for the South. **Pkt. 5c. Pt. 10c. Qt. 15c. Gal. 30c. Pk. 50c. Bus. \$1.25.**

1179. **Blount's Prolific.**—One of the largest yielding varieties for the South, produces 3 to 6 ears white, flinty corn to the stalks. Makes excellent Meal. Quick growth. **Pkt. 10c. Qt. 15c. Pk. 40c. Bus. \$1.25.**

1176. **Best Twin Ear.**—The large fodder produced by this variety makes it a fine ensilage Corn. Produces 2 fully-developed ears to stalk. **Qt. 15c. Pk. 50c. Bus. \$1.50.**

1177. **Iowa Silver Mine.**—This very popular variety of white dent corn, originated in Northern Illinois. It matures in about 100 days, and is a good grain yielder throughout the corn belt and eastward, and is becoming quite popular in the southern states. **Pt. 10c. Qt. 15c. Pk. 50c. Bus. \$1.25.**

1180. **Improved Southern Snowflake.**—Matures in 100 days, grows 8 ft. in height. Produces 2 ears to the stalk. Makes Meal of the finest quality. **Pkt. 10c. Qt. 15c. Pk. 50c. Bus. \$1.25c.**

1144. **Improved Evergreen Broom Corn.**—The best variety for general cultivation on account of color and quality of brush. Ripens very early, grows about 8 or 10 ft. high, brush of good length, fine and straight, and always of green appearance when ripe. **Pkt. 5c. 1/4 Lb. 10c. Lb. 15c, by mail 25c, Peck 65c. Bushel \$2.00.**

1146. **Early Amber Sorghum.**—Furnishes a large yield of most nutritious forage, which can be fed either green or cured, and will yield 2 or 3 cuttings a year, stooling out thicker each time it is cut. It grows 10 to 12 ft. high. Sow broadcast for forage at the rate of 1 to 1 1/2 bus. per acre. When sown in drills sow at the rate of 1 peck per acre in drills 3/4 to 4 feet apart. **Pkt. 5c. Lb. 10c. Pk. 35c. Bushel of 50 Lbs., about \$1.25.**

1158. **Early Orange Sorghum.**—This variety is rapidly growing in favor wherever it is grown. Similar in growth to the Early amber, but it is claimed that it produces a heavier crop. **Pkt. 5c. Lb. 10c. Peck 35c. Bushel of 50 pounds, \$1.10. Price Fluctuates.**

1147. **Kaffir Corn.**—Makes most nutritious feed for stock and poultry. Kaffir Corn in the last few years has been generally sown with Cow Peas, broadcast at the rate of a peck of Kaffir Corn to a bus. of Cow Peas per acre. The Kaffir Corn helps to hold the Cow Peas up off the ground, and thus causes a larger growth of cow peas, and both can be cut together, making an enormous yielding crop of most nutritious feed. For a forage crop, when sown by itself, Kaffir Corn should be sown broadcast at the rate of from 3/4 to 1 bushel per acre. When sown for a forage crop, either by itself or with cow peas, the crop should be cut before it is headed out. **Pkt. 5c. postpaid. Lb. 10c. Peck 30c. Bushel of 50 pounds, \$1.00.**

1163. **Clay Peas.**—Seed medium-sized and cream-colored. Vines grow tall and erect. Seed matures medium late. Market prices.

1164. **Whip-Poor-Will.**—Vines erect. Seed large and mottled red and white and matures early. Good to grow between corn. Market prices.

1166. **Wonderful or Unknown Peas.**—Seed medium-sized and buff. Vines erect if planted late, trailing if planted early. Seed matures late. Market prices.

1167. **Soja Beans.**—The great draught-resisting forage crop; unsurpassed in nutritive value for feeding; also makes a splendid soil improver. Market prices.

1168. **Black Eye.**—Vines erect. Seeds medium-sized and white, matures medium late. Market prices.

1175. **Mixed Cow Peas.**—We strongly recommend sowing the Mixed Cow Peas as a soil improving crop. The upright growing varieties holding up the vining varieties, they will make much better and give more satisfactory results, yielding better crops of vines and more forage. They are composed of the Blacks, Black Eye, Clays, Whip-poor-wills, Wonderfuls, New Era and Soja Beans. If once tried you will sow no others where large crops are desired. **Market Prices.**

Buckwheat.

1160. **Japanese.**—This variety of Buckwheat ripens a week earlier than the Silver Hull, and yields more largely than that variety. The kernels are longer than those of other sorts, but, owing to its branching qualities, it need not be sown quite so thickly. **Pkt. 40c. Bus. about \$1.00.**

Bolgiano's New Jumbo Mangel.

NEW ERA COW PEAS, 44 DAYS AFTER PLANTING.

1156 BURT OR NINETY-DAY OATS.

The earliest, most prolific and surest cropping of Spring Oats; far superior to ordinary spring or rust-proof oats for spring seeding.

Wherever this Oat is grown, it speedily comes into great favor. For a spring Oat for seeding in March and April it is unquestionably the best and surest yielding of spring Oats; the advantages claimed for it being that it is earlier to mature, free from rust, healthy, clean and vigorous growth of straw, and makes a remarkably good yield of clean, bright, heavy grain. On account of its earliness to mature, it escapes the hot dry weather which we frequently experience in June, and is, on this account, one of the surest-cropping varieties of the South. Color and appearance of grain somewhat resemble the rust-proof Oat, but it is a little lighter in color. **Please write us for prices.**

1161. **Virginia Gray Winter or Turf Oats.**—When sown before the middle of March, these Oats will far outyield the ordinary spring Oats, making a larger crop and heavier grain. Further north than Virginia, remarkable results have been obtained from these Oats when sown even as late as the first of May, and from the reports we strongly recommend them to our northern farmers, as we believe that they will give very much larger and better yielding crops than the spring Oats usually sown in the northern and western states. Sow at the rate of 1½ to 2 bushels per acre. **Please write us for prices.**

1157. **White Spring Oats.**—Sow at the rate of 2 bus. per acre in February, March or April, the earlier the better. Price of our **Gold Brand** (heaviest and cleanest quality), about **70c per Bus.**, bags included. Choice quality **White Spring Oats**, about **65c per Bus.** Special prices on large lots.

1135 **Spring Rye.**—The straw is equally as valuable as that of the fall or winter Rye, standing stiff, 7 to 8 ft. high. Produces 30 to 40 bushels of grain per acre. As it does not stool like winter rye, no less than 2 bus. to acre should be sown. **Pkt. 10c. Lb. 15c. Pk. 35c. Bus. \$1.15.**

1178. **Silver Hull Buckwheat.**—A prolific and favorite sort, making a fine quality flour. Superior in every way to ordinary buckwheat, which it has almost entirely superseded. **About \$1 per Bu.** Current prices quoted on application.

Mangel-Wurzels.

and Sugar Beets. 4 POUNDS TO THE ACRE.

ROOT CROPS FOR FARM STOCK.

1151. **New Jumbo Mangel.**—For milch cows and cattle generally, the New Jumbo Mangel has no equal. It is a milk producer of the highest quality and at the same time keeps cattle over winter in prime condition. It will outyield any other Mangel 2 to 1. It is easy to grow, producing immense roots in great quantities, thus yielding a most profitable crop. **Pkt. 5c. Oz. 10c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.10.**

1152. **Gate Post Mangel.**—The name indicates the immense size of this fine flavored Mangel. The milk it produces when fed to cows is of the richest character. As one experienced farmer puts it, "The Gate Post Mangel is a butter and milk producer of the first merit." If you want the best Yellow Mangel you ever grew, send for Bolgiano's Gate Post Mangel. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 25c. 5 Lbs. \$1.10.**

1153. **Giant Red Mangel-Wurzel.** This mammoth variety grows to immense size, 20 to 30 pounds each, of fine texture and of good quality; is remarkable for broad shoulder and massive shape of the root, by which a great weight is obtained without coarseness. In England it has produced from 60 to 75 tons of roots to the acre. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 22c. 5 Lbs. \$1.00.**

1154. **Golden Tankard Yellow Fleshed Mangel.**—Rich, deep yellow color of flesh, nutritious and milk-producing qualities. In England, large dairy farmers are not only able to obtain a higher price per gallon for milk from cows fed on this Mangel but also that the cows are in much better condition. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 22c. 5 Lbs. \$1.**

1155. **Improved Sugar Beets for Making Sugar.**—A very large growing sort; used also for feeding stock. Recommended as hardy and very productive, yielding from 35 to 40 tons to acre and containing a greater per cent. of sugar. **Pkt. 5c. 1/4 Lb. 10c. 1/2 Lb. 15c. Lb. 22c. 5 Lbs. \$1.**

Culture of Cattle Beets.—Should be sown from April to June in drills 2 ft. apart, and afterwards thinned out to stand 1 ft. apart in the rows. Keep well cultivated, and you will have an abundant crop of roots.

1165. **Canada Field Peas.** Under favorable circumstances it will yield more good hay to the acre than any similar crop that can be seeded early in the spring, and it makes a complete food, feeding grain being unnecessary when horses and cattle are fed oat-pea hay. These peas should be sown in January, February or early in March, at rate of 1 to 1½ bus. per acre, and same quantity of Burt or Spring Oats. Price for best quality of peas, about **\$1.60 per Bus.**; cotton sacks, holding 2 bus. each, **22c extra.** Special prices on large lots.

Seed Wheat. We sell thousands of bushels of the best and most improved varieties of Seed Wheat every year, and our Wheats have attained a very high reputation on account of their cleanliness and superior quality.

CULTURE OF FLOWER SEEDS.

Provided the soil is in a proper state, flower seeds may be sown in the open border in the months of April and May, or as soon as the soil becomes dry and easily crumbled, after the spring frost has disappeared. They may also be sown in prepared beds of light, rich soil, and transplanted into the garden. The former is the more simple method but not always as satisfactory. The better plan is to sow all fine seeds under glass in the house, hot-bed or in a green-house. As to the depth to which seed should be covered, the best general rule is to cover fine seed very lightly, just enough to protect them from the sun; and in extremely dry weather a sprinkling of damp moss is very useful. With very fine seeds it is best to sow on the surface, and press them lightly into the soil. We are convinced that one of the most frequent causes of failure is in sowing the seed too deep, and seedsmen are unjustly censured, when fault lies with the cultivator.

Explicit cultural directions are printed on all our packets of flower and vegetable seeds. With this help you are sure of success.

GLADIOLUS. RARE AND BEAUTIFUL VARIETIES.

The Gladiolus deserves to be grown in every garden. For cutting they are invaluable, the flowers lasting a week in water. There is nothing in the flower kingdom so easy of culture and so sure of success as the Gladiolus. They can be planted any time from April to June 15, and never fail to flower the same season. They commence blooming in July, and by successive plantings every two weeks may be had in flower until checked by frost. They should be planted 6 in. apart in rows 4 in. deep. We offer what we consider most appropriate for the home garden as well as for the florist trade, viz:

Groff's Hybrid.—A mixture together with all sorts of Hybrids, consisting of Grandavensis, Lemoinei, and Childsi, making in one bed the greatest collection and variation of color. 3c each. 20c per doz. \$1.50 per 100.

Giant Gladioli Childsi.—Tall and erect, 4 to 5 ft. high of free branching habit and profuse bloom. 7 to 9 in. across, each stem produces 3 or 4 spikes. 3c each. 25c per doz. \$2.00 per 100.

Lemoinei Hybrids.—A showy and most splendid flowering variety. Consisting of more than forty of the named sorts. 3c each. 20c per doz. \$1.50 per 100.

New Giant Nanceanus.—The New French Mammoth Flowering Gladiolus. Flowers of immense size borne on long spikes covered with profuse bloom. 5c each. 35c per doz. \$3.00 per 100.

Bolgiano's Superb Mixture.—A mixture of the largest number of the most magnificent varieties of any popular mixture yet introduced, containing the best strains of each variety. 3c each. 20c per doz. \$1.50 per 100.

Bolgiano's Fine Mixture.—A mixture containing some of the choicest and best strains of the different named varieties. 1st size. 3c each. 20c per doz. \$1.50 per 100. 2nd size. 3c each. 15c per doz. \$1.25 per 100.

All the flowers and bulbs I bought of your house came up and bloomed far superior to any I ever planted before. The leaves of the Calladium Bulbs attracted special notice, some measured 30 by 43 inches. Yours truly, Thos. Berney, 303 Williams St., Balto.

Calladium OR ELEPHANT EARS.

One of the most effective plants in cultivation for the flower border or for planting out upon the lawn. It will grow in any garden soil, and is of the easiest culture. To obtain the best results it should be planted where it will obtain plenty of water and abundance of rich compost. Foliage light green. When full size it stands 6 feet high and bears immense leaves 3 to 4 ft. long by 2½ ft. wide.

CHOICEST ROSE BUSHES.

67

ALL OUR ROSES ARE GROWN ON THEIR OWN ROOTS.

All our roses and Plants are Free by Mail unless otherwise noted.

All Our Roses are grown on their own roots, thus insuring you the same variety you plant as long as any of the plant or root remains. Don't buy budded or grafted Roses. If you do you will be disappointed, unless you know how to keep the wild suckers down from smothering the plant. Many fail with their Roses on this account.

OUR ROSES WILL NEVER DISAPPOINT YOU.

CROTONS.

The Crotons are among the finest foliage decorative plants known. As easy to grow as Coleus, and much brighter in their coloring. Our customers everywhere, especially in the South, should bed out Crotons. They can be lifted and potted in the fall, and make handsome houseplants. The leaves of all are more or less veined and margined, sometimes entirely variegated, with shades of yellow, orange and crimson. Some have long, narrow leaves, arching gracefully, fountain fashion; others are broad and short, oak-leaved; some recurve very much, others are twisted corkscrew-like. Crotons love heat, sunshine and moisture. The Crotons are fast becoming one of our most beautiful bedding plants, and are also one of the handsomest house plants in pots. **10c each. 3 for 25c. 18 different varieties for \$1.35.**

VERBENAS.

The Mammoth Flowering.—Verbena produces uniformly magnificent large trusses, with flowers of unusual size and of a wide range of colors. The individual blossoms are frequently larger than a silver quarter—in fact, many are scarcely covered by a silver half dollar. The colors are varied, and embrace all desirable markings. We offer the plants at a very moderate price. **8c each; 7 for 50c; 15 distinct varieties for \$1.00.**

Lemon Verbena.—This plant has the most fragrant foliage of any plant grown. The fragrance is that of a lemon. One plant will scent a whole yard. Grows rapidly. Can be wintered in the cellar. **5c each.**

FRAGRANT JASMINES.

Maid of Orleans.—This beautiful Jasmine is easy culture, good bloomer, elegant fragrance, and double flowers of chaste and waxy white appearance. **Fine plants, 10c each. Strong plants, 35c each.** If you have only one Jasmine, let it be this one.

"DWARF BONFIRE" SCARLET SAGE.

JASMINES—Continued.

Poetica.—Similar to the Jasmine Grand. Flower small, but borne on large spikes. **10c each. Strong plants, 20c each.**

Revolutum.—A yellow-flowered Jasmine, nearly hardy and exquisitely fragrant. **10c each. Fine strong plants, 20c each.**

Grand Duke of Tuscany.—This Jasmine is very easily grown, even small plants bearing a profusion of very double cream-white flowers having a delicious perfume. **25c each. Strong plants, 50c each.**

Grandiflorum.—It is from Italy. The flowers are pure white, star-shaped and of exquisite fragrance. **10c each. Fine strong plants, 20c each.**

Jasmine Gracillimum.—Exceedingly floriferous. A flowering shoot is produced from every joint, which terminates in a dense cluster of pure white, fragrant flowers. **10c each. Fine strong plants, 25c each.**

Cape Jasmine.—Well known for its delicious fragrance and beauty of its flowers, which are white and double. **15c, 35c and 50c each.**

Malayan Jasmine, Rhynchospermum Jasminoides.—This makes an elegant hard-wooded climber, or can be trained in bush form. It bears large bunches of pure white flowers with the most delicate Jasmine perfume. It is known in the South, where it is hardy, as the Confederate Jasmine. It will delight all. **10c each. Fine strong plants, 20c each.**

INDIA RUBBER PLANT.

Fine plants 15 in. high, 65c each. 18 in. high, 75c each. Extra fine plants, 2 feet high, \$1.00 each.

Variegated Leaved India Rubber Plant.—White, grand. **Fine plants, 15 to 18 in. high, \$1.00 each. Small, but good plants, 65c each.**

CYCLAMEN.

Persicum Giganteum, or Persian Violet.—This is a decided improvement over the old variety, being of a more robust habit and stronger grower. Produces flowers on short, stout stems, and of immense size, often measuring, on well-grown bulbs, two inches in diameter. The foliage is also beautiful, and it is a charming winter bloomer. **10c each.**

CYPERUS ALTERNIFOLIUS.

Umbrella Plant.—This is a plant of the easiest culture, and a large specimen, is as handsome as a Palm for decoration. It makes a handsome pot plant, or can be used in baskets or vases, making a charming effect. It will grow luxuriantly in water. **8c each.**

BASKET PLANTS.

We have a great many calls for plants suitable for baskets and vases. We grow these plants in large quantities, and can furnish them at **5c each, or 12 distinct plants for 50c.**

LILACS.

HARDY SHRUBS.

Purple Lilac.—Is the old-time favorite of everybodys garden. **15c each.**
White Lilac.—Its pure white, graceful plumes of fragrant flowers add grace and beauty to bouquets, vases, etc. As a cemetery plant it is without a rival. The plants we off-r are unusually fine. **20c each.**

HONEYSUCKLE.

Price, 10c each; The 6 for 50c.

Aurea Reticulata.—(Golden-Leaved.) Beautiful variegated foliage of yellow, white and pink.

Chinese Evergreen.—Blossoms nearly all season. Deliciously fragrant.
Hall's Japan.—Covered all summer with beautiful yellow and white flowers.
Belgian, or European Sweet Scented.—Color, buff, yellow and red.
Scarlet Trumpet, or Red Coral.—This is the old well known variety.
Yellow Trumpet.—Golden yellow trumpet-shaped flowers. Fragrant.

HARDY MAGNOLIAS.

Red, Rose and White. **Strong plants, 4 ft. high, 75c each, or the 3 colors for \$2.00.** The above Hardy Magnolias can be sent only by express. Do not order them by mail.

Atropurpureum.—Purple-leaved.

Roseo Marginatum.—Red striped; foliage fine.

J. ponica Aureum.—Golden yellow; distinct.

Lissectum Atropurpureum.—Red-leaved Maple.

THE EVER-BLOOMING TRITOMA.

Red Hot Poker Plant.—Strong plants that will soon bloom, **20c each. 3 for 50c.** Hardy and very attractive.

70 **BOLGIANO'S HARDY SHRUBS, VINES AND PLANTS.**

We offer our customers in the following list, everything that is good and desirable in the hardy line. The planting of hardy plants is becoming more general from year to year, for the reason that when once planted they are permanent, and do not require much care to have them bloom and do well. We designate after each species, whether a plant, shrub or vine.

Clematis—Paniculata, Henryi and Jackmanni.

LARGE FLOWERING CLEMATIS, (HARDY VINES.)

Henryi.—This is the finest of all white Clematis. Flowers large, of a beautiful creamy-white. **50c each.**

Jackmanni.—The best known of the fine perpetual Clematis, and should have credit for the great popularity now attending this family of beautiful climbers. The plant is free in its form of growth and an abundant and successful bloomer, producing flowers until frozen up. Flowers are large of an intense violet-purple, remarkable for its velvety richness. **50c each.**

Duchess of Edinburgh.—The best of the double whites; very free flowering, very fragrant. **50c each.**

Kermisense Rubra.—Bright rosy-red, entirely distinct from any other sort. Persistent bloomer and strong grower, with large flowers. **50c each.**

New Pink Clematis, Mme. Baron Veillard.—Lavender-pink; rapid in growth and slender, graceful habit. **50c each.**

Sieboldii.—A lovely shade of lavender. **50c each.**

SPECIAL OFFER.—The set of 6 distinct large-flowering Clematis for \$2.50. This is a bargain, as the roots are large and strong. The best you have ever seen.

CLEMATIS PANICULATA.

Hardy Vine. Covered in August and September with a sheet of clustered snow-white bloom of the most delicious fragrance. No other vine so completely covers itself with flowers. An arbor or portico over which this Clematis is trained is a wall of white for the time being, and what makes it more the striking is that nearly all other vines have ceased blooming at this time. Perfectly hardy; grows rapidly. **Fine vines 20c each, 3 for 50c.**

OLD-FASHIONED SHRUB.

Hardy Shrub.—The old-fashioned sweet-scented shrub. A very compact, growing bush, producing its highly scented flowers in springtime. A universal favorite. Flowers dark chocolate-brown. **12 to 18 inches, 15c each. 18 to 24 inches, 30c each.**

DELPHINIUM FORMOSUM.

Larkspur.

Hardy Plant. The old favorite dark blue variety. Grows three to four feet high. Flowers from June until frost. **15c each.**

DOG-WOOD.

CORNUS FLORIDUS, Hardy Shrub.

This is the beautiful white-flowering Dogwood, that is indigenous to the forests in parts of the United States. Bears its large white flowers in May. **15c each.**

MOSES IN THE BURNING BUSH.

PYRUS JAPONICA, Hardy Shrub.

Burning Bush, or Japan Quince.—One of the most beautiful of hardy flowering shrubs. A splendid lawn plant. The bright scarlet flower produced before the foliage makes a gorgeous display. **12 to 18 inches high 15c each. 18 to 24 inches high, 25c each.**

HARDY MOONVINE.

Pure white flowers and perfectly hardy. **10c each.**

STOKESIA CYANEA, or Cornflower Aster.

Hardy Plant. The plant grows from 18 to 24 in. high, and produces the Centaurea-like lavender-blue flowers from 4 to 5 in. in diameter from early in July until late in October, even after frost has destroyed nearly all other outdoor flowers. It is of easiest culture, succeeding in any open, sunny position. Not only is it desirable as a single plant in the mixed border, but it can also be used with good effect in large, solid masses, and at the same time it is invaluable as one of the finest cut flowers. **15c each, 4 for 50c.**

AMPELOPSIS VEITCHII, Boston Ivy.

Hardy Climber. A beautiful hardy climbing plant. The color is fresh deep green in summer, changing to the brightest shade of crimson and gold in autumn. **Price, 10c each. 2-year-old plants, 25c each. 3-year-old plants, 40c each.**

CALIFORNIA PRIVET.

PRIVET OVALIFOLIUM.—Hardy Shrub.

California Privet.—Makes one of the handsomest hedges imaginable. Wherever a close, compact hedge is desired we recommend California Privet. Should be planted eight or ten inches apart to give best results. It is very hardy, easily and quickly pruned, and will grow almost anywhere. Fine for division hedges between suburban yards. **15 in. high, 10c each, 75c per doz., \$5.00 per 100. 18 to 24 in. high, 15c each, \$1.00 per doz. \$7.00 per 100.**

HARDY LILIES.

Lillium Auratum.—(Golden-rayed Queen of Lilies.) This is the grandest Lily grown and a never-failing delight. The perfume is exquisite—light yet penetrating. Also known as the "Goldbanded Lily from Japan." **25c each.**

Elegans.—(Thunbergian Lily.) Truly magnificent, being Tulip-shaped, blossoms in June or July. The blossoms are large and exceedingly showy, being a brilliant red, flamed yellow. **20c each, 3 for 50c.**

Nemorocallis Flava.—(The Lemon Lily.) This is entirely hardy, bears flowers of lemon-yellow color; very desirable. **15c each.**

Harrisii.—(The Bermuda, or Easter Lily.) Pot and treat the same as for Hyacinths. Each bulb will give from 6 to 12 flowers, in many cases many more. The flowers are fully 6 in. in length, of the purest white. **Fine bulbs, 20c each.**

Candidum.—(The Ascension Lily.) The well-known hardy garden Lily; Snow-white, fragrant blossoms. One of best, an established favorite. **20c each, 3 for 50c.**

Speciosum Rubrum.—Beautiful bright rose spotted dark velvety crimson. **20c each.**

Speciosum Album.—Very fragrant; large flower; a pure white, with a green band running through the center of each petal; one of the best. **25c each.**

Trigrinum Flore Pleno.—(The Double Tiger Lily.) Bright orange, spotted black and very double. **25c each.**

HYDRANGEA PANICULATA.

Hardy Shrub. A great favorite, and there is nothing finer or more showy, whether for planting in large masses in parks or for single plants on the smallest lawns. Bloom profusely from July until frost, in immense white panicles, tinted with pink and then with brown in the fully matured flower. The plant should be cut back each spring fully one-half of the past season's growth, as the flowers are much finer if the plant is treated in this manner. **15c each. Strong, flowering plants for immediate effect, 35c to 50c each, according to size.**

HARDY PHLOX.

Hardy Plant. Few plants give better satisfaction to the amateur than the Hardy Phloxes. They thrive in any ordinary rich soil. The ease with which they are cultivated, their entire hardiness and the extended season of blooming, combined with the varied and beautiful coloring, make them particularly valuable for garden planting. We offer a carefully selected collection. **15c each. Any 4 for 50c. The set of 12 for \$1.25.**

R. P. Struthers.—Bright rosy-red, crimson eye.

Bridesmaid.—Pure white, with large crimson eye.

Boule de Feu, or Ball of Fire.—Fine scarlet, with dark crimson eye.

Coquelicot.—Fine pure salmon-scarlet, with deep crimson eye.

Cross of Honor.—Pure white with a band of rosy-lilac in the center of each; petals in the form of a Maltese cross.

Joan of Arc.—A fine pure white; large truss.

Moliere.—Salmon-rose, with deep rose eye; a beautiful flower.

Eclairer.—Purplish-crimson, with light halo; a magnificent fine flower.

William Robinson.—Is showy in the extreme; crimson, shading to salmon-scarlet; produces a mass of color.

Crepuscle.—Lilac, lighter margin, crimson eye.

Peachblow.—Delicate peachblow pink.

Henry Murger.—Large white flowers, crimson eye.

RHODODENDRON, ROSE BAY.

Hardy Shrub. One of the most valuable of our hardy decorative plants. The leaves are broad, glossy and evergreen. In June when the masses of rich glossy green are surmounted with scarlet, purple and white clusters, each cluster large enough for a bouquet, the display is worthy of admiration. The plants we offer are from 12 to 24 in. high, well established, many of them set with buds. The colors are blush, rosy-crimson, dark scarlet, lilac-crimson, purple and variegated. Don't confound these plants with the cheap kinds offered by some, as they are not the same. **We have a fine mailing size, many with 2 to 4 buds, 50c each. Fine large plants, 2 ft. high, with large branching head, with from 8 to 10 buds sure to bloom this spring, \$1.00 each. If the \$1.00 size of Rhododendrons is to be sent by mail, add 25c for postage for each plant.**

VIBURNUM—SNOWBALL. Hardy Shrub.

Plicatum.—(Japan Snowball.) This Japanese variety of the old fashioned Snowball is one of the most valuable of our hardy shrubs. It forms an erect, compact shrub 6 to 8 ft. high, blooms in June, and for a long time is a solid mass of white, the plants being completely covered from the ground to the top of the branches with large balls of flowers white as snow. The foliage in early summer is an olive-green, turning to a very dark green later in the season. **25c each.**

Sterilis.—(Common Snowball.) Attains a height of 10 to 12 ft. Blooms in the latter part of May. Used extensively for decorating. Flowers pure white, large balls, frequently borne in clusters of 5 or 6. **15c each.**

CHINESE WISTARIA.

Hardy Vine.—A popular hardy vine. It grows very rapidly, climbing to a height of 50 ft. or more. Desirable for porches, trellises, etc., and when in full bloom is truly magnificent. It flowers in early spring, in long, drooping racemes resembling in size and shape, a bunch of grapes. **10c each. Large plants, 25c each.**

Target Brand Scale Destroyer.

This preparation is the most effective and practical means of controlling the San Jose Scale, which has yet been found. It destroys insect life by contact—that means it kills scales, larvae, insect eggs, and all kinds of insects, either by absorption of the oil, or the formation of the fatal film, which destroys life by suffocation. This preparation contains a combination of mineral and vegetable oils, and is easily mixed with water. When diluted with 19 parts of water, it represents a 5 per cent. solution of mineral oil sufficiently strong to be fatal to insect life, and yet remain perfectly harmless to buds, bark, and the growth of the tree. It can be diluted with either warm or cold water, and represents the cheapest, easiest to prepare, and the most reliable spray for fruit-growing either on a large or small scale.

DIRECTIONS.—Dilute 1 to 20 for fall, for winter and spring treatment, and 1 to 40 or 45 for summer treatment.

BOLGIANO'S LAWN FERTILIZER.

Stable manure should never be used as the top dressing on lawn, for it always contains large quantities of weeds. We have, therefore, had prepared for us a special lawn fertilizer, which is clean and high grade in every respect, and free from disagreeable odors. It produces a rapid and rich green growth of grass and should be sown broadcast in the Spring or Fall. 10 pounds for 300 square feet. 500 to 1500 pounds per acre.

Prices: Packages 10c, by mail 20c. 5 Lbs. 25c. 10 Lbs. 45c. 25 Lbs. \$1.00. 100 Lbs. \$2.50. 500 Lbs. \$11.00.
