HENDERSON'S SUPERIOR

EASTER LILY BULBS.

WE SUGGEST that forcers of Lilies divide their orders this year between Bermuda Easter Lily Bulbs and Japan Easter Lily Bulbs. Take the Bermudas for early forcing and the low priced Japan stock for late forcing. There will be a small crop of Bermudas on account of the reduced acreage.

HENDERSON'S SUPERIOR BERMUDA EASTER LILY BULBS. (LILIAM HARRISII.)

For shipment in July or early August.

	Doz.	100	1000
First Size Bulbs. (5 to 7 inches in circumference.)	\$0.60	\$4.25	\$40.00
Intermediate Size. (6 to 7 inches in circumference.)	0.75	5.50	50.00
Extra Size Bulbs. (7 to 9 inches in circumference.)	1.50	11.00	100.00
Monstrous Size Bulbs. (9 to 11 inches in circumference.)	3.00	21.00	200.00

The TRUE Bermuda Easter Lily is our Great Specialty. We were the pioneer introducers of it and have always been "Headquarters," supplying the trade generally, both in Europe and America.

We wish to lay particular stress upon the size and quality of our Bulbs which are larger, healthier and better than those usually sold—for the reason that no expense is spared in manuring and cultivating. Experience having shown us that bulbs so treated are incomparably superior to bulbs grown on impoverished and unfertilized land year after year, which constitutionally weakens the bulbs and they give results accordingly. This is the general practice—especially among those who endeavor to grow cheaply—to enable them to undersell.

The so-called Bermuda Lily disease is primarily the result of reduced vitality caused by insufficient plant food in the soil. While there is no crop of bulbs on the island entirely free from the disease, yet we have less of it in our fields than any other grower, as we have always realized the importance of proper fertilization.

WHAT FLORISTS THINK OF

Henderson's Easter Lily Bulbs

"I do not hesitate to say that the lot of *Harrisii* I bought from you this season are the best I received for a number of years. They are the nicest looking plants that I have seen anywhere, and I am glad that it is so, as this was the first time I got my *Harrisii* from you and which will assure you of getting further orders."

CHRIS BESOLD, Florist,
Mincola, Long Island.

"I have been growing your *Harrisii* bulbs for several years. Last season I divided my order, placing one-half with you and the other half with another prominent seedsmen. Yours were the true Bermuda *Harrisii*, while the others were badly mixed with a worthless variety which grew to enormous height with a very small flower. Your half were all of an even size with flowers of excellent quality. I had the honor of having the finest lilies in Pittsburgh from your bulbs. There were but few of your plants diseased—probably 50 in the whole batch of 9,000 bulbs. You will have my full order next season."

WM. F. LAUCH, Florist,
Carrick, Pa.

"I got 100 *Harrisii* Lily Bulbs from you last year and 99 of them bloomed all right, they were a nice lot."

WILLIS E. HAMILTON, Florist,
Belfast, Maine.

"You may book my order for 7 to 9 inch *Lilium Harrisii* for 1902. Those from you this year were fine."

E. HAENTZE, Florist,
Fond du Lac, Wis.

LILIAM HARRISII.

LILIAM LONGIFLORUM

GRANDIFLORUM.

The Large Flowering Japan Grown Easter Lily.

First Size Bulbs. (5 to 7 inches in circumference.)	\$0.35	\$2.50	\$23.00

HENDERSON'S SUPERIOR JAPAN EASTER LILY BULBS. (LILIAM LONGIFLORUM.)

For shipment last of September or early in Oct.

The imported Japan grown bulbs of *Lilium Longiflorum* as they arrived in this country up to two or three years ago—were usually a mixture of various types, including early flowering, later flowering, tall, dwarf, narrow leaved, broad leaved, green stemmed, red stemmed, black stemmed, small flowered, large flowered, etc. Agreeable to our persistent solicitation, our growers commenced to separate the desirable types, and discarded those unsuitable for Florists' use. So that this year we are able to offer only the best forcing strains of Japan grown longiflorum which our growers say will come 90% true though we cannot guarantee it. Of course, on account of the later arrival of the bulbs they cannot be forced in to flower as early as the Bermuda type *Lilium Harrisii*, but for late winter and spring flowering the Japan grown bulbs are very popular on account of their low price. Some florists think the flowers from the Japanese bulbs are superior in size and substance to those of *Lilium Harrisii*, but we think the cool, slower forcing of the Japanese bulbs accounts for this.

In ordering, be careful to state which strain of Japan longiflorum is wanted. In absence of such information *L. longiflorum Eximium* will be sent.

LILIAM LONGIFLORUM

MULTIFLORUM

The Early Japan Grown Easter Lily.

What Florists Think of Henderson's Superior Roman Hyacinths.

"I get more spikes of 'firsts' from your strain of White Romans than from any I ever grew before." A. S. WALLACE, Montclair, N. J.

"I ordered Roman Hyacinths of you in the fall and must say I never saw finer bulbs. Some of them had as many as fifteen, and a few had seventeen spikes of flowers." J. O. CRABB, Cedartown, Ga.

"Your Roman Hyacinths turned out very satisfactory, as always. Send us prices for this season's bulbs and we will send you our order." GRALLERT & CO., Colma, Cal.

"The Roman Hyacinths you sent me last fall forced grand." C. N. JOHNSON, Louisville, Ky.

HENDERSON'S SPECIAL FORCING AND BEDDING HYACINTHS.

(For Shipment in September.)

These bulbs are of a much larger size than those put in ordinary mixtures; in fact, most of these average as large as those often sent out as "First Size Named" by some dealers. They are of the same age as the first size Named Hyacinths offered by us, from which they are the second selection. They will produce grand spikes of bloom, and each sort as offered below, being of one shade of color and blooming at one time, render them of great value for forcing and bedding out, especially in designs, enabling one to secure the exact color effect desired, which is a great advantage over mixed reds, mixed blues, etc., at but a slight advance in price.

Late Single Garden Tulips.

The Late Flowering Garden Tulips generally are in full flush of bloom in May. They differ from the Early Single Tulips by their taller growth and larger flowers. Planted in conjunction with early tulips—a gorgeous display of bloom may be enjoyed until late in May. They are brilliant in the extreme for bedding purposes. The flowers are very large, symmetrically formed and of magnificent colors.

HENDERSON'S GIANT

"Christmas Forcing"
LILY OF THE VALLEY.

Henderson's Giant Christmas Forcing LILY OF THE VALLEY.

The finest grade of Lily of the Valley in the world for early winter flowering. They will bear twelve to sixteen large bells on strong stalks, with foliage even when forced for extra early; they are equally superior for later or successive crops. The pips average large, plump and regular, with extra long roots. Read what our customers think of them.

"The Christmas Valley I had from you were very fine—better than any I have handled in 18 years' experience, and I have kicked myself because I did not order more. Will want a large quantity next season; can't compete now-a-days unless you have something a little better than the other fellow—and the extra price received more than pays the difference in cost between No. 1 stock and ordinary, and there is a satisfaction outside of dollars and cents that goes a long way."

S. A. E. LYMAN, Essex Greenhouses,
Coe Ridge, Ohio.

"We see from the style of bloom that you have a fine strain of Lily of the Valley and you may book us for 30,000 pips for fall delivery."

A. S. MANSBEAN, Lakewood, N. J.

PRICES OF LILY OF THE VALLEY PIPS.

(Expected for Shipment Early in November.)

Henderson's Giant Christmas Forcing described above, \$2.00 per 100, \$15.00 per 1000, \$35.00 per case of 2,500 pips.

Henderson's Large Flowering Hamburg. The florist's standard sort for flowering after Jan. 1st—3 year old sand-grown pips \$1.50 per 100, \$10.00 per 1000, \$23.50 per case of 2,500 pips.

FREESIA REFRACTA ALBA.

(Ready for Delivery in August.)

One of the most popular and charming bulbs, flowering in the winter and spring. They force readily and can be had in bloom by Christmas if desired, and a continuous display of bloom may be kept up through the winter by proper handling. The flowers are produced 6 to 8 on stems about 9 inches high, and are particularly useful for cutting, remaining in good condition kept in water for two weeks.

Mammoth Bulbs, $\frac{3}{4}$ inch up, 15c. doz., 85c. per 100, \$7.50 per 1000.

Selected Strong Bulbs, $\frac{1}{2}$ in. up, 12c. doz., 65c. 100, \$5.50 per 1000.

FREESIA.

Gladstone. A new, large flowering Spiraea—an improvement over all other white-flowering Spiraeas—and one of the most beautiful winter and spring flowering pot plants grown; the immense trusses of flowers are as white as snow, and are borne on erect, strong stalks 18 inches high. Well-grown plants bear 25 to 40 of these plume-like trusses, practically enveloping the plant with a feathery foam.

Japonica. The old favorite for winter forcing.

Astilboides Floribunda. A great improvement. It is dwarfer in habit, earlier and more profuse in bloom than Spiraea Japonica. As a Florists' market plant, and for forcing for cut flowers, it is unrivalled.

Nana Compacta Multiflora. Of compact growth, ample foliage, magnificent panicles of feathery white flowers.

WHITE CALLAS. DRY ROOTS.

Expected for shipment in September. A limited supply of Bermuda grown Callas expected in August.

The dry bulbs are superior for forcing purposes, as they come into bloom quickly and require less room—making less foliage. Dry bulbs planted in 4-inch pots will flower nearly twice as abundantly as plants in 6-inch pots that have been kept growing or only semi-dormant.
