NOTE.—The common and free seeding varieties, blue and purple, do not predominate in our mixtures, but in ours you will find plenty of bright colors, such as will make your customers so pleased with Sweet Peas that they will come for them again next year.

LAWN GRASS.

The "Henderson" Lawn Grass. A new mixture prepared exclusively by ourselves and composed of the very finest samples of various grasses which, by actual experiments, we have found best adapted to produce a PERFECT LAWN. Sold either in 1, 2 and 4 quart packages or in bulk, (bags included). *Natal* 4 00

The "Henderson" Lawn Grass is put up in attractive boxes of new design, and it will be found the most salable mixture on the market. (Full printed instructions of "How to make a Lawn" in each package)

This mixture weighs 20 to 21 lbs. per bushel. Quotations per STANDARD bushel of 14 lbs. are often misleading. If followed in this instance, it will be seen that this mixture is really at \$2.75 per bushel of 14 lbs.
