WHOLESALE CATALOGUE

— OF —

Fruit, Evergreen and Ornamental

TORREYS

SHRUBS, ROSES, GREENHOUSE PLANTS, Etc.

For the Autumn of 1880 and Spring of 1881.

OFFERED FOR SALE BY

JOHN SAUL,

Washington, D. C.

SEED AND FLORAL STORE—621 Seventh Street, Opp. U. S. Patent Office.

NURSERY—On the Seventh Street Road.

BALTIMORE:

PRINTED BY JOHN MURPHY & Co.

PUBLISHERS, BOOKSELLERS, PRINTERS AND STATIONERS,

182 BALTIMORE STREET.

1880.

IN offering the present large Stock of FRUIT, EVERGREEN and ORNAMENTAL TREES, SHRUBS, ROSES, GREENHOUSE PLANTS, etc., the undersigned would remind his patrons that all have been grown with care, and the nomenclature of the Fruits, Roses, &c., may be relied upon.

Several new and valuable Fruits are offered for the first time.

The quality of all is remarkably fine, whilst the prices are very moderate.

The articles in this Catalogue will be supplied at the prices annexed only when the quantity specified shall be taken. Five hundred will be supplied at thousand rate; fifty at hundred rate, and six at the dozen rate.

At the prices quoted the right of selection of Fruits, Plants, &c., is reserved, but the choice of the purchaser shall be adhered to as nearly as practicable. In no case will long lists of selected varieties be supplied at wholesale rates, but the usual discount allowed from retail prices.

Many small articles, such as Grapes, Strawberries, Greenhouse Plants, &c., can be forwarded perfectly safe, and at small expense, by mail. In remitting for such articles, a sufficient sum should be added over the cost to cover expense of mailing.

Parties ordering should particularly state the route or conveyance they wish the goods forwarded by; otherwise they will be forwarded by the best known route—but he wishes it to be understood that he assumes no responsibility after they are delivered to the forwarders.

No Agents or Pedlers being employed, he cannot be answerable for any articles unless had direct from the establishment.

Packing executed in the best manner, for which a charge is made sufficient to cover the expense.

This Catalogue annuls all former prices.

At these prices, terms of payment must invariably be cash.

JOHN SAUL.

WASHINGTON, D. C.

FRUIT DEPARTMENT.

NEW ROSES.*

The Roses are on their own roots, except a few of the newer kinds, and such varieties which from experience have been found to do best budded :

Bennett's Hybrid Tea Roses.

Price 75 cents each.

Beauty of Stapleford. “Foliage resembling Alba Rosea, but much stiffer in habit, flowers very large, petals large and beautifully arranged, well reflexed, gradually merging to the centre, of the finest possible form, color outer range of petals very pale pinkish rose, gradually shaded to a deep rosy centre. It is scarcely possible to imagine a finer exhibition rose.”

*A descriptive Catalogue of Roses mailed on application.

Duke of Connaught. "Foliage exceedingly handsome, flowers extra large, buds very long and of very fine form, color deep velvety crimson, edged with the brightest red. This is not unlikely to prove the finest crimson rose in any section."

"New Tea Rose, Duke of Connaught,"

Is one of the acquisitions of Mr. H. Bennett, Stapleford. Cut blooms which we have seen prove it a gem of the first water, a full-sized showy flower of a rich crimson, the color almost equalling in intensity that of the old crimson China, and the flowers having a most delicious scent."—*London Florist*.

Duchess of Connaught. "Most distinct in foliage and blooms, very finely formed, color delicate silvery rose, with bright salmon centre, a most charming rose of the highest quality, very large and highly scented."

Duchess of Westminster. "Flowers exceedingly large, without the least coarseness, very finely formed, color brightest cerise, a grand rose."

Honorable George Bancroft. "Flowers very large, of the form of Lord Macaulay, color bright rosy crimson, shaded purple, very beautiful and first-rate."

Jean Sisley. "Flowers very large, very full of petal, and of the finest form, never showing the eye, color out-side petal rosy lilac, the centre bright pink, a flower of great substance that remains in perfection a long time."

Michael Saunders. "Flowers very large, of the finest form, very full of petals, which are beautifully reflexed, color bronzy pink, very sweetly scented, first-rate."

Pearl. "Flesh white. This is not a large flower, but perfection in other respects."

Viscountess Falmouth. "Wood almost as thorny as a moss rose, but the bud is not mossed; flowers very large and of exceeding fine form, color very delicate, pinkish rose; the back of the petals bright pink, this color just overlapping the front of the petal, giving it a most lovely appearance; highly scented like the moss rose. This is perhaps one of the most distinct roses ever offered."

Nancy Lee. Color cherry crimson, large and full, a free grower and bloomer, deliciously sweet. This rose is only coming out in England the present spring, (1880.) An exceedingly beautiful and distinct rose.

NEW HYBRID PERPETUALS, (French.)

Jules Chretien, (Schwartz.)

An exceedingly beautiful flower, very bright crimson shaded with purple, very large, full, and of the finest form. among dark brilliant roses this is the finest. A vigorous grower and free bloomer, will be largely grown, a superb rose. 50 cents each.

Rosa Polyantha. (New of 1880.)

Mad'lle Annie Marie de Montravel, a beautiful seedling from the Japanese Rose polyantha.

"I was struck with the large trusses of blooms exhibited. I found a great number of plants of it covered with blooms, and on nearly all the branches numerous clusters of flower buds. They had been continually in bloom the whole season, it is a seedling from *Rosa polyantha*, (a Japanese species.) The plant, which is dwarf, (being about 1½ feet high,) is vigorous; what is very remarkable, some of the trusses rise about one foot above the foliage, and consist of a considerable quantity of blooms, both open and in the bud state; on one I counted sixty-five, a number, as far as I know, very uncommon. The flowers are pure white, and lasts very long in perfection, they measure about 1½ inch in diameter, and are very double. Each truss will make in itself a splendid bouquet. It will doubtless make a fine pot rose."

Jean Sisley, Lyons, France. 75 cents each.

NEW ROSES OF 1879.

Innocente Pirola, (Ducher)—New Tea.

"Very vigorous, flowers very large and finely formed, with large elongated buds; color pure white, sometimes slightly rosy. This variety will supersede, by its vigor and abundance of flowers, Rose Niphetos." 50 cts.

Reine Marie Henriette, (Levet)—New Tea.

This is a Gloire de Dijon, with red flowers; a vigorous growing climbing rose. Flowers large, full and well formed; color, cerise red. A superb rose, quite unique among Tea Roses. 50 cts.

Rose, Queen of Bedders, (Noble.)

This charming Rose was introduced to cultivators the past season by Mr. C. Noble, a well known English Nurseryman. Writing in the Gardener's Chronicle, July 28th, 1877, he says: "Queen of Bedders can be seen in unwonted beauty at this moment. A bed, 25 by 50 feet, has 22,500 buds and flowers upon it." It belongs to the Bourbon class; color a rich glowing crimson, very double, and blooms from early spring up to frost.

"It is *par excellence* a really bedding Rose in every sense of the word, requires no pegging down, supports or training of any kind, and is a continuous early and late bloomer."

"I have never seen a shoot made yet without a bud at the end of it."—*Dombrain.*

"Queen of Bedders is truly grand."—R. W. R., *Augusta, Ga.* 50 cts. each.

William Allen Richardson, (Ducher)—New Noisette.

"Very vigorous and robust; flowers large and finely shaped, of a fine orange yellow; a color unique amongst the Noisettes. Flowers on all its branches; a very fine variety." 5 inch pots. 1 to 2 feet, 50 cents.

Joseph Bernacchi, (Ducher)—New Noisette.

"Very vigorous, flowers large, full, with large elongated buds, color white, slightly yellow, centre deeper, very fine." 40 cents.

DUTCH BULBOUS ROOTS.

My importations are expected early in September, from the most eminent growers in Holland, who have supplied me over twenty-five years. For List and Prices, see Bulb Catalogue, No. 7.

(From Journal of Horticulture.)

SCHMIDT'S BIGARREAU.

Price—1 year, 30 Cts. each, 3.00 per doz. 2 years, 40 cts. each.

THIS noble Cherry was introduced into England by Mr. Rivers under the name of Bigarreau Noir de Schmidt, who has not been able to trace its history beyond the Société Van Mons, of Belgium, from which he received it. It is by far the largest of all the Black Bigarreau Cherries.

As will be seen from our engraving, the fruit is produced in clusters, and is of a large size, round and somewhat oblate. The skin is of a deep black color, and there is a large style mark on the apex. The stalk is stout, 2 inches long, and rather deeply inserted; flesh, dark, tender, and very juicy, with a fine flavor. The stone is very small for the size of the fruit.

(From Gardener's Chronicle.)

LORD PALMERSTON PEACH.

(See page 6.)

PREMIUMS.

FOR PEARS.

I have taken Premiums as follows for collections of Pears, which will give our patrons some idea of the varieties and quality of fruit we grow :

American Pomological Society, Richmond, Va., September, 1871; Boston, Mass., 1873; Chicago, Ill., 1875; Baltimore, Md., 1877; Rochester, N. Y., 1879, Bronze Medals for a large and superior collection of Pears.

Maryland Horticultural Society, Baltimore, September, 1875, First Premium for the largest and finest collection of Pears—also in 1876-'77 and '78.

Pennsylvania Horticultural Society, Philadelphia, September, 1876, First Premium for a large and superior collection of Pears.

FOR PLANTS.

I was Awarded the following Premiums at the *Cincinnati Industrial Exposition*, September, 1879.

FIRST PREMIUM—"Best Group of Crotons."

FIRST PREMIUM—"Best Single Specimen of Croton."

FIRST PREMIUM—"Best Group of Dracænas."

FIRST PREMIUM—"Best Group of Marantas."

FIRST PREMIUM—"Best Single Specimen of Maranta."

FIRST PREMIUM—"Best Single Specimen of Dieffenbachia."

FIRST PREMIUM—"Best Single Specimen of Variegated Foliage Plant."

SECOND PREMIUM—"Second Best Group of Variegated Foliage Plants."

SPECIAL PREMIUM—"For Davallia Mooreana."

I have also been Awarded for several years, leading Premiums by the *Maryland Horticultural Society* for DRACÆNAS, CROTONS, FOLIAGE PLANTS, STOVE and GREEN HOUSE PLANTS, FERNS, &c. In Cut Flowers, for DAHLIAS, ROSES, PHLOXES, HERBACEOUS PLANTS, &c.
