**CARLOT UNLOADS OF CERTAIN FRUITS AND VEGETABLES
IN 100 U. S. AND 5 CANADIAN CITIES,
ALSO
TRUCK UNLOADS IN 32 U. S. CITIES
AND 5 CANADIAN CITIES**

CALENDAR YEAR 1956

**UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL MARKETING SERVICE**

**Fruit and Vegetable Division
Market News Branch**

Washington, D. C.

PREFACE

Commodities reported in this summary, with abbreviations used in the tables, are shown on the next page. The actual State of origin was obtained, when possible, on reshipments and shipments out of storage. Most Illinois mixed vegetables unloaded at cities in the Middle West were reshipments from Chicago. They were reloaded from inbound carlots originating in various States. Mixed cars containing as much as 90 percent of one commodity were classified under the name of that commodity. When no single commodity comprised as much as 90 percent, cars were classified in the proper mixed category; mixed citrus fruit, mixed vegetables, etc. Some divergence from this 90 percent rule may be expected in view of large number of transportation employees involved in preparation of the reports.

The sum of unloads exceeds imports of certain fruits reported in shipment summaries. This is because all boat receipts at New York City are shown as unloads. Some are subsequently shipped to interior cities.

Truck unloads, expressed in carlot equivalents, are reported for 32 U. S. cities and 5 Canadian cities. It is impossible to obtain complete reports of truck unloads, because trucks ordinarily handling fresh fruits and vegetables are not required by law to maintain complete records of tonnage handled. Estimated percentage of completeness is shown for truck on each city report. These estimates take into consideration movement in wholesale commercial channels, including chain stores and farmers' markets. "Unknown" under State of origin largely represents quantities repacked enroute and correct State of origin was not available.

Special distribution tables for products reported in this summary are included for rail and boat movement, as well as motor truck insofar as latter is available. See index on next page.

The unloads reported for the 5 Canadian cities were furnished through the courtesy of the Canadian Department of Agriculture. Cooperation on the part of railroad, express and steamship agents, as well as members of the produce industry, officials and State departments of agriculture and farmers' markets, is hereby gratefully acknowledged.

* Includes fresh Prunes.

* Includes straight and mixed cans of Honey Dews, Persians and Other Melans, except undermelans.

NOTE: Imports Quinda potatoes discharged from boats at Charleston, S. C., during 1956 - 230 carlot equivalents. These imports are not included in Unload Tables for Charleston. It is probable most of these were reshipped to interior points.

*Includes fresh pears.

*Includes straight and mixed cars of Honey Dens, Persians and Other Melons, except watermelons.

NOTE: Imports Canada potatoes discharged from boats at Jacksonville, Fla. during 1956 - 1279 carlot equivalents. These imports are not included in Unload Tables for Jacksonville. It is probable most of these were reshipped to interior points.

Includes fresh France.

Includes straight and mixed cars of Heavy Dens, Persians and Other Melans, except watermelons.

Imports Canada, potatoes discharged from boats at Norfolk, Va., during 1935 - 243 carlot

equivalents. These imports are not included in Unload Tables for Norfolk. It is

probable most of these were reshipped to interior points.

NOTE:
