NOTICE.

In again presenting my Spring Catalogue, I do so with much pleasure, having added largely by importation of everything new and valuable among the various classes it contains.

We offer especially to the notice of our patrons the beautiful double Geraniums, New Zonales, new and rare plants, as well as the other recent introductions.

Chrysanthemums—in the class of Japanese are many extraordinary novelties; whilst the classes of Anemones, Pompons, Lilliputians, &c., have been enriched with the fine novelties from England and the continent.

Fuchsias, Monthly Carnations, Zonale Geraniums, Verbenas, Coleus, &c., the classes are full, with finest new flowers.

Our collection of Dahlias will be found to embrace all the novelties worthy of cultivation which have appeared in Europe the past season among show Flowers, Fancies, Pompons, Bedders, &c.

When selections are left to ourselves, the very finest varieties will be sent, and the most vigorous plants, as all orders are selected under our personal supervision.

After many years' experience in packing and forwarding plants to distant countries, we flatter ourselves we can pack both economically and safely for any distance. *Orders to the amount of five dollars and upwards packed free of charge.*

The greater part of the new plants, and nearly all the bedding plants can be forwarded by mail at the prices quoted; on their reception they should be potted and placed in a frame or greenhouse to recover the effects of the journey. To Florists and nurserymen who wish new plants, the mail offers the greatest facility for obtaining such, as they know how to care for them on their arrival. Amateurs who have no means of caring for plants after a journey through the mail, as well as all persons requiring a considerable quantity of plants of a larger size, had better have their orders by express. If left to me, I will forward in such way as I deem best for the purchaser.

Orders intended for mailing should be accompanied with a remittance, but in express orders the purchaser may remit, or the article will be forwarded C. O. D. at his option.
