Business Information

PRICES named in this Trade List apply only to orders placed by nurserymen, florists and dealers.

PACKING. All goods are carefully packed in boxes or bales, for which we make a charge sufficient to cover cost of material used. Please state whether goods are to be shipped by express or freight and name route. After delivering to forwarders, all articles are entirely at the risk of purchaser, and if any loss or delay occurs the forwarders alone must be held responsible.

CLAIMS, if any must be made immediately upon receipt of goods, when they will be carefully examined, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question.

TERMS. We offer the usual terms; net 30 days from date of invoice, to those of known responsibility but must have satisfactory business references from others or remittance must accompany order. Those desiring stock shipped by express C. O. D. will please remit one-quarter the amount of their purchase when ordering.

NON-WARRANTY. We give no warranty expressed or implied, the purchaser assuming all risk and responsibility of transportation, planting, growth, life of stock or any other matter on any stock we sell. We exercise the greatest care to keep our stock true to name and are willing to replace, on proper proof, all stock that may prove otherwise, or refund the amount paid, but it is mutually agreed that we shall not at any time be liable for a greater amount than the original purchase price.

TELL US HOW TO SHIP. Whether by freight or express and give railroad delivery if by freight.

THESE PRICES are in effect at this date, January 1st, 1934, and we hope to be able to hold them without change during this season, but should the Federal Government or any other agency make such restrictions that we will have to raise them we will notify you when we acknowledge your order.

A NEW BOOK—AZALEAS AND CAMELLIAS

By H. H. HUME

Interest in Azaleas and Camellias is greatly increasing. Until now, little information on varieties, care, and culture of these plants has been available. Mr. Hume accurately and thoroughly describes the varieties best suited for various uses and discusses questions on culture, such as soils, fertilization, planting, propagation, and general care, indoors and out. He has taken special care to describe accurately the several groups and varieties, and his suggestions on the use and culture are very practical. If you are growing Azaleas and Camellias you will find this book of much help.
