NOTICE.

IN again presenting my Spring Catalogue, I do so with much pleasure, having added largely by importation of everything new and valuable among the various classes.

I especially offer to the notice of my patrons the lovely *Primula Japonica*, also the beautiful double Geraniums, new Zonales, new and rare plants, as well as all recent introductions, Fuchsias, Clematises, Caladiums, Monthly Carnations, Zonale Geraniums, Verbenas, Coleus, &c., the classes are full, with finest new flowers.

Our collection of Dahlias will be found to embrace all the novelties worthy of cultivation which have appeared in Europe the past season among show Flowers, Fancies, Pompones, Bedders, &c.

When selections are left to ourselves, the very finest varieties will be sent, and the most vigorous plants, as all orders are selected under our personal supervision.

After many years' experience in packing and forwarding plants to distant countries, we flatter ourselves we can pack both economically and safely for any distance. *Orders to the amount of five dollars and upwards packed free of charge.*

The greater part of the new plants, and nearly all the bedding plants can be forwarded by mail at the prices quoted; on their reception they should be potted and placed in a frame or greenhouse to recover the effects of the journey. To Florists and Nurserymen who wish new plants, the mail offers the greatest facility for obtaining such, as they know how to care for them on their arrival. Amateurs who have no means of caring for plants after a journey through the mail, as well as all persons requiring a considerable quantity of plants of a larger size, had better have their orders by express. If left to me, I will forward in such way as I deem best for the purchaser.

The prices at which some of the new plants are offered, may appear high to persons unacquainted with the importation of these articles. For such I have to pay high prices in Europe, adding duty, freight, risks, &c., to justify which when first offered, the price should be proportionate—though I make it at the lowest possible rates, and as stock increases the price is reduced. Older and standard varieties are offered at my usual very moderate rates.

Orders intended for mailing should be accompanied with a remittance, but in express orders the purchaser may remit, or the article will be forwarded C. O. D. at his option.

New, Rare and Beautiful Plants.

NEW, RARE AND BEAUTIFUL PLANTS.

***PRIMULA JAPONICA**—*Queen of Primroses.* (With a colored plate.)

The "FLORIST" says of it—"Hail! Queen of the Primroses! for so its introducer designates the lovely flower we now figure, which is hardy as a peasant, resplendent as a princess." It is just ten years since Mr. Fortune met with it in Japan, a basketful of blooming plants having been brought to his door; they were, of course, secured, but the journey home was too much for them, and despite every care none reached England alive. Ever since that time endeavors have been made to introduce this lovely plant, but till now without success, the seeds having been found to lose their germinating powers in the course of transmission to Europe. At last, however, perseverance has been rewarded, and from seeds imported by Mr. Fortune, plants have been raised in the establishment of Mr. W. BULL, of Chelsea. Our gardens have thus secured a perfectly new, thoroughly hardy, and exquisitely lovely Primrose, one which is really valuable on account of its intrinsic beauty. Of the hardiness of the '*Primula japonica*' there can be no doubt, since plants which have been standing all the winter, fully exposed, in the trying atmosphere of London, are perfectly healthy, and came into bloom about the middle of May, some two or three weeks later than the plants which had been potted and flowered under glass."

The "FLORAL MAGAZINE" remarks—"Since the day when '*Lilium auratum*' was displayed for the first time to the horticultural public, we cannot recollect so great a sensation to have been occasioned by any plant as by that which we now figure, when Mr. WILLIAM BULL exhibited it on May 3d of the present year. Its history is now well known, and of its merits too much cannot be said. To Mr. Fortune, already so successful in enriching our gardens, are we indebted for it; and Mr. BULL may well congratulate himself on being the first to introduce it into Europe. A *Primula* a foot and a half high, bearing four or five separate whorls of flowers, each flower an inch in diameter, and of a splendid magenta color, and the plant moreover perfectly hardy—can anything be added to this to indicate its value? We hardly think so, and every one who saw it will fully bear out our assertion, that a more beautiful or a more useful plant has not been for many years introduced into Europe. Of its hardiness there can be no doubt, as it has stood the ordeal of the last severe winter in the neighborhood of London." Price, \$2 each.

PELARGONIUM COQUETTE DE PLESSIS.

White, with a bright rosy carmine blotch on upper petals, and feather-like centre crimson lines, under petals tipped with rosy crimson, with white side belts. This beautiful flower belongs to the class of French Fancy varieties, very early and a profuse bloomer, having a nice compact habit—qualities which particularly recommend it to the attention of florists. The very finest market flower. 60 cents each.

*PELARGONIUM FERNERFOLIA ODORATA.

This was raised from the old *Denticulata*, but is much more finely cut in the leaf, and is a very strong grower. It never changes its beautiful Fern-like appearance, and is one of the easiest geraniums to grow at all seasons of the year. The fragrance is pleasing, and it is an exceedingly beautiful plant. 75 cts. each.

LE NÈGRE.—*New Double Geranium.

Umbels from 4 to 6 inches diameter; flowers medium-sized, very full, perfect in shape, with rich maroon colored imbricated petals, which are of a dark wine red on the reverse side. A very free blooming variety, and entirely distinct in color from any of its kind yet known. \$1.50 each.

LE PROGRÈS.—*New Double Geranium.

This is a great improvement on that valuable new colored Geranium, *Victor of Lyons*; foliage glossy green; nice zone, producing abundance of magenta colored blooms suffused with purple; quite an acquisition to this class, and by far the best double yet sent out. \$1.50 each.

PRÉFET DE LYON.—*New Double Geranium.

Fine flowers, medium truss, violet purplish scarlet petals of great substance, giving the flower a rich velvety appearance. \$1.50 each.

PATRIOTE LORRAINE.—*New Double Geranium.

The habit and style of growth is that of *Marie Lemoine*, truss 5 to 6 inches in diameter, pip clear orange scarlet; a standard variety for years to come. \$1.50 each.

DR. W. NEUBERT.—*New Double Geranium.

Very double rich scarlet, immense truss, fine compact habit, profuse bloomer, a superb variety. Price \$1 each.

PINK PERFECTION.—*New Double Geranium.*

Flowers deep bright pink, the deepest of all this shade of color; the petals are large and smooth, and regularly set, so as to form a perfectly double flower; habit very dwarf and compact. \$1 each.

GAMBETTA.—*New Double Geranium.

A fine flower sent out by Lemoine. Truss large, new shape, pips large and very double; color bright red, glossy, back of petals wine colored pink, very apparent in full bloom. Exceedingly distinct and striking, foliage Zonale. \$1 each.

HEROIQUE STRASBOURG.—*New Double Geranium.

This was also sent out by Lemoine, and is a truly grand variety, giving immense trusses, having over 80 pips in a truss, very double variegated; color a bright transcendant red orange, back of petals a brilliant pink, one of the most distinct ever sent out. \$1 each.

LE VENGEUR.—*New Double Geranium.

Sent out by Lemoine. Trusses of immense size, individual flowers finely formed, very double; color a light cherry, having the backs of petals a bright pink, before fully expanded, the trusses have a lively silvery pink color. \$1 each.

INCENDIE DE FONTENOY.—*New Double Geranium.

Trusses of immense size, pips large and double, of an exceedingly brilliant orange, free bloomer. This is a grand bedding variety, one of the very finest of its color. 75 cents each.

MISS EVELYN.—*New Double Geranium.

A beautiful variety, with large trusses of deepest rose-pink colored flowers shaded with blue. This is an exquisitely beautiful variety, quite of the rosette pattern, large and like a challenge in roundness. \$1 each.

LORD OF LORNE.—*New Double Geranium.

A first class variety, of free yet compact habit, producing large trusses of very double and regular flowers, which stand well above the foliage, and are deep scarlet shaded with crimson. One of the best of the double flowered kinds. \$1 each.

KING OF THE DOUBLES.—*New Double Geranium.*

The largest and best shaped pip of all the doubles, including the new ones of the present year: color is a beautiful bright cerise, and very free; a noble variety. 50 cents each.

A fine variety, of strong growth and trailing habit, suitable for baskets, vases, &c., flowers similar in size and color to W. Rosea. A very beautiful variety. 40 cents each.

WILLSII PALMATA.—*Hybrid Ivy-Leaved.*

Habit exceedingly neat, profuse bloomer, color lilac and mauve. A very distinct and pleasing variety. 40 cents each.

GRAND DUCHESS MARIA.—*Ivy-Leaved Pelargonium.*

An exceedingly pretty variety, with handsome foliage, a vigorous grower, suitable for suspending baskets, rustic work, &c., flowers a light violet pink, the upper petals feathered and striped with dark crimson. 40 cents each.

GRANDIS ODORATA.—*New Sweet-Scented Pelargonium.*

An exceedingly beautiful new fragrant-leaved Pelargonium, with large flowers, and broad oak-shaped richly fragrant leaves; flowers finely shaded deep violet rose or rose purple flowers, blotched on the upper lobes. This is the first example of a truly scented variety, with flowers approaching in size to the large show section of Pelargoniums. 40 cents each.

LITTLE GEM.—*New Sweet-Scented Geranium.*

Bright rose, with scented leaves, exceedingly neat foliage and habit, good for bedding, a very pretty plant. 25 cents each.

DR. LIVINGSTON (*Skeleton-Leaved*).—*Sweet-Scented Geranium*.

This beautiful plant is highly fragrant, of vigorous growth fine habit for bedding out, with exquisite foliage for bouquets, &c. 25 cents each.

NEW ZONALE and NOSEGAY GERANIUMS.

Several of these new varieties will not be ready till May 1st.

*HARRY KING.—*New Zonale*.

The color of this variety totally eclipses all other older kinds; fine-shaped flower, average sized truss, free both in growth and flowering, and is unquestionably the most magnificent crimson scarlet Zonal ever sent out. \$1.00 each.

*MERCY GROGAN.—*New Zonale*.

This is very similar in every respect to the foregoing, and carries larger trusses, fully 5 inches over, which is by far the finest Zonale truss of bloom perhaps ever seen, excellent habit, in every way a superb variety. \$1.00 each.

*PEABODY.—*New Zonale*.

This is by far the best and brightest purple scarlet in the *Madame Mezard* class yet sent out, and cannot fail to give the greatest satisfaction; immense truss, very free, and a fine advance in this section. \$1.00 each.

*IANTHE.—*New Zonale*.

Flowers purple crimson, the purple predominating in the lower petals; flowers of large size, good shape and substance, very beautiful; habit very dwarf and branching, with dark green zonal foliage. Altogether the finest variety in the class yet sent out. \$1.00 each.

*MARATHON.—*New Zonale*.

Flowers deep purple, color quite novel and very beautiful, habit dwarf and branching, with handsome dark green zoned foliage, trusses, large, compact, and freely produced; a first-rate bedding variety. \$1 each.

*MONICA.—*New Zonale*.

Flowers white, with salmon centre, of good shape and large size, trusses large, centre of leaf green, surrounded with a broad black zone; a very pleasing variety, and highly recommended for pot culture. \$1 each.

*CRAVEN FOX.—*New Zonale*.

Rosy scarlet, a beautiful and unique shade of color, pip large and beautifully formed, fine truss; this variety will be found an acquisition, being of free habit and compact. \$1 each.

*THE MARCHIONESS.—*New Zonale*.

Color blue lilac or rosy blue, new in color, most pleasing color, distinct and indispensable for every collection. \$1 each.

*PIONEER.—*New Zonale*.

Color violet purple tint, combined with rich magenta rose, dwarf compact habit, profuse bloomer, a beautiful variety. \$1 each.

*STRIATA FORMOSA.—*New Striped Zonale*.

Bright salmon flower, average size and good substance, beautifully and distinctly striped with white; nice truss, and fine dark zoned foliage, exceedingly pretty dwarf striped Geranium. \$1 each.

*THEODORE ROEMPLER.—*New Striped Zonale*.

Orange carmine, rayed with white. and blotched with salmon, an exceedingly attractive and beautiful variety. \$1 each.

PAYNE'S PERPETUAL.—*New Zonale.*

This is unquestionably by far the dwarfest and most profuse blooming scarlet for bedding ever yet sent out, it very much resembles *Vesuvius* in color; its miniature, yet dense growth, with its innumerable small trusses, render it very distinct, and it has also the valuable quality of being a first-class winter-blooming variety. \$1 each.

LADY C. KENNEDY.—*New Zonale.*

An intense bright scarlet in the way of *Jean Sisley*, but very superior, one of the finest scarlet Geraniums ever sent out. \$1 each.

ALBERT MEMORIAL.—*New Zonale.*

Color intense bright scarlet in the way of *Jean Sisley*, with immense trusses, growth vigorous and robust, a beautiful variety. 75 cents each.

* MARGINATA.—*New Zonale.*

This is a most distinct variety; it is just in the style and color of *Madame Werle*, with each petal and flower distinctly lined or edge round with pink, on a pearly white ground. \$1 each.

* GLITTER.—*New Zonale.*

The intensity of the color of this variety far exceeds all other Geraniums, it is very dark dazzling crimson of the most glowing description; good grower, but its blooms are very thin in substance, and of a moderate shape. 75 cents each.

HAROLD.—*New Zonale.*

Upper petals rose, shaded with violet, under petals rose, margined with vermillion, good grower and bedder, excellent habit, very fine. 75 cents each.

MRS. EDWARD OTTEWELL.—*New Zonale.*

This is a most beautiful cerise orange scarlet, with a conspicuous white eye; possessing an immense truss and a very attractive and distinct color. 75 cents each.

SIR C. NAPIER.—*New Zonale.*

Is almost precisely the same Geranium as *Lord Derby*, with a decided improvement in every way; some of its blooms are really most splendid in shape, and is in every way first-class for pots. 75 cents each.

CRIMSON KING.—*New Zonale.*

Dark crimson, shaded with violet; fine smooth pip, and extra large truss, dwarf compact habit, a most profuse bloomer, new color, a very fine bedding variety. 75 cents each.

In offering the above twenty new Geraniums, I do so with the greatest confidence, as the best set ever offered. Price of the set, \$17 50.

NEW and RARE PELARGONIUMS.

Lower petals rosy purple, top dark maroon, narrow lilac margin, white eye, beautiful. \$1 each.

* CHARLES ROUILLARD.—*New Pelargonium.*

Plum blotch, densely veined, large truss, free bloomer, compact, neat habit, very showy, fine. \$1 each.

* EUGENIE.—*New Pelargonium.*

Flowers pink with intense dark spot, dwarf compact habit, small foliage, profuse bloomer, a very beautiful variety. \$1 each.

HAROLD.—*New Pelargonium.

Deep crimson maroon, lower petals richly painted. black top, narrow wire edge of scarlet, clear white eye; a rich dark variety. \$1 each.

SILVER MANTLE.—*New Pelargonium.

Silvery white, with soft rosy lilac spots, and rose top, a most profuse bloomer, a lovely flower. \$1 each.

VICTOR LEMOINE.—*New Pelargonium.

Delicate blush pink, deep crimson spot, free bloomer, a beautiful and showy variety with fringed petals in the style of *Dr. Andre*. \$1 each.

WARRIOR.—*New Pelargonium.

A bright and fine flower, rich glossy crimson, black spot on upper petals, with margin of scarlet lake; smooth and good. \$1 each.

MAY DAY.—*New Pelargonium.

A smooth finely-formed flower, lower petals soft pink, black spot on top petals, with orange shade, large white eye. \$1 each.

CRISPIFLORA.—*Pelargonium.

White with rose blotches shaded lilac and blue, and beautifully fringed, a lovely variety in the style of *Dr. Andre*, early and profuse bloomer, fine habit, quite a florists' plant. \$1.00 each.

FIMBRIATA.—*Pelargonium.

Blush, white, with a beautiful cherry crimson blotch, thin spot, and finely fringed. This is another charming variety, in the same style as the last and like it, requires to be only known to be largely cultivated. \$1.00 each.

DR. ANDRE.—*Pelargonium.*

Flowers blush pink ground, the margins of the petals elegantly fringed, quite unique, a lovely plant for pot culture. Florists should grow this extensively. 50 cents each.

LAPIS LAZULI.—*Pelargonium.

Another of those beautiful frilled French *Pelargoniums*; color blush white with scarlet belted blotched, elegantly frilled like *Dr. Andre*, equally beautiful with the others described, neat habit, early and profuse bloomer, extra fine. \$1.00 each.

MAGNET.—*Pelargonium.*

Very bright scarlet, deep spot in upper petals, very free, a magnificent variety, one of the best dwarf show geraniums ever sent out for small pot or market purposes; this is a gem. 60 cents each.

STRIATA PELARGONIUM.

The habit strong, vigorous and short-jointed, an abundant bloomer, fine trusses; color scarlet, upper petals with a dark blotch, and all the flowers are beautifully striped with pure white, which make this exceedingly attractive for market and for decoration either of the conservatory or window. This is undoubtedly the most saleable *Pelargonium* ever sent out. 75 cents each.

PRINCE OF NOVELTIES.—*Pelargoniums.

This is a double flower, combining novelty and beauty, the usual upper and lower petals of unequal outline are transformed into a flat circular ray of equal-sized petals, flower and truss large, the ground color is a brilliant carmine tinted crimson, with a blush white margin, each petal being marked at the base with a rich dark crimson blotch. \$1.00 each.

CELOSIA HUTTONII.—Ready May 1st.

This very beautiful plant is of compact pyramidal form and bushy habit, profusely branched, each leading branch being tipped with a small spike of bright crimson flowers. In color the plant resembles the well-known *Iresine Lindenii*, the upper surface of the leaf being of a deep claret color, while the under side is of a bright crimson shade. It grows to a height of $1\frac{1}{2}$ to 2 feet, by about $1\frac{1}{2}$ ft. in diameter, the leaves measuring 3 to 4 inches long by $\frac{3}{4}$ to $1\frac{1}{4}$ inches wide at the broadest part. As a Bedding or Sub-tropical Plant it will take a high rank, from its fine habit and rich and effective coloring. Although generally treated as a half-hardy annual, plants which have been bedded out during the summer retain their fine bright color till late in the autumn. Plants propagated by cuttings taken off early in summer, make splendid objects for greenhouse decoration during the winter months.

Price 50 cents each. Per packet seed, 50 cents.

AMARANTHUS SALICIFOLIUS.—Ready May 1st.

We had the pleasure of offering for the first time the past season this very beautiful plant, and with us as well as our customers, it has succeeded admirably, proving one of the best introductions we have had for some years.

The plant is of pyramidal form, attaining a height of from $2\frac{1}{2}$ to 5 feet, branching close to the ground, the lower branches being from 12 to 15 inches in length, and extending in a horizontal position.

The leaves, which are beautifully undulated, vary in the earlier stages of growth, from a green to a bronzy green shade, and are from 5 to 7 inches in length, by about a quarter of an inch in width. As the plants get stronger, the leaves at the ends of all the principal branches assume a bright orange red color, and become more elongated, generally being from 10 to 15 inches in length, forming magnificent bright colored plumes, and giving the plant a most elegant and picturesque appearance.

From its extremely graceful habit and rich colors, this plant produces a striking effect when planted in large beds or masses; it also forms a very handsome object as a single specimen for the centre of a vase or small bed, and is invaluable as a pot plant for autumn greenhouse decorations.

Price per plant, 30 cents each. Per packet of seeds, 25 cents

CAMPANULA MEDIUM CALYCANTHEMA.

Few of our hardy border flowers are more pleasing, or of more value as garden ornaments, than the old Canterbury Bell, called *Campanula Medium* by botanists—a biennial plant, of pyramidal growth, which inhabits Central Europe, and was introduced to our collections nearly three centuries ago, but which still holds its own; and which, whether we regard the forms with single or double blossoms, purple, blue, rose, or white, of which it gives a rich harvest, stands unrivalled for its beauty.

The ordinary single form bears flowers of the shape of a broad cleanly-modelled and open bell, and the usual double forms are made up by the crowding into the interior of this bell of certain petaloid out-growths of the floral whorl, producing a flower on the model of that of a double *Petunia*. The variety we are now describing, takes quite a different development. In habit the plant resembles the well-known old blue or white Canterbury Bell, "but the corolla is much larger, and the calyx in addition is enlarged to nearly 4 in. in diameter, presenting the form of a saucer, and changed from its ordinary green color to the same hue as that of the corolla." The broad bell-shaped corolla of the single flower is perfectly formed, but instead of the usual small leafy calyx, this organ becomes much enlarged, and takes on a petaloid character; and it is this which forms the peculiarity of the flower, and adds so much both to its interest and to its beauty. (See opposite page.)

Price per plant, or packet of seeds, 50 cents each.

Campanula Medium Calycanthema Alba.

For Description, see opposite page.

WHITE CRAPE MYRTLE.

Lagerstramca Indica Alba. PURE WHITE CRAPE MYRTLE.
LAGERSTROEMIA INDICA ALBA.

A few years since, I had the pleasure of sending out, for the first time, the "New Crimson Crape Myrtle" the richest colored variety of this beautiful plant, and last year this pure white variety from Louisville, Ky., which will be found an admirable companion to the "New Crimson." The Crape Myrtle is well known in this latitude and South, as our most beautiful summer flowering hardy shrub. North, it will need protection.

Price 75 cents each.

D W A R F
FREE FLOWERING POMEGRANATE.

NEW DWARF POMME GRANATE,

A beautiful dwarf, free-flowering Pomegranate from Louisville, Ky. It blooms freely in a very small state, and larger specimens are sheets of bloom. In the Middle and Southern States, it is highly recommended for bedding purposes, being a profuse bloomer, and exceedingly desirable from its rich color, brilliant orange scarlet. For fall and winter blooming, in the green house, it is equally valuable, where cut flowers are required. In this latitude, it will be found nearly or quite hardy, needing at most but slight protection in very cold weather.

Price, 50 cents each.

LIBONIA PENRHOSIENSIS.

A very elegant shrubby stove plant obtained by crossing *Libonia floribunda* with *Sericographis Ghiesbreghtiana*. It has much brighter and deeper colored flowers than its parent, and the leaves are more acute. It is an exceedingly useful decorative plant, freely producing its fine showy flowers, which are of a bright rich crimson color, passing into fiery red. It blooms in the most profuse manner in the depth of winter, and being easily cultivated, is a most desirable plant. \$1 each.

AMORPHOPHALLUS RIVIERI.

This very curious Aroideæ will make a striking figure in our gardens; planted in the open ground, in April-May (like the Dahlias) the tubers will produce on a thick stem, a very extraordinary looking palmated single leaf, in the shape of reversed umbrella.

Planted in pots and put in a greenhouse, it will still grow larger than in the open ground, and keep very well, without being attended to, in drawing rooms, etc.

The whole plant is of a dark green; the stems and nerves of the leaf are irregularly spotted with white. Plant in a light rich soil, well manured and water well during summer. \$1 each.

SALVIA SPLENDENS ALBA.—*White Scarlet Sage*.

A very remarkable novelty in the form of a white variety, of the well known Scarlet Sage, in which not only the flower, but also the calyx or outward flowering sheath is of the purest white. This is a most desirable new plant. 60 cts. each.

THYMUS CITRIODORUS AUREO-MARGINATUS.

A beautiful dwarf-growing garden variety, forming a compact perfect pyramid; the leaves are dark green, broadly margined with rich yellow. It will be found most effective for edging and general bedding purposes. 60 cents each.

CRASSULA LACTEA.

A very beautiful winter flowering plant of easy culture, flowers freely, color pure white. 50 cents each.

*ROSA RUGOSA (REGELIANA.)

This attractive plant has been introduced from Japan. It is of neat compact bushy growth. The flowers, which are freely produced in large terminal clusters, are about 3 inches in diameter, and are composed of five petals, which are of a most beautiful bright rosy crimson color. The flowers are succeeded by berries, which are of a large size and of a rich rosy red color, and are a great addition to the ornamental character of the plant, and combined with the magnificent color of the flowers, and the profusion in which they are borne, render it exceedingly useful and effective. \$1 each.

*SUNRAY.—*New Tricolor-Leaved Fuchsia*.

One of the most beautiful plants ever offered; colors as rich and clear as in any Tricolor Pelargonium; the leaves, which are very large, are of a rich bright crimson, white, and bronzy green, in about equal parts. The habit and growth is all that can be desired, each plant forming a beautiful pyramid. It will make a magnificent exhibition plant, and invaluable as a decorative or market plant. Flowers of fine form, scarlet tube and sepals, with light purple corolla. \$1 each.

NEW BEGONIAS.

*BEGONIA CHELSONI.

An elegant garden hybrid, raised between *B. Boliviensis* and *B. Sedeni*. It is of good compact habit, leaves oblique, ovate-lanceolate and irregularly lobed; flowers large, drooping, bright orange shaded with red. A beautiful summer flowering variety. \$1.50 each.

**BEGONIA CARMINATA*.

This is a tuberous-rooted variety, with narrow ovate-acuminate leaves, dark green tinged with a bronzy hue; flowers large rosy salmon, the male blooms being upwards of an inch long. It is a remarkably free bloomer. \$1.50 each. (Ready in May.)

**BEGONIA VEITCHII*.

This remarkable and beautiful plant, which was discovered near Cuzco in Peru, introduces quite a new feature into the now well-known family of Begonias. It differs in all respects from any other Begonia yet known, in having immense blooms of a vivid vermilion or cinnabar red. \$1.50 each. (Ready in May.)

BEGONIA WELTONIENSIS.

An excellent summer, autumn, and winter blooming variety, of dwarf dense habit, with crimson stems and leaf stalks, bright green leaves, and pretty waxy pink flowers. It is exceedingly free flowering and attractive. 50 cents each.

**BEGONIA RICHARDSIANA*.

This neat and attractive plant, a native of Natal, is of dwarf habit and densely branched. The flowers grow in small cymes from the leaf axils near the ends of the branchlets, and are white. The elegantly cut leaves of this pretty novelty, and its close dwarf habits, will render it an acquisition among the smaller decorative plants. \$1.50 each. (Ready in May.)

BEGONIA GERANIOIDES.

The Snow Drop itself scarcely surpasses the whiteness of the blossoms of this plant, which, as an ornament for green-houses—blooming profusely during the autumn and winter months—is really charming. The habit is very dwarf and compact, with neat foliage, and flowers nearly an inch across—native of Natal. This is a very distinct and beautiful species. \$1 each.

BEGONIA FOLIOSA.

An elegant dwarf, drooping species, adapted for growing in hanging baskets, with light pink flowers, produced in great abundance. An exceedingly elegant and graceful plant; will be largely grown. 50 cents each.

BEGONIA BOLIVIENSIS.

A tuberous-rooted, deciduous species, growing from 18 inches to 2 feet high; the leaves are of moderate size, light green; the flowers are produced in great abundance, pendulous, somewhat bell-shaped, and bright shining red in color. The male blooms much larger than the female. A handsome plant from Bolivia. 50 cents each.

BEGONIA PEARCEI.

The foliage is very pretty colored, flowers yellow, distinct and fine, a bulbous rooted species from South America, and very distinct from any hitherto introduced. 50 cents each.

BEGONIA SEDENI.

This is a cross between an unnamed species and *Boliviensis*. It is equally of as free growth, and of the same upright habit as *Boliviensis*, but larger leaves. The flowers are of the richest Magenta color, and of large size, continues a long time in bloom. \$1 each. (Ready in May.)

BEGONIA ARGYROSTIGMA PICTA.

This belongs to the shrubby class, has leaves four to six inches long, of bright green, spotted with white. A truly lovely plant, and of easy cultivation. 40 cts.

BEGONIA THE O'DONOGHUE.

Among varieties with ornamental foliage, this is unquestionably one of the best. It has fine large leaves distinctly and beautifully marked. All who admire this class of plants, should grow it. A fine variety for Florists. 50 cents each.

DEUTZIA CRENATA FLORA PLENO ALBA.—*Double White Deutzia*.

A double white variety of this exceedingly beautiful shrub; valuable for garden culture or forcing. 60 cents each.

ANTIGONON LEPTOTUS.

A beautiful warm conservatory plant, of climbing habit, with numerous racemes of rose-colored flowers, showing a still richer tint in the centre. The profusion of its bloom, and the outlines of the petals are such as to give the resemblance of Roses at a distance, hence one of its Mexican names is "*Rosa de Montana*," or Mountain Rose. Described by its botanical discoverer as the most beautiful climber he had ever beheld. 60 cents each.

GYMNOSTACHYUM VERSCHAFFELTII.

Stems and branches are of a reddish tinge, red leaf stalks, upper surface of the leaf smooth and richly painted with reticulations, which vary from red to rich pink, passing into brilliant scarlet, on a fine deep green ground. 30 cents each.

GYMNOSTACHYUM PEARCEI.

A new and superb species, equal or superior in habit and coloring to the above; a good grower, and in every respect one of the most beautiful of foliage plants. 50 cents each.

GYMNOSTACHYUM GIGANTEUM.

In this beautiful new species we have a plant of equal beauty with the two foregoing, but much more robust and vigorous in growth, very easy of cultivation. A superb plant. 40 cents each.

FITTONIA ARGYRONEURA.

A trailing plant, with light green foliage, beautifully striped with white; will be invaluable for hanging baskets and vases. 25 cents each.

ERANTHEMUM SANGUINOLENTUM.

This lovely plant has deep green leaves—in pairs about three inches long, with a velvety pubescence on both surfaces, and the veins accompanied with broad bands of bright crimson. A truly charming plant, which will be extensively grown. 30 cents each.

ERANTHEMUM ANDERSONII OR ELEGANS.

This very beautiful plant is of free vigorous growth, producing long terminal spikes of its pure white and rich lake flowers, during the winter months, which last a long time in perfection—a plant of great beauty. 40 cents each.

*LASIANDRA MACRANTHA FLORIBUNDA.

A magnificent plant of good habit, and a most profuse bloomer; the flowers are rich violet hue, between five and six inches in diameter, and produced nearly all the year through. It requires the same treatment as *Pleroma Elegans*, but it is superior to that plant both in habit and size of its flowers. A truly charming plant. \$1.50 each.

COPROSMA BAUERIANA VARIEGATA.

An exceedingly beautiful plant, suitable either for green-house decoration or for beautifying the flower garden during the summer months. The habit is bushy and compact, leaves obovate, stout, bright glossy green in the centre, broadly margined with creamy yellow, which changes with age to pure white. 50 cents each.

PERISTROPHE ANGUSTIFOLIA AUREO VARIEGATA.

A most elegant little plant as an edging plant for summer bedding, excellent for hanging baskets. The leaves are ovate lanceolate, bright orange in the centre, and margined with dark green, its habit dwarf, compact and of free growth. The flowers are of a bright mauve color. 25 cents each.

COBÆA PENDULIFLORA.

The flowers of this new species are produced on drooping peduncles, the tube and calyx are green, as is also the corolla; this is divided into numerous lobes, which are remarkable for their length, being about four inches long and about a fourth of an inch broad, the filaments of the stamens are rich deep purple and nearly three inches long. 40 cents each.

COBÆA ALBA.—*White Cobea*.

A white variety of the well known *Cobaea scandens*, and like it a beautiful climbing plant. 40 cents each.

EUPATORIUM RIPARIUM.

The flowers are very freely produced; color pure white, blooming from January until March, at which season it is found very valuable for bouquets and conservatory decoration. Comparing this with all other species known to us, it must be considered the finest in its group. 30 cents each.

DESMODIUM PENDULIFLORUM.

A pretty dwarf Japanese shrub, which will doubtless prove hardy. "Its drooping branches are entirely hidden by millions of its pure white flowers which are freely produced from August to beginning of winter." 75 cents each.

GYMNOTHRIX LATIFOLIA.—*Ornamental Grass*.

A magnificent ornamental grass, in the style of the well known *Pampass Grass*. For single specimens on lawns this beautiful plant is recommended to produce a striking effect. 30 cents each.

GYMNOTHRIX JAPONICA.

As an ornamental grass this will occupy the first rank. Its large tufts are about 3 feet in height, and are composed of long ribboned leaves, gracefully bent, producing with its multitude of stems an excellent object as single specimen on lawn. 50 cents each.

ERIANTHUS RAVENNÆ.

Another fine grass of rapid growth, when in full bloom said to attain a height of 9 to 12 feet, added to which it is quite hardy. 25 cents each.

DALECHAMPIA ROEZLIANA ROSEA.

This fine plant blooms very freely, and produces its flowers nearly throughout the year, but especially so during winter. Individually the flowers are extremely handsome, and last long time in beauty, owing to the persistent nature of the bracts. 50 cents each.

JERDONIA INDICA.

A curious but beautiful dwarf-growing plant, the stem is very short, leaves about two inches long, heart shaped, and ciliated at the edges with red hairs, the upper surface is deep green, the centre of the leaf marbled with pale green, the flowers are pale lilac streaked with crimson, small, but freely produced. This little gem is a native of the Nilgherry Mountains. 60 cents each.

*ANTHURIUM SCHERZERIANUM.

One of the most striking and beautiful dwarf-flowering stove plant of recent introduction, producing beautiful brilliant scarlet flowers, each of which remains from two to three months in bloom. This charming and novel plant is of easy culture, and a most abundant bloomer. \$2 each.

*IMATOPHYLLUM MINIATUM.

A very excellent evergreen, warm greenhouse or cool stove plant, intermediate between *Clivia* and *Vallota* or *Amaryllis* in style of growth, with dark green leaves, and large corymbs of erect, large, clear rich salmon or light flame colored cup-like blossoms. \$1 each.

CANNA TRICOLOR.—*Three Colored Leaved.*

This novel and picturesque variety of Canna, forms a very distinct and effective group for decoration. It is intermediate in height, from 2 to 4 feet, of free and compact growth. The stems, with the young terminal growth, and also leaf margins, are tinted with red, making an elegant contrast to the general effect of the foliage, which is densely streaked and mottled with cream white. 60 cents each.

ABUTILON VEXILLARIUM VARIEGATUM.

The foliage of this beautiful new variety is spotted and blotched in the style of *A. Thompsonii*, and fully as beautiful as the foliage of that fine plant. 30 cents.

ABUTILON THOMPSONII.

The color of the leaf is a bright green, shaded and mottled with yellow, having the appearance of mosaic work. It is a free growing plant of the easiest culture, whether in pots or bedding out. 25 cents each.

SANCHEZIA NOBILIS VARIEGATA.

This highly ornamented plant is of good habit and vigorous growth, producing leaves upwards of 12 inches in length, and of most intense green, the veins being broadly margined with golden yellow. As a variegated, fine foliaged plant, it stands unrivalled. 40 cents each.

NÆGELIA DAUW.

Magnificent floral thyrses formed of innumerable rows of flowers; corolla white, sprinkled with rose, throat golden yellow, distinctly dotted with vermillion, the division of the orifice ornamented with the brightest rose; foliage large and fine. 75 cents each.

NÆGELIA MORGENLICHT.

Superb foliage, fine pyramid of finely formed flowers of pure golden yellow, a superb plant. 60 cents each.

EUCODONIA NÆGELIOIDES.

This beautiful plant blooms profusely in the green house during the autumn. It is easily cultivated and very fine. 60 cents each.

GESNERIA EXONIENSIS.

A magnificent winter flowering plant; the color of the flower is an intense orange scarlet, the leaf is of a dark velvety texture, studded with minute red hairs like plush. Nothing can be more brilliant than the mass of bloom. 75 ea.

GESNERIA REFULGENS.

Another, superb winter flowering plant; color of flower between vermillion and amaranth, a charming plant, producing magnificent flowers 75 cents each.

GESNERIA SPLENDIDISSIMA.

Color crimson with yellow tube, spotted, very beautiful, velvet like foliage, very fine. 50 cents each.

GESNERIA JASMINIFLORA.

A tall growing species, flowers of the purest white freely produced, beautiful. 75 cents each.

ALLAMANDA HENDERSONII OR WARDLEIANA.

A distinct and beautiful species, which blooms quite small and continuous flowering nearly the whole year, the flowers are circular, of great substance; color a rich deep yellow, fine habit, a noble plant. 75 cents each.

ALLAMANDA NOBILIS.

A distinct and beautiful new species, with a growth much resembling the well known kinds, flowers equally, large as the finest forms of *A. Hendersonii*, of a pure rich yellow, but which are greatly superior in form to others in cultivation, by their large firm lobes being more widely imbricated, and the substance of each blossom being sufficiently firm as to preserve a full salver-like front outline. \$1 each.

VERONICA, "BLUE GEM."

A very elegant variety of Shrubby Veronica, it is of a remarkably dense dwarf habit of growth, with small box-like leaves, and yielding a profusion of bright mauve colored flower spikes, which are continued in succession through the summer months. 40 cents each.

HIBISCUS GRANDIFLORA.

This is a beautiful new plant in the way of the fine old plant *H. Rosa Sinensis*, it has very large flowers of rosy crimson, one of the finest plants for bedding out, magnificent. 60 cents each.

*JASMINUM DUCHESS D'ORLEANS.

Flowers double, white-like miniature, white roses, deliciously fragrant, a very valuable plant. 75 cents each.

*DOUBLE CHINESE PRIMROSE.—*Primula Sinensis pleno*.

MRS. JOHN SAUL.

This superb variety was raised in my establishment. The flowers are large, pure white, petals over-lapping, beautifully serrated, of fine form, robust and compact habit, profuse bloomer. Can be safely recommended as the best double white *Primula* out. \$2 each

The well-known horticultural writer, F. R. Elliott, Esq., of Cleveland, Ohio, says of it: A few days since visiting the greenhouse of Mr. Oliver Alger, we saw, for the first time in bloom, the new Double Chinese *Primrose*. "Mrs. John Saul." It is usual for originators of new plants or fruits to praise them all they will maintain, but in this case the originator, John Saul, of Washington, D. C., has, in his description of this new flower, told only a plain tale when saying, "it is the best double white *primrose* out." It is an abundant bloomer, with large flowers of pure white, very double, the petals over-lapping and beautifully serrated,—all in all, the finest variety we ever saw.

*PRIMULA S. RUBRA PLENO. \$1 each.

*PRIMULA S. GRANDIFLORA RUBRA. \$1.50 each.

Two very beautiful varieties of double red Chinese *Primroses*.

PRIMULA SINENSIS FIMBRIATA.

Fine seedling plants, raised from the finest strains of single flowers; various shades of color. 25 to 40 cents each.

*PRIMULA CURTUSOIDES AMÆNA. \$1 each.

*PRIMULA C. AMÆNA ALBA. \$1 each.

Beautiful new Japanese *Primroses*. The flowers of the first are of a rich rosy purple, the second a pure white, of good size, borne in large clusters, highly interesting as an early spring flowering plants for pot culture, nearly or quite hardy.

PRINCE OF ORANGE PICOTEE.—*Monthly or Tree Carnations.*

Color clear yellow, petals fringed and clearly margined with bright crimson, strong vigorous grower, and free bloomer. Awarded first class prizes wherever exhibited in England, a very beautiful flower. 50 cents each.

TRADESCANTIA REPENS VITTATA.

A pretty trailing plant, extremely useful for vases, hanging basket, &c, in habit it is similar to the old *Tradescantia Zebrina*, but the foliage is of a bright green, blotched with white—in many instances the entire half of the leaf is white. 50 cents each.

PEPEROMIA ARGYREA. 30 cents each.
PEPEROMIA MACULATA. 30 cents each.
PEPEROMIA MAGNOLIFOLIA. 50 cents each.
PEPEROMIA VERSCHAFFELTI. 50 cents each.

Pretty dwarf growing plants, requiring partial shade and moisture, suitable for baskets, and wardian cases. The color of the leaves are delicately blended, being bright green along the lines of the nerves, and greyish white between.

CLERODENDRON BALFOURI.

A beautiful climbing species, which blooms profusely on the young wood, flowers scarlet and white, a plant of easy culture. 50 cents each.

CLERODENDRON THOMSONII.

A very beautiful climbing stove plant, with crimson flowers, free vigorous grower and profuse bloomer. 60 cents each.

CLERODENDRON SPECIOSUM.

This beautiful plant forms a fine intermediate variety between *C. splendens* and *C. Balfouri*, being a neat compact climber in habit, with the rich dark green glossy leaves of the former, and differing from the latter in producing numerous racemes of rich rose or violet tinted crimson blossoms, issuing from a rose colored calyx. 75 cents each.

IXORA COCCINEA SUPERBA—deep scarlet. \$1 each.
IXORA CROCATA—rich orange red. 50 cents each.
IXORA GRIFFITHII—orange crimson. \$1 each.
IXORA AMABILIS, (new)—salmon shaded with orange.

These plants are by no means new, yet are exceedingly beautiful, they require warm stove heat, and whoever has facilities for growing tropical plants should not over look them.

CROTON (or CODIÆUM) PICTA. 50 cents each.
CROTON HILLIANUM. \$1.50 each.
CROTON VARIEGATUM. 50 cents each.
CROTON VARIEGATUM RUBRUM. 75 cents each.
CROTON AUCUBÆFOLIUM. \$1.50 each.
CROTON CASCARILLA. \$1.50 each.

The leaves of these beautiful plants are marked and blotched with yellow and red in various ways, which renders them very attractive and valuable for decorative purposes. They are natives of the South Sea Islands.

DRACÆNA SPECTABILIS. 50 cents to \$1 each.
DRACÆNA TERMANILIS. 50 cents to \$1 each.
DRACÆNA GUILFOYLEI—extremely beautiful. \$5 each.
DRACÆNA FERRA. 50 cents to \$1 each.

These are all superb decorative plants.

CORDYLINE VIVIPARE VAR.

CORDYLINE AUSTRALIS. 75 cents each.

These belong to a highly decorative class of plants like the foregoing.

LOMARIA GIBBA.

A dwarf tree, fern of great beauty which cannot be too highly recommended to all lovers of this beautiful class of plants. 25 to 50 cents each. Low by the dozen or 100.

GRAPTOPHYLLUM PICTUM.

Leaves deep green with a large blotch of bright gold in the centre, a beautiful foliage plant, requires a hot house. 50 cents each.

TABERNÆMONTANA CORONARIA PLENO.

This plant is not new, but it is not cultivated to the extent it deserves, it succeeds well bedded out during summer, giving its lovely double white fragrant flowers in great profusion. 50 cents each.

EUCHARIS AMAZONICA.—AMAZONIAN LILY.

Large pure white fragrant flowers, full 4 inches in diameter, and are produced in abundance on strong plants. 50 to 75 cents each.

ORNITHOGALUM THRYSOIDES ALBA.

A bulbous rooted plant from Natal, growing freely in a cool greenhouse, the flowers are 2 to 3 feet in height, having a fine thyse of pure white flower stems, with a bronze yellow centre opening from the bottom and having in most cases 500 flowers and upward on each spike, two-thirds of which are generally expanded at one time, and surpassing in loveliness any known white half hardy bulb. The bloom continues expanding for three weeks, if not exposed to too much sunlight, and cut blooms will keep in beauty a month in water. 50 cents.

AGERATUM LASSEAUXI—rosy pink color.

AGERATUM IMPERIAL DWARF—cærulean blue.

AGERATUM WHITE "IMPERIAL DWARF"—bluish white.

AGERATUM WHITE TOM THUMB—bluish white.

AGERATUM PRINCE ALFRED—cærulean blue.

AGERATUM MEXICANUM—light blue.

AGERATUM MEXICANUM VARIEGATUM—variegated foliage.

All are very useful for bedding out during summer, or for winter blooming in the greenhouse. 25 cents each. \$2 per dozen.

NEW PYRETHRUM PRINCE ARTHUR.

A new variety of the well known *Double White Pyrethrum*, of very dwarf compact habit, close and even in its growth, very free bloomer, the flowers are large and very double, and full of a pure white color. 25 cents each.

CLIANTHUS DAMPIERI—AUSTRALIAN GLORY PEA.

This is truly a glorious plant, which if planted out doors about the middle of May, (in this latitude) in a moderately rich, dry soil, will spread considerably over the ground during summer, giving a continual succession of its beautiful flowers which are large and gracefully drooping clusters of brilliant self crimson scarlet flowers, marked with a rich black boss-like blotch in front. Seed will be found more satisfactory than plants; sow in a warm situation out doors about middle of May, don't transplant or attempt to grow in pots. 25 cents per packet of seeds.

HEPATICA DOUBLE BLUE.

This is an old favorite, but neglected; it is one of the earliest and most beautiful of early hardy spring flowers. The florist will find it useful for winter or early spring blooming in the greenhouse. 75 cents each.

Lilliputian Zonal Geraniums.

This is a new and interesting form of the zonal section. The growth is very distinct from the ordinary kinds, being proportionately vigorous, whilst the leaves are small, and the flowers equal in size to the zonal varieties of large growth. The properties of a vigorous and compact dwarf growth, combined with small foliage and blooms equal in size to the large growing class, will be a sufficient recommendation.

Price 25 cents each, (save where priced.) The set of 10 for \$2 00.

Plants Sent by Mail.

Nearly all the New Plants can be sent by mail, as well as Collections of Dahlias, Chrysanthemums, Geraniums, Verbenas, &c., at the prices quoted.

*Plants by Mail.

We have for some years forwarded plants in large numbers by mail, to the most distant parts of the Union, as Texas, Utah, the Pacific Coast, with perfect success. All of which are properly labelled and carefully packed in boxes or oiled paper. The following plants will be sent by mail, pre-paid, at the prices annexed, or any new plants can be forwarded in the same way. No order for less than one dollar will be filled.—This rule is necessary, as the mailing of one or two cheap plants will not compensate us, in the hurry of business, for the time and labor of packing, directing, pre-paying postage, &c. Our selection, one-quarter of a dozen at dozen rates.

MONITOR MOWER.

BARLOW & WALKER'S LAWN MOWERS.

DESCRIPTION AND ADVANTAGES OF

The Empire and Monitor Lawn Mowers.

Persons in want of First Class Mowers should examine the merits of Walker's Patents, recently invented. The Manufacturers claim several important improvements over other Lawn Mowers; the following are the most important:

The Empire Mower.

1st. The Empire Mower is so constructed that all its parts are working parts, and all covered, so that no clogging can take place. There are no traction wheels to oil, they being secured by set screws on the central shaft, rotating the same as the cutter reel, which materially reduces friction.

2d. It is self-oiling, the oil chamber on central shaft holding oil sufficient to last a week, which is a great advantage, as some Mowers require oiling every fifteen minutes.

3d. There are no small complicated *Pawls*, but a substantial arrangement for this purpose with few parts, and so simple that any ordinary person can take it apart and put it together again in a few minutes.

4th. It has a guide roller attached to the handle, and, by sliding the bar which holds the wheel, up or down, regulates the cut perfectly.

5th. It has a Sharpening arrangement which is perfect in operation and simple in construction. It makes the knives when dull, equal to being re-ground at the works.

6th. The last, but not least, new feature, is a machine constructed so simple, with its parts interchangeable and lettered, that it is like two truck wheels rolling on the ground so easy that a child can work it.

The Monitor Mower.

Is a machine with one light traction wheel and two guide wheels in front, will cut long or short grass, also, works equally as well on rough ground as on smooth, it is of light weight and can be run at a high rate of speed without much fatigue to the operator. This mower will be found very effectual for cutting around shrubbery and ornamental borders or flower-beds; also, in cemeteries, they must come generally in use. Each part of this Mower is interchangeable, and numbered duplicates of the parts can be had by sending the number to any agent or to the factory. The knives of these Mowers are made of best cast-steel, tempered by a new process, and every machine is warranted to work satisfactorily on any ordinary Lawn.

Empire Mower, Price \$20. Monitor Mower, Price \$15. Sharpening Bar, Extra, \$1.50
