ALFRED F. CONARD,

Late President of the Dingee & Conard Co.

West Grove, Pa.

To My Friends and Patrons.

HAVING been one of the founders, and for nearly twenty years the active president, of The Dingee & Conard Co., Rose Growers, West Grove, Pa., during which time

I assisted largely in making the company one of the most widely known and prosperous establishments of its kind in the country, I may fairly claim to be well acquainted with the business of growing and selling Roses, Plants, and Seeds. Being no longer engaged in the management of the above company, but desiring to continue my acquaintance with flower-loving people and assist in encouraging flower culture all over our broad land, I have decided to open a new business of my own, hoping to be able to give closer personal attention to the wants of my patrons than has been possible heretofore; and having secured an ample stock, with special facilities for business, under careful and experienced management, I confidently ask attention to my **SPRING CATALOGUE OF NEW AND BEAUTIFUL FLOWERS—ROSES, PLANTS, SEEDS, AND BULBS**; a more varied and attractive stock for home adornment than I have ever been able to offer before.

My lists include the best and most satisfactory varieties, both new and old, for general planting. My Roses are all grown by the New Natural Method, which produces plants of greatest vigor and vitality, and I offer them in any quantity.

My prices are low. I propose to furnish everything I offer of best quality, true to name, and exactly as represented. I deliver everything postpaid at all post offices in the United States, and guarantee safe delivery and full satisfaction in every case.

Hoping to hear from flower-loving friends everywhere, and particularly from my old customers, whom I have assisted in serving faithfully for so many years,

I remain sincerely yours,

ALFRED F. CONARD, West Grove, Pa.,

Late President of The Dingee & Conard Co.

Card from MR. WILLIAM B. REED, Chambersburg, Pa.

To My Old Friends and Customers.

DEAR FRIENDS:—Having transferred my entire CATALOGUE MAILING business in Roses, Plants, and Seeds to Mr. Alfred F. Conard, late president of the Dingee & Conard Co., Rose Growers, West Grove, Pa., who has opened a new business of his own, I cordially recommend all my old friends and customers to continue the same liberal patronage to him that they have always given to me; and I am glad to assure everyone that they will be as faithfully and liberally served by him as they could be by myself. Mr. Conard's NEW SPRING CATALOGUE FOR 1894 is presented herewith in place of my own, which is discontinued; and I am sure that if you wish the best Roses, Plants, and Flower Seeds, at the lowest prices, and the most careful and liberal treatment to be had anywhere, you cannot do better than send all your orders to Alfred F. Conard, West Grove, Pa. Hoping you will give him an early trial, and wishing you all a happy and prosperous year,

I remain faithfully yours.

WILLIAM B. REED.

— FINE PANSIES. —

No apology is needed for asking special attention to Fine Pansies. Everyone loves them, and they are to-day the most popular and fashionable flower grown from seed. No trouble to grow them, they do well everywhere, and grace alike the palatial residence and humblest home. Sow as early in spring as convenient for summer and fall bloom, and in August and September for early spring bloom. To raise fine Pansies you must have the best seed, and this is one of my specialties to which I give most careful attention. My seed is saved from carefully selected strains of the greatest perfection and beauty, and is of the very best quality.

FINE SWEET PEAS.

Never before have Sweet Peas been so popular and in such large demand as at present. Many splendid new varieties have been introduced and people are fast learning that Sweet Peas are among the most lovely and charming of all flowers. No other flowers so beautiful and fragrant can be grown so easily; if you will only plant them, they will grow and bloom profusely in all usual places; the flowers last a long time and are so sweet that a few small sprays will perfume a whole room. The culture is very simple: plant the seed three or four inches deep in the most convenient place you happen to have *very early in the spring*, just as early as possible, *February, March, or April*, according to season and locality; keep the ground loose and mellow; give the plants good support to climb on,—wire netting, twine, or brush are all good; keep the flowers picked off clean (this is very important), and they will bloom abundantly for months; they are the most lovely and charming flowers any one can have. Do not fail to plant them liberally.

CONARD'S NEW RED, WHITE, AND BLUE SWEET PEAS.

Our National Colors—The Red, White, and Blue.

My New Red, White, and Blue Sweet Peas are a very beautiful combination that pleases everyone. They are early and profuse bloomers; the flowers are large and fine; the colors are bright, flashing red, pure snow white, and deep sky blue, decidedly one of the brightest, handsomest, and most striking combinations of Sweet Peas ever seen; they give immense satisfaction and are marvelously beautiful. The Lovely Tea Polyantha Rose, **CLOTILDE SOUPERT**. THE FINEST BEDDING ROSE IN EXISTENCE.

Price 15 cts.; 4 for 50 cts.; 9 for \$1.00; 20 for \$2.00; 50 for \$4.50; \$8.00 per hundred, postpaid.

CLOTILDE SOUPERT. This lovely Rose is called a Tea Polyantha, and is undoubtedly one of the best and most beautiful Roses for bedding ever introduced. The flowers are borne in clusters, and are of large, round, flat form, perfectly full and double, and delightfully perfumed; color beautiful creamy-white, finely tinged with amber, deepening at center to clear, bright pink, and sometimes both red and white roses are borne on the same plant. The bush is a vigorous, compact grower, begins to bloom almost as soon as planted, and continues loaded with beautiful buds and flowers during the whole season. It is impossible to praise this lovely Rose too highly. It should be included in every order.

A BED OF CLOTILDE SOUPERT AND QUEEN'S SCARLET (see page 13) is one of the most beautiful combinations that can be made—the Scarlet is best for the center and Soupert for the border. They should be planted ten or twelve inches apart each way, and thirty plants are sufficient for a circular bed four feet in diameter, making one of the prettiest Rose beds you can have.

For \$3.00 we will select and send, postpaid, **eighteen Clotilde Soupert** and **twelve Queen's Scarlet**, thirty fine Roses in all.

For \$2.20 we will select and send, postpaid, **twelve Clotilde Soupert** and **ten Queen's Scarlet**, twenty-two in all, making a smaller bed equally beautiful. Or, if preferred, we will send six Clotilde Soupert and six Queen's Scarlet, twelve in all, for \$1.25

FINE ROSES.

FINE ROSES are one of my most important specialties, and I offer a very large stock of the best and most desirable varieties for general planting. **My Roses are extra strong,**

thrifty, and well-rooted; they are all grown on their own roots in pots by the new special cold process, which maintains an even, natural temperature during all stages of growth, and produces plants of the greatest vigor and vitality—far superior to those grown with heat. They are undoubtedly the most healthy, vigorous, and hardy Roses ever offered, and will grow and bloom where others fail. They require no petting or nursing, are not easily hurt by unfavorable weather, begin to bloom very quickly, and are warranted true to name. My prices are very low, and my elegant special collections give much pleasure to a great many people. I send them postpaid to all post-offices from Maine to Alaska, and cordially invite the kind orders of all who want fine Roses everywhere.

SOME NICE COLLECTIONS OF CHOICE EVER-BLOOMING ROSES.

POLYANTHA or FAIRY ROSES.

These are a lovely and distinct class of Ever-blooming Roses, highly valued for their dwarf, bushy growth and small, very double flowers, which are very fragrant and borne in such large clusters that the whole plant seems a sheet of bloom. They are very pretty and desirable for bedding and general planting. Not entirely hardy, but frequently survive the winter with usual protection.

MIGNONETTE. Very beautiful, full, regular flowers, about the size of a twenty-five-cent piece; perfectly double, deliciously perfumed, bright rosy-pink; immense bloomer. 10 cts. each

PERLE D'OR (Pearl of Gold). Color coppery-gold; flat-rayed flowers, very double and sweet; constant and profuse bloomer. 10 cts. each.

M'LE CECILE BRUNER. Largest of all; rich, creamy rose, delightfully fragrant; a great bloomer; very fine. 10 cts. each.

Beautiful Ever-blooming Roses.

THE QUEEN OF FLOWERS.

These beautiful Roses are highly valued for their constant and profuse bloom, delightful fragrance, and exquisite colors, including all the lovely Tea shades so greatly admired.

My Roses are all cold grown on their own roots in pots, and are therefore the most thrifty and vigorous plants it is possible to have. They do well in all ordinary situations, and can be safely planted at any time during the growing season. They begin to bloom very quickly, and continue bearing lovely buds and flowers all through the summer and fall. No special treatment is required except to pick the flowers before they fade, so as to make room for more. Though not entirely hardy, they can frequently be kept over winter by covering with leaves or straw, but are so easily and cheaply replaced that it usually pays best to get them new and fresh every year. They are the most beautiful of all flowers.

EVER-BLOOMING ROSES OF SPECIAL INTEREST.

These splendid varieties are recommended as among the most beautiful and valuable constant-blooming Roses now in cultivation; prices are a little higher than for more plentiful sorts, but really very low considering the value of the varieties and the excellent quality of the plants we send. All lovers of beautiful roses should have some or all of these magnificent kinds. They are noted for their exquisite coloring and delicious fragrance, and also for their constant and abundant bloom.

AMERICAN BEAUTY. Belongs to the Hybrid Perpetual class, and is well-known as one of the grandest perpetual Roses we have; makes splendid buds and magnificent large flowers, very double and stately, and deliciously fragrant; color deep, rich crimson, exquisitely shaded; a robust grower and true perpetual bloomer, bearing flowers all through the season; always scarce and in great demand; fine plants, warranted true. 35 cts. each.

CLOTILDE SOUPERT. The famous Ever-blooming Tea Polyantha; finest Rose in existence for bedding. The flowers are borne in fine clusters, and are of large, round, flat form, perfectly full and double, and very sweet. The color is beautiful creamy-white, finely tinged with amber; center clear, bright pink (see page 4). Price 15 cts. each; four for 50 cts.; nine for \$1.00; twenty for \$2.00.

DUCHESS OF ALBANY (or Red La France). This is a superb new Rose, belonging to the Hybrid Perpetual class, and closely resembling La France, but much deeper in color and a better grower; the flowers are extra large, exceedingly beautiful, very double and full, and deliciously sweet; color lovely rose-pink, very deep and exquisitely shaded; a constant bloomer, and recommended as one of the largest, sweetest, and best Roses for general planting. 15 cts. each.

CHRISTINE DE NOUE. A fine new French Rose; very free bloomer; large, handsome flowers, and bright, shining buds; color a deep, glowing red; very sweet; a good, healthy grower and constant bloomer. 15 cts.

ETOILE DE LYON (Star of Lyons). This is undoubtedly the best pure yellow Rose for garden planting yet introduced; the color is clear, bright golden-yellow; the plant is a strong, robust grower, quite hardy both in regard to heat and cold; commences to bloom quickly, and continues to bear an abundance of splendid buds and flowers all through the summer and fall; it is extra large, makes beautiful buds, and is very double and sweet, every way one of the very best Roses. 15 cts. each.

GOLDEN GATE. This is another grand new Rose of surpassing beauty; the flowers are of beautiful form, extra large size, very double and full, and delightfully fragrant; ground color rich creamy-white, beautifully tinged with golden-yellow, and bordered with clear rose; a remarkably heavy and constant bloomer; recommended as one of the most beautiful roses ever grown. 20 cts. each.

LA FRANCE.

MADAME DE WATTEVILLE. These splendid Tuberous Begonias are undoubtedly among the most rare and beautiful flowers for bedding now offered; they grow easily and stand our hot, dry summers without injury, bearing magnificent large flowers, four to six inches in diameter, of the most brilliant and handsome colors imaginable—red, pink, crimson, scarlet, salmon, yellow, and pure white; they should be started indoors, and set out when ground is warm and weather settled; they like a little shade when convenient, but do perfectly well without shade if given a mulch of old rotted manure or similar material to retain the moisture and keep the roots cool. The plants grow twelve to fifteen inches high, branching freely, and blooming abundantly from early summer till killed down by frost, after which the roots should be lifted, and stored, secure from freezing, where they will keep in perfect condition and be ready to plant again next season; they get stronger with age, and produce larger and finer flowers. *Remember, this splendid strain costs more than others, but is sure to bloom and*

SPLENDID NEW FRENCH CANNAS.

The New French Cannas are now attracting a great deal of attention. They are bold, stately plants, growing two to three feet high, with large, tropical-looking foliage and magnificent, gorgeous-colored flowers, resembling the rare Orchids in brilliant beauty.

MADAME CROZY. After a thorough trial of all the noted new Cannas at the World's Columbian Exhibition at Chicago, last year, it was conclusively shown that Madame Crozy was the best and most satisfactory variety for general planting yet introduced. Madame Crozy makes a stout, robust plant, about two and one-half feet high; commences to bloom very quickly, and continues bearing a constant succession of bright, fresh flowers every day until killed by hard frost. The flowers are large and well expanded, something in the way of Gladioli, only larger and much more brilliant; they are borne in long spikes or bunches; the color is an intense shade of bright orange-scarlet, each petal having a wide border of clear golden-yellow, exceedingly rich and handsome; in fact, it is the most handsome, showy, and beautiful bedding-plant now known. After being killed down by frost, the root should be lifted and stored in a light cellar, or will bloom all winter if planted in a pot or box and kept in a warm room. Fine, strong plants, 25 cts. each; \$2.50 per dozen.

PREMIERES DE NICE. This is a very grand variety; grows three feet high; has bright golden-yellow flowers, and immense deep-green leaves; distinct and beautiful. 20 cts. each; \$2.00 per dozen.

ROBUSTA PERFECTA. Remarkable for its immense leaves, frequently measuring twelve to eighteen inches wide and three feet long; deep, rich bronze-red; very grand and beautiful. 20 cts. each; \$2.00 per dozen.

Set of three splendid Cannas for 50 cts.

BEGONIA REX.

These splendid plants are grown for their large, beautifully colored, ornamental leaves, which are of various rich shades, wonderfully banded, and flaked with the most charming metallic effects, impossible to describe, and having rich crimson stems. They require a warm room in winter, and a shady place with considerable moisture in summer. They are the finest foliage plants in cultivation and wonderfully beautiful.

NEW SEEDLING REX BEGONIA, "CUMBERLAND." This is considered one of the most distinct and beautiful Rex Begonias ever introduced. Leaves large, dark, rich, velvety-green; with thick crimson-maroon shading, and splendidly ornamented with crimson-bronze luster and markings; reverse of leaves and stems solid, rich crimson; a fine, erect grower. Grand and beautiful. Greatly admired by all who have seen it. Should be in every collection. 25 cts. each.

NEW REX BEGONIA, QUEEN OF HANOVER. This is a splendid, bright colored, very handsome variety; leaves large, very soft and velvety; center and edge dark green, covered with deep maroon shading, ornamented with fine silver dots and luster. 25 cts.

LUCY CLOSSON. One of the handsomest of all; easily grown and an elegant window plant. Leaves large, ground color dark velvety-green, finely tinted with rich violet-crimson, and having a beautiful metallic luster over the whole; grows nicely in any ordinary living room. A most lovely house plant. 25 cts. each.

COUNTESS ERDODY. Originated with the gardener of a Hungarian nobleman, and is the most remarkable variety in cultivation, owing to the peculiar formation of the leaves, the lobes of which make an upward spiral growth from the base, resembling in form a ram's horn; the foliage has a dark, rich, silvery luster, deeply shaded with coppery-rose and dark crimson on a green velvet ground; exceedingly handsome. 25 cts.

NEW REX BEGONIA, SIEBOLD. Dark reddish-green center, with broad, silvery band; bordered with Indian red and beautifully mottled with metallic shades; edges finely ruffled. 25 cts. each. **The five varieties for \$1.00.** A choice and rare collection.

Seven more fine named varieties of Rex Begonia, which we have not room to describe, fully as beautiful as the above, but all entirely different, may go at 20 cts. each, all seven for \$1.00; or complete collection of twelve named sorts for \$1.50.

FINE TUBEROSES.

The pure, waxy whiteness and exquisite fragrance of Tuberoses is proverbial; they rank with the sweetest and most beautiful flowers in existence. Tuberoses grow eighteen inches to two feet high, and the flower-spikes are eight to ten inches long, crowded full of pure white, waxy flowers, of most delicious sweetness. They are very easily grown, and certain to bloom. The bulbs can be started indoors in April, but are usually planted where they are to remain, after the ground gets warm and the weather settled; they cannot bear much cold. If not done blooming when frost comes, lift, and take indoors, and they will continue to open for weeks and perfume the whole house. We send fine selected bulbs, sure to bloom.

EXCELSIOR PEARL TUBEROSE. This is the finest standard variety for general planting now in cultivation; grows about eighteen inches high; blooms early, and bears immense spikes of large, pure white, very double flowers, deliciously sweet. It blooms earlier, and is considered more hardy than the Excelsior. 8 cts. each; three for 20 cts.; six for 40 cts.; 75 cts. per dozen.

OXALIS BULBS, fine for borders, fifty for 25 cts.
