NEW HARDY HYBRID RUGOSA ROSE
SIR THOMAS LIPTON

THE CONARD & JONES COMPANY,

West Grove, Pa., U. S. A.

Growers of *The* Best Roses in America.

NEW ROSE SIR THOMAS LIPTON.

NOTE—This Magnificent New Rose was named by special permission in honor of SIR THOMAS LIPTON, of LONDON, who has made several plucky attempts with yachts Shamrock to recapture the silver cup won many years ago, by American sailors, from the English.

WE have had this splendid rose on trial for several years and now take pleasure in recommending it as the **finest Pure White Hybrid Rugosa Rose yet produced**. It is a strong vigorous grower, making a handsome bush, 4 to 5 feet high, well covered with bright glossy green leaves, which shine as if varnished. The flowers are 3 to 4 inches across, perfectly double and pure snow white. They are very fragrant and borne on strong upright stems all through the growing season. It is one of the **Hardiest Roses in Existence**, and therefore particularly valuable for planting in cold climates and exposed localities where other roses do not thrive. It does well everywhere and can be depended on to make a strong handsome bush and produce plenty of large double pure white roses for several months every season. It is especially recommended for yard, park and cemetery planting. **Sir Thomas Lipton** belongs to in the same class with "New Century" and is a worthy addition to this splendid **New Class of Roses**. It might very properly be called the "**White Century**." 3 year field plants, \$1.00 each. 2 year field plants, 50 cents each; \$5.00 per dozen. 4 inch, 50 cents each; \$5.00 per dozen. 2½ inch, 30 cents each; \$3.00 per dozen; \$20.00 per 100.

New Hardy Rose "NORTHERN LIGHT"

AN elegant new pillar or veranda rose, may be trained as a climber or set in the border, as desired. It is a strong upright grower, and in summer bears great masses of beautiful pink and white roses of such different shades and combinations of color that the name "**Northern Light**" or "**Aurora Borealis**" was naturally suggested. Flowers are of medium size, larger and more double than Crimson Rambler. The color of the flowers varies from deep pink to bluish white, showing many different shades and combinations of pink and white at the same time. It has clean elegant foliage, and is a most interesting new hardy Climbing Rose. 3 year field plants, \$1.00 each. 4 inch plants, 40 cents each; \$4.50 per dozen. 2½ inch, \$2.00 per dozen; \$15.00 per 100.

...NEW CENTURY...

ROSE
NEW

CENTURY

ONE-HALF NATURAL SIZE

Introduced by The Conard & Jones Company

NEW CENTURY is a cross between the lovely **Clotilde Souper** and **Rosa Rugosa - Alba**. It is perfectly hardy and blooms at short intervals all through the Summer and Fall. The flowers are 3 to 4 inches across, perfectly full and double and borne in splendid clusters. The color is bright rosy pink, with bright red centre, and having all the petals widely bordered with fine creamy white as shown in illustration. It is very sweet and has the delightful fragrance of the Wild Rose. It has been called the **New Iron-clad Ever-Blooming Rose** which describes it exactly, for besides being entirely hardy it seems impervious to attacks of insects, rust or blight and is a real Iron-Clad, Continuous-Blooming Rose, entirely different from the old ever-blooming varieties; should be planted in rich ground and kept well manured to induce vigorous growth and continuous bloom. It is a strong upright grower of compact habit, and is well furnished with bright glossy green foliage. The foliage alone is sufficiently ornamental to win a place for it in any yard or garden. New Century is very desirable for cemetery planting and makes a grand and showy hedge.

NEW ROSE **RUBY QUEEN**.....

RUBY QUEEN is a very Hardy Climbing Rose. It is a strong vigorous upright grower, and is particularly well furnished with a glossy, bright green leathery foliage. The foliage has a peculiar but pleasing fragrance, and like the Sweet Briar Rose, this fragrant foliage calls attention to the presence of the bush when no bloom is in sight. The fragrance, while pleasing to mankind, seems to be very repulsive to insect pests, and makes the bush almost proof against their ravages. The color is different from any other rose, and is hard to describe. We call it Ruby Red, but this term only conveys a faint idea of the beautiful color, or how nature has shaded this color from lighter petals in the centre to darker petals outside. The flowers are double, medium to large in size, and are borne in clusters. It is a free and early bloomer, and is recommended for all situations where hardy, free blooming, climbing roses are wanted, and particularly for places where slug-eaten foliage is not desirable.

It blooms early and continuously in the greatest profusion the whole growing season. Its foliage is bright glossy green, very large and handsome, and so thick and leathery it is not often injured by rain or wind. Green foliage. **50 cts. per doz.; \$3.00 per 100.**

NEW BRONZE LEAF CANNA, EASTERN BEAUTY--The flowers are a charming shade of light salmon and orange that changes after two or three days to a most attractive flesh pink. Eastern Beauty is a free bloomer and has well-filled branching trusses. **50 cents per dozen; \$3.00 per 100.**

— NOTICE —

WE make a specialty of growing **new Cannas**. Several thousand new seedlings are started each year, and we think that we are quite safe in saying that the great variety of colors presented in these trial fields cannot be duplicated anywhere else, the world over. These are not all chance seedlings by any means; many of them come from seed that has been carefully hybridized, and the improvement that comes from careful work of this kind is very noticeable. We have had several generations at times growing in the same patch, and it is truly interesting to notice the great advance in color, form and durable qualities that has been produced by the work of the careful hybridizer. These Canna patches are always interesting to look over during the latter part of the Summer, **and we extend a cordial invitation to all our friends to come and see them.** ❀ ❀ ❀ ❀ ❀ ❀

JAE CONARD & JONES CO.
WEST GROVE, PENNA.

FROND OF PIERSON FERN.

NEW PANSY PELARGONIUM—We gladly offer this elegant variety: scarcely any plant grown in the window garden will give better returns with so little care: it blooms finely in open ground, and when taken indoors will be literally covered with flowers for weeks. Flowers pink and crimson, with dark blotches, sometimes feathered white. A very free bloomer, fine for forcing. 2 1-2 in., 75 cts. per dozen; \$5.00 per 100.

...NEW PIERSON FERN...

Probably the greatest novelty introduced in many years. This new fern is a sport from the Boston Fern and has the same strong, vigorous habit, of growth; but it is indescribably more beautiful. The Pinnæ of the fronds subdivide, thus giving them a plume-like appearance, absolutely different from any other fern, and they hang in such arching gracefulness that the Pierson Fern out-classes all other ferns. The numerous gold medals that it has won attest to the accuracy of these statements. It is a splendid house plant, small plants being beautiful as well as the large specimens. 2 1-2 inch, \$1.10 per doz.; \$8.00 per 100. \$70.00 per 1000.

Boston Fern Because of its quick growth the most useful of the sword ferns. It is now grown in large quantities to supply an increasing demand. Very desirable for pots and baskets. The fronds are not straight and stiff like the ordinary sword ferns, they grow longer and droop over very gracefully. 2 1-2 inch, 60 cts. per dozen; \$4.00 per 100; \$35.00 per 1000.

THE BEAUTIFUL MOSS FERN (*Selaginella Emiliania*)—A very pretty and interesting little fern with moss-like foliage, delightful for fern dishes, warden cases, etc. 2 1-2 inch, 50 cts. per dozen; \$3.50 per 100.

NEW CAREX JAPONICA—An excellent plant for house and table decoration; forms a mass of erect growing fine spray-like foliage, drooping gracefully from the centre; dark green leaves, beautifully edged as with a band of gold. 2 1-2 inch plants, 85 cents per dozen; \$6.00 per 100.

CROTON, Aurea Maculatum—The Crotons are greatly admired for the rich and beautiful coloring of their leaves; some kinds are too tender for ordinary use, but this one will stand all manner of hard usage, and is a most desirable plant for parlor or living room. It grows erect with long narrow deep green leaves, spotted all over with flakes of yellow, looking as if sprinkled with gold dust. Always pretty and grows prettier each year. 2 1-2 in., 50c. per doz.; \$3.50 per 100.

RUSSELLIA ELEGANTISSIMA—A charming plant for pots, vases, window boxes, etc., has long slender wirey stems, which grow in graceful drooping masses like flowing hair, and covered with pretty tubular flowers of the brightest scarlet color; blooms the whole season, and can be kept in pots Summer and Winter.—2 1-2 inch, 60 cts. per dozen; \$3.50 per 100.

BROWALLIA GIGANTEA—This has proved a most charming plant, both for the window and the flower bed; makes nice bushy little plants, 8 to 10 inches high, and blooms all the time. The flowers are large, fully two inches across, and lovely deep violet-blue. This is a very favorite color, and it would be hard to find a plant that is easier grown or a more constant and satisfactory bloomer. When Summer is over take the plants indoors and they will bloom constantly all Winter. We recommend it as sure to please, both for Summer and Winter bloom. 2 1-2 inch, 60 cents per dozen; \$4.00 per 100.

GOLDEN STAR OXALIS (Oregiesi)—A charming house plant; quite rare, but always a favorite wherever seen; grows neat and compact in small tree form; dark olive green leaves, bright crimson on the under side, and bright yellow star-shaped flowers, borne in clusters all the year round. 2½ in., 60 cents per dozen; \$4.00 per 100.

The currant worm does not prey upon it at all. Sure to bear fruit every year. The berries make excellent jelly and preserves of a most sprightly flavor. NEW WHITE CANNA MONT BLANC

ANTOINE WINTZER

VICE PRES. THE C. & J. CO.

ORIGINATOR OF MT. BLANC CANNA

Introduced by THE CONARD & JONES CO. 1903

A Convincing Bit of History.

Our Beautiful Canna Lilies are the most satisfactory plants one can use for producing a gorgeous display of brilliantly colored flowers all Summer long. They are now extensively planted in the finest public parks and home lawns. When first grown in our grandmothers' gardens the Canna was known as the "Indian Shot Plant," but then its flowers were too small to attract attention. Later, Europe sent us kinds with larger flowers—but they were not well suited to our climate. About a dozen years ago, the Vice-President of our Company, and our veteran rose grower, Mr. Wintzer (see photo. above), became convinced that by careful hybridization, the Canna could be made to produce larger flowers and more brilliant colors that would stand our hot suns and whipping winds. We regret that lack of space forbids details, for the process of originating a new flower is a fascinating story in itself. How much we have done in producing for America a NEW RACE OF CANNAS, Superior in every way to the old, may be read on the Canna pages of this or any other up-to-date catalogue. We have produced more than 50 excellent kinds, including the richest reds, the purest yellows and prettiest pinks, and in fact the best in all shades. Each year we devote a large area to testing new varieties. We grow the best, discard the rest. WE ARE CANNA SPECIALISTS. See Prices and Description on page 12. Also see Color Plate.
