A Few Selected Offerings

FALL 1942

THE TINGLE NURSERY CO., PITTSVILLE, MARYLAND.

SPRING 1943

This is not a complete list of our stock. Note offer of catalog below.

We have gone through our nursery and selected the items herein as the ones we want especially to call your attention to. On account of labor shortage, reasons for which you are all familiar, we will not publish a catalog during the season of Fall 1942 and Spring 1943. But, we did want you to know we have appreciated your orders in the past and feel sure we will be able to take care of any orders you may send us this season. If you do not have a copy of our 72-page catalog we will gladly send you one (this is our 1941 issue). We believe you will find our stock as nice as an we have ever sent out.

Daphne Somerset (Plant Patent No. 315)

This fragrant and easy-to-grow Hybrid Daphne originated in England a number of years ago. It received highest honors from the R. H. S. of Great Britain when it was first shown in London. The star-like bluish-white flowers are as deliciously fragrant as Daphne Cneorum. They occur in quantities during May and June along the upper 8 or 10 inches of each branch, the flowering time lasting a month or more. The foliage is rich, dark green, giving the effect of boxwood. It remains on the plant well into the winter. Reports from southern test gardens are that it remains evergreen where winter is not too severe. 15 to 18 in. \$1.50 each; 3 for \$4.00.

Japanese Flowering Quinces

The following are long lasting, distinctive flowering shrubs, brilliant in color and indispensable for beds, shrubberies, etc. They supply a warmth of color to the garden from early spring to mid-summer. 75c each. **Grandiflora Rosea.** Flowers large, at first lemon, tinted pink, deep rose when old; large bronze-tipped leaves. **Grandiflora Rubra.** Early, very large deep red flowers. Probably the most popular one. **Nivalis.** Snow white.

Deutzia Gracilis

Seldom more than 2 or 3 feet high. This is one of the prettiest and most graceful of all the Deutzias. 35c each, 3 for \$1.00, 12 for \$3.25.

Euonymus Alatus Compactus

Wherever seen this shrub causes much comment among for its unbelievable brilliance of foliage, many think it even prettier than the Red Maples and Gums. Its compact growth, easy culture, and slow growth make it one of the outstanding shrubs for hedges as well as individual specimens in the garden. 18 to 24 in. \$1.25.

Forsythia Ovata (Korean Goldenbell)

The earliest Forsythia to bloom. A very hardy, recently introduced species with clear primrose yellow flowers. 35c each, 3 for 90c.

Fuchsia Magellanica

Comes to us from the New York Botanical Gardens where it has proven entirely hardy. It is in bloom all summer long until stopped by frost. Pendulous flowers are ruby-red with purple inner petals, and are produced by the hundreds, flowering just as freely in full sun as in light shade. 35c each, 3 for \$1.00, 12 for \$3.50.

Hydrangea Grandiflora

One of the most popular shrubs; blooms from August to autumn, after which the blooms may be dried for winter bouquets. Immense panicles of bloom, white at first, but gradually turning to rose color. 2 to 3 ft. 60c.

Hydrangea Quercifolia (Oakleaf H.)

This Oak-Leaf Hydrangea is famous for its large artistic indented and somewhat ruffled oak-like leaves which turn to beautiful colors in autumn. Giant flower heads in abundance. A rare and beautiful shrub which grows well in shade or sunlight. Nice heavy plants 75c each.

Kolkwitzia Amabilis (Beauty Bush)

A graceful arching shrub with center almost upright. The flowers are produced along the whole length of the branches in clusters at the ends of the short, leafy shoots. They are tubular with a gaping mouth, deep pink without, stained with yellow-brown on the lower throat and lip. One of the most beautiful as well as useful shrubs that China has given to this country. Nice heavy plants 50c each, 3 for \$1.25.

Celastrus Scandens (Bittersweet)

A familiar vine spiraling up tall trees with clusters of red and orange fruit in October, making a wonderful display. 35c each; 3 for 90c; 12 for \$3.00.

Clematis Paniculata (Virgin's Bower)

This hardy climber is one of the choicest and most satisfactory climbing, flowering plants. Of strong, rapid growth, with small, dense, cheerful green foliage and pure white, deliciously fragrant flowers in great profusion in August and September. 35c each; 3 for \$1.00.

Calycanthus Florida (Sweet Shrub)

The native sweet or brown shrub. Flowers double, chocolate-covered, very fragrant. Blooms in early April and lasts for several weeks. 12 to 15 in. 25c each; 2 to 3 ft. 50c each, 3 for \$1.25.

Weigela Bristol Ruby (Plant Patent 492)

A better "Eva Rathke" has long been needed—Bristol Ruby is just that. Hardier and more vigorous, it makes a shapely, thrifty plant with an attractive rich green foliage. Color is a soft ruby-red shading to garnet-crimson; extremely pleasing in effect and without harsh tone. Attaining a height of 6 to 7 feet at maturity, it makes a perfectly formed, well-rounded specimen requiring very little pruning because it flowers well from old wood; no die-back or uneven growth at any time. 2 to 3 ft. \$1.25 each; \$3.25 for 3; \$12.50 per dozen.

Laburnum Vossii (Golden Chain)

A small tree-like shrub with green bark and clover-shaped leaves. The flowers are pure golden yellow in color and hang in clusters like Wisteria attaining a length of 18 to 24 inches. Blooms in late spring. Has been called a golden tree wisteria. 18 in. \$1.00 each; 4 to 5 ft. \$2.50 each; 5 to 6 ft. \$3.50 each.

Japanese Red-Leaved Maple

Magnificent purple-red foliage of attractive, gracefully lacinated form. A showy, well branched shrub when young, eventually growing into a well shaped small tree. Most attractive at all seasons. 15 to 18 in. \$1.50 each; 18 to 24 in. \$2.00 each; 2 to 3 ft. \$2.50 each.

Magnolia Soulangeana

The deep velvety-red buds change to a soft rose color when the large flowers, often 4 to 6 inches across, are fully open. Soulangeana is the showiest of all Magnolia for Northern gardens. The large specimen trees grow to be 20 feet tall and will dominate the entire neighborhood when in full bloom each spring. 18 in. trees \$1.00 each. Very heavy 6 to 8 ft. specimens \$12.50 each.

Franklinia Alatomaha

This tree grows more popular each season. It is most beautiful in its general landscape effect, with the flowers opening in mid-August. The trees, even when small, are abundantly starred with them until hard frosts. The young leaves unfold a charming, delicate, bronzy-red; at maturity they are 5 to 6 inches long by about one-third as wide, a rich dark green with red veining. The flower buds are balls covered with whitish-green satin. When as large as marbles they unfold; the guard petals emerge; they are satiny snow-white, elaborately frilled and pleated. The snowy, frilly caliche, 3 inches in diameter and of vicant irregularity, holds a sumptuous mass of the richest orange-gold stamens and breathes forth a delicate balmy fragrance. 12 to 18 in. \$1.00 each, 3 for \$2.50; 18 to 24 in. \$1.50 each, 3 for \$3.75; 2 to 3 ft. \$2.25 each, 3 for \$6.00; 3 to 4 ft. \$3.00 each.

Red-Leaved Barberry

One of the finest and most colorful new shrubs. Bright red foliage all summer long with ornamental red berries during winter. Should be planted in full sunlight. 6 to 12 in. 10 for \$1.25; 100 for \$10.00; 12 to 15 in. 10 for \$2.00; 100 for \$16.50.

Wisterias

These Wisterias have long, slender racemes covering a long season of bloom. They are grafted plants and commence to bloom when very young. \$1.00 each. **KYUSHAKU.** Very long clusters, flowers of a beautiful purple color. **ROSEA.** The handsome pink flowers are borne in large pointed 18 to 24 inch clusters, with or before the leaves in spring. **VIOLACEA PLENA.** The deepest violet-blue of all the double Wisteria.

English Ivy (Hedera Helix)

Its dark green foliage is ideal for concealing unsightly objects and to relieve the blank walls of buildings. Makes a good ground cover in densest shade. 25c each; 3 for 60c; 12 for \$2.00; 100 for \$12.50, 1000 for \$100.00.

The Daphne Lilac (Microphylla)

A remarkably lovely shrub, deliciously fragrant, introduced from China. Graceful, slender stems; pinkish red buds opening to pale pink panicles of small individual florets. The flowers produce a two-tone effect that is very pleasing and novel. The main truss is on top of each stem and smaller trusses are set down the branches, so that the entire plant forms one large bouquet. Blooms again in the fall. 2 to 3 ft. \$1.00 each, 3 for \$2.50.

White Flowering Dogwood

A lovely tree glorious with its abundance of white flowers in May. In autumn the clean, attractive foliage is changed into bright reds and scarlets. Also each autumn the tree is filled with clusters of brilliant red fruits. This worthwhile valuable tree grows readily and lends enchantment to any setting. 4 to 5 ft. \$1.00 each, 3 for \$2.50; 6 to 8 ft. \$1.50 each, 3 for \$4.00.

Red Flowering Dogwood

A magnificent sight when in full bloom with its many pink to red flowers. Thousands of large rose-red blooms appear before the foliage in early spring creating a most warm and cheerful array of brilliance. Can be planted as specimens or in groups. 2 to 3 ft. \$1.25 each, 3 for \$3.25, 10 for \$10.00.

Camellia Flowered Dogwood

(**Cornus Florida Flora Plena.**) Flowers double white, not unlike the Camellia, and just as freely produced as the common single Dogwood. 18 in. plants \$1.25 each.

Viburnum Burkwoodi

The Gardenia Scented Snowball. An improved Carlesi with deliciously fragrant, waxy pink flowers produced in early spring. Of compact bushy habit attaining a height of 4 feet and spreading to a width of from 5 to 6 feet. A real aristocrat for the small garden. 18 to 24 in. \$1.75 each, 3 for \$5.00.

Viburnum Carlesi (Fragrant Snowball)

Fragrant Viburnum. The fragrant rare Korean Viburnum. Salver-shaped flowers of a delicate rose-tinted white, passing to clear white. Terminal heads 2 to 3 inches across in May. 18 in. plants \$1.25 each.

Camellias

One of the most magnificent flowering house-plants. Also good for outdoor gardens from Norfolk, Va. southward. We have them in red, white and pink. Strong pot plants 90c each. One of each color for \$2.50.

Paul's Scarlet Thorn

Sometimes called the **Flaming Fire Tree.** The most brilliant of all flowering trees filled with thousands of double blazing scarlet-red flowers creating a magnificent and inspiring burst of color. Handsome foliage and red fruits of great beauty. 4 to 5 ft. \$1.50 each.

Pyramidal European Beech

A pyramidal form of the English Beech. Good for hedges or places where a very narrow tree is wanted. 2 to 3 ft. \$2.00 each, 3 for \$5.50.

Fall Blooming Iris

With these new Irises we now have the most gorgeous colors in the fall months. You should have some of these new varieties for your fall blooming garden. 25c each, 3 for 65c, 12 for \$2.25, 100 for \$15.00.

Eleanor Roosevelt. A deep velvety red-violet self. **Jean Siret.** Rich, deep yellow often striped with purple. **Lieut Chavagnac.** A brilliant purple that blooms persistently throughout the season.

Japanese Iris (Iris Kaempferi)

Last of the wonderful Iris procession to bloom excepting the Fall Blooming kinds. Same price as Fall Blooming. **Gold Bound.** Double pure white with golden center. **Purple and Gold.** Double, enormous flowers of rich violet-purple with white petaloids.

Golden Muscat Grape

Probably the finest grape that can be grown in the eastern part of the United States. The New York Experiment Station says of it: "Golden Muscat possesses the rich golden color of Diamond and the fine Muscat aroma of the European Muscat." For home use and the roadside market it is one of the best. The vine is vigorous, productive; the clusters are very large, tapering, single shouldered and compact; the berries are large, oval, juicy, tender, sweet, vinous, aromatic; season after Concord. Fine No. 1 vines: \$1.00 each, 6 for \$5.00.

Vitex Agnus Castus (Lilac Chaste Tree)

A graceful shrub with attractive spikes of lovely pale violet flowers. Blooms profusely in late summer. It is a most desirable late summer flowering shrub of distinctive appearance. Its form and foliage as well as the flowers are most unusual. 2 to 3 ft. 75c each, 3 for \$2.00.

Rainbow Mixture Tulips

This mixture is carefully blended and contains a great number of varieties. You will enjoy the riot of color these bulbs will produce for you in your garden next spring. Good for both bedding and cutting. 25 for \$1.75, 100 for \$6.00, 1000 for \$45.00.

If you want named varieties tell us the varieties and how many you want and we will quote you prices.

Blue Leaved Honeysuckle

This is one of our most useful shrubs. Growing from 8 to 12 feet high, may be used in the shrubbery border where its blue-green foliage makes a very pleasing contrast. In addition, we have found it to bloom heavier than any other variety, and the flower sprays held well above the foliage. Blossoms deep pink but not fragrant. 18 to 24 in. 50c each, 3 for \$1.25.

Cranberries

One of the most ornamental spreading plants in our nursery is the little Cranberry plant. If you have a low place that you have had difficulty in getting a plant to "fit in" get some Cranberries. They are easy to grow and produce an abundant supply of the well known Cranberries. 50c each, 3 for \$1.25.

Malus Eleyi (Red Crab)

This is a purple-leaved, vigorous growing Crab Apple of recent introduction from England. Extra large flowers of a deep rose or red color. This is a distinctly valuable Flowering Crab with red foliage as well as large attractive red fruits which make delicious jelly and preserves. 2 to 3 ft. 60c each; 3 to 4 ft. 75c each; 5 to 6 ft. \$1.25.

Malus Ioensis Plena (Bechtel's Crab)

A fine, small flowering tree which, when in bloom, presents the appearance of being covered with delicate pink roses, scenting the atmosphere for a long distance with a fragrance surpassing the rose. 2 to 3 ft. 60c each.

Malus Sargentii (Sargent's Crab)

A dwarf spreading Oriental variety. Flowers of purest white, with bright yellow anthers and scarlet fruit hanging till spring. 2 to 3 ft. 75c each; 3 to 4 ft. \$1.00 each.

Fragrant Snowbell (Styrax Obassi)

This rare Japanese plant has flowers of purest white, arranged in racemes 4 to 6 inches long, and blossoming early in June; anthers are clear yellow. The bold foliage (leaves are 5 to 6 inches long, and nearly as broad), dark green above and silver green beneath, alone makes this an outstanding novelty in any garden or shrub border; but its pendant-like flowers make it indispensable. Grows into a shapely specimen, as high as 18 feet in Boston, where it is absolutely hardy. 6 to 8 ft. \$3.00 each, 3 for \$8.25.

Clematis Large Flowering

These large-flowering varieties probably produce the finest blooms of any of the vines. They require well limed light soil. The following are a special selection of varieties: **Duchess of Edinburgh**, very large, double, pure white, fragrant flowers. **Jackmani** is probably the best known. Fine violet-purple flowers. **Mme. Edouard Andre** is a very fine reddish-purple. **Ramona** has lavender-blue flowers in August and September. Pot plants 50c each, one of each variety for \$1.75.

European Mountain Ash

One of our most attractive of semi-dwarf trees. Fast growing when young but matures into a broad headed semi-dwarf ornamental tree filled each autumn with gorgeous clusters of fiery orange fruits. 4 to 6 ft. \$1.15 each; 6 to 8 ft. \$1.50 each.

Enkianthus Campanulatus

This charming Oriental should be in every garden. Masses of bell-shaped flowers, yellowish or pale orange, veined darker red on pendulous stalks in May. One of the handsomest ericaceous plants; foliage turns brilliant red in autumn. Grows 8 to 10 feet tall. 18 to 24 in. \$1.00 each; 2 to 3 ft. \$1.50 each.

Weeping Willow

A stately avenue tree of rapid growth with glossy pear-shaped leaves that seem to shimmer in the sunlight. Excellent for group planting along driveways or boundary lines or as tall screen hedges. 5 to 6 ft. 75c each, 3 for \$2.00, 10 for \$6.00.

Winter Blooming Witchhazel

Be the first in your neighborhood to enjoy the dainty yellow flowers of Witch Hazel in mid-winter. They are not injured even if the temperature goes down to zero. The flowers appearing along very graceful branches make a lovely winter bouquet. 18 to 24 in. 35c each, 3 for \$1.00; 2 to 3 ft. 65c each, 3 for \$1.75.

Everblooming Red Weigela

A very lovely shrub is Eva Rathke Weigela covered with deep carmine-red blossoms in Spring and continuing to bloom all season. A semi-dwarf, erect growing variety. 2 to 3 ft. 60c each, 3 for \$1.50.

Hardy Chrysanthemums

Here is one of the biggest flower bargains in this entire list. We have several of the newer varieties of Hardy Chrysanthemums in too small lots to offer separately, and will send 12 plants from this collection for \$1.25. This is less than one-half of the usual price. Will label them too, if you wish us to. Remember one dozen plants for only \$1.25. Truly a bargain.

Nut Trees

Large Fruiting Black Walnut

Our large fruiting black walnuts are our own strain grown on one of our farms. They yield an abundance of large meaty nuts. 2 to 3 ft. 30c each, 3 for 65c, 12 for \$1.50, 100 for 10.00.

Heart Nut (Juglans Cordiformis)

Fascinating ornamental trees that bear in 3 years heart-shaped nuts in large grape-like clusters. Heart Nut is noted for its superb flavored white meats that crack out in halves. The broad tropical appearing trees are extremely hardy, fast growing and high yielding. 2 ft. trees 60c each, 3 for \$1.50.

Chinese Walnut

Has stood several degrees below zero without injury; begins to bear when 3 years old. The nuts are large, good to eat and are borne in clusters of 10 to 20. They resemble English Walnuts in size, shape and flavor. 2 ft. size 50c each, 3 for \$1.25, 12 for \$3.00.

American Butternut

Often called White Walnut; good for eating and cooking because of its fine flavor. This beautiful fast growing hardy tree is valuable for timber and made as well as for its nuts. The nuts are shaped like a pecan and do not have to be hulled for winter storing. 18 in. trees 25c each, 3 for 60c, 12 for \$1.85, 100 for \$10.00.

Hardy Pecan

Grown from Stuart seed. Hardy and sturdy as an oak. A splendid and beautiful rapid growing shade tree that will reward you with bushels of fine quality nuts. The kernels are plump and of finest quality. Nuts are large and easy to crack. 6 to 12 in. seedlings 3 for 50c, 10 for \$1.25, 100 for \$10.00.

Magic Lily (Amaryllis Halli)

It pops out of the ground like magic. A hardy Amaryllis that will withstand 30 degrees below zero. This sensation of the flower world comes up in spring and grows until about first of July, it then dies down, and again in August it pops right up and in a few days you have clusters of from 5 to 12 immense wine-red flowers overcast with soft rose on 18 inch stems. Blooms each fall and is easily grown. \$1.00 each, 3 for \$2.50.

Hansen's Bush Cherry

Ideal for flowering hedge, single specimen or groups from which you can pick loads of fruit. Well-shaped bushes are completely covered with large, white, fragrant flowers in early spring. Leaves are a beautiful silvery-green, turning to rich red and gold in the fall. Fruit resembles a plum in shape, and is borne in clusters that at times nearly cover the limbs. Good to eat from the bush, fine for sauce, makes wonderful rich flavored, dark purple jam. 2 to 3 ft. 50c each, 10 for \$4.00, 100 for \$35.00.

Magnolia Waterlily

This new Magnolia was named "Waterlily" on account of its resemblance to a waterlily and its sweet fragrance. Bushy and twiggy somewhat like Stellata but growth more like Soulangeana. Bears a great profusion of flowers a little later than Stellata. Flowers are well placed on ends of branchlets measuring from 4 1/2 to 6 inches across, consisting of three to five layers of petals averaging from 20 to 32 to a flower. Flowers are bluish-pink, buds flesh-pink, fading to white. Has proven very popular whenever seen. 18 to 24 in. \$2.50 each.

Salix Nana Purpurea (Dwarf Willow)

Dwarf Blue-Leaf Arctic Willow. Discovered north of the Arctic Circle. A charming low-growing Willow exceedingly suitable for edgings. Grows most anywhere even in wet or heavy soils where other plants perish. It is able to withstand the lowest temperatures encountered in this country, is of easy culture. Just the plant for low edgings around beds or along walks in difficult soils or locations. The foliage is a lovely gray-blue-green. Can be clipped for formal effects or left natural as desired. Should be planted about 8 inches apart. May also be grown as single specimens in the rock garden. Each 30c, \$2.75 per doz., \$15.00 per 100.

Day Lily (Hemerocallis)

There are few plants easier to grow than the Day-Lily, and few give more generous return. It will grow almost anywhere, requires hardly any attention and the majority of varieties are sweet scented. We will furnish any of the following varieties at 20c each, 3 for 50c, 12 for \$1.75. Other varieties are offered in our catalog.

Amaryllis, golden orange. **Apricot**, apricot to orange. **Bay State**, deep yellow, 4 ft., July. **Goldrust**, golden yellow, low, early. **Golden**, deep orange, tall, July. **J. R. Mann**, buff and yellow. **June-August**. **Lemona**, pale lemon-yellow, July. **Mrs. W. H. Wyman**, pale glistening yellow. **Olif**, true yellow. **The Gem**, deep orange-yellow, June-July. **Thunbergi**, lemon-yellow, July-August.

Mammoth Boysenberry

Another wonderful new berry which is becoming very popular. Produces huge fruits like Blackberries in appearance but frequently measuring 2 inches in length. The berries are borne abundantly and are a delight to the palate whether eaten fresh, canned, or in jellies or pies. Should be grown the same as grape vines by training to stakes and wires. 15c each, 10 for \$1.25, 25 for \$2.50, 100 for \$8.00.

Victory Mixture Narcissus

This mixture offered by us is made up from named varieties and should, therefore not be confused with other mixtures being offered at a lower price. These varieties are especially adapted for naturalizing and will give an abundant flower crop for a long period, increasing rapidly. 25 bulbs for \$1.50, 100 for \$5.00, 1000 for \$42.50.

If you want separately named varieties and will let us have a list of varieties and quantities wanted we will gladly quote you prices.

Hardy Rhododendron

We are here offering 4 varieties in white, red, light pink and dark pink. These are just about the cream of the longer list we offer in our regular catalog. These plants are being offered in the 12 to 15 inch size which is low in price, easy to handle and will soon grow into nice specimen plants if properly cared for. The price is \$1.50 each or we will send you one of each of the four varieties described below for only \$5.00.

CATAWBIENSE ALBUM. A pure white of good compact habit. Produces an abundance of buds.

DR. H. C. DRESSELHUYTS. A popular analine red that is easily grown. Very large flower.

MRS. C. S. SARGENT. A deep rose-pink of compact habit. Splendid for mass planting.

ROSEUM ELEGANS. An abundance of lavender-pink flowers. Easy to grow; heavy budder; compact.

Rainbow Azaleas

We consider the following Azaleas the best of the standard varieties in their color. They are all easy to grow and hardy to about zero weather without any special protection. Prices of each of the following varieties in the popular 8 to 10 inch size is \$1.00 each, 3 for \$2.65, 10 for \$7.50, 100 for \$65.00. Varieties may be assorted as you wish.

Hinodegiri. Flowers brilliant scarlet, foliage deep green. The flowers are produced so profuse as to completely cover the plant. **Bridesmaid**. Glowing salmon-pink flowers produced in large clusters. Small glossy green foliage. **Ledifolia Alba**. Very large white flowers, good grower and profuse bloomer. **Poukhanensis**. The rose-pink to rose-purple, fragrant flowers are produced abundantly in early spring. Deciduous, low spreading habit. Hardy in New England. Many others listed in our catalog.

Gable's Hardy Azaleas

A new race of Azaleas bred for their hardiness in sections where most other evergreen varieties are not hardy. These plants are evergreen good bloomers and good growers. Only a few have been named. We have a large collection and offer them in assortment, 8 to 12 inches tall at \$1.00 each, 10 for \$8.50, 100 for \$75.00.

White Gayfeather (Liatris)

Here is a new variety in the ever popular Blazing Star—a pure white. Graceful tall spikes with white fuzzy flowers during August and September. 35c each.

We also have the rich purple variety at 3 for 60c.

Old English Boxwood

Possibly no other evergreen shrub has been so much used for marking boundaries of formal gardens, to outline flower beds, for low hedges, and for other ornamental purposes. This is the kind you will find in the formal gardens at Mt. Vernon (Washington's home). We only have the 4 to 6 inch size to offer this season at 25c each, 3 for 60c, 12 for \$1.75, 100 for \$12.50.

White Bouquet Buddleia

White Bouquet so quickly caught the public fancy, its introduction has met with amazing response. Long, fragrant, glistening white, all-out-at-once-spikes all summer and fall, on graceful, medium-sized bush that seldom exceeds 5 or 6 ft. in height, generally lower. Habit of growth similar to the well known Ile de France. White Bouquet blooms continuously and profusely; the long lasting flowers are unsurpassed for cutting. Very hardy. Flourishes in most any soil and climate. 75c each.

Pink Bouquet Pyrethrum

Here's a pert double Painted Daisy, one of the finest of those wonderful early summer flowers that have become so popular in recent years, with five to eight 4-inch blooms on a single stem. The outer petals are a deep rosy pink while the interesting centers have white masses of shorter petals. Unlike most Pyrethrums, the petals stand straight out and the stems upright in all weather. Stems 30 in. 65c each; 3 for \$1.75, 12 for \$6.50.

Double Russian Violet

Exquisite, double, old-fashioned Violet with unusually sweet fragrance. Hardy anywhere. Produces abundance of lovely flowers. Excellent for semi-shady places. Blooms May to October. 3 for \$1.10, 12 for \$4.00.

We also have the very large, violet-blue, sweet scented **Prince of Wales Violet** at 25c each, 3 for 60c.

Aunt Mary's Sweet Corn

We do not think any offering of ours would be complete without Aunt Mary's Sweet Corn. The more we sell of it, the more we are convinced that it is really **The Sweet Corn Supreme**. Purchasers of it make us believe it is truly the best sweet corn of them all. It is of most delicious flavor and keeps a long time before becoming too hard to use. In fact it requires special treating to cure it for seed purposes, hence the higher cost per packet. Aunt Mary's corn, by its excellent quality, sweetness, and flavor makes a stronger appeal to the corn loving public than most any other variety and that appeal continues long after you are tired of other sweet corns. **Price 35c per packet, 3 for \$1.00, postpaid.** If after growing this wonderful sweet corn you are not entirely satisfied we will refund every cent you paid us for it. That's fair is it not.

Euonymus Newport

Two years ago on a trip in New England States I found a Euonymus that attracted my attention from away off. It was the day before Thanksgiving and it seemed to have all of the autumn colors combined in each little plant—simply a row of fire and live coals. I bought a few plants and we now have a few to offer. It apparently grows to about 15 inches high with many stems, making a compact, bushy little plant. Foliage stays green until colored by frost. 8 to 10 inch plants 40c each, 3 for \$1.00, 12 for \$3.50.

Norway Maple

If you need several shade trees and prefer the Norway Maple and think the price is more than you want to pay for large trees why not send us 75c each for 3 or as many more as you may want of our 6 to 8 ft. size, and grow them on yourself. Really a bargain.

American Holly

Our 2 to 3 ft. plants are a wonderful bargain at 50c each, 6 for \$2.50, 25 for \$9.00, 100 for \$32.50. At this price they are carefully packed in damp moss so as to reach you in good condition. Just the very thing for hedges and growing on for specimen trees. They are grown from seed and some of them will bear berries and some will not. If you want them all to bear berries we suggest you get the variety Arden—a female variety, which will bear berries if you have a male plant nearby to fertilize the pollen. We have these pot grown 12 to 18 inches tall at 75c each, 3 for \$2.00, 25 for \$12.50, 100 for \$45.00. Our catalog lists many other varieties.

Pfitzer's Juniper

One could almost call this an ideal dwarf evergreen plant. Feathery foliage of a light gray-green color, naturally developing a low, spreading form broad and picturesque. We do not believe any evergreen can produce a better effect of refinement and good taste on the lawn than does this very hardy and very beautiful Juniper. 12 to 15 in. 50c each, 3 for \$1.35.

Tree Peonies

Because of their novelty and great beauty the Tree Peonies are rapidly becoming one of the most desired plants. They bloom earlier than ordinary Chinese Peonies and their flowers are of immense size. Note our low price for these plants. These plants are established in pots and can be moved safely at any time.

Archiduc Ludovico. Enormous flower, flesh-pink, turning soft lilac; free flowering. \$2.00 each.
Banksii. Semi-double; pale lilac; very free blooming. \$2.00 each.

Baronne D'Ales. Very large imbricated bloom of vivid salmon-pink; deeper in center. \$3.20 each.

Chromatella. Perfect double pure sulphur yellow flowers, without any shade of salmon or buff. \$19.00 each.

Lactea. Pure white, blotched carmine; a splendid double flower. \$2.50 each.

Mme. de Vetry. Very large globular bloom; satiny-pink shaded lilac; vigorous and prolific. \$3.20 each.

Reine Elizabeth. Large perfect double flower of vivid salmon-rose. \$2.50 each.

Satin Rouge. Blood-orange. An altogether new color in Tree Peonies. Blooms late. \$15.00 each.

Souv. de Maxime Cornu. Crowded and wrinkled petals of a deep yellow, heavily shaded orange-salmon; fragrant. \$6.00 each.

Surprise. Irregular petals of a color mixed of straw yellow, salmon and rosy-purple; fragrant. \$7.50 each.

Iris Dichotoma (Vesper Iris)

Blossoms only in afternoon and in August. Very different from other Iris, grows to 3 feet high. The slender leaves in a spreading fan and the flowers produced in tall sprays. The fragrant flowers are like jewels in their amethyst lavender coloring, streaked with rich brown. Likes full sun. 35c each, 3 for \$1.00.

Hardy Native Orchid

The large showy flowers of *Cypripedium Acaule* are produced on 6 to 12 inch stems. Flowers pink, one to four to a plant; especially suitable for planting in semi-shade positions in the rocky, around the pool, in borders and along streams. 30c each, 3 for 75c.

Cardinal Flower (Lobelia Cardinalis)

This is by all means the brightest colored of all our native plants. Growing as it does, along the edges of banks and streams, it is particularly effective in these places; it grows equally as well in dry situations. It flowers in late August and through September, two feet or more in height with upright stems topped with bright cardinal red. An eye-taker. 25c each, 3 for 65c.

Weeping White Dogwood

This is a very beautiful tree for the lawn or border. The long, graceful twigs hang down making a marvelous showing at any time of the year, especially when in bloom. Its reddish-brown branches also are very attractive in winter. 2 to 2½ ft. trees \$2.00 each.

Dwarf Irish Juniper

Here is a little beauty. A real compact growing, miniature Irish Juniper, grows about one-third as fast. Just the thing for a dwarf border; can be kept real low with a little shearing. A glistening blue-green color. 8 to 10 in. compact plants 50c each, 10 for \$4.50.

Weeping Flowering Crab

Here is a very unique and ornamental flowering Crab Apple. Loads of apples about the size of a hickory nut or nutmeg, bright red in color, too tart to eat raw but makes the most delicious jelly, hang from graceful drooping branches; carmine red blossoms. Nice 6 to 8 ft. trees \$2.50 each. Can furnish single stem trees or with two or more stems. Mention which type preferred.

Multiple Fruit Trees

ONE OF THE GREATEST NOVELTIES OFFERED
GARDEN LOVERS IN RECENT YEARS

Pick several varieties of fruit from one tree. Especially developed for the small garden where space is limited. Requires only about a 25-foot space.

Delicious tree-ripened fruit is most healthful, and every one with only a small garden can find room for one or more of these marvelous many-fruited trees. Your neighbors will be amazed and you will have a lot of fruit and enjoyment for a small investment.

Prices of the following Multiple Fruit Trees: \$1.50 each, \$13.50 per 10. One of each tree for \$8.00.

Only the varieties listed can be furnished on a tree.

"Five-In-One" Apple Trees

Apples to suit every taste and for every purpose.

Instead of having an apple tree that bears only one variety of fruit all at one time, plant one of these **One-Tree Orchards**, and pick fresh tree ripened fruit all summer and fall—all you want of them.

Double Red Delicious—The fine red eating apple.

Yellow Delicious—A yellow form of above.

Red Rome Beauty—A superior late red cooking apple.

Yellow Transparent—The early summer apple.

Stayman's Winesap—A delicious all-purpose late apple.

"Five-In-One" Peach Trees

Five of the finest peaches grown on one tree.

J. H. Hale—Large, yellow freestone, ripens midseason.

Elberta—Probably the best midseason canning peach.

Golden Jubilee—The supreme early yellow peach.

Red Bird—The very early white clingstone peach.

Belle of Georgia—The best all-around white peach.

"Five-In-One" Pear Trees

Five of the finest pears that grow, early and late.

Bartlett—Large, rich golden-yellow, early, very rich.

Kieffer—Most popular late canning pear.

Gauby—Clear yellow. Unsurpassed for preserves.

Early Harvest—An early ripening pear.

Koonce—One of the earliest, delightful flavor.

"Five-In-One" Plum Trees

Plums are almost entirely free from disease and easy to grow most anywhere.

Five of the finest and most delicious of all plums.

Abundance—Early, large, lemon-yellow, productive.

Burbank—Large, cherry-red, high quality, midseason.

Bradshaw—Excellent flavor, desirable for canning.

Red June—Very early, medium size, deep vermilion-red.

Wickson—Late, very large, flesh firm, meaty, yellow.

"Five-In-One" Cherry Trees

Five of the very best cherries, all on one tree.

Who does not like cherry pie? Now you can have them fresh fruit right off your own tree occupying just a little space, for a very long season.

Black Tartarian—Very large, early, sweet, heavy bearer.

Early Richmond—Unsurpassed for cooking purposes.

Monimercy—A late cooking variety. Good quality.

Governor Wood—Large, light yellow, sweet flavor.

Yellow Spanish—Yellow, sweet, large, midseason.

"Peach-Plum-Apricot-In-One" Trees

Three entirely different fruits on one tree.

It sounds unbelievable to have three entirely different kinds of fruit on one tree and it will certainly prove a sensation among your neighbors.

Hale-Haven Peach—The great peach of all time.

Burbank Plum—One of the most delicious of all plums.

Superb Apricot—The finest apricot produced to date.

Asparagus

MARY WASHINGTON. This is generally recognized by the leading growers as being the best variety of Asparagus grown. It starts earlier, produces more and larger stalks of extra quality than any other variety; is highly rust resistant and has proven by test to be best for home or commercial plantings. 2 yr. heavy plants, 25 for 75c, 100 for \$2.00, 1000 for \$15.00. Prices of one-year size on request. Special prices on large lots.

Raspberries

If you grow more Raspberries than you need for your own family use you can usually get good prices for them in your local market. Plant a few extra plants and see how readily they sell for good prices. Strong plants 10 for \$1.00, 100 for \$7.50.

Sodus Purple. A cross between a Red and Black Raspberry. Heaviest yielding and the most promising new large purple Raspberry. Good quality fruit.

Newburgh. A new red variety, vigorous grower, very productive, fruit large and firm, good keeper.

St. Regis. Ripens with the earliest and continues on young canes until autumn. Red, flesh firm and meaty.

Oakington Ruby Rose

A new dwarf rose, growing about 12 inches tall. Its double flowers are deep crimson in bud and open to a rich ruby-carmine, which is maintained until the petals fall. Hardy, not fussy about soil, and blooms all summer. Field grown 2 yr. plants 50c each, 12 for \$5.00.

Jumbo Fruit Trees

Bear Early

SAVE TWO TO THREE YEARS BY
PLANTING JUMBO FRUIT TREES

Carefully Selected Specimen Trees

Time is money, therefore, for the additional expense of a few cents per tree you can plant Jumbo size fruit trees and eat the fruit from them surprisingly soon after planting. The Super-Size fruit trees, being especially grown as Jumbo Trees, are the strongest growers. They are exceedingly vigorous, very hardy, and produce tremendous crops of fruit. These are ideal trees for the home garden.

YOUR SELECTION — Can be assorted varieties of Apples, Peaches, Pears, Plums, Sweet Cherries, Sour Cherries and Nectarines, consisting of only the varieties as listed below.

Jumbo size, 6 to 8 ft., heavily branched—\$1.25 each, 3 for \$3.50, 6 for \$6.50, 12 for \$11.00.

Varieties are listed in their order of ripening.

APPLES—Yellow Transparent, Early McIntosh, Maiden's Blush, McIntosh—Red, Delicious, Jonathan, Grimes Golden, Northwestern Greening, Smokehouse, Yellow Delicious, Stayman Winesap, Baldwin, York Imperial, Mammoth Black Twig, Cortland, Rome Beauty, Rhode Island Greening, Twenty Ounce, Winter Banana, Northern Spy, Winesap.

CRAB APPLES—Transcendent, Hyslop.

PEACHES—Oriole, June Elberta, Marigold, Early Hiley, Rochester, Hale-Haven, Valiant, Belle of Georgia, Elberta, Crawford Late, Brackett.

PEARS—Clapp's Favorite, Bartlett, Sheldon, Kieffer.

PLUMS—Red June, Abundance, Burbank, Bradshaw, Lombard, Stanley, Italian Prune, Blue Damson, Shropshire Damson.

SWEET CHERRIES—Black Tartarian, Yellow Spanish, Napoleon (Royal Ann).

SOUR CHERRIES—May Duke, Early Richmond, Montmorency.

NECTARINES—Sure Crop.

A GUARANTEE ON JUMBO TREES

You take no chance when you buy Jumbo trees from Tingle. If they are not satisfactory your money will be cheerfully refunded, provided they are properly packed and returned within 24 hours after receipt of same.

Other Fruit Trees

Besides our Jumbo fruit trees, we can furnish a very good selection. Description and prices will be found in our catalog, a copy of which will be sent you on request if you do not already have one.

Caco Grape

This is a variety considered the best and hardest amber-red ever produced, the bunches being very large and the berries also large. In quality Caco ranks among the best of the native groups, approaching in flavor European Muscat rather than foxiness of native grapes. Two-year size plants 50c each, 3 for \$1.25, 10 for \$4.00.

Brunswick Fig

A medium sized, light brown, short necked Fig. The fine grained sweet, brownish-amber flesh is delicious. The tree is smaller and will stand more cold than other varieties. It is, therefore, adapted to a wide range of territory, including sections where other varieties will not thrive. Nice 2-yr. plants \$1.00 each, 3 for \$2.50.

Orange Quince

Sought after for canning, preserving and for jellies. It gives a delicious flavor to the Apple when cooked with it. Nice trees \$1.00 each, 3 for \$2.75.

Read Before Sending Order

All transportation charges are to be paid by purchaser.

We use every precaution to have our stock true to name, but in case any should prove otherwise we will replace it or refund the amount paid, but in no case will we be responsible for any sum greater than that paid us for the stock. We intend to send out only first class stock that should live and grow if given proper attention after you receive it. **We cannot, and do not, guarantee it to grow,** as climatic and soil conditions may be such that the plant just cannot grow. However, if the plant does not grow and you want another one we will furnish it on payment by you of one-half the original price you paid us for the plant. Further than this we can make no replacement guarantee.

Grow Your Own BLUEBERRIES

Pick Them Fresh Off The Bush

Cultivated Blueberries are hardy shrubs of rare beauty; they are doubly valuable because they are fruitful and ornamental throughout the entire year. Just loads of delicious berries.

Every home garden, no matter how small, has room for at least a few of these Blueberry plants. It takes only a few plants to produce all the berries an ordinary size family will need. As a commercial proposition it is one of the most profitable fruits to grow. There is a big market for these delicious Blueberries; they make good money in a very short time, you can begin picking the second or third season after planting. They grow in big clusters, see actual photograph of a four-year old plant at right, producing 3000 to 5000 quarts per acre, are easy to harvest, thornless. Plants last a very long time.

Blueberries are also ornamental shrubs of rare beauty. They may well be used in association with their close relatives, Laurel and Rhododendron. In pleasant contrast to the rich evergreen masses of the latter, Blueberries give lightness grace and color. Plant them in rows, in clumps on the lawn or in the shrubbery border. A hedge of Blueberries is both profitable and ornamental, a delight to look upon and to care for.

Choose a moist piece of ground easily supplied with moisture during dry summer months—it should not at any time become water-logged. Plant in full sun if possible; they will also do well in partial shade. Be sure the soil is acid. Cultivate shallow, not over 2 or 3 inches deep, so as to leave the roots undisturbed. We will send full instructions for preparing the soil, taking care of the plants, mulching, etc., on request.

We want you to again look at the above plant. See how full of fruit it is, then look how large the berries are in the basket, then use your imagination to picture these bushes in your own yard or field full of these berries.

Description of Varieties

BURLINGTON. This is the newest variety named. Berries are excellent flavor, very large size and quite uniform. An unusually good keeper. Bush is medium high and crops heavily, and later in the season than other late varieties. Add 10c per plant additional for plants of this variety.

CABOT. The earliest variety named. Plants seldom exceed three feet in height and make a broad low bush. The color of the new growth in winter is a light red over olive. The large berries have a delicious sub-acid flavor.

CONCORD. The bush is of upright habit and at maturity exceeds six feet in height. The young growth is bright red in winter. The berries are large, frequently reaching three-quarters of an inch in diameter. They usually ripen a few days earlier than Rubel and are fine in flavor and appearance.

JERSEY. The bush is of vigorous habit and grows very large. The winter color of the young growth is a light red over golden brown. The berries are among the very largest, light blue, and ripen about the same time as Rubel.

RANCOCAS. The bush of slender, vigorous, upright habit rarely surpasses five feet in height. The winter twigs are a dark red. The berries are somewhat larger than those of Rubel and begin to ripen several days later.

RUBEL. A vigorous, productive variety. Well developed bushes stand six feet high and the winter color of the young wood is a rich red. The large berries of fine color are usually ready to pick the first week in July.

Prices of Blueberry Plants	Each	10	100
6 to 12 in., 2 yr.	\$0.50	\$4.00	\$35.00
12 to 18 in., 2 yr.	.65	5.00	45.00
18 to 24 in., 3 yr.	1.00	8.00	70.00
2 to 3 ft., 4 yr. Bearing size.	1.50	12.50	110.00

Order at least three varieties for pollination purposes. We will gladly suggest varieties suited to your needs if you will tell us how many and for what purpose they are wanted.
