BULBS AND SEEDS

—FOR—

FALL PLANTING.

WM. ELLIOTT & SONS,

Growers and Importers,

54 & 56 Dey Street,

NEW YORK.

NEARLY all bulbs herein offered are ready for delivery the second week in September. A few kinds are not matured sufficiently for shipment until November; these are so noted.

PLEASE NOTE.—All GENERAL ORDERS will be shipped as soon as received, and the NOVEMBER BULBS will be forwarded as soon as ready. Should you wish us to hold your general order until November bulbs are ready PLEASE SO STATE when ordering.

BULBS BY MAIL.—Do not neglect to add postage as indicated when bulbs are ordered by mail, otherwise we will be obliged to reduce the quantity sufficiently to cover cost of mailing; some few varieties are mailed free at single and dozen rates, but these are so noted. Large quantities go by express or freight, according to instructions.

REMITTANCES.—Remittances may be made AT OUR RISK by Bank Draft, Post Office Money Order, Express Order or Registered Letter. Small amounts may be sent by ordinary mail, and postage stamps can always be used by us to advantage (one and two cent denominations preferred).

Three Bargain Offers

OF

BULBS FOR HOUSE CULTURE.

To induce the public to give our bulbs a general trial, we have made up three collections for their benefit. Two for those who have only small space to devote to this class of flowers, and the third for such as have the opportunity to cultivate them on a larger scale. They are equal bargains and we could not afford to offer such low inducements were it not for the fact that we are large importers, thus obtaining the goods at first cost. The bulbs are first-class in every respect, and bound to give satisfaction in every way. These collections are gotten up expressly to advertise **ELLIOTT'S** bulbs, so get two of your friends to order with you and thus obtain your own collection free.

HYACINTHS

OUT-DOOR CULTURE.

The Hyacinth will grow well in any good garden soil, but light, rich soil will suit it best, and the bed should be well drained. Planting in the open ground can be done at any time from the beginning of October on until frost has rendered the soil impenetrable, but the best plan is to plant as soon after the first of October as practicable. Dig your beds thoroughly to the depth of 18 inches, and plant the bulbs from 6 to 8 inches apart and about 4 inches deep. A slight cover of dry litter or short manure may be placed on the beds after the first frost, and should be removed early in spring.

CULTURE IN POTS.

Hyacinths may be grown in pots from 4 to 6 inches in diameter. Fill the pots with a light, rich soil, and then press the bulb down into it, and press the soil down around the bulb, to finish the operation. If potted loosely, they will not thrive; if potted too firmly, they will rise up as soon as they begin to grow and be one-sided. After potting they should have a good watering, and be left a day or two until the surface of the soil begins to dry, when they should be placed in a cool, dark cellar. There they may remain for several weeks, to allow the roots to get a good start. If brought to the light gradually, and a few at a time, a succession of flowers may be kept up through the winter.

CULTURE IN GLASSES.

The culture of Hyacinths in glasses is exceedingly interesting, and the single varieties do remarkably well when grown in this manner. The water should merely be allowed to touch the base of the bulb, and the glasses should be placed at once in a dark, cool place, until the roots have nearly reached the bottom of the glass, when they may be brought to the light. The water should be changed occasionally.

Mixed Hyacinths—Best Quality.

These as a rule should not be used for culture in glasses unless the very strongest bulbs are selected. They will do well, however, in pots, and are the kind invariably used for outside culture. Our Hyacinths, mixed and in colors, are exceedingly fine this season; we can confidently recommend them as true to color and almost equal to the best named bulbs in quality.

MIXED SINGLE.

Dark Red, Rose, Red and Rose, all shades, Pure White, Blush White and Tints, Dark Blue and Violet, Light Blue, Blue, light and dark. 6c. each; 50c. per doz.; \$3.25 per 100.

Roman Hyacinths.

IMPROVED EARLY WHITE.

This beautiful and very valuable variety, if planted early in September and gently forced, will bloom in November, or its flowering may be retarded till Christmas by keeping it in a cool place. The flowers, which are smaller than those of the ordinary Hyacinth, are produced in great profusion, each bulb throwing up three or four spikes of delicately scented clear white blossoms. *Extra fine bulbs.*

Extra selected. Price 8c. each; 60c. per doz.; \$3.50 per 100.

ROSE OR PINK.

Flowers from two to three weeks later than the White Roman. Price, 5c. each; 40c. per doz.; \$2.25 per 100.

BLUE.

Similar to the above, of a pale blue color. Price, 5c. each; 30c. per doz.; \$2.25 per 100.

WHITE ITALIAN.

A good forcing variety, somewhat larger than the White Roman. Price, 5c. each; 50c. per doz.; \$2.50 per 100.

WHITE MOUNTAIN.

The best for forcing. Price, 6c. each; 50c. per doz.; \$3.00 per 100.

Add 10 cents per dozen if ordered by mail.

Miniature Hyacinths,

or

DUTCH ROMANS.

Pure White, Pink, Light Blue. 60c. per doz., postage paid.

TULIPS.

If ordered by mail add 5 cts. per dozen; 40 cts. per 100.

In beauty of form and brilliancy of color the Tulip casts all other spring flowers in the shade; nothing can equal its gorgeous appearance in beds, lines or groups in the spring garden.

For the ornamentation of the conservatory and sitting-room during the winter and spring months, the Tulip stands unrivalled, both as regards its rich and diversified colors, easy culture and accommodating habits. It will thrive in almost any soil or situation, and under almost any circumstances, so that its claim to universal cultivation is equal to the Hyacinth, Narcissus and Crocus.

For planting in the open ground, October and November are the best months; the bulbs should be planted from five to six inches apart, and from three to four inches deep.

When grown in pots they should be potted from three to five in a pot, the soil and treatment being the same as for Hyacinths.

EARLY SINGLE TULIPS.

We pay particular attention to this important class, and the varieties named below include some of the finest in existence. Those marked (+) bloom simultaneously, about twelve days later than the Duc Van Thol varieties.

The figures prefixed indicate the height in inches of each variety.

PRIZE TULIPS. (*See Frontispiece.*)

The three Tulips represented on our cover may be considered to be among the very best single early varieties known. Indeed, they have all the excellent qualities which a really good Single Early Tulip should possess.

Proserpine is of much more recent date than the others; endowed with a rich dark rose in color and a magnificent flower. **Keizerskroon** (Crown Imperial), with its yellow margin of gold is exceedingly showy. **Vermilion Brilliant** is of a glossy bright vermilion, exceedingly showy.

DOUBLE TULIPS.

This very useful and beautiful class, while not equal to the single in brilliancy, lasts much longer in bloom. The earlier varieties, such as Duc Van Thol, Tournesol and Murillo, are excellent for forcing. Many of the other varieties make a fine display when grown in pots, but they require to be forced slowly. The latter sorts, such as La Candeur, Rex Rubrorum, Yellow Rose, etc., are very effective in beds or borders, producing dense masses of bloom of most brilliant colors, which remain in perfection a long time.

TULIP SCARLET GESNERIANA.

Scarlet Gesneriana, the tallest, largest flowered and showiest of all tulips for bedding out in masses; it deserves to be largely grown. 5c. each; 20c. per doz.; \$1.50 per 100.

Darwin Tulips belong to the late flowering section, are destined to be extensively grown for bedding or massing purposes. The flowers are very large, of symmetrical form, and are borne on tall, strong stems, often two feet high. They by far surpass in colors and brilliancy anything before known in tulips. 5c. each; 50c. per doz.; \$3.00 per 100.

Add 5 cents per doz.; 40 cents per 100 if to go by mail.

PARROT TULIP.

- Scoticus.** Elegant flower, perianth white, trumpet full yellow. 5c. each; 35c. per doz.; \$2.25 per 100.

WHITE AND SULPHUR TRUMPETS.

- Albicans.** Beautiful milk white trumpet daffodils. 10c. each; \$1.00 per doz.
- Pallidus Præcox.** One of the most beautiful, perianth and trumpet delicate sulphur. 5c. each; 50c. per doz.; \$3.00 per 100.

All the Trumpet Daffodils are valuable for pot culture. They are as easily grown as the Hyacinth and should be given the same treatment. Plant three roots in a 3 or 4 inch pot.

Narcissus or Daffodils.

THESE charming, graceful flowers have had a great revival of popularity in the last few years, and are now prime favorites for early blooming in the garden, and are largely forced by florists for winter flowers. They are bright and hardy (except the Polyanthus sorts) and nearly all are most deliciously fragrant; no flower better deserves its popularity. Of easy culture, they are equally satisfactory for potting and for the open bed and borders, where their rush-like glaucous foliage and white and yellow flowers are very much admired. For their cultivation the soil should be well-loosened so that the roots have perfect freedom in their growth. The planting of bulbs should be deep, and about five to ten inches apart.

After the foliage dies down in the summer, the bulbs should be lifted and replanted in September or October in a different place in the garden; in this way they will thrive and increase from year to year. Every one should have at least a few of these charming plants.

For house culture plant several bulbs together in a pot and keep in a cool room, give plenty of light and water and they will bloom in February to April. The Polyanthus varieties are earliest and best adapted to house culture but all will do well in pots if not kept too warm and forced too rapidly.

If desired by mail, add at the rate of 10 cents per dozen to cover postage. Single bulbs mailed free at prices given.

CHINESE SACRED LILY.

THE CHINESE SACRED LILY, or Oriental Narcissus. (Chinese Grown.)

A variety of Polyanthus Narcissus, bearing in lavish profusion, chaste flowers of silvery white with golden yellow cups; they are of exquisite beauty and entrancing perfume. It is grown by the Chinese according to their ancient custom, to herald the advent of their new year, and as a symbol of good luck.

The bulbs are grown by a method known only to themselves, whereby they attain great size and vitality, ensuring luxuriant growth and immense spikes of flowers; in fact, the incredibly short time required to bring the bulbs into bloom (four to six weeks after planting), is one of the wonders of nature. "You can almost see them grow," succeeding almost everywhere and with everybody. They do well in pots of earth, but are more novel and beautiful grown in shallow bowls of water, with enough fancy pebbles to prevent them from toppling over when in bloom. A dozen bulbs started at intervals will give a succession of flowers through the winter. (See cut).

We are importing direct from China immense bulbs of the true large flowering variety. Price, 10c. ea.; \$1. doz.

If to be sent by mail add 5c. per bulb or 60c. per dozen to cover postage.

LILIES

Lilium Harrisii.

(Bermuda Easter Lily.)

This beautiful Lily has become immensely popular on account of its free-blooming qualities; many thousands are now yearly forced for the New York market, where it has met with great favor. It is larger in size than the old Longiflorum, flowers pure white, richly fragrant and of good substance. For early forcing the bulbs should be started in September; these may be had in flower by the Christmas Holidays, and by successive plantings, up to December, they may be had in flower until spring.

Our stock of this Lily is of unsurpassed quality. The bulbs are sound, well cured and of good form; not cracked or misshapen.

There are numerous offerings of Lilium Harrisii on the market, which, to say the least, cannot be

vouched for as reliable, as they are picked up here and there among small growers and in many instances are mixed and of general poor quality. Our entire stock was grown and packed under the personal supervision of our agent in Bermuda, and is uniformly first-class.

...PRICES...

First Size Bulbs.—(5 to 7 in. in circumference). 10c. each; 75c. per doz.; \$5.00 per 100. (Postage, 1c. per bulb extra.) Each bulb should produce from 5 to 8 flowers.

Extra Size Bulbs.—(7 to 9 in. in circumference). 15c. each; \$1.25 per doz.; \$8.00 per 100. (Postage 2c. per bulb extra.) This is the best size to grow as pot plants for decoration and equally as valuable for cutting. Each bulb produces from 8 to 12 flowers.

Monstrous Bulbs.—(9 to 12 in. in circumference). 25c. each; \$2.50 per doz. (Postage 3c. per bulb extra). These monstrous bulbs make fine specimen pot plants for exhibition and decoration.

Six furnished at dozen rates, Twenty-five at 100 rates.

Lilium Auratum (*The Golden-rayed Lily of Japan*). We offer a fine stock of splendid sound bulbs of this peerless variety, the grandest of all the Lily family. 20c. each; \$2.00 per doz.

L. Candidum. The well known White Garden Lily, one of the best for outdoor decoration; is also largely used for forcing. 10c. each; \$1.00 per doz.; \$5.00 per 100.

Lilium Humboldtii. Large, golden-yellow flowers spotted with purple. 40c. each; \$4.00 per doz.

L. Leichtlinii. A charming Japanese Lily, of small, slender growth; the flowers are of a golden-yellow color thickly spotted with purple. 50c. each; \$5.00 per doz.

L. Longiflorum. The well known beautiful snow-white, fragrant Lily; fine for forcing and handsome in the garden. 15c. each; \$1.50 per doz.

Add 3 cents each; 30 cents per dozen, to cover postage if ordered by mail.

LILIES—Continued.

L. Pardalinum. Bright orange-scarlet, shaded to orange, freely spotted with maroon; six to twelve flowers on a stem; very large; height, 6 to 7 feet. 20c. each; \$2.00 per doz.

L. Pulchellum. Brilliant crimson, upright star-like leaves. 25c. each; \$2.50 per doz.

L. Tenuifolium. One of the earliest to flower and most excellent for cutting; beautiful scarlet flowers. 25c. each; \$2.50 per doz.

L. Tigrinum. (*Tiger Lily*). Orange-salmon, spotted black. 10c. each; \$1.00 per doz.

L. Tigrinum Flore Pleno. (*Double Tiger Lily*.) This is a plant of stately habits growing from 4 to 6 feet high; foliage dark green, very long, bearing an immense number of double bright orange-red flowers, spotted with black. 10c. each; \$1.00 per doz.

SPECIOSUM SORTS.

Commonly known as *L. Lancifolium*, or Japan Lilies. All Lilies in this section can be relied on to give satisfaction to the buyer; they are easy growing, showy, distinct, very fragrant and beautiful; the different varieties probably form the most important group of any one species.

L. Speciosum Album. Pure white, very fragrant. 20c. each; \$2.00 per doz.

L. Speciosum Rubrum. Rose, spotted with crimson. 15c. each; \$1.50 per doz.

L. Monstrosum Album and Rubrum. Distinct varieties, having broad flat stems, and immense clusters of pure white flowers. 20c. each; \$2.00 per doz.

S. Melpomene. Flowers very large and very abundant, of rich blood-crimson, heavily spotted. 25c. each; \$2.50 per doz.

When Lilies are ordered by mail, add 3 cents each; 30 cents per dozen to cover postage.

CALLA LILIES—(Lily of the Nile.)

By mail postpaid.

The Calla, or *Richardia Æthiopica*, is a well-known plant of easy culture, and in winter is one of our best window plants. To aid profuse blooming keep them dormant during the fall, and re-pot in November.

Richardia Æthiopica (White Calla).

First Size. 15c. each; \$1.50 per doz.

Extra large dormant roots. 25c. each; \$2.50 per doz.

Richardia Alba Maculata. (Spotted Leaf Calla). 15c. each; \$1.50 per doz.

BLACK CALLA LILY.

BLACK CALLA.*(Arum Sanctum.)*

A magnificent and remarkable variety from the Holy Land. The plant produces one large flower the shape of a Calla, but from 14 to 18 inches long and 4 inches broad, and of a rich dark purple color and green underneath, somewhat wavy at the borders and curled at the smaller end. The spathe rising from the centre of the flower is about 10 inches long, velvet-like and quite black. It is raised on a slender but vigorous stalk of brown-red, shading to green at the upper end. The leaves are large and very wavy, of a rich green color, veined light green, and resemble exactly those of the Calla Æthiopica. Price, dry bulbs as collected, 15c. each; \$1.50 per doz.

LILY OF THE VALLEY.*Ready November 15.*

This charming little spring flower is a great favorite for forcing. It can be had in bloom throughout the entire winter by planting in succession. Pips are best for forcing. They should be kept in a cool place until three

four weeks before wanted in flower, when they should be planted in pots or flats, sphagnum being used instead of soil. One or two nights' freezing will insure their blooming, the period of which can be hastened or retarded according to the temperature of the house.

LILY OF THE VALLEY.

SELECTED GERMAN PIPS.

Three years old, for forcing and pot culture. 3 for 15c.; 30c. per doz.; per bundle of 25 pips, 50c.; \$1.75 per 100; \$12 per 1000.

LARGE CLUMPS.

For open ground planting. 25c. each; \$2.50 per doz.; or by mail, 40c. each.

If Pips are ordered by mail, add 10 cents per bundle or 25 cents per 100 to cover postage.

Messrs. WM. ELLIOTT & SONS,

CLEVELAND, OHIO.

GENTLEMEN:—Take pleasure in informing you that the Lily of the Valley which you supplied me with has turned out very satisfactory, and intend forcing more next year, so be kind enough to duplicate my order in advance for 1000.

Sincerely yours,

Euclid Avenue, December 16, 1895.

Miss KATE SHULTZ.

MISCELLANEOUS BULBS.

AMARYLLIS.

These beautiful flowering bulbs thrive best in a light, loamy soil, and should be cultivated indoors. As pot plants for parlor and conservatory decoration during the winter, they are probably unsurpassed by any other genus.

Aulica Platypetala. Very large flowers, of a rich deep crimson, shaded with maroon; throat of a pale yellow tint. \$1.25 each.

Formosissima (Jacobean Lily). Scarlet. 15c. each; \$1.75 doz.

Belladonna Major. 25c. each; \$3.50 per doz.

ZEPHYRANTHES.

"Zephyr Flowers" and "Flowers of the West Wind" are among our most beautiful dwarf bulbous plants, very effective for planting out in masses in May, flowering with great profusion during the summer. They are also most suitable for pot culture; 6 to 12 bulbs clustered in a 6-inch pot in the autumn will give a fine display of bloom during the winter in the window garden or conservatory. 1 foot high.

Atamasco. White, suffused with flesh color. Three for 10c.; 30c. per doz.; \$2.00 per 100.

Candida. Pure snow-white large flowers. 5c. each; 50c. per doz.; \$2.50 per 100.

Rosea. Large rose colored flowers. 5c. each; 50c. per doz.; \$3.75 per 100.

Texanus. Bright yellow. 5c. each; 50c. per doz.; \$3.75, 100.

ALLIUM.

Decorative hardy spring flowering bulbs, suitable for rock work, etc. **A. Neapolitanum** has large heads of pure white

flowers, and is forced to a considerable extent for cutting for bouquets, etc.

Neapolitanum. Pure white, hardy. 5c. each; 20c. per doz. \$1.00 per 100.

ARUM DRACUNCULUS.

(Dragon Arum.)

Curious hardy plant, with large, grotesque flowers of a dark maroon color, long smooth stem, beautifully mottled and handsome palm-like flowers. 10c. each; \$1.00 per doz.

Postage 2 cents per bulb extra.

ANEMONES.

By mail postpaid.

The Anemone is unsurpassed among spring flowers for brilliancy of color and profusion and duration of blooming. The plant is very neat and compact in growth, with elegantly laciniated foliage, and produces in great abundance flowers of the most vivid hues of scarlet, blue, purple, self-colored and striped which have a splendid effect in beds or masses, while for cutting for bouquets or table decoration they are invaluable.

CHIONODOXA LUCILIAE.**(Glory of the Snow.)***By mail Postpaid.*

A most exquisite early spring flowering plant, thoroughly hardy, and will thrive well in any soil; it grows taller than *Scilla Siberica*, with flowers larger and more numerous, of a brilliant sky-blue color with white center. 5c. each; 20c. per doz.; \$1.00 per 100.

CROWN IMPERIALS.

CROWN IMPERIALS.

These are handsome border plants of stately growth, perfectly hardy, and produce their pendant, bell-shaped flowers in clusters. They will succeed well in free drained soils, and are very effective planted in clumps in shrubbery borders. Mixed varieties. 10c. each; \$1.00 per doz.

*Add for postage 3 cents per bulb extra.***COLCHICUM AUTUMNAL.****(Autumn Flowering Crocus.)**

A pretty bulb with flowers resembling a *Crocus*, purple, white striped—treat as *Crocus*. The peculiarity of the plant is, that the flowers are produced late in autumn, and the leaves appear in the following spring, ripening the seed; a very interesting plant. The bulbs are large and should remain some time without being disturbed. 5c. each; 45c. per doz.

*By mail, add 3 cents per bulb.***CYCLAMEN.**

Among the many charming plants which grace the flower house and sitting-room during the spring and winter months, few, if any, are so interestingly pretty and accommodating as the *Cyclamen*; its neat, chaste, graceful little elegant flowers, varying from snow white to crimson, secure for it universal admiration, while the simplicity of its culture brings it within the reach of even those who

can command no better accommodation than a sitting-room window.

CYCLAMEN PERSICUM.

ERANTHIS HYEMALIS.**(Winter Aconite.)**

One of the earliest harbingers of spring, when established forming sheets of large glistening-yellow flowers. It grows freely under deciduous trees, among grass or in fact in almost any position or soil. 5c. each; 25c. per doz.; \$1.00 per 100.

*By mail postpaid.***GALANTHUS ELWESII.****(The Giant Snowdrops.)**

This is the largest and the earliest of all the snowdrops; flowers nearly three times the ordinary size; is very desirable for forcing and slightly fragrant. 3c. each; 20c. per doz.; \$1.25 per 100.

*By mail postpaid.***GLADIOLUS.****Early Flowering, Hardy Varieties.**

Among these are some of the most useful of the *Gladiolus*, flowering in May and June, when flowers are greatly in demand. For cutting purposes they are invaluable, as they will last in water for weeks after being cut; and as the flowers are smaller than autumn flowering sorts, they make up well for bouquets. They are hardier than most of the *Gladiolus*, but will not stand severe winters without covering. They are usually planted in October, and are covered on the approach of severe weather.

The Bride (*Colvilli alba*). Slender spikes, bearing 8 to 10 of the loveliest pure white flowers. One of the finest and most useful plants in cultivation, it is readily forced and can be had in bloom early in spring, and by successive planting, blooms can be had in August. 5c. each; 20c. per doz.; \$1.00 per 100.

By mail postpaid at single and dozen rates.

FREESIA.*By mail postpaid.*

These are among the most beautiful of all Cape bulbs, possessing a peculiar grace of form, and their fragrance is most delightful, one pot of 5 or 6 bulbs being sufficient to perfume a whole house. As cut flowers they are extremely valuable, the unexpanded blooms opening in water fill the air with the most delicate perfume, and their endurance is really remarkable. They force very easily, and can be had in flower at Christmas, and continue in succession until June.

Refracta alba. Pure white, delightfully fragrant. 1st size, 15c. per doz.; 75c. per 100. Selected, 20c. per doz.; \$1.00 per 100. Mammoth, 35c. per doz.; \$2.00 per 100.

Leichtlini. Pale yellow, fragrant. 6c. each; 60c. per doz.; \$3.00 per 100.

GLOXINIA.

A superb genus of greenhouse bulbs, producing in great profusion beautiful flowers of the richest and most beautiful colors. They succeed best in sandy loam and peat, and require a moist heat. After blooming, dry off gradually, let the bulb remain in the pot without water and keep in a warm place until it shows signs of starting again. 15c. each; \$1.50 per doz.

*By mail postpaid.***HELLEBORUS NIGER.***(The Christmas Rose.)*

A beautiful, hardy herbaceous plant, flowering early in spring, and if grown in the house or in frames will bloom during the Christmas holidays. The flowers, 2 to 3 inches in diameter, range through all shades of white, red, rose and purple, and are produced in abundance. 25c. each; \$3.00 per doz.

*By mail, add 5 cents each to cover postage.***ORNITHOGALUM ARABICUM.**

The Arabian variety of the "Star of Bethlehem" having large, pure white flowers, with a black center, borne in clusters on a stalk from 15 to 18 inches high. Hardy and showy plants, suitable for the open border. 5c. each; 40c. per doz.

*By mail, 2 cents per bulb extra.***LACHENALIAS.**

A beautiful class of spring flowering bulbs, adapted for greenhouse and room decoration. The spotted foliage and richly colored flowers are very attractive. Mixed colors. 15c. each; \$1.75 per dozen.

IRIS KÄMPFERI.

IRIS.

Among the many forms of floral beauty which adorn the flower borders in June, the Iris has claims which entitle it to a more than ordinarily prominent position; the flowers are large and handsome, the color extremely rich and varied, while its cultivation is unusually simple, succeeding in any ordinary garden soil; when planted in clumps of three or more and allowed to remain undisturbed, it improves in beauty each succeeding year.

RANUNCULUS.

Exceedingly beautiful flowers, blooming in June, requiring deep, rich, loamy soil. Plant late in the autumn, about 2 inches deep, claws downward, and cover with straw and leaves before winter sets in, so as to protect from frost. They succeed well when cultivated in pots indoors, but should be kept in a cool, moist atmosphere.

Turban or Turkish. Very double and distinctly marked, great variety of color, comprising nearly every shade of white, crimson, yellow, purple, etc. 5c. each; 20c. per doz.; \$1.00 per 100.

Persian. These are as beautiful as the Turkish, but quite distinct, producing smaller flowers and blooming later. 5c. each; 20c. doz., \$1.00, 100.

French. More vigorous in growth and larger flowered than the Persian or Turban. Very beautiful and varied. 5c. each; 20c. per doz.; \$1.00 per 100.

By mail postpaid.

SCILLAS.

Very beautiful early spring-flowering bulbs, of dwarf habit, from 6 to 8 inches in height, with drooping bell-shaped blossoms. They

SCILLA SIBERICA.

are quite hardy, and easily cultivated, growing in any good soil; very suitable for growing in pots.

Amœna. Very fine blue. 5c. each; 20c. per doz.; 75c. per 100.

Siberica. Blue, very early. 5c. each; 20c. per doz.; 75c. per 100.

Peruviana. Large pyramidal heads of bright blue flowers, excellent for pot culture. 15c. each; \$1.50 per doz.

By mail postpaid.

SPIRÆA ASTILBOIDES.

SNOWDROPS.

These beautiful little snow-white flowers, the earliest of all spring-flowering bulbs, are most suitable for planting on margins of beds or borders and on lawns, where a fine effect may be obtained by dibbling holes into the grass about a foot apart and 4 inches deep and planting a bulb in each hole. This method of planting will give a splendid effect in spring.

Single Flowering. 15c. per doz.; 85c. per 100; \$6.00 per 1000.

Double Flowering. 25c. per doz.; \$1.75 per 100; \$10.00 per 1000.

By mail postpaid.

SPARAXIS.

These differ from the Ixias in their dwarf habit, time of flowering and brilliancy of coloring, ranging through the various shades of crimson, scarlet and white; mottled, striped and splashed in every conceivable manner. They require similar cultivation to the Ixia. 5c. each; 20c. per doz.; \$1.00 per 100.

DECORATIVE PLANTS.

KENTIA BELMOREANA.

ARECA LUTESCENS.

This majestic Palm is without a peer for strength and elegance combined. Its dark, glossy green leaves are gracefully curved on slender stems, and the entire foliage is gracefully disposed. The trunk and stems are a golden yellow, irregularly spotted with bronzy green, giving it a peculiar charm. Specimen plants, \$5.00 each.

COCOS WEDDELIANA.

This beautiful Palm is unquestionably the most elegant and graceful in cultivation. The finely cut leaves are recurved with exquisite grace. It is admirably adapted for the centers of jardinières and fern dishes, as it retains its freshness for a long time, while for dinner-table decoration it is unexcelled. 10 to 12 ins. high, 75c. each; smaller plants, 35c. each.

RUBBER PLANTS.

We have a splendid stock of this useful and ornamental plant, which will flourish under the most adverse conditions. Price, \$1.00 each, 12 to 15 ins. high. Fine plants, 2 feet high, \$1.75 each.

PANDANUS UTILIS.

Pandanus is perhaps the most useful of our ornamental foliage plants. As a vase plant or single specimen in greenhouse or conservatory it cannot be surpassed. Price, fine plants, from 3 in. pots, 30c. each; from 4 in. pots, 50c. each.

LATANIA BORBONICA (Fan Palm.)

This fine Palm is too well known to need any extended description; its strong constitution and other grand characteristics render it one of the most popular Palms grown. Price, 5 in. pots, \$2.00 each.

KENTIA BELMOREANA.

The Kentias are among the best of the Palm species for general cultivation, being almost impregnable against diseases. The variety shown in the engraving is one of the best in its class, graceful habit, bright green foliage gracefully disposed; it scarcely has an equal. (See cut). Price, strong plants, 2½ to 3 feet high, \$3.00 each.

ARAUCARIA EXCELSA.

DRACAENA INDIVISA.

Of all the plants in use for centers of vases, baskets, or for beds in the open ground, nothing is so valuable as this. From its graceful drooping habit it sometimes is called the "Fountain Plant." Price, 50c. and \$1.00 each, according to size.

ARAUCARIA EXCELSA.

Deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances; its symmetry of form, grace and beauty of foliage are unequaled in the vegetable kingdom. (See cut). Price, \$2.00 and up, according to size.

ARECA LUTESCENS.

HARDY ROSES FOR FALL PLANTING.

We have on the way, which will be ready for delivery October 15, a splendid lot of Roses, which, if planted this fall ought to give a good crop of bloom next season. We offer only a comparatively small number of sorts, but these are all high-class and fine contrasting varieties.

"Well Known Gen. Jacqueminot."

The best, perhaps, of all Roses of the Hybrid Perpetual class. This grand old variety holds its own against all new-comers, and is undoubtedly the finest hardy Rose of its color.

La France. Flowers large and beautiful, either in the bud form or when expanded; peach-blossom color, shaded pink and silvery rose. It is free-blooming, every shoot forming a beautiful flower. In addition, it is hardy and most deliciously fragrant.

Capt. Christy. Delicate flesh color, deepening in shade toward the center; one of the most beautiful of the Rose family. The foliage is quite distinct. It is very free in flowering, and, taken in all, may be considered one of our best Roses.

Paul Neyron. Flowers 5 inches across; color, lovely dark pink.

Alfred Colomb. Bright crimson, large full flowers.

Dinsmore. This grand dark red Rose is entirely hardy and ever-blooming, unquestionably the finest in its class or color. This Rose has been growing steadily in popularity.

Duke of Edinburgh. A splendid dark reddish crimson Rose. In form and fragrance it is unsurpassed. One of the most prolific bloomers, flowering freely in the fall.

Prairie Queen. A perfectly hardy Rose, and very prolific, covered with flowers, of satiny pink.

Clothilde Soupert. This is a grand Rose. The color is a French white, deepening to rosy blush in the center, exceeding in distinctness of shadings the well-known Malmaison. The form and substance of the flowers are so perfect that the hottest weather does not cause a deterioration of either, so that even in mid-summer a bouquet of splendid buds and open flowers can be obtained from this fine variety.

Hippolyte Jamain. Bright rose, with carmine, striped white and light rose; unlike most others of this class.

Mme. Gabriel Luizet. Brilliant rose, grand variety; is a "sport" from "La France," and inherits all the grand qualities which have made its parent the favorite it is. The color is a deep, rich rose.

Prince Camille de Rohan. Velvety crimson, very double, large petals.

Cheshunt Hybrid. Cherry carmine, free-blooming.

Hermosa. Bright pink, a grand bedding Rose, and hardy with slight protection.

Persian Yellow. Pure yellow, perfectly hardy and ever-blooming; a strong, vigorous grower. Worthy of a place in every collection.

Magna Charta. An exquisite shade of dark pink, deliciously fragrant and wonderfully free-blooming properties.

Anra de Diesbach (Gloire de Paris). Rich carmine.

Rosa Rugosa. (Japanese Rose). Rosy crimson flowers, followed by a large, handsome, scarlet seed pods; one of the finest hardy shrubs in cultivation.

Price, for any of the above, 25 cents each, \$2.75 per doz.

Hardy Climbing Roses for Outdoor Planting.

Mme. Plantier. Pure white; a fine climbing Rose.

Baltimore Belle. Magenta red; a vigorous grower and prolific bloomer.

Gem of the Prairies. Large double flowers of a deep rosy crimson and very fragrant.

25 cents each, set of 3 for 60 cents.

Hardy Flowering Shrubs.

Ready October 15th.

Hydrangea Paniculata Grandiflora. One of the finest hardy shrubs in cultivation; the flowers are formed in large white panicles of trusses, nine inches in length. The shrub grows to a height and breadth of five or seven feet, and as the flowers slightly droop, few plants have the grace and beauty presented by this magnificent shrub. Used largely in cemeteries. 15c., 25c. and 40c. each, according to size; \$1.50, \$2.25 and \$4.50 per doz.

Althea, Double White. Double white flowers.

Althea, Double Red. Similar to the above, except color, which is red.

Berberry, Purple. A very ornamental shrub.

Calycanthus Floridus. Strawberry-scented shrub.

Corchorus Japonica. Double yellow flowers.

Corchorus Jap. Alba. Similar to above; white flowers.

Corchorus Jap. Var. Foliage prettily variegated.

Cornus Floridus. (Dogwood.) White flowers.

Cydonia Japonica. (Japan Quince.) Pink flowers.

Deutzia Crenata. White flowers, tinged pink.

Deutzia Gracilis. Low-growing, pure white; fine for cemeteries.

Forsythia Viridissima. Yellow; blooms very early.

Lilac. The well-known purple-flowering variety.

PRIVET. (California.) Unsurpassed for hedges; upright, symmetrical growth, easily kept in shape; foliage dark waxy green; fragrant white flowers. It is most valuable as a single specimen or for massing in shrubberies. We have a grand stock to offer. Price, 2½ to 3 ft. high, 25c. each, \$2.00 per doz., \$10.00 per 100.

Philadelphus Coronarius. The popular Syringa or Mock Orange. White flowers; very fragrant.

Rhodotypos Kerrioides. A very pretty shrub, with pure white flowers.

Styrax Japonica. A rare shrub; white flowers.

Spiræas, Douglassii, Superba, Thunbergii, Prunifolia, Van Houttei. All fine sorts.

Weigela, Rosea, Candida, Variegata.

Viburnum Opulus. (Snowball.) Large drooping white flowers.

Price for any of the above shrubs, 30 cents each, except where noted.

Violet Marie Louise.

The well-known double light purple variety. We offer strong, healthy plants, so that any amateur will have no difficulty in growing them. Thousands of this peerless variety are grown for the flowers alone to supply the cut-flower markets of the country during the winter season. Price, large plants, 30c. each, \$3.00 per doz. Young plants, 10c. each, \$1.00 per doz., \$6.00 per 100.

Hardy Climbing Vines.

Ready October 15th.

AMPELOPSIS VEITCHII.

(Sometimes called "Boston Ivy" and "Japan Ivy.")

No picture can portray the beauty of this grand climbing plant. In the summer the foliage is a rich shade of green, but in the fall it assumes the most gorgeous tints of *scarlet, crimson and orange*, so dazzling as to be seen a great distance. (Plants now ready.) 1st size, pot-grown, 2 to 3 feet, 50c. each, \$4.50 per doz.; 2d size, pot-grown, 1 to 2 feet, 25c. each, \$2.25 per doz.

Aristolochia Siphon. (Dutchman's Pipe.) Large, showy, light green foliage; flowers long and pipe-shaped, hence the name. 50c. each, \$4.50 per doz.

Clematis Paniculata. One of the most beautiful of our hardy-flowering vines. The flowers are pure white. These clusters are borne on long slender stems. The fragrance is delicious, resembling the English hawthorn blossoms, and is so subtle and penetrating that a large plant in bloom will fill the air with fragrance. It begins to bloom late in August or early in September, at a time when most other hardy climbers are out of bloom, an inestimable advantage. It is a strong, rapid grower, quickly reaching a height of from 15 to 20 feet, and spreading out when trained to wires or strings. It is perfectly hardy in all sections of the country, and we can unhesitatingly say that it is, in our opinion, the most valuable among hardy climbing vines. Price, 20c. each, \$2.00 per doz.

Clematis Jackmanii. The best known and most valued variety of this popular family. A perfect mass of bloom when in full flower. Color, dark, rich, royal purple. 1st size, 50c. each, \$5.50 per doz.

Clematis Henryii. A pure, white, large-flowering variety, of fine form, and recognized as by far the finest of the single white sorts. It is a much stronger grower than most of the other varieties, and is *entirely hardy*. Excellent for cemeteries, or wherever a hardy climber is desired. Large, strong plants, 75c. each, \$7.50 per doz.

Clematis Lucie Lemoine. This variety is distinct from the above in form, it being perfectly double, like a rosette. It is sweetly fragrant, and equally hardy and vigorous with the others. Price, 1st size, large plants, 75c. each; \$7.50 per doz.

CLEMATIS, LARGE-FLOWERING, ASSORTED.

In addition to those mentioned above, we can supply **double blue, single blue, lilac, lavender** and many intermediate shades, all strong plants. Price, 75c. each, \$7.50 per doz.

Foreign and Domestic Grape Vines for Vineries.

We offer the finest collection of Foreign Grape Vines grown in the country. They are all good, strong and healthy canes, true to name and in excellent condition for shipping. The varieties marked "H." are suited for hot graperies; those marked "H. & C." will do in either.

Muscat of Alexandria. Large Grape, of light golden color; the most popular of the white kinds. *H. & C.*

Black Hamburg. Sweet and juicy; a well-known excellent sort. *H. & C.*

Barbarossa. Black. *H. & C.*

Buckland's Sweet Water. White. *H. & C.*

One year old Vines, \$1.00 each; extra strong, \$1.50 each; 2-years old, \$2.00 each. Extra strong fruiting Vines, \$3.00 each.

HYACINTH GLASSES.

Hyacinths grown in glasses of water are charming ornaments for parlor windows, and the ease and success in flowering bulbs in this way add greatly to the popularity of not only Hyacinths, but Polyanthus Narcissus, Amaryllis Formosissima and other bulbs, which can be grown in the same manner. Can be used for cut-flower vases when desired.

Patent Hyacinth Glass. This is in two parts; the inner contains the bulb and roots, and can be removed without injuring them, to refill with water. 25c. each, \$2.50 per doz.

Tye's Shape Hyacinth Glass. An improved shape—not so easily tipped over—various colors. 15c. each, \$1.50 per doz.

Tall Hyacinth Glass. This is a favorite style; they come in various colors. 15c. each, \$1.50 per doz.

CHINESE SACRED LILY BOWLS.

As used by the Celestials for growing their famous "Joss Flower" in. The bulbs should be surrounded with pebbles to keep them from toppling over when in flower, and then water enough put into cover about one-half of the bulb; place them in a dark, cool closet for a couple of weeks to become rooted, and then bring into the light.

Glass Chinese Lily Bowl. 6 in. diameter, for 1 bulb, 25c.; 7½ in. diameter, for 2 bulbs, 30c.; 8½ in. diameter, for 3 bulbs, 35c.

Hedgehog Crocus Pot. Price, 80c.

Elliott's Central Park Lawn Grass Seed.

We are the original introducers of the above brand of Lawn Grass Seed, and with nearly fifty years' experience and a constantly increasing demand for the above mixture, we claim it to be the

CLEANEST AND BEST LAWN SEED EVER OFFERED.

Price per quart, 20c.; peck, \$1.25; bushel, \$4.50.

FRENCH OR EMERALD LAWN GRASS SEED—Second Quality.

We put up this mixture to supply the demand for a cheaper grade than our Central Park brand. This mixture is equal to any offered at the price, but we do not recommend it where the best results are wanted.

Price per peck, \$1.00; bushel, \$3.00.

ELLIOTT'S "TERRACE" MIXTURE.

A special combination of grasses that produce strong spreading roots. Such varieties as will succeed in shallow soils and withstand drought. We recommend the above for sowing on terraces, embankments and similar locations where it will produce and maintain a rich green turf throughout the season.

Price per quart, 30c.; peck, \$1.75; bushel, \$6.00.

...The Preparation and Care of a Lawn...

A good lawn is one of the most pleasing features of a rural home, and success in its formation depends much on the preparation of the ground. This should be done by draining if necessary and digging or plowing to the depth of 6 to 12 inches, according to the nature of the soil, applying at the same time a liberal quantity of well decomposed manure, bone dust, or pulverized sheep manure. We recommend the latter as being more lasting in its effects, not liable to burn the grass and free from weeds. Before sowing the seed the ground should be thoroughly cleaned and made perfectly level, and as the subsequent appearance of the lawn depends in a great measure on this part of the preparation, it is of the utmost importance it should be well done. The ground should be evenly raked, and the seed sown. April and September are the best months for sowing. The seed should be sown on a calm day, at the rate of four to five bushels to the acre. One quart is sufficient to sow an area of 15x20, or 300 square feet.

After the sowing has been accomplished, the ground should be again rolled, and as soon as the young plants have attained the height of 2 or 3 inches, the whole plot should be carefully gone over with a sharp scythe, and from the months of April to October it should be mown every ten days. Mowing machines are excellent after a comparatively close turf is established; but for the first six months after sowing the scythe should be used in preference to the machine. *Frequent mowing and rolling are indispensable to maintain the turf in good order.* By adopting these means a close green sward will be obtained in a short time.

The best LAWN FERTILIZER is Ram's Head Brand Sheep Manure. (See page 31.)

Elliott's "Golf Mixture" Grass Seed.

Owing to the popularity of Golf in this country and the number of Greens maintained for its support, there has been created a demand for a certain grass seed to grow on light soils and sandy situations, forming a compact sward, which is necessary where considerable walking is done; also to withstand a certain amount of drought during the summer, and maintain a velvety green appearance which is essential to a well kept Green. After numerous trials on our part, we have succeeded in filling the want; and to-day can offer you a mixture that cannot be duplicated elsewhere. Read what the president of the New Jersey Bowling Green Club has to say of it.

Messrs. WM. ELLIOTT & SONS,
54 and 56 Dey Street, City.

GENTLEMEN:—We have tried a number of grass seed mixtures for our Green each year, meeting with comparatively poor success, until your Golf Mixture was recommended; and without doubt it was all that you represented it to be; the members are more than pleased with the appearance of their Green.

Yours truly,

JOHN YOUNG, *President.*

THE EUREKA FUMIGATOR.

This apparatus is of simple construction and not liable to get out of order. When once lit it is self-acting, and may be left in the house with perfect safety, as flaring or setting anything on fire is an impossibility, while all the material is completely consumed without waste, and giving off in a dense smoke, filling a house in a short time, thus ensuring the entire destruction of insect life. It can be used for fumigating greenhouses, pits, frames, hospitals, ships, poultry houses, etc.; for destroying vermin and purifying rooms. Directions for use sent with each machine.

CLAY'S FERTILIZER.

We have been appointed Sole Agents for this valuable imported manure, which is constantly increasing in popularity. It is especially recommended to all who grow either fruit, flowers or vegetables, and wish to bring them to the highest perfection. Per cwt. (112 lbs.), \$7.00; $\frac{1}{2}$ cwt. (56 lbs.), \$4.00.

MAPES' MANURES.

The following well-known manures have been in successful practical use among many of the most noted truck, fruit and special crop growers, and are now employed, particularly among farmers in Long Island, Connecticut and New Jersey, by many exclusively in place of purchased stable manure. They restore wornout lands and add to the permanent fertility of the soil, as is abundantly shown by the testimony of practical growers who have used them for many successive seasons on the same land.

Mapes' Potato Manure.—For Irish and sweet potatoes, also for asparagus, early vegetables, tomatoes, sugar beets, fruits and sorghum. Use three bags per acre. Per bag, (200 lbs.), \$4.75; per ton, \$43.00.

Complete Manure (for Light Soil).—This is our vegetable or truck manure on all kinds of soils, light or heavy. Use broadcast; special for onions, also on light soils for asparagus, sweet potatoes, melons, tomatoes, wheat and seeding to grass. Per bag (200 lbs.), \$5.00; ton, \$45.00.

Complete Manure (for General Use).—For use on all crops and all soils with or without stable manure. Use broadcast; if any in hills, use sparingly. Special for oats, Hungarian grass, vegetables, melons, tomatoes and seeding with or without grain. Per bag (200 lbs.), \$4.50.

Complete Manure "A" Brand.—For use in hill or drill on all crops, particularly in connection with farm manure. Special for peas, beans, buckwheat and turnips. Per bag (200 lbs.), \$4.00; ton, \$38.00.

Fruit and Vine Manure.—For insuring fruiting power, particularly in quality of fruit in vineyards (grapes), pears, apples, plums, strawberries and all small fruits. Is slow in effects. Per bag (200 lbs.), \$4.00; ton, \$38.00.

Lawn Top Dressing (with Plaster).—Per bag (200 lbs.), \$4.00; per ton, \$35.00.

PURE FINE GROUND BONE.

This is a very pure, finely pulverized form of ground bone, especially prepared for rose culture. It is well adapted for mixing with soil for potting purposes in the proportions of one part bone to fifty of soil. 2 lbs., 15c.; 4 lbs., 25c.; 10 lbs., 50c.; 100 lbs., \$4.00; bbl., 200 lbs., \$6.00; ton, \$45.00.

PURE CRUSHED BONE.

A coarse article, particularly well adapted for use in the preparation of grapevine borders. In barrels of about 250 lbs., \$3.00 per 100 lbs., or \$45.00 per ton of 2000 lbs.

Elliott's Concentrated Plant Fertilizer.

A natural food for growing plants either in the window or out-door garden. Endorsed by leading amateur and professional florists throughout the country. Full directions for using accompany each package. Large package, 25c.; small package, 15c. If to be sent by Mail, large package, 45c.; small package, 30c.
