TERMS

Prices—This list is intended for only those "in the trade" and prices herein are net F. O. B. West Grove and supersede previous issues. We reserve the right to advance prices without notice. We sell 250 of a kind at 1000 rate, 25 at 100 rate.

Packing—We not only grow good stock, but packing also has the personal oversight of our Secretary who "knows how." We pack in boxes or bales and charge for only the cost of material on basis of schedule below.

Terms—We are glad to grant 30 to 60 days time for payment of bills to all responsible parties, but parties we do not know, who have no commercial rating, must send remittance with order, or a guarantee signed by some bank or someone of known responsibility to be sure of securing goods selected. If references are sent, we will confer with them and after hearing favorably, if goods selected are still unsold, we will enter the order as requested, but we will not enter orders or ship goods until we know the customer is responsible.

Complaints—Should there be any reason for complaint, we must be notified on receipt of goods, otherwise we cannot entertain it. All reasonable claims will have proper consideration.

Orders—Are accepted on condition that they shall be void should any injury befall the stock from frost, or other cause over which we have no control.

Varieties—In ordering please state whether or not substitution will be permitted in case we should be short of any sort wanted.

Guarantee of Genuineness—While we exercise the greatest care to have all our plants genuine and reliable, and hold ourselves prepared to replace on proper proof, all that prove untrue, we do not give any warranty, expressed or implied; and in case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the stock.

We guarantee all our stock to be in good condition on leaving our hands, but we do not guarantee it to grow under all conditions, nor do we make up any loss whatever due to climate effects, or after culture on the part of the purchaser.

To Our Customers—On all orders placed with us, stock is sold at the nurseries without freight allowance. The plants become your property upon delivery of them to the Transportation Co., and we cannot be responsible for loss, damage or delay in transit. Your recourse is with the Transportation Co., and not with us. If plants arrive in bad condition, before receipting for them, require the Station Agent to note same on the freight or express receipt, then make your claim on the Transportation Co. If you accept shipments short of what is enumerated on our invoice, or in bad condition without proper notation on freight or express receipt, the loss will be yours. Every assistance in our power will be cheerfully rendered you to trace and recover lost goods and collect damages.

Boxing—Boxing cost is charged on following basis:

10 x 2½ x 2½	\$4.50	6 x 1½ x 1½	\$1.75	4 x 2 x 2	\$1.50
10 x 1½ x 1½	2.75	5 x 1½ x 1½	1.50	4 x 1½ x 1½	1.50
8 x 2½ x 2½	4.00	5 x 2½ x 2½	2.50	4 x 1½ x 1	1.25
6 x 2½ x 2½	3.50	4 x 2½ x 2½	2.10	4 x 1 x 1	1.10
6 x 2 x 2	2.50				

To Avoid Delay

On your order or inquiry use your business letterhead or state your connection with the trade.

References—Dunn, Bradstreet or any leading American Nurseryman.

To Whom It May Concern:

It affords us pleasure to testify to the high character and standing of The Conard-Pyle Company. It is composed of practical, up-to-date nurserymen and Rose specialists. In our opinion, any statement they may make or any agreement into which they may enter can be absolutely relied upon.

COMMONWEALTH OF PENNSYLVANIA

NURSERY CERTIFICATE No. 5 (Resident). Department of Agriculture, Bureau of Plant Industry.

THIS IS TO CERTIFY, That the nursery premises of THE CONARD & JONES CO., West Grove, Pa., including 92 acres of stock have been officially inspected and passed in accordance with the provisions of Acts of Legislature approved the 29th day of June, 1917, amended and approved April 26, 1921, and approved June 7, 1923.

Permission is hereby granted this nursery to sell and ship nursery stock which has been officially inspected for the year ending September 30, 1925, provided that a tag on which an exact copy of this certificate is printed must be attached to each package, bundle, bale, box, or carload lot so shipped.

This Certificate does not cover the requirements of any special quarantine or regulation promulgated by this Commonwealth or by the United States Department of Agriculture.

This Certificate is void after October 1, 1925, but may be revoked for cause.
Issued at the State Capitol, Harrisburg, Pa., July 24, 1924.

WHY IS HUGONIS SO POPULAR?

Well, first, Hugonis is a yellow, and yellows you know, are always good sellers. But more than that Hugonis is the first yellow to bloom in the Spring, three weeks before most other roses. And what a bloom! Did you ever see it? No wonder an Illinois nurseryman told us at the Convention last June, that "it looks like a million dollars." Every branch of last year's growth is lined to the very tip with flowers like dainty yellow hollyhocks. The branches bend over with the weight of bloom.

Hugonis is dependable too, because it has proved completely hardy as far North as Winnipeg. Sell it to your northern customers. They'll enjoy it even after the blooms are gone, because the foliage is so attractive, it makes an unusual lawn specimen. As an added advantage, Hugonis is very resistant to diseases and insects.

Fellow-tradesman, Hugonis is selling and selling BIG. You'll find your better customers know it and want it. It's comparatively new, too.

Leaders in the nursery business recognize its superiority, but don't you think that the Firm which made Hugonis famous is better prepared to serve you with a superior product? Better place your order now and make sure of yours.

PRICES: 2-year. at \$70.00 per 100; \$8.00 per 10; 90c. each.
 Extra 2-year. at \$90.00 per 100; \$10.00 per 10; \$1.20 each.

HYBRID PERPETUAL and RUGOSA ROSES

The H. P's. are especially good for the North, on account of their hardiness. A few of them like Frau Karl Druschki bloom more than once. Their main feature to be prized is that in June, the month of Roses, they burst like silent fireworks, with a profusion of fragrant roses. They are not so liable to black spot as some others. By proper pruning and feeding, almost all of them can be made to bloom in the Fall. Some of them should be in every garden.

BOX BARBERRY, A DWARF THUNBERGI

If you're skeptical, consider these facts.

Box Barberry was discovered in New England, noted for hard cold winters from the time of Whittier's "Snow-bound" to the days of Calvin Coolidge. That certainly speaks for its hardiness.

Use it where Boxwood is not dependable. As a hedge 6 to 15 inches high it is especially desirable. Judging by sales, Box Barberry fills a long felt need for American Nurserymen. Use it for formal gardens, as base plantings, for edging, in shrubbery borders, or as individual lawn specimens.

To-day we believe we have the largest supply of Box Barberry in America. There are two sizes for you.

2-yr., 9-12 inches, \$12.50 per 100; \$100.00 per 1000
3-yr., 12-15 inches, 15.00 per 100; 120.00 per 1000

UNSOLICITED TESTIMONIALS

“Your stock was received to-day, and it was a pleasure to unpack stock like this. The Phlox, too, came well packed and in fine shape.”—From Minnesota.

“I am very much pleased with the Barberry you sent me, and had I been acquainted with the quality of your product, would have given you all of my Fall business.”—From Pennsylvania.

“All my orders for Roses from your house have arrived in good condition and the stock is even better than ever.”—From Illinois.

“Rose bushes received, am much pleased. The tops look healthy and they have a good root system.”—From Virginia.

GET YOUR CANNAS FROM THE ORIGINATORS

For more than thirty years we have been improving the Canna. Most of the varieties on the following list were originated by our Mr. Antoine Wintzer. Park Superintendents in many of our large cities order these Cannas in large quantities yearly. The U. S. Department of Agriculture buys every year from us, new and improved kinds like Mrs. Pierre S. Du Pont, the grandest pink. These big buyers know how vastly better the new Cannas are. Better because of their size, their purity and richness of color, their firm and erect flower heads. Indeed, they should mean as much to the Canna world as Hugonis or Souv. de Claudius Pernet do to Roses.

Many visiting nurserymen told us last Summer that they planted a few of these new Cannas and were surprised at the interest of their customers. A few of these on your place will advertise you and convince your customers of their merits, besides adding distinction to your grounds. Why not mail your trial order now? **Here are some suggestions.**

HOW TO PLANT CANNAS IN CIRCULAR BEDS

Plant 1 in the center, 6 in the first circle, 12 in the second circle, then 18, 24, etc., according to the size of the bed with the circles, and the plants in the circles 18 inches apart. A bed 4 feet in diameter takes 7 Cannas; a 7-foot bed, 19 cannas; a 10-foot bed, 37 Cannas; a 16-foot bed, 91 Cannas.

Japan Snowball (Viburnum plicatum)

THIS YOUNGSTER MAKES A HANDSOME GROWN-UP

Strong healthy plants of Viburnum Plicatum for Lining Out are bound to produce results that will add to the beauty of the landscape and to your profits. Viburnum Plicatum has long been handled by us as a specialty. Naturally, then, we are better prepared to furnish a superior product. Leaders among nurserymen seem puzzled as to how we do it, but, judging by the size of their orders, they have faith that we are giving them their money's worth.

Viburnum Plicatum is a shrub of many uses. It makes a very decorative effect when used with Spirea Van Houttei for foundation planting. Blooming profusely, as it does in May, the flowers are especially valuable to Florists for Commencement decorations, Weddings, etc. The foliage, too, is unusual and makes a pleasing effect with the flowers.

These Viburnum Plicatum for Lining Out are handled entirely here at West Grove by men who understand this shrub and how to propagate it best. The plants we have to offer are from 3-inch pots, ready for early Spring shipment. If you will write us somewhat of your requirements we can quote you lower than the prices published in this Bulletin, and will send samples on request. This is one of the "scarce" items on nearly every nurseryman's list. Act now.

PRICES: Lining out stock from 3-inch pots.....\$15.00 per 100; \$125.00 per 1000
 Strong 1 yr. field plants, 9 to 12 inches....\$20.00 per 100; \$175.00 per 1000

GOOD ROSES, WELL KEPT, MEAN MONEY TO YOU

Visitors to our new storage cellars are impressed with the careful, painstaking methods we use in handling roses. Every plant is especially cared for. The cellars average a low even temperature. The roots are imbedded in soil, Nature's own way. That keeps all the vitality in the plants. You and your customers are bound to benefit. The roots are not allowed to dry out at any time, and our Secretary personally oversees the packing. Probably that's why we receive so many unsolicited letters telling of unusually good stock, received in splendid condition. A Florida customer after receiving his order of 300 plants writes, December 20, 1924, "All the roses have been received, apparently in first class condition. We experienced no trouble whatever in having the shipment O. K'd. The Inspectors had several good words for you on the manner of handling Roses."

Cutting out the loss from poor packing and bad stock means better profits for you. Order early.

A New Name for the Old Firm

THE CONARD & JONES COMPANY on January 1, 1925, became THE CONARD-PYLE COMPANY. It has not moved from West Grove, Pennsylvania, the very birthplace of the American Rose-growing industry. The only change is in vastly increased facilities and ability to grow better roses better, and to get them to confiding customers in perfect condition.

Without recent change in ownership or management, the new-old concern retains the name of its founder, Alfred F. Conard, who was its pilot until he "crossed the bar." It also recognizes his successor, Robert Pyle, the rose-grower, rose-lecturer and rose-author, who has for a quarter of a century been progressively developing the service and quality feature of this rapidly-expanding business.

Antoine Wintzer remains in the Conard-Pyle Company as Vice-President. The first man in America to grow roses in quantity for a mail-order business, a greater-than-Burbank with Cannas, his 77 years of life have established him in the esteem of customers and associates.

The new-old firm, under the same but greatly extended roof, is on the main motor way from Philadelphia to Baltimore and Washington, and as well on the best through line from the west, via Lancaster and Wilmington, to Atlantic City. The map below shows the location. The star sign over our own rose-garden indicates the place. Come and see us.

On the Pennsylvania R. R. (Octoraro Division). Electric and Omnibus connections from Kennett Square (6 miles), Wilmington (18 miles), and West Chester (20 miles).
