Rev. May 1944

AVAILABLE PUBLICATIONS ON WILDLIFE

Compiled in the Division of Public Relations

The publications listed herein include contributions by the Bureau of Biological Survey both before and after its transfer from the Department of Agriculture to the Department of the Interior in 1939 and contributions on wildlife subjects by the Fish and Wildlife Service, which was formed in 1940 by consolidation of the Bureau of Biological Survey and the Bureau of Fisheries. Lists of available publications on fishery subjects also may be had from the Fish and Wildlife Service.

Sale Copies

Publications preceded by a star (*) can be obtained only by purchase from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., at the prices stated. Remittances should be sent direct to the Superintendent of Documents--NOT to the Department or the Service.

The Superintendent of Documents will furnish Price List 21 on request. This list relates to publications on fishes and wildlife, including shellfishes, fisheries, mammals, and birds. Lists of publications on related subjects by other Government agencies, including the National Park Service, Forest Service, Soil Conservation Service, and National Museum, also are issued by the Superintendent of Documents.

Free Copies

Publications listed without a star and the processed leaflets beginning on page 4 can be obtained free from the Fish and Wildlife Service, Department of the Interior, Chicago 54, Ill.

The supply for free distribution of the publications and processed leaflets is limited, hence no more than 1 copy each of 5 publications may be sent free to an individual. Additional copies of printed publications may be purchased, and for convenience in purchasing the price of each is indicated. In all requests, please mention the series, the number, and the title of each of the publications desired and list them in numerical order by series.

NOTE: Printed publications that are no longer available and therefore not listed herein may be consulted in libraries, especially those that are Government depositories.
