BIRDS PROTECTED BY FEDERAL LAW

Compiled July 1965
Division of Management and Enforcement

Birds that move across State and National borders are recognized as national resources and are afforded Federal protection in all areas subject to U.S. jurisdiction, pursuant to the provisions of Federal laws and treaties with Great Britain (for Canada) and Mexico. The species of birds protected are listed here by the most widely used common name or names followed by the scientific name in italics and, when applicable, the A.O.U. number as designated in the fifth edition of the American Ornithologists' Union Check-List of North American Birds. The birds are listed alphabetically by common name in two categories, "Game Birds" and "Nongame Birds," except that all ducks are grouped under the heading "Ducks" in "Game Birds" and are alphabetical within that group.

AUTHORITY: Migratory Bird Treaty Act of July 3, 1918 (40 Stat. 755; 16 U.S.C. 703-711), as amended, and the Eagle Act of June 8, 1940 (54 Stat. 250; 16 U.S.C. 668), as amended.

GENERAL INFORMATION

The following information is of a general nature only. Specific information on Federal laws and regulations can be obtained from the Director, Bureau of Sport Fisheries and Wildlife, U.S. Department of the Interior, Washington, D.C., 20240, or the nearest regional office of the Bureau of Sport Fisheries and Wildlife as follows: Region 1 (Northwest), Post Office Box 3737, Portland, Oreg., 97208; Region 2 (Southwest), Post Office Box 1306, Albuquerque, N. Mex., 87103; Region 3 (Midwest), 1006 West Lake Street, Minneapolis, Minn., 55408; Region 4 (Southeast), Peachtree-Seventh Building, Atlanta, Ga., 30323; and Region 5 (Northeast), U.S. Post Office and Courthouse, Boston, Mass., 02109.

Possession of protected birds.—No person may take from the wild, otherwise acquire, possess, sell, purchase, transport, import, export, or dispose of any protected birds, alive or dead, or their parts, nests or eggs, except in accordance with the Federal regulations under Parts 10, 11, and 16 of Title 50, Code of Federal Regulations. Under these regulations, Federal permits may be issued to qualified persons, authorizing the acquisition, possession, and transportation of protected birds for justified propagating, scientific, educational, taxidermy, and other special purposes under certain conditions.

Control of depredating birds.—Under Parts 11 and 16 of Title 50, Code of Federal Regulations, permits may be issued authorizing the killing of protected birds that are committing serious depredations on crops, property, or other interests when the injury is substantial and can be abated only by killing some or all of the offending birds. In addition, all species of blackbirds, cowbirds, and grackles may be killed without a permit when such birds are committing or about to commit depredations on shade or ornamental trees or agricultural crops.

Birds not afforded Federal protection.—The following are some common birds which are not afforded Federal protection, but which may be protected by State laws administered by the respective State conservation departments:

Anhingas	Jays	Pelicans
Cormorants	Kingfishers	Ravens
Crows	Magpies	Sparrow—English or House only
Hawks	Ospreys	(<i>Passer domesticus</i>)
Ibises	Owls	Starlings
