Public Law 369, 79th Congress, approved by the President on April 30, 1946, and which became effective on June 30, 1946, transferred "all the functions of the Secretary of the Interior and the Fish and Wildlife Service of the Department of the Interior and the Fish and Wildlife Service of the Department of the Interior which affect the breeding, raising, producing, marketing, or any other phase of the production or distribution, of domestically raised fur-bearing animals, or products thereof, to the Secretary of Agriculture." The law specifically states that "fox, rabbit, mink, chinchilla, marten, fisher, muskrat, karakul and all other fur-bearing animals, raised in captivity for breeding or other useful purposes shall be deemed domestic animals."

Therefore, persons who are engaged in, or who contemplate engaging in fur farming or raising domestic rabbits, should now address their inquiries for published literature or specific information on any phase of these subjects to the Bureau of Animal Industry, Department of Agriculture, Washington 25, D.C.

Information on the production, conservation, and utilization of fur animals in the wild, however, can still be obtained from the Fish and Wildlife Service, Department of the Interior, Chicago 54, Illinois.

Rev. July 1946

AVAILABLE PUBLICATIONS ON WILDLIFE

Compiled in the Division of Information

The publications listed herein include contributions by the Bureau of Biological Survey both before and after its transfer from the Department of Agriculture to the Department of the Interior in 1939 and contributions on wildlife subjects by the Fish and Wildlife Service, which was formed in 1940 by consolidation of the Bureau of Biological Survey and the Bureau of Fisheries. Lists of available publications on fishery subjects also may be had from the Fish and Wildlife Service.

Sale Copies

Publications preceded by a star (*) can be obtained only by purchase from the Superintendent of Documents, Government Printing Office, Washington 25, D.C., at the prices stated. Remittances should be sent direct to the Superintendent of Documents--NOT to the Department or the Service.

The Superintendent of Documents will furnish Price List 21 on request. This list relates to publications on fishes and wildlife, including shellfishes, fisheries, mammals, and birds. Lists of publications on related subjects by other Government agencies, including the National Park Service, Forest Service, Soil Conservation Service, and National Museum, also are issued by the Superintendent of Documents.

Free Copies

Publications listed without a star and the processed leaflets beginning on page 4 can be obtained free from the Fish and Wildlife Service, Department of the Interior, Chicago 54, Ill.

The supply for free distribution of the publications and processed leaflets is limited, hence no more than 1 copy each of 5 publications may be sent free to an individual. Additional copies of printed publications may be purchased, and for convenience in purchasing the price of each is indicated. In all requests, please mention the series, the number, and the title of each of the publications desired and list them in numerical order by series.

NOTE: Printed publications that are no longer available and therefore not listed herein may be consulted in libraries, especially those that are Government depositories.
