TINGLE'S

SMALL FRUIT
CATALOG

THE TINGLE NURSERY CO.
PITTSVILLE, MD.

We do not believe you can get better plants anywhere than ours.

Why Plant Strawberries This Year?

We believe this is the year to plant Strawberries. They are a quick crop, bring returns the year after planting, and this is a **great thing** to consider at this time when most farmers have had to use some of their savings to keep going and the quicker we can market a crop the better we will all feel.

Our prices for plants are the lowest in a good many years. You who have purchased plants from us already know the quality we furnish but to you who have never had any plants from us, we want to say: we do not believe you can get any better plants from anyone regardless of the price you may pay.

We will certainly appreciate your order this season and we assure you we will strive to give you such nice plants and good service that you will want to give us your order when you are in need of more plants.

Our plants are as nice this season as we have ever grown and the crop is larger than for the past three seasons on account of the good growing season during 1932.

Again, we say, plant strawberries this season; not more than you can properly take care of, as a small patch properly taken care of is much better than a large patch that is neglected. Get good plants, till and fertilize them properly and we believe you will receive good returns from your labor and investment.

Our wish is that 1933 and 1934 will treat you more kindly than did the past three years.

THE TINGLE NURSERY COMPANY.

GOODS SENT C. O. D. FOR POSTAGE ARE INSURED. There is no possible way to ascertain the exact amount of postage an order will take until it is packed and weighed. This is why we like to send packages C. O. D. for the postage. The customer pays the exact amount. One should not regret the extra cost of the C. O. D. charge, as it insures the package against loss, as the postage cannot be collected unless the package is delivered. We agree to replace any order, lost or stolen, absolutely free, if goods are ordered C. O. D. for the postage. Don't be led by offers of free transportation of goods. The purchaser pays it in the end, either by higher prices or lower quality.

Premier

A Real Money-Making Early Strawberry

Until Blakemore was introduced Premier was considered the greatest money-making early strawberry ever grown and it still is as good as it ever was, but a good many growers now prefer Blakemore. We advise you to try them both on your own soil and in your own markets and find out for yourself which is the most profitable for you to grow..

Premier makes an abundant plant growth for a good fruiting bed, of strong, healthy plants which are very productive; fruit ripens early and bears through a long season. Produces enormous quantities of fancy berries; this is very important when low prices make it necessary to keep production costs down as low as possible. Fruit is very large and attractive, a bright red with a beautiful green cap which stays green to the end of the season. It is almost frost proof and has never failed to make a crop in this section since first introduced, holds up well even during a very

unfavorable season and will stand shipment to distant markets in good condition. Of fine quality being fine for the home garden or local market as well as for long distance shipping. We would like for you to try Premier, Blakemore and Bellmar and let us know which does the best with you. This will help us in advising some one else which variety to plant.

Why Our Strawberry Plants Succeed

Our Strawberry Plants are taken from young beds, fresh dug before shipment, plants are well rooted and not dug from old or run down beds. These plants are from beds that have never borne a crop and will bring the best results. They are carefully packed with damp moss in well ventilated crates and will reach you in good condition. Read the testimonials from our customers who are pleased with our stock.

We recommend Blakemore for a trial as an early shipping berry

Blakemore. A promising new variety originated by Prof. Beatty of the U. S. Department of Agriculture, Washington, D. C., and introduced by the Department in 1930. It has been thoroughly tested in most of the strawberry producing sections of the United States and seems to readily adapt itself to conditions existing where planted.

Said to be a cross between Premier and Missionary, resembling the Missionary very much in plant growth, being a free plant maker of medium size plants, a very heavy producer of bright red berries, ripening two or three days ahead of Missionary or Premier, which show the unusual ability to hang on the vine from one to three days after it is apparently ripe without any waste. Size medium large, round to conical in shape, red to the center without any green tips. Its outstanding characteristics are its uniformity of ripening, firmness and ability to stand shipment to distant markets and arrive fresh and bright. We advise our customers to give this variety a thorough trial as we believe it will prove a real money-maker.

Aberdeen. This is a mighty fine variety and is becoming very popular in eastern Pennsylvania and New Jersey and will probably be widely planted when its merits are better known. Makes a rank growth of strong, healthy plants, very productive and said by some growers to be better than Premier.

Fruit is medium to large, of conical shape, an attractive dark red, and of very good quality. We cannot recommend this variety for distant shipping in refrigerator cars but for markets within 300 miles it is a berry hard to equal and is very profitable because of its hardness, ability to fruit under most trying conditions, its productiveness and quality of fruit. Fruiting period extends from two to three weeks. We would like to have our customers try them for comparison with Premier and Big Joe.

Aroma is a very good midseason to late variety.

AROMA. A wonderful late variety extensively planted in many sections of the country, makes a vigorous plant growth, produces large crops of beautiful almost perfect shaped berries, light red with a bright green cap that are sure to bring good prices in your market whether you sell locally or ship to distant markets for the fruit is very firm and will reach the market in perfect condition. They are the most popular late berry grown in the south. Many have found Aroma one of the best money-makers.

The New Bellmar Strawberry

Introduced by the United States Department of Agriculture

Another variety the U. S. Department of Agriculture developed from a cross of Premier and Missionary made in 1922 which was introduced last season. We are quoting from Circular No. 171 of the U. S. Dept. of Agriculture dated July, 1931.

"As compared with Premier the plants are much more vigorous and produce runners more freely; the blossoms are perfect, ripens about a week earlier than Premier and fruits about as long, it has been more productive than Premier and has produced a better grade of berries, and on good soil the berries are as large, color bright red, similar to Premier but not as dark as Missionary, they have a very large green calyx and a gloss which has caused it to be selected as the handsomest among hundreds. They are firmer than Premier and not so acid as Missionary. They rank high in dessert quality." This is one variety we advise you to try this season and order early as the supply of plants is limited.

COOPER. This variety is praised very highly. Cooper is a very vigorous grower making a moderate number of large, healthy plants. The berries are extra large a very bright red, and of excellent quality. A beautiful berry, fine for local or nearby market.

GLEN MARY. One of the most productive berries grown. Very popular in Pennsylvania, New York and the New England States. Firm enough for distant shipping. The fruit is of large size and dark red in color with prominent seeds of bright yellow. A strong grower.

LUPTON. A mighty good late shipping berry, very large, in fact as large as Chesapeake and nearly as attractive but it is only fair in quality but always brings top prices in city markets on account of its beautiful appearance. Lupton is a good bedder and therefore a good variety to grow on land where other late varieties do not do well. They are very firm and are excellent shippers but we do not recommend them for the home garden as there are others of much better quality.

You can depend on Big Joe for profits every season.

Big Joe This is no doubt the most profitable midseason variety, and to have a berry patch that will produce the most, the fanciest, and the best flavored berries, and this means the most profit possible from your labor and investment, we recommend without hesitation Blakemore or Premier for early, Big Joe for midseason and Chesapeake for late. This will give you the finest berries obtainable throughout a very long season.

Big Joe does well on all types of soil, but like most all berries does best on fertile soil with proper care, begins fruiting just as the early varieties start to run down therefore most always brings a premium of a dollar or more per crate for them. They make a very vigorous plant growth, are very productive of large, bright red berries that have a large green cap therefore the berries are always very attractive and whether you retail your berries, sell at the farm or ship to distant markets you should include Big Joe in your plantings and we are sure you will be delighted with the results.

EARLY JERSEY GIANT. Very early. Fruit of high quality, color bright red and very large in size. Plants healthy, strong growers. One of the best early varieties and in some sections is preferred to any other early variety. A quality berry.

GANDY. This is one of the old varieties that ranks as a leader among extra late shipping berries. It does best in low springy land as it needs plenty of moisture during fruiting season. Not a heavy producer but the berries are very large and of fine quality, fruit bright red with a large green cap, therefore very handsome, will stand shipment to distant markets in perfect condition.

HAVERLAND. One of the old standard midseason varieties and can still be depended upon to produce a good crop of berries every season. The blooms are imperfect and a variety like Big Joe, Premier or Gibson should be planted with it.

MISSIONARY. An old dependable variety, largely grown in Florida and other southern states. Will do well in most any type of soil and does especially well on the lighter types. Is a favorite for preserving.

SENATOR DUNLAP. A very prolific plant maker. Fruit bright red clear through, fair in quality and of medium size. Still finds favor with a large number of experienced berry growers.

There is no finer late strawberry grown today than Chesapeake.

Chesapeake. This is the finest dessert berry of the late varieties and will keep better and sell at higher prices than any other late berry grown. The fruit is very large and handsome and will stay so until the end of the fruiting season. The berries are a rich, glossy red, with bright yellow seed, have a large green cap and are very uniform in size; have the most delicious flavor of any berry we have ever tasted; very firm and will ship better than any large late berry we have ever grown. Plant Chesapeake for your fancy late berry.

Chesapeake should have good, well manured land and good care as it is not as prolific a plant maker as some varieties, but you will be amply repaid for this extra care in the real fancy berries that you will get. Chesapeake produces extra large, healthy plants but never as many as most varieties, for this reason the plants can never be as cheap as the free growing varieties but the results are well worth a little more and they are sure to return you an extra profit. They are heavy producers of large berries that are all large, not a few large berries and a lot of small ones but all of the same enormous size and they hold their size throughout the season. They are very seldom frosted as they blossom very late and we believe they are the most profitable late berry to grow for commercial or home use. Being a very fancy berry, large, delicious and handsome, they will always sell at top prices.

BEAUTY. One of the newer varieties that is all its name implies. The plants are strong and healthy and entirely capable of producing and maturing large crops of fancy berries, that hold up well during the entire fruiting season. A large, juicy, sparkling red berry of the most delicious flavor, that seems to be firm enough for shipment to distant markets. We recommend it for trial.

WM. BELT. This is one of the best flavored berries grown. The berries are irregular in shape, fairly large, bright glossy red with a green cap and are very attractive. Wm. Belt is desired for home garden, local market and for the grower who takes pride in the quality of the berries he grows. The consumer will always pay a premium for extra quality.

For A Real Quality Late Strawberry Chesapeake Cannot Be Surpassed

Try Joyce for a good midseason variety.

JOYCE. This is a variety that we have never fruited but have heard such good reports on it that we are offering it in a limited way to our customers this season. It is said by growers who have fruited it to be one of the very best midseason berries they have ever grown. The berries were so large, had such a wonderful color and flavor their customers bought them in preference to any other variety. It is a thrifty grower, producing a fine fruiting bed of strong, vigorous plants; fruits a few days before Big Joe, has an exceptionally long fruiting season; fruit is very large and holds up well to the end of the season. Bright red and of excellent quality, firm; will stand shipment to distant markets and arrive in excellent condition. We suggest you give Joyce a trial this spring as it might prove much better than the ones you are now growing.

GIBSON. This is another old standard variety that has proven itself many times over, has a very vigorous growth and makes a fine fruiting bed, produces heavily of bright red berries with a fancy green cap, do not ship well but are fine for local market or home use and are excellent for preserving and canning.

HOWARD 17. Believed by Horticulturists to be the same as Premier. Was introduced by a Mr. Howard a few years after Premier and from our own experience we have found them to be the same in every way. For full description see Premier description.

TENNESSEE PROLIFIC. A well known old standard midseason variety and used to be heavily planted but some of the newer varieties are so much better we see no reason why anyone would plant it now.

DR. BURRILL. You will find this berry exactly like Senator Dunlap. There may be a slight difference but we have never noted any. For description see Dunlap.

KLONDYKE. Until Premier took its place, in many sections Klondyke was more generally planted than any other early strawberry. It is still one of the best shippers and the berry is very attractive but it will not produce nearly as much fruit to the acre as most of the newer early varieties.

PARSONS' BEAUTY. This is a fine old variety for the home garden or local market. The plants make a very vigorous growth, are easy to bed and are very productive through a long fruiting season of dark red, fine flavored, medium size berries. The housewife will find them unexcelled for canning and very easy to cap.

Wilmington, Dela., April 27, 1932. The stock arrived in good time, in excellent condition and was very satisfactory.

Mrs. William C. Spruance.

Columbia, Pa., May 2, 1932. Received my plants in fine condition and I am well pleased..

John C. Moore.

Stevens, Pa., May 3, 1932. We received the plants in good condition and are very well pleased with them. Enclosed find another order.

Howard Brendle.

Owings Mills, Md., April 17, 1932. Received my order a few days ago. Everything O. K. Your stock has a wonderful root system. I surely was pleased. Howard E. Sherwood.

Cana, N. C., April 25, 1932. My order reached me a few days ago in a good moist condition and was very satisfactory.

Boston Nursery.

Smoketown, Pa., May 12, 1932. Enclosed find money order in payment of account. I received the plants in good condition and they were nice plants.

O. W. Laushey.

Mastodon

A Wonderful Everbearer

Everbearing Strawberries

There should always be some of these varieties planted in the home garden. They will start fruiting 90 days after the plants are set and produce all through the summer and fall till there is a heavy frost. Any family that enjoys delicious strawberries (and we believe everyone does) should not be without at least one of the everbearing varieties. Just think, you can have delicious strawberry shortcake and all the other strawberry desserts all through the summer and fall, with very little expense, for if given the proper care each plant will often produce a quart or more of delicious berries during their long fruiting season. You can have plenty for your own use and then sell enough to pay your expenses from just a small patch in your garden.

Since Mastodon has been introduced there are large profits for the grower who plants them for market. Picking begins about 90 days after the plants are set and continues all through the summer and fall and the demand and prices are both good. Be sure to include some in your order, for if you plant a few rows in with your standard varieties they may pay the expenses on your whole patch.

The essentials in successfully producing everbearers are the same as for growing the standard varieties; good fertile soil that will retain moisture and strong, healthy, true to name plants. Keep the blossoms off till the last of June and the plant will make a vigorous growth and a fair bed and you will have plenty of berries all through the summer and fall. One of the most important points is early planting.

Bellevue, Ky., April 30, 1932. The stock you shipped me the 15th arrived in good shape. I am well pleased with the shipment. They are doing all right since planting.

Mrs. Edwin A. Jacobi.

Caribou, Maine, April 28, 1932. The stock arrived today in very nice condition. They were well packed. I am enclosing another order. Hope to send another order in the fall.

Fair Hope Farm.

Spooner, Wisc., May 5, 1932. Received the 100 Colorado Blue Spruce. Am well pleased with both the stock and count. They were in fine shape. Will send you another order next year.

Henry J. Atkinson.

Kingston, Tenn., April 26, 1932. My shipment reached me in fine condition. They were the finest plants I ever saw—every bit as good as you recommended them to be.

Mrs. W. T. Chandley.

Berri-Supreme

BERRI-SUPREME. A new variety originating in Utah and claimed by the originator to be a money-maker. Our stock of these plants is small but we advise you to get a few for trial. They bedded fairly good for us last season. We find the berry similar in type to Mastodon and it will produce more fruit on a heavy soil than will Mastodon and the flavor is fully as good. We would suggest Mastodon for light soils and Berri-Supreme for heavier ones. Order early as our supply is small.

CHAMPION AND PROGRESSIVE. These are both the same or so near alike one description will answer for both. The Progressive was really the start of growing the fallbearers commercially as a real money crop. The berries are not so large as those of Berri-Supreme and Mastodon but many prefer their flavor to that of any other berry. They are still good under whichever name you grow them or regardless of how many other varieties you are now growing. Do not let them bed too thick for best results.

MASTODON. A strong, vigorous grower, producing big, juicy, sparkling red berries of the most delicious flavor, with a bright green cap and are firm enough to carry hundreds of miles in perfect condition and command good prices in the market. Mastodon begins fruiting about 90 days after the plants are set and keep right on till hard freezing weather in the fall, fruit again with the standard varieties the next spring and after a lay-off of about four weeks start fruiting again. You will not go wrong in planting any of these varieties.

Have Strawberries all Summer and Fall with these Everbearing Varieties

STRAWBERRY PLANT PRICES

These prices are F. O. B. Pittsville, Maryland, all transportation charges to be aid by purchaser. The plants here offered are fresh dug from the fields and have not been held in storage a long while after digging. They should go right on growing.

500 plants or more of one variety will be furnished at the thousand rate.

BUSINESS TERMS, ETC.

TIME TO ORDER. As soon as convenient after receiving this catalog, for late in the season we may be out of some varieties, but if you order early you will get just what you want, without any trouble or delay. Stock will be reserved and shipped when the proper planting time comes or when you specify. Be sure to PLANT AS EARLY as possible for this may mean success or failure.

TIME OF SHIPMENT. From October 20th to May 1st and even later for some items. The earlier your stock is shipped and planted the better they are for they will stand digging, shipping and planting much better early than after growth has started. We will use every precaution in our power to put plants through in good condition. If you leave time of shipment to us we will use our best judgment as to best time.

PAYMENT. Money Order, Registered Letter, Bank Draft or Personal Check in full payment with order, or ¼ cash with order and balance before date of shipment.

TRUE TO NAME. We use every precaution to have our stock true to name, but in case any should prove otherwise we will replace it or refund the amount paid, but in no case will we be responsible for any sum greater than that paid for the plants.

YOU ARE TAKING NO RISK. We send just what you order or refund your money, unless you tell us to substitute your order with the nearest to it we have, should we be out of the varieties you order.

ALWAYS REMEMBER. We are at your service and will always be glad to hear from you and will give you any and every possible assistance.

OUR STRAWBERRY PLANTS ARE FRESH DUG FOR YOUR ORDER. From new beds that have not borne fruit, tied in bundles of 25 and packed in light ventilated crates with plenty of damp moss so they will carry safely.

PEACH TREES

Everybody delights in the flavor of a fine, juicy Peach. They succeed best on high dry and well-drained soil. They are borne on wood of the previous season's growth, and it is essential that they be pruned some every season. Keep your trees in good shape and you will be repaid with good fruit. It takes but a short time for them to come into bearing. Only the very best varieties are listed below.

PRICES OF TINGLE'S PEACH TREES

4 to 5 feet—1 to 9 @30c each, 9 to 49 @ 25c each, 50 or more @ 17c each.

BELLE OF GEORGIA. White, freestone, large size, and most attractive in color and shape, with a light red cheek; flesh white, firm and delicious; extra fine flavor.

CARMAN. A very hardy peach, ripening about the middle of July; skin pale yellow with blush on sunny side; flesh white, tender, sweet and melting.

EARLY ELBERTA. Ripens about a week to ten days earlier than Elberta; yellow, freestone, large, similar to Elberta but a trifle better flavor. Excellent home orchard peach.

ELBERTA. Midseason. A valuable large peach of good quality; fruit yellow with red cheek; juicy and highly flavored, flesh yellow, freestone. The leading market variety.

GOLDEN JUBILEE. A new variety originated by the New Jersey Experimental Station, of the Elberta type, ripening with Carman and Belle of Georgia. Freestone.

HILEY. Ripens about a week before Belle of Georgia. A large creamy white peach with a rich blush on the sunny side. Freestone.

GREENSBORO. White, freestone, large, handsome, a rich yellowish white with crimson cheek, exceedingly tender and of fine quality.

J. H. HALE. One of the best sorts for garden or market. Fruit very large, round and of excellent quality, skin yellow finely colored, flesh yellow, sweet and melting. Ripens just before Elberta. A very good peach.

RED BIRD CLING. White, extra large with a bright red blush. The first peach of large size to ripen. Brings extra high prices in all the leading markets.

SOUTH HAVEN. Yellow, freestone, large, roundish, uniform size, deep yellow with a red cheek, delicious flavor, consistent heavy bearer. Ripens about fifteen days ahead of Elberta. A very promising new variety.

WHITE HEATH CLING. Ripens about September 15th. Fruit large, roundish; flesh white, exceedingly juicy. A favorite for canning purposes.

APPLE TREES

The Apple is easily the first in importance of all fruits, the growing of which is one of the big industries of the country. It will thrive on any well-drained soil. Its period of ripening extends over a longer period than any other fruit, and by careful selection of varieties, a constant succession can be obtained.

For Family use no fruit is more indispensable or as healthy as the Apple. No one who has a place to plant should hesitate to plant an orchard, or at least a few trees for family use. You will find the best varieties listed and described below.

PRICES OF TINGLE'S APPLE TREES

4 to 5 feet—1 to 9 @ 40c each, 10 to 49 @ 35c each, 50 or more @ 25c each.

BALDWIN. Large, round, bright red, rich and juicy, crisp; good late keeper. Quick grower; yields big crops. Winter.

CORTLAND. A promising new variety. Beautiful red, large and a good keeper. Fine flavor. Winter.

DELICIOUS. Brilliant dark red, flesh fine grained, juicy crisp and melting, flavor sweet, with a slight acid taste, with a delightful aroma; highest quality. Winter.

DUCHESS. Medium size, red striped, flesh white, juicy and good flavor; early. A heavy bearer and dependable cropper.

GRIMES GOLDEN. Medium size, golden yellow, tender, rich, aromatic, sub-acid, delicious, possibly the best flavored apple known, and a good keeper. Autumn.

MAMMOTH BLACK TWIG (Paragon).—Extra large in size; skin smooth, yellowish, covered with deep red, the general effect being dark red; flesh tender, tinged with yellow, crisp, sub-acid, aromatic, fine flavor, of excellent quality in every way. Winter.

ROME BEAUTY. Large, round; mottled and striped in different shades of red; flavor and quality of the best. Always in good demand and brings high prices. Keeps in good condition until May and June. Winter.

STAYMAN WINESAP. A dark, rich red, with rather indistinct striping. Flesh yellow, plenty of juice; firm, tender, rich, sub-acid, aromatic, quality of the best. A splendid late keeper, but mellows for use in the fall. Quick grower; bears young. Winter.

WEALTHY. Medium to large size, round; almost solid red; flesh white, tender, crisp, juicy, fine grained, good flavor. Autumn.

Eat Apples For Health's Sake

WILLIAMS EARLY RED. Medium to large in size, bright rich red; flesh is crisp, tender, juicy and sub-acid. Early.

YELLOW TRANSPARENT. Medium to large; cream and yellow, tender, juicy, sub-acid, fragrant, good flavor. Early.

YORK IMPERIAL. Medium to large size, round, irregular, greenish yellow overlaid with bright red; flesh tender, firm, crisp and high flavor; wonderful keeper; can be kept in cold storage until June. Winter.

PEAR TREES

Fine flavor, reliability, profit, long life of trees and general goodness make Pears a staple fruit. They are good to have in a home-orchard, on a lawn, or about a farm. They do not take up much space—a few trees can be put in odd places about the farm.

PRICES OF TINGLE'S PEAR TREES

4 to 5 feet—1 to 9 @ 40c each, 10 to 49 @ 35c each, 50 or more @ 25c each.

BARTLETT. A large, yellow pear; fine sweet flavor. Very popular. September 1st.

DUCHESS. One of the largest and best. Greenish yellow with russet spots.

KIEFFER. Well known canning pear. Hardy, prolific, fruit large and yellow with touches of carmine. A regular bearer.

SECKEL. A small variety but of excellent quality. Very productive.

YOU CAN PAY MORE BUT YOU CANNOT BUY BETTER ANYWHERE

CHERRY TREES

The Cherry is hardy and will thrive in almost any soil, provided it is well drained. Fruit-growers are realizing that it is one of the most profitable crops they can grow as it begins bearing young and the fruit nearly always sells for good prices.

PRICES OF TINGLE'S CHERRY TREES

4 to 5 feet—1 to 9 @ 40c each, 10 to 49 @ 35c each, 50 or more @ 25c each.

BLACK TARTARIAN. Very large, juicy, rich flavor, sweet, purplish black. Heavy bearer and most profitable sweet cherry.

DYEHOUSE. Ripens 10 days earlier than Early Richmond; medium size, sour, good keeper, fine quality, heavy bearer. Popular for pies and canning.

EARLY RICHMOND. Early summer. Very sour, medium size, bright red. Unsurpassed for cooking. Yields heavy crops. Most hardy of all cherries, sure cropper, productive.

MONTMORENCY. Midseason, sour, large, red, slightly acid, flesh tender and of unusually good quality. Good shipper.

PLUM TREES

Plums are so easily grown, thrive so well with little care and even in spite of neglect, and respond so liberally to good care that they should find a place in every home orchard. They succeed in almost any soil, and are often planted in the chicken yard and out-of-the-way corners when other space is not available. Plant 18 to 20 feet apart.

PRICES OF TINGLE'S PLUM TREES

4 to 5 feet—1 to 9 @ 40c each, 10 to 49 @ 35c each, 50 or more @ 25c each.

ABUNDANCE. Fruit very large, showy, flesh light yellow, exceedingly juicy, tenderfruit, produced in thick clusters or groups. and sweet. A good market variety.

SHROPSHIRE DAMSON. Medium size, red, slightly acid, flesh tender and of unusually good quality. Good shipper.

ASPARAGUS

Splendid for home garden or market. The plants are very easy to grow and a bed when once established will thrive for many years. As a field crop, Asparagus is very profitable, and there is most always a good demand for it at good prices. Any good garden soil will give excellent crops, but it should be manured freely.

Prices 2 year No. 1 Strong Plants

25 for 50c, 100 for \$1.50, 1000 for \$7.50

PALMETTO. Earlier than most other varieties. Stalks vary from light to dark green, are very large and of exceptionally good quality. The standard commercial variety.

MARY WASHINGTON. This is generally recognized by the leading growers as being the best variety of asparagus grown. It starts earlier, produces more and larger stalks of extra quality than any other variety. It is highly rust resistant and has proven by test to be best both for the home garden or commercial plantings. The true strain.

QUINCE TREES

One of the finest fruits grown for jellies, preserves and canning. They are easily grown and need very little attention.

PRICES OF QUINCE TREES

4 to 5 ft.—1 to 9 @ 60c each, 10 or more @ 50c each.

CHAMPION. Tree strong grower; produces a good crop every year. Fruit large and of good quality. Cooks as tender as an apple. October.

ORANGE. Good size and heavy bearer. Flesh orange yellow.

GRAPES

The Grape is one of the most important of the small fruits, not only commercially in various sections, but also for the home garden. There is no fruit more easily grown and it takes little room in the home garden, for the garden fences can be transformed into trellises, and not only answer their purpose as an enclosure, but will make them more beautiful when covered with the vines.

The Old Reliable Concord Grape.

CACO. A comparatively new grape that is of the very best flavor. Strong grower and bears abundantly. Large in size and have a wine red over amber color. Ripens just before Concord. Excellent for home use.

40c each, \$3.50 for 10, \$25.00 per 100

CONCORD. The most popular grape. It adapts itself to varying conditions. Large compact bunches of dark purplish black berries covered with a rich bloom, skin is tender, but firm enough to carry to distant markets. Vigorous grower, hardy and very productive.

20c each, \$1.50 for 10, \$12.50 per 100

MOORE'S EARLY. Dark purple; bunches medium size, berries large. Flavor and quality good. Ten days earlier than Concord.

20c each, \$1.50 for 10, \$12.50 per 100

NIAGARA. The best of the light colored grapes. Bunches medium size, berries large. Ripens earlier than Concord; flavor good.

20c each, \$1.50 for 10, \$12.50 per 100

CHAMPAGNE. A sterling variety of great merit. Color a coppery red, berries very large; strong grower and bears immense crops of the most delicious grapes, hence the name Champagne. Stock limited this year.

40c each, \$3.50 for 10, \$25.00 per 100

RASPBERRIES

Raspberries will succeed in any good soil suitable for garden vegetables, and amply repay good culture. Ground bone is a good fertilizer. Plant in rows 4 feet apart and plants 3 feet apart in the rows. Cut out old wood as it dies after the fruit ripens.

CHIEF. An outstanding new early red raspberry. Ripens 10 to 12 days earlier than Latham. Berries are dark red, good size, extra firm and hold up a long time after picking. Plants are strong and stocky, immune to mildew and highly resistant to all diseases. Withstands hot, dry weather better than other varieties. A good shipper.

\$1.00 for 10, \$6.00 for 100, \$50.00 per 1000

CUMBERLAND. Berries are large, borne in clusters, several to a branch. The reliable blackcap. Flavor is rich and sweet. Probably the very best black raspberry. Prolific.

75c for 10, \$3.00 for 100, \$20.00 per 1000

LATHAM. Claimed to be the very best red raspberry. Berries are large, dark red, of uniform size. Will stay on canes several days after fully ripe. Bushes are vigorous growers, perfectly hardy in all parts of the country; begins bearing the first year.

75c for 10, \$3.50 for 100, \$25.00 per 1000

ST. REGIS. Leading growers agree that St. Regis is the most profitable and dependable red raspberry. Fruit ripens midseason and continues through fall. Good quality.

75c for 10, \$3.00 for 100, \$20.00 per 1000

BLACKBERRIES

Blackberries are among the best known and most valued of our berries. No fruit is more wholesome. They should be planted in rows five or six feet apart and three or four feet apart in the row. Keep the ground clean and well fertilized.

ELDORADO. Berries are large, jet black and of a richly sweet flavor. Quality is excellent. Produces a heavy crop regularly. Ideal both for home use and market. The leading commercial blackberry.

75c for 10, \$3.50 for 100, \$25.00 per 1000

BLOWERS. Large size, jet black, good shipper. Very hardy and productive.

75c for 10, \$3.50 for 100, \$25.00 per 1000

LUCRETIA. Ripens about ten days before ordinary blackberries. Large, good looking, productive. Bring top-notch prices.

60c for 10, \$2.50 for 100, \$17.50 per 1000

EVERGREENS

EVERGREENS are essential in almost every plan for beautifying the home and surrounding grounds. They can be set in groups, with shrubbery or along the foundation of the house or used singly as specimens. In the winter time, when most other plants are dormant, the absence of other colors helps to bring out their beauty of form in a very striking manner. We ship all evergreens except the real small sizes with a ball of earth surrounding the roots, securely burlapped. This assures you of receiving plants with practically the entire root system intact and when planted in your ground they should live and continue their growth. Do not remove the burlap from the roots—just loosen the string at the top.

Our Evergreens are carefully grown, trimmed to symmetrical specimens, are root pruned, balled and burlapped and packed so as to reach you in good growing condition.

These prices are per each but we will furnish 12 for for 10 times the each price

Pyramidal Arborvitae

AMERICAN ARBORVITAE. Foliage flat, color bright green. One of the most extensively planted evergreens. Used for many purposes.

18 to 24 in.\$0.60 2 to 3 ft.\$1.00

BERCKMAN'S GOLDEN ARBORVITAE (*Biota Aurea Nana*). Bright yellow foliage. Makes a very dense, compact, cone like plant.

9 to 12 in.\$0.60 12 to 15 in.\$0.85

BIOTA COMPACTA. Similar to Berckman's except the foliage is a beautiful dark green.

15 to 18 in.\$0.60 18 to 24 in.\$0.80

COLUMBIA ARBORVITAE. Slow growing green branches tipped with dull gold.

18 to 24 in.\$1.00 24 to 30 in.\$1.35

DOUGLAS ARBORVITAE. A slender, formal pyramidal type with dark green fern like foliage. A good variety for formal planting.

2 to 3 ft.\$1.25 3 to 4 ft.\$1.75

GEORGE PEABODY ARBORVITAE. Grown in a broad pyramidal form. Foliage golden yellow.

15 to 18 in.\$0.65 18 to 24 in.\$1.00

GLOBE ARBORVITAE. Round or globe shaped, dark green. Grows globe shape naturally.

9 to 12 in.\$0.60 12 to 15 in.\$0.85

GOLD TIP ARBORVITAE. Pyramidal type. A rich green with yellow tipped branches. Beautiful.

18 to 24 in.\$0.85 2 to 3 ft.\$1.15

ORIENTAL ARBORVITAE (Chinese). Tall, slender, last grower, dark green foliage. Popular.

18 to 24 in.\$0.60 2 to 3 ft.\$1.00

American Arborvitae

PLICATA ARBORVITAE. A pyramidal type with short, stiff branchlets giving a pleasing effect.

2 to 3 ft.\$1.25 3 to 4 ft.\$1.75

PYRAMIDAL ARBORVITAE. One of the best and most popular Arborvitae. A true slender pyramidal dense grower, foliage dark green.

18 to 24 in.\$0.85 2 to 3 ft.\$1.15
3 to 4 ft.1.75 4 to 5 ft.2.50

ROSENTHAL'S ARBORVITAE. Dark green dense foliage. The growth terminates in a little whitish ball. Stays a dark green through all seasons.

12 to 15 in.\$0.75 15 to 18 in.\$1.00

SIBERIAN ARBORVITAE. Gray green foliage, broad pyramidal, compact grower.

18 to 24 in.\$1.00 2 to 3 ft.\$1.50

TOM THUMB ARBORVITAE. Soft, green foliage. Compact globe shape.

12 to 15 in.\$0.75 15 to 18 in.\$1.00

VERVAENEANA ARBORVITAE. Erect habit and form with bright golden variegated foliage.

12 to 15 in.\$0.75 15 to 18 in.\$1.00

DEODAR OR INDIAN CEDAR. This is one of the handsomest of all tall growing conifers. Foliage is feathery and of the popular blue-green color.

15 to 18 in.\$0.75 18 to 24 in.\$1.00

CEPHALOTAXUS HARRINGTONIA FASTIGIATA (Spiral Plum Yew). A formal, upright columnar plant with stiff, erect branches, resembling the Irish Yew. A beautiful green at all times.

15 to 18 in.\$1.00 18 to 24 in.\$1.50

CRYPTOMERIA LOBBI. A tall slender beautiful green tree with foliage tinted dark bronze in winter. Beautiful all the year around.

18 to 24 in.\$1.75 2 to 3 ft.\$2.25

LAWSON'S CYPRESS. A broad pyramidal tree. Gray green foliage with graceful outlines.

18 to 24 in.\$1.00 24 to 30 in.\$1.25

LAWSON'S CYPRESS ALUMNI. Foliage beautiful metallic silvery blue color; branchlets flattened and very close together. Very symmetrical. A very beautiful erect growing evergreen.

18 to 24 in.\$1.00 24 to 30 in.\$1.50

BALSAM FIR. Compact, conical grower, dark green foliage. Aromatic scented foliage.
15 to 18 in.\$1.25 18 to 24 in.\$1.50

WHITE FIR. One of the most beautiful evergreens. Tall grower, rich silvery needles.
15 to 18 in.\$1.25 18 to 24 in.\$1.50

CANADIAN HEMLOCK. One of the most beautiful of American Evergreens. Grows well in sun or shade, stands any amount of trimming. Foliage dark green. Very hardy. Graceful grower.
18 to 24 in.\$1.25 2 to 3 ft.\$1.75

ANDORRA JUNIPER. New. A very attractive plant; light green in summer and a wonderful purple in winter. Hardy and very popular when known.
18 to 24 in.\$1.50 24 to 30 in.\$2.00

CANADIAN JUNIPER. A dwarf, spreading Juniper with light green foliage. Sharp pointed needles.
18 to 24 in.\$1.50 24 to 30 in.\$2.00

GOLDEN CANADIAN JUNIPER. Similar to the above except a golden yellow color.
18 to 24 in.\$1.50 24 to 30 in.\$2.00

HORIZONTAL JUNIPER. Very low, compact grower, makes a dense mat. Soft blue color.
24 to 30 in.\$1.50

IRISH JUNIPER. A slender growing tree, taking the form of a column. Foliage bluish green.
18 to 24 in.\$0.75 3 to 4 ft.\$1.50
2 to 3 ft.1.00 4 to 5 ft.2.00

MEYER'S JUNIPER. Upright, close, irregular grower with a beautiful Koster blue foliage. Odd.
15 to 18 in.\$1.50 18 to 24 in.\$2.00

PFITZER'S JUNIPER. Probably the very best of the low, spreading Junipers. Beautiful bright green foliage that stays green all year around.
12 to 15 in.\$0.75 18 to 24 in.\$1.50
15 to 18 in.1.00 24 to 30 in.2.00

SAVIN JUNIPER. Low growing, dwarf; dark green foliage. Never gets large. Really good.
18 to 24 in.\$1.50 24 to 30 in.\$2.00

SPINY GREEK JUNIPER. Compact, pyramidal, well shaped, dwarf grower; gray green foliage.
12 to 15 in.\$0.75 15 to 18 in.\$1.00

SWEDISH JUNIPER. A slow growing columnar shaped Juniper with light gray green needles.
18 to 24 in.\$1.00 24 to 30 in.\$1.35

SCOTCH PINE

VARIEGATED JUNIPER. Similar in growth to Greek Juniper but has cream colored tipped branches intermingled with the green ones. Dwarf grower.
12 to 15 in.\$1.00 15 to 18 in.\$1.25

JUNIPERUS VIRGINIANA (Red Cedar). Has a rich green color, light in summer, darker in winter. Columnar in form but broader than Irish Juniper.
3 to 4 ft.\$1.50 4 to 5 ft.\$2.00

JUNIPERUS VIRGINIANA GLAUCA (Blue Cedar). An extremely beautiful upright growing Juniper. Foliage silvery blue all year around.
18 to 24 in.\$1.50 2 to 3 ft.\$2.00

JUNIPERUS BURKI. A pyramidal grower with a very distinct silvery purple in winter. Pleasing.
18 to 24 in.\$1.50 24 to 30 in.\$2.00

JUNIPERUS CANNARTI. Dark green foliage with abundant showy blue berries. Pyramidal form.
18 to 24 in.\$1.50 24 to 30 in.\$2.00

JUNIPERUS ELEGANTISSIMA. Slender outline with light golden foliage. Useful for color contrast in background of bed plantings.
18 to 24 in.\$1.50 24 to 30 in.\$2.00

THE BEAUTIFUL PFITZER'S JUNIPER

Berckman's Golden Arborvitae

JUNIPERUS KETELEERI. A splendid evergreen of pyramidal, formal outline. Deep green, scale-like leaves. Compact habit. Very hardy.

18 to 24 in.\$1.50 24 to 30 in.\$2.00

JUNIPERUS SCHOTTI. Distinct light green foliage. Habit columnar and formal.

18 to 24 in.\$1.50 24 to 30 in.\$2.00

DWARF MOUNTAIN PINE. Dense, low growing. Never gets tall. Very hardy; foliage is dark, rich green, needles long and stiff. New growth looks like tiny candles all over the tree.

12 to 15 in.\$1.00 15 to 18 in.\$1.25

JAPANESE UMBRELLA PINE. Odd shape, short stocky stems, with flattened top. Needles light green. A useful dwarf evergreen.

12 to 15 in. \$0.65 15 to 18 in.\$1.00

SCOTCH PINE. One of the finest for windbreaks and a popular landscape tree. Slender dark green needles; bushy growth. Makes a handsome tree.

18 to 24 in.\$1.00 24 to 30 in.\$1.50

RETINOSPORA ERICOIDES. A very pretty, dense little plant of the Tom Thumb type, adding a purplish shade during winter.

12 to 15 in. \$0.65 15 to 18 in.\$1.00

RETINOSPORA FILIFERA. Thread-like, deep green foliage, broad upright grower, drooping branches. Valuable in group plantings

15 to 18 in.\$0.75 18 to 24 in.\$1.00

RETINOSPORA FILIFERA AUREA. Like above except foliage is a beautiful golden color.

18 to 24 in.\$2.00

RETINOSPORA LEPTOCLADA. A dense round-headed bush bright green in summer, changing to steely bronze in winter.

15 to 18 in.\$0.75 18 to 24 in.\$1.00

RETINOSPORA LUTESCENS (Golden Globe Retinospora). Bright yellow tipped branches, forms a low broad flat growing bush.

9 to 12 in.\$0.65 15 to 18 in.\$1.00

12 to 15 in.85 18 to 24 in.1.50

RETINOSPORA OBTUSA. A slender rapid growing plant. Dark green foliage. Graceful.

15 to 18 in.\$0.75 18 to 24 in.\$1.00

RETINOSPORA OBTUSA CRIPPSI. A beautiful species of the Japanese Cypress with graceful, arching, dark green foliage shading to a bright gold at the tips. One of the best golden colored ones.

15 to 18 in.\$1.25 18 to 24 in.\$1.75

RETINOSPORA OBTUSA YOUNGI. An upright grower; branches tinged with a greenish-yellow.

15 to 18 in.\$0.75 18 to 24 in.\$1.00

RETINOSPORA PISIFERA. Foliage bright green, hardy, rapid open growing tree.

15 to 18 in.\$0.75 2 to 3 ft.\$1.25

18 to 24 in.1.00 3 to 4 ft.1.75

RETINOSPORA PISIFERA AUREA. Same as above except branches are golden tipped.

15 to 18 in.\$0.75 2 to 3 ft.\$1.25

18 to 24 in.1.00 3 to 4 ft.1.75

RETINOSPORA PLUMOSA. The main branches are rather upright in growth, with the side shoots bearing plume-like foliage, giving the tree a feathery appearance. A very popular evergreen.

15 to 18 in.\$0.75 2 to 3 ft.\$1.25

18 to 24 in.1.00 3 to 4 ft.1.75

RETINOSPORA PLUMOSA AUREA. Same as the above except foliage is golden.

15 to 18 in.\$0.75 2 to 3 ft.\$1.25

18 to 24 in.1.00 3 to 4 ft.1.75

RETINOSPORA PLUMOSA GOLDDUST. A type of R. Plumosa Aurea but a much brighter yellow.

18 to 24 in.\$1.25 2 to 3 ft.\$1.75

RETINOSPORA SQUARROSA SULPHUREA. Same as R. Squarrosa Veitchi except foliage is a sulphur yellow and is slower growing.

18 to 24 in.\$1.00 24 to 30 in.\$1.50

RETINOSPORA SQUARROSA VEITCHI. Its silvery blue foliage is soft and extremely graceful. An upright grower. Stands clipping well.

15 to 18 in.\$0.75 2 to 3 ft.\$1.25

18 to 24 in.1.00 3 to 4 ft.1.75

BLACK HILL SPRUCE. Foliage a bright green. Slow grower, compact and bushy. Very hardy.

15 to 18 in.\$1.00 18 to 24 in.\$1.25

COLORADO BLUE SPRUCE. A native of the Rocky Mountains; foliage bluish green, rigid and sharply pointed. Tall, conical grower.

18 to 24 in.\$2.00 24 to 30 in.\$2.00

KOSTER'S BLUE SPRUCE. Foliage pronounced silvery blue. Makes a prominent specimen in any evergreen planting. Note our low price.

24 to 30 in.\$10.00

NORWAY SPRUCE. A splendid tree for wind-breaks, hedges, or as single specimens; the branches are spreading, slightly drooping at the tips.

18 to 24 in.\$0.75 2 to 3 ft.\$1.25

WHITE SPRUCE. Light bluish green foliage. Hardy all through the northern states and Canada.

15 to 18 in.\$1.00 18 to 24 in.\$1.25

CANADIAN YEW. Spreading or vase shape. Dark green in summer with a tinge of red in winter. Hardy. Can be trimmed in any shape desired.

15 to 18 in.\$1.50 18 to 24 in.\$2.00

GOLDEN ENGLISH YEW. A golden form of the Upright English Yew. Slow grower.

9 to 12 in.\$1.00 12 to 15 in.\$1.50

SPREADING ENGLISH YEW. A spreading form of the above and much hardier.

12 to 15 in.\$1.25

UPRIGHT ENGLISH YEW. An upright growing form. Foliage a dense dark green. Not as hardy as the Japanese type.

18 to 24 in.\$1.25 24 to 30 in.\$2.50

HICK'S YEW. A distinctly columnar type, growing about 6 to 8 feet tall. Somewhat similar to the Irish Yew, but hardy in New England.

18 to 21 in.\$2.00 21 to 24 in.\$2.50

UPRIGHT JAPANESE YEW

IRISH YEW. The much prized narrow columnar Yew of very slow growth. Very beautiful. Much prized for formal decoration.

9 to 12 in.\$1.50 12 to 15 in.\$2.00

DWARF JAPANESE YEW. Foliage very dense, dark green, short needles. Very slow grower.

9 to 12 in.\$1.50

SPREADING JAPANESE YEW. A spreading type of the above. Slow growing, very hardy.

12 to 15 in.\$1.25

UPRIGHT JAPANESE YEW. Slow growing; dense green foliage of upright growth. Yews are classed as the "Aristocrats" of Evergreens.

15 to 18 in.\$1.00 18 to 24 in.\$1.25

Broad-Leaf Evergreen Shrubs

ABELIA GRANDIFLORA. Probably one of the very best of the evergreen flowering shrubs. Begins blooming early in summer and keeps it up till frost. Flowers a delicate pink turning to white.

18 to 24 in.\$0.50 2 to 3 ft.\$0.75

ARCTOSTOPHYLOS UVA-URSI (Bearberry). A low, gray carpeting creeping vine. Rather large, scarlet berries. Fine ground cover in sun or shade.

3 year trans.\$0.50.

AZALEA AMOENA. Flowers rosy purple, in dense masses. Hardy and early flowering. The foliage assumes a pleasing bronze tint in fall and winter months.

6 to 8 in.\$0.50 10 to 12 in.\$1.00

8 to 10 in.75 12 to 15 in. 1.25

AZALEA HINODEGIRI. Flowers brilliant scarlet, foliage rounded and deep green. The flowers are produced so profusely as to completely cover the plant. Probably the most popular Azalea grown.

6 to 8 in.\$0.60 10 to 12 in.\$1.10

8 to 10 in.85 12 to 15 in. 1.50

AZALEA INDICA ALBA. Very large, white flowers. Good grower and profuse bloomer.

10 to 12 in.\$1.00 12 to 15 in.\$1.35

AZALEA MACRANTHA. A salmon red, resembling Hinodegiri but about a month later. Glossy, dark green foliage.

8 to 10 in.\$1.00 10 to 12 in.\$1.25

AZALEA YAYEGIRI. Beautiful salmon-red; narrow, intense green foliage. Very attractive.

6 to 8 in.\$0.75

BERBERRIS JULIANAE. You will find this variety most unusual. The berries or fruit are blue-black, and the foliage, long, dark green, is retained through the winter. Especially recommended.

12 to 15 in.\$0.75 15 to 18 in.\$1.00

BERBERRIS SARGENTIANA. A dense bush with shining deep green foliage, the new growth being bronze and coppery-red. Clusters of yellow flowers in spring and blue-black berries in autumn.

12 to 15 in.\$0.75 15 to 18 in.\$1.00

BERBERRIS SUBCAULIALATA. A lovely new semi-evergreen Barberry from China. It forms a compact bush with graceful, reflexed branches; the leaves are small and of a beautiful glaucous tint; produces coral-pink berries which are exceedingly attractive in autumn. Very, very pretty.

15 to 18 in.\$0.75 18 to 24 in.\$1.00

BUXUS ARBORESCENS. The true Tree Box. Loose, graceful habit of growth. Tree attains 20 ft.

15 to 18 in.\$0.75 18 to 24 in.\$1.00

BUXUS HANDSWORTHII. Upright growing. For informal planting, or clipped to columnar form.

15 to 18 in.\$0.75 18 to 24 in.\$1.00

BUXUS KOREANA. Seldom exceeding 2 feet in height. Small, wedge-shaped leaves. A hardy Box suitable for specimens or low edgings as far north as Massachusetts or farther.

6 to 8 in.\$0.50 8 to 10 in.\$0.75

BUXUS SEMPERVIRENS. The Common Box. Makes a fairly rapid growth but always compact, dark and lovely green foliage. In time it makes bushes several feet through and as much high.

8 to 10 in.\$0.50 12 to 15 in.\$0.85

10 to 12 in.65 15 to 18 in. 1.00

BUXUS SUFFRUTICOSA (The True Old English Dwarf Box). This is the Box you see so much of at Mount Vernon and other Old Southern Estates. Useful for edgings, walks, and for specimen plants. Our cuttings are from plants 6 to 8 feet tall and more than 150 years old. We make a specialty of Boxwood and now have more than a quarter million plants. Ask for prices in large quantities.

4 to 6 in.\$0.25 8 to 10 in.\$0.065

6 to 8 in.40 10 to 12 in.90

12 to 15 in. 1.25

COTONEASTER HENRYI. Tall growing variety with bright red fruits. Very beautiful at all times.

18 to 24 in.\$0.50 2 to 3 ft.\$0.75

COTONEASTER HORIZONTALIS. Good plant for Rock Garden work as well as for other purposes. Bright vermillion berries. Leaves cover beautifully in autumn. Distinctive and attractive.

8 to 12 in.\$0.50 12 to 15 in.\$0.75

There is nothing more showy than an Azalea

COTONEASTER MICROPHYLLA. White flowers followed by crimson berries. A good Rockery plant.

8 to 12 in.\$0.50 12 to 15 in.\$0.75

COTONEASTER SALICIFOLIA FLOCOA. Willow-leaf Cotoneaster. A large growing shrub of graceful habit, bright red fruits extending well along the branches. Beautiful as a specimen plant.

18 to 24 in.\$0.50 2 to 3 ft.\$0.75

ELAEOAGNUS FRUITLANDI. A vigorous spreading shrub, with long 4-inch leaves, heavily frosted with silvery scales. Beautiful, large, silvery bronze berries in the fall.

12 to 18 in.\$0.50 18 to 24 in.\$0.75

EUONYMUS JAPONICA. A very useful and decorative evergreen with deep green lustrous foliage. Useful for window boxes, rockeries, etc.

12 to 15 in.\$0.50 15 to 18 in.\$0.75

EUONYMUS SILVER QUEEN. Like the above except the leaves have a narrow margin of silver.

12 to 15 in.\$0.50 15 to 18 in.\$0.75

EUONYMUS RADICANS (Winter Creeper). A Japanese evergreen trailer with dark, glossy green, dense foliage. Hardy.

18 to 24 in.\$0.35 24 to 30 in.\$0.50

EUONYMUS RADICANS COLORATO. A form of Radicans but has rich purple leaves in winter.

18 to 24 in.\$0.35 24 to 30 in.\$0.50

YUCCA FILAMENTOSA

EUONYMUS RADICANS KEWENSIS. A trailer with tiny green leaves and a real beauty.

Nice 3-year plants\$0.25

EUONYMUS PULCHELLUS. The Box leaved Euonymus. Grows 6 to 9 inches tall and has small, dark green foliage. Fine for edging and pots.

3 to 4 in.\$0.15 4 to 6 in.\$0.20

HEDERA HELIX (English Ivy). The rich dark green climber so well known. Grows on walls, on trees and makes a dense mat for a ground cover.

Nice 3-year plants\$0.25

ILEX CRENATA (Japanese Holly). Open, rapid grower, dark green, glossy leaves; ink-black berries. Valuable for formal work when clipped, for specimens and in borders with bright-fruited plants.

15 to 18 in. 1.00 21 to 24 in. 1.50
12 to 15 in.\$0.75 18 to 21 in.\$1.25

ILEX GLABRA. An evergreen shrub growing to 6 feet tall, with shining, dark green leaves and a profusion of glittering black berries through the winter. Hardy and grows well in the shade.

15 to 18 in.\$0.75 18 to 24 in.\$1.00

ILEX OPACA (American Holly). There is no prettier native evergreen tree than an American Holly full of beautiful red berries in winter. We are growing these in grafted plants that will be sure to bear berries. Costs more but worth more.

2 to 3 ft.\$2.50 3 to 4 ft.\$3.50

LIGUSTRUM LUCIDUM (Evergreen Privet). A handsome evergreen from China. Very large dark green leaves, flowers white. Good for planting in with other evergreens.

12 to 15 in.\$0.50 18 to 24 in.\$1.00
15 to 18 in.75 24 to 30 in. 1.25

LONICERA JAPONICA HALLIANA (Hall's Japanese Honeysuckle). A climbing Honeysuckle with delightfully fragrant, white flowers, changing to a light yellow. Thrives equally well in sun or shade.

Nice 3-year plants\$0.25

LONICERA NITIDA. A splendid evergreen with small, glossy leaves of dense compact growth.

9 to 12 in.\$0.40 12 to 15 in.\$0.50

NANDINA DOMESTICA (Heavenly Bamboo). The color in summer a light green with a reddish cast, in winter its long, narrow leaves are the most beautiful red imaginable. Has great bunches of red berries in late fall and winter. Very attractive.

18 to 24 in.\$1.00 24 to 30 in.\$1.25

OSMANTHUS AQUIFOLIUM. Dark green shiny holly-like leaves and clusters of exceedingly fragrant small white flowers. Slow growing.

15 to 18 in.\$1.00 18 to 24 in.\$1.50

PHOTINIA SERRULATA (Chinese Hawthorn). The young growth in spring is a deep chocolate red. Small white Hawthorn-like flowers, in flat corymbs. Very attractive at all seasons.

18 to 24 in.\$1.00 24 to 30 in.\$1.50

RHODODENDRON DR. H. C. DRESSELHUIJS. Glittering crimson flowers and trusses of unusual size. One of the best reds. Recently imported.

15 to 18 in.\$3.50 18 to 24 in.\$4.50

RHODODENDRON PRESIDENT LINCOLN. Very showy flowers of a bright clear rosy crimson.

18 to 24 in.\$3.50 24 to 30 in.\$4.50

RHODODENDRON ROSEUM ELEGANS. Popular brilliant rose-pink; vigorous and hardy.

18 to 24 in.\$3.50 24 to 30 in.\$4.50

VIBURNUM RHYTIDOPHYLLUM (Leatherleaf Viburnum). Large, oblong leaves, deep green above gray beneath. A bold handsome shrub.

2 to 3 ft.\$1.50 3 to 4 ft.\$2.00

YUCCA FILAMENTOSA. Long lance-like leaves. Tall flower spikes grows up quickly in June-July. Numerous creamy flowers and general appearance give a tropical effect. Leaves very tough.

Field grown, extra heavy clumps\$0.75

Below is a picture of one of our 6 to 8 inch size *Buxus Suffruticosa* (Old English Boxwood). We want you to notice the dense mass of roots on this boxwood. Our soil is especially adapted to the culture of this plant. We are now growing more than a quarter of a million and can make very low prices on large lots as you will note.

100 100
3 to 4 in. \$6.00 \$50.00
4 to 6 in. 8.00 75.00
6 to 8 in. 12.50 100.00

We can also furnish this Boxwood in sizes up to 21 inches. Ask for prices on sizes not listed, stating quantity wanted. Remember this Boxwood has been one or more times transplanted and carefully grown and manured and you can depend upon it going right on growing when you get it.

ORDER RIGHT NOW

ORNAMENTAL TREES SHRUBS

ACER PALMATUM ATROPURPUREUM (Blood Leaved Japanese Maple). A very striking tree in spring when its leaves are blood red; later they change to dark purple, retaining this attractive color throughout the season.

15 to 18 in.\$2.25 18 to 24 in.\$3.00

ACER RUBRUM (Swamp Maple). Fragrant scarlet flowers in early spring, and dense foliage which assumes a gorgeous color in autumn. Thrives in wet situations where no other Maple will grow.

5 to 6 ft.\$0.75 6 to 8 ft.\$1.00

ALTHEA (Rose of Sharon). Begins blooming in early summer and continues through the autumn months. Double purple. Upright, hardy.

13 to 24 n.\$0.25

AMELANCHER CANADENSIS. White flowers in April; fruit juicy, of good flavor. Good to eat.

15 to 18 inch heavy clumps\$0.75

AMORPHA FRUTICOSA. Strong growing shrub with finger-like spikes of Indigo-blue flowers.

18 to 24 in.\$0.35 2 to 3 ft.\$0.50

ARONIA ARBUTIFOLIA (Red Chokeberry). A very ornamental shrub, leaves wooly beneath, bright tints in autumn; pure white flowers, red berries.

18 to 24 in.\$0.50

AZALEA MUCRONULATA. One of the earliest to bloom. Rose-lavender flowers. Hardy in New England. Tall growing.

12 to 15 in.\$1.25 15 to 18 in.\$1.50

AZALEA POUKHANENSIS. The rose-pink to rose-purple, fragrant flowers are produced abundantly in early spring. Low spreading habit. Is very hardy in New England.

8 to 10 in.\$0.75 10 to 12 in.\$1.00

AZALEA VISCOSA (Swamp Honeysuckle). The flowers are pure white sometimes flushed with pink. Late blooming. Grows in low, swampy soils.

12 to 18 in.\$0.75 18 to 24 in.\$1.00

AZALEA YODOGAWA. Purplish-pink brilliant flowers in early spring. A semi-evergreen Azalea.

8 to 12 in.\$1.00 12 to 15 in.\$1.25

BENZONIN AESTIVALE (Spice Bush). Golden flowers along branches before leaves come out. The foliage and bark aromatic, berries red and spicy.

2 to 3 ft.\$0.50

BUTTERFLY BUSH. Bushes are covered with long racemes of lilac-colored flowers in mid-summer. Attracts butterflies. Sometimes called summer lilac.

18 to 24 in.\$0.25 2 to 3 ft.\$0.35

CALLICARPA PURPUREA (Beautyberry). Tiny pink-tinted flowers cover the branches in August, followed by great masses of violet-purple berries, which remain on the plant until midwinter.

2 to 3 ft.\$0.50 3 to 4 ft.\$0.65

Lombardy Poplars and California Privet Hedge

CALYCANTHUS FLORIDUS (Sweet Scented Shrub). Wood is fragrant; flowers a chocolate color having an agreeable odor; flowers in June.

18 to 24 in.\$0.25 24 to 30 in.\$0.35

CERCIS CANADENSIS (Redbud). A profusion of deep pink flowers covers the tree in April before the leaves appear. One of the finest ornamentals.

3 to 4 ft.\$0.50 4 to 5 ft.\$0.65

CORNUS FLORIDA (White Flowering Dogwood). Probably the best of our native flowering trees. It produces showy white flowers in May before the leaves appear. In autumn the grayish green foliage turns dark red followed with brilliant red berries.

18 to 24 in.\$0.35 4 to 5 ft.\$0.75

2 to 3 ft.\$0.50 5 to 6 ft.\$0.85

3 to 4 ft.\$0.65 6 to 7 ft.\$1.00

CORNUS FLORIDA, RUBRA (Red Flowering Dogwood). Same as above except flowers are red.

2 to 3 ft.\$1.25 3 to 4 ft.\$1.50

CORNUS MAS (Cornelian Cherry). Handsome little tree with yellow flowers before the leaves, and studded in autumn with immense quantities of scarlet fruits. Makes a stunning display in autumn.

2 to 3 ft.\$0.50 3 to 4 ft.\$0.65

CORNUS STOLONIFERA. (Red Twigg Dogwood). The red twigs make a very pretty picture in winter in contrast with the green of evergreens.

3 to 4 ft.\$0.40 4 to 5 ft.\$0.50

CAPE MYRTLE. A favorite flowering shrub south of Philadelphia. We have pink and red.

2 to 3 ft.\$0.75 3 to 4 ft.\$1.00

CRATAEGUS OXYACANTHA (Paul's Scarlet Thorn). Small, quick growing tree. Flowers bright carmine in early summer. Thorny glossy leaved.

4 to 5 ft.\$1.00 5 to 6 ft.\$1.25

MAGNOLIA SOULANGEANA

CRAPE MYRTLE

CRATAEGUS CORDATA (Washington Hawthorn). Beautiful autumn colors and large clusters of bright red fruit which remains on the branches a long time.
3 to 4 ft.\$0.65

CRATAEGUS CRUSGALLI (Cockspur Thorn). The long, sharp thorns and glossy, green foliage, which turns brilliant orange and scarlet in the fall.
18 to 24 in.\$0.50 2 to 3 ft.\$0.60

CYDONIA JAPONICA (Japanese Quince). The old-fashioned favorite, scarlet flowers in May, followed by Quince-like fruit.
18 to 24 in.\$0.30 2 to 3 ft.\$0.40

DEUTZIA GRACILIS. Slender branches, dwarf habit. White flowers in June. Fine for borders.
12 to 15 in.\$0.25 15 to 18 in.\$0.35

ELAEOGNUS AUGUSTIFOLIA (Russian Olive). A spreading somewhat spiny bush, with wooly leaves and fragrant yellow flowers. Attractive in fruit.
12 to 18 in.\$0.25 18 to 24 in.\$0.35

ELM AMERICAN. A noble native tree of great size and wide spread, with graceful drooping branches and handsome leaves. Good for planting in yards, along highways and in parks.
6 to 8 ft.\$0.65 10 to 12 ft.\$1.00
8 to 10 ft.\$.85 12 to 14 ft.1.50

ELM CHINESE (Pumila). A quick growing tree in the west but not as rapidly in the east. Foliage small and dense, growth symmetrical and compact.
5 to 6 ft.\$0.75 6 to 7 ft.\$1.00

ENKIANTHUS CAMPANULATUS. A very hardy shrub from Japan. The bell-shaped flowers, borne profusely in racemose clusters, are yellow, deeply stained and striped with salmon and crimson. Leaves turn a wonderful color in autumn.
2 to 3 ft.\$1.00 3 to 4 ft.\$1.25

FORSYTHIA (Golden Bell). A sure harbinger of spring. Their combination of yellow flowers and green branches make a pretty picture.
2 to 3 ft.\$0.35 3 to 4 ft.\$0.50

HYDRANGEA A. G. (Snowhill Hydrangea). Its large clusters of snow-white flowers appear from June to the middle of September. Good in shade.
2 to 3 ft.\$0.35 3 to 4 ft.\$0.50

HYDRANGEA PANICULATA GRANDIFLORA. The showiest of the autumn shrubs, bearing immense heads of creamy white flowers, turning to reddish.
2 to 3 ft.\$0.35 3 to 4 ft.\$0.50

JASMINE NUDIFLORUM (Winter Jasmine). A graceful spreading shrub. Semi-trailing, slender, green branches. Blooms profusely in January and February. Suitable for slopes and banks.
15 to 18 in.\$0.35 18 to 24 in.\$0.50

KOLKWTZIA AMABILIS (Beautybush). A new shrub from Korea, hardy in New England, Making long sprays of graceful foliage and completely buried in delicate pink flowers like tiny weglia blossoms, tinted with yellow in the throat. Good.
18 to 24 in.\$0.50

KOELREUTERIA PANICULATA (Goldenrain Tree). A very ornamental tree with handsome, light green foliage and large clusters of yellow flowers.
2 to 3 ft.\$0.50 3 to 4 ft.\$0.65

KERRIA JAPONICA (Globe Flower). A handsome green leaved and twigged shrub. Dark yellow globe shaped flowers all summer, slender branches. Nice twice transplanted plants\$0.35

LARCH EUROPEAN. A tall and handsome deciduous conifer, particularly beautiful in early spring when covered with soft and feathery foliage of a delicate green. Creates a very graceful effect.
2 to 3 ft.\$0.60 3 to 4 ft.\$0.85

LARCH JAPANESE. Another deciduous conifer. Rapid grower. Soft blue-green needles.
2 to 3 ft.\$0.60 3 to 4 ft.\$0.85

LIQUIDAMBER STYRACIFLUA (Sweet Gum). A native tree of rapid growth, corky bark and star-shaped leaves. One of the most beautiful trees for fall color. Spring planting is preferred.
5 to 6 ft.\$0.75 6 to 8 ft.\$1.00

LIRIODENDRON TULIPIFERA (Tulip Tree). This large, symmetrical tree has smooth bark, glossy, light green leaves and spreading branches. The flowers tulip-like, greenish yellow, blotched orange.
8 to 10 ft.\$1.25 10 to 12 ft.\$1.75

LONICERA MORROWI. One of the finest berry-bearing Honeysuckles, the fruit being a rich crimson and remaining on a long time. Yellow flowers.
3 to 4 ft.\$0.50 4 to 5 ft.\$0.65

MAGNOLIA GLAUCA (Sweet Magnolia). A beautiful, small shrubby tree, thriving in any good soil, and useful for positions too damp for many trees. The rich, glossy green foliage is glaucous beneath, giving the whole a silvery sheen. The cream-white wax-like flowers are highly fragrant.
3 to 4 ft.\$1.00 4 to 5 ft.\$1.50

A Roadside of California Privet and Maples

MAGNOLIA LENNI. Strong growing, purple colored, cup-shaped blossoms. Foliage dark green Blooms in April. A very popular Chinese Magnolia.
2 to 3 ft.\$3.00

MAGNOLIA LILIFLORA NIGRA. The Purple Lily Magnolia is a very large shrub with broad foliage. It puts forth its dark purple flowers with petals about 4 to 5 inches long, pink inside, early in the spring before the foliage unfolds and continues intermittently all during the summer.
18 to 24 in.\$1.50 3 to 4 ft.\$3.00
2 to 3 ft.2.00 4 to 5 ft.4.00

MAGNOLIA SOULANGEANA (Saucer Magnolia). Flowers large, cup-shaped; white, more or less suffused with pink. Blooms early in spring.
2 to 3 ft.\$3.00

PHILADELPHUS CORONARIUS (Mock Orange) Pure white flowers in dense clusters; fragrant.
18 to 24 in.\$0.25 2 to 3 ft.\$0.35

PHILADELPHUS GRANDIFLORA. A strong growing shrub with large white odorless flowers.
18 to 24 in.\$0.25 2 to 3 ft.\$0.35

PHILADELPHUS VIRGINAL. Petals are pure white and sweet scented; large; blooms all summer
2 to 3 ft.\$0.35 3 to 4 ft.\$0.50

PHYSOCARPUS OPULIFOLIUS (Common Nine-bark). White flowers along the stems, from which the bark hangs in long shreds and strips.
12 to 18 in.\$0.25 3 to 4 ft.\$0.50

PLATANUS ORIENTALIS (Oriental Plane). Another excellent street and park tree with broad, round head on comparatively short trunk, and dullish gray or greenish white bark. A rapid grower.
6 to 8 ft.\$0.75 8 to 10 ft.\$1.00

POPULUS NIGRA ITALICA (Lombardy Poplar). This upright, and extremely rapid-growing tree has bright, pale green leaves, lighter beneath, and branches down to the ground. Useful for screens.
5 to 6 ft.\$0.50 6 to 8 ft.\$0.75
8 to 10 ft.1.00 10 to 12 ft.1.25

QUERCUS RUBRA (Common Red Oak). A broad tree of rapid growth with large, rich green foliage that turns bronzy red in fall. Will grow in poor soil.
3 to 4 ft.\$0.75 4 to 5 ft.\$1.00

RHODOTYPOS KERRIOIDES (White Kerria). An interesting, shrub from Japan. The Syringia-like flowers bloom from May on through the season.
18 to 24 in.\$0.30 2 to 3 ft.\$0.40

SOPHORA JAPONICA (Japanese Pagoda Tree). Grows about 80 feet high and has feathery foliage and yellowish pea-like blossoms somewhat like those of a Wisteria. Good grower most anywhere.
2 to 3 ft.\$0.35 3 to 4 ft.\$0.40

SPIREA ANTHONY WATERER. Very low growing; bears flat heads of brilliant crimson blossoms all through the late part of summer.
18 to 24 in.\$0.25 2 to 3 ft.\$0.40

SPIREA FROEBELI. Somewhat like Anthony Waterer but taller growing.
18 to 24 in.\$0.25 2 to 3 ft.\$0.40

SYMPHORICARPOS VULGARIS (Coralberry). The flowers are greenish red, followed by dark, purple red berries in clusters. Does well in shade.
12 to 18 in. \$0.25 2 to 3 ft.\$0.40

VIBURNUM ACERIFOLIUM (Mapleleaf Viburnum). A good shrub for dry soil and under trees. Flowers yellowish. Foliage handsome in autumn.
18 to 24 in.\$0.35 2 to 3 ft.\$0.50

VIBURNUM DENTATUM (Arrow-wood). A very handsome native shrub with glossy green foliage and white flowers in June, followed by crimson berries which turn blue in autumn. Good in shade.
18 to 24 in.\$0.35 2 to 3 ft.\$0.50

VIBURNUM LANTANA (Wayfaring-tree) Of robust growth, having large foliage, silvery underneath. Produces clusters of white flowers in May, followed by red fruit. Especially good in dry soils.
18 to 24 in.\$0.35 2 to 3 ft.\$0.50

WEGELIA ROSEA. A very free-flowering shrub with bright pink flowers. Very beautiful.
18 to 24 in.\$0.25 2 to 3 ft.35

WISTERIA SINENSIS. Hardy, fast, tall growing climber, with long clusters of purplish pea-shaped flowers in May.
2 year strong plants\$0.25

WISTERIA SINENSIS ROSEA. Like the above but producing pink flowers instead of purple. New.
2 year strong grafted plants\$0.75

TAXODIUM DISTICHUM (Bald Cypress). A stately tree with foliage like an evergreen but which is shed in autumn.
5 to 6 ft.\$0.75 6 to 8 ft.1.00

VIBURNUM CARLESII. Very fragrant. Flowers appear very early in clusters 2 to 3 inches across. The color is delicate pink passing to white.
18 to 24 in.\$0.75 24 to 30 in.\$1.00

WISTERIA

Mishawaka, Indiana, April 10, 1932. My stock arrived yesterday and is surely fine. I wish to thank you for the quality of the stock and for the good packing.

Mrs. Ray R. Hunt.

Melrose, Mass., May 2, 1932. I have just received my order. The stock is just perfect. I couldn't have selected more satisfactory stock had I chosen it myself.

Mrs. Walter M. Barrett.

HYBRID LILACS

These new French Hybrid Lilacs bloom very profusely when young, are good growers and may be had in a variety of shades and colors. At the new low prices we are offering them you should order a good assortment.

12 to 18 inch, 30c each, 10 for \$2.50; 18 to 24 inch 40c each, 10 for \$3.00; 2 to 3 feet, 50c each, 10 for \$4.00. Ask for prices on larger sizes and larger quantities.

FLOWERING CRAB APPLES

No flowering tree will bring the gaiety of spring into the garden more colorfully than the Flowering Crabs. Even one tree in a garden will provide a spot of color so delightful and picturesque that we wonder how such pictures could happen. The bright colored little fruits are attractive in the fall and winter. Some like their flavor.

Nice Trees: 3 to 4 ft. 50c each; 4 to 5 ft. 75c each.

ARNOLDIANA (Arnold Crab). One of the best varieties, semi-double pink blossoms, yellow fruit.

ATROSANGUINEA (Carmine Crab). A mass of single, brilliant carmine flowers.

BACCATA (Siberian Crab). Single, white fragrant blossoms, small green or reddish fruit.

CORONARIA (Wild Sweet Crab). A native species with single, white and pink, delightfully fragrant flowers and yellowish-green fruit.

DAWSONIANA (Dawson's Crab). Large white flowers and yellowish-green fruit.

ELEYI (Eley's Crab). Purple to red foliage, wine colored bloom. The best all-over red sort.

FLORIBUNDA (Japanese Flowering Crab). One of the handsomest, having an abundance of bright, pink buds and white flowers, with small yellow fruit.

FLORIBUNDA PURPUREA (Purple Crab). Purple foliage and purple blossoms with dark purple fruit.

HALLIANA PARKMANI (Parkman's Crab). Bright rose-red, double flowers on drooping stems.

IOENSIS PLENA. Bechtel's Crab). Double pink, fragrant flowers like small clustered Roses.

MANDSHURICA (Manchurian Crab). Among the earliest to bloom. Its large pure white flowers. Dark crimson fruit hangs on long stems.

NIEDZWETZKYANA (Redvein Crab). A Russian-Turkestan species remarkable for the red color of its flowers, branches, leaves and fruit.

PRUNIFOLIA RINKI (Chinese Crab). Flowers pink; fruit green or yellow.

ROBUSTA (Cherry Crab). Large white, fragrant flowers and red fruit.

SARGENTI (Sargent's Crab). Dwarf variety, pure white flowers with bright yellow anthers and scarlet fruit lasting until spring.

SCHEIDECKERI (Scheidecker Crab). An early flowering variety with double, bright rose-colored flowers.

SPECTABILIS (Chinese Flowering Crab). Large, fragrant, pink semi-double flowers; yellow fruit.

ZUMI (Zumi Crab). Pink and white flowers and bright scarlet fruit.

FLOWERING CRABAPPLE

Roses for Every Home

Hybrid Tea or Everblooming Roses

Two Year No. 1 Plants, 45c each; \$4.00 per 10 of one variety

BETTY UPRICHARD. A charming type with rolling edges, a blend of deep toned carmine with coppery orange; the interior being mostly a delicate salmon.

BRIARCLIFF. A bright, clear, Columbia rose-pink, with high pointed center and few imperfect flowers, sweetly scented.

DAME EDITH HELEN. A magnificent, fragrant, full-bodied new rose of many substantial petals which curl back prettily, holding steadily to one vivid pink color.

MARION CRAN. A truly remarkable novelty exhibiting a brand new color expression with each phase of its flower development. At first—deep buttercup yellow, margined and flushed cerise. Next, as it opens—the outside of the petals retain their color, but the inside is geranium scarlet flushed yellow and veined orange. At last—the whole is rosy scarlet overlaid deep cerise, with a flush of buttercup.

MRS. CHARLES BELL. Soft shell pink with a salmon background. It retains its full globular shape an unusually long time.

Hardy Climbing Roses

2 year No. 1 plants 30c each; \$2.50 for 10

AMERICAN BEAUTY Climbing. Healthy foliage and strong growth; the abundant bloom as lovely and deep pink as the bush form.

DR. HUEY. Similar in habit and flower form to Paul's Scarlet Climber, but more brilliant and showy because its color is intense dark crimson and the prominent golden stamens more noticeable in expanded flowers.

DOROTHY PERKINS. The ideal pink Rambler; flowers densely quilled and numerous; a beautiful shell pink.

EUGENE JACQUET. Fragrant cherry-red flowers borne profusely in very large clusters.

MARY WALLACE. Large, very bright pink flowers illumined with shining gold; double, cup-shaped, moderately fragrant. Of splendid vigor and has superb foliage.

PAUL'S SCARLET CLIMBER. Intense scarlet flowers of excellent shape and moderate size, borne in small trusses. Plant of moderate growth; foliage good; blooms very liberally. Makes a brilliant display.

When sent to you our Roses are properly pruned, ready for setting.

Our Rose Bushes are all field-grown outdoors. We do not handle spent greenhouse roses or inferior plants of any kind. We are proud of the Roses we are offering this year and we know you will be proud to receive such nice stock as we will send you. They are not as cheap as some that are being offered but we know you will get what you pay for when you buy our roses or any other stock we offer.

MISS ROWENA THOM. A vigorous novelty adapted to widely varied climatic conditions and general garden usage. Its flowers are of noble proportions, full bodied and five inches or more in diameter, borne freely and unremittingly all summer; the buds are long and shapely. Brilliant rose-pink, intensified by a golden suffusion at base of petals.

RADIANCE. Extra hardy, vigorous and prolific; one of the best all-around garden roses. Its color is a beautiful blending of carmine rose with shades of opal and copper.

RED RADIANCE. An even better rose than its parent, Radiance in habit, bearing big, globular flowers of deep rose-red on strong individual canes which are freely produced all summer until frost. Foliage good.

TALISMAN. The most gorgeous assemblage of colors in one flower ever presented in a rose. Here are the strong colors exhibited, mostly in well defined angular blocks; gold, apricot-yellow, blood-orange, deep pink and old rose. The bud is long and shapely, developing into medium-sized, compactly double flowers; a free bloomer with glossy foliage.

HUGONIS ROSE

"The Golden Rose of China"
Blooms Early in May, Three Weeks
Before Other Roses

This native of China takes first place among the single flowered roses. Clear yellow, delicately fragrant flowers over 2 inches across, borne so abundantly on gracefully arching branches as to form a continuous band of color. Foliage fine, pale green and distinct, on curious red tipped twigs. Makes a symmetrical shrub about 6 feet wide and as high when matured. Hardy anywhere in America. 2-yr. 50c; 3-yr. \$1.00 each.

Baby Ramblers

2 year No. 1 plants, 50c each; \$4.00 per 10

GOLDEN SALMON. A recent novelty, and one of the most attractive. The flowers are large, semi-double, thickly clustered, and never missing throughout the entire season. Color a beautiful red-salmon overlaid with a sheen of orange and gold, the light eye daintily conspicuous.

DAHLIAS AND GLADIOLI

No summer flowering garden is complete without the Dahlia and the Gladiolus, and you will find the "Cream of the List" in the following assortment. This list has been selected from among hundreds of varieties. Give your garden a treat this summer with some of these bulbs and it will repay you manyfold with an abundance of bloom until frost comes. The stock we furnish is all first class in every way.

Dahlias

CITY OF TRENTON. Blooms are very large, held erect on long stiff stems well above the foliage. The front of the petals are a rich glowing tangerine orange, while the reverse is a crushed strawberry red. The gracefully curled petals give a two-toned effect, creating an impression of whorls of flame radiating from a full glowing center. A superb flower of great beauty. 50c each, 3 for \$1.25.

EAGLE ROCK BEAUTY. It would be difficult to imagine a more beautiful combination of pink and cream than is displayed in this dahlia. A giant among giants, it is in a class all its own. Vigorous in growth with good habit. Strong stems hold the flower perfectly erect; the immense blooms are full to the center. 40c each, 3 for \$1.00.

ELITE GLORY. Immense flowers of rich red, without a maroon or purple shade. It has been the sensation of the shows for four years, and dominates the red decorative class wherever shown.

40c each, 3 for \$1.00.

JANE COWL. A massive deep decorative with curled and twisted petals. A glistening, bronzy buff and old-gold blending to a deeper shade toward center, reverse of petals a pale flesh color. An exceedingly strong stem, foliage thick and leathery. One of the very best varieties. 30c each, 3 for 75c.

JERSEY BE' CON. Chinese scarlet with a paler reverse, giving a two toned effect. An exhibition flower of vigorous growth and strong stem.

20c each, 3 for 50c.

JERSEY BEAUTY. Perfect bloom of Erosine pink carried high above the foliage on a good stem. It is truly the beauty of the Dahlia world. This and Jane Cowl are probably the best commercial cut-flower dahlias grown today. 20c each, 3 for 50c.

JERSEY KING. Broad petaled flowers of begonia pink, with splendid stems. A favorite wherever it is grown. 25c each, 3 for 60c.

MRS. I. DE VER WARNER. Of soft orchid coloring seldom appearing among dahlias. Attracts attention wherever exhibited for its charming color, large blooms, and its very long, strong stems. A very free bloomer, good keeper. 20c each, 3 for 50c.

ROMAN EAGLE. Brilliant burnished copper. Beautiful flower and long stiff stems on a large vigorous plant. Very showy. 25c each, 3 for 60c.

ROBERT SCOTT. Very beautiful apricot yellow with rose shades; large, well formed flowers, long stems and free bloomer. 60c each, 3 for \$1.50.

ROSE FALLON. Color, deep rich, old gold shade. beautiful size blooms held on upright, stiff stems. A good cut-flower. 25c each, 3 for 60c.

SAGAMORE. A new exhibition variety of high rank, rare size, perfect form and good stems, a good commercial variety, blooming freely and keeping well after cutting. Color a pleasing shade of amber gold deepening at center. 40c each, 3 for \$1.00.

TRENTONIAN. Giant blooms on extra fine stems. A plant of medium height and a good grower, heavy foliage. Color is a blending of reddish bronze, old gold and amber cooper, and is described as the color of "Indian Skin." 50c each, 3 for \$1.25.

Gladioli

Price 40c per doz., \$2.00 per 100 except as noted.

ALICE TIPLADY. This is considered the very best of the Primulinus on account of the large size and delicate color, which is a beautiful orange-saffron.

E. J. SHAYLOR. Is rapidly coming to the front as the leading pink Gladiolus for cutting. Color a deep rose pink; slightly ruffled.

HENRY FORD. Bright, rich purple blossoms that face outward from the stem in a double row. Often eight pairs of blossoms open at one time. Each spike is a bouquet in itself. 75c per doz., \$4.00 per 100.

HERADA. Pure mauve. Large well formed spikes. A good cut-flower variety.

JEWELL. Considered by many to be one of the very best Primis. A beautiful blending of salmon and yellow. Extra fine.

MYRA. An exquisitely showy and giant-flowered Prim. Yellow with a salmon suffusion; throat yellow with pink lines. Graceful, slender stems.

PEACE. Giant, white flowers of great substance. Probably the most planted white Gladiolus.

ROANOKE. A large, rich yellow Prim. The first yellow to bloom. Vigorous and strong.

ROSE ASH. One of the most popular. The color is an exquisite old-rose, blended with ashes of roses. A lovely combination of colors; finely ruffled, tall, straight spikes. 50c per doz., \$2.50 per 100.

MRS. FRANK PENDLETON. The flowers are of largest size, borne on strong, straight spikes. In color a lovely salmon pink with brilliant deep red blotches in the throat.

Korean Chrysanthemum

A remarkable new perennial of iron-clad hardiness from Korea, forming fine large clumps 2 to 3 feet in both diameter and height. The large, white flowers have golden centers, resembling a glorified Oxeye Daisy, the petals often turning to a light claret pink. It blooms in the greatest profusion in early October to early December. Of easy culture, thriving in any good garden soil. Good for cutting, will keep in room ten days after cutting. There is nothing quite like it for late fall. 25c each, 3 for 60c, \$1.75 per dozen.

Cordova, Ala., April 22, 1932. Plants arrived today after a week on the road, but the roots were damp and I feel sure I will have good luck with them. The stock is much better than I expected to get and I thank you for sending the extra plants. Pope M. Long.

Annapolis, Md., April 8, 1932. I am pleased to inform you that the plants arrived in excellent condition and satisfactory in every way. In the event I desire any of your other stock, I shall be glad to place my order with you. Ferry Farms.

READ THE TESTIMONIALS. They are all genuine. You can write them if you wish as we have included their full address. We have selected them from different sections of the country to show you that we pack them so that they will carry to any part of the United States and arrive in good condition. We have had 26 years experience and know how.

Japanese Barberry. Good for specimens or hedges.

JAPANESE BARBERRY (BERBERIS THUNBERGI)

The Japanese or Barberry Thunbergi is a beautiful plant with drooping branches, spoon-shaped leaves, with foliage a brilliant shade of green in the summer. From autumn until early winter the leaves are of a rich crimson and the branches are loaded with scarlet berries. Even in winter it is very attractive as the berries stay on and the closely interwoven branches are thickly set with spines and never grow bare. We cannot recommend this hardy Barberry too highly for hedge planting. It is dog and cat proof and is good for planting singly or in clumps to itself and is also good when planted in with other plants. It protects evergreens from dogs and makes a beautiful contrast. The Japanese Barberry is not subject to rust and may be used in any state. They should be planted from 12 to 18 inches apart and may be kept trimmed if desired.

RED OR PURPLE LEAF JAPANESE BARBERRY

This is the same as the regular Japanese Barberry except that the leaves are a beautiful red and purple color all through the summer and fall months. Just as hardy.

CALIFORNIA PRIVET (LIGUSTRUM OVALIFOLIUM)

California Privet is one of the best hedge plants. It grows rapidly and soon makes dense hedge several feet tall. The foliage is very attractive and remains on the plant until late in the season. They may be trimmed to any shape or form. Set plants about 6 inches apart and a little deeper than they were in the nursery.

2 yr., 12 to 18 in.	.30	2.00	15.00	3 yr., 2 to 3 ft.	.50	3.00	25.00

GOLDEN VARIEGATED LEAF CALIFORNIA PRIVET

This Privet is similar to the regular green leaf California Privet except the leaves are a beautiful variegated golden color. We believe our strain is one of the best for brilliance of color that is being grown by any nurseryman and is very heavily branched.
