The Leading Fruit Growers in Every Fruit Growing Section Prefer Harrison Grown Fruit Trees and Fruit Plants

New Lower Prices

Now Every Planter Can Buy Dependable True to Name Harrison Grown Fruit Trees at Prices No Higher Than the Ordinary Tree.

The World's Foremost Fruit Variety Identification Specialists Have Examined Harrison Grown Trees and Pronounced Them True To Name.

In addition to carefully selecting the propagating wood from bearing trees of superior strains we have also employed the services of Dr. J. K. Shaw, Research Professor of Pomology of Massachusetts State College, Amherst, Mass., and of Dr. W. H. Upshall of the Vineland Ontario Canada Experimental Station. These two men are the World's foremost fruit identification specialists and they have pronounced our trees true to name.

Because They Are

- * Absolutely True to Name
- * Healthy — Vigorous
- * Disease free
- * Hardy
- * Properly hardened off before digging
- * Propagated from bearing trees of selected strains
- * Come into bearing earlier
- * Yield bigger crops of better fruits
- * Have larger roots
- * Take hold quickly in new locations
- * The best trees for less money

Fifty Five Years of Progress

In order for us to maintain our leadership in the growing and selling of fruit trees we must know the requirements of the fruit growing industry of our country. As progressive nurserymen we aim to supply the quality of trees that can be depended on for producing profitable crops of Quality Fruits.

We are constantly on the alert and cooperate with the leading Horticulturists and fruit growers of the Nation in order to offer our customers the best type of trees that it is possible to produce and at prices planters can afford.

Harrisons' Test Orchards comprise thousands of trees of all the standard sorts, as well as selected strains of the older kinds and new varieties which have been recently developed. From these selected strain trees from all parts of the World we select as our mother plants those trees which exhibit the best characteristics for their respective varieties and from these trees we propagate our young trees.

Dress Up Your Home Grounds
With Harrison Grown Ornamentals

Did you ever realize what a few dollars invested in evergreens, shade trees, shrubs, roses, etc. will add to the value of your property? We grow these items by the hundreds of thousands and at our low prices this season we urge every home owner to take advantage of the opportunity and make his planting now. On pages 5, 6, 7, and 8 you will find some exceptional bargains in high quality ornamentals that will succeed everywhere.

Plant Now.

Fall and early winter during the months of November and early December are recognized by the most experienced planters as one of the best times for planting most varieties of fruit and ornamental nursery stock. By planting at this time you can be sure that the trees, plants and shrubs that you buy are in ripe condition for transplanting. If they are dug before the sap flow normally stops there is a possibility that much damage will be done to the plants in transplanting.

In states bordering and just south of the Mason-Dixon line practically all items can be planted anytime during the winter that the ground is free from frost.

Do Not Let A Few Light Frosts And Freezes Delay Your Planting This Year.

Fall and winter planted stock has one great advantage over spring planted stock in that it will start to grow earlier in the spring. It is a well known fact that the roots on all trees, plants and shrubs grow during the winter time and get well established before the late spring droughts.

It is a mistaken idea among many planters that nursery stock should be planted early in the fall. However, this is naturally wrong as it is necessary to let the stock be fully matured before it can be safely planted. After a few cold periods and before the ground is frozen is the ideal time for planting deciduous stock.

Plant Peaches For Quick Profits

Hiley Bears Bumper Crops.

VERY EARLY VARIETIES

ADMIRAL DEWEY. Yellow fleshed, freestone, productive.
BUTTERCUP. Yellow, freestone, new.
EARLY ROSE. Another Favorite Commercial Peach. Early, white, cling, medium large size for an early Peach, high bright red skin, sweet, delicious flavor. Good shipper, making it a new favorite among commercial varieties.

GREENSBORO. White, freestone, hardy, big crops.
MAYFLOWER. White, cling, small size with red all over.

MT. ROSE. White, cling.
RED BIRD CLING. White, cling, extra large with a bright red blush, the first peach of large size to ripen; the greatest very early money maker.
UNEEDA. Cling. Skin creamy white, with red blush.

EARLY VARIETIES

CARMAN. Semi-freestone, medium size white.
CUMBERLAND. White, semi-freestone, new variety.
DELICIOUS. White, freestone. A seedling of Belle of Georgia. New.
EARLY HILEY. An earlier maturing strain of Hiley, new.
ECLIPSE. Yellow freestone, bears large crops.
GOLDEN JUBILEE. The Supreme Early Yellow Peach. Commercial peach orchardists for a century have been looking for an early peach of high quality, fine flavor, yellow, freestone, attractive color, and firm texture, and eventually they have found it in the marvelous Golden Jubilee. This variety is a sensation of recent introduction of new varieties and is by far better than any early variety of commercial importance which has been introduced in many years. It ripens about four days ahead of Carman.

Rio Oso Gem

MAMMOTH SIZE — COLORS ALL OVER BEFORE RIPENING — RIPENS TWO WEEKS AFTER ELBERTA

Late yellow, freestone, ripening about two weeks later than Elberta. The coloring is unique as it starts to take on its beautiful dark crimson red color about one week before it begins to ripen. Its size is larger than J. H. Hale and resembles that variety to a certain extent. Bears heavy crops annually and has already become a great late peach. We recommend every peach grower to plant this variety.

Exclusive propagation and sales rights of Rio Oso Gem in the following states granted to Harrisons: Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Kansas, Kentucky, Louisiana, Maryland, Maine, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia and West Virginia.

CERTIFIED—100% HEALTHY TREES

HILEY. Bears huge crops of fancy peaches. Early, white freestone, medium size, highly red colored and is a very handsome peach of exceptionally good flavor. Tree is strong grower, very healthy and an extra heavy bearer. You can depend on Hiley to bear heavy crops year after year. The marvelous color and wonderful flavor have made it popular on the markets.

MAMIE ROSS. White, freestone, large size.
MARIGOLD. Yellow, semi-cling. New.
ORIOLE. Yellow, freestone, very good quality, new.
RADIANCE. White, freestone. New.

SOUTH HAVEN. Yellow, freestone, large, handsome, uniform size, delicate flavor, ripens about 15 to 18 days ahead of Elberta. Tree is very hardy, good grower and a consistent heavy bearer, adapted to cold climates; produces bumper crops in mild climates.

SUNBEAM. Yellow, semi-freestone, attractive. New.
VALIANT. Seedling of Elberta, yellow freestone, productive. New.

VICEROY. Yellow, freestone, high quality, new.
YELLOW ST. JOHN. Yellow, freestone.

EARLY MIDSEASON VARIETIES

ALTON. White flavor, semi-free.
CHAMPION. White, freestone, very large, creamy white with red cheek, sweet, juicy; very high flavor.

CRAWFORDS EARLY. Yellow freestone, juicy, sweet flavored, prolific bearer.

EARLY ELBERTA. Yellow, freestone, large, lemon yellow with a dark cast, blush with vivid red. Beautiful appearance, high quality, being somewhat similar to Elberta, although a trifle better flavor; rich golden tender flesh, yet firm and has a delightful flavor; excellent for canning.

FAIR BEAUTY. Yellow, freestone, medium to large size.
HALE HAVEN. Yellow freestone, colors before ripening, heavy bearer. Being planted in every peach section.

ROCHESTER. Yellow, freestone, large, covered with mottled red blush; flesh yellow stained with red at pit, very good quality, prolific bearer. One of the best early midseason yellow freestone peaches for nearby markets, and highly desirable for canning.

ROSEBUD. Freestone, extra good flavor.

SLAPPEY. Yellow, freestone, rich juicy and extra good flavor.

MIDSEASON VARIETIES

BELLE OF GEORGIA (Belle). Large, white freestone, recognized as the best all around white peach. Should be included in every planting. Very hardy and productive.

BILLMEYER. Yellow, medium size, productive, quality good.

ELBERTA. The Greatest and Best Money-making Peach. Yellow, freestone, midseason. Fruit is large to extra large; golden yellow with brilliant shades of red; firm, juicy, rich, sweet and good flavor. Elberta has the greatest international reputation of any peach. It has been the standard for all other peaches almost since the date of its introduction. The coloring of Elberta is practically perfect. The rich, yellow skin is almost entirely covered with dark red blush upon the sunny side. This attractive appearance and the uniform large size serve to sell it almost on sight. We offer original strain trees which is the best strain obtainable.

GAGE ELBERTA. Very similar to Elberta. Partially immune to bacteriosis.

INDIAN. Yellow, freestone, very rich, juicy flavor.

J. H. HALE. Extra Large Size. Yellow, freestone, extra large, beautiful red coloring, firm and of the highest quality and enticing flavor. J. H. Hale ripens about two or three days prior to Elberta. We offer original strain trees.

NEW PROLIFIC. Yellow, very vigorous, healthy, medium size fruit.

NIAGARA. Yellow, freestone.

OLD MIXON. White freestone, good flavor.

POLLY. White, freestone, large.

RAY. A highly popular peach, bears when other peaches fail. Ideal for nearby markets and roadside stands.

MIDSEASON LATE VARIETIES

BANNER. Medium size, yellow.
BRACKETT. The fruit is rich yellow with dark carmine cheek. Size is as large or larger than Elberta and much better flavored. Begins to ripen a few days after Elberta.

CRAWFORD LATE. Yellow, freestone, an old commercial favorite.

ROBERTA (Augbert). A comparatively new variety of great merit. Resembles the Elberta in many respects, but ripens about a week or ten days later. An excellent sort to prolong the Elberta season.

SHIPPERS LATE RED. Large, round, yellow, freestone, very attractive.

WILMA. Yellow freestone.

LATE VARIETIES

BEER SMOCK. Yellow, freestone.

BERKS FAVORITE. White, freestone.

FOX SEEDLING. White, freestone.

GOLD DROP. Yellow, freestone.

IRON MOUNTAIN. White, freestone.

SALBERTA. Yellow, freestone, large, being a satisfactory cross between Elberta and Salwey. Salberta inherited the size, quality and productiveness of Elberta, and inherited the lateness in season of Salwey.

VERY LATE VARIETIES

KRUMMELS (Krummels Late October). Yellow freestone, round, fine flavor.

SALWEY. Yellow, freestone.

WHITE HEATH CLING (Heath). White, round, cling. Favorite for canning and pickling.

Apple Trees---The Finest That Can Be Grown

Harrison's' APPLE Trees FOR THE FRUIT INDUSTRY

We offer to the apple planter this season the finest lot of one and two year apple trees we have ever grown. These trees were propagated direct from bearing orchards of superior strains on whole root seedlings. During the past fifty years Harrison grown apple trees have been planted in every state in the Union as well as several foreign countries and invariably they have given very satisfactory results. At the present time we have more of the improved and better strains of apples in our nursery than any other concern in America. With the low prices on our apple trees this season it will pay you to replant your old orchard or start a new one.

SUMMER APPLES

ANOKA. Striped red, bears when extra young, new (1 year trees only).
CARLTON. Resembles red Astrachan, new (1 year trees only).
DUCHESS (Duchess of Oldenburg). Large, red striped, heavy bearer. (2 yr. trees only).
EARLY HARVEST. Medium size, yellow.
EARLY MCINTOSH. Red, attractive, good size, flesh white, fine, tender, juicy and fine flavor, being similar to McIntosh Red. Tree vigorous, hardy, healthy and productive.
LARGE TRANSPARENT (LODI). An improved Yellow Transparent, large fruits earlier in the season. 10c per tree extra.
MELBA. A seedling of McIntosh. Good size, early. (1 yr. trees only).
MILTON. Fruit a beautiful pinkish red with tender, crisp, white flesh of excellent flavor.
RED DUCHESS. Solid red early coloring strain of Duchess. (1 yr. trees only).
RED JUNE (CAROLINA). Medium size, red. (1 yr. trees only).
STARR. Large, yellowish smooth skin; sometimes marked with a faint blush and numerous russet dots; flesh yellow, very tender, crisp, juicy, aromatic and fine quality, brings high prices.
SWEET BOUGH. Pale yellow, large, tender, sweet. (2 yr. trees only).
SPITZENBURG. Deepred. (1 yr. trees only).
SUMMER RAMBO. Large, yellowish green, splashed with red, crisp and tender. Very good.
WILLIAMS EARLY RED. Medium to large size, bright, rich red; flesh is crisp, tender, juicy and sub-acid; good quality. Its bright, attractive red coloring, with satisfactory size and firmness, makes the Williams Early Red a popular summer variety.
WILSON RED JUNE. Fairly large, red; good quality.
YELLOW TRANSPARENT. Medium size, greenish yellow, very heavy bearer, always in demand for pie and cooking purposes on account of being the first early variety of any merit on the markets.

AUTUMN APPLES

FAMEUSE (Snow). McIntosh type. (1 yr. trees only).
GRAVENSTEIN. Large streaked and splashed with red.
GRIMES GOLDEN. Medium size, yellow, heavy bearer, excellent flavor, popular in Maryland, West Virginia and Virginia. The best pollinizer for Stayman Winesap and many other varieties.
JONATHAN. Medium to large; brilliant red, juicy, fine grained, tender, mild, sub-acid, and very highly flavored. Good keeper and an excellent shipper. Tree long lived, but comes into bearing very young and produces big crops every year. Popular bushel and box variety, demanding highest prices on account of its attractive red appearance and fine flavor.
KEETOSH. A seedling of McIntosh. Canadian origin (1 yr. trees only).
KING DAVID. Very dark red, medium size, good flavor. (2 yr. trees only).
KENDALL. A McIntosh seedling, very handsome. Same season as McIntosh, but keeps longer. (2 yr. trees only).
LOBO. Similar to McIntosh but colors earlier.
MAIDENS BLUSH. Large, red blush.
MCINTOSH RED. An exceedingly valuable hardy, attractive apple; medium large size; 100 percent red color when ripe. Flesh white, fine tender, juicy, sub-acid and refreshing, and generally considered as the highest and best flavored apple grown; splendid appearance, which sells it on sight.

CERTIFIED—100% HEALTHY TREES

MAMMOTH GRIMES. A big golden apple. (1 yr. trees only).
MAGNUM BONUM. Red, popular in South. (1 yr. trees only).

NORTHWESTERN GREENING. Very large, greenish yellow, good shipper. Popular for baking.

OGDEN. Seedling of McIntosh. Sweet. (1 yr. trees only).

ORLEANS. Delicious type, bears early and is an annual bearer. (1 yr. trees only).

RED GRAVENSTEIN. An improvement on the regular Gravenstein, with better and higher red color.

SMOKEHOUSE. Large, yellow-green mottled with a dull red, fine flavor.

WEALTHY. Medium to large size fruits, very juicy. Trees very hardy, bears regularly. (2 yr. trees only).

YELLOW DELICIOUS. A golden yellow apple with decided "delicious" characteristics. Yellow Delicious has a remarkably good flavor, and is most popular for eating during the fall and winter months. Late September and January finds the flavor and condition at its best. Many people think it superior to the famous Delicious.

WINTER APPLES

ARKANSAS BLACK. Dark red. Good keeper. 1 yr. trees only).

ALBEMARLE PIPPIN (Yellow Newton). Large round ribbed and somewhat irregular.

BALDWIN. Large, bright red, yields big crops, good keeper. There are more bearing trees of Baldwin in New York, Northern Pennsylvania, the New England States and Canada than any other commercial variety.

CORTLAND. Red, new variety. Cross between McIntosh Red and Ben Davis.

DELICIOUS. Red, large, very highly flavored. One of the most popular and highest priced apples grown.

GANO (Black Ben Davis). Bright red, medium to large.

GALLIA BEAUTY. A Rome Beauty type of apple identical in every respect, except its earlier coloring qualities.

LOWRY. Beautiful mahogany red, very popular in Virginia.

MACOUN. Similar quality and texture as McIntosh but ripens later.

MEDINA. Delicious type, slightly larger, recommended for trial where Delicious grows too small. (1 yr. trees only).

MAMMOTH BLACK TWIG (Paragon). Extra large, dark red, one of the best keepers. Good flavor, fine shipper.

NEWFANE. Delicious type, large size, attractive red color. (1 yr. trees only).

NERO. Bright red, large, extra good keeper, fine flavor.

NORTHERN SPY. Large, bright red with yellow markings.

OPALESCENT. Very handsome dark crimson apple. (1 yr. trees only).

RED SPY. Extra large, bright scarlet red with yellow markings. Good keeper, very desirable for cooking purposes and brings high prices on the markets.

RED ROME BEAUTY. An improved Rome Beauty, identical in vigor and production. Color of fruit much darker and solid red. Produces much higher percentage of fancy apples and also superior in quality than the ordinary strain of Rome Beauty. This bud selected super strain of Red Rome Beauty makes 100% red color and can be picked for markets three weeks earlier than Rome Beauty.

Harrison's' Triple--Red Delicious

A REAL MONEY-MAKER FOR GROWERS EVERYWHERE

This Apple was introduced by us several seasons ago and since introduced it has been bought and fruited by the tens of thousands by leading fruit growers throughout the country. It is a "bud sport" of pronounced superior merits. Being triple-red colored and the earliest red coloring strain known.

It has all the fine qualities of the regular Delicious, with the exception that it colors up three weeks earlier than the ordinary strain. It is conceded to be the most beautiful of all apples and commands highest prices on local and city markets.

The flavor is delicious, flesh crisp and juicy. Whether you wish to plant a thousand or if you have room for only one tree, Harrison's' Triple--Red Delicious will give full value.

RED YORKING, U. S. Plant Patent No. 125.

Triple red earlier coloring York Imperial. The "Red Yorking" is similar to its parent in size and shape but its chief distinction is that it has very much better red color, being mostly 100 percent bright red color. The Red Yorking takes on high red color from three to five weeks earlier in the fall than York Imperial, which is a distinct advantage in selling, as the earliness in season and high red color will command much higher prices. (15c per tree extra).

ROXBURY RUSSET. Large, yellow brown russet. Best variety of all Russets. (1 yr. trees only).

RHODE ISLAND GREENING. Extra large greenish yellow. Should be included in all commercial orchards in New England and other Northern States.

ROME BEAUTY. Large, round, red, flavor and quality above the average, appearance and size are its valuable points, brings good prices.

STAYMAN WINESAP. Large, bright red, bud selected superior red strain, extra good flavor, juicy and quality ranking with the best. Fine keeper and one of the most popular apples on the large Eastern markets, demanding high prices. Planted extensively in the East.

STARK. Extra large, greenish yellow with red blush. Good keeper. Popular as a baking apple.

SWEET DELICIOUS. Seedling of Delicious. Very sweet in flavor. (1 yr. trees only).

TURLEY. A seedling of the Winesap which it somewhat resembles. Fruit rounded conical in shape, much larger than Winesap, smoother skinned and deeper and richer in color; juicy and rich flavor. Tree very hardy and comes into bearing early.

TWENTY OUNCE. Very large, fine quality, yellow striped red.

WOLF RIVER. Extra large red. (1 yr. trees only).

WINESAP. Medium size, dark red, well colored, highly flavored, one of the best and longest keepers.

WINTER BANANA. Extra large golden yellow shaded with red. Very highly flavored.

WAGENER. Bright red, excellent quality. (1 yr. trees only).

WINTER RAMBO. Medium size, greenish yellow color. (2 yr. trees only).

YELLOW BELLEFLOWER. Large, yellow, good flavor.

YELLOW BELLEFLOWER IMPROVED. An improved type of Yellow Belleflower. (1 yr. trees only).

YORK IMPERIAL. Medium to large size, widely planted in the Appalachian area. We consider Red Yorking much superior.

CRAB APPLES

HYSLOP CRAB. Crimson color, large crab apple.

TRANSCENDENT. Best of all crab apples, good size, yellow skin, striped with red.

YOUNG AMERICA CRAB. Attractive red fruit of excellent size and quality. Good as ornamental. (1 yr. trees only).

We can also supply a few one year trees of the following varieties: Jeffreys, Kinnard, Mother, Predo, Terry, Willow Twig and Yates.

ITALIAN PRUNE (Fellenberg). Late, medium size, dark purple, delicious. Fine for drying.
JEFFERSON. Midseason, golden yellow with delicate blush. Medium size. Very good for home use.
RED JUNE. Very early, medium size, deep vermilion-red; good.
SANTA ROSA. Large size, firm, flavor, good eating qualities, reddish in color.
SHROPSHIRE DAMSON. Late, medium size, dark purple. Very productive. The best for preserving. The popular old-fashioned Damson variety.
SUPERIOR. Large size, red, firm flesh, delicious quality.
UNDERWOOD. Very large beautiful red color. Delicious quality.
WICKSON. Late, very large, deep maroon-red covered with white bloom, flesh firm, meaty, yellow, rich, aromatic, cling.
WILD GOOSE. Red, tender, refreshing flavor, very early.
YELLOW EGG. Yellow, large, handsome, late.

DELICIOUS NECTARINES

BOSTON. Bright yellow, red cheek, flesh yellow.
GOLD MINE. White flesh, large, attractive, freestone.
GOWER. Large, white flesh, freestone, good flavor.
HUNTER. Large, round, yellow, freestone.
JOHN RIVERS. Early, medium size, red, semi-cling.
QUETTA. One of the newer nectarines that is being tested for commercial possibilities in the East. Fruit large, greenish-white, splashed with red, white flesh, cling.
STANWICK. Very large, attractive, white, freestone, good flavor.
SURE CHOP. Very vigorous and productive. The fruits are large, roundish, white and overlaid with very attractive red. Very pleasing flavor.

SOUR CHERRIES

FOR HOME AND MARKET

DYEHOUSE. Ripens a week ahead of Early Richmond. The earliest good sour cherry.
EARLY RICHMOND. Exceedingly hardy and productive.
ENGLISH MORELLO. Large, blackish-red cherry. Hardy and productive. Very late.
MAY DUKE. Very early, productive, and old time favorite.
MONTMORENCY (Large Montmorency). Midseason, sour, large, sound and red, slightly acid; flesh is very tender and of unusually good quality, being by far the best variety of sour cherry grown. The best shipper of all sour, which with its wonderful carrying ability for long distance shipments, along with its handsome, appetizing appearance and large size, has made Montmorency in a class by itself, always commanding the highest market prices.
OLIVET. Large, deep red, glossy cherry with rich vinous sub-acid flavor. Morello type. Midseason.
RICHMORENCY. A Montmorency type that ripens a week or more earlier than Large Montmorency. Produces heavy crops and the size of the fruit is large.
ROYAL DUKE. Sour, dark red, fair quality. Early.

Can be assorted sour cherry or other fruit trees

PEARS

BARTLETT. Large, rich golden-yellow, with a light red blush when ripe; buttery, juicy, melting, with a very rich, pleasing flavor. Bartlett is without a peer, having won an international reputation as the best and the most profitable commercial pear and also the finest home-orchard variety. Early.
BEURRE BOSCH. Large size, fine quality, brings highest market price. Late.
BEURRE D'ANJOU. Large, green in color, somewhat yellow when ripe, buttery, melting, rich vinous, good flavor. Tree vigorous, hardy, prolific bearer. Very late.
CLAPPS FAVORITE. Large size, hardy and very productive. Thrives where other varieties fail. Very early.
DUCHESSE. Very large, dull greenish-yellow. Tree somewhat dwarf but a dependable bearer. Late.
KIEFFER. Fruit large, skin yellow with light vermilion cheek. Most popular canning pear. Late.
SECKEL. A beautiful and delicious little pear. One of the richest and highest flavored pears grown. Tree dwarf, bears prolific crops. Late.
SHELDON. Medium size, flesh slightly coarse, melting, juicy, late.
WORDEN SECKEL. A seedling of Seckel. Superior in size and color. Midseason.

Can be assorted sweet cherry or other fruit trees

Millions of Hi-Quality Asparagus Roots, Strawberry Plants AND SMALL FRUITS FOR GROWERS EVERYWHERE

PLANT ASARAGUS FOR BIG QUICK CASH PROFITS

Within the past few years the popularity of canned and fresh asparagus has increased enormously. In fact, at the present time there is not enough asparagus acreage in order to take care of the huge demand. Asparagus growing pays large profits and to those growers who are located near the markets or canning houses we unhesitatingly recommend planting this money crop.

MARY WASHINGTON. There is no variety of asparagus as good as Mary Washington and whether you are growing for home use only or for market you cannot afford to grow any other. It is rust resistant and growers are discarding all other varieties in favor of the famous Mary Washington because it is earlier, stalks are larger, more tender and more productive. Plant this Pedigreed strain.

PRICES OF GENUINE PEDIGREED MARY WASHINGTON ASPARAGUS ROOTS

	25	50	100	250	500	1,000	5,000
1 yr. No. 1	\$.04	\$.06	\$.10	\$.17	\$.30	\$.47	\$20.00
2 yr. No. 1	.60	.90	1.50	2.50	4.25	7.25	30.00

Write for prices on larger quantities. We maintain a separate department for handling asparagus roots and are in a position to give prompt service on large orders.

Ornamentals

Improve the Appearance of YOUR HOME GROUNDS

ANTHONY WATERER SPIREA. Dwarf, bright pink flowers in June and July.

ALTHEA OR ROSE OF SHARON. Double red or semi-double white with crimson center.

BUTTERFLY BUSH. Lilac colored flowers in midsummer.

DEUTZIA, PRIDE OF ROCHESTER. Double white flowers, which are slightly tinged with rose, appear in mid-June.

GOLDEN BELL (Forsythia). Upright grower, yellow flowers in early spring.

GOLDEN BELL WEEPING. Yellow flowers, arching branches.

GOLDEN TWIG DOGWOOD (Cornus stolonifera flaviramea). Dwarf grower, branches are golden in color, most attractive in winter.

GARLAND or SWEET MOCK ORANGE (Philadelphus coronarius). Of upright habit, and produces in June a wealth of white fragrant flowers.

JAPANESE FLOWERING QUINCE (Cydonia japonica). Scarlet flowers in April and May. No doubt one of the most attractive spring blooming shrubs.

JAPANESE BUSH HONEYSUCKLE (Lonicera morrowii). Early white flowers in June, followed by red berries.

PINK WEIGELA. Delicate pink bell-shaped flowers.

PUSSY WILLOW. Shrub or dwarf tree with fur-like catkins during early spring.

RED BRANCHED or CORAL DOGWOOD (Cornus alba sibirica). Bright red bark, white flowers, blue fruit; rapid grower; beautiful winter effect.

SPIREA REEVESIANA. Fast grower, graceful white flowers in the spring.

TARTARIAN HONEYSUCKLE. Abundance of pink or white flowers followed by red berries. State color desired.

TAMARISK AFRICANA. Feathery gray-green foliage; effective near water. Thrives at seashore.

Prices of above shrubs: Big, 1½ to 2 ft., 30c each, 3 for 75c, 10 for \$2.00; Largest, 2 to 3 ft., 40c each, 3 for \$1.05, 10 for \$3.00.

SPIREA VAN HOUTTEI

Beautiful in or out of bloom, and the medium tall, broad, compact screen it makes, is protective as well as ornamental. It is always hardy, growing anywhere and will do well in partial shade. Even when trimmed and kept low, it is a splendid hedge, dense to the ground.

HARRISON GROWN

Strawberry Plants

SELECTED STRAINS—TRUE TO NAME

This season we will have an unusually fine supply of high grade strawberry plants to offer. These plants are of our own growing and have been doubly inspected. Our soil produces big husky plants which will grow anywhere.

During the two past seasons strawberries have been a very profitable crop and we recommend planting strawberries for extra quick profits.

We have several million plants to offer in the following varieties for delivery after January 1st:

EARLY: Bellmar, Blakemore, Clermont, Dorsett, Fairfax, Missionary, Premier, Senator Dunlap, Southland.

MIDSEASON: Aberdeen, Big Joe, Catskill, Culver, Gibson (Parsons Beauty), Pathfinder.

LATE: Aroma, Big Late, Chesapeake, Gandy, Lupton, New York, Sample, William Belt.

EVERBEARING: Gem, Lucky Strike, Mastodon.

Let us quote on your requirements.

Hedges Make Beautiful Living Fences

CALIFORNIA PRIVET

(Ligustrum Ovalifolium)

We grow California Privet by the mile. Most popular hedge plant; can be trimmed to any desired shape. For planting long hedges, this is the most economical variety. Quick grower.

variety.	Quick grower	1 to 9 plants	10 to 49 plants	50 to 299 plants	300 or more plants

JAPANESE BARBERRY

(Berberis Thunbergii)

Best low dense hedge plant grown. Its abundant, small light green leaves, which turn to rich colors in autumn, and its wealth of scarlet berries make it very attractive. Extremely hardy and requires but little pruning. Ornamental and graceful the whole year.

RED-LEAVED BARBERRY

(Berberis Thunbergii Atropurpurea)

A highly important introduction among shrubs, giving us for the first time a practical easily grown shrub of medium height, with good, distinctly red foliage. This must prove a boon to all types of landscaping, where studied contrasts are to be worked out with the shrub foliage depended on for colors.

Evergreens for Year Around Beauty

AMERICAN ARBORVITAE. The largest seller of all Arborvitae. Erect, pyramidal habit, bright green foliage, dense from ground up. Rapid grower.

CHINESE ARBORVITAE (*Biota orientalis*). Rather stiff columnar habit, bright green foliage. Very attractive.

Prices of above varieties:	Each	2 for
15 to 18 inches	\$0.60	\$1.00
18 to 24 inches	.90	1.60
2 to 3 feet	1.25	2.20
3 to 4 feet	1.75	3.20
4 to 5 feet	2.50	4.50
5 to 6 feet	3.50	6.50

COMPACT GLOBULAR ARBORVITAE (*Thuja occidentalis compacta*). Natural compact globe-shaped. Needs no trimming.

	Each	2 for
12 to 15 inches	\$0.60	\$1.00
15 to 18 inches	.80	1.40
18 to 24 inches	1.25	2.20
2 to 2½ feet	1.75	3.20

SPREADING EVERGREENS

ANDORRA JUNIPER. Low spreading type, purple bronze color during winter.

PFITZERS JUNIPER. Most popular spreading evergreen. **SAVIN JUNIPER.** Spreading vase shaped growth. One of the most attractive spreading evergreens.

Prices of above varieties:	Each	2 for
18 to 24 inches	\$1.75	\$3.20
2 to 2½ feet	2.50	4.50
2½ to 3 feet	3.50	6.50

IRISH JUNIPER. Forms a narrow and dense column, compact, bluish-green foliage. Most attractive when planted around the foundation of a home, at corners and entrances. Widely used in formal gardens.

SWEDISH JUNIPER. Tall, columnar habit, dense, fairly broad foliage, drooping tips.

Prices of Irish and Swedish Junipers	Each	2 for
15 to 18 inches	\$0.60	\$1.00
18 to 24 inches	.90	1.60
2 to 3 feet	1.25	2.20
3 to 4 feet	1.75	3.20
4 to 5 feet	2.50	4.50
5 to 6 feet	3.50	6.50

BLUE TINTED EVERGREENS

MEYERS JUNIPER. Growth irregular, blue color, handsome.

SPINY GREEK JUNIPER. A tall grower of upright columnar habit and bluish-green foliage. The growth is so slow that the tree is well adapted for foundation plantings and other situations requiring dwarf trees.

VIRGINIA BLUE JUNIPER. Broadly conical form and beautiful glaucous-blue foliage make it one of the choicest evergreens.

Prices of above varieties:	Each	2 for
18 to 24 inches	\$1.50	\$2.70
2 to 3 feet	2.00	3.70
3 to 4 feet	3.00	5.50
4 to 5 feet	4.00	7.50

INDIAN CEDAR (*Cedrus deodara*). Feathery blue-green foliage, graceful drooping branches, tall growing.

	Each	2 for
4 to 5 feet	\$4.00	\$7.50
5 to 6 feet	5.00	9.00
6 to 7 feet	6.00	11.00

JAPANESE CEDAR (*Cryptomeria japonica lobbi*). A very picturesque looking evergreen; grows tall and narrow and is very rapid growing. Everyone who sees this variety is very enthusiastic about it.

	Each	2 for
18 to 24 inches	\$1.50	\$2.70
2 to 3 feet	2.00	3.70
3 to 4 feet	3.00	5.50
4 to 5 feet	4.00	7.50

COLORADO BLUE SPRUCE (*Picea pungens glauca*). Foliage blue and sage-green, that distinct color which is so rare in the East. As a specimen tree on the lawn or planted in groups in front of darker colored Evergreens, the Blue Spruce is at its best. No planting of Evergreens can be effective without this splendid variety.

	Each	2 for
15 to 18 inches	\$2.00	\$3.70
18 to 24 inches	3.00	5.50

BALSAM FIR (*Abies balsamea*). A very erect regular pyramidal tree assuming a conical shape even when young. Dark green foliage, grows into a large tree.

	Each	2 for
18 to 24 inches	\$3.00	\$5.50
2 to 3 feet	4.00	7.50

IRISH YEW (*Taxus baccata hibernica*). This evergreen is the aristocratic member of the Yew family. It grows tall and narrow with stout, crowded branches and spirally arranged leaves which are dark green in color. Fortunately, we have some specimen plants in our nurseries from which we are able to propagate.

	Each	2 for
12 to 15 inches	\$1.25	\$2.20
15 to 18 inches	1.50	2.70
18 to 21 inches	2.00	3.70
21 to 24 inches	2.75	5.00
2 to 2½ feet	3.50	6.50
2½ to 3 feet	5.00	9.00

FERN LIKE ARBORVITAE (*Thuja occidentalis filicoides*). Pyramidal shape, dark green foliage.

GEORGE PEABODY ARBORVITAE (*Thuja occidentalis lutea*). A beautiful variety, the gold marking diffusing more deeply into the foliage than any other tall growing Evergreen.

HINOKI RETINOSPORA (*Retinospora obtusa*). Compact pyramidal form slightly drooping tips, dark green flat foliage.

JAPANESE SAWARA RETINOSPORA (*Retinospora pisifera*). Light green lacy like foliage, bluish beneath. Quick grower, loosely pyramidal.

JAPANESE GOLDEN SAWARA RETINOSPORA (*Retinospora pisifera aurea*). Habit of growth like the Sawara Retinospora, but its color is bright golden.

LEE GOLDEN ARBORVITAE (*Thuja occidentalis elegantissima*). Compact, pyramidal shape; golden green foliage, hardy.

NORWAY SPRUCE (*Picea excelsa*). Open pyramidal growth, planted everywhere, hardy.

PLUME-LIKE RETINOSPORA. A handsome evergreen from Japan with feathery foliage. Upright grower, broad at base, excellent for foundation plantings. We offer it in green or golden foliage.

PYRAMIDAL ARBORVITAE (*Thuja occidentalis pyramidalis*). A really beautiful evergreen that should be included in every planting. It grows tall and narrow, requires no trimming and retains its bright green color throughout the whole year. A pair of them placed at the entrance or at the corner of a house makes a superb showing.

SIBERIAN ARBORVITAE. Dark green foliage, dense, compact upright grower.

THREAD LIKE RETINOSPORA (*Retinospora filifera*). Has long stringy droopy branches, slow grower.

TOM THUMB ARBORVITAE (*Thuja occidentalis ellwangeriana*). A low, broad pyramidal form of evergreen with slender branches and feathery foliage.

VERVAENE ARBORVITAE (*Thuja occidentalis vervaenae*). More compact than American Arborvitae, good green foliage, slightly variegated.

VEITCH'S JAPANESE RETINOSPORA (*Retinospora squarrosa veitchii*). Foliage silvery blue, feathery and dense, giving soft wooly appearance. Broad pyramidal outline. One of the best Retinosporas.

Prices of above varieties:	Each	2 for
18 to 24 inches	\$1.10	\$2.00
2 to 3 feet	1.50	2.70
3 to 4 feet	2.00	3.70
4 to 5 feet	3.00	5.50

PFITZERS JUNIPER

JAPANESE SPREADING YEW (*Taxus cuspidata*). The beautiful yew of moderate bushy growth, the upright spreading branches densely clothed with short leaves of dull green. Hardest of all yews, grows in semi-shady locations.

	Each	2 for
12 to 18 inches	\$1.00	\$1.80
15 to 18 inches	1.50	2.70
18 to 21 inches	2.00	3.70
21 to 24 inches	2.50	4.50
2 to 2½ feet	3.50	6.50

UPRIGHT ENGLISH YEW (*Taxus baccata capitata*). Upright grower, dense, green foliage. Makes a most attractive specimen plant when fully matured.

	Each	2 for
12 to 15 inches	\$1.00	\$1.80
15 to 18 inches	1.50	2.70
18 to 21 inches	2.00	3.70
2 to 2½ feet	3.00	5.50
2½ to 3 feet	4.00	7.50
3 to 4 feet	5.00	9.00

SPREADING ENGLISH YEW (*Taxus baccata repandens*). Low spreading, dwarf grower, with dark, glossy green foliage.

	Each	2 for
12 to 15 inches	\$1.25	\$2.20
15 to 18 inches	1.75	3.20
18 to 21 inches	2.50	4.50

Silver Maple

AMERICA ELM (*Ulmus americana*). A noble native tree of great size, wide spreading, gracefully curving branches, growing up in a form like the outline of long-stemmed flowers in a tall vase. The handsomest American tree for lawns, avenues and parks.

AMERICAN PLANE OR SYCAMORE (*Platanus occidentalis*). A very rapid growing tree for yard or street planting. The bark is grayish-green and peels off during the winter. Not desirable as the Oriental Plane but it is a much more rapid grower.

CATALPA SPECIOSA. A fast growing large leaved tree.

ORIENTAL PLANE (*Platanus orientalis*). A rapid, upright, clean growing tree, long lived, beautiful dense foliage. It is very hardy and not affected by insects.

SILVER MAPLES (*Acer dasycarpum*). Tall, stately tree, rapid grower, graceful, leaves silvery underneath.

Prices of above trees	Each	2 for	10 for

—HARRISONS' NURSERIES, INC.

Norway Maple—the most popular shade tree

NORWAY MAPLES (*Acer platanoides*). Most popular and best known shade tree. Green foliage remains until late fall and turns to rich yellow.

SYCAMORE MAPLE (*Acer pseudoplatanus*). Typical maple foliage. A good tree for street or lawn planting.

RED OR SWAMP MAPLE (*Acer rubrum*). Particularly pleasing during the fall when its leaves turn a brilliant red.

MOLINE ELM. Grows into a dense conical specimen.

CHINESE ELM (*Ulmus pumila*). This tree is of recent introduction in this country. It is a very rapid grower.

PIN OAK (*Quercus palustris*). The daintiest and most graceful of the oaks, with deeply cut, bright, fresh green foliage; beautiful autumn effect. A very graceful tree for the lawn and fine for streets or roadsides.

EUROPEAN LINDEN (*Tilia platyphyllos*). Pyramidal in form. Its abundant foliage forms a dense shade.

SWEET GUM (*Liquidambar styraciflua*). A shapely tree with slender, corky-ridged branches. Leaves are bright green and lustrous; in autumn they change to a pleasing tone of crimson color.

Harrisons' Supreme Roses

THEY ARE A SENSATION WHEREVER GROWN

Talisman

LUXEMBURG. A fine yellow rose.
LOS ANGELES. Very popular brilliant salmon-pink.
MRS. W. C. MILLER. Beautiful large flowers of clear rose and soft pink.
MME. BUTTERFLY. Light pink, faintly tinted with gold near base of petals. Richly perfumed.
MRS. CHAS. BELL. Shell-pink, free bloomer; very fragrant. Should be in every garden.
MRS. PIERRE S. DUPONT. It's a glorious sight from early summer until freezing weather, always a mass of bloom, a rich golden yellow. We consider it the best yellow rose.
MME. EDOUARD HERRIOTT. Brilliant orange-red and salmon-flame, always in bloom.
MARGARET MCGREDY. The most popular red rose, always in bloom; a thrifty, healthy, vigorous grower. One of the finest of all roses.
MEV. G. A. VAN ROSSEM. An exceedingly fragrant rose of orange and bronze, beautifully veined. Fine for cutting.
MCGREDY'S SCARLET. Free bloomer, beautiful flowers of deep vivid rose-red.
MRS. LOVELL SWISHER. Freely produces immense flowers of light salmon-pink on long stems.
PINK RADIANCE. Succeeds everywhere and all summer produces lovely pink, fragrant blooms. Most popular pink rose and should be planted everywhere.
PRES. HERBERT HOOVER. One of the outstanding roses. A glorious new rose of vivid cerise-red toned with yellow, orange and scarlet, richly perfumed and free flowering.
RAPTURE. Glowing pink, fine for cutting.
ROSLYN. A new rose deep yellow shaded orange.
RED RADIANCE. America's favorite red rose, hardy, healthy, freeblooming.
ROSELANDIA. Blooms freely, flowers are soft pink.
SOUV. DE CLAUDIUS PERNET. A real yellow.
SOUV. DE GEORGES PERNET. Magnificent blooms, brick red.

AMI QUINARD. Very dark crimson maroon.
BETTY UPRICHARD. Salmon pink inside, carmine red outside. Very beautiful.
COLUMBIA. Upstanding garden rose. Bright pink flowers, stiff petals.
CALEDONIA. Opens ivory, changing to pure white. Exquisite long buds on great stems, opening to a large fully double rose of great beauty, soft velvety texture.
CRUSADER. Rich, velvety crimson of bright hue and massive form, extremely double.
DUCHESS OF WELLINGTON. Beautiful buds of saffron yellow deeply tinted with orange.
E. G. HILL. It constantly produces beautiful buds on long stems, opening into large, double, fragrant flowers of shining red. Belongs in every garden.

EDITOR MCFARLAND. A very fine brilliant pink rose, destined to great popularity.
EDITH NELLIE PERKINS. Exquisite two toned pink. Always in bloom.
ETOILE DE FRANCE. An old favorite, sparkling red. Very desirable.
ETOILE DE HOLLANDE. Bright red; fragrant.
FRANCIS SCOTT KEY. Large, double, perfectly formed flowers of crimson-red.
GRUSS AN TEPLITZ. The great bedding rose. Brilliant scarlet, very hardy, always in bloom.
INDEPENDENCE DAY. A brilliant orange-copper rose that is always in bloom. Admired by all.
JOANNA HILL. A fine yellow rose; fragrant.
KAISERINE AUGUSTE VICTORIA. Creamy buds which develop into absolutely perfect blooms of dazzling snow-white, tinted slightly with lemon-yellow at center.

TALISMAN. Flowers of brilliant red, gold and orange are freely produced all season.
VATERLAND. Dark red rose and very double, strong grower.

HYBRID PERPETUAL OR JUNE ROSES FIELD GROWN PLANTS

45c each; 3 for \$1.20; 6 for \$2.20; 12 for \$4.00; 50 or more 30c each.

OUR GUARANTEE

Every Customer is assured of Harrisons' Hi-Quality Trees and Plants at all times. Expert growing on proper soils, careful digging and packing is Harrisons' policy on every order. Every tree and plant we ship is guaranteed to be strictly first class, free from injurious diseases and insects and to reach you in good condition.

Anytime trees or plants are received that do not meet these standards they will be replaced free of charge or your money refunded.

Continued growth depends on soil, weather conditions, planting and after care. After ten days it is mutually understood that the nursery stock is satisfactory, however, we will replace nursery stock that dies from unavoidable causes at half price, if notified within six months after its arrival.
