Novelties of Special Interest and Value

IMPORTANT TO INTENDING PURCHASERS

We take pleasure in submitting to our patrons and the public a List of Valuable and Interesting Novelties, many of which are now offered for the first time in this country.

The New Lilacs, Deutzias, Weigelas, Mock Oranges and Phloxes are highly interesting, and all may be regarded as most valuable additions. We also offer some particularly desirable New Roses, embracing Orleans, Jessie, J. J. L. Mock, American Pillar and several others of unusual merit, for which we predict great popularity as soon as known.

Our general stock of Fruit and Ornamental Trees, Shrubs, Roses and Hardy Plants is unusually large and complete, and intending purchasers are invited to send for our General Catalogue (104 pages), beautifully illustrated, containing accurate descriptions and planting directions, and constituting an indispensable guide to planters.

Fill in your name and address on the enclosed card, mail it to us and the catalogue will be sent at once.

Small orders, as well as large, are invited. In comparing prices, please consider quality.

Ellwanger & Barry
Rochester, N. Y.

Some of the descriptions are those of the originator. The varieties offered, being for the most part new, cannot be furnished of large size.

Japanese Cherry

Exquisite New Japanese Cherry

JAMES H. VEITCH.

These wonderful trees, about which so much has been said, can now be procured in this country. We have several varieties growing in our nurseries, but the chief is the one named above. It produces in early Spring, when flowers are most appreciated, large, beautiful rose-pink double flowers in the greatest profusion. The tree is hardy and on that account should become very popular. We also have double white flowered varieties which, when planted with the above, produce very charming effects. \$1.00.

Bechtel's Crab

NEW TREES

AESCULUS BRIOTI. Briot's Red Horse Chestnut.—A very fine variety of the red-flowered horse chestnut, the flowers being a dark red; rare and beautiful. \$2.00.

AESCULUS PLANTIERENSIS.—Another fine horse chestnut bearing yellowish white flowers with golden yellow spots. \$2.00.

AESCULUS TURBINATA. The Japanese Horse Chestnut.—Distinct from the European. A handsome tree which should be known and grown. We predict for it a great future. \$2.00.

VALUABLE AMERICAN THORNS

BROUGHT TO NOTICE BY DR. SARGENT

CRATAEGUS ARNOLDIANA.—A tree 15 to 20 feet high at maturity. It has a good habit and large, fine foliage. It flowers during the last week of May and the fruit ripens by the middle of August. A valuable tree, strongly recommended. Trees 4 feet high, \$1.00.

CRATAEGUS BARRYANA.—A tree 12 to 16 feet high, with spreading and ascending branches, forming abroad, open, well balanced head. Bears showy white flowers in handsome clusters end of May, followed with large crimson fruit, ripening about October 1st and lasting, without loss of color, until middle of December. An important acquisition to late Fall fruiting trees. Trees 3 feet high, \$1.00.

CRATAEGUS ELLWANGERIANA.—A showy tree, flowering in May and ripening its fruit in September. 3 feet, \$1.00.

CRATAEGUS MACRANTHA.—Another interesting tree. Fruit ripens end of September. Trees 4 to 5 feet high, \$1.00.

BEAUTIFUL NEGUNDO MAPLES

TREES TO PRODUCE FINE EFFECTS IN LANDSCAPES

NEGUNDO CALIFORNICUM AUREA. Golden Negundo.—Foliage beautiful golden yellow. A vigorous grower, hardy and effective; useful to produce lawn effects. \$2.00.

NEGUNDO FOLIIS VARIEGATIS. Silver Negundo.—Foliage margined and striped with silvery white; a very effective tree. Employed with the above, the effect is most satisfactory. \$2.00.

PHELLÖDENDRON SACHALINENSE.

A handsome tree from Japan resembling the Ailanthus, but free from the disagreeable odor of that otherwise desirable tree. Perfectly hardy and free from disease. \$1.00.

PTEROSTYRAX HISPIDUM

An extremely rare and beautiful Japanese tree bearing long racemes of white flowers; hardy. \$2.00.

BECHTEL'S DOUBLE PINK FLOWERING CRAB

Flowers large and double, resembling small roses and covering the tree with bloom. Exceptionally showy and beautiful. \$1.00.

Ornamental Shrubs

DISTINCT VARIETIES OF JAPAN QUINCE

MAULEI SUPERBA.—Large bright red flowers. \$1.00.

JAPONICA SARGENTI.—Discovered in Japan. Bright red flowers; very floriferous. \$1.00.

JAPONICA SIMONI.—A very choice variety, with dark red flowers. \$1.00.

NEW AND BEAUTIFUL DEUTZIAS

These are introductions of Mr. Lemoine. All are beautiful and distinct. They are well suited to small gardens as well as to parks, and we confidently recommend them to all who desire something rare and choice.

DEUTZIA CORYMBIFLORA.—Flowers snow-white, in terminal bouquets. \$1.00.

DEUTZIA DISCOLOR FLORIBUNDA.—Panicles compact, flowers porcelain white, with the reverse of petals tinted rose; very floriferous; one of the best hybrids. \$1.00.

DEUTZIA DISCOLOR GRANDIFLORA.—Flowers large, white, slightly tinted with rose, with the reverse of petals rose, as well as buds. \$1.00.

DEUTZIA GRACILIS CAMPANULATA.—Flowers large, numerous, pure white, campanula shaped. \$1.00.

DEUTZIA GRACILIS CARMINEA.—Flowers medium size, delicate rose, with the reverse of petals deep crimson. \$1.00.

DEUTZIA GRACILIS EXIMIA.—Flowers pure white, buds pink carmine; entirely covered with flowers in May.

DEUTZIA GRACILIS ROSEA.—Flowers abundant, opening in the form of a bellflower, with the exterior of a delicate rose color. \$1.00.

DEUTZIA GRACILIS VENUSTA.—Flowers very large, pure white, resembling a miniature Azalea flower. \$1.00.

DEUTZIA LEMOINEI BOULE DE NEIGE.—A charming variety with large flowers, petals creamy white, stamens yellow. \$1.00.

DEUTZIA MYRIANTHA.—Large well branched corymbs of snow-white flowers. \$1.00.

DEUTZIA VILMORINAE.—Discovered in the mountains of China. Panicles of 20 to 35 large flat flowers, snow-white, 1 inch in diameter. \$1.00.

VALUABLE NEW WEIGELAS

CONQUETE.—The largest flowered variety; flowers deep rose. \$1.00.

PAVILLON BLANC.—Large flowers; flesh white. \$1.00.

PERLE.—Flowers large, in spikes of 10 to 12 flowers, creamy white, with border of petals light pink, mottled clear yellow; buds pink. \$1.00.

SATURNE.—Flowers large, carmine red; darker than Eva Rathke. \$1.00.

Deutzia Lemoinei

Hydrangea Arborescens Grandiflora Alba

Hydrangea Arborescens Grandiflora Alba

Also called "Snowball Hydrangea" and "Hills of Snow"

This magnificent hardy American shrub is the very finest addition to this class of plants found in many a year. The blooms are of the very largest size, of pure snow-white color, and the foliage is finely finished, lacking entirely the coarseness found in *Hydrangea paniculata grandiflora*. One of its most valuable characteristics is its coming into bloom just after the passing of all the early Spring shrubs, while its long season of bloom from early June through August, renders it doubly valuable, not only to the florist, but to every owner of a garden; perfectly hardy, standing 20 degrees below zero. The habit of the plant is excellent; it is bound to become the most widely grown and the most useful of all the *Hydrangeas*, and the most valuable shrub found in the American garden, while it is more than probable that the florist will find it a most important addition to his class of plants, both indoors and out. **50 cents.**

NEW EARLY FLOWERING WEIGELAS

The varieties named in this division flower one to two weeks before the others. They are distinct and beautiful.

BOUQUET ROSE.—Flowers large, satiny rose, throat striped yellow. \$1.00.

CONQUERANT.—Enormous well shaped flowers; dark pink, reverse carmine. \$1.00.

FLEUR DE MAI.—Rosy red outside, salmon red inside, buds purple red. \$1.00.

FLOREAL.—Flowers very large; pink with mauve reverse, throat carmine. \$1.00.

GRACIEUX.—Flowers medium; sulphur yellow, reverse salmon. \$1.00.

LE PRINTEMPS.—Flesh color, free flowering. \$1.00.

CHOICE ALTHAEAS

ADMIRAL DEWEY.—Very double, pure white flowers. \$1.00.

ALBUS OCULATUS.—Large flower, distinct lake-red eye. \$1.00.

CRESTED BEAUTY.—Pure white, rich velvety crimson center; very free flowering. \$1.00.

PUNICEUS ROSEUS.—Deep rose color; large flowers. \$1.00.

RUBIS.—Single, ruby-red; fine. \$1.00.

HYDRANGEA BRETSCHNEIDERI.—A distinct and valuable hardy Hydrangea bearing large corymbs of white flowers in May. Desirable on account of its time of flowering and fine appearance. \$1.00.

NEW MOCK ORANGES OF SPECIAL MERIT

These are Mr. Lemoine's Hybrid varieties, and we invite special attention to them. They are all surprisingly beautiful; in fact, acquisitions of the highest merit. All are very free flowering.

BOUQUET BLANC.—Double or semi-double flowers; very floriferous. \$1.00.

CONQUETE.—Flowers very large, double, sweet scented. \$1.00.

ETOILE ROSE.—Flowers large, white with purplish rose at base; panicles roundish at the top of the branches; sweet scented. \$1.00.

GERBE DE NEIGE.—Enormous flowers of the purest white, the branches are arched and bent by the weight of the flowers. \$1.00.

MER DE GLACE.—The largest flowers of the Philadelphus. Branches erect, covered with numerous double flowers, rose-shaped, silvery white color. \$1.50.

PURPUREO MACULATUS.—Flowers large, pure white, with a large purplish-rose spot in the center; forms a small, compact bush. \$1.00.

ROSACE.—Flowers very large, creamy white, sweet scented. One of the best. \$1.00.

VOIE LACTEE.—Branches covered with round snow-white flowers measuring 2 inches in diameter. Remarkably fine. \$1.50.

PRUNUS SPINOSA PURPUREA

A new purple-leaved plum which gives promise of becoming a still greater favorite than *Pissardi*. Flowers small, pink, numerous. Habit more compact than *Pissardi*. Hardy. \$1.00.

SAMBUCUS PUBENS MAXIMUS—(GREAT ELDER.)

A striking new variety of Elder with immense heads of white flowers; showy and beautiful. \$1.00.

NEW SPIRAEA—AITCHISONII

(*Sorbaria Aitchisonii*,) (*S. angustifolia*).—Is certainly much more graceful and handsome than the old *Spiraea sorbifolia* and equals in beauty the tender *Spiraea Lindleyana*. It is a shrub attaining 6 feet in height or more, of rather loose and open habit, with graceful, light green foliage and the usually red colored stems topped by ample and lax panicles of white flowers.—*Alfred Rehder, in Horticulture*. \$1.00.

LILAC GIRALDI.—Newly introduced from North China; flower, pale lilac-white, fragrant. The earliest flowering lila. \$1.50.

NEW AND RECENTLY INTRODUCED LILACS

Comprising a very interesting and valuable collection, mostly Mr. Lemoine's celebrated introductions. Our assortment is one of the largest and most complete in the country. \$1.50 each.

BLEUATRE.—Single, true blue.

BOUSSINGAULT.—Double, light blue.

CHARLES SARGENT.—Enormous double flowers, violet mauve color.

CHRISTOPHE COLOMB.—Single, blue; superb.

DAME BLANCHE.—Beautiful double white flowers; one of the best.

DE MIRIBEL.—Single, large panicles of bluish violet color; very dark and rich. Extra.

DEUIL D'EMILE GALLE.—Double, enormous flowers, carmine mauve. Extra.

DUC DE MASSA.—Another extraordinary variety; flowers double, light violet color.

DR. TROYANOWSKY.—Spikes of hyacinth-like double flowers, bluish mauve color.

EDMOND ABOUT.—Very free flowering, double mauve lilac.

EDMOND BOISSIER.—Single, dark bluish violet; one of the darkest sorts.

ERZHERZOG JOHANN.—Single, rosy lilac.

GAUDICHAUD.—Very large and beautiful, double, light blue; extra fine.

GUIZOT.—Rosy lilac; early blooming variety.

JEANNE D'ARC.—Very large spikes of pure white, double flowers; superb.

JULES FERRY.—Double, silvery mauve, late flowering; extra.

JULES SIMON.—Large, double flowers, mauve lilac.

LE PRINTEMPS.—Flowers double, pale rosy violet.

LEON GAMBETTA.—One of the earliest to bloom; flowers double, rosy lilac.

L'ONCLE TOM (Uncle Tom).—Large spikes of single flowers, very dark purple color.

MACROSTACHYA.—Large spikes of single rose lavender flowers.

MADAME F. MOREL.—Single lavender.

Spiraea (Sorbaria) Aitchisonii

MADAME de MILLER.—Very large double white flowers. A superb variety.

MIREILLE.—Flowers double, hyacinth-like, snow-white; very fine.

MISS ELLEN WILLMOTT.—Double flowers, perfect shape, snow-white; unusually fine.

PASTEUR.—Single, vinous red turning to black-red. One of the best dark sorts.

PAUL HARIOT.—Double flowers, violet red.

PRESIDENT LOUBET.—Large double flowers, purplish red. A distinct shade.

REAUMUR.—Very large flowers, single dark carmine; a splendid variety.

RENE JARRY DESLOGES.—Panicles very large, individual flowers double, of perfect form; a blue shade of rare beauty. One of the best.

TOUSSAINT L'OUVERTURE.—Not new, but one of the very best dark varieties. Single.

VIVIAND MOREL.—Very large panicles; double, clear bluish lilac. Fine.

WALDECK-ROUSSEAU.—Flowers double, light rosy lilac.

EXTRAORDINARY NEW VIBURNUM CARLESI

An early flowering Viburnum of fine habit, bearing deliciously fragrant white flowers in May, being one of the first shrubs to flower. We consider this one of the most important introductions of recent years. \$2.00.

VIBURNUM PUBESCENS.—A native shrub of compact habit. 50c.

VIBURNUM RHYTIDOPHYLLUM.—Another new and valuable Viburnum, bearing corymbs of yellowish white flowers, followed in September with red berries turning black; foliage distinct and fine. \$1.50.

VIBURNUM RUFIDULUM.—A handsome shrub with dark green, shining foliage. \$1.50.

VIBURNUM WRIGHTII.—A valuable and interesting shrub attaining a height of 10 feet. Foliage handsome, and the fruit which it bears is remarkably showy. One of the best of this family. \$1.50.

ACTINIDIA KOLOMITKA.—A unique plant; tips of the leaves are white, turning to a delicate rose color. The plant has a shrubby rather than a climbing growth. \$1.50.

A NEW AMPELOPSIS—LOWII

SUPERIOR TO VEITCHII

This will undoubtedly, when better known, supersede A. Veitchii for the reason that its beautifully cut leaves are finer than the old form and the apple green spring shades turn just as readily in autumn to the bright red hues of Ampelopsis Veitchii. The habit of the plant is a finer growth than the old species, and it would appear to grow even more quickly. The young growths cling closely and give a very lacy effect. Having reached the extremity of its climb, this variety has a peculiarity of not clogging the gutter, as is often seen with A. Veitchii, but hangs over in the form of a shower of young growths, which give a splendid effect. \$1.00.

One of the many New Lilacs

Remarkable New Roses

NEW GOLD MEDAL ROSE

ORLEANS.—One of the most valuable of the Dwarf Polyantha section. The plant is vigorous, very free flowering, and the trusses are very large; color geranium red suffused with rose. It flowers all Summer. It is said to be the best Polyantha ever raised. We regard it as a most important acquisition for bedding. **\$1.00.**

“The Orleans Rose is, without a doubt, the best of the Dwarf Polyantha varieties. The pyramidal trusses of bloom are of immense size, making a highly decorative pot plant.”—*London Garden.*

NEW BABY RAMBLERS

JOAN OF ARC.—A new and distinct variety with large white flowers; very promising. **\$1.00.**

VAUGHAN'S WHITE BABY RAMBLER.—Flowers are borne in clusters of 50 to 75 individual flowers; foliage glossy and finely cut; vigorous, hardy and free blooming. A fine bedding variety. **50c.**

PHYLLIS.—Dwarf Bedding Polyantha. One of the best Polyanthas for bedding; a vigorous grower and good bloomer till frost sets in; flowers bright carmine pink, shading to white in the center. **\$1.00.**

JESSIE.—Dwarf Bedding Polyantha. “Another charming novelty. Blooms constantly until killed by frost. Flowers disposed in huge clusters and of a bright cherry crimson color, which does not fade or develop the objectionable purple tints. It is by far the best crimson variety yet placed upon the market and an ideal rose for pot culture, massing or bedding.” **\$1.00.**

MRS. TAFT.—An improved Crimson “Baby Rambler.” Color rosy crimson; a good shade. **\$1.00.**

MRS. W. H. CUTBUSH.—Flowers in large trusses and of a beautiful pink color. Habit of Baby Rambler; a charming perpetual flowering Polyantha. **\$1.00.**

NEW EVERBLOOMING CRIMSON ROSE

PRESIDENT TAFT.—Flowers double, well formed, bright red; plant vigorous and free blooming. A most promising bedding rose. It is a cross between Gruss an Teplitz and Cramoisie Superieur, and considering its parentage much may be expected from it. **\$1.50.**

The Violet Blue Rose

THE BLUE RAMBLER

VEILCHENBLAU (Violet Blue)—The new Rambler, "Veilchenblau" (Violet Blue), which is hailed by the German rose growers as the forerunner of a genuinely cornflower blue rose, is a seedling of Crimson Rambler. The blossoms, massed in large umbels, are semi-double, of medium size. The color, on first unfolding, is either reddish pink or purplish pink, then turns amethyst, and finally steel blue as the flower fades. The general color impression is that of the March violet. The yellow stamens appear in sharp contrast to the blue petals. The plant is vigorous in growth, with shining green foliage and few but sharp thorns. So far it has not suffered from mildew, and is considered one of the most hardy ramblers. 50c.

A VALUABLE NOVELTY

Interesting cross of the Yellow Rose with a Hybrid Tea, constituting a new race of Roses.

THE LYON ROSE.—Is the result of a cross between Madame Melanie Soupert, Hybrid Tea, and an unnamed variety, the direct offspring of Soleil d'Or. The flowers are of large size, moderately full, globular in form, of a superb shrimp pink color and fragrant; the buds are large, long, and coral red. M. Pernet says that although this magnificent rose belongs to the class Pernetiana it possesses all of the precious qualities of the Hybrid Teas, from which it has derived its principal character, and above all the advantage of perpetual flowering. This is unquestionably a very promising new rose, novel and entirely distinct. \$1.00.

EVERBLOOMING CRIMSON RAMBLERS

FLOWER OF FAIRFIELD.—For many years it has been the aim of every rose grower to raise a Rambler that would be ever-blooming, and now we are able to offer such a rose. This new variety is a sport from the famous and beautiful Crimson Rambler, similar in color, but more brilliant and more lasting than the old favorite. It possesses a further advantage over any other Rambler in the fact that it flowers profusely on the young wood in its first year. The new "Flower of Fairfield" is of vigorous growth, and when in bloom supersedes anything else by the wonderful display of its brilliant crimson clusters of blossoms. It starts blooming in the early spring, and continues to flower till late in autumn, thus it is rightly termed "Perpetual Blooming." This new climber is not only most effective for covering walls or trellises, arches, etc., but most attractive for table decorations and other cut purposes. \$1.00.

MISS G. MESMAN (Everblooming Climbing Baby Rambler).—"Bears large, compact panicles of bright carmine flowers and blooms continually from June until frost. As strong a grower as Crimson Rambler but not as thorny and free from mildew. \$2.00.

EVERBLOOMING RAMBLER

TRIER.—Flowers pale salmon pink with yellow anthers; flowers small, almost single, produced in large clusters. The first of a new race of roses. Constantly in bloom and as good in September and October as in the height of the season. Moreover, its dark green leathery foliage and red wood are mildew proof; makes a fine bush, requiring no pruning, and will soon be in everybody's garden.—*J. H. Pemberton, in the National (English) Rose Society's Annual of 1908.* \$1.00.

NEW HYBRID TEAS

DEAN HOLE.—One of the best of the Hybrid Teas. Flowers large, silvery carmine, shaded salmon; of fine form, long pointed bud and very free flowering. \$1.00.

J. B. CLARK.—A New Hybrid Tea Rose of very vigorous habit and remarkable freedom of bloom. The flowers are large, well formed, deep scarlet shaded with blackish crimson and very fragrant. Its chief merit is its extraordinary blooming qualities. \$1.00.

WHITE KILLARNEY.—A white sport of the well known "Killarney," with all the prominent and desirable qualities of that variety. Flowers large and pure white. A great acquisition. \$1.00.

SUPERB TEA ROSES

Valuable for Bedding

HELEN GOOD.—A sport from Maman Cochet; flowers of beautiful form, delicate pink color with deeper edges. \$1.00.

WM. R. SMITH.—Flowers large, white tinged blush. A strong grower and a very full bloomer. One of the finest roses for bedding. \$1.00.

NEW HYBRID WICHURAIANA ROSES (CLIMBERS)

The following are valuable additions to this rapid growing and popular class of Climbing Roses:

BONNIE BELLE.—Single, pink in large clusters. \$1.00.

CARISSIMA.—Very double, delicate flesh color. \$1.00.

CINDERELLA.—Double deep pink, last of the type to flower. \$1.50.

DELIGHT.—Single carmine flowers. Fine. \$1.00.

WHITE DOROTHY PERKINS.—As its name indicates, it is a white flowering form of the well known and much prized Dorothy Perkins. \$1.00.

EVANGELINE.—Single white flowers in clusters, tips of petals pink. \$1.00.

EXCELSA.—Very double crimson maroon, flowers in large trusses. \$1.50.

MILKY WAY.—An improved form of the common Wichuraiana. Fine. \$1.00.

NEWPORT FAIRY.—Double pink. \$1.00.

PARADISE.—Single pink and white. One of the best. \$1.00.

RUBY QUEEN.—Brilliant crimson or ruby red. \$1.00.

SNOWDRIFT.—Double pure white. Extra. \$1.00.

COQUINA.—A new Rose, having leathery almost evergreen foliage; flowers shell pink, base of petals creamy white. \$1.00.

BABETTE.—Flowers double, dark crimson, tinged with white \$1.00.

DOROTHY DENNISON.—A sport of Dorothy Perkins; delicate shade of shell pink. \$1.00.

LA FIAMMA.—This new Rose, as its name denotes, is flame-colored; flowers single, large and borne in clusters. It is a lighter shade than Hiawatha. Very valuable and one of the best. \$1.00.

NEW RAMBLERS OF EXTRAORDINARY MERIT

MRS. FLIGHT.—Beautiful, single, white with pink edges. A strong grower and a very free bloomer. One of the best. \$1.00.

TAUSENDSCHON, or Thousand Beauties.—Cannot be too highly recommended on account of its free flowering qualities and beautiful white and delicate pink blossoms. It has already been recognized by the leading florists, and is grown in large quantities now for winter forcing, and for garden decoration it cannot be surpassed. \$1.00.

American Pillar Rose

Valuable New Hybrid Tea

JONKHEER J. L. MOCK.—One of the most promising of recently introduced roses. It is vigorous and sends up strong, erect, flowering shoots; the flowers are of perfect form, of a lovely carmine color, changing to pink, and highly fragrant; they possess the marked peculiarity of developing slowly and lasting for a long time. In our opinion this rose has a great future. **\$2.00.**

American Pillar

Best New Climbing Rose

Flowers large, single, $2\frac{1}{2}$ to 3 inches in diameter, of a lovely, rich shade of pink with large white centers and produced in immense clusters, being very showy and attractive. The growth is remarkably strong, vigorous and rapid, and foliage is round, dark green, tough, shiny and insect proof. In Autumn the clusters of seed hips are an additional attraction. Unquestionably one of the finest single climbing roses known, and it will be prized for its hardiness, strong, rapid growth, healthy foliage and wealth of beautiful flowers. **\$1.00.**

New Climbing Rose

Climbing American Beauty

A cross between American Beauty and an unnamed seedling. Color rosy crimson, similar to its pollen parent; flower three to four inches in diameter, finely formed on long stems. Blooms very freely in May and June, and occasionally during the summer. The plant is a strong grower, making shoots ten to twelve feet in a season, and perfectly hardy. Foliage of good size, deep glossy green color; does not mildew; is not subject to black spots, and remains on until frost. **\$2.50**

Superb Rose Novelty

RAYON D'OR

This novelty of M. Pernet-Ducher's belongs in the class with Lyon-Rose, and is a cross between Mme. Melanie Soupert and Soleil d'Or "A vigorous grower of branching habit, fine bronze green foliage, glossy and absolutely immune to the attacks of mildew; color coppery orange, striped with brilliant scarlet bars; flowers large, full and globular; color superb yellow, toning to sunflower yellow when fully expanded, the deepest colored of any yellow rose; flowers produced in great abundance; a grand garden variety." **\$2.00.**

Phloxes

A COLLECTION OF THE BEST OF THE NEWER PHLOXES

Price 35 cents each. The collection, 1 each, for \$9.00

- AGLAE ADANSON.**—Large, pure white, red eye.
ALBION.—Pure white, pale red eye.
B. COMTE.—Purple; one of the best dark-flowered varieties.
BRIDESMAID.—White, dark red eye.
CLARA BENZ.—Brilliant carmine-rose, lilac eye.
COLIBRI.—Late blooming, white, crimson eye.
DAWN.—Soft pink, red eye.
ECLAIREUR.—Bright rose carmine, with light halo.
EDMOND ROSTAND.—Violet-rose, large white center.
ETNA.—Crimson, cherry-red eye.
F. G. VON LASSBURG.—Pure white, very large.
GENERAL GIOVANINELLI.—Bright rose, red eye. Dwarf.
GENERAL VON HEUTSZ.—Brilliant salmon-red, white center.
GEORGE A. STROHLEIN.—Scarlet-orange, bright carmine eye.
HELENE VACARESCO.—White; dwarf.
H. O. WIJERS.—Pure white, crimson-carmine eye.
JEANNE D'ARC.—Pure white, late flowering.
MME. PAUL DUTRIE.—Soft pink, suffused with white; large.
MISS LINGARD (Suffruticosa)—White, lilac eye; very free flowering and very early.
MRS. JENKINS.—Pure white, enormous flowers; early.
OBERGARTNER WITTIG.—Bright magenta, crimson-carmine eye.
PROFESSOR SCHLIEMANN.—Rose with carmine eye.
PROFESSOR VIRCHOW.—Bright carmine.
PYRAMIDALIS.—Pure white; large panicles.
R. P. STRUTHERS.—Bright rosy red, crimson eye.
SELMA.—Very large pink flowers, cherry-red eye.
SIEBOLD.—Orange-scarlet, large spike.
VESUVIUS.—Pure red, bright purple eye.
VON GOETHE.—Rose color, carmine-red eye.
VON HOCHBERG.—Dark crimson. Large flowers. Fine.

Select German Iris

- ATROPURPUREA.**—Purple; one of the best. 25c.
AUGUSTINA.—Deep yellow, marked with maroon. 25c.
BLACK PRINCE.—Very dark purple. 30c.
DARIUS.—Lemon yellow and purple. 30c.
FLAVESCENS.—Soft yellow, fragrant, early. 30c.
FLORENTINA.—White, tinged with blue and yellow, fragrant; one of the earliest. 25c.
GERTRUDE.—Violet blue, fragrant, fine. 30c.
GRACCHUS.—Lemon yellow and purple. 30c.
HARLEQUIN MILANAIS.—White and violet blue. 25c.
HECTOR.—Light bronze, stained with purple. Fine. 25c.
HER MAJESTY.—Lilac pink. 30c.
KING OF IRIS.—Yellow and brown. 30c.
L'AVENIR.—Lavender, a beautiful shade. 25c.
LIABAUD.—Yellow and maroon; fine. 25c.

- MME. CHEREAU.**—Clear white, handsomely feathered and bordered with blue; undulated edge; tall grower. 25c.
MME. PATTI.—Yellow and purple. 30c.
MAORI KING.—Rich golden yellow. 18 inches. 30c.
MRS. H. DARWIN.—Pure white. 30c.
MRS. NEUBRONNER.—Deep golden yellow; very fine. 30c.
PURPLE KING.—Very dark purple. 30c.
QUEEN OF MAY.—Lilac pink. 30c.
RETICULATA SUPERBA.—Center lavender, outer purple; fine. June. 25c.
SAMPSON.—Rich golden yellow; crimson-maroon, veined with white; fine. 18 inches. 25c.
SILVER KING.—Flowers silvery white; distinct and fine. Early. 25c.

Hardy Herbaceous Plants

50 cents each

- AQUILEGIA.**—Double White Columbine. 1 to 2 feet. June.
ASTILBE, Gladstone.—Large trusses of pure white flowers. Excellent bloomer.
ARTEMISIA frigida.—Fine silvery white foliage. Good for rock-work or border. 12 inches.
ARTEMISIA lactiflora.—Flowers creamy white, fragrant, in panicles. Grows from 3 to 4 feet high; erect. End of August and September.
CAMPANULA glomerata acaulis.—Foliage dark green, deep blue flowers. 6 inches. July.
CAMPANULA persicifolia cloche blue.—Double flowers of beautiful marine-blue. 18 inches. June.
CAMPANULA pers. coupe d'azur.—Flowers semi-double, sky-blue, large. 2 feet. June.
CAMPANULA pers. gigantea Moerheimi.—Pure white double flowers like a Camellia in miniature. 2 to 3 feet. June and July.
CAMPANULA persicifolia grandiflora.—Large flowering, light blue. 2 to 3 feet. June.
CAMPANULA pers. humosa.—Semi-double, blue flowers of large size. 2 to 3 feet. June.
CHRYSOGONUM Virginicum.—Yellow flowers throughout the summer. 9 to 12 inches high.
DELPHINIUM Belladonna.—Clear turquoise-blue flowers from the end of June till first frost. 2 to 3 feet.
DELPHINIUM, King of Delphiniums.—Enormous flowers of indigo-blue, with large white center, semi-double. 4 to 5 feet. June and July, and again later in the summer.

- DRABA Androsace.**—White flowers in early spring; dwarf. Fine for rockeries. 3 inches.
- GYPSOPHILA Cerastioides.**—White flowers from June to September. Good rock plant. 3 inches.
- HELENIUM, Riverton Beauty.**—Flowers rich lemon-yellow, with a large cone of purplish black, forming a pleasing contrast. 4 to 5 feet. August to October.
- LINARIA Hepaticaefolia.**—Forms a dense carpet of Hepatica-like leaves, and covered with rosy purple flowers. Good for facing rock work. 1 inch.
- NIEREMBERGIA rivularis.**—Dwarf creeping plant, large creamy white cup-shaped flowers from June till September. Valuable rock plant.
- OENOTHERA speciosa.**—Large white flowers, sometimes pale rose color, from June till September. 1½ to 2 feet.
- OENOTHERA Youngi.**—Flowers bright yellow, large. 2 feet. June.
