CHASE'S Spring = Surplus BULLETIN

April 17, 1939: It's mighty near time to go fishing down here at Chase, but we are going to put off going until we offer our friends a last crack at the few remaining lots of shrubs awaiting shipment in our cool storage cellars. The condition of this material is good — all it needs for growth is dirt on the roots and a little heat. You can give them both, and they will give their all for you. If you are in a hurry, shoot us a wire and we'll do the rest. First come, first served.

DOGWOODS

Here at the season's end we find we have in surplus some extra good Dogwoods (Cornus florida and varieties Plena and Rubra). They are young, clean, and vigorous—in such good condition that we don't believe it's necessary to ball them—a saving to you both in initial cost and in transportation charges. There aren't many of them, so shoot us your order.

Red Hot Words of Praise

KANSAS, March 12, 1939: "Your material arrived in excellent shape, very nice and we believe this material arrived in better shape and better packed than any we have received at any time."

PENNSYLVANIA, April 3, 1939: "Our last order arrived in fine shape and we are well pleased with everything. Biotas especially fine."

CALIFORNIA, April 4, 1939: "The Junipers we bought from you earlier this season have all come through in fine shape and are beginning to make nice growth."

NORTH CAROLINA, April 4, 1939: "Received the Pfizers and Flowering Peach and they are fine."

MASSACHUSETTS, March 29, 1939: "Two cases of Pink Dogwood are here and 'are as represented,' which goes without saying."

KANSAS, March 27, 1939: "No need to tell you that the stock was just as we expected, and is like all the other orders we have given you — just as nice as if we had been down there to pick it out."

LINING-OUT STOCK

This Lining-Out Stock is all field grown except as noted. Rigid cultivation in our rich soil gives every item a wonderful root system, the thing a liner needs most. "S" means seedlings from beds; "P" means shaken from pots. Culls are as rigidly excluded from our Liners as they are from our finished stock.
