BOLGIANO'S DRUID HILL PARK LAWN GRASS

Bolgiano's Druid Hill Park Velvet Green Lawn Grass Seed, from yearly comparative trials, has proven to be unsurpassed for first-class and permanent results. This is due to the fact that we use only the very finest varieties of most suitable grasses, thoroughly recleaned, free from all chaff and weed seeds.

Bolgiano's Druid Hill Park Velvet Green Lawn Grass Seed contains a well-balanced blend of various American and foreign fine bladed and deeply rooting grasses which has proved to produce the very best results under the varied conditions as to soil and climate met with in America.

One pound will sow 20 x 20 feet, 10 pounds will sow 50 x 150 feet, 60 pounds will sow an acre. 30 pounds measure one bushel. $\frac{1}{4}$ lb. 15c. $\frac{1}{2}$ lb. 25c. Lb. 40c. 3 lbs. \$1.15. 5 lbs. \$1.80. Bu. of 30 lbs. \$10.00. Postage extra.

SHADY NOOK LAWN GRASS MIXTURE

Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places. For sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those that are well adapted for growing in shade, and as it blends well with our Druid Hill Park Green Lawn Grass Seed it may be used on those portions of the lawn which are shaded by trees, buildings, etc., thus covering the whole area with a rich green sward. $\frac{1}{4}$ lb. 15c. $\frac{1}{2}$ lb. 25c. Lb. 40c. 3 lbs. \$1.15. 5 lbs. \$1.80. Bu. of 30 lbs. \$10.00. Postage extra.

BOLGIANO'S PERMANENT TERRACE AND SLOPE MIXTURE

Realizing the difficulty experienced by the majority of lawn makers in getting a thick turf which will hold the soil on terraces and high slopes and prevent washing by heavy rains, we have after much experimenting established a mixture which admirably fills this need.

This mixture has been carefully blended so as to contain various grasses of rapid, dense, even growth and strong root systems, which will insure a permanent, beautiful slope. $\frac{1}{4}$ lb. 20c. $\frac{1}{2}$ lb. 30c. Lb. 50c. 3 lbs. \$1.45. 5 lbs. \$2.30. 25 lbs. \$11.00. Postage extra.

WHITE DUTCH CLOVER

This is the best Clover for lawns, as it forms a close herbage and remains green throughout the season. It is also a very valuable mixture with grass seed for pasture. Sown in the Spring at the rate of 6 lbs. per acre when sown alone; one-half the quantity when sown with other grass. $\frac{1}{4}$ lb. 25c. $\frac{1}{2}$ lb. 40c. Lb. 75c. Postage extra.
