- 5th—No cripples, no scalds, no blight, no cracked, no wrinkled, no one-sided, uneven, scarred fruit. When dead ripe "John Baer" Tomato will not burst.
- 6th—"John Baer" Tomato has a wonderful glistening, brilliant, bright red color.
- 7th—"John Baer" Tomato has a mild deliciously sweet flavor. The finest flavor you ever tasted.
- 8th—"John Baer" Tomato is almost seedless, it requires 6 to 8 bushel of "John Baer" Tomatoes to make one pound of seed, a marvelous Stem Setter, often ten fruit in first cluster, solid and meaty.
- 9th—"John Baer" Tomato has just enough foliage—will stand plenty of manuring without going to vine. Set plants 3x3½ feet.
- 10th—"John Baer" Tomato is the most perfect shipping Tomato ever grown—24 fruit exactly fill a six carrier basket.
- 11th—Each beautiful "John Baer" Tomato weighs about 6½ ounces.
- 12th—"John Baer" Tomato Seed was saved only by John Baer, the originator, who personally selected and picked every Tomato from which he saved this seed, selecting only the most beautiful, perfect fruit of the Early Stem Set Clusters.
- 13th—"John Baer" Tomato is the offspring of two marvelous Tomatoes—One Great Specialist having devoted 10 years in selecting and improving one parent and Another Expert devoted five years in selecting and improving the other parent. The "John Baer" Tomato is therefore the result of Fifteen Generations of Improvement and Selection for earliness, quality, shape, fruit, color and shipping quality.
- 14th—As a Packing Tomato, "John Baer" is a miracle, they all pack Fancy, no seconds, and all pack whole. Peelers can prepare three bushels "John Baer" Tomatoes to one bushel of any other Tomato. Being such a tremendous yielder a bushel of "John Baer" Tomato can be gathered in one-third the time of any other Tomato. A large Baltimore Tomato Packer had all the "John Baer" Tomatoes he could secure packed separately, running them through a special process for his fanciest trade and his own private use.

Bolgiano's New Crop Tomato Seed

PRODUCE THE

Best Tomatoes

That Grow

Bolgiano's Extremely Early Prolific I. X. L. Tomato

All our enormous crops of Tomatoes are grown exclusively for seed, as far north as Tomatoes will mature a crop, thus insuring early maturity and hardiness. The ideal climate in which we grow our Tomato Seed makes them earlier, free from disease and blight, firmer and more productive than seed you can produce from any other source. We select our most perfect field and in that field we select the most perfect plant and from that plant we take the earliest and most perfect cluster of fruit and save our stock seed. By scientific, expert selections we have built up stocks of Tomatoes that are unequalled. Many large Tomato Seed Growers secure their stock seed annually from us. So if you would have the best crop of Tomatoes you have ever grown, send us your orders.

Bolgiano's Tomato Seed is put up in attractive packages, each one having our Blue Seal and any offered for sale without our Blue Seal are misrepresentations.

Most Prolific He Had Ever Planted

Mr. L. B. Belk, of Manatee Co., Fla., writes as follows: "I planted your I X L Tomato seed last season and made a fine crop. I found them to be the most prolific I ever planted. I raised 311 crates of Tomatoes on 21 rows 52 yards long. I have a great many truckers that want to plant the I X L next season."

Ten Days Earlier Than Any Other

Mrs. R. L. Saunders Franklin Co., Va., writes as follows: Honor to whom honor is due. For twenty years I have raised early tomatoes for this market and I think I have tried every new one of note, that has come out, in that time, but I never saw one that could compare with the I X L. I sold mine for forty cents per doz. long before any one else had them even grown, much less turning. I consider them ten days earlier than any I know of. My garden is on the main road leading into the town, and my tomatoes were a curiosity to the Passersby.

Tomato Investigations at Purdue University Agricultural Experiment Station, Lafayette, Indiana

Extracts from Bulletin No. 165, Vol. XVI, April, 1913

"The average calculated yields for three years of eleven varieties tested shows 'Greater Baltimore' ranking First with a yield of 16.25 tons per acre against Stone 13.38 tons per acre."

"Considering Yield and Quality the eleven varieties tested will rank as follows as a field crop for canning: First 'Greater Baltimore'."

"Picking season from July 25th to October 1st, the 'Greater Baltimore' yielded nearly 22 tons per acre."

"The 'Greater Baltimore' which has been gaining in popularity with the Canning Trade during the past two years, begins bearing 12 to 16 days earlier than the Stone, when both are sown and handled in a similar manner throughout the season."

It will also be seen that 'Greater Baltimore' is as early a bearer as Chalk's Early Jewel, which is generally considered an early sort."

"It is largely the Earliness and the Uniformity with which the plants bear a Large Number of large Smooth Fruit throughout the ripening season that makes the 'Greater Baltimore' Superior to the Stone, which has been the standard canning variety for many years."

"The average date of first ripening for the 'Greater Baltimore' was 120 days from the sowing of the seed in the hot beds and 65 days from the time the young plants were set in the field."

Busy With Big Crops of 'Greater Baltimore.'

On Oct. 7th, 1914, The T. A. Snider Preserve Co., of Chicago, Ill., wrote: "We have been so busy with our big tomato crop this year that we neglected writing you in regard to Tomato Seed. What price are you going to make us on about 1,000 pounds of good, first-class Greater Baltimore Tomato Seed in 1-ounce packets?"

We feel satisfied that you are going to have a lot of good sized orders for Greater Baltimore from the State of Indiana this year for the reason that they have seen our different fields growing and we have told them that we prefer that brand to some other quality."

He's Been Planting Bolgiano's Seeds for 20 Years—Say They Are The Best—

He Ought to Know

Peter Middlebrook, of Haywood Co., Tenn., writes June 26th.

"Enclosed find my order for 26 bus. of Peas, and 20 bus. of Beans. We have been planting your seed for 20 years, I find they are the best seed I have ever planted. I always find them true to the name and always yield a large crop and have no sports in them. I make on your beans from 200 to 300 bus. per acre, and on the Peas, 200 to 250 bus. per acre. All the growers here plant J. Bolgiano & Son Seed, and always have a large yielding."

We Sell Pure Seed Beans—They Stand The Test

On October 12th, Mr. Philip W. Roberts of Brevard Co., Fla., writes as follows:
"I purchased a couple of bushel of Refugee or 1000 to 1 Beans from you a few weeks ago as a sample and my customers were so well pleased with them I want 12 bushels for Spring planting."

Undoubtedly the Best Cucumber Grown. Ship Us 800 Pounds.

The C. E. Coleman Produce Co., of Neuces Co., Texas, writes as follows: "Referring to your wire please ship us 800 lbs. Bolgiano's Early Fortune Cucumber Seed. I have adopted your Early Fortune as the early cucumber I like to handle, it has given universal satisfaction. I want this seed for the use of growers here. We are great Boosters for your seed in this section; you can always refer to us as to the merit of your Early Fortune Cucumber, as it is undoubtedly the best Cucumber grown."

What's In a Name

W. H. Niver, Beaufort Co, S. C., writes: "The 60 lbs. of Bolgiano's Early Fortune Cucumber Seed I bought of you last season gave me the finest crop of the finest and earliest cucumbers I have ever raised. They certainly are rightly named: I shall surely never plant any other kind. I have been buying all my seeds from you for my Truck Farm, Market and Home Gardens for the past 15 years, and allow me to say my dealings with you have always been of the happiest."

Planted Ten Days After—Able to Ship as Soon

On June 30, 1913, Mr. H. Studte, Houston, Del., writes as follows: "The seeds I bought this spring from Messrs. J. Bolgiano & Son proved O. K., in fact your Early Fortune Cucumber Seed (9 lbs.) came forth better than our own home saved seed from our own grown best selected cucumbers. We planted the cuke seed the last days of April and we will ship in spite of the unfavorable spring weather about July 3d, as soon as my neighbors who planted about 10 days sooner. To-day we eat cucumber salad."

\$2000.00 From 1½ Acres

J. N. McCallum, Florida, writes: "Last Spring I planted Bolgiano's Early Fortune Cucumber Seed and from 1½ acres I picked 1200 crates, which netted me nearly \$2,000. This spring I planted 3 acres, and, though the crop was cut half by the cold and drought, I guess I made the best crop in this section, getting about 1500 crates, which netted me about \$2400.00. I shall plant Early Fortune Cucumber Seed next Spring and, think I can sell several hundred pounds for you."

\$1712.00 Net From 1½ Acres

S. H. Richmond, of Dade Co., Fla., writes as follows: "Last year we bought 'Early Fortune' Cucumber Seed from you which gave good results; we got 856 crates from 1½ acres which netted us \$2.00 per crate."

On Nov. 18th, Mr. L. C. Schwendeman of Marion County, Fla., wrote as follows: "Your inquiry concerning the seed you sent us at hand. It being our first order of any amount from you; when we planted we as usual sowed them good and thick to insure a stand, and such a time as we had thinning them out. It seemed that every seed came up. Bolgiano's Seed will be good enough for us in the future, but believe me, never again will we sow them so thick. We have had ice three nights in succession, but The New Leader and "Square Deal" Cabbage Plants are still holding their own. They seem to be trying which can grow the faster. We had ripe tomatoes off the I. X. L. and Prosperity in just 95 days from sowing the seed."

New Long Podded Alaska Pea

Our Peas Can't Be Beat

On June 12th, Mr Albert J. Christmas of Muskingum County, Ohio, writes: "We are now marketing peas from your seed I purchased early this spring. Never before have we had a better stand. I must compliment you for this. They are non-beatable."

Our Peas Always Gave Satisfaction

Finds Our Stock Always Pure

Mr. E. M. Machin of Tipton Co., Tenn., on January 28th, writes as follows: "Can you let me have 6 bushels more of Bolgiano's Extra Early Alaska Peas? I can buy Alaska Peas here, but I would rather have yours. I do not buy from anyone here because they do not give the satisfaction and are not pure stock like yours, and would rather pay the difference in freight than to buy the poor stock here."

More Than Pleased With Our 100% Profit Peas

On Dec. 7, 1914, Mrs. Fannie B. Simmons of Elkton, Rockingham Co., Va., wrote as follows: "I think your 100% Profit Peas the finest, largest Peas I ever saw. Am more than pleased with them."

Perfect Satisfaction

G. H. Tully, Cumberland County, North Carolina, writes: "The Truck Growers in this section who did not buy their seed from your house had peas that were mixed with Canadian Field Peas and other varieties, while your peas have given entire and perfect satisfaction. They say they are all going to buy their seed from you another year."

Gave Entire Satisfaction

On Jan. 27th, Mr. E. L. Kift of Princess Anne Co., Va., writes: "The Sugar Marrowfat Peas I purchased from you gave entire satisfaction. Please quote me ten bushel."

Certificate of Quality

This is to certify that I have had charge of all the Seed Potatoes grown for J. Bolgiano & Son, during this growing season. I have been with them since April 15th; looked after the selecting of their seed and the treating of the same, have also had charge of the spraying during the growing season. There was nothing planted but the very best selected seed, and nothing has been left undone to have them right. The crop is now being harvested, and the results of my work are most satisfactory. We are harvesting one of the largest crops ever grown in Aroostook County, Maine, and of the finest quality, free from any disease and true to name. I spent some time in Washington, D. C., with the Horticultural Board before coming here and their ideas of producing FIRST CLASS SEED have been carried out to the letter for J. Bolgiano & Son.

(Signed) G. R. BISBY,
Plant Pathologist,
Presque Isle, Maine.
Sept. 19, 1914.

Entirely Satisfactory.

On October 20, 1913, Mess. Woodard Bros., of Norfolk Co. Va., writes: "We are now making preparations to handle Seed Irish Potatoes strictly Maine select stock, again this coming season, and as we purchased of you some of our stock the past season, and same having proved entirely satisfactory indeed, we are writing to ascertain what the prospects are this coming season for us to get together on a few cars."

A Fine Lot of Seed.

On April 3, 1913, Mr. R. T. Brice of Anne Arundel Co., Md., writes: "The three bags of Gray's Mortgage Lifter Potatoes and four bags of American Giants came in good shape and are a very fine lot of seed."

The Best Potato in The World.

Wm. Butler, Grant Co., Ind., writes: "Bolgiano's Famous Prosperity Potato I think is the best I ever grew; its cooking qualities can not be beat. It is the best yielder and does better on poor ground than any other variety I ever grew. It does better year after year than any other variety, wet or dry season, and you are sure to make a crop if you plant Bolgiano's Famous Prosperity Potatoes. The big stalky vines are a good thing in wet weather to hold the weeds down after they are laid by, and a good thing in dry weather to hold the moisture in the ground."

Better Seed For Half the Money

H. Studte, Kent Co., Del., May 13, "The fifty lbs. of Scarlet Turnip White Tip Radish seed bought from Messrs. J. Bolgiano & Son produced the finest kind of radishes.
