Dreer's Wholesale Price List

JANUARY—1915—JUNE

WE TAKE PLEASURE in presenting to the Trade, this, our Wholesale Price List for the Spring of 1915, and are pleased to say that notwithstanding the present unfortunate and deplorable conditions throughout a large part of Europe, from which we get many of our supplies of Seeds, Plants and Bulbs, we have at this writing, December 15th, received a good portion of our contracts, and assurances that the balance will come forward with the least possible delay, so that we feel reasonably sure of being able to take care of the requirements of our customers as usual. Some few items which may be delayed are almost certain to reach us in ample time for planting, and can be sent on their arrival.

We would strongly advise our customers to send in their orders for Seeds, Plants and Bulbs as early as possible, not only to avoid the Spring rush, but to insure getting full requirements of anything that may be short.

We are also pleased to call attention to the fact that in spite of the difficulty of getting high grade imported stocks of all kinds, and increased transportation charges, the prices in most cases remain unchanged, and in many instances have been reduced. Conditions, however, make it necessary to call the special attention of our customers to the rules of the trade that all orders for growing crops and stock not actually in hand are accepted subject to crop failures, shortages, or other causes beyond control, and the right to advance prices without notice.

SEED DEPARTMENT.—This is in charge of trained experts, and whether your wants may be in Flower, Vegetable or Agricultural seeds, you may be sure to get only the choicest.

PLANT DEPARTMENT.—Our stocks of the leading decorative and flowering plants are in splendid condition, and customers may rely on getting full value and prompt and careful service.

SHIPPING.—By our careful and thorough system of packing, we **Guarantee Safe Delivery** of plants and perishable goods, when ordered to be sent by **Express**, and we always ship this way unless we have positive instructions to the contrary, and **when sent in any other way, are solely at purchaser's risk.**

PARCEL POST.—Many of our customers seem to have the idea that Seeds, Plants and Bulbs can be sent by Parcel Post at small cost, such is not the case, and it is invariably cheaper, safer and quicker to send packages by Express. We will be pleased to send such items as can be mailed by Parcel Post if customers will remit for postage. **We do not deliver any goods free at Wholesale Prices.**

PRICES.—This list cancels all previous offers. The prices quoted in this list are **net**, and subject to no discounts. Articles offered in our Retail Catalogue or Garden Book and not offered in this list will be supplied at retail prices less the following discounts, viz: Vegetable and Flower Seeds in packets, Bulbs and Plants, $33\frac{1}{3}\%$; Small Tools and Insecticides, 10% .

No order for **plants or bulbs** amounting to less than \$1.00 will be filled and packed at wholesale prices. Orders received from the trade for Plants or Bulbs amounting to less than \$1.00 will be charged for at retail prices, less 10 per cent.

TERMS OF BUSINESS.—Unknown correspondents desiring to open an account will please furnish three references to parties in the trade with whom they have had credit relations, and sufficient time to investigate same, otherwise cash must accompany order.

Remittances should be made by Post-Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way.

Goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance.

All goods are offered subject to crop failures, shortages or other causes beyond control and to being unsold on receipt of order, and we reserve the right to advance prices without notice.

No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices in Philadelphia.

In filling out your order always give **Shipping Directions**, and write **Name** and **Address** **Distinctly** on each and every order.

NON-WARRANTY.—We wish it to be distinctly understood that although we continue to take all possible pains to supply only New, Genuine and Unadulterated Seeds, Plants and Bulbs, we still give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any of the Seeds, Plants or Bulbs we send out, and will not be in any way responsible for the crop. Every order received for articles named in this Catalogue will be executed on these conditions only.

DREER'S SNAPDRAGON

Dreer's Famous American Asters

All our Asters have been grown under our own supervision, and we know that the quality in every case is unsurpassed.

Astermums.

This strain of Giant Comet Asters were first exhibited at the Florists' Convention in 1912, and their immense size and Chrysanthemum-like appearance created quite a sensation. The stock we offer was grown from seed procured from the originator and has been, we believe, improved under our care, the colors which were somewhat mixed being carefully trued up. They closely resemble Crego's Giant, but come into bloom fully two weeks earlier. We offer three colors.

	Tr. pkt.	Oz.
White Astermum	50	\$2 50
Pink "	50	2 50
Lavender "	50	3 00

Crego's Giant Comet Asters.

Magnificent fluffy flowers, averaging over 5 inches across, with long strong stems, the finest of this type. Comes into bloom in August, continuing well into September, and unlike most of the Comet sorts, stands when cut and is a good flower to ship. We offer five colors, our own saving, of the highest quality.

Mikado Asters.

Very similar to Crego's Giant but dwarfer and earlier. Flowers of largest size rarely under 5 inches across, borne on good long stems, we offer two colors.

	Tr. pkt.	Oz.
Mikado Pink or Rochester	30	\$1 50
Mikado White	30	1 50

Giant Branching Comet Asters.

Finest Mixed. Of tall strong growth, with long stems and fine for cutting. 25 1 00

Dreer's "Crimson Giant" Aster.

A superb new late-branching variety, with perfect double flowers of rich rosy crimson, full of fire. Fine for cutting, showing up well under artificial light. 30 cts. per trade pkt.; \$1.50 per oz.

DREER'S SUPERB LATE-BRANCHING ASTER

CREGO'S GIANT ASTER

Dreer's Superb Late Branching Asters.

The finest Asters for late August and September blooming.

The plants form strong, branching bushes, 2 to 2½ feet high, bearing on long strong stems their handsome Chrysanthemum-like flowers, which, under ordinary cultivation, averages 5 inches across. The form of the flowers, together with the length of the stems, places them at the head of Asters for cutting. They come into bloom from two to three weeks after the average type, usually being at their best during September, and filling in the gap between the general run of Asters and Chrysanthemums. We offer eight beautiful and distinct colors, viz.:

Lavender. A pale grayish-lavender	25	1 00
Crimson. Very rich	25	1 00
Finest Mixed. All the colors	25	75

King Asters.

The "King" Asters form a distinct class or type, and have many sterling qualities to recommend them to lovers of fine Asters. They are of strong, sturdy habit, growing fully 18 inches high, and bear from August to October very large double blossoms, the petals of which are more or less quilled, forming very attractive flowers.

	Tr. pkt.	Oz.
Dreer's Crimson King. A brilliant new color in this type, which originated with us and offered last year for the first time. It is the richest and deepest crimson variety known to us	50	\$3 00
Pink King. An attractive shade of delicate shell-pink	40	2 00
Rose King. A beautiful brilliant rose variety	40	2 00
Violet King. This is the original of this type, and is a pleasing soft shade of violet	30	1 50
White King. Of purest glistening white, flowers very large	50	3 00

Dreer's Famous American Asters

MIKADO ASTER

Dreer's "Peerless Pink" Aster.

This grand Aster may be briefly described as a glorified late branching shell-pink or Mary Temple. It has the same strong, sturdy habit of growth; comes into bloom a little earlier, bears freely almost globular flowers rarely under 4 inches across and frequently over 5 inches. The color is rich shell-pink, similar in shade but more decided than the late branching. The centre petals are prettily incurved, while the wide outer petals reflex, making a most artistic and finely finished flower, and stands cut longer than any other. 50 cts. per trade pkt.; \$2.50 per oz.

Dreer's "Pink Beauty" Aster.

A magnificent cut-flower variety, in bloom from early August until well on in September; 24 to 30 inches high; flowers average 4 inches across, on long, strong stems. Color a delicate blush pink, and pronounced by experts to be the finest pink midseason sort yet introduced. 40 cts. per trade pkt.; \$2.00 per oz.

Improved "Daybreak" Aster

One of the best bedding varieties and equally valuable for cutting, forms symmetrical plants 15 to 18 inches high, bearing as many as fifty perfectly double flowers of a delicate La France pink color. Blooms from August until October. 40 cts. per trade pkt., \$2.00 per oz.

Improved "Purity" Aster.

Identical in every way to Daybreak except in color, which is purest white. A very useful variety for making up designs, etc. 40 cts. per trade pkt., \$2.00 per oz.

White Fleece. Large and most perfect flowers, 5 inches and over across, formed into a plummy globe of glistening white. Blooms in August	40	2 00

"Sensation." This is the reddest of all Red Asters, the color being a rich garnet or ox blood red which glistens in the sunshine like a live coal. The plants are of free-branching habit about 18 inches high; the very double flowers, averaging 3½ inches across, are borne freely on stems a foot long from early in August till the close of September. The intense color shows up well when cut, and makes a very brilliant bit of color in a bed or border

Orchid-flowered Sweet Peas.

This type is distinguished from the standard or grandiflora sorts by the extraordinary size of their flowers and by the standard being crinkled and wavy. They usually bear four blossoms on a stem, and are as easy to grow as the commonest sorts. Owing to their being shy seeders they will always be higher in price than the grandiflora, but a fair crop the past season enables us to offer them at prices much lower than ever before.

ASPARAGUS MADAGASCARIENSIS

SINGLE AND DOUBLE TUBEROUS BGONIAS

Asparagus Madagascariensis.

We are now offering this comparatively new variety for the first time. It is an attractive plant, entirely distinct in habit and foliage from all other sorts, and a plant that will prove a welcome addition for the filling of Fern-dishes. Its habit of growth is erect, it naturally forming shapely bushy plants, with deep green myrtle-like foliage; at various periods it flowers and fruits quite freely; the berries are about two-thirds the size of an Ardisia berry and turns to a bright red, which adds to the attractiveness of the plant.

TYPICAL SPIKE OF NEWER CANNAS

CANNAS

Novelties for 1915

We carefully test all of the new Cannas introduced by American and European specialists, and offer our customers only those which show special merit. We have ourselves produced three sterling novelties which we introduce as

The Dreer Set of New Cannas for 1915

Eureka. We recommend this as the best white variety yet introduced, it being the first of this color which is a strong free grower that will flower as profusely as the other colors, the creamy white flowers are large, well formed and stand well above the foliage, a splendid sort to use in connection with high colored varieties. 4 feet.

Orange Bedder. A particularly attractive bedding variety of a bright orange with just sufficient scarlet suffusion to intensify the dazzling mass of colors when the wide branching stems are covered with flowers.

The Gem. An entirely distinct spotted variety. The immense trusses of flowers are borne on upright branching stems well above the foliage, and are of deep cream or straw-yellow spotted with deep carmine.

Any of the above varieties 50 cts. each; \$5.00 per doz.; \$40.00 per 100
One each of the 3 varieties for \$1.25.

CANNAS

Select Standard Sorts

All have green foliage unless otherwise specified.

The prices quoted are for strong divisions in a dormant state. Potted plants will be supplied after May 1st at an advance of \$1.00 per 100.

Note our collection has been carefully revised. Such varieties as Florence Vaughan, Mlle. Berat, Richard Wallace, Alphonse Bouvier, J. D. Eisele, Charles Henderson and many others which at one time were the best of their respective colors, have been discarded, newer, better varieties, at no advance in price, taking their places. If you are not familiar with these newer sorts and will simply specify what color or type of variety you want we shall be pleased to make a selection for you which we know will suit you. Edmontoniensis. Ground color dark green, splashed and mottled orange and carmine and bordered with carmine.

Juliette Delaruye. Large, oak-leaved foliage of bright green; the mid-rib, veins and irregular blotches of clear canary-yellow.

Lille Stoffregen. Large broad leaves of a bright olive green, with broad irregular bands of creamy-yellow along the mid-rib and veins.

Mme. Van der Meulen. Broad, bright green, large leaves, maturing a rich russet-orange; mid-rib and reverse carmine.

Mrs. Duncan Macaw. Fine large leaves, which, while young, are green with yellow veins; as they mature the green becomes a reddish-bronze, while the yellow is transformed into a bright cardinal-red.

Pere Charon. Large elliptical foliage, bright green with irregular large yellow and carmine blotches; as they mature become a dark bronzy green with orange-carmine mid-ribs, veins and blotches.

Phillip Geduldig. A compact grower with broad, medium-sized leaves; light green ground generously splashed with yellow; this gradually deepens to a bright cardinal-red on an olive-green base.

Pucciana. Leaves bright olive-green with irregular yellow markings, changing to bronzy dark green, veined and largely marked with bright cardinal-red.

Willie Runde. Similar in coloring to Mrs. Duncan Macaw, but differs in having much narrower and shorter foliage.

Yuletide. Leaves at first usually a pure orange, changing to dark green, cardinal and orange, with deeper mid-rib and reverse.

Price. Any of the above Novelties in good young plants in 3-inch pots, 35 cts. each; the set of 10 for \$3.00.

CROTON

DREER'S SELECT DAHLIAS

All varieties are supplied in strong dormant roots except those specially noted, which can only be furnished in green growing plants ready after April 15th. As the season advances our supply of dormant roots of some of the older varieties becomes exhausted, in which case green growing plants are sent instead. These will give equally as good results as dormant roots, flowering just as freely, and many experienced planters prefer them, and by the time they are cut by frost they will have produced strong roots which can be carried over in the usual way.

Special Varieties of Dahlias.

New Colossal Cactus Dahlia Kalif.

A truly majestic flower, frequently measuring 8 to 9 inches in diameter (one of our California customers wrote us under date of Oct. 8th, I have your Kalif Dahlia nearly a foot in diameter), of perfect Cactus form, in color a pure scarlet. The habit of the plant is all that can be desired, growing, with us, about $4\frac{1}{2}$ feet high; the gigantic flowers, which are produced very freely, are held erect on strong, stiff stems, making it a most effective and useful variety for cutting as well as for garden decoration. Kalif is of German origin, and is the first variety that has had the distinction of receiving the National German Dahlia Society's highest award—a silver medal.

Plants ready in April. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

New Colossal Cactus Dahlia Nibelungenhort.

This is another distinct introduction which has been greatly admired, with flowers from 7 to 8 inches across, composed of rather broad, more or less curled and twisted petals of a beautiful shade of old-rose with golden-apricot suffusion. Very free-flowering on long stems; a fine cut flower.

Plants ready in April. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Colossal Cactus Dahlia Etendard de Lyon.

Even the person who classes all shades of purple as so-called malignant magentas stops to admire this beautiful carmine-rose new giant, which we consider one of the most distinct varieties for garden decoration. The flowers are of a hybrid-cactus type, distinct in shape from all others; the petals are broad, curled and wavy and form a flower fully 6 inches in diameter and 4 inches deep, a very large flower, yet without any stiffness or formality.

Plants ready in April. 50 cts. each; \$5.00 per doz.; \$35.00 per 100.

COLOSSAL CACTUS DAHLIA
ETENDARD DE LYON

GIANT CACTUS DAHLIA WODAN

Four Popular Giant Cactus Dahlias.

Nerthus. The centre of the flower is a rich, glowing, bronzy, orange-yellow, passing to a carmine-rose at the tips, the whole suffused with a glowing golden color, which gives it an iridescence which it is not possible to describe.

Rheinkönig. Pure snow-white flowers of splendid form, 5 inches and over in diameter. These are of great substance, lasting splendidly when cut; they are borne on long, stiff stems held well above the foliage, making it as valuable for garden decoration as for cutting.

Wodan. Bold, large, but not coarse flower, frequently 7 inches in diameter, a graceful arrangement of semi-incurved tubular petals of a pleasing, delicate salmon-rose color, shading to old-gold in the centre.

Wolfgang von Goethe. Large, gracefully-arranged, perfect flowers of a rich apricot, carmine shadings.

Any of the above four varieties in field roots, 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Pæony-Flowered Dahlia Geisha.

The showiest and most attractive of this type yet introduced; of strong growth, with the rich-colored flowers, which are frequently over 8 inches in diameter, standing well above the foliage. These are original in form, consisting of peculiarly twisted and curled petals, of an effective and rich combination of scarlet and gold, the centre being yellow, which becomes suffused with and deepens to scarlet at the centre of the petals, shading off lighter at the edges.

Roots, 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Yellow Show Dahlia.

Princess Victoria. A sterling variety, being the earliest and freest-flowering primrose-yellow; never produces an imperfect flower and is in bloom early and late; long, stiff stems; fine for cutting. Field roots, 10 cts. each; \$1.00 per doz.; \$8.00 per 100.

DREER'S SELECT DAHLIAS

All varieties are supplied in strong dormant roots unless otherwise noted. See note at top of page 29.

CACTUS DAHLIA,
CANDEUR

Five Special Cactus Dahlias for Cutting.

Candeur. A wonderful pure white, which in the fully developed flower more closely resembles an incurved Chrysanthemum than any other sort; it is of fair size, and a valuable cut flower.

Field roots, 15 cts. each; \$1.50 per doz.; \$12.00 per 100.

Galathea. A medium-sized flower of splendid form, especially appreciated on account of its delicate color, which is an even, tender soft pink.

Field roots, 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Marguerite Bouchon. We have no hesitancy in saying that this is the most beautiful Cactus Dahlia yet introduced. It is of absolutely perfect form; every flower on a good stem well above the foliage; color a magnificent shade of brilliant, yet soft rose, with very large white centre and distinctly defined white tips.

Plants ready in April. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Rheinischer Frohsinn. This variety appealed to most of the visitors to our trial grounds during the past two seasons as one of the most distinct and refined varieties of recent introduction. The flowers are large, of splendid form; the long incurving petals are white at the base, but at about one-half their length they become suffused with and change to a luminous carmine-rose, the two colors combining harmoniously in forming a most attractive flower.

Field roots, 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Thais. The rather broad petals, which are loosely arranged, make up an informally shaped flower, which, on account of its color, a pure white with a soft mauve suffusion which is deposited over the snowy petals like a dew, makes it one of the most delicately colored sorts which we have yet offered.

Field roots, 20 cts. each; \$2.00 per doz.; \$15.00 per 100.

Five Special Decorative Dahlias for Cutting or Garden Decoration.

Delice. The most popular variety. Its beautiful soft, yet lively color, a glowing rose-pink, together with its perfect shape, stout, stiff stems, which hold the flowers well above the foliage, and the fact that when cut it retains its freshness for a long time, makes this one of the most valuable for cutting or decorative sorts in the garden.

Field roots, 10 cts. each; \$1.00 per doz.; \$8.00 per 100.

Easton. Not an extra large flower, but a variety which, on account of its brilliant color, good form and remarkable free-flowering habit, is certain to become a standard, both as a cut flower as well as for garden decoration; in color it is a brilliant Turkish or Oriental red.

Field roots, 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Eventide. A splendid flower of perfect form, on long, stiff stems, which for all purposes may be termed a white Dahlia, there being but the faintest flush of delicate rose on the edge of the flower, which seems to intensify its pureness.

Field roots, 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Hortulanus Fiet. A giant-flowered variety with blooms over 8 inches in diameter, of the most delicate shade of shrimp-pink, the tip of each petal barely touched with gold. The entire flower has a suffusion of delicate tints of red and yellow, which gives a glow yet softness of color difficult to describe.

Plants ready in April. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Mont Blanc. An early, free, continuous flowering creamy-white on good stiff stems. One of the most important cut-flower varieties.

Field roots, 10 cts. each; \$1.00 per doz.; \$8.00 per 100.

NEW DECORATIVE DAHLIA, EASTON

DREER'S SELECT DAHLIAS

We give on this and pages 32 and 33 a complete alphabetical list of all the Dahlias we have to offer for 1915. For full descriptions see pages 128 to 146 of our Garden Book or retail catalogue.

All varieties are supplied in strong dormant roots except those marked P, which can only be furnished in green growing plants ready after April 15th. As the season advances our supply of dormant roots of some of the older varieties becomes exhausted, in which case green growing plants are sent instead.

THE GLORY FERN (*Adiantum Farleyense Gloriosa*)

ASPENIUM NIDUS AVIS (Bird's Nest Fern)

DREER'S FINE FERNS VARIETIES OF SPECIAL MERIT

Adiantum California.

The Ideal Maiden Hair for cutting.

This variety originated in California, where our representative has had the opportunity of observing it for several years. It has been in the hands of two growers whose extensive crops of fronds always find a ready sale in preference over all other varieties.

Its principal points of advantage over both *Adiantum Croweanum* and *Hybridum* are in the color of its pinnae, which is not at all bronzy in color as in these sorts, but of that bright, cheerful green that is so admired in the *A. Cuneatum*, and on account of which that old variety is still a favorite; furthermore, the seed spores on *A. California*, even on very mature fronds, remain green, which is not the case on the other varieties, and is an objectionable feature with them. In habit of growth it is stronger and it will yield a larger crop of fronds and grow under precisely the same conditions.

In the fall of 1913 we placed with Messrs. Holton and Hunkel, of Milwaukee, Wis., extensive growers of *Adiantums* for cutting, 50 plants for trial. Their report on the merit of the variety five months later was an order for 1500 plants.

While we distributed a very limited number last summer, we have not advertised it until now, due to a limited stock, but we are now in position to offer it in quantity in good plants from 2½-inch pots at \$3.00 per doz.; \$20.00 per 100; \$150.00 per 1000; 25 supplied at 100 rates or 250 at 1000 rates.

Adiantum Croweanum.

We are the sole distributors of Mr. Crowe's stock of this valuable fern.

This for many years has been the standard variety for general commercial work. We have a nice lot of 3-inch pots. \$2.00 per doz.; \$15.00 per 100; \$140.00 per 1000.

Adiantum Hybridum.

Preferred by some growers to *A. Croweanum*. A large thrifty stock of 2½-inch pots. 85 cts. per doz.; \$6.00 per 100; \$50.00 per 1000. 4-inch pots \$1.50 per doz.; \$12.00 per 100.

Adiantum Farleyense Gloriosa.

The Glory Fern or Rühm von Mordrecht.

This variety introduced three years since has proven a most valuable addition for the grower of choice fronds for cutting purposes. It closely resembles *Adiantum Farleyense* and will make a splendid substitute for that fancy variety and it can be produced at much less cost, as it will thrive under conditions in which *Adiantum Farleyense* could not exist.

Anyone who successfully grows the ordinary varieties of *Adiantum* such as *Cuneatum*, *Croweanum* and *Hybridum*, can grow it under precisely the same conditions given to these sorts.

2½-inch pots, \$2.00 per doz.; \$15.00 per 100; \$140.00 per 1000.
4-inch pots, \$4.00 per doz.; \$30.00 per 100.

Adiantum Farleyense.

Splendid, thrifty, vigorous plants.

Asplenium Nidus Avis (Bird's Nest Fern).

We offer for delivery in April thrifty 2½-inch pots, \$1.50 per doz.; \$10.00 per 100.

Cibotium Schiedel.

6-inch pots, \$1.50 each. 8 inch pots, \$2.50 each. 10 inch tubs, \$3.50 to \$5.00 each.

We also offer a splendid lot of 3 inch pots, elegant stock for growing on, \$3.50 per doz.; \$25.00 per 100.

Cyrtomium Rochfordianum.

The Crested Holly Fern.

A most important addition to our list of Ferns. Its foliage is of a rich, deep, glossy green color, the pinnae or leaflets besides being wavy or undulated are also deeply cut or toothed, giving the plant a graceful light appearance, which makes it valuable not only as a dish Fern but for decorative work and apartment use.

Pteris Parkeri.

A giant form of *Pteris Majus* which we offered for the first time last year and which has proven most valuable for growing into larger specimens for decorative work, it makes a bold attractive plant of a rich deep green color.

2½-inch pots \$0.75 per doz.; \$5.00 per 100

Pteris Childsi.

This beautiful variety is to *Pteris* what *Farleyense* is to *Adiantum*, and like that variety produces no spore, so that propagation is by the rather slow method of division, which will keep it a rare variety. The plant is of strong growth, attaining a height of about 20 inches; fronds large, pinnae deeply dentated and undulated, tips crested. Makes a beautiful specimen for exhibition.

Fine plants, 4-inch pots, 50 cts. each.

Polypodium Mandaianum.

This beautiful Fern originated as a seedling of *P. Aureum* and is similar in habit of growth to its parent, producing on well-grown plants fronds from 2 to 3 feet long, on which all of the pinnae is beautifully fringed or laciniated; entirely distinct from all other varieties. It makes a handsome specimen grown either in a pot or a hanging-basket.

Fine plants in 6-inch pots \$2.00 each

NEW FRENCH HYDRANGEA

Lille Moullere. Similar to but distinct from Eclairer, a bright carmine-rose.

Louis Moullere. A very distinct and valuable variety, a fine shade of deep rosy pink fringed florets in trusses of immense size.

Mme. Auguste Nonin. An unusually attractive pretty pale pink in heads of large size.

Mons. Ghys. Very vigorous growing and extremely free-flowering with large trusses of perfectly round fringed flowers of a satiny-rose color.

The French Hydrangeas

We have been closely identified with these French introductions since their first appearance and we have distributed large quantities during the past five years. This season we are better prepared than ever to furnish strong, well grown plants of the choicest varieties.

For description of varieties see our Garden Book for 1915.

Latest Introductions in French Hydrangeas.

Novelties for 1915.

It seemed impossible that further improvement could be made on the new varieties of Hydrangeas sent out during the past few years; however, the latest novelties imported by us from various specialists in Europe during the past two seasons, and which we have thoroughly tested, show a wonderful advance. We have selected twelve varieties which we now offer.

Baby Bimbenet. Very dwarf, free and early, the plant becomes covered with large compact trusses of silvery-rose flowers.

Beaute Vendomoise. Immense heads of white flowers tinted pink; the individual florets will attain a diameter of 4 inches; while it shows a tendency to a loose open truss, this adds to its attractiveness. We feel very enthusiastic about this sort

Eclairer. One of the most startling acquisitions, a very bright carmine-rose, the nearest approach to a red. We particularly recommend this.

La France. Very strong grower, with immense trusses of deeply fringed flowers of a delicate shade of rose.

La Perle. The grandest, largest and most refined white we have yet seen; flowers deeply fringed.

President Fallieres. A cross between Mme. A. Riverain and General de Vibraye, it possesses all the good qualities of both parents. Add to this increased size with delicately fringed rose-colored flowers and you may form a conception of the beauty of this variety.

President Viger. On the same style as President Fallieres, but with larger individual florets.

Souvenir du Lieut. Chauré. Produces immense heads of bright rose-carmine flowers on bold upright stems.

Price. Strong young plants, \$3.50 per doz.; \$25.00 per 100. The set of 12 varieties for \$3.50.

PENNISETUM MACROPHYLLUM ATROSANGUINEUM
(The Crimson Fountain Grass)

Pennisetum (Fountain Grass).

The Pennisetums are now largely used as borders to beds of Cannas, Caladium Esculentum and other tall-growing plants and are becoming more popular each season.

Cupreum. A cross between the fine-leaved *P. Rueppelianum* and the red-leaved *P. Macrophyllum Atrosanguineum*, and combines the good points of both of its parents. It has dark, coppery bronze foliage; the plumes are of a tawny crimson color. It grows 3 to 3½ feet high. A distinct and valuable addition to our list of tender grasses.

Young plants ready April 15th; \$1.25 per doz.; \$8.00 per 100.
Macrophyllum Atrosanguineum (Crimson Fountain Grass). Foliage of a pleasing, dark, metallic, coppery bronze. Ready April 15th; \$1.25 per doz.; \$8.00 per 100.

Dreer's Superb Double-Fringed Petunias.

For half a century we have been making a specialty of Double Petunias, and our strain is accepted as second to none. We annually plant many thousand seedlings, from which only the finest double-fringed forms are selected for propagating purposes, and by this careful selection the strain shows a decided improvement every year.

We offer 15 distinct named varieties.

3-inch pots, 75 cts. per doz.; \$6.00 per 100. The set of 15 for \$1.00.

Seed of Dreer's Fringed Petunias.

We annually save at our own Nurseries at Riverton, N. J., seed of our celebrated strain of single and double-fringed Petunias, from the very finest flowers, all inferior plants being discarded before any seed is saved, and offer

Superb Double-Fringed, 75 cts. per 500 seeds; \$1.50 per 1000 seeds.

DREER'S SELECT ROSES

Select Two-Year-Old Stock for Your Retail Trade

The Roses which we here offer are, with few exceptions, field grown stock, either American grown or plants that have been imported from England, Ireland and the Continent.

These plants are all potted up during December and January, stored in cold houses and cold frames, so that they break away naturally in spring, making this the best possible stock for selling to the retail customer.

The prices noted are for strong plants in 5 and 6-inch pots (according to the growth of the variety) for delivery during April, May and June, and while we will make shipments earlier if requested, we prefer to book orders for these months only.

New Hybrid-Tea Roses of 1913, 1914 and 1915

For Descriptions of Novelties Offered Below see
Our Garden Book for 1915

All are Supplied in Strong Two-Year-Old Budded Plants.

Mme. Edouard Herriot or The Daily Mail Rose. (Pernet-Ducher.)

Winner of the Gold Cup which was offered by the *Daily Mail* of London for the Best New Rose exhibited at the International Horticultural Exhibition held in London, England, May, 1912, and to be known as the Daily Mail Rose. In competition with the world's greatest rosarians this much coveted prize was awarded to Pernet-Ducher for this wonderful novelty. It was again exhibited in London in May, 1913, when it was awarded the National Rose Societies Gold Medal.

Color in bud form coral-red with yellow at the base, while the semi-double open flowers are of a superb coral-red shaded with yellow and bright rosy-scarlet passing to shrimp-red. A glorious rose that appeals to everybody. Price 50 cts. each.

Killarney Brilliant.

(Dickson & Sons.)

Has already made a reputation for itself as a forcing rose and has shown up splendidly in our open ground trials the past season. It is far more intense and richer in coloring than its parent, being almost a crimson of a rich glowing shade, larger in size and more double; a magnificent rose. 75 cts. each.

George Dickson.

(Dickson & Sons.)

While not free-flowering, it is of such a gorgeous brilliant color, a velvety scarlet-crimson with brilliant scarlet reflexed tips, of globular shape and quite 5 inches in diameter, that we consider it one of Dickson's best introductions. 50 cts. each.

NEW HYBRID TEA ROSE, GEORGE DICKSON

Willowmere (Pernet-Ducher).

This splendid introduction is of a coral-red color, suffused with carmine in the bud state, and opens to a large, full, handsome flower of a rich shrimp-pink, shaded yellow in the centre and flushed carmine-pink towards the edges of the petals. It may be described as an advance on the Lyon Rose, which it much resembles. 75 cts. each.

DREER'S SELECT Hardy Perennial Plants

For many years Hardy Perennials have been one of our principal specialties and our stock at the present time is unquestionably the most complete both in quantity and variety in the country.

Many planters not thoroughly familiar with this class of plants have an idea that nothing but a large, field-grown clump will give satisfactory returns the first season. This, as experience has taught us, is in most instances a mistake. A vigorous plant of proper size will, in nearly every case, give quicker and better returns than the best so-called "field-clumps" that can be procured. This fact is particularly appreciated by the leading Landscape Architects throughout the country who use Perennials in large quantity, the majority of whom give preference to the Dreer pot-grown plants. It will be noticed that the majority of the stock offered in this list is described as being 3, 4 or 5-inch pots. This does not necessarily mean that the plants have been altogether pot-grown, but that they have been field-grown and dug and potted up during the Fall and early Winter months, and such stock can be planted even late in the Spring, with practically no loss, which, in the case of clumps, is often quite serious.

The New Anchusas.

The Improved Varieties of Italian Alkenet or Bugloss.

These wonderfully improved Anchusas have proven most valuable additions to our limited list of blue flowering hardy perennials, and particularly so as they flower from May to July, a time when this color is only sparingly represented in the hardy border.

The habit of the plants while strong and vigorous is not at all coarse, they form many branched specimens from 3 to 5 feet high, each branch of which is terminated by a large, graceful, pyramidal spike of blue flowers.

New or Rare Hardy Asters (Michaelmas Daisies).

Beauty of Colwall. This is unquestionably one of the finest of the Michaelmas Daisies, of upright, compact growth, about 4 feet high, of free-branching habit, and literally covered during September with large semi-double flowers of ageratum-blue, a pleasing shade. \$1.50 per doz.

Feltham Blue. One of the most decorative free-flowering blue varieties, a pretty shade of aniline blue produced on freely branched plants during August and September. 2½ feet high. \$1.50 per doz.

Grandiflorus. Not a new variety but one of the finest of all and distinct in character and flower from all others. The flowers, of a lovely dark bluish-violet, frequently measure 2 inches in diameter. It is the latest flowering variety—October and November—and by lifting the plants can be flowered in connection with Chrysanthemums, where its effect is very beautiful. 20 cts. each; \$2.00 per doz.

Novi Belgii Climax. One of the most important additions to the Michaelmas Daisies, and we believe the forerunner of a new type. The plant is of strong, vigorous habit of growth, over 5 feet high; fully one-half of this consists of much branched pyramidal shaped flower stems which are filled with lively light lavender-blue flowers fully 1¼ inches in diameter. The plant is in flower from the latter part of August to the middle of October. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.

New Giant-Flowering Marshmallows (Hibiscus).

A wonderfully improved form of our greatly admired native Marshmallow or Rosemallow, in which not only the colors have been greatly intensified but in which flowers of enormous size, frequently 10 to 12 inches in diameter, have been developed.

These plants can be highly recommended for all kinds of plantings, they appear to be equally at home in all positions, having the same vigor in dry and wet ground and are perfectly hardy, they grow from 5 to 8 feet high and are very floriferous, blooming from early in July to late in Autumn. We offer three distinct colors, Red, Pink and White in strong two year old roots. 30 cts. each; \$3.00 per doz.; \$20.00 per 100.

SIX-PETALED JAPANESE IRIS

Iris Pallida.

Pallida Dalmatica. One of the finest of the Germanica type. The plant is of strong habit, growing 4 feet high, with exceptionally large flowers, the standards of a fine lavender, the falls lavender shaded blue; fine for massing. \$1.50 per doz.; \$10.00 per 100.

Pallida Dalmatica Folia Variegata. Foliage variegated, with broad bands of creamy-yellow. 35 cts. each; \$3.50 per doz.

Pallida Speciosa. Standards dark-lavender, falls light-purple, very free flowering. \$1.50 per doz.; \$10.00 per 100.

Iris Pumila Hybrida.

A type which originated by crossing the dwarf early flowering Pumila Iris with the German varieties, they are among the earliest flowering and are very showy, growing from 10 to 12 inches high.

Cyanca. Rich royal purple, with blackish shadings.

Excelsa. A splendid pale lemon-yellow.

Schneekuppe. A large showy pure white.

\$1.50 per doz.; \$10.00 per 100.

Iris Interregna.

An interesting new type, the result of crossing *I. germanica* with *I. pumila hybrida*, and for which there promises to be a great future. They bloom earlier than the German Iris, and the flowers combine perfection of form with large size and clear and decided colors. The foliage is dwarf, and maintains its freshness throughout the season. The flower stems are almost 18 inches high, holding the flowers well above the foliage.

Frithiof. Standards light lavender blue, falls satiny violet-blue.

Helge. Light citron, with pearl-colored centre. A beautiful soft shade.

Ingeborg. Pure white; flowers 5 inches deep, with petals 2 inches wide. A grand flower.

20 cts. each; \$2.00 per doz.; \$15.00 per 100.

Dreer's Imperial Japanese Iris.

These magnificent Iris are among the most beautiful of our hardy early-summer flowering plants and are destined to become as popular as the hardy Phlox and Pæonies. They are valuable not only as decorative flowering subjects for the garden, but are also very useful as cut flowers.

Our stock of Japanese Iris is very extensive in a splendid assortment of home-grown varieties and can be relied upon for being true to name and description. We supply these in strong liberal divisions of a most satisfactory planting size.

BED OF PHLOX W. C. EGAN IN THE GARDEN OF MR. EGAN

Hardy Perennial Phloxes

We are the largest growers of Perennial Phlox in the world, having this season over a half million field-grown plants in stock.

The collection offered below embraces every known color in this gorgeous race of Summer flowering plants, and we are prepared to furnish many of the rarer as well as the older standard varieties in large quantities at a low uniform price.

The plants are all strong one-year-old field-grown, but as Phloxes start into growth very early in spring it is our custom to cut them back and pot them into three inch pots early in March, this makes the most satisfactory stock for spring planting and even if set out late will produce an abundance of flowers.

Novelties and Recent Introductions

Europa. A white variety with very decided crimson-carmine eye; the individual flowers as well as the trusses are very large, entirely distinct.

Elizabeth Campbell. Very bright salmon-pink, with lighter shadings and dark crimson eye; an entirely new and much-wanted shade in Phlox. \$1.50 per doz.; \$10.00 per 100; \$90.00 per 1000.

Frau Anton Buchner. The finest white variety yet introduced, having the largest truss and individual flower; of dwarf habit.

Geffon. A new color in Phloxes, a tender peach-blossom pink with bright rose eye. \$1.50 per doz.; \$10.00 per 100.

Rheinlander. A beautiful salmon-pink with flowers and trusses of immense size, the color of the flower is intensified by a very decided eye of a deep claret-red. \$1.50 per doz.; \$10.00 per 100.

Riverton Jewel. One of our own introductions which it gives us great pleasure to recommend, a lively shade of mauve-rose illuminated by a carmine-red eye, a splendid improvement on the popular variety Asia. 30 cts. each; \$2.50 per doz.; \$18.00 per 100.

Thor. A most beautiful and lively shade of deep salmon-pink suffused and overlaid with a scarlet glow and a light almost white halo around its aniline-red eye. This variety will undoubtedly hold the same place among deep salmon colors that Elizabeth Campbell holds among the light salmon-pinks. \$2.00 per doz.; \$15.00 per 100.

W. C. Egan. One of the finest Phloxes yet introduced, and while the individual flowers according to the color-chart are of a delicate lilac color illuminated by a large bright solferino eye, the color effect as a whole is a delicate pleasing shade of soft pink. In habit of growth it is strong and vigorous, producing immense panicles of flowers nine inches long by seven inches in diameter, while the individual flowers are the largest known to us, frequently measuring 1 1/4-inches in diameter. \$1.50 per doz.; \$10.00 per 100.

Widar. A splendid improvement on Edmond Rostand; in color a light reddish-violet, with very large white centre, which intensifies the color.

Tragedie. Deep brilliant carmine with blood-red eye. \$1.50 per doz.; \$10.00 per 100.

Wanadis. Entirely distinct, a mottling of white and light violet, reminding one of the native Phlox Divaricata Canadensis. The color is intensified by a bright reddish-purple eye, a strong grower producing trusses of immense size. \$1.50 per doz.; \$10.00 per 100.

Price. Any of the above varieties, except where noted, \$1.00 per doz.; \$6.00 per 100; \$50.00 per 1000.

A New Race of Phloxes, P. Arendsi.

At the great international exhibition held in London in May, 1912, where this new type of Phlox received an award of merit, no other new plant in the Hardy Perennial class attracted such great attention. This new type originated through the successful crossing of the early-flowering popular Phlox Divaricata Canadensis with the showy hardy herbaceous varieties of Phlox Decussata. The plants are of vigorous, branching habit, growing, according to the variety, from twelve to twenty-four inches high. Coming into flower during the latter part of May, they continue in good condition for nearly two months.

From a large number of varieties, the introducer has selected for us six of the most distinct sorts.

Amanda. The dwarfest of the collection growing but 12 inches high, very bushy, flowers delicate lilac with deeper centre.

Charlotte. Grows eighteen to twenty-four inches high, flowers very large, pale lilac shaded pink, with a prominent dark eye; one of the best.

Grete. Plant of very branching habit, twenty inches high, producing great masses of medium-sized white flowers.

Helene. Of a beautiful lavender-blue color, similar to Divaricata Canadensis. Shapely plant, fifteen to eighteen inches high.

Kathe. Stems loosely branched, about twenty inches high, flowers purplish-rose, with a dark eye, surrounded by a lighter halo.

Lulse. A strong-growing variety, about two feet high, light lilac flowers with a carmine eye.

Price. 35 cts. each; \$3.50 per dozen; \$25.00 per 100.

Early Flowering Hardy Phloxes (*P. Suffruticosa*).

While this type does not contain the rich colors which are a feature of the other well-known sorts, it is invaluable on account of coming into bloom in May, or fully six weeks earlier than the others, and continuing throughout the season.

Miss Lingard. The grand, free-flowering early white.

Hercules. Bright rosy lilac.

Mrs. Dalrymple. White shaded rose; scarlet eye.

Ninon. Deep rosy lilac.

\$1.00 per doz.; \$7.00 per 100; \$60.00 per 1000.

Phlox Maculata Hybrida Alpha

A cross between our native species *Maculata* and some of the showier types of *Decussata*, and though its color is not rich, it being a soft amaranth-pink, it is so remarkably free flowering that it should find a place in every collection. It will be found especially useful in the Shrub border. Its habit of growth is very vigorous, forming bushy specimens from 2 to 2½-feet high, each shoot being terminated by a spike of flowers fully 10 inches long. These are produced continuously from early in June until freezing weather. 20 cts. each; \$2.00 per doz.

Phlox Subulata.

(Moss Pinks or Mountain Pinks.)

Alba. White.

Bridesmaid. Purplish tinted white, with deeper eye.

Lilacina. Light lilac.

Nelsoni. Pure white.

Rosea. Bright rose.

New Salvias.

Uliginosa. In general habit similar to *Salvia Azurea* and *Pitcheri*, but of stronger growth, each plant forming a bushy specimen from 5 to 6 feet high and of wonderful free flowering habit, it blooming continuously from June until stopped by frost in October. The flowers are of a pretty corn-flower blue color with a white throat, and are produced in branched spikes frequently 6 inches long. One of the most desirable introductions of the season. 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Greggii. Some forty years since we grew this variety as a greenhouse plant with but indifferent results, and it is only recently that its merits as a bedding plant for the hardy border were discovered; treated in this way it flowers from June until cut by severe frost and is particularly floriferous from the latter part of August on. Its flowers are attractive on account of its brilliant carmine color; the plant is of bushy habit, grows about 2 feet high, and is said to have withstood a temperature of 10° below zero. 20 cts. each, \$2.00 per doz.; \$15.00 per 100.

New Hardy Vinca.**Vinca Minor Aurea.**

A pretty yellow variegated form of the hardy Vinca Minor which is so extensively used as a ground cover especially in shaded places where grass will not grow.

This new variegated form should prove a most desirable addition for this purpose, particularly so as the foliage is much larger than in the type and irregularly margined and marbled with yellow.

It also should prove valuable for use in window boxes particularly for winter use in connection with Boxwoods and other Evergreen plants. \$1.50 per dozen; \$10.00 per 100.

Choice Coniferous Evergreens

The conifers which we offer are nicely trained, imported plants. The season we send them out with the roots carefully balled in burlap, which permits of planting at any time with perfect safety—the idea being to plant basket and all without disturbing the roots, simply letting the basket rot away.

Imports usually reach us about the middle of March. Early in the As the season advances we plant them in cheap willow baskets, being to plant basket and all without disturbing the roots, simply

EUREKA STEEL WIRE POT HANGER

15 inches long, suitable for holding any size pot up to 8 inches, specimen plants can be suspended overhead into full sunlight, where they will develop sooner than in crowded bench. 50 cents per dozen; \$3.00 per 100.

Dreer's Peerless Glazing Points

Galvanized

Pat'd March 26, 1901

Once used! Always used!

The Peerless Glazing Point is the only perfect Point known. The latest improvement is that both points are beveled on top and will hug close to glass when driven. Three sizes, No. 1, for small single thick glass; No. 2, for medium double thick glass; No. 2½, for large double thick and skylight glass. Price per 1000, 60 cents; postpaid, 75 cents. 5000, \$2.75 by express.

DREER'S SPECIAL GREENHOUSE WHEELBARROW

A strong, well-constructed barrow, made special for greenhouse work, being only 21 in. wide at end of handles, so it may be used between staging. Medium size only. \$4.25

DREER'S RIVERTON HOSE

The
Hose for
the
Florist

Does not
kink

This hose can be furnished in continuous lengths up to 500 feet without seam or joint. Will withstand 50 per cent. more pressure than the old style hose. Couplings supplied with 25 feet lengths and over. The "RIVERTON" is guaranteed, and is the best hose for florists' use. Will not kink, will not harden or become brittle. It is utterly impossible for it to open or unwrap. See that it bears our name and brand, "RIVERTON." ¾-inch, per foot, 15 cents; in reels of 500 feet, 14½ cents per foot; two reels, 1000 feet, 14 cents per foot. ½-inch, 13 cents per foot; in reels of 500 feet, 12½ cents per foot.

DREER'S "RIVERTON SPECIAL" CEDAR TUB

Manufactured for us exclusively

This entirely new tub is by far the neatest, cheapest; lightest and best Florist Tub ever offered. Made of cedar with electric welded hoops, painted green, with drop handles, presenting a very neat appearance. Just the tub for large specimen plants of any kind; will not break in shipping and always presents a neat appearance. The four largest sizes are supplied with drop handles.

ANDERSEN'S DAYLITE GLASS CLEANER

This preparation will clean greenhouse glass of all foreign matter except paint. It is self-acting. The minute it is put on the glass it commences to do the work. Apply with a brush, leave it on a few minutes, then rinse off with cold water, use a garden hose if possible. Very little rubbing necessary. It will not injure paint or putty, will leave the glass clean and free from grease.

The cost of cleaning a greenhouse glass is about one-fifth of a cent per square foot. One gallon will clean from 400 to 600 square feet. 25 to 50 gallons, per gal., 70 cts.; 5 to 25 gallons, per gal., 80 cts.; less than 5 gallons, \$1.00 per gal.

**Planet Jr. No. 12
Double Wheel Hoe,
Cultivator and Plow**

Price, \$6.50

Two acres a day can easily be worked with this implement, and better than three men could have done in the same time with hand hoes, runs either astride or between the rows.

The No. 12 has a pair of 6-inch hoes, a pair of plows for opening or covering, and a set of 4, all steel cultivator teeth.

No. 13. Same tool as No. 12, but with only one pair 6-in. hoes, \$4.50.

**"Fire-Fly" Hand
Plow**

For use in small gardens. Moldboard of tempered and polished steel. The depth is easily and quickly changed. Very useful for ridging, \$2.25.

**No. 14 Planet Jr.
Double Wheel Disc Hoe,
Cultivator and Plow**

Price, with Attachments
as in Cut, \$7.50

This new tool will give excellent satisfaction. There are six oil-tempered disc, three on each side.

The set of prong cultivator teeth will be found invaluable in general cultivation.

The plows are valuable for furrowing, covering and plowing.

PLANET JR. DOUBLE WHEEL HOE IN EXTENSIVE CULTIVATION

Planet Jr. Hand Cultivators have become the Florist's and Nurseyman's friend, being no task in using them, they are in constant operation thereby not only keeping the weeds down, but also keeping the soil mellow and broken. Plants must thrive under these conditions. The above shows these tools in use at our Nurseries, Riverton, Riverview and Locust Farm.

**Planet Jr. No. 17, Single-
Wheel Hoe, Cultivator
and Plow**

Price, \$4.75

No. 17. Wheel Hoe is suited to all kinds of garden cultivation and Florist crops. You can do more and better hoeing with it in one day than you can do in three days with a hand hoe. The No. 17 has a pair of 6-inch hoes, a plow and a set of cultivator teeth, an outfit sufficient for most garden work.

No. 16. With plow, two hoes, three cultivator teeth, two rakes, and leaf lifter	\$5 35
No. 17½. With two hoes and three teeth	4 25
No. 18. With 6-inch hoes only	3 25

**Planet Jr. Twelve-Tooth Harrow, Cultivator and
Pulverizer.**

Price, \$8.50.

Less Pulverizer, \$6.90.

Less Wheel and Pulverizer, \$5.70.

The florist or gardener is most likely to cultivate best who has the tool best adapted to his purpose. With the Twelve-Tooth Harrow here shown you go as deep or as shallow as you like, come up close to the row without injuring plants, cut out all the weeds, stir the soil, and mellow and fine it as with a garden rake. You widen and narrow as you please between 12 and 32 inches.

**We can furnish Horse Cultivators, Plows and
Harrow for all kinds of work**
