GRAPES

Grapes have been one of the most important fruit crops since Biblical times because they are high in food value and essential minerals as well as outstanding in taste appeal. A few vines will produce a great deal of fresh fruit that is ideal as a fresh dessert and for jam, jellies and juice. A vineyard is an investment in a permanent fruit crop that will bear fruit for your table and as a source of income for a lifetime. Grapes are easy to grow and do not take a lot of space. RAYNER'S grapevines are from fine, sturdy selections.
