Dreer's Quarterly Wholesale Price List

APRIL—JUNE, 1905.

We take pleasure in presenting to the Trade this, the second issue of our Wholesale Price Lists for 1905. New Crop Flower and Vegetable Seeds are now in stock and ready for distribution, and we are confident that we can serve you better than ever before. In the Plant Department our stocks of decorative, hardy and other plants are very extensive and in splendid condition, comparing favorably to stock distributed by us in the past. We trust you will favor us with a share of your patronage which we promise will be given the most careful attention.

LOW EXPRESS RATES ON PLANTS, BULBS AND SEEDS. We are shipping by express lines, to all parts of the country, goods, packed in closed boxes, at a reduction of 20 per cent. from regular rates of merchandise. Prepaid packages of seeds, plants and bulbs are carried to California and all distant points at the rate of 8 cents per pound.

By our careful and thorough system of packing, we **Guarantee Safe Delivery** of plants and perishable goods, when ordered to be sent by **Express**, and we always ship this way unless we have positive instructions to the contrary, and **when sent in any other way, are solely at purchaser's risk.**

PRICES.—This list cancels all previous offers. The prices quoted in this list are net, and subject to no discounts. Articles offered in our Retail Catalogue or Garden Book and not offered in this list will be supplied at retail prices less the following discounts, viz.: Vegetable and Flower Seeds, in packets, Bulbs and Plants, 33⅓%; Small Tools and Insecticides, 10%.

No order for **PLANTS** or **BULBS** amounting to less than \$1.00 will be filled and packed at wholesale prices. Orders received from the trade for Plants or Bulbs amounting to less than \$1.00 will be charged for at retail prices, less 10 per cent.

TERMS OF BUSINESS.—Unknown correspondents desiring to open an account will please furnish reference to parties in the trade with whom they have had credit relations, otherwise cash must accompany order.

Remittances should be made by Post-Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way.

Goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance.

All goods are offered subject to being unsold on receipt of order, and we reserve the right to advance prices without notice.

No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices in Philadelphia.

In filling out your order always give **Shipping Directions**, and write **Name and Address Distinctly** on each and every order.

NON-WARRANTY.—We wish it to be distinctly understood that although we continue to take all possible pains to supply only New, Genuine and Unadulterated Seeds, Plants and Bulbs, we still give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any of the Seeds, Plants or Bulbs we send out, and will not be in any way responsible for the crop. Every order received for articles named in this Catalogue will be executed on these conditions only.

DREER'S RELIABLE GENERAL LIST of FLOWER SEEDS

For full descriptions and illustrations see our **Garden Book** (retail catalogue) for 1905. Should you not have a copy we will be pleased to mail one on application.

We give close attention to the Flower Seed Department, our constant aim is to procure the **very best strains obtainable**, both of home and foreign growth, and no pains or expense are spared with this object in view. We call special attention to our particularly fine strains of Asters, Cinerarias, Cyclamens, Mignonettes, Pansies, Petunias, Primulas, Stocks, Verbenas, etc., etc. They are now grown by the most critical florists, private and professional gardeners in the country and are acknowledged to be superior in all respects.

NOTE.—We do not furnish less than Trade Packets except where noted. Fractions of ounces charged for at a slight advance over the ounce price. Where small quantities are wanted retail packets can be supplied at a discount of one-third from retail catalogue prices. Prices in this list are net.

QUEEN OF THE
MARKET ASTER

PÆONY
PERFECTION
ASTER

DREER'S SUPERB ASTERS.

We take special pains to secure only the choicest Asters, and nothing better in quality can be had at any price; beware of low-priced stock, it is liable to be low grade at the same time.

For early flowering Queen of the Market is used almost exclusively. Our Superb Late Branching is in most demand for late, while for mid-season Comet, Pæony Perfection, Branching Pæony Flowered, Victoria and Washington, are all equally desirable. The American varieties are all extra fine.

American Grown Asters.

The following varieties stand at the head of Asters for the American climate. The stocks were all grown under our own supervision, and we know that the quality in every case is better than can be procured from most sources.

Petunia.

Our Riverton grown strain of Double and Single Fringed Petunias have long been celebrated as the best on the market. We keep continually culling out and hybridizing and thus maintain the high standard. We frequently test stocks from the world's best growers and can say without fear of contradiction that our own strain is by far the best to be had at any price.

Note—We would especially call the attention of every florist who grows double Petunias from seed that all the smallest and weakest seedlings should be saved as they usually produce the finest double flowers. The same is true of the singles, the strong seedlings being inclined to "weediness."

Dreer's Superb Double Fringed. Our own unrivaled strains. Every seed saved at Riverton. 75 cts. per 500 seeds; \$1.50 per 1000 seeds.
Double Fringed Imported. Seeds are saved by one of the foremost European growers; the best that can be had abroad; \$1.00 per 1000 seeds.

Dreer's Superb Single Fringed. All our own saving from the finest large fringed flowers. 50 cts. per tr. pkt.; \$1.25 per $\frac{1}{2}$ oz.; \$2.00 per $\frac{1}{4}$ oz.

PLANT DEPARTMENT

Garden, Greenhouse and Decorative Plants

For full descriptions and illustrations see pages 106 to 158 of our Garden Book (Retail Catalogue) for 1905. All shipments of plants are made by express unless we have positive instructions to the contrary, and we guarantee safe arrival when shipped in this way. When sent by any other method they travel solely at purchasers' risk.

ANTHURIUM

Abelia Rupestris.

A choice dwarf, growing small shrub of slender graceful habit and small dark green foliage, hardy as far north as Philadelphia, but requires protection in more northern latitudes. It produces during the entire summer and fall months, heather-like waxy white flowers, tinted with lilac in such quantities as to completely cover the plant. A most attractive plant that is always admired and which we cannot recommend too highly.

The New Fern-dish Asparagus.**Asparagus Plumosus Compactus.**

In this we have a plant that has long been wanted—a dwarf, compact-growing Asparagus which does not exceed six inches in height when fully grown, and one of the most graceful and effective plants for filling Fern-dishes for table decoration ever introduced.

2¼-inch pots. 25 cts. each; \$2.50 per doz.; \$20.00 per 100.

Asparagus Myriocladus.

An introduction from South Africa, and very aptly described by a visitor to our nursery as "an aristocratic Asparagus Sprengeri," from which, however, it is entirely distinct, both in its habit of growth, as well as in the formation of its fronds. The plant is of an almost erect habit of growth, producing fronds from two to four feet long, which, when just unfolding, are of a peculiar metallic bronze, from which they change to a golden-green, finally maturing a rich emerald-green. A plant with fronds in the various stages of development is most attractive.

Azaleas.**Import Orders for Fall Delivery.**

We are the most extensive importers of Azaleas in the United States, and you will find it to your advantage and more profitable to buy through us than to import direct. We number among our customers many of the largest growers for the Easter trade, and if you are not already a customer in this line of stock we solicit a trial order for comparison.

Our own representatives make annual visits to Belgium and inspect the stocks before they are shipped, this insures the shipment of first-class plants only, and on arrival here they are all repacked and inspected, and any plants which have not carried well are discarded.

Begonia Gloire de Lorraine.

We are now booking orders for *Begonia Gloire de Lorraine*, which we are prepared to deliver in stock of a superior quality during June in plants which can readily be grown into a six or seven-inch pot for autumn and winter sales.

Prices for delivery in June. \$2.00 per dozen; \$15.00 per 100; \$140.00 per 1000.

Begonia Turnford Hall.

This is the new Lorraine Begonia which was sold in a limited way last winter and which attracted much attention. It must not be confounded with the white variety Caledonia, sent out a few years ago, from which it is quite distinct, being a pure white, flushed with apple blossom pink on the edges. Thrifty ¼-inch pots ready in June. \$3.25 per doz.; \$25.00 per 100.

Tuberous-Rooted Begonias.

Through careful selection every season sees an advance in the quality of these beautiful Begonias. Our stock is grown for us by one of the most eminent specialists in Belgium whose strain is celebrated for its superior size, rich coloring, form and substance.

The price is as low as is consistent with good quality; the retail florist who is growing a few hundred bulbs for his spring trade, will find many of the *cheap strains now offered dear at any price*. We offer but one quality, and that is the best.

Single Varieties in Colors. Scarlet, crimson, white, rose, yellow and orange. 40 cents per dozen; \$3.00 per 100; \$25.00 per 1000.

Single Varieties in Choice Mixture. 35 cents per dozen; \$2.50 per 100; \$22.00 per 1000.

Double Varieties in Colors. Scarlet, rose, white and yellow. 65 cents per dozen; \$5.00 per 100; \$40.00 per 1000.

Double Varieties in Choice Mixture. 50 cents per dozen; \$4.00 per 100; \$35.00 per 1000.

New Hybrid Tuberous Begonias.

Duke Zeppelin and Lafayette.

These two gorgeous Begonias were beautifully shown in colors on the cover of our Garden Book for 1904. They were sold in large numbers and gave universal satisfaction. Both varieties are of strong vigorous growth, but dwarf in habit, never exceeding 8 to 10 inches in height and throw up numberless stems of full double flowers from early in July until cut down by frost. A continuous display of color which is simply dazzling in brightness and which is not equalled by any other flower.

Duke Zeppelin. Pure rich scarlet. Strong bulbs, 15 cents each; \$1.50 per dozen; \$12.00 per 100.

Lafayette. Brilliant crimson scarlet. Strong bulbs, 25 cents each; \$2.50 per dozen; \$18.00 per 100.

Frilled Tuberous-Rooted Begonias.

A most unique form, with very large single flowers which are entirely distinct, the petals being wavy and beautifully frilled on the edges similar to the newer forms of Petunias. Strong bulbs in carmine, scarlet, orange, salmon, white, yellow, pink and blush. 25 cents each; \$2.50 per dozen.

BEGONIA GLOIRE DE LORRAINE

New Cannas of Special Merit.

The following are introductions of 1903 and 1904 and have had a careful trial with us. We found them of exceptional merit and most desirable additions to any high-grade collection.

Dr. Robert Funcke. Very large bright vermilion overlaid with carmine, in large, heavy dense spikes; a very bright showy variety of erect habit, with green foliage; 4½ feet. 35 cents each; \$3.50 per doz.

Hofgartner Hoppe. A light bronze-leaved variety of exceptional merit with immense spikes of large flowers, orange-scarlet at base merging gradually to the extremity of the petals into a beautiful deep carmine, with numerous faint darker spots; 4½ feet. 35 cents each; \$3.50 per doz.

James H. Veitch. Very large flowers with perfectly formed well-rounded petals of a rich bright carmine-scarlet and bronzy foliage; 5 feet. 35 cents each.

King Humbert. In this grand new Italian Canna we have a combination of the highest type of flower with the finest bronze foliage. Its flowers, which, under ordinary cultivation, will measure 6 inches in diameter and which are produced in heavy trusses of gigantic size, are of a brilliant orange-scarlet with bright red markings; while the foliage is broad and massive and of a rich coppery-bronze with brownish green markings, bold and effective; 5 feet. 35 cents each; \$3.50 per doz.

Mont Blanc. A grand acquisition, being almost a pure white, with large, well-shaped flowers which are produced in great profusion and contrasts well with the high-colored sorts; 3½ feet. 35 cents each; \$3.50 per doz.

We will furnish one each of the five new Cannas for \$1.50.

Bronze Canna. "Black Beauty."

In the dark leaved varieties none attracts more attention or proves so effective as Black Beauty. Its flowers are insignificant, but its foliage is of the richest bronzy purple shaded with black, the edges being peculiarly crimped. Our large stock enables us to offer it at a low price. \$1.00 per dozen; \$8.00 per 100.

Three "Exposition" Cannas.

Two beds of Cannas in our display at the St. Louis Exposition which attracted much attention throughout the season were planted exclusively with the three varieties offered below. We consider them the best bedding Cannas now in cultivation.

Jean Tissot. One of the brightest of the very large flowered Cannas. Color intense brilliant vermilion with bright orange shadings; a color that can be seen as far as the eye will carry. It is of strong uniform growth about 5 feet high with massive green foliage. 20 cents each; \$2.00 per doz.; \$15.00 per 100.

President Meyer. A glorious Canna which on account of its large flowers which are in trusses of immense size and of a pleasing rich cherry-carmine color, produces a really gorgeous effect; it has bronzy foliage and grows about 4 feet high. 20 cents each; \$2.00 per doz.; \$15.00 per 100.

Rubin. The ruby-carmine flowers of this are not large, but are produced in such profusion and are so intensely rich and glowing, which, combined with the dark bronzy-green foliage, make it one of the best bedding varieties in our collection. 15 cents each; \$1.50 per doz.; \$10.00 per 100.

Orchid Flowered Cannas.

NOTE.—The prices below are for roots delivered before May 1st, after which pot plants will be supplied at a uniform advance of \$1.00 per 100.

The following are the best and most distinct of this type.

Allemania. Dark salmon with golden markings. 50 cts. per dozen; \$4.00 per 100.

Austria. Pure canary-yellow; with few reddish dots in the centre. 50 cts. per dozen; \$4.00 per 100.

Italia. Bright orange-scarlet, with broad golden-yellow border. 50 cts. per dozen; \$4.00 per 100.

Mrs. Kate Gray. The most robust-growing Canna in our collection, with broad and massive foliage of a bright glossy green; gigantic trusses of flowers, orange-scarlet overlaid with gold. \$1.25 per dozen; \$10.00 per 100.

Pennsylvania. Flowers fully 6½ inches in diameter, of an intense vermilion scarlet, overlaid with orange; foliage rich green. \$1.25 per dozen; \$10.00 per 100.

New and Standard Carnations.

CARNATION

Eclipse. A grand pink Carnation, lighter in color than Lawson, with no cerise or magenta shadings. Is a strong, free grower, and of easy propagation. Large $3\frac{1}{2}$ -inch flower of a beautiful dark shade of pink. Comes in flower early and produces freely and continuously throughout the season. Has never shown any cropping tendency. Price, \$2.50 per dozen; \$12.00 per 100; \$100.00 per 1000.

Fiancee. Clear pink; a lively, bright, pleasing color, a shade not approached by any known variety of Carnation. Flowers are extremely large, $3\frac{1}{2}$ inches being common; depth, 2 inches and over. One of the earliest and freest bloomers. Price, \$3.00 per dozen; \$12.00 per 100; \$100.00 per 1000.

Fred Burki. A fine white variety, the blooms coming perfect and uniform, averaging 3 and $3\frac{1}{2}$ inches. Stem measures 20 to 30 inches, stiff and erect. A continuous bloomer, perfect calyx, showing no tendency to burst. Is a fine keeper, roots easily and transplants well, very fragrant. Price, \$2.50 per dozen; \$12.00 per 100; \$100.00 per 1000.

New Carnation: Robert Craig. (Ward.) To be Disseminated 1906.

"The King of Red Carnations," the largest, strongest-stemmed, most vigorous, healthiest-growing, most fragrant and the best fancy commercial scarlet Carnation produced to date. Ranks with Enchantress and Fiancee. Comes in heavy crop for Christmas. Just the color of Christmas Holly Berries. An easy doer; anybody can grow it. \$2.50 per doz.; \$12.00 per 100; \$100.00 per 1000. Orders booked now for delivery early in the season of 1906.

New Carnations for 1905.

Cardinal. "The best New Scarlet Carnation" winner of First Prize for 100 Scarlet and S. A. F. Medal and Certificate at Detroit. Only Carnation to receive Certificate at Toronto Exhibition. Price, \$2.50 per dozen; \$12.00 per 100; \$100.00 per 1000.

Richmond Gem. Size of flower $2\frac{1}{2}$ inches; the flower is round, well built up in centre, slightly fringed. Color is a beautiful shade of scarlet, even brighter than Estelle. Stem long and strong, holding the flower up gracefully at all seasons of the year. Roots easy and transplants easy. Certificate of merit A. C. S. at Detroit, also first prize at Indianapolis Show for new Scarlet. Price, \$2.00 per dozen; \$10.00 per 100; \$75.00 per 1000.

"Red Sport" (of Maceo). The color is a bright, clear, pleasing red of medium size, on a stiff, wiry stem of good length; not classed as a fancy but a money maker. The calyx is perfect, its keeping and shipping qualities are the best. It is an early and continuous bloomer. \$1.50 per dozen; \$6.00 per 100; \$50.00 per 1000.

White Lawson. A white sport from the well-known "Lawson," equally as good in every respect. Price, \$2.00 per dozen; \$7.00 per 100; \$60.00 per 1000.

White Swan. A pure white, of fine form and substance. Size $2\frac{1}{2}$ to 3 inches; a profuse bloomer, both early and late. Long stiff stems; does not burst and is a fine keeper. Price, \$2.50 per dozen; \$12.00 per 100; \$100.00 per 1000.

Hardy Pompones Chrysanthemums.

Among hardy perennial plants no others enjoy such universal popularity as the Hardy Pompones Chrysanthemum, and considering the many good qualities with which they are endowed, there is no cause for surprise to see them so extensively cultivated.

Baby. Lemon yellow; the smallest-flowered of all; very dainty.

Eagle d'Or. A fine golden-yellow.

Fred Peele. Deep crimson, tipped gold.

Flora. Beautiful deep golden-yellow.

Golden Pheasant. Rich golden yellow.

Tiber. Crimson-brown, tipped yellow.

Trojan. Maroon, with yellow centre.

Veuve Clicquot. Brick-red, edged yellow

Any of the varieties of Pompones Chrysanthemums 50 cents per dozen; \$4.00 per 100.

Chrysanthemum Frutescens.

The New Anemone-flowered Marguerite or Paris Daisy,

"Queen Alexandra."

The single flowering Paris Daisy has, for many years, been a favorite, not only as a cut flower, but also as a decorative pot plant, during the winter months, and we predict for this pretty double-flowered form even a greater future. The flowers are from 2½ to 3 inches in diameter, and of a pure white color; the greater percentage of these coming full double, not unlike an Anemone-flowered Japanese Chrysanthemum, but even the semi-double and single flowers, which appear on the same plant, are very handsome.

20 cents each; \$2.00 per dozen; \$15.00 per 100.

California Giant. The best of the large single white varieties.

Etoile d'Or. A large, soft, pure yellow. 60 cts. per dozen; \$4.00 per 100.

Clematis Indivisa.

This is one of the most desirable cool greenhouse climbers. Its flowers are produced in March and April, in panicles frequently 2 feet long are pure white, and from 1½ to 2 inches in diameter. The flowers can be used to good advantage in a cut state. 75 cents each.

Crotons.

Nothing can excel the beauty and richness of coloring that is found in this class of plants. They are beautiful as pot plants for the conservatory, making handsome specimens for decorative and exhibition purposes, and are now used extensively as bedding plants, for which purpose they are exceptionally well adapted. They should be planted in full sun in a position where they can be liberally supplied with water, which develops the most wonderful coloring in the foliage. We enumerate below a few of the leading varieties, but can supply many other sorts:

Andreanum. Deep green, with yellow and crimson markings.

Aureum Punctatum. Long, narrow foliage, with numerous yellow spots.

Baron James de Rothschild. Olive-green and yellow, changing to brilliant crimson.

Chrysophilla. Large foliage, light creamy-yellow with bright green margin.

Dayspring. Orange-yellow, edged with green and tinged with red.

Evansianum. Tricolored leaves, richly veined and mottled.

Fasciatum. Rich green, with golden-yellow ribs and veins.

Irregulare. Long narrow foliage, dark shining green with golden blotches and golden midrib.

Lady Zetland. Long deep green foliage with crimson midrib and edge with golden-yellow veins.

Queen Victoria. Rich golden yellow, mottled with green, midrib magenta changing to crimson.

Veitchii. Bright green, marked and mottled with yellow and crimson.

Weismanni. Dark shining green, golden midrib and edges. Varieties as named above in 4 inch pot plants, 35 cents each; \$3.50 per dozen.

Mixed varieties not labelled, 3-inch pots, \$2.00 per dozen; \$15.00 per 100.

Cissus Discolor.

DAHLIAS.

It is a great pleasure to us to note the remarkable interest in Dahlias during the past few years, and the many letters received from customers expressing their satisfaction and delight at the wonderful improvements which have been shown in the various "Sets" as sent out by us prove to us that our efforts to present not the longest list of varieties but only the best of each respective type has been appreciated. We spare neither time nor expense in testing the new varieties of both domestic and foreign production, and feel justified in claiming that our collection is unequalled, all having been selected for their free and continuous flowering qualities, purity of color, perfection of form, general excellence and adaptability to the most ordinary garden culture.

NOTICE.—All Dahlias except where specified as being supplied in plants are sent out in the form of dormant roots, but occasionally the demand for individual varieties is beyond our anticipation and stocks become exhausted. In such instances we send out strong growing plants, which will give equally as good results as roots.

Superb New Cactus Dahlia Kriemhilde.

The many favorable and profuse comments which we have received from our customers who purchased this beautiful pink Cactus-Dahlia from us during the past two years, convinces us that in selecting it as a frontispiece for our retail catalogue, our choice has been made of what is to-day the most beautiful Dahlia in cultivation, and combining as it does, in color, habit, vigor and freedom of bloom the most perfect points, will make it one of the most popular varieties yet introduced.

Its delicate combination of colors is well reproduced in our plate, a delicate shell pink, shading to white in the centre, an early free and continuous bloomer, with strong long stems, makes it an ideal flower to cut.

We have this season prepared an unlimited stock and offer field-grown roots at 15 cents each; \$1.50 per doz.; \$12.00 per 100.

KRIEMHILDE. THE PINK DAHLIA FOR CUTTING

Fourteen New Cactus Dahlias for 1905.

The varieties comprising this set were selected out of a large number of recent English and continental introductions which were tested by us last summer, and represent the highest development in Cactus Dahlias to date.

Clara G. Stredwick. Orange-salmon shading to yellow in the centre, flowers large with long petals.

Cornucopia. A very large and double carmine-scarlet with long narrow petals; of fine form.

Dr. Bolan. Rich glowing carmine shaded with orange; a fine flower.

Herder. A perfectly formed flower with tubular petals of a delicate rose-pink suffused with cream.

Herzogin Agnes. A free and early flowering scarlet with darker shadings; flowers of immense size.

Jugend. Creamy-white flushed with rose with peculiarly curved petals; novel, attractive, and entirely distinct.

Mars. A brilliant scarlet with orange at base of petals, of beautiful form, large size and very free.

Mrs. A. F. Perkins. Of beautiful form and entirely distinct in color which is sulphur-yellow, each petal being nicely tipped with pure white.

Mrs. H. J. Jones. An immense flower of perfect form of a rich bright scarlet with cream-colored edge, occasionally coming in self colored scarlet, but beautiful in either color.

Professor Dr. Zacharias. A medium sized but perfect yellow variety; very free flowering.

Ruckert. A graceful flower with long petals of a rich cardinal red with deeper shadings.

Ringdove. An attractive flower with long narrow petals, pale pink at the tips, shading to apricot in the centre.

Spotless Queen. Dwarf and free, flowers of medium size, of perfect form and of a pure white color.

Winsome. A fine, pure creamy-white, of good size and perfect form.

The above varieties can be supplied in growing plants (not dry roots); ready April 15th. 25 cents each; \$2 50 per doz.; the set of 14 for \$3.00.

NEW CACTUS DAHLIA, MARS

Eighteen Splendid Cactus Dahlias.*(Recent Introductions.)*

Aunt Chloe. Rich black maroon, the darkest variety in the collection.

Britannia. A deep salmon flesh; fine and free.

Brunhilde. Rich plum color, loosely arranged long petals; an exceptionally fine flower, and very free.

Countess of Lonsdale. A peculiar but pleasing blending of salmon-pink and amber, a color difficult to describe. This is the Dahlia for the million. Flowers freely under all conditions.

Exquisite. Pure orange-scarlet, with salmon shadings; truly lovely.

Gabriel. An improved Arachne, having the same peculiar forms and variations as that interesting sort, but with flowers twice as large; the petals are creamy-white edged with crimson, although it is hardly possible to find two flowers exactly alike on the same plant.

Galliard. Both in form and coloring this variety is perfect, being of a rich, glowing carmine, with long tubular petals; very graceful. (See cut.)

Gen. Buller. Cardinal-red with crimson shadings; each petal tipped with white.

Hunold. Tile red; an immense good flower.

Jealousy. A perfect, clear yellow; fine in every way.

J. Weir Fife. Purplish-maroon; rich and glowing.

J. W. Wilkinson. Rich ruby; a fine-shaped flower.

Mrs. Jowett. Brilliant orange-red; fine.

Rosenhagen. A pleasing shade of salmon-rose, deepening to bright magenta on the edges.

Rosine. Glowing crimson with purplish shadings.

Ruby. Deep vermilion centre, shading to ruby-red at edges.

Volker. A charming free-flowering pure yellow.

Roots, 15 cents each; \$1.50 per doz.; \$10.00 per 100. Set of 18 splendid varieties for \$2.25.

GALLIARD

Venus. A miniature or Pompon Cactus Dahlia with small but elegantly perfect snow-white flowers.

Select Standard Cactus Dahlias.

Sparkler. Rich, glowing carmine; early and free.

Standard Bearer. Rich, fiery scarlet; very free.

Strahlen Krone. Intense cardinal-red; rich and glowing.

Uhland. A deep, glowing carmine; one of the richest.

Wallace. Deep orange, with carmine shadings.

Wieland. A fine large free flowering rosy crimson; entirely distinct.

Roots, 10 cents each; \$1.00 per doz.; \$8.00 per 100. Set of 32 Standard Varieties for \$2.50.

COUNTRESS OF LONSDALE

DECORATIVE DAHLIA, ADMIRAL DEWEY

Four New Decorative Dahlias.

Catherine Duer. A strong growing free flowering variety which originated at Newport, R. I., where it has become very popular on account of its bright crimson scarlet color, which lights up especially bright when used in decorations under artificial light. Roots, 25 cts. each; \$2.50 per dozen.

Frank L. Bassett. Entirely distinct in color, which is of a bright royal purple, shading to blue; the nearest approach to a blue Dahlia yet introduced, and an attractive, well-formed flower. Roots, 15 cts. each; \$1.50 per dozen.

Pendent. An extremely early and profuse blooming, bright crimson-maroon, produced on long graceful stems. Roots, 15 cts. each; \$1.50 per dozen.

Mrs. Winters. A finely formed large, pure snow-white variety, the best white of its class.

Roots, 15 cts. each; \$1.50 per dozen.

The set of 4 varieties for 65 cents.

Twenty-five Decorative Dahlias.

Set of 25 Decorative Dahlias, \$2.00.

Four Giant-Flowering Dahlias.

The four sorts here offered are without exception the largest and most perfect double-flowering Dahlias now grown, flowers of all of them attaining a size of between five and six inches across under ordinary cultivation.

Cuban Giant. An immense ball of bright maroon. Plants

April 15th. 20 cts. each; \$2.00 per dozen; \$15.00 per 100.

Gettysburg. A bright rich pure scarlet, of fine form. Plants

April 15th. 20 cts. each; \$2.00 per dozen; \$15.00 per 100.

Mrs. Roosevelt. Delicate silver rose. Plants, 20 cts. each;

\$2.00 per dozen; \$15.00 per 100.

Mme. Van den Dael. Soft rose with deeper markings, shading to creamy white in the centre. Roots, 30 cts. each; \$3.00 per dozen; \$20.00 per 100.

One each of the Four Giant Dahlias for \$1.00.

Five Grand New Show Dahlias.

Black Diamond. The largest and most perfect of its color yet introduced; almost jet black when first expanding, changing to a velvety black maroon. Roots, 15 cts. each; \$1.50 per doz.

Eureka. A fine large, deep rose-color with quilled petals, of perfect form. Roots, 15 cts. each; \$1.50 per dozen.

Philadelphia. This strikingly reminds one of the well-known famous Chrysanthemum of the same name, a creamy yellow with deeper shadings towards the centre, a perfect ball in shape. Plants ready April 15th; 35 cts. each; \$3.50 per dozen.

Pink Dandy. A pure pink "sport" from the fancy variety of this name; valuable for cutting. Roots, 15 cts. each; \$1.50 per doz.

White Dandy. This promises to be the ideal white show Dahlia; it is a pure white sport from Dandy, producing perfectly shaped flowers, like its parent, on fine long stems, which will make it invaluable for cutting. Plants ready April 15th. 50 cts. each; \$5.00 per dozen.

We will furnish one each of the 5 New Show varieties for \$1.25.

Dahlias in Mixture. We have a quantity of Dahlias in strong field roots that have accidentally become mixed, among which some of the finest newer varieties are included, which we can supply at 50 cts. per dozen; \$4.00 per 100.

Dahlia Seed.

We have all the best types saved from select stock. See page 5.

New Single Dahlia "Twentieth Century."

No single Dahlias ever created such a sensation or was received with such popular favor as this, and it is well worthy of the praise bestowed upon it. It is entirely distinct from all others, and ranks high not only as a free-flowering plant for the garden but as a cut flower, holding a place alongside the finest Roses.

The plant is of free branching habit, flowering early, profusely and continuously throughout the season, producing its flowers on stems 3 feet long, and which, after cutting, keep in perfect condition for days. They measure $4\frac{1}{2}$ to 6 inches in diameter, and early in the season are an intense rosy crimson tipped with white and having a white band around the disc. As the season advances they become lighter, until they are almost a pure white suffused with soft pink; not variegated, but blended in the most beautiful manner. Roots, 20 cents each; \$2.00 per doz.; \$15.00 per 100.

TYPE OF SINGLE DAHLIA

Six Grand New Single Dahlias.

- Advancement.** Fine deep ruby red, rose halo and yellow centre. Roots, 25 cents each; \$2.50 per doz.
- Ami Downie.** A very rich garnet; an improvement on Ami Barillet. Roots, 35 cents each; \$3.50 per doz.
- Danish Cross.** Flowers large and perfect in outline, of a rich carmine with a broad band of white through the centre of each petal. Roots, 30 cents each; \$3.00 per doz.
- Gaillardia.** Golden yellow, with a broad red band around the golden disc; named for its striking resemblance to *Gaillardia grandiflora*. Roots, 15 cents each; \$1.50 per doz.
- Lustre.** Bright cheerful, rosy-pink, shading to blush at the centre; very pleasing. Roots, 20 cents each; \$2.00 per doz.
- Striking.** Deep garnet, each petal with a white spot on the tip. Roots, 35 cents each; \$3.50 per doz.

New Century Single Dahlias.

These varieties have all originated from the Dahlia Twentieth Century (offered on page 29), and retain all of the characteristics of that popular sort except in color.

- Crimson Century.** Rich, deep, velvety crimson, shaded maroon, lightly tipped with rose and rose halo around a yellow disc. 50 cents each; \$5.00 per doz.
- Pink Century.** Delicate shell pink, slightly suffused with clear soft pink. 75 cents each; \$7.50 per doz.
- Scarlet Century.** Pure scarlet with yellow disc, 5 to 6 inches across. 50 cents each; \$5.00 per doz.
- White Century.** Pure white with yellow disc, large overlapping petals of good texture. 50 cts. each; \$5.00 per doz.
- Leone.** Pink early in the season, deepening to rosy-crimson as the season advances. 35 cents each; \$3.50 per doz.
- Record.** Ground color yellow; each petal flamed and washed with scarlet. 35 cents each; \$3.50 per doz.

The set of 6 Century Dahlias for \$2.50.

Twelve Choice Single Dahlias.

- Ami Barillet.** Pure garnet; very rich; free-flowering.
- Anemone.** Pure white; early and free.
- Annie Hughes.** Carmine lake, with yellow disc.
- Blackbird.** Black maroon, with a red spot on each petal.
- Fashion.** Crimson-maroon, darker shadings.
- Geo. Boreman.** Deep glowing carmine, with a broad band of orange-scarlet through each petal.
- Junio.** White, tipped bright rose; yellow disc.
- Lawrence Kramer.** Brilliant rose-pink of a pleasing shade.
- Mrs. Bowman.** Solferino; a fine large flower.
- St. George.** A fine, pure yellow, 3 to 4 inches across.
- Sunset.** Yellow, old gold and salmon beautifully blended.
- Wildfire.** The purest, richest scarlet.

Roots, 10 cents each; \$1.00 per doz.; \$8.00 per 100.

Set of 12 varieties for \$1.00.

Collerette Dahlia. President Viger.

An entirely distinct type of Single Dahlias which must be seen to be appreciated; the peculiarity consists in the flower having a row of short petals around the disc which are of an entirely different color from the rest of the flower, the petals being of a rich claret color shading lighter towards the edges, with a pure white collar, occasionally suffused rose. Roots, 20 cents each; \$2.00 per doz.; \$15.00 per 100.

Echeverias.

New Dwarf Coral Plant.

(*Erythrina Christa-Galli Compacta*.)

The Coral Plant has always been a favorite on account of its brilliant and interesting flowers, but its tall growth was an objection to its general cultivation, it frequently attaining a height of 6 feet before blooming. In this new variety we have a plant that is not only dwarf—it did not exceed 30 inches in our trial grounds last summer—but is also of branching habit, and each branch is terminated with a spike of flowers. These are of a brilliant crimson-scarlet, and are produced from early in July until frost; a plant that we can recommend for every garden. After frost the plants may be lifted and stored in a dormant condition through the winter in a dry cellar, covering them with dry soil or sand. Extra strong plants, 30 cents each; \$3.00 per doz.

Christa-galli. 20 cents each; \$2.00 per doz.

Eucharis Amazonica.

A nice lot of strong bulbs in 4-inch pots.
20 cents each; \$2.00 per dozen; \$15.00 per 100.

Eurya Latifolia Variegata.

An evergreen shrub with dark green foliage, which is beautifully variegated with creamy white; good plants in 5-inch pots, 50 cents each.

Ficus Elastica. (Rubber Plant.)

10 to 12 inches high. \$3.00 per doz.; \$25.00 per 100.

Ficus Radicans Variegata.

A pretty variegated trailing variety. An admirable plant for the warm conservatory. The leaves are bright green, freely, and irregularly margined with white, the variegation sometimes extending to nearly the entire leaf. 35 cts. each.

Ficus Repens.

Strong 3-inch pots, \$1.25 per doz.; \$10.00 per 100.

Ficus Lutescens.

The Mistletoe Fig or Rubber Plant.

A new species which is especially interesting on account of its free prolific fruiting qualities, it bearing at each leaf axis a small fig-shaped berry, which at first green changes to a pale yellow. The foliage is small and of a dark green color, the whole plant reminding one of a branch of mistletoe. It should make an excellent subject for the window-garden.

FINE FERNS. *Varieties of Special Merit.*

Adiantum Croweanum.

The New Maiden-hair for Cutting.

Probably no fern is so well and so favorably known in cut flower centres, where it finds ready sales in preference to and at higher prices than other forms of Maidenhair.

Its principal points of merit are its strong vigorous growth, very long stems and remarkable keeping qualities.

We offer strong 3-inch pot plants, \$2.50 per dozen; \$15.00 per 100; \$125.00 per 1000.

THE NEW COMPACT BOSTON FERN. NEPHROLEPIS SCOTTII

Cibotium Schiedei.

This is undoubtedly the finest of all Ferns for decorative purposes, and, though appearing very soft, is in fact very hardy, as has been demonstrated by the leading decorators throughout the country, succeeding admirably as a house plant. It possesses a graceful and delicate appearance that is found in no other plant. It is a variety that is always scarce and difficult to obtain.

8-inch pots \$2.50 each.

The Boston Fern (Nephrolepis Bostoniensis.)

On account of having an unusual large stock of fine, well established plants in 2 1/4-inch pots we offer these for immediate delivery at exceptional low prices.

The New Tarrytown Fern.

Nephrolepis Piersoni Elegantissima.

This is a sport from the Pierson Fern, in which the plummy peculiarity of the original form is even more distinctly developed than in the original, the side pinnae being again subdivided and standing at right angles to the midrib, makes both sides of the frond equally beautiful, while, at the same time, the plant is of much more compact habit, growing only one-half as tall, but with the fronds nearly twice as wide, making it a much more desirable plant for all purposes.

Nephrolepis Scottii.

The New Boston Fern That Has Come to Stay.

In this new variety, we believe we have a Fern which will finally take the place of the Boston Fern. This is a strong statement, but one which we are certain will be fully realized. To sum up its merits briefly, it can, under the most ordinary treatment, be grown into an ideal specimen of compact shape, which in the ordinary Boston Fern could only be accomplished with the most careful culture, and by giving the plants a large amount of room. Its natural, compact habit admits of almost double the number of plants to be grown in the same space as the regular Boston Fern. We recommend this for extensive planting, as we are certain that you will not meet with the same disappointment as in some of the new varieties introduced within the last few years, but that you will find this a profitable investment, and a plant that will appeal to your customers on account of its compact, symmetrical and graceful form.

We offer a large stock at much reduced prices.

Hydrangea Hortensis Rosea.

Though first introduced in 1885, the merits of this pretty Hydrangea were not recognized until last spring, when an extensive grower of flowering plants for the New York market prepared a number of plants for the Easter demand. These met with much favor, its pretty live rosy-red color adapting it especially for this purpose. It is a variety which is certain to meet with favor, and should be grown extensively along with the other sorts.

THE CRIMSON FOUNTAIN GRASS

Crimson Fountain Grass.

(*Pennisetum Marcrophyllum Atrosanguineum*.)

This new plant, an introduction from New Guinea, is without question a most valuable addition, not only to our list of beautiful ornamental grasses, but to bedding plants. Its habit of growth is strong and vigorous, yet most elegant and graceful; the foliage which is gracefully recurved, is $1\frac{1}{4}$ inches wide, of a pleasing, dark metallic, coppery bronze, which, when at its best, during mid-summer and fall, far surpasses in richness the finest of the bronze leaved Cannas—a veritable crimson fountain. When grown as a specimen in the border or on the lawn, and allowed to grow without cutting back, it attains a height of about 4 feet, the ends of the shoots being terminated by tawny crimson plumes 10 to 12 inches long. By an occasional cutting back the plants can be kept, if desired, at a height of 2 to 3 feet. Interspersed with other ornamental grasses, this new *Pennisetum* will add a life and color hitherto unobtainable, while as an edging or border to a bed of Cannas or *Caladium Esculentum* it stands in a class by itself. The plants, when set out in early spring, do not show their rich coloring, which, however, quickly develops when planted in the open bed or border.

We are offering the plants at a low price in order to permit its use on an extensive scale.

Ready about the middle of April, 15 cents each; \$1.50 per dozen; \$10.00 per 100.

Pennisetum.

Rueppelianum. (*Purple Fountain Grass*.) A beautiful annual ornamental grass, growing about $2\frac{1}{2}$ feet high, producing long, graceful purplish plumes; a very effective plant to border a bed of Cannas or Hardy Grasses. $2\frac{1}{4}$ -inch pots, ready May 1st, 75 cents per dozen; \$5.00 per 100.

Retinispora Sanderi.

A new blue conifer, which is not only a valuable addition to our list of hardy plants, but which will prove indispensable in any planting of hardy evergreens, either in massing or in single specimens. In habit it is quite distinct, its growth being dwarf, dense and cushion-like, forming beautiful semi-globular specimens of a most pleasing and attractive blue color. Our illustration conveys a very good idea of its style of growth.

New Myrtle-leaved Smilax.

A new and distinct variety which is much more graceful than the popular type, not only on account of its smaller, narrower foliage, but the tendrils are less stiff, making it the most airy and graceful green for decorating. In habit of growth it is similar to, but more rapid than ordinary *Smilax*, it can only be propagated by division as it seldom bears seed. $2\frac{1}{4}$ -inch pots, 25 cents each; \$2.50 per dozen; \$20.00 per 100.

NEW ROSES

New Red Forcing Rose RICHMOND (Hill).

This is claimed to be the best Red Rose for forcing yet introduced. Among its many merits may be mentioned, of more vigorous and rapid growth than other forcing roses, comes to perfection without special care or culture, ships perfectly and develops as well off as on the bush, color same tone as Liberty and does not blue with age, no tendency towards going dormant in mid-winter being then at its best, produces freely throughout the year long pointed buds on tall straight stems with fine foliage, easy to root or graft, as fragrant as American Beauty.

Was awarded the silver cup at the World's Fair for best seedling rose and special silver cup at Chicago for best seedling. Prices, own root—100 plants for \$30; 250 for \$70; 1000 for \$250. 500 at 1000 rate.

New Hybrid Tea, Rosalind Orr English.

This pink seedling from Mme. Chateau is unapproached in color; the bud is pointed, quite full, borne on long slender stems, beautifully set with foliage, free in growth and bloom; the flower is very beautiful from its earliest bud form till fully expanded. Was awarded certificate of merit at the Chicago Show. \$25 per 100; \$200 per 1000.

New Hybrid Tea Rose, Ideal.

A "sport" from the favorite La France, which it closely resembles in every way except color, which is a bright deep pink that does not become "washed out" even under the most unfavorable conditions. The plant is a strong, vigorous grower, very free-flowering, flowers of good size and deliciously scented, and we believe it will become even more popular than its famous parent both as a forcing variety under glass as well as for the open ground. An ideal Rose in every way.

5-inch pots, 30 cents each: \$3.00 per dozen.

Frau Karl Druschki. New White Hybrid Perpetual Rose.

This new hardy Rose is of German origin, and was first disseminated in 1900, and has since won many prizes and made many friends. It is the ideal hardy white Rose. Its flowers, which are very large, are perfect in form and snow-white in color, with large shell-shaped petals, forming a beautiful flower. The plant is a strong, vigorous, healthy grower.

Strong two-year old plants, \$3.50 per doz.; \$25.00 per 100.

New Rambler. Philadelphia.

A cross between Crimson Rambler and the Hybrid Perpetual Victor Hugo, it differs from the old variety in being of a much deeper, brighter and more intense color which never fades out, perfectly double to the centre. It will not only prove a valuable addition to our hardy climbing Roses, but for forcing purposes for Easter we feel certain that it will entirely displace the Crimson Rambler.

Strong 2-year-old plants, . . \$3.00 per doz.; \$25.00 per 100

BABY OR EVERBLOOMING DWARF CRIMSON RAMBLER ROSE.

The New Bedding Rose. The Baby Rambler, or the Everblooming Dwarf Crimson Rambler. Mme. Norbert Levavasseur.

This is without question the most important addition to our list of dwarf bedding Roses for many years, and a Rose which is destined to become more popular for bedding purposes than any variety now grown.

It is a cross between Crimson Rambler and one of the free flowering Polyantha varieties, producing large trusses of bright crimson flowers similar to the Crimson Rambler, but is not of climbing habit, it forms a dwarf compact bushy plant not over 18 inches high, with clean dark green foliage which is never attacked by disease or insects and is perfectly hardy, but the most unique and novel feature about it is the phenomenal freedom with which it produces its flowers, in this respect it outclasses any Rose of any type known, the plant is never out of bloom, being one of the first to flower in spring, and continuing to bloom without interruption until stopped only by the most severe frost late in the autumn, and if grown under glass it will flower the year round.

We offer strong one-year old field-grown plants, which have been potted up into 4-inch pots. 50 cents each, \$5.00 per doz.; \$35.00 per 100.

Paul's New Single Climbing Rose. Waltham Rambler.

An unique and charming single flowering Climbing Rose with extra large clusters of deep pink flowers, with lighter centre and golden anthers as dainty and pretty as can be; it is of English origin, and has attracted much attention during the past two seasons at the various exhibitions at which it was shown. The plant is of strong vigorous habit, absolutely hardy, and a most excellent variety to plant wherever a strong climber is desired; the pretty single flowers produce a pleasing and brilliant effect entirely distinct from all other types.

Extra strong two-year old plants, 50 cents each; \$5.00 per dozen.

Select List of HYBRID PERPETUAL and other ROSES

FOR OUTDOOR PLANTING

The Roses which we here offer are field grown stock either American grown or plants that have been imported from England and Ireland. We handle no Holland grown Roses.

These plants were all potted up into 5- and 6-inch pots, according to the growth of the variety, during December and January, stored in cold houses so that they break away naturally, making this the best possible stock for selling to the retail customer.

New Aquilegia Clematidæ Hybrida.

The Clematis-flowered Columbine.

While we have not flowered this new type of Columbine, we have no hesitation in recommending it as an introduction of the famous California hybridizer, Luther Burbank, who in describing it says: "A hybrid variety of the Columbine from which the spurs have been eliminated, giving the flower a flat Clematis-like appearance, in a great variety of pleasing colors and shades, with many of unusual size. While not all of the flowers show the true shape, all are a combination of colors from many species which are certain to please. They are as hardy as the common Columbine, and once planted, take care of themselves." 15 cents each; \$1.50 per dozen.

Hardy Asters. (Michaelmas Daisies.)

The hardy Asters are among the showiest of our late fall-flowering plants, and give a wealth of bloom at a season when other flowers in the hardy border are generally wanting.

Amellus Bessarabicus. Lilac blue. 12 inches.
 " **Elegans.** Large, light blue flowers. 18 inches.
Amethystinus. Amethyst blue. 3 feet.
F. W. Burbidge. Bright, rosy lilac, of large size. 3½ feet.
Horizontalis. Small, rosy lilac flowers.
Lævis. Light blue. September and October. 4 feet.
Longifolia Formosissima. Deep lilac-shaded purple. 4 feet.
Mad. Soyneuse. Bright, rosy lilac. 15 inches.
Mrs. F. W. Raynor. Light purplish crimson. 3 feet.
Novæ Angliæ. Large bluish purple. 3 feet.
 " **Rosea.** Bright rose colored. 4 feet.
Ptarmicoides. White. Useful for cutting. 18 inches.
Robert Parker. Large, lavender blue. 4 feet.
Snowflake. Pure white, of small size, but freely produced.
St. Brigid. White, tinted with bluish. 4 feet.
Thos. S. Ware. Large, light rosy lilac. 3½ feet.
Top Sawyer. Delicate soft blue. 4 feet.
White Queen. Large, broad petaled, white. 3½ feet.
 Strong, 3-inch pots, \$1.00 per dozen; \$8.00 per 100.

Aster Grandiflorus.

This variety, as grown by us, is the most valuable of all hardy Asters, not only on account of its large violet-blue flowers, but because it is the latest of all to flower, continuing in good condition until late in November. 3-inch pots, \$2.00 per dozen; \$15.00 per 100.

New Pink Aster, Edna Mercia.

The nearest approach to a pink Aster yet introduced, and a decided novelty; flowers as large as a quarter dollar, and of a glistening rose color, bordering on pure pink. Grows 3 feet high, of uniform habit of growth, flowers in September.

20 cents each; \$2.00 per dozen; \$15.00 per 100.

Hardy Alpine Asters.

Useful for the rockery or borders, growing only 6 to 10 inches high, with large, showy flowers during May and June.

Alpinus. Attractive bluish-purple flowers.
 " **Albus.** Pure white, very dwarf.
 " **Speciosus.** Beautiful deep blue.
 " **Superbus.** Very free, blue.

Burbank's New Shasta Daisies.

The original Shasta Daisy, introduced some four years since, has been steadily growing in favor, and is now included in almost every collection of hardy perennial plants. In the three new varieties here offered Mr. Burbank states that the effort has been to increase the vigor and perpetual flowering quality of the original strain, all of which has been wonderfully developed in the set in this collection.

Alaska. The whole plant and flowers are gigantic, but compact and graceful in every respect, the flowers average 4 1/2 to 5 inches across with from 38 to 42 wide petals, which are of a glistening white, and a very small disc.

California. Similar to Alaska, but the buds and half-opened flowers are of a pleasing pale lemon yellow, with two rows of petals. These, when a day or two old, gradually change to pure white.

Westralia. This is distinguished by its branching habit, well-grown plants growing from 3 to 4 feet high, and nearly as much through. Newly opened flowers are of a cream color, changing to pure white, and from three to four inches in diameter.

Erroneously sold under the name of Actæa Japonica during the past four years, but one of the most valuable of all on account of its extreme late flowering, beginning to open its flowers in September, it is not in full perfection until near the middle of October, and continues in good condition throughout the month, a time when flowers of all kinds are scarce in the garden. Its flowering stems are from 2 1/2 to 3 feet high, and are terminated with a dense cylindrical spike of white flowers, which when cut last in perfection a long time. Strong roots, 35 cents each; \$3.50 per dozen.

Gypsophila Paniculata Flore Plena.**The Double-flowering Baby's Breath.**

This double-flowering Gypsophila is probably the most important addition to our list of hardy plants this season. The single-flowered form has always been a favorite on account of its airy graceful spikes of flowers which are indispensable in a naturally arranged bunch of flowers. Add to this the pretty, little double rosette-like flowers of this new form, which are produced in much branched panicles of from 3 to 3½ feet high, we have a plant that is not only valuable, for cutting purposes, but a most desirable addition to the hardy border.

GAILLARDIA GRANDIFLORA

Helenium Grandicephalum Cupreum.**The New Copper-Colored Sneezewort.**

Nearly all varieties of this section of hardy perennial plants being yellow in color, a deviation from this at once attracts attention, and we were much pleased, during the past summer, with this new variety, which produces coppery-red flowers about 2 inches in diameter, and of a shade at once rich and pleasing. The flowers are freely and continuously borne from the middle of June until the end of September; a distinct and pleasing novelty. 25 cents each; \$2.50 per dozen.

NEW HEMEROCALLIS. FLORHAM

Three Handsome Hemerocallis.

The three varieties here offered are great improvements upon the well-known yellow Day Lilies.

Aurantiaca. An exceedingly free flowering variety, with very large trumpet-shaped, bright, orange-yellow, sweet-scented flowers on 2½ to 3 feet high stems in June and July.

Aurantiaca Major. A Japanese variety of strong, vigorous habit and very free flowering, with large trumpet-shaped, sweet-scented, deep orange flowers. Requires protection.

Florham. Produces very large, golden-yellow, sweet-scented flowers during June and July, on 3 feet high stems; remarkably free flowering. This variety is of American origin, and has been under our observation for several seasons; we believe it to be the best of all Hemerocallis.

IRIS KÄMPFERI (JAPANESE IRIS)

Iris Germanica. (German Iris.)

Asiatica. Very large, deep purple blue.
Donna Maria. White, lower petals shaded lilac.
Florentina. Very free flowering, sweet scented, white.
Gracchus. Pale yellow, prettily marked with purple.
Lord Salisbury. Purple and bronze.
Mme. Chereau. Pearly white, daintily edged with lavender.
Mrs. Neubronner. Deepest yellow.
Othello. Intense, rich, deep purplish blue.
Penelope. White, tinged and veined with lavender.
Plumeri. Deep coppery bronze, very early and free.

Choice Mixed German Iris. 50 cents per doz.; \$4.00 per 100.

New Hybrid Alpine Iris.

An entirely new and distinct race, the result of over 20 years' work in hybridization by an enthusiastic specialist on the Island of Guernsey. All are perfectly hardy and useful, not only in the hardy border, but also for forcing, as with the minimum of heat they can readily be flowered in January and February.

Charmer. Light cream color.
Haydn. Porcelain blue, primrose beard.
Josephine. Pure white.
Meteor. Rich reddish-purple with yellow beard.
Milton. Rich yellow, lined maroon, orange beard.
Stewart. A good pure yellow

20 cents each; \$2.00 per doz.; \$15.00 per 100.

The set of six varieties for \$1.00.

Iris Pumila Hybrida.

A cross between the dwarf early flowering *I. pumila* and the large-flowering *I. germanica*. Their period of flowering is a trifle later than the pumila section, with flowers almost as large, showy and attractive as the German Iris. Our trials of these varieties in the hardy border the past season, as well as earlier forcings under glass, have fully convinced us of their desirability for both purposes.

Cyanea. Rich royal purple, with blackish shadings.
Eburna. Pure white, with creamy-white shadings.
Florida. A beautiful lemon-yellow, shaded darker.
Formosa. Upper petals deep violet-blue, lower petals light violet.
 \$1.50 per doz.; \$12.00 per 100.

EARLY FLOWERING HARDY PHLOX.

Phlox Suffruticosa.

This type while it does not contain the bright rich colors of the standard (*Decussata*) sorts is invaluable on account of its early flowering habit, they commencing to flower fully six weeks earlier.

Andrew Kerr. Large truss, white, suffused throughout with deep rosy lilac.

Dr. Hornby. White, delicately suffused with light lilac.

Indian Chief. Deep magenta with crimson eye.

Miss Lingard. A grand free flowering white.

Leaman. Rosy lilac.

Ringleader. Magenta, crimson eye.

The above will be supplied only in strong young plants of this winter's propagation from 2¼ inch pots. 75 cents per dozen; \$6.00 per 100.

PERENNIAL PHLOXES.

One of our Leading Specialties.

Our collection of Phloxes consists of strictly first-class varieties, distinct and decided colors. The plants we offer are field-grown, were divided in the fall, with from three to six eyes; they will make strong plants and a fine show of flowers this season. This stock is much superior to young, newly propagated plants, such as are generally sent out in the spring of the year.

Aquillon. Bright deep pink, crimson eye.
Bridesmaid. Pure white with large crimson eye.
Beranger. White, suffused pink, crimson eye.
Blanc Nain. Dwarf, pure white.
Bouquet Fleuri. White, with deep rose eye, each individual truss a complete bouquet.

The Everblooming Hardy Crimson Pink.

"NAPOLEON III."

This charming hardy Pink is by no means new. We have been growing it for many years. Although we have sold it for some time locally it was only in the past year that we have had sufficient stock to enable us to offer it in our Garden Book in a general way, and, as a result, many thousand plants of it were distributed during the past season, and the many favorable comments received from pleased customers justifies us to believe, that of all the hardy plants distributed by us in the past years, that none has ever given such satisfaction as this everblooming Dianthus. The smallest plant set out in spring will form a compact clump, rarely exceeding ten inches in height, which, from the middle of June until severe freezing weather is a mass of full, double, brilliant, blood-crimson, delightfully clove-scented flowers.

Young plants from 2½-inch pots. \$1.25 per dozen; \$10.00 per 100.

Hardy Pinks—Standard Varieties.

Alice Lee. A fine creamy white; excellent for cutting.
Delicata. Everblooming soft delicate rose. \$1.25 per dozen; \$10.00 per 100.
Diamond. Fine pure white.

Primula Veris Superba.

(New Giant Hardy Primrose.)

We introduced this Giant English Primrose five years since and we are now more than ever impressed with its value.

In size of flower, it is fully three times as large as any other hardy Primrose, the average size of the flower being over one inch, and we have seen them frequently measuring over two inches, with trusses of bloom 6 inches in diameter. It is perfectly hardy, grows from 10 to 12 inches high, and begins to flower earlier and continues in bloom longer than any other Primrose. This alone is sufficient to insure its popularity as a plant for the garden; but its greatest merit consists in the fact that it is not only one of the easiest plants to force, but a plant that will sell on sight when brought into flower during the early spring months, and especially so when grown as an Easter plant.

Strong plants 75 cts. per doz.; \$6.00 per 100.

Primula Cortusoides Sieboldi.

These are not so well known as they deserve; they are of free, vigorous growth, and can be flowered in pots in early spring, and respond quickly when placed in a temperature of 50 degrees, forming pretty pot plants in a short time.

Their fragrance is delicate, somewhat like that of a magnolia. Strong plants 60 cents each.

Although introduced some four years since, this handsome variety of Meadow Beauty is still practically unknown. It is perfectly hardy and should find a place in a damp position in the perennial border, where, under favorable conditions, it will form a plant 3 to 4 feet high, with finely divided, graceful, fern-like foliage and great sprays of feathery, silver white flowers in June and July. 35 cents each; \$3.50 per dozen.

Stokesia Cyanea.

(The Cornflower Aster or Stokes' Aster.)

One of the most charming perennials in our collection, it grows from 18 to 24 inches high and produces its Centaurea-like 4 to 5 inch in diameter lavender blue flowers from early in July until late in October, even after frost has destroyed nearly all other out-door flowers. It is of easiest culture, succeeding in any open, sunny position; not only is it desirable as a single plant in the mixed border, but it can also be used with good effect in large, solid masses, and at the same time is invaluable as one of the finest cut flowers. We have no hesitancy in saying that the *Stokesia* is the one most desirable hardy plant offered in our list.

The stock which we offer is all pot grown, being very strong plants in three-inch pots, which is the only satisfactory stock to supply to the amateur, and it must not be confounded with native collected plants.

Tritomas.

(Torch Lilies, Flame Flowers, or Red Hot Pokers.)

The *Tritomas*, especially the variety *Pfitzeri*, have during the past few years become most important among our list of bedding plants, and, when one considers how few flowering plants we really have that are suitable for massing in large quantities under our severe climatic conditions, outside of *Cannas* and *Geraniums*, there is little cause to feel surprised to see such an excellent new subject become at once so popular.

Pfitzeri. (The Everblooming Flame Flower.) The freest flowering variety in cultivation, with spikes from 3 to 4½ feet high and with heads of bloom over 12 inches long, of a rich orange scarlet, shading to salmon. 10 cents each; \$1.00 per dozen; \$6.00 per 100; \$50.00 per 1000.

Obelisque. (New). Chrome yellow flowers, in August and September on spikes 3½ to 4 feet high. 25 cents each; \$2.50 per dozen.

Saundersii. With us this is the earliest of all to bloom. Color deep coral red changing to chrome or yellow as they age. 50 cents each; \$5.00 per dozen.

R. Wilson Kerr. The finest and most valuable variety yet introduced. In color a brilliant orange-scarlet which does not vary throughout the season. 75 cents each; \$7.50 per dozen.

Triumph. A remarkably strong growing variety, producing flower heads from 12 to 15 inches long, at the base of which frequently two or three small heads develop. The flowers are of rich, deep old gold. 75 cents each; \$7.50 per doz.

NEW CRESTED ALTHEA

Two New Crested Altheas Or Rose of Sharon.

The Altheas are especially valuable on account of flowering at a season of the year when comparatively few shrubs are in bloom; commencing to flower early in August, they continue until late in the fall, and in these new varieties we have an entirely distinct type, combining the free-flowering qualities of the single sorts, to which a crest of curled petals in the centre gives the appearance of a double flower, yet not crowded, thus displaying the crimson eye very distinctly, and, at the same time, showing a loose graceful flower entirely different from the old, heavy double forms.

Crested Beauty. Pure white, with brilliant crimson eye and snow-white crest.

Crested Pink. Soft pink, with pink crest and crimson eye. Strong plants $1\frac{1}{2}$ to 2 feet high. 35 cents each; \$3.50 per dozen.

Hardy Azalea Mollis.

In the open border these are among the showiest of our very early flowering shrubs, producing their flowers early in May before the foliage appears.

An exceptionally fine lot of nicely budded plants 15 to 18 inches high. \$4.50 per doz.; \$35.00 per 100.

Hardy Ghent Azalea. (A. pontica.)

These are used extensively in out-door planting in connection with Rhododendrons and hardy shrubs, and are valuable for their bright colors and extreme hardiness. Good bushy plants, 15 inches high. \$4.50 per doz.; \$35.00 per 100.

Hardy Japanese Azalea Yodogama.

This charming Japanese variety is a perfect gem for outdoor planting. It forms a strong bushy shrub, about 3 feet high, which in May is literally covered with semi-double lavender pink flowers of a shade which is at once distinct from all others, and very pleasing. We cannot recommend this shrub too highly.

Good plants, 80 cents each; \$9.00 per doz.

Hardy Azalea Anthony Koster.

Though not new, this beautiful Azalea, which is one of the prettiest of the Mollis section, is yet but little known. Its flowers, which are of the most intense golden orange-yellow color, are of exceptional large size and are produced very freely early in May. The plant will be found most useful to plant in connection with Rhododendrons, or for the front row of the Shrubbery border, while it also responds quickly to forcing when grown in pots, and can readily be flowered during the late winter and early spring months, at which time it will be found valuable for conservatory and house decoration.

Strong bushy plants well set with buds, 60 cents each; \$6.00 per doz.

New Silver-Leaved Dogwood

Cornus Brachypoda Argentea Variegata.

An important addition to our all too short list of variegated-leaved hardy shrubs. This variety has foliage of large size which is of a dark green color, beautifully marbled on the edges with white, and, while the most of the variegated forms of Dogwood suffer from exposure to the sun, this variety delights in full sunlight, and is perfectly hardy. Good pot grown plants, 75 cents each.

Hydrangea Paniculata Grandiflora.

We offer a grand stock of this most popular of all Shrubs.

Extra heavy, bushy plants, 24 to 30 inches high, \$1.25 per dozen; \$10.00 per 100.

Extra heavy bushy plants, 30 to 36 inches high, \$2.00 per dozen; \$15.00 per 100.

Standard or Tree-Shaped. An extra fine lot of heavy, well branched plants, \$4.00 per dozen; \$30.00 per 100.

Hydrangea Paniculata. (Type).

This must not be confounded with Hydrangea Paniculata Grandiflora, it being the original type from which the variety Grandiflora originated, and while not so well known as the last named variety, it is by many considered superior to it on account of the large flower heads having a less number of sterile flowers, which reduces the weight of the large heads of bloom, thus enabling the plant to carry its flowers more erect, and showing same to better advantage. The flowers are creamy white, and turn to a purplish red as they fade. A large block of these plants at our nursery last summer were much admired while in flower.

We offer strong bushy plants, about 24 inches high, \$3.50 per dozen; \$25.00 per 100.

Hardy Rhododendrons.

The varieties we offer are all of the hardiest kinds, such as from experience are known to succeed in our climate.

All the plants are well set with buds, and in first-class condition in every way.

Bushy plants, 18 inches high, 75 cents each; \$8.00 per dozen; \$65.00 per 100.

Hardy Vines and Climbers.

AMPELOPSIS VEITCHII

Actinidia Arguta.

A most desirable rapid growing climber of neat growth with dark green foliage. \$2.25 per dozen; \$16.00 per 100.

Akebia Quinata.

We offer a large stock of this climber; strong plants, \$1.25 per dozen; \$10.00 per 100.

Ampelopsis Veitchii.

Very heavy pot grown plants. Strong 4-inch pots, \$1.25 per dozen; \$10.00 per 100.

Heavy 5-inch pots, \$2.00 per dozen; \$15.00 per 100.

Ampelopsis Virginica

Strong two-year plants, \$1.25 per dozen; \$10.00 per 100.

Apios Tuberosa.

Bignonia. (Trumpet Creeper.)

Grandiflora. Strong plants, \$3.00 per dozen.

Radicans. " " 1.50 " "

Cinnamon Vine.

Strong roots, 40 cents per dozen; \$3.00 per 100.

New Large-flowered Red Clematis. —Ville de Lyon.

A red-flowering Clematis of the hybrid or large flowering type, has been a desiderata for a long time, and a number of varieties have been offered at various times, but until the introduction of Ville de Lyon, which was first shown at Paris in 1900, all have been lacking both in color and size as well as in constitution. In the variety now offered, we not only have a bright carmine color, but a plant which is as free-flowering, and of an equally strong growth, as the well known and popular blue Clematis Jackmani. 50 cents each; \$5.00 per dozen.

New Early Spring-flowering Clematis Montana grandiflora.

This is a perfect gem—a climber, which on account of its strong vigorous growth and grand display of flowers, so early in the season, when no other climbers are in bloom, is certain to meet with much favor. The plant is of stronger growth than any other Clematis, and is not subject to the attacks of any kind of disease or insects, and will succeed under the most adverse conditions. Its flowers are snow-white Anemone-like, 1½ to 2 inches in diameter, and begin to expand frequently as early as the last week of April, continuing well through May, and are produced in the greatest profusion. The plant being literally hidden by the masses of bloom. Extra strong two-year-old plants, 35 cents each; \$3.50 per dozen.

Clematis Flammula Rubra Marginata.

The old Clematis Flammula or Sweet-scented Virgin's Bower, with its deliciously fragrant white flowers during midsummer, has always been a favorite. The variety here offered is a counterpart of its parent, except in color, each petal being edged with purplish crimson. A unique and desirable addition to our list of hardy climbers. Strong plants, 60 cents each; \$6.00 per dozen.

Large-Flowering Hardy Clematis.

We have again this season a fine stock of good, strong plants, two years old, own roots.

Boskoop Seedling. Extra large lavender.

Duchess of Edinburgh. Double pure white.

Fairy Queen. Pale flesh with a pink bar.

Gypsy Queen. One of the finest rich purple varieties.

Henryi. Finest large single white.

Jackmanni. The popular dark rich royal purple.

Lilacina Floribunda. Pale blue.

M. Koster. Bright rosy carmine.

Madame Baron Veillard. Light rose, shaded lilac.

Mme. Van Houtte. Pure white, extra fine.

Miss Bateman. White, with chocolate-red anthers.

Standishi. Light blue.

The Gem. Deep lavender blue.

The President. Bright bluish purple.

\$3.50 per dozen; \$25.00 per 100.

CLEMATIS MONTANA GRANDIFLORA

Jackman's New Hybrid Clematis.

An entirely new and distinct type, the result of crosses between *Coccinea* and *Star of India*. They combine all the good points of their parents, which, together with their distinct coloring and novel shape, make them valuable additions.

Countess of Onslow. A bright violet purple with a broad band of scarlet down the centre of each petal. Bell-shaped form.

Duchess of Albany. A beautiful bright pink, deeper down the centre. Campanulate in shape.

Duchess of York. A delicate and pleasing shade of pale pink, with a deeper tinge down the centre of each petal.
40 cents each ; set of three varieties, \$1.00.

Clematis Integrifolia Durandi.

Of semi-climbing habit, growing about 4 feet high, and producing without intermission from early in June until late in fall, showy indigo-blue flowers 3 to 3½ inches across; 50 cts. each.

SEED IN BULK.

Dreer's Fairmount Park Lawn Grass. A good mixture of grasses, suitable for various soil conditions and does well even in small city grass plots, where the soil generally is stiff and heavy. It is also good on embankments, terraces, etc. Per bus. (20 lbs.), \$2.75; retails for \$3.50.

The "Dreer" Lawn Grass. For quickly producing a permanent, thick and velvety sward of grass, this brand of Lawn Grass cannot be excelled. It is the best mixture of grasses we sell for lawn-making, and will give satisfaction wherever sown. Per bus. (20 lbs.), \$4.00; retails for \$5.00 per bus.

Dreer's Evergreen Lawn Grass Seed. This special mixture produces beautiful and permanent lawns. It is made from our own formula, and composed of grasses which are adapted for the purpose of producing lawns which retain their rich green color and velvety appearance throughout the entire summer and fall. Per bus. (20 lbs.) \$3.25; retails at \$4.00 per bus.

Dreer's "Shady Place" Lawn Grass. Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places; for sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those as are well adapted for growing in shade. Per bus. (20 lbs.), \$4.00; retails for \$5.00 per bus.

Dreer's Golf Links Mixture. Per bus. (15 lbs.), \$2.15; retails for \$2.50.

Dreer's Putting Green Mixture. Per bus. (20 lbs.), \$4.00; retails for \$5.00.
