Bolgiano's Marvelous New Extra Early Red

"Prosperity" Tomato

The Wonder Among New Early Tomatoes That Has Attracted So Much Attention.

"PROSPERITY" means Success, Good Fortune, Entire and Complete Satisfaction: finding a Tomato possessing all these qualifications and advantages we instinctively thought of "PROSPERITY."

Description:—The earliest of all Tomatoes, a brilliant red, an enormous yielder, grown and developed from single plant selections covering a period of five years, filled full of strong, sturdy, healthy, new blood—so good we have felt inclined to wait another year, so as to accumulate a little larger stock of seed before offering it for sale—but here it is and the opportunity is yours while our limited supply of seed lasts. Price: Pkt. 25c. ½ Oz. 75c. 1 Oz. \$1.25. ¼ Lb. \$4.00. Lb. \$15.00. Postpaid.

Bolgiano's Tomato Seed

PRODUCE THE

Best Tomatoes That Grow.

All our enormous crops of Tomatoes are grown exclusively for seed, as far north as Tomatoes will mature a crop, thus insuring early maturity and hardiness. The ideal climate in which we grow our Tomato Seed makes them earlier, free from disease and blight, firmer and more productive than seed you can procure from any other source. We select our most perfect field and in that field we select the most perfect plant and from that plant we take the earliest and most perfect cluster of fruit and save our stock seed. By scientific, expert selections we have built up stocks of Tomatoes that are unequalled. Many large Tomato Seed Growers secure their stock seed annually from us. So if you would have the best crop of Tomatoes you have ever grown, send us your orders.

Bolgiano's Tomato Seed is put up in attractive packages, each one having our Blue Seal and any offered for sale without our Blue Seal are misrepresentations.

I. X. L. Tomato Will Make You Rich

On November 10th, 1910, Mr. R. E. ATHEY, of Putnam Co., Fla., writes as follows: "The pound of I. X. L. Tomato Seed which I bought of you a year ago was planted at Yuma, Arizona, and made the best crop of Tomatoes and the Earliest in that section. The fruit was even sized, true to shape and color and shipped better than any other variety. We planted only one-half pound of the seed and it made 800 crates on a little more than one acre. I consider the I. X. L. the best early market variety and that it is adapted to Yuma Valley. Side by side with the Earliana the I. X. L. main crop was one week earlier. I will be in Southeastern Arizona the coming season and will want to plant more of your seed"

Blood Will Tell

On January 12th, 1910, Mr. W. W. Williams of Rowan Co., N. C., writes as follows: "Would say last season on account of the high price you asked for your I. X. L. I purchased my supply of this Tomato from a Philadelphia seedsman owing to their price being a little less, and I am sure I lost not less than \$1,000 by doing so, therefore I am coming back to you this year, the Originator of this wonderful Tomato."

A Wonderful Victory

H. W. Stamps, Floyd Co., Ga., writes February 25th, 1909. After trying all the other leading early varieties of the most prominent Seed Growers in the Country, I am forced to the conclusion that the I. X. L. is the earliest, smoothest, most prolific and best flavored Tomato grown. Its merits cannot be exaggerated."

But They Went All The Same

On Jan. 1st., 1912, Mr. E. McGrady of Hollins, Va., writes: "I would be glad to have a copy of your 1912 Seed Catalogue as I am especially interested in your I. X. L. Tomato. I planted them last year and was truly delighted with the results. I consider them far ahead of almost anything else on the market. Indeed, I would prefer them to all others, and if they continue to produce as they did last year they will be a great thing for the Trucker. The only objection that any one had to them was that they were too large as it only took 2 to fill a quart measure and customers objected to paying 25c for 2 Tomatoes, but they went all the same."

Expert Opinion On "My Maryland" Tomato

New York Agr. Exp. Sta., Geneva, N. Y., Prof. R. Wellington writes Sept. 28th, 1910. "Very much pleased with 'My Maryland' Tomato this season. Vines healthy, vigorous but not so rank as Livingston's Stone. Fruit large, smooth and firm, should make a good shipper as well as a good Canning Tomato. Plants tested seemed to be identical in all respects, and so there is no doubt that the strain has been carefully selected."

This variety should be of great value for Market as well as Canning purposes. We have tested several varieties of Tomatoes this past season and 'My Maryland' Tomato has made as good a showing if not better, than any of them."

Expert Opinions

Purdue University Agr. Exp. Sta., Lafayette, Ind. Prof. G. Boyle writes Sept. 28, 1910. "Your New Tomato, 'My Maryland,' has made a good record with us this season. We have picked 399½ pounds of 'My Maryland' from twenty plants up to the present time, which gave an average of practically 20 lbs. to the Vine. This will give a yield of about 17 tons per acre, with the plants 5x5 apart. The fruits of 'My Maryland' were of good size, quite smooth, ripened evenly and were of good grade. We consider it a promising variety."

Expert Opinions

The Connecticut Agr. Exp. Sta., New Haven, Conn., Prof. E. H. Jenkins writes Sept. 26, 1910. "We found the 'My Maryland' Tomato to a fine variety in every respect. It grew vigorously, yielded well and the fruit was large, fleshy and firm. It is obviously a productive variety."

Globe Tomato—Best He Has Ever Seen

On Dec. 29th, 1911, Mr. W. H. Reams, Orange, Co., Fla., writes: "The Livingstones Globe Tomato that I purchased from you are better than any Tomato I have ever seen."

Good Points of Our Globe Tomato

On December 30th, 1911, Mr. J. C. Michael, Orange Co., Fla. "I don't think there is a better all-round Tomato than your stock of Livingston's Globe. They are uniform in size, nice shape and splendid shipper owing to the toughness of the skin."

What They Say About "Greater Baltimore"

800 Pounds To One Great Ohio Cannery

The T. A. Snider Preserve Co., of Hamilton Co., Ohio, writes Oct. 15, 1912. "We have placed with you orders for 800 pounds of Bolgiano's 'Greater Baltimore' Tomato Seed for 1913 crops. Will you kindly indicate by return mail when we may expect shipment of the seed."

200 Pounds To One Great Indiana Cannery

The Loudon Packing Co., of Vigo Co., Ind., writes Oct. 15, 1912, "Please enter our order for 200 pounds Bolgiano's 'Greater Baltimore' Tomato Seed for our 1913 crops."

Outlasts Stone Tomato Two Weeks

October 28th, 1909, Mr. Miles Rausch, of Union Co., N. J., writes as follows: "I drop a line about your 'Greater Baltimore' Tomato Seed. Sowed them in my greenhouse and set out 400 plants on the 20th day of May and picked Tomatoes up till October 8th, and they are the finest Tomatoes that I ever grew. They are such fine large Tomatoes. I set the 'Greater Baltimore' next to a patch of Stone Tomatoes and they outlasted the Stone Tomato by two weeks. Both kinds were set out on the same day, May 20th."

Ten Days Earlier Than Stone

Watson Bros., Cumberland Co., N. J., write: "We are partial to the 'Greater Baltimore' Tomato as they mature about a week earlier than the Stone Tomato."

Hopkin's Improved Red Valentine Beans

Our Black Valentine Beans Brought Him \$800.00

On Dec. 21st, 1911, Mr. G. B. Lipscomb of Newport News, Va., writes:
"This is to certify that for the past five years I have used seed purchased from J. Bolgiano & Son, and want no better. Your Black Valentine Beans from five and a-half bushels planted brought me a little over eight hundred dollars this year being the best crop in this vicinity notwithstanding the drought. Yours for next order."

He's Been Planting Bolgiano's Seeds For 20 Years—Say They Are The Best—He Ought To Know

Peter Middlebrook, Tenn., writes June 26th.
"Enclosed find my order for 26 bus. of Peas, and 20 bus. Beans. We have been planting your seed for 20 years, I find they are the best seed I have ever planted. I always find them true to the name and always yield a large crop and have no spots in them. I make on your beans from 200 to 300 bus. per acre, and on the Peas 200 to 250 bus. per acre. All the growers here plant J. Bolgiano & Son Seed, and always have a large yielding."

Took First Premium In Florida

Mr. Walter Waldin, Dade Co., Fla., writes:
"I took first premium over all competitors at the last annual fair here on Davis' Kidney Wax Beans grown from Bolgiano's seed."

Bolgiano's Beans Are Superior

H. R. Hancock, Golead Co., Tex., writes:
"I have asked the Berclair Mercantile Co. to order their supply of Bean Seeds from you this year, which they promised to do, as your seeds are superior to those obtained from other seed houses."

Can't Do Without Them

John Clancy, Jefferson Co., La., writes:
"Your Davis Wax Beans have given me so much satisfaction that I cannot afford to do without them, so kindly rush this order off at once and I will send in another in a couple of days."

Best They Ever Had

J. M. Gressit Co., Baltimore, Md., writes April 20.

Seed, and were so well pleased that we did not care to buy from any other. Another seed house has sold some parties here, and has tried to get us to give them our order, but we told them that you had given us such excellent results that we did not feel that we could change in justice to you or ourselves, and we, therefore, place our order with you for 100 lbs. Bolgiano's Early Fortune Cucumber and 100 lbs. Arlington White Spine Cucumber."

C. Edgar Russel, Newcastle County, Del., writes: "The ten barrels of Maine Grown Seed Potatoes you shipped me on the 17th showed up fine, and am herewith enclosing another order."

The Best Potato In The World

Wm. Butler, Grant County, Ind., writes: "Bolgiano's Famous Prosperity Potato I think is the best I ever grew; its cooking qualities cannot be beat. It is the best yielder and does better on poor ground than any other variety I ever grew. It does better year after year than any other variety, wet or dry season, and you are sure to make a crop if you plant Bolgiano's Famous Prosperity Potatoes. The big stalky vines are a good thing in wet weather to hold the weeds down after they are laid by, and a good thing in dry weather to hold the moisture in the ground."

Yield Three Times As Many

Mr. Clavin Gore, of Baltimore County, Md., writes as follows: "We planted Bolgiano's Famous Plucky Baltimore Potatoes last Spring, and found that it would yield three times as many per acre as any other variety we ever planted in the last twenty years."
