Florists

and

Market

Gardeners.

HENRY A. DREER,

714 Chestnut St.

Philadelphia, Pa.

Established 1838

Directions to Correspondents.

DREER'S GARDEN SEEDS

Have been for years a standard among the market gardeners of this country for undoubted purity and excellence. Our long experience in furnishing seed to the critical gardeners of Philadelphia enables us to judge what the trade will demand, and to select stock best adapted to its use. We grow many varieties herein offered; the rest we procure from men of established reputation and from localities best adapted to the production of well-developed stock.

THE SEED TESTS

Are made before the selling season commences, at our extensive green-house establishment, where each variety is subjected to a thorough trial to prove its germinating power. At our Riverton Farm we try all new varieties offered, and are thereby able to compare their relative merit with standard sorts; there, also, we test our regular stocks in order to keep them up to grade.

DREER'S PLANTS

Are well grown and comprise only the best varieties. We aim to keep our stocks full and in a condition that will make them acceptable to the trade. We call especial attention to our Palms, Roses and Ferns, which we grow in large quantities.

PACKING.

No charge is made for boxes or packing (except seamless sacks, for which we make a charge of twenty-five cents) nor for delivery to Freight Depots or Express Offices.

REMITTANCES

Should be made by Post Office Money Orders or Postal Notes, Drafts on Philadelphia or New York banks, or Express Money Orders. Where it is not possible to obtain these, the letters should be registered. We disclaim all responsibility when remittances are not made as above directed.

C. O. D.

We decline sending perishable goods *Collect on Delivery* to distant points, unless a remittance be made on account, to guarantee the acceptance.

ORDER EARLY.

It will greatly facilitate shipment if orders are sent in early. We aim to send off all orders the next day after receipt, but during the busy season delays occur unavoidably. Our customers will consult their own interest in getting the first pick, by quick orders.

ERRORS.

We exercise the utmost care in filling orders, striving to do a little more than we offer, yet in the press of business errors occur. We wish to be promptly notified of the fact, and will make such corrections as will be satisfactory. Please keep copies of all your orders, for comparison.

NAME AND ADDRESS.

Please to remember to write your *Name, Post Office, County and State*, as distinctly as possible, especially the name; also the *nearest Express Office*, or, if on a Stage route, send us special directions, giving us the name of the Express Company delivering goods.

PLEASE WRITE THE ORDERS LEGIBLY,

Apart from the body of the letter, to facilitate execution and prevent errors. Shipments of seeds and plants are made in one parcel, to avoid additional Express charges.

HENRY A. DREER,

Seed Warehouse, 714 Chestnut Street,

WILLIAM F. DREER.

Lock Box 1618.

PHILADELPHIA, PA.

SPECIALTIES FOR 1889.

DREER'S ECLIPSE ASPARAGUS.

BYOND question this is the largest and finest Asparagus ever sent out. Stalks frequently measure two inches in diameter, and even when twelve to fifteen inches long, are perfectly tender when cooked. Its tenderness is ensured by remarkably rapid growth and its remaining in good condition several days after being ready for cutting. Of medium green color, excellent flavor, and attractive size; it is destined to become a leading market sort, and in large demand for private gardens.

Seed, 75 cts. per lb.

Strong 2 year old roots, \$1.50 per 100; \$10.00 per 1000.

Copyright, 1888, By Peter Henderson, & Co.

Henderson's Bush Lima Beans.

This new Bean is at least two weeks earlier than the climbing sorts. It grows 15 to 18 inches high and is as compact in form as an ordinary Bush Bean. The beans are the same size as the Sieva and are borne in profusion from early in July till cut down by frost.

Pkt. 25 cts. 5 pkts. \$1.00. 12 pkts. \$2.00

WARDWELL'S DWARF KIDNEY WAX BEAN.

Vines of medium size, erect, hardy and productive. Pods long, broad, flat and of a delicate waxy yellow, brittle and entirely stringless. Beans white and a distinct kidney shape. It is very early, of fine buttery flavor, and is destined to become a leading string bean and winter shelled sort. The yield considerably exceeds that of the Golden Wax.

Qt., 30 cts.; peck, \$1.40; bush., \$5.00.

DREER'S Golden Cluster Wax Pole Bean.

Further trials have proven all we claimed for this delicious Bean. All who have tried it speak in unmeasured terms of praise. Among many private gardens in this section it will take the place of the Dwarf Beans, as it continues to bear until cut by frost, if the first pods are kept picked. In quality, productiveness and all the points that go toward making a good bean this variety excels. The pods are a beautiful golden yellow, and are from 6 to 8 inches long, borne profusely in clusters of 4 to 6. Commencing to bear ten days after the Golden Wax, it continues to produce an abundance of pods until frost sets in. As the pods retain their tenderness and plumpness long after the beans have attained a large size, only a few days elapse after they cease to be fit for String Beans before they are fit to shell.

Pkt. 10 cts.; qt. 50 cts.

Cucumber.

Chicago Pickling.

A variety largely used by Chicago Market Gardeners for early use and for supplying pickle manufacturers. Early, dark green and of good flavor.

Pkt., 10 cts.; oz., 20 cts.; lb., \$1.50.

Cucumber.

Nichol's Medium Green.

For early forcing, late sowing for pickling, or for ordinary table use this variety will be found useful. It is of a dark green color, pleasant flavor, and very productive.

Pkt., 10 cts.; oz., 20 cts.; lb., \$1.00.

CHICAGO PICKLE CUCUMBER.

WHITE PLUME CELERY.

The stalks and portions of the inner leaves and heart are white, so that by tying them up with matting, or simply drawing up the soil against the plant the work of blanching is completed. It far exceeds all other sorts as an ornament, while its qualities are equal to the very best older sorts, being crisp, solid, and having that nutty flavor peculiar to some of the red kinds.

Oz., 30 cts.; lb., \$3.50.

PERFECTION HEARTWELL.

A desirable variety, having thick, clear white stalks that blanch easily and are attractive in color. Market gardeners will find it a quick selling sort. In flavor and crispness it is all that can be desired.

Oz. 30 cts.; lb., \$3.00.

WHITE PLUME CELERY.

GOLDEN SELF-BLANCHING CELERY.

GOLDEN SELF-BLANCHING CELERY.

One of the best varieties for the market gardener. Of upright, compact habit, and requiring little labor to blanch. The heart is a rich gold yellow, while the outer leaves are a yellowish white. It is an excellent keeper and of rich, nutty flavor.

Pkt., 10 cts.; oz., 60 cts.; $\frac{1}{4}$ lb., \$2.00.

NEW ROSE CELERY.

In this variety we have a combination of the best qualities of Celery. The red sorts far surpass the white in flavor and possess in their coloring a feature which renders them valuable as a table ornament. This sort should be largely grown, as it is crisp, nutty and of fine color.

Oz., 30 cts.; lb., \$3.50.

EARLY JERSEY WAKEFIELD.

CABBAGE.

EARLY JERSEY WAKEFIELD.

The value of this sort is too well known to need description. The seed offered is the very best American grown. For many years we have supplied the best market gardeners in the country with this strain.

Per oz., 30 cts.; per lb., \$3.00.

HENDERSON'S EARLY SUMMER.

An early variety, with large solid heads, coming in a few days later than the Wakefield, and rarely bursting open when fully matured.

Per oz., 30 cts.; per lb., \$3.00.

LARGE EARLY JERSEY WAKEFIELD.

An extra select sort producing large solid heads, of good quality. It is only a few days later than Early Jersey Wakefield, which it excels in size and ability to stand without bursting open. It is a sort that will be largely grown as soon as its excellent qualities are recognized.

Oz., 30 cts.; lb., \$3.00.

CAULIFLOWER.

DREER'S SNOW STORM.

The earliest and best of all for forcing. It is dwarf, with short outer leaves, and can be planted two feet apart each way; always sure to make large fine heads earlier than any other. This variety must be kept growing constantly, as it will not stand a check at any season of its growth.

Large pkt., 50 cts.; oz., \$6.00.

DREER'S SELECTED DWARF ERFURT.

Dwarf and compact, can be planted 18 inches apart each way. The heads are large, close, pure white, and of the finest quality. Our strain cannot fail to give satisfaction, whether grown in boxes or in the field.

Large pkt., 50 cts.; oz., \$4.00.

DREER'S SELECTED ERFURT CAULIFLOWER.

CAULIFLOWER.

EARLY SNOWBALL.

An extremely early dwarf variety producing magnificent white heads of fine quality. Well adapted to hot-bed culture, or for planting in open ground.

Large pkt., 50 cts.; oz., \$3.50.

ST. VALERY CARROT.

One of the best sorts for market gardeners' early use. To follow the Horn varieties it will be found in every way desirable, as it is attractive in color, of good shape and pleasing flavor. It will also prove satisfactory as a forcing variety, as it grows rapidly, is coreless, and is also productive and a good keeper.

Oz., 10 cts.; lb., \$1.00.

GEURANDE OR OXHEART CARROT.

A decided improvement in shape. It is intermediate between the Danvers Half-Long and Short Horn varieties, and attains at the neck a diameter of 3 to 4 inches. It is of fine quality, and valuable for family and market gardens.

lb., \$1.00.

DANVERS HALF LONG SCARLET.

Rich dark orange, very smooth and handsome. Early, small top and great bulk with small length of root. It is a good variety for any soil, and is well adapted for a field crop. The seed we offer is from well-selected stock.

lb., 75 cts.

CELERIAC.

IMPROVED APPLE SHAPED.

Superior in every way to the Turnip Rooted variety. In shape it is nearly round, with small neck and foliage. It can be planted quite close, thereby enabling the grower to secure a large crop from a small piece of ground.

Oz. 20 cts.; lb., \$2.00.

IMPROVED APPLE-SHAPED CELERIAC.

Dreer's Imperial Kale.

A beautiful curled and crimped sort. Of strong, vigorous habit, perfectly hardy, attractive appearance and a bright green color. It is superior to all other sorts and will become a standard among good growers.

lb., 75 cts.

NORFOLK CURLED KALE.

This variety has been the main stay of southern truckers as it is perfectly hardy, keeps green, and winters remarkably well. Our customers will find this a variety that will meet their wants.

Per lb., 75 cts.

Seminole Water Melon.

GREEN AND GOLD WATER MELON.

This new melon possesses four qualities which will make it the most popular melon ever offered to the public. It is *extra early, extra large, enormously productive, and of most delicious flavor.* It is in all respects a perfect melon. Oblong in shape, smooth and beautifully proportioned, and of a light green color. Flesh bright red, crisp and sweet.

Pkt., 10 cts.; oz., 25 cts.; lb., \$2.00.

GREEN AND GOLD WATER MELON.

A new melon that will attract attention. The flesh is a beautiful golden orange color, free from any tinge of white, and is sweet, juicy and of delicious flavor. The melons are of good size, ranging from 25 to 45 lbs. in weight, and are borne profusely.

Pkt., 10 cts.; oz., 25 cts.; lb., \$2.00.

Emerald Gem Musk Melon.

A very early and prolific variety. The outside is quite smooth and of a deep green color. Flesh salmon, sweet, fine flavored and remarkably thick. This sort will meet the wants of melon growers.

Oz., 20 cts.; lb., \$1.50.

MILLER CREAM MUSK MELON.

A good variety, bearing large melons oblong in shape. Very thick flesh of a rich salmon color, sweet and of fine flavor. A melon that finds a ready sale in the New York market.

Pkt., 10 cts.; oz., 20 cts.; $\frac{1}{4}$ lb., 50 cts.

EMERALD GEM MUSK MELON.

LITTLE GEM OKRA.

Dreer's Little Gem Okra.

A superior dwarf Okra sure to be in demand. The pods are free from ridges, are long, tender and velvety to the touch. It is of a bright green color and of superior quality; as it comes early into bearing and is very productive, it will be a profitable sort to grow.

Oz., 20 cts.; lb., \$1.25.

White Creole or White Velvet Okra.

This variety is largely grown in the south and is preferred by many to the green podded sorts, as it is considered to be more tender and of better flavor. The pods are perfectly round, free from ridges, and are soft and velvety to the touch. They are of unusual size and of a creamy white color.

Oz., 20 cts.; lb., \$1.25.

LIGHTNING PEA.

A very early Dwarf Pea, bearing in great profusion long well-filled pods, usually in pairs. The Peas are of a bright green color, well flavored, sweet, and of good size. The plants present an attractive appearance, as they are completely studded with peas early in the season. For early use in market gardens this sort has proved itself to be an acquisition.

Qt., 30 cts.; peck, \$1.50; bushel \$5.00.

DREER'S EUREKA EXTRA EARLY.

DREER'S

Eureka Extra Early Peas.

The earliest and most prolific variety. This sort has given the best results wherever grown and is a standard for earliness and quality. It is an even cropper and can be gathered clean in two pickings. This is an important item when the space is wanted for repeated cropping. For a late fall crop it has few equals, and is the market gardener's favorite for all seasons. It grows twenty inches high, and free from runners.

Qt., 25 cts.; pk., \$1.00; bushel, \$4.00.

Bliss' Abundance Pea.

Pods 3 to 3½ inches long, round and well filled, containing 6 to 8 large wrinkled peas of excellent quality. It ripens about one week after the earliest kinds. 6 to 8 inches apart in the rows is the nearest that the plants should stand.

Qt., 30 cts.; peck, \$1.25; bush., \$5.00.

CELESTIAL PEPPER.

One of the most remarkable of the peppers. The pods are borne upright, are conical in shape, and vary in color from creamy white when unripe, to brilliant scarlet when ready for picking. Market gardeners will find this a useful sort.

Oz., 40 cts.; lb., \$5.00.

CHAS. DOWNING POTATO.

An improvement on the snowflake. Eyes few and close to the surface; cooks white, mealy, and is of superior quality; to its fine appearance it adds remarkable productiveness, and as an early sort will take the lead. It is regular in size and form, and promises extremely well as a market sort.

Pk., 50 cts.; bush., \$1.50.

PEARL OF SAVOY POTATO.

The tubers are oblong, fair, and of large size, pearly white flesh, which cooks dry and mealy; 15 days earlier than Early Rose, and very productive and a good keeper. We consider this the best market gardeners' sort.

Bush., \$1.00; bbl., \$3.00.

Red Mikado Tomato.

We consider this one of the finest Tomatoes. It is of very large size and fine flavored; for slicing it will be found excellent, as it has few seeds and is very solid. The Tomatoes are borne in clusters of 4 to 7, ripen evenly, and remain firm when fully ripe. Of a bright red color, free from purple tinge. As a table variety it will meet the views of the most fastidious, and should be largely grown by gardeners who court the best trade. Pkt., 10 cts.; oz., 30 cts.; $\frac{1}{4}$ lb., \$1.00.

LONG STANDING SPINACH.

The very best variety obtainable for spring sowing. It will stand ten days longer than any other variety before running to seed. The leaves are round, curled and produced in great abundance, and are remarkably succulent, thick and fleshy.

Lb., 30 cts.; bush., \$6.00.

Defiance Lettuce.

This we consider one of the very best Lettuces. It is of fine quality, crisp and tender, and remains in prime condition a long time before going to seed. As a summer variety it will become a standard sort, as it is superior to all the other summer varieties. The heads are solid, of a light green color and grow to a large size before going to seed. Our customers who tried this sort last season speak in high praise of its good qualities.

Oz., 20 cts.; lb., \$2.00.

WHITE BOX.

DREER'S SCARLET FRAME

The Three Best Early Radishes.

The three following Radishes are beyond question the best early forcing sorts, and are equally desirable for early planting in the open ground:

DREER'S SCARLET FRAME.—The quickest growing and brightest colored and most attractive of the early Radishes. Of a brilliant crimson scarlet color, round as a ball, crisp and tender, and certain to bring more money in market than any other sort. As early as Fireball, but of brighter color and larger size. We consider this sort the very best yet introduced. Lb., \$1.25.

CARDINAL GLOBE.—We can safely recommend this sort as being of first quality in all respects for market gardeners. Of globular shape and brilliant red color with short top, and especially adapted for forcing, as it will stand a large amount of heat without becoming pithy; flesh tender, crisp, and in quality all that can be desired.

Lb., 75 cts.

WHITE BOX.—A superior white turnip Radish. Round and smooth, free from side roots, pure white in color, very crisp, mild and of excellent flavor. The most desirable white variety for forcing or early planting. Lb., 75 cts.

VOLUNTEER TOMATO.

An early Tomato of attractive color, uniformly good size, perfect form and a continuous and productive bearer. The fruit averages half a pound, ripens clear to the stem and is free from a hard core.

Pkt., 15 cts., 2 for 25 cts.; oz., 75 cts.

BAY STATE SQUASH.

PIKE'S PEAK OR SIBLEY SQUASH.

The color of the shell is a peculiar greenish tinge which renders it valuable in markets demanding a green winter squash. The flesh is a bright golden yellow, sweet, and of good quality.

Oz., 15 cts.; lb., \$1.50.

EARLY PROLIFIC MARROW SQUASH

PIKE'S PEAK or SIBLEY SQUASH.

An improvement on the Hubbard. The shell is smooth and thin and of a pale green color; flesh thick, solid; vivid orange in color; very dry; of fine grain and delicate flavor. The Squashes weigh from 8 to 11 pounds, and are excellent keepers. Pkt., 15 cts., 2 for 25 cts.; oz., 20 cts.; lb., \$1.75.

EARLY PROLIFIC MARROW SQUASH.

For fall and winter this is a very desirable sort, as it is early and productive—the two most important features for the market gardener, while its good cooking and keeping qualities, together with its attractive brilliant orange-red color, make it popular with the consumer. Oz., 15 cts.; lb., \$1.50.

Improved Round Podded Red Valentine Bean.

Our strain of this valuable market bean is unquestionably the best and earliest that can be procured. The pods are perfectly round, smooth and stringless, and of a bright green color.

Qt., 25 cts.; peck, \$1.00; bush., \$4.00.

DREER'S IMPROVED LIMA BEAN.

Very productive and of superior quality; when green they are nearly as large as the Large Lima, thicker, sweeter, more tender and nutritious, remaining green in the pod a long time after maturing.

Qt., 80 cts.; pk., \$2.00; bush. \$8.00.

Flower Seeds.

We make a specialty of Florists' Flower Seeds, sending out only the very best strains procurable. Our rapidly increasing sales to the trade lead us to believe that our efforts are appreciated, and we shall endeavor to provide strains of the highest possible value, knowing as we do the necessity of HIGH GRADE seeds to the florist and market gardener. Our trade packets contain a liberal quantity, proportionate with ounce prices. Florists' desiring smaller quantities than trade packets can select from our retail catalogue at 33 $\frac{1}{3}$ per cent. discount from retail price, except novelties, on which we allow 25 per cent.

Half trade packets can be supplied only when noted.

COMET ASTER.

A new and beautiful sort, forming fine, regular pyramids 12 to 15 inches high and covered with large double flowers. In shape they resemble a large-flowered Japanese Chrysanthemum, the petals being long and twisted or curled and wavy.

The color is a lovely delicate pink bordered with white.

Per trade pkt., 50 cts. ; retail pkt., 17 cts.

ASTER.

Truffauts Pæony Perfection.

This is the finest strain of Aster for the florist, both as a pot plant or for cut flowers. We have received the most favorable testimonials from growers who used them in past seasons.

TRIUMPH ASTER.

Comes perfectly true from seed and attains a height of 7 or 8 inches. The individual flowers measure from 2 to 3 inches across and are of the most faultless Pæony-form, all petals being beautifully incurved. The color is peculiarly rich and brilliant ; it is a pure scarlet, changing to a magnificent satiny deep scarlet.

Per trade pkt., 50 cts. ; retail pkt., 17 cts.

Cineraria Hybrida Grandiflora.

The strains of Cineraria we offer cannot be surpassed either for size of flower or beauty of color. Many of the flowers measure $2\frac{1}{2}$ inches in diameter, and none will be smaller than a silver dollar. We have received very flattering reports from florists and private gardeners of their success with our Cineraria seed. All desiring the *best* should procure our Prize strains.

COSMOS HYBRIDUS.

A charming autumn-flowering plant, requiring treatment similar to the Dahlia. The flowers are borne profusely in loose clusters and present a charming appearance. Seed should be sown early in spring and the plants transplanted in the open border when danger from frost is past. It begins blooming in July and continues until cut down by frost.

Per trade pkt., 25 cts. ; oz., \$1.50.

Myosotis Alpestris Victoria.

NEW FORGET-ME-NOT.

Of bushy habit, bearing umbels of large bright azure-blue flowers. The plant attains a height of 5 to 7 inches, and when fully grown is globular in shape and perfectly covered with flowers. This beautiful Forget-me-not for carpet bedding, edgings, and for pots is unsurpassed.

Dreer's Royal Exhibition Pansies.

This strain comprises a beautiful collection of colors and markings. In our trials it stood far ahead of all others, and we are confident it will prove satisfactory for perfection of form, firmness of texture, freedom of bloom and elegance of coloring. Florists and amateurs desiring charming "show" flowers should not neglect the strain herein offered, as it is the result of many years' careful selection and hybridization, and embraces all the attractive features that tend to make the Pansy the popular flower.

Primula Obconica.

A lovely perpetual blooming Primrose admirably adapted to growing in a cool greenhouse. The flowers are profusely borne in trusses on long stems, are of a delicate rosy lilac and pure white, thus making it an excellent cut flower for funeral work. It is in bloom fully nine months of the year, and some plants have kept up a succession of bloom during the entire season. As a florists' flower it is invaluable.

Trade pkt., 50 cts.

PRIMULA OBCONICA.

Primula Floribunda.

A perpetual blooming little beauty, identical in habit and form with *P. Obconica*, but bearing lovely primrose yellow flowers, and delicately perfumed.

Boston Florists' Double White.		50

"Snowflake" Stock.

In habit this stock closely resembles the Dwarf Pyramidal; it produces a vigorous main spike of uncommonly large and very double snow-white flowers and, when fully developed, numerous flowering side-shoots. Its glossy dark green foliage renders the dazzling whiteness of the flowers more conspicuous. It is one of the earliest of the Dwarf Ten Week Stocks, and is admirably adapted for forcing. Seed produces about 75 per cent. of double flowers. Per trade packet 50 cents.

NEW MAMMOTH VERBENA.

The seed we offer is the true Mammoth and not the large-flowering German variety. The flowers are very large, of brilliant colors and have large, distinct eyes. We consider the Mammoth Verbena one of the very best new things offered for many years. In coloring they excel the old varieties, are of vigorous habit and free blooming, and are the most attractive of the class.

Per trade pkt. 50 cts., per ¼ oz. \$1.25, per ½ oz. \$2.00, per oz. \$4.00.

PLANTS.

ABUTILON.

Golden Fleece, or Golden Pyramid.

The best yellow Abutilon in cultivation. It forms a perfect pyramid, and is at all times covered with its beautiful rich golden yellow bells.

\$1.00 per dozen, \$8.00 per 100.

Abutilon Eclipse (New).

An improved form of Vexillarium. Colors are brighter and the foliage of much larger size.

\$1.00 per dozen, \$8.00 per 100.

Akebia Quinata.

One of the best hardy climbing plants, bearing in early spring a profusion of fragrant, violet brown flowers.

2½-inch pots, 75 cts. per dozen; \$6.00 per 100.

3 “ “ \$1.00 “ “ 8.00 “

ENGRAVED BY A. BLANC, PHILA. COPYRIGHTED, 1885

AMPELOPSIS VEITCHII.

An entirely hardy Ampelopsis of Japanese origin. It clings firmly to any wall, tree, etc. The leaves are small on young plants, which at first are of an olive-green brown color, changing to bright scarlet in the autumn. This variety becomes more popular every season, and is without question one of the very best climbing plants for covering brick or stone walls.

	Per Dozen.	Per 100
Strong 1-year old plants,	\$1 25	\$10 00
Young plants, 2½-inch pots,	75	6 00

Anthericum Picturatum.

This handsome variety is yet quite scarce; unlike Anthericum Vitatum Var., it has a broad white stripe running through the centre of each leaf, which is edged with a bright pea green.

30 cts. each; \$3.00 per doz.

Antigonon leptotus.

(Mountain Rose.)

A lovely climbing plant which flowers very freely in some situations. Color bright rose. One-year-old plants in three-inch pots.

\$2.00 per dozen; \$15.00 per 100.

ANTHEMIS CORONARIA FL. PL.

Anthemis Coronaria fl. pl.

A most useful market plant, producing its golden yellow, double flowers the entire season.

\$1.00 per dozen; \$6.00 per 100.

Anemone Japonica.

One of the most desirable hardy herbaceous plants. It commences flowering early in August, and continues until cut down by severe frost. The flowers are about 1½ inches in diameter. They thrive best in a moist, rich soil, a covering of leaves, straw, or long manure being sufficient for our most severe winters. As a cut flower we consider the Anemone invaluable.

Alba.—Pure white, with yellow centre and dark eye. Very free bloomer.

Elegans.—Carmine, yellow centre and dark eye.

Rosea.—Dark rose, shaded pink, yellow centre, dark eye.

\$1.25 per dozen; \$10.00 per 100.

AZALEAS.

The Azaleas we offer are strong plants with good crowns, and average 16 inches in height. The sorts are the most desirable for florists. Our stock of small plants suitable for mailing is in excellent condition.

5-inch pots 12 inches high, fine bushy crown 10 to 12 inches in diameter, \$5.00 per doz.; \$40.00 per 100.
 6-inch pots 15 inches high, very fine crown 12 to 15 inches in diameter, \$9.00 per doz.; \$70.00 per 100.
 Naturally grown plants in ten choice varieties, 3½-inch pots, \$2.00 per doz.; \$15.00 per 100.
 Mailing plants, 2½-inch pots of good leading varieties, \$6.00 per 100.

Asparagus Plumosus Nanus.

This handsome variety is now becoming very popular and will be in great demand as a decorative plant and for cutting in connection with fine cut flowers. We offer a good stock in four-inch pots at \$1.00 each; \$10.00 per dozen.

Aristolochia Elegans.

One of the best summer climbers; of rapid and dense growth. It bears profusely, even on small plants, its handsome and elegant flowers of a rich dark purple color, ornamented throughout with irregular branched markings of a creamy white, and having a golden yellow eye surrounded by rich velvety purple.

\$2.00 per doz., \$15.00 per 100.

Aristolochia Cymbifera.

(Boat-Flowered.)

Another showy climbing Aristolochia, bearing flowers of a peculiar and distinct boat shape. In color a lovely mixture of purple and brown.

25 cts. each; \$2.50 per dozen.

Aristolochia Sipho.

A vigorous and rapid-growing climber, bearing singular brownish-colored flowers, resembling in shape a Dutchman's pipe. Its flowers, however, are of little value beside its fine light green leaves, which are of very large size, and retain their color from early spring to late fall. The plant grows very quickly, and soon makes a dense shade. For arbors or trellises, or for making a screen, it is invaluable. It readily attains a

height of 20 feet, and is perfectly hardy. The plants we offer are of large size, and suitable for making immediate effect.

30 to 50 cts. each; \$3.50 to \$5.00 per dozen.

BOUVARDIA.

SANG LORRAINE. A new double variety, of French origin, with flowers of the same shape as the double white, but of a bright scarlet color; it is free flowering, of strong vigorous habit, and a decided improvement over all double scarlet varieties.

30 cts. each; \$3.00 per doz.

ROSEA MULTIFLORA. One of the most distinct and useful varieties, resembling Davidsoni in habit of growth and freedom of flowering. Its color is of a soft silvery rose, which harmonizes well with more decided shades.

\$1.00 per doz.; \$8.00 per 100.

PRESIDENT CLEVELAND. A grand single-flowered variety, of the same habit as Elegans, with intense dazzling scarlet flowers; the brightest Bouvardia that has yet come to our notice. Florists will find this a desirable sort to grow for cut flowers, as its brilliant color and fine shape will create a demand for it.

\$1.00 per doz.; \$8.00 per 100.

TUBEROUS ROOTED BEGONIAS.

The Tuberous-Rooted Begonias are among the handsomest of our summer-flowering bulbs. They are not grown to the extent they should be, as they require no more care than Geraniums, have as fine a range of color, and will bloom continuously throughout the summer, even when Geraniums droop through lack of moisture and fail to unfold their flowers. Planted either in the rockery or flower border, they rival the Geraniums with their rich and varied colors, ranging from the most delicate shade of yellow and salmon to the most striking crimson and scarlet. We have made a specialty of these charming plants for several years, have tried them thoroughly, and have no hesitation in saying they are destined to play a very important part in the bedding of the near future. With us they have bloomed profusely when planted out on rock-work or in the open ground, and have been a decided attraction.

SEPARATE COLORS. Crimson, Pink, Orange, Scarlet, Yellow, White.
Per dozen, \$1.50; Per 100, \$12.00; Per 1000, \$100.00.

Single Mixed in all colors. Per dozen, \$1.25; Per 100, \$10.00; Per 1000, \$90.00.
Double Mixed in all colors. Per dozen, \$4.00. Per 100, \$30.00.

Countess Louise Erdody.

One of the best of the Rex Begonias. The colors are elegantly blended and the leaves curl, as shown, thereby making a charming effect.

30 cts. each; \$3.00 per doz.

BEGONIAS.

ALBA PICTA. A pretty species, from Brazil, distinct in character. It is shrubby in habit and of compact growth. The leaves are glossy green, freely spotted with bright silvery white. A useful basket plant.

\$1.00 per doz.; \$8.00 per 100.

COMTA. A very ornamental species. Its leaves have palish pink footstalks, which are five to six inches long, and remarkable for unequal development. The color is satiny green with a silvery tinge along the mid-rib; this coloration with the satiny surface being very pleasing.

\$1.50 per doz.; \$10.00 per 100.

SEMPERFLORENS GIGANTEA CARMINATA. The flowers of this new sort are brilliant carmine red, and are borne in large panicles. It is one of the best of the new Begonias, and possesses vigorous habit. The flowers are unusually large and brilliant, and stand well above the foliage.

\$1.50 per doz.; \$10.00 per 100.

RUBELLA. A very ornamental Indian species belonging to the *Riciniifolia* section. Leaves blotched red, with purplish blue ribs on upper surface, under side red.

\$1.50 per doz.; \$10.00 per 100.

FANCY LEAVED CALADIUMS.

For many years the Fancy Leaved Caladiums have been a special feature of our establishment. We grow several large houses of these beautiful plants alone. Our collection has been carefully revised and contains only first-class, distinct and well-marked varieties, and is acknowledged to be the finest in the country. Their greatest value is for the decoration of conservatories, greenhouses and window boxes, while nothing can surpass them as exhibition plants for fairs during the summer and fall. Most of the varieties, if planted about the first of June in partly shaded warm borders, in well-enriched soil, succeed admirably as bedding plants, the various colorings and markings of which cannot be obtained in any other class of plants. We list 25 fine sorts, but from our collection of over 60 sorts we are able to supply other varieties equally distinct and fine. Many of the fine varieties do not show their variegation when young, and often appear exactly the same as older sorts.

Annibal. Brilliant crimson veins on a rich green ground, spotted with carmine.

Argyrites. Distinct small leaved variety, never exceeding 6 inches in height, bright pea-green leaves, beautifully marbled with white.

Berose. Deep green spotted, red veins and midrib crimson, light green centre.

Boildieu. Bright crimson centre, deep green margin.

Canærti. Green spotted white, crimson centre.

Candida. Clear white ground, strongly marked ribs and margin.

Chantini Splendens. Spotted rose and crimson, brilliant centre.

Diana. Rich green, spotted red centre, crimson rayed.

E. G. Henderson. Green, spotted with rose, and rayed crimson.

Isadore Leroy. Metallic green, crimson rayed centre.

Jupiter. Green ground, splashed with white, bright crimson midrib.

La Perle du Bresil. White, delicately tinted rose, midrib and veins dark green; large and transparent; one of the loveliest in cultivation.

Louis Duplessis. Red rays and veins, on a white ground, green margin.

Louis Poirier. Crimson ground, white spots and green margin; finely marked.

Mad. Alfred Bleu. Deep green, white blotches, broad veins of crimson scarlet.

Mad. Fritz Kœchlein. White ground, violet rose ribs, green veins; very handsome.

Meyerbeer. White, veins green, midrib red.

Mons. A. Hardy. Rich reddish carmine veins, on a white ground, tinted with rose and spotted green; a bold and lovely variety.

Napoleon III. Flamed crimson centre on green ground.

Prince Albert Edward. Crimson midrib and veins, dotted with ivory white; black stems.

Reine Victoria. Dark green, spotted white and crimson.

Sanchoniatum. Crimson centre, deep crimson ribs and pea-green margin.

Sieboldii. Fiery red centre, spotted with claret.

Triomphe de l'Exposition. Crimson centre, bright red ribs and green border.

Wightii. Light green, with crimson and white spots.

Our stock of dry bulbs is exhausted. We offer strong plants, \$2.00 per doz.; \$15.00 per 100.

CLEMATIS.

Within the past few years great attention has been given to the cultivation of these valuable plants, and a large number of elegant varieties have been obtained, bearing magnificent showy flowers of large size and superb coloring. For garden and conservatory decorations, either as climbers on walls, trellises or verandahs, old trees or ruins, or as specimens on the lawns or in borders, or for massing in large beds on the lawn, they have scarcely an equal, certainly no superior, as they embrace nearly every shade of color. The following is a most desirable collection in every respect:

Alba Magna.—Pure white, with purplish-brown anthers; one of the finest white varieties in cultivation.

Anderson Henrye.—Creamy white, large and handsome.

Countess Lovelace.—Bluish lilac, rosette-shaped, forming a double flower, occasionally showing single flowers.

Duchess of Edinburgh.—Very fine, pure double white, sweet-scented.

Fairy Queen.—Large flowers, pale flesh, with a pink bar in centre of sepals, shaded purple at base.

Gloire de St Julien.—White, flushed with mauve while young; large and showy.

Gipsy Queen.—Rich dark velvety purple.

Imperatrice Eugenie.—Large flowers, of a pure white color; free-blooming.

Jackmanni.—Large, rich violet-purple; a free bloomer and strong grower.

Jackmanni Superba.—Very dark violet-purple; a large and attractive flower.

John Gould Veitch.—Lavender blue; flowers double.

Lady Bovill.—Light blue; finely cupped.

Lady Londesborough.—Silvery gray, with pale bar.

Lanuginosa Candida.—White tinted; a fine flower.

Lawsoniana.—Rosy purple, with darker veins; distinct and very large.

Mad. Eliza Schenck.—Blue; very free-flowering.

Mad. Van Houtte.—Pure white, extra fine.

Miss Bateman.—White, with chocolate-red anthers.

Mrs. James Bateman.—Pale lavender; large and free.

Mrs. Geo. Jackman.—Satiny white, cream-colored bar.

Otto Froebel.—Grayish white; large.

Princess of Wales.—Bluish mauve, satiny surface.

Star of India.—Reddish violet-purple, with red bars.

Sensation.—Rich satiny mauve, large and showy.

\$4.00 per doz.; \$30.00 per 100.

Clematis Flammula.

A hardy, rapid growing, graceful vine. Its small, bright green foliage is almost hidden by large clusters of white flowers.

\$1.25 per doz.; \$8.00 per 100.

Clematis Crispa.

The color is a beautiful lavender-blue. The centres of the petals are an opaque white, and are perfumed. Hardy and very free-flowering.

\$1.25 per doz.; \$8.00 per 100.

Clematis Coccinea.

The flowers are bell-shaped, in color a rich deep coral-scarlet. Begins to flower in June and continues until frost.

\$1.25 per doz.; \$8.00 per 100.

Clematis, Beauty of Worcester.

A sterling variety, which possesses the singular merit of producing both single and double flowers

CLEMATIS JACKMANNI.

on the same plant for its earlier bloom, and as the season advances single-flowers only are borne. It is a large and handsome 6- to 8-petalled flower of a lovely bluish-violet shade, with prominent pure white stamens, which greatly add to its beauty. Of vigorous growth, and a remarkably free and continuous bloomer, producing flowers at almost every joint.

\$1.00 each.

Wm. SWAYNE.

NEW CARNATIONS.

Wm. Swayne. Strong, vigorous grower, bearing early and continuously large, full fragrant flowers of a pure white. Being very firm and of heavy texture, it will prove valuable for shipping long distances.

\$1.25 per doz. ; \$10.00 per 100.

Germania. Of robust and branching habit. The flowers measure 2 to 3 inches in diameter, are very double and perfectly circular, with smooth petals. In color it is a deep, rich canary, and shows no trace of any other shade.

30 cts. each ; \$3.00 per doz.

L. Lamborn. A dwarf, compact grower, bearing on long stems fine, waxy, white flowers ; a profuse bloomer and can be grown on low benches.

\$1.25 per doz. ; \$10.00 per 100.

Carnations. Select List.

Buttercup.—One of the choicest Carnations sent out for many years ; in color a rich golden yellow, like "Marechal Niel" Rose, with a few clear streaks of carmine.

Columbia.—Bright buff color, flaked with carmine and rose ; a good bloomer.

E. G. Hill.—The finest scarlet yet introduced ; very fragrant and free blooming, and does not burst the calyx.

SELECT CARNATIONS.—Continued.

Field of Gold.—Pure golden yellow, flowers of good size ; a late bloomer.

Mabel.—Pure white, finely fringed, of dwarf habit, and a profuse bloomer.

Firefly.—Similar in habit and appearance to **Crimson King**, but a decided improvement in color. The flowers are borne on long stems and are a rich shade of crimson.

Maud Granger.—One of the very freest varieties, bearing large, fragrant, pure white flowers, occasionally penciled rosy crimson in the centre.

\$1.00 per doz. ; \$8.00 per 100.

Carnations. General Collection.

Allegatiere.—Bright scarlet, dwarf habit.

Anna Webb.—Deep rich crimson.

Chester ride.—White, striped crimson.

Crimson King.—Crimson.

Duke of Orange.—Orange yellow, mottled crimson.

Grace Wilder.—This is the finest variety of its color grown. Is a delicate soft rose or pink, finely fringed, and can always be cut with long stems ; the flowers command the highest price.

Hinze's White.—Large, pure white.

Meteor, or Philadelphia.—Bright, free scarlet.

Mrs. Cleveland.—A deeper shade than the well-known **Grace Wilder**, of strong habit, free flowering, and in all respects an excellent sort.

Portia.—Very fine scarlet.

President De Graw.—White.

Snowden.—White.

Scarlet Gem.—Scarlet.

Sunrise.—Light buff, flaked with bright red.

Century.—Rich, glowing carmine ; an early and free bloomer ; the very best of its color.

75 cts. per doz. ; \$6.00 per 100 ; \$50.00 per 1000.

Canna Ehemanni.

The most distinct of all Cannas, on account of its large oval, soft, green leaves and carmine-red flowers, which are produced on long flower stems ; each of the smaller branches bears about twelve flowers. The flowers are as large as a *Gladiolus*, and are used to advantage in bouquet making.

\$2.00 per doz. ; \$15.00 per 100.

EMILE LECLAIRE.

Canna, Emile Leclaire.

Flowers large, bright golden-yellow, mottled and spotted crimson and scarlet. Pea-green foliage. As a cut flower it will be found useful, as its peculiar color gives it the appearance of an orchid. The finest spotted variety grown.

30 cts. each; \$3.00 per doz.; \$20.00 per 100.

Canna, Adolph Wieck.

One of the freest flowering and brightest-colored varieties in cultivation. It is of dwarf, compact habit, growing from four to five feet in height. The flowers are of a medium size, of a rich crimson scarlet color, shaded with orange, foliage rich pea-green.

\$2.00 per doz.; \$15.00 per 100.

Canna, Nouttoni.

Similar in general habit to Ehemanni, smaller foliage. The flowers are of a rich crimson scarlet and produced very freely.

30 cts. each; \$3.00 per doz.

Canna, Robusta Perfecta.

The finest and most effective of the dark-leaved Cannas, bearing immense leaves from twelve to eighteen inches wide, and three feet long, of a bright bronzy color. The habit of the plant is very robust, in rich soil attaining a height of eight feet, and at a short distance it appears like the Abyssinian Banana; for tropical bedding this grand variety is indispensable.

\$1.00 per doz.; \$6.00 per 100.

Cannas. General Collection.

Brenningsii.	Souv. de Barillet des
Mons. Allegatiere.	Champs.
President Faivre.	Victor Lemoine.
Premices de Nice.	Zebrina.

\$1.00 per doz.; \$7.00 per 100.

Crozy's New Dwarf French Cannas.

Cardinalis.—Flowers pure cardinal crimson, large and finely shaped; foliage bluish green; 3 to 4 feet.

Edward Andre.—Foliage bronze and green, shaded purple; flowers large brilliant carmine-rose, suffused with crimson.

Gerard Andrieux.—Extra large rosy salmon flowers; foliage clear light green.

Hippolite Flandrin.—Extra large bronzy salmon flowers; foliage pea-green.

Louis Thibaut.—Very dwarfed, rich green foliage; flowers rosy carmine, shaded violet.

Multiflora.—Foliage dark green, of a very dwarf and compact habit; flowers large, of a rich bronzy orange-scarlet color, edged with golden yellow, produced very free.

Paul Bert.—Bronzy green foliage, stems purplish; flowers brilliant scarlet, borne in large, branching stems; very distinct.

Strelitziaeflora.—Massive, deep green foliage; flowers large, of a bright vermillion scarlet.

75 cts. each; the set of eight for \$4.50.

MRS. CARNEGIE.

New Japanese Chrysanthemums.

The following comprise the best of the new sort: **Eugene Mizzard.**—A distinct and pleasing variety, with narrow, loosely arranged petals of a deep purplish crimson.

Gold.—Flowers of large size and finely formed; the best yellow in cultivation.

L. Canning.—A singularly large and handsome pure white flower.

Mrs. John May.—Beautiful shade of clear, bright yellow, petals broad and deeply incurved.

Mrs. A. Blanc.—A fine and distinct sort, inner petals erect, outer reflex and pendulous; rich lavender. 50 cts.

Mrs. E. W. Clark.—A beautiful flower of regular form; slightly incurved, whorled centre; deep rich crimson magenta. 50 cts.

Mrs. Wm. Howell.—Rich, coppery crimson; a finely shaped flower.

Mrs. Carnegie.—\$1.00.

Mrs. Alpheus Hardy.—A charming, pure white variety; see special description. \$1.00 each.

Sunnyside.—One of the very best white varieties; regular in form and slightly incurved. 50 cts.

W. W. Coles.—A peculiar shade of terra-cotta, shaded brownish orange; large and distinct.

25 cts. each except where noted; 9 for \$1.75.

CHRYSANTHEMUMS.

Twenty-five Best Varieties for Cut-Flowers.

- Alfred Warne.—Pure white, finely incurved.
 Bouquet Fait.—Rosy lilac, of large size.
 Christmas Eve.—Pure white, very late.
 Cullingfordi.—Very bright crimson.
 Diana.—Beautiful, incurved white.
 Duchess.—Rich deep red, tipped with golden yellow.
 Evangeline.—Fine, pure white, incurved, globular in shape.
 Golden Dragon.—Large, fine yellow.
 John Collins.—Bronzy purple.
 M. Raoux.—Amaranth, dotted white.
 Mrs. Chas. Wheeler.—Old gold and crimson.
 Mrs. Cleveland.—Fine blush, changing to white.
 Mrs. Geo. Bullock.—Immense, fine white.
 Mrs. John. Thorpe.—Brilliant crimson.
 Mrs. Jones.—Very late, golden yellow; can be kept as late as Christmas.
 Mrs. Geo. W. Childs.—Deep rose, striped white.
 Mrs. F. Thomson.—Blush white, streaked with rose; immense size.
 Mrs. R. L. Mason.—Blood-red, tipped gold.
 Puritan.—Very fine, pure white.
 Pedro Diaz.—Brilliant red, large flowers.
 Robert Bottomly.—Pure white, fine.
 Robert Craig.—Fine deep rose color.
 Robert Crawford, Jr.—White, faintly tinted pink on under side of petals.
 Snow-storm.—Late, pure white.
 Tokio.—Rich bronzy crimson.
 Timbale d'Argent.—Pure white, anemone flowered.
 Triumph de St. Maude.—Soft salmon-pink.
 \$1.00 per doz.; \$6.00 per 100;

General Collection of Chrysanthemums.

We can supply ONE HUNDRED DISTINCT VARIETIES, consisting of the best sorts of different classes.
 Young plants, \$1.00 per doz.; \$6.00 per 100.

Coleus.

The following leading varieties we can supply in quantity:—

Bizarre.	Kirkpatrick.
Exquisite.	Red Cloud.
Firebrand.	Rainbow.
Golden Bedder.	Shylock.
Mrs. Bement.	Queen Victoria.
Maroon Velvet.	Verschaffelti.

J. Good, the golden bedder of Chicago.
 Strong plants, 2½-inch pots, \$4.00 per 100.

Coreopsis Lanceolata.

A hardy perennial that should find its way into every garden. The flowers are a clear bright golden yellow and certain to attract attention. It flowers profusely, is perfectly hardy and thrives in almost any situation. One of the best of the perennials.
 \$2.00 per doz.; \$15.00 per 100.

WHITE BOUQUET DAHLIA.

(Guiding Star.)

A grand variety, producing its pure white flowers, which are of exquisite shape, in the greatest profusion. The flowers are from 1½ to 2 inches in diameter, of the purest snowy white, and finely fringed. It is a free and very early bloomer; being of dwarf habit, it can be planted in deep frames and covered with glass at the approach of frost. In this way a large crop of valuable flowers can be insured until late in October.

25 cts. each; \$2.50 per doz.

CACTUS DAHLIAS.

A very showy and effective section of this desirable garden flower. The blooms are of peculiar shape, resembling in some varieties the Cactus "*Cereus Speciosissimus*." Hence the name "Cactus Dahlia." They grow from three to four feet high, are very branching, and bear profusely their very striking flowers, which are quite unlike those of an ordinary double Dahlia, the florets being flat and not cupped.

Cochineal.—Brilliant crimson, toned maroon.

Constance, or Ariel.—Pure white, of elegant shape, and one of the freest blooming.

Fire King (*Glare of the Garden*).—Fiery crimson scarlet, flowers of medium size and produced in profusion, giving the plant a rich and dazzling appearance.

Formosissima Picta.—Orange color, with bright scarlet stripes; a distinct and taking flower.

Juarezi.—A distinct variety, valuable for all purposes through late summer and autumn. Large flowers of rich crimson scarlet color.

Lyndhurst.—Rich deep scarlet, shaded maroon, excellent for cutting, and a fitting companion for Constance.

Mrs. Hawkins.—Of close, neat habit, rich sulphur yellow, shading lighter toward the tips and slightly tinted red; a lovely flower.

Mrs. Tait.—A peculiar and pretty Dahlia, somewhat resembling Juarezi, and is a fine improvement on Constance or Ariel in its whiteness and serrated form and appearance, and must become a general favorite for cut flowers.

Roots, \$2.00 per doz.; \$15.00 per 100.

Young plants, \$1.25 per doz.; \$10.00 per 100.

Double Pomponé Dahlias.

Colibri.—Rich bright scarlet.

Deutscher Turnergruss.—Crimson scarlet, edged white.

Dr. Schwebb.—Rich scarlet.

Gem of Liliputs.—Dark red.

Ida Fisher.—Pure white, full centre.

J. C. A. Stanza.—Orange yellow.

Kleiner Domitea.—Buff-yellow, marked with red.

Kleiner Rufus.—Maroon.

Pursuit.—Nearly black.

Unermuldliche.—Lively rose, spotted purple.

Venus.—Crimson, shaded purple.

Wm. Buchner.—Lilac, tipped yellow.

Roots, \$2.00 per doz.; \$15.00 per 100.

Plants, \$1.25 per doz.; \$10.00 per 100.

Large-Flowering Dahlias.

Amazon.—Primrose, full centre.

Crimson King.—Rich glowing crimson.

Defiance.—Pale yellow, tipped with white.

Flora.—Deep purple, shaded lilac.

Gloire de Guiscard.—White, mottled buff and orange.

Hector.—Large, orange-scarlet.

John Standish.—Bright crimson.

John Kirby.—Buff.

Penelope.—Blush, striped purple.

Rover.—Deep scarlet, shaded maroon.

Virgo Marie.—Pure white.

Yellow Boy.—Fine yellow.

Roots, \$2.00 per doz.; \$15.00 per 100.

Plants, \$1.25 per doz.; \$10.00 per 100.

General Collection of Dahlias.

We can furnish one hundred distinct varieties, consisting of the best sorts of the different types.

Roots, \$2.00 per doz.; \$15.00 per 100. Plants, \$1.25 per 100.

Single Dahlias.

The following selection has been made from the largest English collection, with a view of presenting none but the best of their respective colors; all are of perfect form and produce well-shaped flowers of great substance, and are indispensable for fine cut-flower work during the summer and fall months.

Beacon.—Rich fiery crimson; neat habit.

Bridal Wreath.—Creamy white; changing to pure white.

Canary.—Canary yellow, good shape and free.

Cetewayo.—Rich blackish maroon; medium size, regular form.

Christine.—Lovely silvery pink, well-rounded.

Empress.—Pure white, yellow rayed centre.

Juno.—Rosy lake, bordered silvery rose.

Le Baron.—Rich mulberry, shaded crimson.

Miss Linaker.—Bright cherry red; good form.

Mrs. Gilbert.—Pale yellow, tipped white; a delicate shade.

Silver King.—Orange, flushed silvery white, edged yellow.

Zephyr.—Crimson and bronze, with yellow stripe at edge of petals.

Roots, \$2.00 per doz.; \$15.00 per 100.

Plants, \$1.25 per doz.; \$10.00 per 100.

Dracenas.

We call special attention to our stock of *Dracenas Ferrea* and *Cordylina Indivisa*, both useful basket and vase plants:

Dracena (Cordylina) Indivisa—

2½ inch pots. \$0.75 per doz. \$ 6.00 per 100.

3 " " 1.25 " 10.00 "

4 " " 2.00 " 15.00 "

5 " " 3.50 " 25.00 "

Dracena Ferrea—

3 inch pots. 75 per doz. \$6.00 per 100.

FINE FERNS.

We make a specialty of Ferns, and can always supply large lots in fine condition. Our stock of Ferns is large, and includes many newer varieties that are not generally offered in quantities. The larger sizes, in three-inch pots and above, are in shape for immediate use in floral work, etc. The smaller sizes, in 2½-inch pots, will make handsome plants in a few weeks if potted up.

† A most useful rapid growing variety.

Eulalias.

Strong dormant plants, in best possible shipping order.

Japonica Zebrina and Japonica Variegata.

\$2.00 per doz.; \$15.00 per 100.

Fuchsia—Frau Emma Topfer.

(STORM KING.)

Undoubtedly the best double white Fuchsia ever sent out. It is of strong, graceful habit, and bears its pure white double flowers in the greatest profusion.

2½-inch pots, \$1.00 per doz.; \$8.00 per 100.

Fuchsia—Phenomenal.

A large and fine Fuchsia, larger even than Champion of the World; short tube and sepals of a rich reddish crimson color; corolla very full and double, of a beautiful azure violet, flaked with red.

\$1.00 per doz.; \$8.00 per 100.

Fuchsia—Mrs. E. G. Hill.

A fine novelty. It is a good grower, free bloomer, and carries a grand flower on upright branches. Considered the best double white.

\$2.00 per doz.; \$15.00 per 100.

Fuchsias—General Collection.

Twenty choice varieties, 75 cts. per doz.; \$6.00 per 100.

Ficus Elastica.

Strong plants, 18 inches high, grown in 5-inch pots.

\$9.00 per doz.

Feverfew—Little Gem.

Very dwarf, attaining a height of only eight to twelve inches. The flowers are large, of perfect form and of purest white. An improvement on the old variety.

75 cts. per doz.; \$6.00 per 100.

Double Geranium—White Swan.

(LE CYGNE.)

A perfectly double pure white variety, which has received a first-class certificate from the Royal Horticultural Society of London as being the best of its class. It is remarkably free blooming, and in season a perfect ball of snow-white flowers.

\$1.00 per doz.; \$8.00 per 100.

Gloxinia Crassifolia Grandiflora.

We have been making a specialty of the Gloxinia for many years, and grow many thousands. The bulbs are in an unusually fine condition, large and well matured, and are all of the Crassifolia type of foliage. The strain we offer cannot be surpassed, either in size of flower, richness of coloring or elegance of shape.

Colors separate, \$2.00 per doz.; \$15.00 per 100

Finest mixed, \$1.25 per doz.; \$10.00 per 100

Geraniums—Single and Double.

The following list embraces the best varieties only. The plants are well grown and in first-class condition:

Anatole de la Forge.	L'Elysee.
Belisaire.	La Pilote.
Conrad Kirchner.	La Titien.
Crimson Velvet.	Lucius.
Deputy Lafize.	Mons. Buchler.
Electric.	Mason's Scarlet.
Emerson.	Mad. Grandgeorge.

Hardy Pinks.

Snow, or Mrs. Sinkins.—Specially suited for Easter, as it forms a perfect mass of snow-white flowers, whether grown in pots or in benches. It is entirely distinct from and superior to the old white Scotch Pink, being nearly double the size and of the most exquisite clove fragrance.

75 cts. per doz.; \$6.00 per 100.

Clumps, \$1.00 per doz.; \$8.00 per 100.

Ten Best Old Sorts.

Alfred Harrington.	Juliette.
Brunette.	Laura.
Defiance.	Prince Arthur
Etna.	Pumila.
Gertrude.	Stanislaus.
75 cts. per doz.; \$6.00 per 100.	

Heliotrope.

Queen of the Violets.—Of the deepest violet purple, with large, almost pure white eye, and very fragrant. The plant is of vigorous habit and very floriferous.

Mrs. D. Woods.—Deep violet purple, slightly double. Very free flowering.

Grandiflorum.—Pale lilac.

Chieftain.—Deep lilac, fine truss.

Mad. Blonay.—Finest white.

75 cts. per doz.; \$6.00 per 100.

Hibiscus.

PERENNIAL MALLOW.

The flowers which are produced freely from July to September, are six to eight inches in diameter, and vary in color from pure white to deep rose. The plants grow six to eight feet high and form dense bushes, which are in season a complete mass of bloom.

Strong one-year plants, suitable for immediate effect.

\$1.50 per doz.; \$10.00 per 100.

Second size, 75 cts. per doz.; \$6.00 per 100.

Helianthus Multiflorus, fl. pl.

DOUBLE HARDY SUNFLOWER.

An extremely useful hardy plant; bears profusely large double flowers of a bright yellow color, which remain in perfection a long time. Every florist should grow this sort largely.

\$1.00 per doz.; \$8.00 per 100.

DREER'S SUPERB HOLLYHOCKS.

Few hardy plants combine as many good qualities, lend themselves as readily to varied uses, or are as free from disease as the Hollyhock. For planting in rows or groups on the lawn, or for interspersing among shrubbery, they are invaluable. The flowers, which are as elegant in shape as a Camellia, form perfect rosettes, and have been so much improved that they are marvels of beauty and elegance.

Blush.	Bright Red.	Cardinal.	Pink.	Royal Purple.	Scarlet.
Black.	Crimson.	Maroon.	Rose.	Salmon.	White.
Yellow.					

Separate colors, 1.00 per doz.; \$7.00 per 100; \$50.00 per 1000. Mixed all colors, 75 cts. per doz.; \$5.00 per 100; \$40.00 per 1000.

MOON FLOWER.

IPOMEAS.

Leari.

This is a fine large Morning Glory, with deep azure blue flowers, over six inches in diameter; a very desirable handsome climber.

\$1.00 per doz.; \$6.00 per 100.

Mexicana, or Palmata.

A distinct and pretty Mexican species, bearing fine clusters of large purplish rose colored flowers; it grows rapidly and succeeds in almost any position; as a plant for covering arbors, verandas, etc., it is invaluable; being tuberous-rooted, it may be wintered like a Dahlia.

\$1.00 per doz.; \$8.00 per 100.

Noctiflora, or Moon-Flower.

A rapid-growing plant, with pure white moon-like flowers, six inches in diameter, which open at night; as a rapid climber for covering arbors, verandas, trees or walls it has no superior.

75 cts. per doz.; \$5.00 per 100.

Lavina Weltoniensis.

SANTOLINA ARGENTEA.

A beautiful dwarf and compact-growing white foliage plant, very desirable for carpet and ribbon bedding; is very effective when used in connection with the bright colored Alternantheras.

75 cts. per doz.; \$6.00 per 100.

Linum Flavum.

An old winter-blooming plant that is again coming into use for holiday trade. Treated in same way as Carnations, it may be had in bloom in November and December, or be retarded until Easter. The flowers are of the richest golden yellow, and about 1½ inches in diameter.

2½-inch pots, \$1.00 per doz.; \$8.00 per 100.

Paeonia Arborea, fl. pl.

We offer a fine stock of very choice double Tree-Paeonias in good strong plants.

\$6.00 per doz.; \$45.00 per 100.

Passiflora-Constance Elliott.

This will become a very popular climbing plant. Like Cœrulea, it will live from year to year in the open ground when well protected in winter by mulching. The flowers are pure white, excepting a very slight coloring at the base of the corolla. To the list of cut flowers and climbing vines it is a decided acquisition.

\$1.00 per doz.; \$8.00 per 100.

Passiflora-Pfordti.

A remarkably free-flowering species, with light blue or purple flowers, which are produced in the greatest profusion even on quite small plants; excellent for the market grower.

\$1.00 per doz.; \$8.00 per 100.

Platycodon Grandiflora.

Commencing to bloom early in July and continuing until cut down by severe frost; the flowers are star-shaped, about 2½ inches across, and of great substance. It is perfectly hardy and grows about 3 feet high. We offer two colors, blue and white.

\$1.25 per doz.; \$10.00 per 100.

Plumbago Capensis Alba.

A first-class market plant, possessing all the good points of the old blue P. Capensis with which it is identical except in color, which is pure white; a first class acquisition.

\$1.25 per doz.; \$10.00 per 100.

Plumbago-Coccinea Superba.

A winter-blooming variety of great beauty, somewhat similar in style to P. Rosea, but producing long racemes of flowers, 12 to 15 inches in length, and of a bright satiny carmine color.

30 cts. each; \$3.00 per doz.

DREER'S DOUBLE PETUNIAS.

We have been making a speciality of the Double Petunia for twenty years, growing annually over five thousand seedlings. The set of this season surpasses all former productions, and excels in size of flowers, bright rich colors and distinct markings. They have been specially selected with reference to the grower for market.

Stock plants, \$1.25 per doz. ; \$10.00 per 100.
Strong plants, \$1.00 per doz. ; \$8.00 per 100.

Primula Obconica.

A lovely perpetual blooming Primrose admirably adapted to growing in a cool greenhouse. The flowers are profusely borne in trusses on long stems, are of a delicate rosy lilac and pure white. It is in bloom fully nine months of the year, and some plants have kept up a succession of bloom during the entire season. As a florists' flower it is invaluable.

\$2.00 per doz. ; \$12.00 per 100.

CHAMEROPS EXCELSA.

PALMS.

The following is a select list of varieties, which can be recommended for apartments, conservatory decoration, or vase plants. All are in a clean and thrifty condition suitable for making immediate effects, and require no nursing to bring them into proper shape. The Seaforthias, Arecas, Latanias and Kentias are of quick and graceful growth, and can be grown without much trouble.

The varieties offered are such as are especially adapted to florists' use.

Tritomia Uvaria Grandiflora.

(FLAME FLOWER.)

A splendid summer and autumn flowering plant, with stately flower scapes and magnificent terminal dense spikes of rich orange-red tubular flowers; familiarly known from its glowing colors as the Red-hot Poker.

Extra strong, \$1 50 per doz. ; \$12 00 per 100.

Medium size, 1 25 “ “ 10 00 “

Tigridia.

SHELL FLOWER.

Curious and beautiful shell-like flowers about 4 inches in diameter, flowering from July to October. The bulbs can be planted about the middle of May and taken up in Oct. and kept over winter in dry sand.

Conchiflora.—Orange, with crimson spots.

Pavonia.—Red, with crimson spots,

50 cts per doz. ; \$4 00 per 100.

TUBEROSES.

We have made a specialty of the Tuberose for many years, and grow our bulbs on a warm, deep light sandy soil, which contains the elements essential to produce and ripen firm, sound blooming bulbs. We carry the largest stock of Tuberose in the country, and by our process of curing are enabled to supply bulbs free from decay, thoroughly ripened and in proper condition for early or late forcing.

Our stock of first size Pearls being exhausted, we can only supply second size, but they are all flowering bulbs.

Imported Budded Roses.

BARONNESS ROTHSCHILD.

The following are strong two-year-old dwarf budded plants worked low on the Manetti. We have been handling this stock extensively for the past few years; the general satisfaction expressed by nearly all who have tried it induces us to recommend this class of plants more highly than ever, whether it be to grow on, for wood for propagation, for cut blooms, or for flowering for spring sales:

Baroness Rothschild.	Lady Sheffield.
Boule de Neige.	Lord Bacon.
Baron de Bonstettin.	Louis Van Houtte.
Cardinal Patrizzi.	Mable Morrison.
Chas. Lamb.	Masterpiece.
Chas. Lefebvre.	Merveille de Lyon.
Countess of Oxford.	Mad. Gabriel Luizet.
Capt. Christy.	Mons. Boucenne.
Crown Prince.	Paul Neyron.
Diana.	Perpetual White Moss.
Duke of Albany.	Prince de Rohan.
Duchess of Bedford.	Persian Yellow.

Glorie de Dijon.	Souv. de Chas. Montault.
Helen Paul.	White Baroness.
Jean Liabaud.	W. A. Richardson.
Jules Margottin.	Xavier Olibo.
La France.	

\$3.00 per doz.; \$20.00 per 100.

Newer and Scarcer Varieties of Roses.

LUCIOLE.—Bright carmine rose, tinted and shaded saffron yellow, base of petals coppery yellow. A lovely sort, combining all the characteristics of a good forcing rose. Buds are large and full, equaling C. Mermet in size. Very fragrant.

METEOR.—A rich, dark velvety crimson Hybrid Tea; a free bloomer and vigorous grower, showing no tendency to mildew. Does not run single during summer, and of value as a market flower.

MAD. ETIENNE.—A profuse-blooming sort, bearing large, full and very fragrant buds of a rosy pink color. The edge of the petals shades off to a light rose; centre occasionally shows a rich blush.

MAD. SCHWALLER.—A Hybrid Tea, having the fragrance of La France and possessing the firmness, size and texture of the Hybrids with the freedom of flowering of the Tea class. Of globular form and rosy flesh color, deepening toward the edges.

Mlle C. PERREAU.—A seedling from S. de Un Ami, but of larger size and better form than its parent. Habit of plant vigorous and productive. Flowers are of bright rose color with a silvery shade.

PRINCESS HOHENZOLLERN.—A promising red Tea Rose, a probable seedling from Papa Gonter. In color a bright glowing red, of large size, fine shape, fragrant and prolific.

PRINCESS BEATRICE.—A magnificent yellow Tea Rose, equaling in size the Catharine Mermet. The flowers, which are carried on long, stiff stems, are of a perfect form and a lovely shade of golden yellow, with a slight tint of pure rose on the edge of the petals. A distinct and charming sort.

VISCOUNTESS FOLKSTONE.—A Hybrid Tea Rose of artistic shape and color. It forces readily, is of strong growth and bears lovely white flowers tinged salmon pink, slightly cupped and delightfully fragrant. The buds are of large size, pointed and borne profusely.

3-inch pots, \$1.50 per doz.; \$12.00 per 100.

Grand Mogul.

A seedling from A. K. Williams, producing flowers of a deep brilliant crimson, shaded with scarlet and black; in dull weather and late in summer and autumn the flowers are darker, approaching to maroon. They are large, full, of perfect, symmetrical shape, and produced in great profusion; the foliage is large and of firm texture. It has been admired wherever shown, and is destined to take first rank as a grand decorative rose. It produces exhibition blooms of the highest excellence, and has received a first-class certificate from the Royal Horticultural Society.

50 cents each; \$5 00 per dozen.

Puritan.

The blooms are borne on every shoot, are remarkably firm in texture, and remain perfect several days after being cut. The flowers as they open are of a rich cream color, which changes to pure white in the expanded flower. In fragrance the flowers resemble the Magnolia, are of perfect shape, and show all the good points of an exquisite rose.

2½ inch pots, \$12.00 per 100.

Mrs. John Laing.

An exquisite pink Hybrid Perpetual. A remarkably strong grower, very fragrant and a free bloomer. The stems are long and surmounted by well-shaped buds of large size. A most desirable variety for winter forcing and out-door use.

2½ inch pots, \$12.00 per 100.

Mad. Scipion Cochet.

Apricot yellow, a distinct and desirable variety.

\$1.50 per dozen; \$12.00 per 100.

American Beauty.

An excellent rose for forcing or open air. The flowers are very double, of a deep crimson color, and very fragrant. Its blooming qualities are remarkable, as it is scarcely ever out of flower, and is a true type of what a Hybrid Perpetual Rose should be.

2½ inch pots, \$10 00 per 100.

3 " " 15 00 " "

Clara Cochet.

A new Hybrid Perpetual rose of great promise, bearing very large and full flowers, of a clear satin rose, with bright centre. Highly spoken of by both French and English growers.

50 cents each; \$5 00 per dozen.

Marechal Niel.

Our stock of this superb rose is in fine condition. We offer

	Per doz.	Per 100.

Extra heavy two years old imported budded stock

5 00 40 00

A limited stock of extra long stems, 10 ft., \$2.00 each.

Wm. Francis Bennett.

For forcing, this is an admirable rose, its rich, glowing crimson color and charming fragrance, combined with large size and correct shape, have rendered it a favorite wherever shown. We do not recommend it as a summer bloomer, as it is apt to run single.

2½ inch pots, \$10.00 per 100.

TOOLS AND IMPLEMENTS.

Gem Single Wheel Hoe and Cultivator.

Five steel teeth, two scuffle hoes, and two plows, one right and the other left hand. The hoes, etc., can be set in any position. Wheel and handles. \$4.25.

Gem Double Wheel Hoe and Cultivator.

Same as above, except that it has two wheels, which allow it to work both sides at once. \$4.75.

A. H. Matthew's New Vegetable Seed Drill.

Well and thoroughly made, and will sow with ease and regularity all vegetable seeds used by market gardeners. It has eight improvements. One of the most valuable being a SHUT-OFF, arranged to stop the flow of seed instantly. \$8.00.

MATTHEW'S LITTLE GEM SEED DRILL.

Matthew's Little Gem Seed Drill.

Designed for farmers and small gardeners. Will do its work as perfectly as the best \$12 drills; weight 20 lbs. \$5.00.

Planet Jr. Horse Hoe.

Complete Horse Hoe, Cultivator, Plow and Coverer combined, including wheel and roller..... \$11.00
Horse Hoe and Cultivator..... 8.50
Horse Cultivator..... 4.50

Jewel Cultivator and Wheel Hoe, Double.

The "Jewel" is capable of being quickly adjusted in depth or width of working or height of handles. It is provided with four slender stirring teeth, one pair of curved side hoes, intended for use among small plants; also, a pair of plows for throwing to or from the row, or for opening furrows. \$5.00.

Jewel Cultivator and Wheel Hoe, Single

Four teeth, two scuffle hoes and plow. \$4.00.

THE MODEL DRILL.

The Index or Indicator is plain, convenient and reliable. It is placed in open sight and can be quickly adjusted to the slightest variation. The names of the principal seeds are plainly shown on the Index. The flow of seed can be instantly stopped by a swinging cut-off, which prevents all loss of seed at the end of rows. Its swinging or gravity form will be found preferable to slides, as it cannot be jammed by falling seed. The marker is simple, easily adjusted and firmly held. The main wheel is of large size and of sufficient width to prevent its sinking into soft earth. The covering roller is attached by swinging frame, enabling the operator to roll lightly or otherwise, by varying the pressure on handles. \$7.50.

The Planet Jr. Drill, Cultivator and Plow.

Suitable for the farm or garden. It holds one quart of seed, has a finely adjustable Spring, Brass Seed Reservoir, an Adjustable Plow, new Seed Index, two Hoes, three Cultivator Teeth and two Covering Rakes. It opens furrows, covers hills, plows to and from the plants, works safely and closely to both sides of the row at once. \$10.00.

The Planet Jr. No. 2 Drill.

It has an adjustable opening Plow. No hoeing attachments. It will sow with ease and accuracy. Holds 2 1/2 quarts. \$8.00.

Diamond Point Expanding Harrow.

The best harrow for private or market gardens. The teeth are set on angle, are reversible, so that they can be used for leveling or harrowing or cultivating. Does not make ridges. \$4.50.

EVANS' HARROW.

One of the very best tools for private or market gardens. The harrows are provided with runners so they can be easily moved

without tearing up walks or roads. 24 tooth, \$5.00; 30 tooth, \$5.75.

RAFFIA.

Indispensable for tying plants. Asparagus, etc. Cheaper than twine, as it can be split very readily. For grafting purposes it is rapidly growing in favor with the leading nurserymen.
20 cts. per lb.; \$18.00 per 100 lbs.; per bale of about 175 lbs., 15 cts. per lb.

FERTILIZERS.

AMMONIATED BONE PHOSPHATE. A superior article, made from pure materials, and certain to give satisfactory results. Per sack of 200 lbs., \$4.00; per ton, \$35.00.

BOWKER'S LAWN DRESSING. This Dressing is prepared so that it acts gradually through the season. It will restore many lawns to full luxuriance that have been nearly ruined by drought. Per sack of 200 lbs., \$5.50; per ton, \$50.00.

CRUSHED BONE. Ground coarse, for grape borders. 200 lb. bag, \$4.50; per ton, \$35.00.

PURE GROUND BONE. Excellent for restoring and quickening grass plots, gardens, etc. Apply 400 to 600 lbs. to the acre. Sack of 200 lbs., \$4.00; per ton, \$35.00.

PURE BONE MEAL. Ground expressly for our trade. Better than Ground Bone for mixing with potting soil, as it is much finer and in better condition for giving immediate effect. 200 lb. sack, \$4.00; per ton, \$35.00.

BONE FLOWER. Ground perfectly fine; an excellent fertilizer for pot-plants or beds where an immediate effect is wanted. Bag or bbl., 200 lbs., \$5.00; per ton \$40.00.

GRANULATED TOBACCO. For fertilizing lawns, etc.; will keep the lawn green. Per bbl. 200 lbs., \$6.00.

LAND PLASTER. For fertilizing and mixing with guano, Per bbl., \$1.25; per ton, \$10.00.

POWDERED TOBACCO AND SULPHUR. An odorless and clean fertilizer, and effective as an insect destroyer. 100 lbs., \$5.00.

PULVERIZED SHEEP MANURE. Excellent for mixing with potting soil or lawn dressing. 100 lb. sack \$4.50.

PURE PERUVIAN GUANO. Use per acre three to four hundred pounds; before using mix with loam or plaster. Do not mix with lime, ashes or clay. Per sack of 200 lbs., \$6.50; per ton, \$60.00.

TRUXILLO GUANO. Use four to six hundred pounds per acre. Per sack of 200 lbs., \$4.50, per ton \$42.00.

STAR BONE PHOSPHATE. Made especially for stimulating a quick and healthy growth. Apply 400 to 600 lbs. to the acre. Per sack of 200 lbs., \$4.00; per ton, \$30.00.

INSECTICIDES.

TOBACCO DUST. A sure remedy for green fly. per lb., 5 cts.; per 100 lbs., \$3.00.

TOBACCO STEMS. For fumigating. In bales of about 250 lbs., \$2.00; per bbl., \$1.00.

COMBINED SOAP. (Good's.) $\frac{1}{2}$ lb. bar, 15 cts.; 1 lb., 25 cts.

CARBOLIC AND WHALE OIL SOAP COMBINED. 30, 60 and 80 cts. per can.

CARBOLIC ACID SOAP. Kills all insects that destroy animals and plants. Per cake, 10 cts.; per doz., \$1.00.

FLOUR OF SULPHUR. A preventive and cure for mildew. Per lb., 6 cts.; per 100 lbs., \$5.00.

FIR TREE OIL. Per quart, \$1.00; per gallon, \$3.50.

GISHURST'S COMPOUND. For destroying green fly, mildew, thrip, mealy bug and scale. Per lb., 65 cts.; 2 lb. box, \$1.25.

HELLEBORE. Thoroughly effective. Per lb., 25 cts.

PINNER'S TOBACCO SOAP, for destroying all insects on plants and animals. Per lb., 40 cts.

PERSIAN INSECT POWDER, for destroying roaches, ants and fleas. Per lb., 60 cts.

PURE PARIS GREEN. Directions for use with each package. 25 cts. per lb.; in 28 lb. kegs, 23 cts. per lb.

WHALE OIL SOAP. Per lb., 10 cts.; per 100 lbs., \$7.50.

SLUG SHOT.—Slug Shot has proven efficacious in destroying caterpillars, rose slugs, cut worms, potato bugs and other insects injurious to plant life. It is a safe insecticide to use, and combines utility with cheapness.

SPECIAL IMPORT ORDERS FOR FORCING BULBS.

At the prices quoted, we will import any of the bulbs on this list, and deliver in Philadelphia without extra charge. Delivery will be made as soon as the bulbs are received from the growers. The prices quoted herein are for import orders only, and do not govern prices on small quantities. Orders received after June 1st will not be filled at these rates.

WHITE ROMAN HYACINTHS.

The White Romans we offer are extra selected bulbs, and we expect they will be equal to those sent out in former seasons, as they are from the same careful grower whose products have given perfect results.

Our customers will find them the best in market, and will consult their own interest by securing their stocks early. The crop of Romans will doubtless be short and generally of inferior quality.

LILY OF THE VALLEY.

TO SECURE good results the pips should be kept in a cold place until wanted for flowering. If they have been kept in a frozen state they should be gradually thawed out before placing in heat. As the principal requirements are moisture and heat they can be grown without soil. The pips should be placed on the benches and covered with moss, and kept in a steady temperature of 88 to 100 degrees. Water should be liberally supplied and the pips shaded with cloth until the stems are two to three inches high, when the shading should be removed in order to develop the flowers. The pips we offer are the best quality German, and have been grown in deep sandy land. Ready for delivery in November.
