Dreer's WHOLESALE CATALOG for Florists—Autumn 1938

This issue of Dreer's Autumn Wholesale Catalog, our Hundredth Anniversary Edition, is presented to you in the hope that it will prove a ready reference guide to the many items that at this time are of special interest to every progressive Florist. Though our customers are well aware of the splendid stock we offer this matter deserves special emphasis since after all this catalog goes to quite a number of important Florists who still have to become acquainted with Dreer Quality.

And now a word in regard to the large number of congratulatory messages received earlier in the year in reference to our "Hundredth Anniversary." They were so numerous that few of them could be acknowledged by letter but all of them were gratefully received and we wish to express herewith our most sincere thanks to all for their friendly felicitations.

Dreer's Quality Bulbs

for Florists

Single Early Tulip
Keizerskroon

Every good grower knows that the results from bulbs are in direct proportion to the quality of the goods. This is the reason why our many florist customers insist on having the finest bulbs obtainable. They know that they must produce flowers that will sell at good prices even during times when the market is flooded with flowers of average quality. All Dreer bulbs have been carefully selected for size and vigor. They are bound to give entire satisfaction if grown properly. Naturally the price for these large bulbs is somewhat higher than that of smaller sizes, yet the difference is insignificant if one considers the chance taken by the grower who tries to get by with inferior stock.

Triumph Tulips

A Glorious Giant-Flowering New Race

This new race of Tulips has well-formed giant blooms in colors and color combinations distinctly different from all other Tulips. Furthermore, they bloom within the interim of the Early Singles and the later Tulips such as Cottage, Darwin and Breeders. This of course makes them a very important class. They are of sturdy, compact growth and exceptionally colorful.

New Pink Buddleia
Charming

A most outstanding new plant which created a sensation when first exhibited by us. It was given the highest award, a Silver Medal, by the Pennsylvania Horticultural Society. Truly a glorious shrub bearing throughout the late summer and autumn elegant long sprays covered with lovely lavender-pink blooms which compared with other Buddleias introduced up to date are distinctly pink. For September and October flowers we suggest pinching off the flower spikes in July, which will result in vigorous new growth bearing showy terminal flower trusses during the autumn months.

Judging from the tremendous interest shown in this new Buddleia we feel confident that it merits the highest recommendations and we suggest to you a good size planting in order to derive your share of the profits to be had from this plant during the next season.

SPECIAL FLORISTS STRAIN

Cornflowers always have been a very important crop with many florists. Yet heretofore even the best strains lacked the fullness and doubleness of the flowers so necessary to their perfect appearance. The general character of the plants resembles the older type. They grow 2 feet high, are well-branched, and produce a great quantity of long-stemmed flowers for cutting.

White Dutch Clover

Finest recleaned. Invariably used in mixtures for lawns, as it forms a thick mat of dwarf evergreen foliage, and its creeping roots make an excellent preventive from "washouts" on terraces and embankments. Lb. 50c.; 10 lbs. \$4.90; 25 lbs. \$12.00; 100 lbs. \$45.00.
