Dreer's Wholesale Price List

Autumn Edition—1928

We offer in this, our Autumn Wholesale Catalogue, a very complete line of seasonable Bulbs, Plants, Seeds and Sundries. Recent reports indicate that conditions have been favorable for the production of good Bulbs, so that results should be entirely satisfactory.

We have ordered liberal quantities from our usual careful growers and hope to be able to fill orders for Dutch, French and Home-grown stock by the middle of September and other bulbs in their season.

All orders received for stock not actually in hand are booked subject to arrival of our full supply and the prices given in this catalogue include duty, all import charges, packing and delivery to transportation company in Philadelphia.

SHIPPING

By our careful and thorough system of packing it is customary for our patrons to receive their orders from us in perfect condition, but all shipments are made at purchaser's risk, our responsibility ceasing after we deliver the goods in good order to the transportation company.

PARCEL POST—We will be pleased to send such items as can be mailed by Parcel Post if customers will remit for postage. We do not deliver any goods free at Wholesale Prices.

PRICES—This list cancels all previous offers. The prices quoted in this list are net, and subject to no discounts.

No order for plants or bulbs amounting to less than \$1.00 will be filled and packed at wholesale prices. Orders received from the trade for Plants or Bulbs amounting to less than \$1.00 will be charged for at retail prices, less 10 per cent.

TERMS OF BUSINESS—Unknown correspondents desiring to open an account will please furnish three references to parties in the trade with whom they have had credit relations, and sufficient time to investigate same, otherwise cash must accompany order.

Remittances should be made by Post-office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way.

Goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance. No perishable stock will be sent C. O. D.

All goods are offered subject to crop failures, shortages or other causes beyond our control and to being unsold on receipt of order, and we reserve the right to advance prices without notice.

No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices in Philadelphia.

In filling out your order always give Shipping Directions, and write Name and Address Distinctly on each and every order.

NON-WARRANTY—Henry A. Dreer, Inc., gives no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any Seeds, Bulbs or Plants they sell, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

Extra Choice Single Mixed Narcissus

A wonderful mixture made up of the best-named sorts, including many high-priced high-grade sorts. \$4.75 per 100; \$45.00 per 1000.

Large-flowering Paper White Polyanthus Narcissus

Millions of these bulbs which, up to 1925, were imported from the South of France, were grown annually. As the Government prohibits their further importation for sale, we have now to depend on home-grown bulbs, produced for the most part in the Southern and Pacific Coast States. Careful tests of these during the past two seasons show that while they flower quite freely they do not come into bloom as quickly as the imported bulbs.

We offer the largest and best home-grown bulbs procurable. \$1.00 per doz.; \$6.50 per 100; \$60.00 per 1000.

Soleil d'or or Golden Sun Polyanthus Narcissus

A splendid free-flowering variety producing large clusters of rich yellow flowers with a deep orange-red cup. \$1.50 per doz.; \$11.00 per 100; \$100.00 per 1000.

MISCELLANEOUS BULBS and ROOTS

Prices include duty, all import charges, packing and delivery to transportation company in Philadelphia.

Giant American Hybrid Amaryllis

Giant French Anemones

Fancy-leaved Caladiums

(Ready in January)

We handle a very choice stock of these, including the finest of the old standard varieties, the choicest Brazilian introductions as well as a number of extra fine new varieties.

Named Varieties. \$2.00 per doz.; \$15.00 per 100; \$140.00 per 1000.

Mixture. \$1.75 per doz.; \$12.50 per 100; \$120.00 per 1000.

Amaryllis Giant American Hybrids

Flowers of enormous size, with full, rounded, broad petals, 10 inches in diameter, are not unusual and 5 to 6 flowers to a stem, frequently two stems being pushed to the bulb. In color there are selfs and stripes, ranging from the purest white ground color with rose or red markings to rich orange-scarlet, cherry, crimson and maroon, strong flowering bulbs which we can supply in mixture only. Ready October 25th.

\$4.50 per doz.; \$35.00 per 100; \$325.00 per 1000.

Dreer's Extra Choice
Tuberous-Rooted
Begonias

Ready for Delivery Early in January

The Tuberous Rooted Begonias which we are now offering are, of course, all American grown, produced for us by a specialist in this particular line. During the past summer when they were at their best, we had the opportunity of looking these over, and were delighted to see the advances made in their production as well as with the superior quality of the various types, and we assure our customers that they can depend on receiving stock at least equal if not actually superior to what we have supplied in the past. The tubers we send out are from 1½ to 2 inches in diameter, the best size for all commercial purposes, be this for growing in pots or for outdoor bedding.

Frilled Tuberous-Rooted Begonias

If you have only been growing the ordinary plain-edged Begonias, you will be delighted if you will give this wonderfully improved strain a trial. The flowers are not only of giant size, but the petals are beautifully frilled and waved, not unlike the finest frilled or ruffled Petunias.

Buddleia (Butterfly Shrub)

Bougainvillea

Crimson Lake. Introduced through the Bureau of Plant Industry of the Department of Agriculture.

The flowers are like all other Bougainvilleas, perhaps a trifle larger, but in coloring none compare with it in richness and brilliancy. On first opening a brilliant crimson-lake, retaining this color for three of four weeks, after which they gradually pass to a crimson-carmine.

In southern California and Florida, the Bougainvilleas make gorgeous climbers for outdoor planting, while in the north they are useful subjects as pot plants for the conservatory or greenhouse.

3-inch pots, 35 cts. each; \$3.50 per doz.

4-inch pots, 75 cts. each; \$7.50 per doz.

Buddleia (Butterfly Shrub or Summer Lilac)

The Glory Fern (Adiantum Farleyense Gloriosa)

Dreer's Fine Ferns**Adiantum Farleyense Gloriosum
The Glory Fern**

This splendid Fern which so closely resembles Adiantum Farleyense in appearance and which does not require the special skill and care in growing that is necessary to produce good plants of A. Farleyense, has quickly made a place for itself, not only on account of the fact that it can be produced for little over half that of growing Farleyense, but also because either in a cut state or as plants used in decorative work, it will outlast the old variety ten to one, making it an available subject where Farleyense cannot be used at all.

Ferns in Flats

We specialize in Ferns in Flats, which are principally sold in late Spring and early Summer, but we frequently have limited stocks on hand during the Fall and early Winter. If interested write us for a list of varieties.

Seedling Plants of Polypodium Mandaianum

This variety originated with us as a seed spore from Mandaianum and by careful selection we have succeeded in fixing a type which is now one of the most popular decorative ferns in commerce.

It naturally makes a bushy, well-shaped plant either in a four- or six-inch pot and splendid specimens can be grown in 8- or 10- or 12-inch tubs, its large, bold, more or less curled and wavy foliage, together with its glaucous blue color, gives it a distinction not possessed by any other decorative plant.

Being of rapid growth, it is a profitable plant to grow. As a house plant it gives general satisfaction; in this it is unequaled by any other fern, not even excepting the popular Holly Fern.

2½-inch pots, \$1.75 per doz.; \$12.00 per 100.
4-inch pots, \$4.50 per doz.; \$35.00 per 100.

Six New Hardy Asters

Blue Gem. The nearest approach to a true blue in Asters; 4 feet.

Heather Glow. Very free vigorous grower with large-sized flowers of a delightful shade of brilliant rose with conspicuous golden centre; 4 feet.

Little Boy Blue. One of the finest rich blues yet raised; it is of neat habit, about 2 feet high and one of the earliest to flower.

Maid of Athens. Three and a half feet tall branching pyramidal heads of broad petalled effective rose-pink flowers two inches in diameter.

Queen Mary. Awarded a certificate of merit by the Royal Horticultural Society of England. This is unquestionably one of the best of the Novi Belgii type yet introduced with graceful fully $2\frac{1}{2}$ -inch flowers arranged loosely in branching panicles of a particularly pleasing blue-tinted lavender; splendid for cutting. $3\frac{1}{2}$ ft. high.

Royal Blue. A compact strong grower with large flowers of a rich purplish blue, very early and free. $2\frac{1}{2}$ feet.

Price, 25 cts. each; \$2.00 per doz.; \$15.00 per 100.

Japanese Double White Hardy Aster

A most desirable variety that came to us from Japan unnamed, and which is entirely distinct. The plants are of symmetrical habit, grow about 2 feet high, and bear from July to September double white flowers not unlike the double white Feverfew. \$2.00 per doz.; \$15.00 per 100.

Artemisia Lactiflora

Japanese Hardy Aster

Mauve Cushion. An entirely distinct species. It forms a circular cushion-like plant 2½ feet across, rarely exceeding 9 inches in height, the flowers, of delicate, soft mauve, with silvery white reflection, measure over 1¼ inches in diameter, and are produced in such lavish profusion as to completely cover the plant; the blooms begin to expand early in October, but are not at their best until November. \$2.00 per doz.; \$15.00 per 100.

Fall-flowering Hardy Asters

New Double-flowering Gypsophila

"Bristol Fairy"

In this we have a wonderful advance over the old type, a plant not only of greater vigor, producing much larger panicles of flowers, in which the individual bloom is considerably larger, and of purer white color, but it also possesses the advantage of flowering more or less continuously throughout the summer, new branches of bloom appearing after the first flush of flowers has passed, if these are cut away when through blooming.

Strong 1 year field roots, \$3.50 per doz.; \$25.00 per 100.

Gypsophila Paniculata flore plena

Japanese Iris

Dreer's Imperial Japanese Iris

Six Superb Japanese Iris

We have selected the following six varieties from a long list of introductions as the most distinctive. With their rich, lustrous colors and their refined forms they rank high in this regal class of oriental flowers.

Albatross. The finest double white variety, large round petals, open flat flower creamy white.

Catherine Parry. Nine large petals, the centre petals being fluted forming a full double flower. Violet with deeper blue shadings.

Dream. Single white, very delicately veined with parma violet, giving the flower almost a transparent appearance.

Clarice Childs. Three very large individual petals of rich Petunia-violet conspicuous yellow center surrounded with a blue cast.

Lavender Giant. One of the most delicately handsome varieties in cultivation; flowers consist of three very large broad petals, lavender blue produced freely on strong stems.

T. S. Ware. Eight to ten petals of large size, bright crimson-purple with many white veins and distinct white centre, a very showy double variety.

Price, 35 cts. each; \$4.00 per doz.; \$30.00 per 100.

Standard Collection Japanese Iris

Iris Interregna

An interesting type, the result of crossing **I. Germanica** with **I. pumila hybrida**. They bloom earlier than the Germanica Iris. The flower stems are almost 18 inches high, holding the flowers well above the foliage.

Fritjof. Standards light lavender-blue, falls satiny violet-blue.

Helge. Standards creamy-yellow, falls deeper, veined yellow.

Spectabilis. Rich, free-flowering violet-purple. 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Iris Pumila Hybrida

Among the earliest flowering and are very showy, growing from 10 to 12 inches high.

Cyanea. Rich royal purple, with blackish shadings.

Floribunda. Creamy yellow.

Schneekuppe. Pure white.

\$1.50 per doz.; \$10.00 per 100.

Golden Yellow Iris Germanica

"Sherwin-Wright." The plants grow about two feet high; the flowers, which are produced in lavish profusion, are of splendid texture and stand well above the foliage, and are of a rich golden yellow without marking or shadings. The best of all the yellow varieties. 20 cts. each; \$2.00 per doz.; \$15.00 per 100.

Iris Pallida Dalmatica Princess Beatrice

This is the true type of Pallida Dalmatica and still one of the most attractive and satisfactory all-around varieties, with flowers of large size, both standards and falls of a clear lavender-blue shading to a pale silvery-blue at the base and sweetly scented. It is of strong vigorous growth over three feet high with unusually heavy glaucous foliage.

NEW DOUBLE FLOWERING ORIENTAL POPPY "OLYMPIA"

While double and semi-double forms of the Oriental Poppy are mentioned in some of the horticultural text-books, we have never seen such until our attention was called to the variety here offered.

The plant is of strong, vigorous habit, but of compact growth not exceeding 2½ feet in height and produces its flowers profusely; these when fully developed are about 4 inches in diameter; when first opening full double, but show a slight centre with a bunch of stamens as they mature. In color it is a brilliant rich flame scarlet overlaid with an iridescent glistening golden salmon; illustrated in colors on page 177 of the Garden Book for 1928. \$2.50 per doz.; \$15.00 per 100.

Dreer's Fragrant Peonies

Double Herbaceous Peony

The wonderfully improved Peonies introduced in recent years are truly the "Queen of Spring Flowers," and are well adapted for massing in beds, and particularly valuable for planting in groups throughout the perennial or shrubbery border, where their brilliant hues add attraction to all around. Their requirements are so simple—a good rich, deep soil, and an open sunny position which, however, is not absolutely necessary, as they thrive almost equally as well in a partly shaded position, and a liberal supply of water during their growing season being sufficient to give an abundance and wealth of flowers, which rival the finest Roses in coloring and fragrance, and produce during their flowering season a gorgeous effect not equaled by any other flower. They are perfectly hardy, requiring no protection whatever, even in the most severe climate, and once planted increase in beauty each year.

An important point to observe in the planting of Herbaceous Peonies is not to plant too deep. The roots should be placed so that the crowns are covered with two inches of soil.

Rheinlander (Medium). A most beautiful salmon-pink. \$1.50 per doz.; \$10.00 per 100.

Riverton Jewel (Medium). One of our own introductions. A lovely mauve-rose illuminated by a brilliant carmine-red eye.

R. P. Struthers (Tall). Bright rosy-carmine with claret-red eye. \$1.50 per doz.; \$10.00 per 100.

Rynstrom (Medium). A favorite white variety. Fine for massing, of a Paul Neyron rose color.

Thor (Medium). A most beautiful and lively shade of deep salmon-pink suffused and overlaid with a scarlet glow. \$1.50 per doz.; \$10.00 per 100.

Von Lassberg (Medium). A favorite white variety.

Wala (Dwarf). The largest flowered, very dwarf white. \$1.50 per doz.; \$10.00 per 100.

Widar. Light, reddish-violet, with a very large white center, which intensifies and illuminates the color.

Price, except where noted, \$1.25 per doz.; \$8.00 per 100; \$75.00 per 1000.

Early Flowering Hardy Phlox (*P. Suffruticosa*)

Miss Lingard

This grand free-flowering white variety is a universal favorite, coming into flower in May; it continues in flower throughout the season. \$1.50 per doz.; \$10.00 per 100; \$90.00 per 1000.

California Tree of Matilija Poppy

This beautiful Poppy, while hardy as far north as Philadelphia, should be planted in a well-drained sunny position. It grows from 4 to 5 feet high and frequently has from 6 to 8 expanded flowers on a single shoot at one time. The flowers are white, 5 inches or more in diameter, delicate and transparent, yet enduring in a good state for several days, delightfully fragrant, 75 cts. each.

New Viola "Jersey Gem"

Undoubtedly the most valuable bedding Viola yet introduced which is perfectly suited to our climatic conditions and which will succeed in any good garden soil in a sunny position, blooming practically without a break from May to the end of the season. The plant is of compact, sturdy habit of growth, its flowers of pure violet without the slightest shading and borne on good stems about 6 inches long makes it a good subject for cutting, and a splendid substitute for single violets, as well as a most desirable plant for the border.

Dreer's Roses

Dormant Stock for Delivery Winter of 1928-29

We are listing this season the greatest and choicest collection of really worth-while novelties that we have ever had the pleasure of offering at any one time. Catalogue men will find it to their advantage to look these novelties over carefully with a view of listing at least part of them in their catalogues.

Many of the varieties here offered are controlled by us exclusively for the coming season.

All of these are offered in Howard & Smith's San Fernando two-year-old field grown plants budded on Ragged Robin stocks.

New Hybrid-Tea Roses and Varieties of Special Merit

Hybrid-Tea Rose, Dame Edith Helen

Angele Pernet (Pernet-Ducher, 1924). An exquisite rose that is rapidly gaining in popular favor. Entirely distinct and novel in color, described by the raiser as a vivid orange-yellow shaded fiery deep reddish-apricot, but "tango color," we believe, describes it better. It is a good grower producing a long bud opening to a moderately full, beautiful sweet scented flower that at once attracts attention. Awarded Gold Medal at the Bagatelle Paris trials in 1924. \$50.00 per 100.

Bedford Crimson (Laxton Bros., 1926). This grand Rose was awarded the Clay Challenge Cup by the Royal Horticultural Society of England for the best new Rose with the best Old Rose Scent. Aside from its delightful odor it is unquestionably the most beautiful high colored Rose yet introduced, a brilliant crimson-scarlet. It is of beautiful form both in the half developed, as well as in the fully expanded bloom, being full double with an average of forty heavy substantial petals which reflex beautifully; its flowers are produced profusely on good stiff stems. \$75.00 per 100.

Cuba (Pernet-Ducher, 1926). As a bedding Rose for brilliant mass effect we know of nothing that will equal this French introduction and although the large flowers are almost single, they possess a charm and brilliancy in color which is an entirely new tone in Roses, a glorious bright vermilion-scarlet overlying an orange ground, this color combination is so intense that in full sunlight it glitters with an iridescent sparkle. A vigorous grower with dark green foliage which make a splendid foil for the masses of richly colored blooms which it produces from spring to late fall. \$60.00 per 100.

Dame Edith Helen (Alex. Dickson & Sons, 1926).

One of the greatest hybrid-tea roses for outdoor planting yet introduced. Awarded Gold Medals by the National Rose society of England, 1926, as well as at the New York and Philadelphia Flower Shows in the spring of 1927. It was also awarded the Clay Cup in England in 1926 for the best sweet-scented Rose shown that year as well as a Certificate of Merit by the Royal Horticultural Society of England. It is not often that so many honors come to a new rose. We question if any Hybrid-Tea Rose yet introduced promises to be such a valuable addition to our garden Roses as this wonderful new pink variety. The plant possesses a strong, vigorous constitution, the flowers are produced singly on well-foliaged strong canes throughout the season, these are of immense size, composed of very substantial broad petals which curl back prettily forming a wonderful long pointed bud which develops into a full double flower which is absolutely perfect in every stage of development. The color is a brilliant, yet soft Rose du Barri pink and is delightfully and strongly sweet-scented. \$75.00 per 100.

Doris Traylor (McGredy, 1924). Beautiful long buds of a rich brilliant salmon-orange with intense carmine suffusion, large double flowers of splendid form; a strong but compact grower, exceptionally free-flowering and delightfully scented. \$75.00 per 100.

Duchess of Athol (Dobbie & Co., 1928). The coloring of this new variety is uncommon and delightful, an old golden-orange flushed with peach pink, particularly attractive in the bud and open state, growth vigorous, a free and continuous profuse bloomer. Awarded Certificate of Merit of the National Rose Society of England. \$100.00 per 100.

Duchess of York (Sandy Dickson, 1925). Flowers large, full and fine form. Color in the young stage deep golden-yellow, with deep tangerine-orange centre, the color spreading from the centre and suffusing the whole flower. A rose of exceptional merit for bedding and garden decoration, its freedom of bloom is extraordinarily long-lasting as a cut flower. \$100.00 per 100.

Frank Reader (Verschuren & Sons, 1927). In our California trials this has attracted great attention.

It is a large, massive flower with high pointed centre with nicely reflexing petals of great substance, the long buds in first developing are a light lemon-yellow, while the flowers in their half-expanded form reveal a heart of golden apricot; it has a delicious rose apple scent. Among light-colored varieties this is of outstanding merit. \$60.00 per 100.

Irish Charity (McGredy, 1927). Fair-sized flowers with fine buds of a most intense fiery scarlet with golden sheen opening to moderately double blooms of an attractive and distinct rosy-scarlet. Strong branching habit and very free. \$75.00 per 100.

Irish Charm (McGredy, 1927). This is a gem of exquisite form and absolutely distinct from any variety yet introduced. It is of strong branching habit, remarkably free-flowering. The buds and flowers are of medium size, the base of the petals a rich golden-apricot passing to a delicate blush-pink as the flowers develop. \$100.00 per 100.

New Hybrid-Tea Roses and Varieties of Special Merit

Dormant Stock for Delivery Winter of 1928-1929

New Hybrid-Tea Rose, John Russell

Irish Courage (McGredy, 1927). A splendid addition to the list of bi-colored Roses, the color being a soft shrimp-pink merging to salmon in the fully expanded petals, the whole overlaying a golden orange ground, this color being very pronounced at the centre of the flower. Growth and fragrance moderate, with attractive dark glossy-green foliage. **\$75.00 per 100.**

Irish Hope (McGredy, 1927). A splendid and distinct red with well-formed buds composed of heavy, broad petals opening to moderately full, very fragrant flowers. The color is a rich rosy-crimson with maroon shadings. It is of splendid, vigorous growth with good foliage, and a free and continuous bloomer. In our trial plots this looks like one of the most promising varieties, among the many red sorts on trial. **\$75.00 per 100.**

Irish Morn (McGredy, 1927). Magnificent long-pointed buds with heavy shell-like petals, color imperial pink deepening to a coral centre with golden lustre and sheen. Plant of strong growth but moderate height, very free-flowering and sweetly scented. **\$75.00 per 100.**

Irish Sweetness (McGredy, 1927). A delightfully fragrant variety and splendid addition to the none-too-long list of good red bedding Roses. Color, an exquisite shade of crimson-lake suffused with scarlet; a vigorous free grower and very free-flowering. **\$75.00 per 100.**

J. Otto Thilow (Verschuren & Sons, 1927). This variety was named in memory of our late Mr. Thilow. It is a rich, glowing rose-pink of exceptional merit with long, pointed buds of perfect formation as the flowers expand, the petals reflex forming a beautiful large double high centered flower. It is a very strong grower with clean, healthy foliage and a continuous profuse bloomer, a grand garden rose in every respect. **\$60.00 per 100.**

John Russell (Dobbie & Co., 1924). One of the handsomest red Roses, beautiful both in bud and in the fully expanded flower. We have always been pleased with this Rose and everyone admires it for its splendid form and rich color, a very large double flower of a brilliant deep velvety crimson, the growth is exceptionally strong, vigorous and hardy. Awarded the Gold Medal of the Royal Horticultural Society of England. **\$60.00 per 100.**

Lady Florence Stronge (McGredy, 1925). An entirely new, distinct and novel color; a reddish prawn to violet old rose shading to yellow at the base and pink towards the edge, the inner surface of the petals heavily veined and flushed scarlet, the flowers are large, full with high centres and fragrant. Vigorous in growth and free-flowering. **\$60.00 per 100.**

Lady Mary Elizabeth (Alex Dickson & Sons, 1927). A variety of outstanding merit. Of strong, vigorous, upright, branching habit with good healthy foliage and very prolific flowering. Flowers delightfully fragrant. Long pointed buds with deep substantial petals, in color a brilliant carmine-pink. **\$75.00 per 100.**

Lady Margaret Stewart. (1927). Another marvellous introduction of Alexander Dickson & Sons awarded the Gold Medal of the National Rose Society of England at the 1926 Spring Show. A Rose of unique and distinct color, the flowers in the young stage are a deep sunflower yellow heavily veined and splashed with orange-scarlet with the reverse of the petals deeply suffused with carmine, as the flowers develop, these colors intermingle forming a most beautiful cadmium orange effect. The bud is long and pointed, opening to a full double flower, of most pleasing decorative form of delightfully sweet scent. **\$100.00 per 100.**

Lord Charlemont (McGredy, 1922). Although introduced some five years since, this beautiful variety is still very scarce. It is the most gorgeous and brilliant dark red Rose we have with flowers of the most intense clear crimson-scarlet, deepening to carmine-crimson with almost black shadings with perfectly shaped long pointed buds and large, full double, sweetly scented flowers. Free growing and free flowering, a splendid Rose of exceptional richness and beauty. **\$75.00 per 100.**

Lord Lambourne (McGredy, 1925). Deep buttercup-yellow, each individual petal being heavily margined carmine-scarlet, the buds are long opening to large semi-double flowers, a strong vigorous grower and free flowering with strong fruity odor. **\$100.00 per 100.**

Margaret McGredy (McGredy & Sons, 1928). We consider this one of McGredy's most brilliantly colored masterpieces, large, beautifully shaped full double flowers, entirely distinct from all others in its rich coloring, which is a brilliant shade of Turkish or Oriental red, passing as the flowers age to a beautiful carmine-rose, these are borne on long stiff stems and hold their form and beauty for a long time. **\$100.00 per 100.**

New Hybrid-Tea Roses and Varieties of Special Merit

Dormant Stock for Delivery Winter of 1928-1929

Marion Cran (McGredy & Sons, 1927). Messrs. McGredy say of this novelty: "The color combination is the most wonderful we have yet seen in any rose." In the young stage before the flowers expand the color is deep buttercup-yellow, margined and flushed cerise and rosy-scarlet. As the flower opens the outside of the petals retain their color, while the inner side opens a brilliant geranium scarlet flushed and veined orange and yellow; as the flowers age the color changes to a deep cerise on bright rosy-scarlet flushed buttercup-yellow. The whole flower glows and has a wonderful sheen and when fully open the color combination is delightful. The flowers are full, of nice form, and medium to fairly large in size. The habit is bushy, free, and upright, making a magnificent bush; one of the freest and most perpetual flowering garden and bedding roses. Awarded a Certificate of Merit by the National Rose Society of England. \$100.00 per 100.

Mary Pickford (Howard & Smith, 1926). A novel Rose of merit. In habit of growth, it is strong, vigorous, not unlike *Souvenir de Claudius Pernet*. Color, an exquisite shade of orange-yellow, stained on the reverse of the outer petals with salmon and salmon blush. \$50.00 per 100.

Mrs. A. R. Barraclough. (McGredy & Son, 1927). Unquestionably one of the finest Roses ever sent out and winner of a Gold Medal of the National Rose Society of England.

Pink sounds uninteresting in a new Rose, there being so many of this shade, but in this new variety we have a most distinct and valuable addition of a bright but soft sparkling carmine-pink of an even shade passing to yellow at the base of the petals. The color does not fade as the flower ages, but appears to become brighter. The bud is long and perfect and develops into a full double flower of great size, most perfect form and substantial substance; very fragrant. \$100.00 per 100.

New Hybrid-Tea Rose, Mrs. Henry Bowles

Mrs. W. E. Nickerson (McGredy, 1927). An extremely vigorous growing very free-flowering Rose of the duatone *Pernetiana* type. The splendidly-formed buds are of an entrancing new color, the exterior of the petals heavily veined with rose d'or and shaded orange-cadmium, the interior a deep chrome-yellow on the lower half vein out and pass to a warm rich rosy-salmon. Valuable as a garden variety, will also prove most valuable for interior decoration, particularly so as the intensity of coloring is especially effective under artificial light. \$75.00 per 100.

Norman Lambert (McGredy, 1926). The formation and size of the flowers reminds one of *Golden Emblem* but with a distinct color combination that is novel. The outside of the petals is a deep chrome-yellow with a marginal color effect of brilliant orange-scarlet merging to an irregular zone of burnt orange, the inside salmon-orange suffused bronze, shading to yellow at the base. The flowers are of medium size and form with petals of good texture, delightfully fragrant and exceptionally free-flowering. \$75.00 per 100.

Padre (B. R. Cant, 1920). Most attractive and novel in coloring, with long petals of a coppery scarlet flushed with yellow at the base. Growth strong and upright and exceedingly free-flowering. A remarkably beautiful bedding Rose. \$35.00 per 100.

Hybrid-Tea Rose, Mme. Poincare

New Hybrid-Tea Roses and Varieties of Special Merit

Dormant Stock for Delivery Winter of 1928-1929

Miss Theresa Morley (Howard & Smith, 1928). A very strong, vigorous, tall upright grower with large rich dark green, disease-proof foliage and large buds developing into good full flowers of a brilliant carmine cerise. A splendid Rose for the garden, particularly good in late summer and autumn. \$75.00 per 100.

Mrs. Beatty (Cant & Sons, 1926). An exquisite self-colored light lemon-yellow with the delightful perfume of the old favorite Marechal Niel. Habit of growth good, with disease-immune foliage, always in flower with large, long, oval-pointed buds. A rose that is destined to become a popular favorite. Awarded the Gold Medal of the National Rose Society and Certificate of Merit of the Royal Horticultural Society of England. \$100.00 per 100.

Mrs. C. W. Edwards (McGredy, 1924). Rich rosy-scarlet overlaying an orange ground, the base of the petals prettily zoned citron-yellow which runs in faint veinings into the higher colors; a novel color combination. Strong, vigorous habit of growth; very free flowering, with large, full, fragrant flowers. \$75.00 per 100.

Mrs. Erskine Pembroke Thom (Howard & Smith, 1926). We are convinced that this is the best yellow bedding rose we have today. It is of clean healthy vigorous growth with abundant dark bronzy disease-resisting foliage and a continuous free bloomer throughout the season. The medium sized buds are long and shapely and develop into good sized full double very shapely flowers of a rich deep lemon yellow sweetly scented. \$100.00 per 100.

Leslie Pidgeon (Hugh Dickson, 1922). A delightfully informal semi-double decorative flower, orange buff, heavily flushed and suffused with terra cotta shading lighter in hot weather. \$75.00 per 100.

Oliver Mee (Sandy Dickson, 1927). A Rose of great charm and beauty. The buds are long and pointed of exquisite shape and open to large full, high-centered flowers of great distinction. The color in the young state is deep salmon with a heavy flush of clear fawn changing with age to deep salmon-pink. One of the most beautiful roses of recent years, sweetly scented. \$100.00 per 100.

Hybrid-Tea Rose, Mrs. William C. Egan

New Hybrid-Tea Rose, Mon. Julien Potin

Mrs. Henry Bowles (Chaplin, 1921). Everybody admired the old favorite Mme. Abel Chatenay, for a long time one of the most popular Roses but which has practically disappeared from commerce, in this we have the same pleasing warm color values but in flowers of much greater size. Color a most effective deep salmon-pink and of splendid form. Vigorous growing and free flowering. \$50.00 per 100.

Mrs. J. Heath (McGredy, 1924). In the bud stage this is so beautifully shaded and splashed with crimson-red, madder-red orange and running off to maize-yellow at the points making it absolutely indescribable, as the flowers expand the outer petals shade off to maize-yellow tinted peach red while the centre remains deep cadmium-yellow. The buds are long pointed, the flowers full, large and of perfect form and slightly scented. \$75.00 per 100.

Monsieur Julien Potin (The Golden Pernet). This is Mr. Pernet's latest achievement which will probably become better known as The Golden Pernet. It is unquestionably the most gorgeous and brilliant yellow rose yet introduced, a rich golden yellow that grows richer and deeper as the flowers mature. The buds are long and shapely and develop into large, full flowers of beautiful form, delightfully sweet-scented. Habit of growth upright with ample, attractive, glossy, bronzy-green foliage, very free-flowering. \$125.00 per 100.

Mrs. Lovell Swisher (Howard & Smith, 1926). One of the American raised Roses which has come to stay and which as a garden Rose will undoubtedly rank with such popular bedding varieties as Radiance, Red Radiance, Lady Ursula, Mrs. William C. Egan, etc.

It is a remarkably vigorous grower of branching habit, well furnished with excellent foliage, freely producing perfectly formed long shapely buds with nicely reflexing petals that develop into good double flowers. The color of the buds is a deep coppery salmon at base merging to salmon-pink at the tips. The developed flowers are also salmon-pink deepening towards the centre. Delightfully tea scented. \$50.00 per 100.

New Hybrid-Tea Roses and Varieties of Special Merit

Dormant Stock for Delivery Winter of 1928-1929

Mrs. William C. Egan (Howard & Smith, 1922). A strong, healthy grower, with long, pointed buds that develop into flowers of good shape. In color, it is a two-tone-pink, the reverse of the petals, a soft light-pink, the interior, deep, flesh color. An exceptionally free and continuous bloomer. **\$40.00** per 100.

Mrs. Tom Smith (T. Smith & Sons, 1924). A splendid Gold Medal variety of thorough distinctness and merit. A strong erect vigorous grower with dark bronzy foliage and very free flowering with good shapely buds opening to perfect double fragrant flowers of a glowing cerise. **\$75.00** per 100.

Miss Rowena Thom (Howard & Smith, 1928). In vigorous habit of growth, freedom of bloom and in its adaptability to varied climatic conditions, this will prove equal to the popular Radance Roses, while its flowers in size and form are equal to the best high-class varieties of recent introduction and all of which it will outclass in freedom of flowering. Its buds are long and shapely, opening to perfect double flowers frequently 5 inches across of a brilliant rose-pink, the base of the petals having a golden suffusion which as the fragrant flowers unfold, adds to the brilliancy of its coloring. **\$125.00** per 100.

Patience (McGredy, 1924). Another Gold Medal variety, entirely distinct, a brilliant scarlet-carmine-lake, as the flower opens the color is a deep orange at base with orange-scarlet shadings. The flowers are large, of perfect form and last a long time in perfection, delicately sweet scented. The plant is a strong grower of free branching upright habit and a free and perpetual bloomer. **\$100.00** per 100.

Pink Pearl (Leenders & Co., 1924). A dainty variety always admired which seems destined to become a universal favorite if it had nothing to recommend it but its delicious fragrance. In color it is a brilliant rich cerise pink the base of the petals touched with gold that lights up the flower wonderfully, particularly in the half expanded bloom. The flowers are full double, of perfect form and produce most profusely on plants of vigorous, healthy growth. **\$50.00** per 100.

Rev. F. Page Roberts. (Cant & Son, 1921). A Rose of remarkable beauty both in form and color. The long pointed buds are of a coppery-red stained red on the outside and open to good full double fragrant flowers of a golden-yellow particularly high colored in late summer and fall. The plant is of vigorous branching habit with beautiful foliage. A most distinct variety that has deservedly gained great popularity in the short period since its introduction. **\$100.00** per 100.

New Hybrid-Tea Rose, Mrs. Erskine Pembroke Thom

Royal Scot (Dobbie & Co., 1928). A variety of gorgeous coloring with large ovoid buds of the type of Lord Lamborne but much brighter in coloring, a rich golden yellow with crimson edges, the open flowers are of medium size, semi-double, light yellow with crimson edged petals and are borne several together on long stems, growth vigorous, very profuse flowering, of moderate fragrance. **\$150.00** per 100.

Sir David Davis (McGredy & Sons, 1926). As this variety has shown up during the past three seasons we do not hesitate on account of its profuseness in flowering, its free vigorous growth and its good color to select it as one of the best red bedding roses. Color, an unfading deep glowing crimson of an even shade throughout running to light yellow at the base of petals. The flowers are of good size, pointed and of good form with large heavy petals, exceptionally free-flowering and strongly sweet-scented. **\$60.00** per 100.

Victor Waddilove (McGredy, 1926). Buds of splendid form, long and pointed, opening to moderately full flowers, sweetly scented, color imperial pink flushed crimson and orange, the coloring is intensified by the golden base of the petals which gives the flowers a golden suffusion which is difficult to convey. Growth vigorous and very free flowering. **\$60.00** per 100.

Ville de Paris (City of Paris) (Pernet-Ducher, 1926). One of Pernet-Ducher's Gold Medal Roses which award it received in the International trials at the Bagatelle Gardens, Paris, in the summer of 1926.

It is of a rich buttercup-yellow much in the style of Mrs. Beckwith but with longer buds and larger flowers and purer in color. The plant is of vigorous growth and very free flowering. **\$75.00** per 100.

Wilhelm Kordes (Kordes & Sons, 1922). Long pointed buds opening to full double flowers, a rich capucine red overlaying a golden ground, wonderfully prolific. **\$75.00** per 100.

Two New Single Flowering Gems Either for Bedding or for Easter Forcing

We do not know the parentage of these two varieties. They have been introduced as Polyanthas, but are entirely distinct from this type. Both are strong, vigorous growers and profuse bloomers; the flowers are almost single but are held on the plants as persistently as on any of the best of the double flowering Polyantha type. The flowers are of good size, nearly 2 inches in diameter. Aside from being profuse and continuous flowering for bedding purposes, they will also undoubtedly prove popular for Easter forcing as pot plants, being different from anything now grown.

Else Poulsen. An attractive, clear rose-pink.

Kirsten Poulsen. Splendid bright scarlet.
strong two-year-old plants, \$50.00 per 100.

New Hybrid-Perpetual Rose, Mme. Albert Barbier

New Hybrid-Perpetual Rose Mme. Albert Barbier

Introduced two years ago, this remarkable Rose has quickly found its place in popular favor. In its habit of flowering it is as free as many of the popular Hybrid-Tea varieties, its seed parent is Frau Karl Druschki, from which it has inherited a strong, clean, vigorous growth: its buds are long and well formed of a pearly white color suffused with soft, salmony flesh and develop into large, full double imbricated flowers of splendid form which as they expand, show a golden apricot suffused centre. A gem in every respect. \$75.00 per 100.

New Rambler and Climbing Roses

Emily Gray. In this we have a real yellow climbing Rose. \$50.00 per 100.

Ernestine Cosme. A unique single-flowered variety of pretty form and of a delicate soft pink. \$40.00 per 100.

Jacotte. Good sized, delightfully sweet scented flowers of a light salmon-orange with golden-yellow shadings at the base of the petals. \$60.00 per 100.

Le Reve. Another yellow pillar rose on the style of Star of Persia. \$40.00 per 100.

Mermaid. Beautiful large single creamy white flowers. \$75.00 per 100.

Mme. Jenny. Delicate satiny rose color with a delightful fragrance. \$60.00 per 100.

Phyllis Bide. In color a pale gold at base, flushed and shaded pretty rosy-carmine towards the edges. Awarded a Gold Medal at the National Rose Societies Show at Glasgow, Scotland, in 1924. \$60.00 per 100.

Solarium. In single-flowered Ramblers this is a gem. Freely produced and of an intensely rich crimson-scarlet. \$40.00 per 100.

Star of Persia. A brilliant new variety, semi-double, bright yellow. \$40.00 per 100.

The Beacon. A distinct and effective, bright fiery-red, with white eye. \$35.00 per 100.

Climbing Hybrid-Teas and Tender Climbing Roses

Black Boy. Is fiery-scarlet, overlaid with blackish-maroon. \$40.00 per 100.

Climbing Caroline Testout. Combines all the good points of the popular pink bush Rose in climbing form. \$40.00 per 100.

Climbing Hoosier Beauty. Rich, dazzling crimson-scarlet. \$40.00 per 100.

Climbing Lady Ashtown. The best of all the climbing Hybrid-Tea varieties, producing not only an immense crop of its very large soft rose-colored flowers in June, but continuing to bloom almost without intermission until the end of the season. \$40.00 per 100.

Climbing Lady Hillingdon. Coppery yellow. \$40.00 per 100.

Climbing Los Angeles. Beautiful, luminous, flame-pink. \$40.00 per 100.

Climbing Kaiserin Augusta Victoria. A climbing form of this popular white Rose. \$40.00 per 100.

Climbing Miss Lolita Armour. Large coral red with golden coppery suffusion. \$40.00 per 100.

Climbing H. V. Machin. Very large double crimson scarlet. \$40.00 per 100.

Climbing Mme. Edouard Herriot. A climbing form of the popular Daily Mail Rose. \$40.00 per 100.

Climbing Mrs. Aaron Ward. Identical with the bush form, a rich Indian yellow. \$50.00 per 100.

Climbing Rose Marie. A vigorous climbing form of this attractive rose-pink bedding variety. \$40.00 per 100.

Climbing Souvenir de H. A. Verschuren. A strong climbing form of this pretty yellow with larger flowers than in the bush form. \$50.00 per 100.

Gloire de Dijon. An old favorite blush with salmon shadings. \$40.00 per 100.

Gwen Nash. A large semi-double beautiful soft shell-pink opening out flat to a very attractive flower. \$40.00 per 100.

Kitty Kininmonth. Bright fadeless pink with large buds and very large cupped flowers. \$40.00 per 100.

Marechal Niel. The old favorite yellow. \$50.00 per 100.

Miss Marion Manifold. Rich brilliant crimson. \$40.00 per 100.

Paul's Lemon Pillar. Well formed, large, fragrant flowers of a pale lemon-yellow. \$40.00 per 100.

Specialties and General List

Choice Hardy Shrubs

Prices include boxes and packing and delivery to transportation company in Philadelphia

Abelia Chinensis Grandiflora

A choice, small, hardy shrub of graceful habit, producing through the entire summer and fall months white-tinted lilac heather-like flowers in such abundance as to completely cover the plant. 3-inch pots, \$1.50 per doz.; \$10.00 per 100.

Giant-flowered Althea

William R. Smith

Everyone will be pleased with this splendid variety. The habit of the plant is ideal, naturally forming attractive, symmetrical, bushy specimens, while the glistening, pure white flowers are of giant size, open out flat or salver-shaped, quite different from the older types, and are produced in great profusion from early in July until late in September.

Strong plants, 15 to 18 inches high, \$5.00 per doz.; \$40.00 per 100.

The New Red-Leaved Japanese Barberry

Berberis Thunbergi Atropurpurea

This splendid novelty has met with unusual popular favor, immense quantities have been disposed of during the past two seasons, and it is certain to continue in good demand.

We now offer for the coming season well branched bushy plants

	Per doz.	Per 100	Per 1,000

A Million One-Year Seedlings

For Lining Out

Strong seedlings absolutely true to type from seed rows. \$5.00 per 100; \$30.00 per 1,000, or lots of 5,000 or more, \$25.00 per 1,000.

Berberis

Wilsonae. A comparatively scarce dwarf, very hardy species with bright green leaves and many long spines; in the fall the foliage takes on the most brilliant autumn tints. Very strong, 5-inch pots, 75 cts. each.

Buddleia (Butterfly Shrub or Summer Lilac)

Variabilis Magnifica. The best of the Buddleias. Spikes of flowers 18 to 20 inches long, of violet-mauve with yellow centre. \$2.00 per doz.; \$15.00 per 100.

Cotoneaster

Horizontalis. A dependably hardy variety of compact, spreading habit of growth with neat evergreen foliage and very attractive orange-red berries which are set off nicely against the dark foliage and which remain on the plant the entire winter. A most valuable subject for the front of the border or for the rockery. Large field-grown plants being difficult to transplant, we have prepared a lot of thrifty young pot-grown plants which will give satisfactory results. 3-inch pots, \$3.50 per doz.; \$25.00 per 100; 5-inch pots, \$7.50 per doz.; \$60.00 per 100.

Nandina (Chinese Bamboo)

Domestica. A very handsome small shrub, hardy as far north as Philadelphia; it grows about 3 feet high, with graceful, light-green foliage which turns to a most attractive bronzy-red early in the fall. The small white flowers are produced in good-sized, erect panicles in spring and are followed by crimson berries. Strong 6-inch pots, 75 cts. each; \$8.00 per doz.

Golden Variegated California Privet

A fine lot of bushy field-grown plants, 15 to 18 inches high, which if potted will make excellent stock for window boxes. \$3.50 per doz.; \$25.00 per 100.

Viburnum

Rhytidophyllum. A rare variety, particularly attractive on account of its large dark green nearly evergreen foliage, the yellowish white flowers are followed in September by red berries finally turning black. Strong pot-grown plants, 1½ to 2 feet high, 75 cts. each; \$7.50 per doz.

Vitex Macrophylla

In general habit similar to *V. Agnus Castus*, but much stronger in all parts, the foliage being larger while the trusses of rich lavender-blue flowers are fully double the size. It blooms from July until frost, and is likely to become as popular as the Butterfly Shrub.

Field-grown plants, one-year old, 15 to 18 inches high, \$2.00 per doz.; \$15.00 per 100.

Strong plants, \$3.50 per doz.; \$25.00 per 100.

Clematis Paniculata (Japanese Virgin's Bower)

We, and no doubt every other grower and planter of *Clematis Paniculata*, have frequently met with serious losses in the transplanting of field-grown stock, and the larger and older the plants are, the more serious the losses; this has determined us to offer these only in pot-grown plants in which no losses will occur and quicker results will be obtained.

Strong, 3-inch pots, \$1.50 per doz.; \$10.00 per 100; \$75.00 per 1000.

Large Flowering Clematis

Duchess of Edinburgh. Double white.

Jackmani. Blue.

Henryl. White.

Mme. Edouard Andre. Bright rosy carmine.

Two-year-old plants, 60 cts. each.

Clematis Montana (*Anemone Clematis*)

A strong, vigorous, perfectly hardy type that succeeds under the most adverse conditions. The *Anemone* or *Windflower*-like flowers are from 1½ to 2 inches in diameter and frequently begin to expand as early as the last week in April, continuing well through May and are produced very freely. The best of the early Spring-flowering climbers, of which there are but few.

Undulata. White flushed with mauve. Undulated or wavy petals.

Either of the above, 75 cts. each; \$7.50 per doz.

Euonymus

Kewensis. A variety with very small dark green foliage. Everyone who has seen this appreciates its value as a rock plant or ground cover. It grows close to the ground, and is one of the most valuable plants for under trees where grass will not grow. 3-inch pots, \$1.75 per doz.; \$12.00 per 100.

Radicans. Strong plants of this desirable green cover plant. \$1.75 per doz.; \$12.00 per 100.
