ASPENIUM NIDUS AVIS (Bird's Nest Fern)

Adiantum Farleyense Gloriosum.

The Glory Fern.

This splendid Fern which so closely resembles *Adiantum Farleyense* in appearance and which does not require the special skill and care in growing that is necessary to produce good plants of *A. Farleyense*, has quickly made a place for itself, not only on account of the fact that it can be produced for little over half that of growing *Farleyense*, but also because either in a cut state or as plants used in decorative work, it will outlast the old variety ten to one, making it an available subject where *Farleyense* can not be used at all.

We have this season prepared an extra large stock and we offer for present delivery a fine lot of 2½-inch pots at \$1.75 doz.; \$12.00 per 100.

For August and later delivery we are booking orders for 3-inch pots, \$2.50 per doz.; \$18.00 per 100.

POT-GROWN HARDY PERENNIALS

We will carry the following varieties in pot-grown plants throughout the summer in such condition that they can be planted at any time. This is a good stock to keep in mind, as it frequently happens that summer plantings are required to cover failures and misses in other stocks. Many of these varieties will still give an account of themselves and make a good showing this season, while all, if planted now, will be in fine shape for next year's flowering.
